Members of the House of Representatives:

I am pleased to send you the final end-of-session report prepared by the House of Representatives' Office of Program Research.

This "Summary of Legislation Passed by the Washington State Legislature" summarizes all of the bills that passed the Legislature during the 2021 Regular Session. This version includes information regarding any bills that have been vetoed, or partially vetoed, by the Governor.

The "Legislative Budget Notes" for 2021 will be available online at <http://fiscal.wa.gov/OperatingBillsDocsLBNs.aspx> when complete. This publication will contain summary and detail information about enacted operating, transportation, and capital budget

If you have any questions about bills or budgets, please feel free to contact committee staff. For your convenience, a committee phone list is included in the report.

If you have any comments or if I can be of assistance, please let me know, I can be reached at (360) 438-1997 or [jill.reinmuth@leg.wa.gov](mailto:jill.reinmuth@leg.wa.gov).

Best regards,

| E2SHB 1050 | Fitzgibbon,<br>Ortiz-Self,<br>Ramos | <p><b>Reducing Greenhouse Gas Emissions from Fluorinated Gases -</b> Authorizes the Department of Ecology (Ecology) to establish a maximum global warming potential (GWP) threshold for hydrofluorocarbons (HFCs) used in new stationary air conditioning and stationary refrigeration, and directs Ecology to establish a GWP threshold for new ice rinks. Applies certain existing regulations addressing emissions of ozone-depleting substances to HFCs. Directs Ecology to establish a refrigerant management program to address refrigerant emissions from large stationary refrigeration and heating and cooling systems. Requires Ecology to provide recommendations to the Legislature by December 1, 2021, regarding the design of a program to address the end-of-life management and disposal of refrigerants. Establishes a state purchasing and procurement preference for recycled refrigerants. Encourages the mandatory cost-effective conservation activities of electric utilities to include promoting the adoption of air conditioning equipment that has a GWP below 750 and the replacement of stationary refrigeration systems that contain ozone-depleting substances or high-GWP refrigerants. Requires the State Building Code Council to adopt rules that allow the use of low-GWP refrigerants to the maximum extent practicable.</p> | C 315 L 21 |

| E3SHB 1091 | Fitzgibbon,<br>Slatter, Duerr | <p><b>Establishing a Clean Fuels Program that reduces the Carbon Intensity of Transportation Fuel</b> - Directs the Department of Ecology (Ecology) to adopt rules establishing a Clean Fuels Program (CFP) to limit the aggregate, overall greenhouse gas (GHG) emissions per unit of transportation fuel energy to 20 percent below 2017 levels by 2038. Prohibits the assigning of compliance obligations or the authorization of credit generation until the enactment of a transportation revenue package that includes a 5 cent motor vehicle fuel tax. Pauses reductions in the carbon intensity standard at no greater than 10 percent below 2017 levels until at least 2033 and specified activities occur. Excludes certain categories of transportation fuel from the CFP's GHG emission intensity reduction requirements. Requires the CFP to include processes for registering, reporting, and tracking compliance obligations and establishing bankable, tradeable credits to satisfy compliance obligations. Establishes a credit clearance market with a specified maximum credit price. Defers compliance obligations under the CFP for regulated parties under emergencies or low supply forecasts. Allows certain biofuel refineries to apply for siting permits. Requires annual reporting by Ecology on the CFP, fuel supply forecasting reports by the Department of Commerce, as well as an analysis of the program's first five years by the Joint Legislative Audit and Review Committee. Retains the current distribution of revenue under the 2015 Transportation Revenue Package, eliminating changes that would have been triggered as a result of the establishment of a CFP.</p> <p><b>Partial Veto:</b><br/>Vetoes the prohibition on assigning compliance obligations or the authorization of credit generation until the enactment of a transportation revenue package that includes a 5 cent motor vehicle fuel tax.</p> | C 317 L 21<br>Partial Veto |

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 127(18); 137(13); 308(18); 738; 1110 (9); 955; and 1703, page 1076, lines 34-35, Engrossed Substitute Senate Bill No. 5092 entitled:

“AN ACT Relating to fiscal matters.”

**Section 127(18), pages 27-28, Attorney General, Washington State Missing and Murdered Indigenous Women and People Task Force**

Section 127(18) provides funding for the Attorney General’s Office to support the Washington State Missing and Murdered Indigenous Women and People Task Force established in Section 955 of this act. Because the wrong version of the section was included in the enacted budget, I have vetoed Section 955. Since Section 955 is vetoed, the funding in this proviso is no longer needed. Therefore, I have vetoed Section 127(18).

However, the work of this task force is extremely important, and the Attorney General’s Office has agreed to convene the task force and begin the work set forth in this section. I will request the funding necessary for this task force in my next supplemental budget request.

**Section 137(13), page 95, Department of Revenue, Future Taxation of Digital Products Work Group and Report**

This section directs the Department of Revenue to convene a stakeholder work group to analyze and develop recommendations on the future taxation of digital products that are used in the electronic processing of prescriptions. The department must submit the analysis and recommendations in a report to the Legislature by December 1, 2021. Because funding was not provided for the department to do this work, I have vetoed Section 137(13).

However, I am directing the department to work with stakeholders to assist them in developing and drafting legislation that will help reduce the tax burden on pharmacies as it relates to digital services that are used in the processing of electronic prescriptions and transmission of prescription drug claims data.

**Section 308(18), page 330, Department of Fish and Wildlife, Columbia River Gillnet License Buyback**

This section provides funding solely for a voluntary buyback of Columbia River commercial gillnet licenses which is something I supported in my proposed budget. However, the last sentence of this section also requires the department to only authorize mainstem gillnet and drift net fisheries in

certain areas of the Columbia River for one particular salmon run based on a set allocation for commercial fisheries. This allocation for commercial fisheries conflicts with Washington's agreement with the state of Oregon on management of commercial gillnet fisheries on the Columbia River. In addition, the last sentence potentially limits the department from issuing fishing licenses for other species such as eulachon or shad and from issuing permits for other commercial gear types. This may have unknown impacts on other fisheries along the Columbia River. Although I support the voluntary buyback of commercial gill net licenses on the Columbia River, I cannot support these additional provisions. For these reasons, I have vetoed Section 308(18).

**Section 738, page 506-507, Office of Financial Management, Home and Community Based Services**

This section requires OFM to direct spending from this appropriation dependent upon receiving guidance from the Centers for Medicare and Medicaid Services (CMS) by May 10, 2021, that extends the use of Home and Community Based Services funds beyond December 31, 2022. In Section 738(2), the Legislature expressed its intent to direct expenditures if CMS extended the expenditure time period. CMS provided guidance on May 13, 2021, extending the use of this fund source through March 2024.

For this reason, I have vetoed Section 738 to follow the spirit of the proviso and enable the Legislature to decide how the funds should be used.

**Section 1110(9), page 631, Office of Civil Legal Aid, Tenant Representation Outcome Study**

This section reduces the appropriations for a research-based controlled comparative study of the differences in outcomes for tenants facing eviction who receive legal representation and tenants facing eviction without legal representation in unlawful detainer cases filed under the Residential Landlord-Tenant Act. This reduction in funding includes fiscal year 2020. This fiscal year has closed and can no longer have changes in appropriation. For this reason, I have vetoed Section 1110 (9). I will ask the Office of Civil Legal Aid to place \$317,500 in reserve status for fiscal year 2021.

**Section 955, pages 541 through 544**

Section 955 creates the Washington State Missing and Murdered Indigenous Women and People Task Force and sets out the members of the task force, the work of the task force, and specific duties and authority for the Washington State Attorney General to support the task force. The budget did not include the correct version of this section and has some issues that cannot be overcome. Because of the problems that arise from this version, I have vetoed Section 955.

However, this work is extremely important and needs to move forward. We have coordinated with the Attorney General's Office, which will use its existing authority to convene the task force and begin the work set forth in this section. I will include the creation of the task force as intended in my next supplemental budget request.

**Section 1703, page 1076, lines 34-35, State Treasurer, Bond Retirement and Interest**

This section intends to adjust the appropriations for Nondebt-limit General Fund bond retirement in fiscal year 2021 to necessary levels. It appears the appropriation is an error. For this reason, I have vetoed Section 1703, page 1076, lines 34-35, (Nondebt-Limit Reimbursable Bond Retirement Account-State Appropriation).

For these reasons I have vetoed Sections 127(18); 137(13); 308(18); 738; 1110(9); 955; and 1703, page 1076, lines 34-35 of Engrossed Substitute Senate Bill No. 5092.

With the exception of Sections 127(18); 137(13); 308(18); 738; 1110(9); 955; and 1703, page 1076, lines 34-35, Engrossed Substitute Senate Bill No. 5092 is approved.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Jay Inslee", is written over a faint, circular watermark or seal.

May 18, 2021

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 205(2); 205(4); 205(5); 220, page 48, line 15, beginning with “Fuel” through line 16 ending with “process.”; page 48, line 28, beginning with “Fuel” through line 29 ending with “process.”; page 48, line 32, beginning with “Fuel” through line 33 ending with “process.”; page 49, line 5, beginning with “Fuel” through line 6 ending with “process.”; page 49, line 37, beginning with “Fuel” through line 38 ending with “process.”; and page 50, line 18, beginning with “Fuel” through line 19 ending with “process.”; 309, page 70, line 35, beginning with “No” through page 71, line 2, ending with “biennium.”; and 920(1), pages 175-176; 920(2), page 176; 920(3), page 176; page 177, line 13, beginning with “Fuel” and ending with “process.”; page 177, line 33, beginning with “Fuel” through line 34 ending with “process.”; and 920(9), page 179, Substitute Senate Bill No. 5165 entitled:

“AN ACT Relating to transportation funding and appropriations.”

**Section 205(5), pages 18-19, Transportation Commission, Unfunded Study**

This section directs the Transportation Commission to evaluate and identify activities funded in the transportation budget that might be paid for using other revenue resources. This proviso also instructs the commission to recommend potential changes to funding sources in order to maintain a state of good repair. There was no funding provided to support this work. For this reason, I have vetoed Section 205(5).

**Section 220, page 48, line 15, beginning with “Fuel” through line 16 ending with “process.”; page 48, line 28, beginning with “Fuel” through line 29 ending with “process.”; page 48, line 32, beginning with “Fuel” through line 33 ending with “process.”; page 49, line 5, beginning with “Fuel” through line 6 ending with “process.”; page 49, line 37, beginning with “Fuel” through line 38 ending with “process.”; and page 50, line 18, beginning with “Fuel” through line 19 ending with “process.”**

Section 220 includes the following sentence in six provisos: “Fuel type may not be a factor in the grant selection process.” This sentence is a nondollar proviso that is subject to the governor’s veto authority. It is also substantive legislation included in an appropriations bill that either conflicts with or amends the statutory mandates in RCW 47.66.040 and 47.66.030 that direct WSDOT to consider, among other criteria, energy efficiency issues and federal and state air quality requirements in selecting programs and projects. In addition, this requirement conflicts with, or at best substantially impairs, the statutory mandate for the state and local government subdivisions to transition to zero emission vehicles as articulated in RCW 43.19.648.

The sentence at issue is a policy change — that is, an amendment — to existing statutory requirements. As such, the sentence violates Article II, Sections 19 and 37 of the Washington State Constitution.

It is well established that the governor’s veto powers in Article III, Section 12 of the Washington State Constitution extend to appropriation items and full subsections or provisos in an appropriations bill. It is also well established that our courts will intervene to prevent obvious circumvention of the veto power by the Legislature or equally obvious manipulation of that power by the governor. The addition of this sentence within these provisos constrains my ability to exercise the constitutionally authorized veto powers.

Based on the above concerns, I previously vetoed this sentence in several subsections in the 2019-21 biennial transportation budget bill, Engrossed Substitute House Bill 1160, to prevent a constitutional violation and a forced violation of state law. Litigation regarding this matter is ongoing. Because the same sentence is included again in this biennial transportation appropriations bill and because the litigation has not been resolved yet by our state Supreme Court, I again have no choice but to veto this sentence that appears in several subsections.

For these reasons, I have vetoed Section 220, page 48, line 15, beginning with “Fuel” through line 16 ending with “process.”; page 48, line 28, beginning with “Fuel” through line 29 ending with “process.”; page 48, line 32, beginning with “Fuel” through line 33 ending with “process.”; page 49, line 5, beginning with “Fuel” through line 6 ending with “process.”; page 49, line 37, beginning with “Fuel” through line 38 ending with “process.”; and page 50, line 18, beginning with “Fuel” through line 19 ending with “process.”

**Section 309, page 70, line 35, beginning with “No” through page 71, line 2, ending with “biennium.”**

Section 309 provides the appropriation authority for the Washington State Ferries construction program. Section 309(1) includes the following sentence: “No funds appropriated in this act or additional funds received through the unanticipated receipt process may be allocated or expended for terminal electrification purposes this biennium.” This sentence would prohibit any funds appropriated in the transportation budget, and not just this section, and any future funds that may be received as an unanticipated receipt, from being spent on the electrification of ferry terminals. This could result in the Department of Transportation foregoing opportunities to pursue funding for terminal electrification and charging, contrary to the needs of the ferries program. As we continue the work toward the first 144-car hybrid electric vessel and the conversion of the Jumbo Mark II vessel, we must also pursue the charging infrastructure to be able to access electricity for seamless operations.

It is well established that the governor’s veto powers in Article III, Section 12 of the Washington State Constitution extend to appropriation items and full subsections or provisos in an appropriations bill. It is also well established that our courts will intervene to prevent obvious circumvention of the veto power by the Legislature or equally obvious manipulation of that power by the governor.

This sentence is a nondollar proviso that is subject to the governor’s veto authority. The sentence is a condition on the entire transportation budget bill and on unanticipated receipts and thus does not naturally fit together with the other language in Section 309(1), which is a separate proviso applying to only the appropriations in Section 309.

The prohibition on terminal electrification expenditures not only stifles the ongoing work by Washington State Ferries to electrify fleets and terminals, but also eliminates pathways to attain federal funds or other grants. While my veto authority is generally limited to sections, subsections or appropriation items in an appropriations bill, this sentence embedded in a subsection is a separate, nondollar appropriation item that is subject to my veto. The deleterious effects of this prohibition leave me no choice but to veto this sentence.

For these reasons, I have vetoed Section 309, page 70, line 35, beginning with “No” through page 71, line 2, ending with “biennium.”.

**Section 920(1), pages 175-176; Section 920(2), page 176; Section 920(3), page 176; page 177, line 13, beginning “Fuel” and ending with “process.”; page 177, line 33, beginning with “Fuel” through line 34 ending with “process.”; and Section 920(9), page 179**

Section 920 includes the following sentence in seven provisos: “Fuel type may not be a factor in the grant selection process.” I previously vetoed this sentence in six provisos in the 2019-21 biennial transportation budget bill, Engrossed Substitute House Bill 1160, for the reasons set forth in my veto message for Section 220 of this bill. Because Section 920 amends current law to reinstate the sentence that I had previously vetoed, I again have no choice but to veto the provisos that contain this sentence and have vetoed the sentence in two other provisos.

For these reasons, I have vetoed Section 920(1), pages 175-176; Section 920(2), page 176; Section 920(3), page 176; page 177, line 13, beginning with “Fuel” and ending with “process.”; page 177, line 33, beginning with “Fuel” through line 34 ending with “process.”; and Section 920(9), page 179.

I have vetoed the following sections related to bills that did not pass the Legislature, resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

**Section 205(2), page 18, Transportation Commission, SSB 5444, Implementing a per mile charge on electric and hybrid vehicles**

**Section 205(4), page 18, Transportation Commission, SSB 5444, Implementing a per mile charge on electric and hybrid vehicles**

For these reasons I have vetoed Sections 205(2); 205(4); 205(5); 220, page 48, line 15, beginning with “Fuel” through line 16 ending with “process.”; page 48, line 28, beginning with “Fuel” through line 29 ending with “process.”; page 48, line 32, beginning with “Fuel” through line 33 ending with “process.”; page 49, line 5, beginning with “Fuel” through line 6 ending with “process.”; page 49, line 37, beginning with “Fuel” through line 38 ending with “process.”; and page 50, line 18, beginning with “Fuel” through line 19 ending with “process.”; 309, page 70, line 35, beginning with “No” through page 71, line 2, ending with “biennium.”; and 920(1), pages 175-176; 920(2), page 176; 920(3), page 176; page 177, line 13, beginning with “Fuel” and ending with “process.”; page 177, line 33, beginning with “Fuel” through line 34 ending with “process.”; and 920(9), page 179 of Substitute Senate Bill No. 5165.

With the exception of Sections 205(2); 205(4); 205(5); 220, page 48, line 15, beginning with “Fuel” through line 16 ending with “process.”; page 48, line 28, beginning with “Fuel” through line 29 ending with “process.”; page 48, line 32, beginning with “Fuel” through line 33 ending with “process.”; page 49, line 5, beginning with “Fuel” through line 6 ending with “process.”; page 49, line 37, beginning with “Fuel” through line 38 ending with “process.”; and page 50, line 18, beginning with “Fuel” through line 19 ending with “process.”; 309, page 70, line 35, beginning with “No” through page 71, line 2, ending with “biennium.”; and 920(1), pages 175-176; 920(2), page 176; 920(3), page 176; page 177, line 13, beginning with “Fuel” and ending with “process.”; page 177, line 33, beginning with “Fuel” through line 34 ending with “process.”; and 920(9), page 179, Substitute Senate Bill No. 5165 is approved.

Respectfully submitted,

Jay Inslee  
Governor
