LANDLORD ACCESS TO RENTAL ASSISTANCE PROGRAMS

NEW SECTION. **Sec. 12.** A new section is added to chapter 43.185C RCW to read as follows:

(1) The department must authorize landlords an opportunity to apply to the following programs, if feasible, and establish application and eligibility requirements and any conditions on the receipt of funds as the department deems appropriate:

(a) Rental assistance provided through the consolidated homeless grant program;

(b) Rental assistance provided through the emergency solutions grant program; and

(c) Any rental assistance program funded through receipt of any federal COVID-19 relief funds.

(2) Until March 31, 2022, the department must provide rental assistance directly to a landlord on behalf of an indigent tenant who is unable to:

(a) Access an eviction resolution pilot program, as described in section 7 of this act, because such a program is either not available in the region in which the property is located or the regional program is not accepting new claims; or

(b) Obtain legal representation as described in section 8 of this act.

(3) For the purposes of this section, "indigent" has the same meaning as section 8(2) of this act.

NEW SECTION. **Sec. 13.** The sum of \$7,500,000 for the fiscal biennium ending June 30, 2023, is appropriated from the coronavirus state fiscal recovery fund created in Engrossed Substitute Senate Bill No. 5092 (operating budget) to the department of commerce for the purposes of a landlord grant assistance program to provide grants to eligible landlords for rent that was not paid during the eviction moratorium pursuant to the governor's proclamation 20-19.6. The department shall have such rule-making authority as the department deems necessary to administer the program.

(1) To be eligible for a grant under this section, a landlord must:

(a) Apply for a grant or have a property manager or property management company apply for a grant on behalf of a landlord;

(b) Be the sole investor in the property from which they are seeking rental arrears;

(c) Be the owner of no more than 10 dwelling units from which they receive rental payments; and

(d) Provide proof of ownership of the property and a statement certified under penalty of perjury of the amount of rent due during the eviction moratorium that the landlord was not paid by the tenant, through funds acquired through an emergency rental assistance program provided by a governmental or nonprofit entity, through the state landlord mitigation program defined in RCW 43.31.605, or through any other means that would reasonably be considered payment of rent due.

(2) Eligible landlords may receive a grant of up to 80 percent of the total amount of rent in arrears.

(3) The department will disburse funds to eligible landlords within 60 days of submission of the application. Eligibility for a grant under this section does not constitute an entitlement for payment. If eligible applications for grants exceed the funds appropriated in this section, the department must create and maintain a waitlist in the order the applications are received pursuant to this section. The department shall not be civilly or criminally liable and may not have any penalty or cause of action of any nature arise against it regarding the provision or lack of provision of funds.

(4) The department shall provide a report to the appropriate committees of the legislature by September 30, 2023, which shall include the number of eligible applicants who received grants and the total funds provided to such applicants, the number of eligible applicants on the waitlist who did not receive grants and the total amount of grants unpaid due to lack of funds, and the number of ineligible applicants and the reasons for ineligibility.

(b) Pursuing collection, or authorizing another entity to pursue collection on the landlord's behalf, against the tenant for unpaid rent or damages attributable to the same tenancy.

(6) This section expires December 31, 2024.

OTHER TENANT PROTECTIONS

Sec. 14. RCW 59.12.040 and 2010 c 8 s 19007 are each amended to read as follows:

Any notice provided for in this chapter shall be served either (1) by delivering a copy personally to the person entitled thereto; or (2) if he or she be absent from the premises unlawfully held, by leaving there a copy, with some person of suitable age and discretion, and sending a copy through the mail addressed to the person entitled thereto at his or her place of residence; or (3) if the person to be notified be a tenant, or an unlawful holder of premises, and his or her place of residence is not known, or if a person of suitable age and discretion there cannot be found then by affixing a copy of the notice in a conspicuous place on the premises unlawfully held, and also delivering a copy to a person there residing, if such a person can be found, and also sending a copy through the mail addressed to the tenant, or unlawful occupant, at the place where the premises unlawfully held are situated. Service upon a subtenant may be made in the same manner: PROVIDED, That in cases where the tenant or unlawful occupant, shall be conducting a hotel, inn, lodging house, boarding house, or shall be renting rooms while still retaining control of the premises as a whole, that the guests, lodgers, boarders, or persons renting such rooms shall not be considered as subtenants within the meaning of this chapter, but all such persons may be served by affixing a copy of the notice to be served in two conspicuous places upon the premises unlawfully held; and such persons shall not be necessary parties defendant in

an action to recover possession of said premises. Service of any notice provided for in this chapter may be had upon a corporation by delivering a copy thereof to any officer, agent, or person having charge of the business of such corporation, at the premises unlawfully held, and in case no such officer, agent, or person can be found upon such premises, then service may be had by affixing a copy of such notice in a conspicuous place upon said premises and by sending a copy through the mail addressed to such corporation at the place where said premises are situated. Proof of any service under this section may be made by the affidavit of the person making the same in like manner and with like effect as the proof of service of summons in civil actions. When a copy of notice is sent through the mail, as provided in this section, service shall be deemed complete when such copy is deposited in the United States mail in the county in which the property is situated properly addressed with postage prepaid: PROVIDED, HOWEVER, That when service is made by mail one additional day shall be allowed before the commencement of an action based upon such notice. (~~RCW 59.18.375 may also apply to notice given under this chapter.~~)

Sec. 15. RCW 59.18.230 and 2020 c 315 s 6 and 2020 c 177 s 2 are each reenacted and amended to read as follows:

(1)(a) Any provision of a lease or other agreement, whether oral or written, whereby any section or subsection of this chapter is waived except as provided in RCW 59.18.360 and shall be deemed against public policy and shall be unenforceable. Such unenforceability shall not affect other provisions of the agreement which can be given effect without them.

(b) Any agreement, whether oral or written, between a landlord and tenant, or their representatives, and entered into pursuant to an unlawful detainer action under this chapter that requires the tenant to pay any amount in violation of RCW 59.18.283 or the statutory judgment amount limits under RCW 59.18.410 (1) or (2), or waives any rights of the tenant under RCW 59.18.410 or any other rights afforded under this chapter except as provided in RCW 59.18.360 is void and unenforceable. A landlord may not threaten a tenant with eviction for failure to pay nonpossessory charges limited under RCW 59.18.283.

(2) No rental agreement may provide that the tenant:

(a) Agrees to waive or to forgo rights or remedies under this chapter; or

(b) Authorizes any person to confess judgment on a claim arising out of the rental agreement; or

(c) Agrees to pay the landlord's attorneys' fees, except as authorized in this chapter; or

(d) Agrees to the exculpation or limitation of any liability of the landlord arising under law or to indemnify the landlord for that liability or the costs connected therewith; or

(e) And landlord have agreed to a particular arbitrator at the time the rental agreement is entered into; or

(f) Agrees to pay late fees for rent that is paid within five days following its due date. If rent is more than five days past due, the landlord may charge late fees commencing from the first day after the due date until paid. Nothing in this subsection prohibits a landlord from serving a notice to pay or vacate at any time after the rent becomes due.

(3) A provision prohibited by subsection (2) of this section included in a rental agreement is unenforceable. If a landlord deliberately uses a rental agreement containing provisions known by him or her to be prohibited, the tenant may recover actual damages sustained by him or her, statutory damages not to exceed (~~five hundred dollars~~) \$500, costs of suit, and reasonable attorneys' fees.

(4) The common law right of the landlord of distress for rent is hereby abolished for property covered by this chapter. Any provision in a rental agreement creating a lien upon the personal property of the tenant or authorizing a distress for rent is null and void and of no force and effect. Any landlord who takes or detains the personal property of a tenant without the specific written consent of the tenant to such incident of taking or detention, and who, after written demand by the tenant for the return of his or her personal property, refuses to return the same promptly shall be liable to the tenant for the value of the property retained, actual damages, and if the refusal is intentional, may also be liable for damages of up to ~~((five hundred dollars))~~ \$500 per day but not to exceed ~~((five thousand dollars))~~ \$5,000, for each day or part of a day that the tenant is deprived of his or her property. The prevailing party may recover his or her costs of suit and a reasonable attorneys' fee.

In any action, including actions pursuant to chapters 7.64 or 12.28 RCW, brought by a tenant or other person to recover possession of his or her personal property taken or detained by a landlord in violation of this section, the court, upon motion and after notice to the opposing parties, may waive or reduce any bond requirements where it appears to be to the satisfaction of the court that the moving party is proceeding in good faith and has, prima facie, a meritorious claim for immediate delivery or redelivery of said property.

Sec. 16. RCW 59.20.040 and 1999 c 359 s 3 are each amended to read as follows:

This chapter shall regulate and determine legal rights, remedies, and obligations arising from any rental agreement between a landlord and a tenant regarding a mobile home lot and including specified amenities within the mobile home park, mobile home park cooperative, or mobile home park subdivision, where the tenant has no ownership interest in the property or in the association which owns the property, whose uses are referred to as a part of the rent structure paid by the tenant. All such rental agreements shall be unenforceable to the extent of any conflict with any provision of this chapter. Chapter 59.12 RCW shall be applicable only in implementation of the provisions of this chapter and not as an alternative remedy to this chapter which shall be exclusive where applicable: PROVIDED, That the provision of RCW 59.12.090, 59.12.100, and 59.12.170 shall not apply to any rental agreement included under the provisions of this chapter. RCW 59.18.055 ~~((and 59.18.370))~~, section 8 of this act, 59.18.365, 59.18.370, and 59.18.380 through 59.18.410 shall be applicable to any action of forcible entry or detainer or unlawful detainer arising from a tenancy under the provisions of this chapter, except when a mobile home, manufactured home, or park model or a tenancy in a mobile home lot is abandoned. Rentals of mobile homes, manufactured homes, or park models themselves are governed by the residential landlord-tenant act, chapter 59.18 RCW.

Sec. 17. RCW 59.18.410 and 2020 c 315 s 5 are each amended to read as follows:

(1) If at trial the verdict of the jury or, if the case is tried without a jury, the finding of the court is in favor of the landlord and against the tenant, judgment shall be entered for the restitution of the premises; and if the proceeding is for unlawful detainer after neglect or failure to perform any condition or covenant of a lease or agreement under which the property is held, or after default in the payment of rent, the judgment shall also declare the forfeiture of the lease, agreement, or tenancy. The jury, or the court, if the proceedings are tried without a jury, shall also assess the damages arising out of the tenancy occasioned to the landlord by any forcible entry, or by any forcible or unlawful detainer, alleged in the complaint and proved at trial, and, if the alleged unlawful

detainer is based on default in the payment of rent, find the amount of any rent due, and the judgment shall be rendered against the tenant liable for the forcible entry, forcible detainer, or unlawful detainer for the amount of damages thus assessed, for the rent, if any, found due, and late fees if such fees are due under the lease and do not exceed seventy-five dollars in total. The court may award statutory costs. The court may also award reasonable attorneys' fees as provided in RCW 59.18.290.

(2) When the tenant is liable for unlawful detainer after a default in the payment of rent, execution upon the judgment shall not occur until the expiration of five court days after the entry of the judgment. Before entry of a judgment or until five court days have expired after entry of the judgment, the tenant or any subtenant, or any mortgagee of the term, or other party interested in the continuance of the tenancy, may pay into court or to the landlord the amount of the rent due, any court costs incurred at the time of payment, late fees if such fees are due under the lease and do not exceed seventy-five dollars in total, and attorneys' fees if awarded, in which event any judgment entered shall be satisfied and the tenant restored to his or her tenancy. If the tenant seeks to restore his or her tenancy after entry of a judgment, the tenant may tender the amount stated within the judgment as long as that amount does not exceed the amount authorized under subsection (1) of this section. If a tenant seeks to restore his or her tenancy and pay the amount set forth in this subsection with funds acquired through an emergency rental assistance program provided by a governmental or nonprofit entity, the tenant shall provide a copy of the pledge of emergency rental assistance provided from the appropriate governmental or nonprofit entity and have an opportunity to exercise such rights under this subsection, which may include a stay of judgment and provision by the landlord of documentation necessary for processing the assistance. The landlord shall accept any pledge of emergency rental assistance funds provided to the tenant from a governmental or nonprofit entity before the expiration of any pay or vacate notice for nonpayment of rent for the full amount of the rent owing under the rental agreement. The landlord shall accept any written pledge of emergency rental assistance funds provided to the tenant from a governmental or nonprofit entity after the expiration of the pay or vacate notice if the pledge will contribute to the total payment of both the amount of rent due, including any current rent, and other amounts if required under this subsection. The landlord shall suspend any court action for seven court days after providing necessary payment information to the nonprofit or governmental entity to allow for payment of the emergency rental assistance funds. By accepting such pledge of emergency rental assistance, the landlord is not required to enter into any additional conditions not related to the provision of necessary payment information and documentation. If a judgment has been satisfied, the landlord shall file a satisfaction of judgment with the court. A tenant seeking to exercise rights under this subsection shall pay an additional fifty dollars for each time the tenant was reinstated after judgment pursuant to this subsection within the previous twelve months prior to payment. If payment of the amount specified in this subsection is not made within five court days after the entry of the judgment, the judgment may be enforced for its full amount and for the possession of the premises.

(3)(a) Following the entry of a judgment in favor of the landlord and against the tenant for the restitution of the premises and forfeiture of the tenancy due to nonpayment of rent, the court, at the time of the show cause hearing or trial, or upon subsequent motion of the tenant but before the execution of the writ of restitution, may stay the writ of restitution upon good cause and on such terms that the court deems fair and just for both parties.

In making this decision, the court shall consider evidence of the following factors:

- (i) The tenant's willful or intentional default or intentional failure to pay rent;
- (ii) Whether nonpayment of the rent was caused by exigent circumstances that were beyond the tenant's control and that are not likely to recur;
- (iii) The tenant's ability to timely pay the judgment;
- (iv) The tenant's payment history;
- (v) Whether the tenant is otherwise in substantial compliance with the rental agreement;
- (vi) Hardship on the tenant if evicted; and
- (vii) Conduct related to other notices served within the last six months.

(b) The burden of proof for such relief under this subsection (3) shall be on the tenant. If the tenant seeks relief pursuant to this subsection (3) at the time of the show cause hearing, the court shall hear the matter at the time of the show cause hearing or as expeditiously as possible so as to avoid unnecessary delay or hardship on the parties.

(c) In any order issued pursuant to this subsection (3):

(i) The court shall not stay the writ of restitution more than ninety days from the date of order, but may order repayment of the judgment balance within such time. If the payment plan is to exceed thirty days, the total cumulative payments for each thirty-day period following the order shall be no less than one month of the tenant's share of the rent, and the total amount of the judgment and all additional rent that is due shall be paid within ninety days.

(ii) Within any payment plan ordered by the court, the court shall require the tenant to pay to the landlord or to the court one month's rent within five court days of issuance of the order. If the date of the order is on or before the fifteenth of the month, the tenant shall remain current with ongoing rental payments as they become due for the duration of the payment plan; if the date of the order is after the fifteenth of the month, the tenant shall have the option to apportion the following month's rental payment within the payment plan, but monthly rental payments thereafter shall be paid according to the rental agreement.

(iii) The sheriff may serve the writ of restitution upon the tenant before the expiration of the five court days of issuance of the order; however, the sheriff shall not execute the writ of restitution until after expiration of the five court days in order for payment to be made of one month's rent as required by (c)(ii) of this subsection. In the event payment is made as provided in (c)(ii) of this subsection for one month's rent, the court shall stay the writ of restitution ex parte without prior notice to the landlord upon the tenant filing and presenting a motion to stay with a declaration of proof of payment demonstrating full compliance with the required payment of one month's rent. Any order staying the writ of restitution under this subsection (3)(c)(iii) shall require the tenant to serve a copy of the order on the landlord by personal delivery, first-class mail, facsimile, or email if agreed to by the parties.

(A) If the tenant has satisfied (c)(ii) of this subsection by paying one month's rent within five court days, but defaults on a subsequent payment required by the court pursuant to this subsection (3)(c), the landlord may enforce the writ of restitution after serving a notice of default in accordance with RCW 59.12.040 informing the tenant that he or she has defaulted on rent due under the lease agreement or payment plan entered by the court. Upon service of the notice of default, the tenant shall have three calendar days from the date of service to vacate the premises before the sheriff may execute the writ of restitution.

(B) If the landlord serves the notice of default described under this subsection (3)(c)(iii), an additional day is not included in calculating the time before the sheriff may execute the writ of restitution. The notice of default must be in substantially the following form:

(iv) If a tenant seeks to satisfy a condition of this subsection (3)(c) by relying on an emergency rental assistance program provided by a government or nonprofit entity and provides an offer of proof, the court shall stay the writ of restitution as necessary to afford the tenant an equal opportunity to comply.

(v) The court shall extend the writ of restitution as necessary to enforce the order issued pursuant to this subsection (3)(c) in the event of default.

(d) A tenant who has been served with three or more notices to pay or vacate for failure to pay rent as set forth in RCW 59.12.040 within twelve months prior to the notice to pay or vacate upon which the proceeding is based may not seek relief under this subsection (3).

(e)(i) In any application seeking relief pursuant to this subsection (3) by either the tenant or landlord, the court shall issue a finding as to whether the tenant is low-income, limited resourced, or experiencing hardship to determine if the parties would be eligible for disbursement through the landlord mitigation program account established within RCW 43.31.605(1)(c). In making this finding, the court may include an inquiry regarding the tenant's income relative to area median income, household composition, any extenuating circumstances, or other factors, and may rely on written declarations or oral testimony by the parties at the hearing.

(ii) After a finding that the tenant is low-income, limited resourced, or experiencing hardship, the court may issue an order:

(A) Finding that the landlord is eligible to receive on behalf of the tenant and may apply for reimbursement from the landlord mitigation program; and (B) directing the clerk to remit, without further order of the court, any future payments made by the tenant in order to reimburse the department of commerce pursuant to RCW 43.31.605(1)(c)(iii). In accordance with RCW 43.31.605(1)(c), such an order must be accompanied by a copy of the order staying the writ of restitution. Nothing in this subsection (3)(e) shall be deemed to obligate the department of commerce to provide assistance in claim reimbursement through the landlord mitigation program if there are not sufficient funds.

(iii) If the department of commerce fails to disburse payment to the landlord for the judgment pursuant to this subsection (3)(e) within thirty days from submission of the application, the landlord may renew an application for a writ of restitution pursuant to RCW 59.18.370 and for other rent owed by the tenant since the time of entry of the prior judgment. In such event, the tenant may exercise rights afforded under this section.

(iv) Upon payment by the department of commerce to the landlord for the remaining or total amount of the judgment, as applicable, the judgment is satisfied and the landlord shall file a satisfaction of judgment with the court.

(v) Nothing in this subsection (3)(e) prohibits the landlord from otherwise applying for reimbursement for an unpaid judgment pursuant to RCW 43.31.605(1)(c) after the tenant defaults on a payment plan ordered pursuant to (c) of this subsection.

(vi) For the period extending one year beyond the expiration of the eviction moratorium, if a tenant demonstrates an ability to pay in order to reinstate the tenancy by means of disbursement through the landlord mitigation program account established within RCW 43.31.605(1)(c):

(A) Any restrictions imposed under (d) of this subsection do not apply in determining if a tenant is eligible for reinstatement under this subsection (3); and

(B) Reimbursement on behalf of the tenant to the landlord under RCW 43.31.605(1)(c) may include up to three months of prospective rent to stabilize the tenancy as determined by the court.

(4) If a tenant seeks to stay a writ of restitution issued pursuant to this chapter, the court may issue an ex parte stay of the writ of restitution provided the tenant or tenant's attorney submits a declaration indicating good faith efforts were made to notify the other party or, if no efforts were made, why notice could not be provided prior to the application for an ex parte stay, and describing the immediate or irreparable harm that may result if an immediate stay is not granted. The court shall require service of the order and motion to stay the writ of restitution by personal delivery, mail, facsimile, or other means most likely to afford all parties notice of the court date.

(5) In all other cases the judgment may be enforced immediately. If a writ of restitution shall have been executed prior to judgment no further writ or execution for the premises shall be required.

(6) This section also applies if the writ of restitution is issued pursuant to a final judgment entered after a show cause hearing conducted in accordance with RCW 59.18.380.

NEW SECTION. Sec. 18. This act does not apply to assisted living facilities licensed under chapter 18.20 RCW, to nursing homes licensed under chapter 18.51 RCW, to adult family homes licensed under chapter 70.128 RCW, or to continuing care retirement communities registered under chapter 18.390 RCW.

NEW SECTION. Sec. 19. RCW 59.18.375 (Forcible entry or detainer or unlawful detainer actions—Payment of rent into court registry—Writ of restitution—Notice) and 2008 c 75 s 2, 2006 c 51 s 2, & 1983 c 264 s 13 are each repealed.

PARLIAMENTARY INQUIRY

Senator Saldaña: "How, when we are not present, able to call for a roll call? When we are in the middle of a vote, or right before we go into vote?"

President Heck: "There is a request roll call button. We are..."

Senator Saldaña: "I did not have access to that button. I am sorry. I just have request to speak and point of inquiry now, but when we were voting there were no other buttons available to me. It's okay, but I just wanted to know."

REPLY BY THE PRESIDENT

President Heck: "Senator Saldaña, thank you so much for your inquiry. Here is the clarification as I now understand it. People who are remote do not have an opportunity to request a roll call before the gavel comes down. You are correct. The members on the floor, notably the Floor Leaders, the Majority and Minority Leader, can request that and indeed we have done that this session before the vote was announced."

REMARKS BY THE PRESIDENT

President Heck: "The President would like to take Senator Billig's invitation and make a few remarks. It has been stated here frequently that Gonzaga's basketball program is the pride of Spokane and beyond. Indeed, I have suggested that in absolute sincerity that Gonzaga is America's Team. And they are America's Team because of the foundation of that program. It's organizational excellence at and longevity of success is something that we should all learn from and seek to apply in our personal lives and in any organization of which we are a member. This is virtually unparalleled. And secondly, and importantly, that has built has been alluded to on character and integrity. Throughout this phenomenal multi-decade run, not one time has there been an iota of a suggestion of NCAA impropriety. Not one time. Because there never has been. I'd like also to affirm every positive thing said about Coach Few as a stellar leader, but also, we should acknowledge that for many decades Mike Roth has been the Athletic Director at Gonzaga University and he is a big part of this program's success. Lastly, Senator Billig remarked about the phenomenal partnerships that Gonzaga graduates that have entered the community and entered into. Last Saturday I celebrated my 45th wedding anniversary and partnership with my favorite Gonzaga University grad. And Senator Padden, you are right, they don't rebuild, they reload. Wait 'til next year. Go Zags!"

(I) Treatment two or more times, within thirty days of the first day of incapacity, unless extenuating circumstances exist, by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services, such as a physical therapist, under orders of, or on referral by, a health care provider; or

(II) Continues over an extended period of time, including recurring episodes of a single underlying condition; and

Whether a given set of circumstances are extenuating depends on the facts. For example, extenuating circumstances exist if a health care provider determines that a second in-person visit is needed within the thirty-day period, but the health care provider does not have any available appointments during that time period.

(e) Treatment for purposes of (a) of this subsection includes, but is not limited to, examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations. Under (a)(ii)(A)(II) of this subsection, a regimen of continuing treatment includes, but is not limited to, a course of prescription medication, such as an antibiotic, or therapy requiring special equipment to resolve or alleviate the health condition, such as oxygen. A regimen of continuing treatment that includes taking over-the-counter medications, such as aspirin, antihistamines, or salves, or bed rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to

constitute a regimen of continuing treatment for purposes of this title.

(f) Conditions for which cosmetic treatments are administered, such as most treatments for acne or plastic surgery, are not serious health conditions unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, minor ulcers, headaches other than migraines, routine dental or orthodontia problems, and periodontal disease are examples of conditions that are not serious health conditions and do not qualify for leave under this title. Restorative dental or plastic surgery after an injury or removal of cancerous growths are serious health conditions provided all the other conditions of this section are met. Mental illness resulting from stress or allergies may be serious health conditions, but only if all the conditions of this section are met.

(g)(i) Substance abuse may be a serious health condition if the conditions of this section are met. However, leave may only be taken for treatment for substance abuse by a health care provider or by a licensed substance abuse treatment provider. Absence because of the employee's use of the substance, rather than for treatment, does not qualify for leave under this title.

(ii) Treatment for substance abuse does not prevent an employer from taking employment action against an employee. The employer may not take action against the employee because the employee has exercised his or her right to take medical leave for treatment. However, if the employer has an established policy, applied in a nondiscriminatory manner that has been communicated to all employees, that provides under certain circumstances an employee may be terminated for substance abuse, pursuant to that policy the employee may be terminated whether or not the employee is presently taking medical leave. An employee may also take family leave to care for a covered family member who is receiving treatment for substance abuse. The employer may not take action against an employee who is providing care for a covered family member receiving treatment for substance abuse.

(h) Absences attributable to incapacity under (a)(ii)(B) or (C) of this subsection qualify for leave under this title even though the employee or the family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three consecutive, full calendar days. For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee's health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.

(23) "Service is localized in this state" has the same meaning as described in RCW 50.04.120.

(24) "Spouse" means a husband or wife, as the case may be, or state registered domestic partner.

(25) "State average weekly wage" means the most recent average weekly wage calculated under RCW 50.04.355 and available on January 1st of each year.

(26) "Supplemental benefit payments" means payments made by an employer to an employee as salary continuation or as paid time off. Such payments must be in addition to any paid family or medical leave benefits the employee is receiving.

(27) "Typical workweek hours" means:

(a) For an hourly employee, the average number of hours worked per week by an employee within the qualifying period; and

(b) Forty hours for a salaried employee, regardless of the number of hours the salaried employee typically works.

(28) "Wage" or "wages" means:

(a) For the purpose of premium assessment, the remuneration paid by an employer to an employee. The maximum wages subject to a premium assessment are those wages as set by the commissioner under RCW 50A.10.030;

(b) For the purpose of payment of benefits, the remuneration paid by one or more employers to an employee for employment during the employee's qualifying period. At the request of an employee, wages may be calculated on the basis of remuneration payable. The department shall notify each employee that wages are calculated on the basis of remuneration paid, but at the employee's request a redetermination may be performed and based on remuneration payable; and

(c) For the purpose of a self-employed person electing coverage under RCW 50A.10.010, the meaning is defined by rule.

NEW SECTION. Sec. 3. (1) The employment security department must collect and analyze disaggregated data relating to employment protections under Title 50A RCW. The employment security department must develop the proposed plan for data collection and analysis in consultation with the paid family and medical leave advisory committee.

(2) By December 1, 2021, the employment security department must submit a report to the appropriate committees of the legislature with the following information:

(a) Program utilization by employees covered under approved voluntary plans compared to employees covered under the state plan; and

(b) Program utilization by employees working for employers with 50 or more employees compared to employees working for employers with fewer than 50 employees.

(3) By June 30, 2022, and June 30, 2023, the employment security department must submit a report to the appropriate committees of the legislature with the following information:

(a) The number of individuals who used leave under Title 50A RCW in the preceding 12 months as a result of the amended definition of family member in this act; and

(b) The effects, if any, on the family and medical leave insurance account as a result of the amended definition of family member in this act.

(4) The employment security department must provide members of the paid family and medical leave advisory committee opportunity for comment on the reports under subsections (2) and (3) of this section. Comments provided through this process must be included in a separate section of each final report.

NEW SECTION. Sec. 4. If the number of individuals utilizing leave under Title 50A RCW as a result of the amended definition of family member in this act exceeds 500 individuals in any calendar year before July 1, 2023, the expenses of the additional leave must be paid by the general fund into the family and medical leave insurance account created in RCW 50A.05.070."

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5038 with the following amendment(s): 5038-S.E AMH ENGR H1306.E

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.41.300 and 2018 c 201 s 9003 and 2018 c 201 s 6007 are each reenacted and amended to read as follows:

(1) It is unlawful for any person to enter the following places when he or she knowingly possesses or knowingly has under his or her control a weapon:

(a) The restricted access areas of a jail, or of a law enforcement facility, or any place used for the confinement of a person (i) arrested for, charged with, or convicted of an offense, (ii) held for extradition or as a material witness, or (iii) otherwise confined pursuant to an order of a court, except an order under chapter 13.32A or 13.34 RCW. Restricted access areas do not include common areas of egress or ingress open to the general public;

(b) Those areas in any building which are used in connection with court proceedings, including courtrooms, jury rooms, judge's chambers, offices and areas used to conduct court business, waiting areas, and corridors adjacent to areas used in connection with court proceedings. The restricted areas do not include common areas of ingress and egress to the building that is used in connection with court proceedings, when it is possible to protect court areas without restricting ingress and egress to the building. The restricted areas shall be the minimum necessary to fulfill the objective of this subsection (1)(b).

For purposes of this subsection (1)(b), "weapon" means any firearm, explosive as defined in RCW 70.74.010, or any weapon of the kind usually known as slungshot, sand club, or metal knuckles, or any knife, dagger, dirk, or other similar weapon that is capable of causing death or bodily injury and is commonly used with the intent to cause death or bodily injury.

In addition, the local legislative authority shall provide either a stationary locked box sufficient in size for pistols and key to a

weapon owner for weapon storage, or shall designate an official to receive weapons for safekeeping, during the owner's visit to restricted areas of the building. The locked box or designated official shall be located within the same building used in connection with court proceedings. The local legislative authority shall be liable for any negligence causing damage to or loss of a weapon either placed in a locked box or left with an official during the owner's visit to restricted areas of the building.

The local judicial authority shall designate and clearly mark those areas where weapons are prohibited, and shall post notices at each entrance to the building of the prohibition against weapons in the restricted areas;

(c) The restricted access areas of a public mental health facility licensed or certified by the department of health for inpatient hospital care and state institutions for the care of the mentally ill, excluding those facilities solely for evaluation and treatment. Any restricted access area shall be clearly indicated by prominent signs indicating that firearms and other weapons are prohibited in the area.

(2)(a) Except as provided in (c) of this subsection, it is unlawful for any person to knowingly open carry a firearm or other weapon while knowingly at any permitted demonstration. This subsection (2)(a) applies whether the person carries the firearm or other weapon on his or her person or in a vehicle.

(b) It is unlawful for any person to knowingly open carry a firearm or other weapon while knowingly within 250 feet of the perimeter of a permitted demonstration after a duly authorized state or local law enforcement officer advises the person of the permitted demonstration and directs the person to leave until he or she no longer possesses or controls the firearm or other weapon. This subsection (2)(b) does not apply to any person possessing or controlling any firearm or other weapon on private property owned or leased by that person.

(c) Duly authorized federal, state, and local law enforcement officers and personnel are exempt from the provisions of this subsection (2) when carrying a firearm or other weapon in conformance with their employing agency's policy. Members of the armed forces of the United States or the state of Washington are exempt from the provisions of this subsection (2) when carrying a firearm or other weapon in the discharge of official duty or traveling to or from official duty.

~~((11))~~ (12) Government-sponsored law enforcement firearms training must be training that correctional personnel and community corrections officers receive as part of their job requirement and reference to such training does not constitute a mandate that it be provided by the correctional facility.

MESSAGE FROM THE HOUSE

April 11, 2021

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5331 with the following amendment(s): 5331-S2 AMH TAYL H1545.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that there is an urgent need to provide greater support to young children and their families involved in Washington state's child welfare system. Infants and toddlers comprise a substantial portion of all child abuse and neglect cases in Washington state; the rate of entry for children under age one into the care of Washington state's child welfare system is the second highest in the nation. Research demonstrates that both the trauma of neglect as well as the trauma associated with entering the child welfare system shapes young children's brain development and have lifelong impacts on young children's social, emotional, and physical well-being. Young children and families of color are particularly impacted by child welfare involvement and the factors leading up to it.

(2) The legislature further finds that early childhood court programs provide timely, evidence-based, evidence-informed, and trauma-informed interventions. Early childhood court programs reduce maltreatment recurrence, number of placements, and the time it takes to achieve permanency, while increasing equitable access to services.

(3) The legislature further finds that statewide standards are necessary to ensure the quality, accountability, and fidelity to

evidence-based and evidence-informed interventions of early childhood court programs. Statewide standards will also promote equitable access to these programs, especially among children and families of color.

(4) The legislature further finds that early childhood court programs that de-emphasize termination of parental rights and focus on the safe reunification of children with parents or maintain children with family or other suitable persons promote the long-term emotional and psychological health of children and minimize the trauma and racial disproportionality experienced by children and families of color who are involved in the dependency court system.

(5) The legislature further finds that the administrative office of the courts has secured funding for the first year of the early childhood court program to support their evaluation efforts. While funding is not mandated through this act, the legislature acknowledges that the administrative office of the courts is not able to complete its required responsibilities as provided for in this act without dedicated funding. The legislature finds and declares that in the future, the office may seek funding through public and/or private funding opportunities, and it may partner with local organizations to seek further funding, although it is not required to do so.

NEW SECTION. Sec. 2. A new section is added to chapter 2.30 RCW to read as follows:

(1)(a) A superior court may establish an early childhood court program to serve the needs of infants and toddlers who are under the age of three at the time the case enters the program and dependent pursuant to chapter 13.34 RCW.

(b) An early childhood court program is a therapeutic court as defined in this chapter that provides an intensive court process for families with a child under age three who has been found dependent pursuant to chapter 13.34 RCW. To be eligible for the early childhood court program, a parent must have a child under age three that is dependent pursuant to chapter 13.34 RCW at the time the case enters the early childhood court program. The case may remain in the early childhood court program after the child is age three or older if the child is still dependent pursuant to chapter 13.34 RCW.

(2) If a superior court creates an early childhood court program, it shall incorporate the following core components into the program:

(a) The court shall obtain a memorandum of understanding or other agreement with the department of children, youth, and families developed in collaboration with counsel for parents and children that outlines how the two entities will coordinate and collaborate to implement the core components overall.

(b) A community coordinator who may be employed by the courts, the county, or a nonprofit entity and who is a person with experience and training in diversity, equity, and inclusion measures and is dedicated to:

(i) Facilitating real-time information sharing and collaboration among cross-sector professionals participating in the early childhood court program;

(ii) Coordinating and participating in family team meetings;

(iii) Identifying community-based resources and supporting the family's connection to these resources;

(iv) Building relationships and forming new partnerships across traditional and nontraditional services and systems;

(v) Identifying training needs of early childhood court professionals and facilitating the provision of training;

(vi) Supporting the convening of community team meetings; and

(vii) Performing the tasks outlined in this subsection describing the core components of an early childhood court program unless otherwise specified.

(c) A community team established by the court and consisting of stakeholders to the court that serve as an advisory body to the court and who implement the early childhood court program. The community team shall include diverse membership to include, but not be limited to, former parent participants, foster parents, parent and child advocates, an attorney for parents, a department of children, youth, and families caseworker, and a judicial officer. The community team aims to:

(i) Foster a learning environment and encourage an interdisciplinary approach to meeting the needs of young children and families;

(ii) Identify and respond to challenges to accessing resources and needed systems reforms;

(iii) Support multidisciplinary trainings; and

(iv) Recommend local court policies and procedures to improve families receipt of equitable and timely access to resources and remedial services for the parent and child.

(d) More frequent status hearings than the review hearings required under RCW 13.34.138 established by the judicial officer, these status hearings are separate from the review hearings required under RCW 13.34.138 and are intended to provide additional support to the family.

(e) A community coordinator that serves as a liaison between the court and community-based resources to identify community-based resources, identify barriers to engagement, and collaborate with stakeholders to connect families to assessments and referrals. The community coordinator shall facilitate connecting parents with informal and formal social supports, including but not limited to peer, community, and cultural supports.

(f) Family team meetings neutrally facilitated by the community coordinator. The family team may include all parties to the case and other people or other service providers identified by the parent to be part of the support system for the parent involved. The family team engages the parents, and the attorney for the parent, in their case plan and expediently addresses family needs and access to services and support.

(g) Ensuring that parents are critical participants in the early childhood court program. Having experienced and culturally informed professionals supporting and working with families involved in the dependency court system is critical to successful reunification of families. The court shall aim to foster an environment in which all professionals involved in the early childhood court program increase their awareness of different forms of bias and the trauma and adversity that often accompany poverty, mental health, and substance use by identifying or developing training that increases such awareness.

(h) Ensuring that families receive early, consistent, and frequent visitation that is developmentally appropriate for infants and toddlers; minimizes stress and anxiety for both children and parents; and occurs in a safe, comfortable, and unthreatening setting that supports parents to nurture and care for their child.

(i) The court shall ensure that the individualized case plan for parents involved in the early childhood court program address protective factors that mitigate or eliminate safety risks to the child.

(j) The court should encourage a respectful, strength-based, compassionate approach to working with parents in the context of the early childhood court program.

(k) The court shall support the development of agreements that encourage:

(i) Stakeholders participation in any available statewide structure that supports alignment to the approach of the early childhood court program, cross-site cooperation, and consistency;

(ii) Program data is regularly and continuously reviewed to ensure equity and inform and improve practice; and

ONE HUNDREDTH DAY, APRIL 20, 2021

2021 REGULAR SESSION

(iii) Stakeholder utilization of technical assistance, training, and evaluation to assess effectiveness and improve outcomes.

(l) Each early childhood court program must collect and review its data, including data related to race and ethnicity of program participants, to assess its effectiveness and share this data with the oversight board for children, youth, and families established under RCW 43.216.015. The oversight board for children, youth, and families established under RCW 43.216.015 shall share this data and hold or offer to assist in holding statewide meetings to support alignment to the core components and statewide consistency.

(m) The caseworker assigned to an early childhood court program must have received training and competency related to cultural antbias, and antiracism.

(n) Each early childhood court program must be responsive to community needs and adopt best practices related to family reunification and serving all families, including those who are:

- (i) Black, Indigenous, and persons of color;
- (ii) Lesbian, gay, bisexual, transgender, and queer; and
- (iii) Experiencing disabilities.

(o) An attorney for the parent must be present during every meeting of the early childhood court program.

(p) Ensuring that parents voluntarily participating in the early childhood court program receive all available and appropriate services.

NEW SECTION. Sec. 3. A new section is added to chapter 2.30 RCW to read as follows:

(1) Judicial officers who preside over early childhood court program hearings shall participate in required trainings, as follows:

(a) An initial, eight-hour training program that can include the topic areas of:

- (i) The benefits to infants and toddlers of secure attachment with primary caregivers;
- (ii) A trauma-informed approach;
- (iii) The importance of maintaining children within their biological connections;
- (iv) The importance of reunification of children with their families;
- (v) Diversity, equity, and inclusion; and
- (vi) The impact of trauma on child development;

(b) After the initial training, annually attend a minimum of eight hours of continuing education of pertinence to the early childhood court program.

(2) Subject to the availability of amounts appropriated for this specific purpose, the administrative office of the courts shall administer the certification of training requirements.

NEW SECTION. Sec. 4. A new section is added to chapter 2.30 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the administrative office of the courts shall perform, or contract for, an evaluation of the early childhood court program to ensure the quality, accountability, and fidelity of the programs' evidence-based treatment. Any evaluation of the early childhood court program shall be posted on the administrative office of the courts website.

(2) The administrative office of the courts may provide, or contract for the provision of, training and technical assistance related to program services, consultation and guidance for difficult cases, and ongoing training for court teams.

NEW SECTION. Sec. 5. A new section is added to chapter 2.30 RCW to read as follows:

SECOND SUBSTITUTE SENATE BILL NO. 5331, as amended by the House, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MESSAGE FROM THE HOUSE

April 16, 2021

MR. PRESIDENT:

The House receded from its amendment(s) to ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5128. Under suspension of the rules, the bill was returned to second reading for the purposes of amendment(s). The House adopted the following amendment(s): 5128-S2.E AMH SANT H1570.1, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that the COVID-19 pandemic has significantly changed the delivery of education across the state, as school districts transition to remote learning environments to protect the health of students and staff. The legislature also recognizes that the role of transportation services has evolved alongside remote learning programs to help students equitably access the instructional program of basic education. As permitted by emergency proclamation, many school districts have adapted to remote learning by transporting

meals, learning materials, and technology supports directly to students' homes or neighborhoods. Other school districts have used transportation resources to bring students to learning centers or other agencies where support services are provided.

This flexibility has allowed school districts to creatively use the resources at their disposal to equitably address the needs of students during an ongoing emergency.

With this act, the legislature intends to preserve this principle of flexibility for qualifying transportation services during a future local, state, or national emergency.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.160 RCW to read as follows:

(1) If a school or school district is providing full remote or partial remote instruction under the authority of RCW 28A.150.290 due to a local, state, or national emergency that causes a substantial disruption to full in-person instruction then, in addition to the transportation services allowed under this chapter, the district may use student transportation allocations to provide the following expanded services to students, regardless of whether those students would qualify as eligible students under RCW 28A.160.160:

(a) Delivery of educational services necessary to provide students with the opportunity to equitably access educational services during the period of remote instruction. Delivery of educational services include the transportation of materials, hardware, and other supports that assist students in accessing remote instruction, internet connectivity, or the curriculum;

(b) Delivery of meals to students; and

(c) Providing for the transportation of students to and from learning centers or other public or private agencies where educational and support services are being provided to students during the period of remote instruction. "Providing for" includes the provision of payments to allow students to use public transit to access the educational and support services.

(2) Nothing in this section is intended to limit a district's ability to use transportation allocations to pay for fixed transportation costs, such as school bus maintenance and basic administrative, regulatory, safety, or operational expenses.

(3) If a district provides expanded services under subsection (1) of this section, the district must track by a separate accounting code the expenditures incurred by the district in providing such services. This data must be included in the report required under RCW 28A.160.170(2).

Sec. 3. RCW 28A.160.170 and 2009 c 548 s 306 are each amended to read as follows:

Each district shall submit three times each year to the superintendent of public instruction during October, February, and May of each year a report containing the following:

(1)(a) The number of eligible students transported to and from school as provided for in RCW 28A.160.150, along with identification of stop locations and school locations, and (b) the number of miles driven for pupil transportation services as authorized in RCW 28A.160.150 the previous school year; and

(2) Other operational data and descriptions as required by the superintendent to determine allocation requirements for each district. The superintendent shall require that districts separate the costs of operating the program for the transportation of eligible students to and from school as defined by RCW 28A.160.160(3) ~~((from))~~, non-to-and-from-school pupil transportation costs, and costs to provide expanded services under section 2(1) of this act in the annual financial statement. The cost, quantity, and type of all fuel purchased by school districts for use in to-and-from-school transportation shall be included in the annual financial statement.

MESSAGE FROM THE HOUSE

April 10, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5141 with the following amendment(s): 5141-S2.E AMH ENGR H1522.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS AND INTENT. (1) The purpose of this chapter is to reduce environmental and health disparities in Washington state and improve the health of all Washington state residents. This chapter implements the recommendations of the environmental justice task force established in section 221(48), chapter 415, Laws of 2019 entitled "Report to the Washington state governor and legislature, *Environmental Justice Task Force: Recommendations for Prioritizing EJ in Washington State Government* (October 2020)."

(2) As conveyed in the task force report, Washington state studies and national studies found that people of color and low-income people continue to be disproportionately exposed to environmental harms in their communities. As a result, there is a higher risk of adverse health outcomes for those communities. This risk is amplified when overlaid on communities with preexisting social and economic barriers and environmental risks, and creates cumulative environmental health impacts, which this act seeks to prevent and mitigate.

This chapter also seeks to reduce exposure to environmental hazards within Indian country, as defined in 18 U.S.C. Sec. 1151, due to off-reservation activities within the state, and to improve state practices to reduce contamination of traditional foods wherever they occur. Exposure to such hazards can result in generational health and ecological problems, particularly on small reservations where it is impossible to move away from a hazard.

(3) Accordingly, the state has a compelling interest in preventing and addressing such environmental health disparities in the administration of ongoing and new environmental programs, including allocation of funds, and in administering these programs so as to remedy the effects of past disparate treatment of overburdened communities and vulnerable populations.

(4) The task force provided recommendations to state agencies for measurable goals and model policies to reduce environmental health inequities in Washington, equitable practices for meaningful community involvement, and how to use the environmental health disparities map to identify and promote the equitable distribution of environmental benefits to overburdened communities. In order for all communities in Washington state to be healthy and thriving, state government should aim to concentrate government actions to benefit communities that currently have the greatest environmental and health burdens.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Council" means the environmental justice council established in section 20 of this act.

(2) "Covered agency" means the departments of ecology, health, natural resources, commerce, agriculture, and transportation, the Puget Sound partnership, and any agency that opts to assume all of the obligations of this act pursuant to section 11 of this act.

(3) "Cumulative environmental health impact" means the combined, multiple environmental impacts and health impacts on a vulnerable population or overburdened community.

(4) "Environmental benefits" means activities that:

(a) Prevent or reduce existing environmental harms or associated risks that contribute significantly to cumulative environmental health impacts;

(b) Prevent or mitigate impacts to overburdened communities or vulnerable populations from, or support community response to, the impacts of environmental harm; or

(c) Meet a community need formally identified to a covered agency by an overburdened community or vulnerable population that is consistent with the intent of this chapter.

(5) "Environmental harm" means the individual or cumulative environmental health impacts and risks to communities caused by historic, current, or projected:

(a) Exposure to pollution, conventional or toxic pollutants, environmental hazards, or other contamination in the air, water, and land;

(b) Adverse environmental effects, including exposure to contamination, hazardous substances, or pollution that increase the risk of adverse environmental health outcomes or create vulnerabilities to the impacts of climate change;

(c) Loss or impairment of ecosystem functions or traditional food resources or loss of access to gather cultural resources or harvest traditional foods; or

(d) Health and economic impacts from climate change.

(6) "Environmental health disparities map" means the data and information developed pursuant to section 19 of this act.

(7) "Environmental impacts" means environmental benefits or environmental harms, or the combination of environmental benefits and harms, resulting or expected to result from a proposed action.

(8) "Environmental justice" means the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, rules, and policies. Environmental justice includes addressing

disproportionate environmental and health impacts in all laws, rules, and policies with environmental impacts by prioritizing vulnerable populations and overburdened communities, the equitable distribution of resources and benefits, and eliminating harm.

(9) "Equitable distribution" means a fair and just, but not necessarily equal, allocation intended to mitigate disparities in benefits and burdens that are based on current conditions, including existing legacy and cumulative impacts, that are informed by cumulative environmental health impact analysis.

(10) "Evidence-based" means a process that is conducted by a systematic review of available data based on a well-established and widely used hierarchy of data in current use by other state and national programs, selected by the departments of ecology and health. The environmental justice council may provide input on the development of the process.

(11) "Overburdened community" means a geographic area where vulnerable populations face combined, multiple environmental harms and health impacts, and includes, but is not limited to, highly impacted communities as defined in RCW 19.405.020.

(12) "Significant agency action" means the following actions as identified at the beginning of a covered agency's consideration of the significant agency action or at the time when an environmental justice assessment would normally be initiated in conjunction with an agency action:

(a) The development and adoption of significant legislative rules as defined in RCW 34.05.328;

(b) The development and adoption of any new grant or loan program that a covered agency is explicitly authorized or required by statute to carry out;

(c) A capital project, grant, or loan award by a covered agency of at least \$12,000,000 or a transportation project, grant, or loan by a covered agency of at least \$15,000,000;

(d) The submission of agency request legislation to the office of the governor or the office of financial management for approval; and

(e) Any other agency actions deemed significant by a covered agency consistent with section 14 of this act.

(13) "Tribal lands" has the same meaning as "Indian country" as provided in 18 U.S.C. Sec. 1151, and also includes sacred sites, traditional cultural properties, burial grounds, and other tribal sites protected by federal or state law.

(14)(a) "Vulnerable populations" means population groups that are more likely to be at higher risk for poor health outcomes in response to environmental harms, due to: (i) Adverse socioeconomic factors, such as unemployment, high housing and transportation costs relative to income, limited access to nutritious food and adequate health care, linguistic isolation, and other factors that negatively affect health outcomes and increase vulnerability to the effects of environmental harms; and (ii) sensitivity factors, such as low birth weight and higher rates of hospitalization.

(b) "Vulnerable populations" includes, but is not limited to:

(i) Racial or ethnic minorities;

(ii) Low-income populations;

(iii) Populations disproportionately impacted by environmental harms; and

(iv) Populations of workers experiencing environmental harms.

NEW SECTION. Sec. 3. ENVIRONMENTAL JUSTICE OBLIGATIONS FOR ALL AGENCIES. Covered agencies are required to comply with all provisions of this chapter. All other state agencies should strive to apply the laws of the state of Washington, and the rules and policies of the agency, in accordance with the policies of this chapter including, to the extent feasible, incorporating the principles of environmental

ONE HUNDREDTH DAY, APRIL 20, 2021

2021 REGULAR SESSION

NEW SECTION. Sec. 12. INCORPORATING ENVIRONMENTAL JUSTICE INTO AGENCY STRATEGIC PLANS. (1) By January 1, 2023, each covered agency shall include an environmental justice implementation plan within its strategic plan. A covered agency may additionally incorporate an environmental justice implementation plan into other significant agency planning documents. The plan must describe how the covered agency plans to apply the principles of environmental justice to the agency's activities and must guide the agency in its implementation of its obligations under this chapter.

(2) In its environmental justice implementation plan, each covered agency must include:

(a) Agency-specific goals and actions to reduce environmental and health disparities and for otherwise achieving environmental justice in the agency's programs;

(b) Metrics to track and measure accomplishments of the agency goals and actions;

(c) Methods to embed equitable community engagement with, and equitable participation from, members of the public, into agency practices for soliciting and receiving public comment;

(d) Strategies to ensure compliance with existing federal and state laws and policies relating to environmental justice, including Title VI of the civil rights act of 1964, 42 U.S.C. Sec. 2000d-2000d-4, Title IX of the Education Amendments of 1972, 20 U.S.C. Sec. 1681-1683, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. Sec. 794, and the age discrimination act of 1975, 42 U.S.C. Sec. 6101-6107;

(e) The plan for community engagement required under section 13 of this act; and

(f) Specific plans and timelines for incorporating environmental justice considerations into agency activities as required under this chapter.

(3) In developing and updating its plan, each covered agency must consider any guidance developed by the council pursuant to section 20 of this act.

NEW SECTION. Sec. 13. EQUITABLE COMMUNITY ENGAGEMENT AND PUBLIC PARTICIPATION. (1) By July 1, 2022, each covered agency must create and adopt a community engagement plan that describes how it will engage with overburdened communities and vulnerable populations as it evaluates new and existing activities and programs. This plan must describe how the agency plans to facilitate equitable participation and support meaningful and direct involvement of vulnerable populations and overburdened communities. The plan must include:

(a) How the covered agency will identify and prioritize overburdened communities for purposes of this chapter;

(b) Best practices for outreach and communication to overcome barriers to engagement with overburdened communities and vulnerable populations;

(c) Use of special screening tools that integrate environmental, demographic, and health disparities data, such as the environmental health disparities map, to evaluate and understand the nature and needs of the people who the agency expects to be impacted by significant agency actions under section 14 of this act and processes under section 16 of this act to overcome barriers to participation;

(d) Processes that facilitate and support the inclusion of members of communities affected by agency decision making including, to the extent legal and practicable, but not limited to, child care and reimbursement for travel and other expenses; and

(e) Methods for outreach and communication with those who face barriers, language or otherwise, to participation.

(2) Covered agencies must regularly review their compliance with existing laws and policies that guide community engagement and must comply with the following:

(a) Title VI of the civil rights act, prohibiting discrimination based on race, color, or national origin and requiring meaningful access to people with limited English proficiency, and disability;

(b) Executive Order 05-03, requiring plain talk when communicating with the public; and

(c) Guidance related to Executive Order 13166, requiring meaningful access to agency programs and services for people with limited English proficiency.

(3) In developing and updating its plan, each covered agency must consider any guidance developed by the council pursuant to section 20 of this act.

(4) A covered agency may coordinate with the office of equity to identify policy and system barriers to meaningful engagement with communities as conducted by the office under RCW 43.06D.040(1)(b).

NEW SECTION. Sec. 14. ENVIRONMENTAL JUSTICE ASSESSMENT. (1)(a) When considering a significant agency action initiated after July 1, 2023, a covered agency must conduct an environmental justice assessment in accordance with this section to inform and support the agency's consideration of overburdened communities and vulnerable populations when making decisions and to assist the agency with the equitable distribution of environmental benefits, the reduction of environmental harms, and the identification and reduction of environmental and health disparities.

(b) A covered agency must aspire to complete the environmental justice assessment for a significant agency action without delaying the completion of the underlying agency action.

(2)(a) Consistent with section 2(12)(e) of this act, for the purpose of preparing environmental justice assessments, a covered agency may deem actions significant that are additional to the significant agency actions identified in section 2(12) (a) through (d) of this act, in iterative consultation with the council and interagency work group established under section 20 of this act. By July 1, 2025, each covered agency must consider their agency's activities and identify and begin applying environmental justice assessments to any actions that the agency identifies as significant that are in addition to the significant agency actions identified in section 2(12) (a) through (d) of this act. Significant agency actions designated by a covered agency under this subsection must be actions that may cause environmental harm or may affect the equitable distribution of environmental benefits to an overburdened community or a vulnerable population.

(b) In the identification of significant agency actions, covered agencies shall consider guidance issued by the council established in section 20 of this act. Each covered agency must periodically review and update its identified types of significant agency actions for which an environmental justice assessment is required under this section, and the relevant factors to the agency's environmental justice assessments that result from the unique mission, authorities, and priorities of the agency.

(3) By July 1, 2023, and periodically thereafter, after an opportunity for public comment on its determinations, each covered agency must:

(a) Publish on its website the types of agency actions that the agency has determined are significant agency actions that require an environmental justice assessment under this section, including any significant agency actions identified under subsection (2)(a) of this section;

(b) Provide notification of the determination of the types of significant agency actions in the Washington State Register; and

(c) Prepare an environmental justice assessment when considering a listed action, after publication of the list of any additional significant agency actions identified under (a) of this subsection.

(4) The environmental justice assessment obligation of a covered agency for a significant agency action under this section is satisfied by the completion by the covered agency of a checklist developed by the covered agency that functions akin to the environmental checklist developed by the department of ecology pursuant to chapter 43.21C RCW, and that directs the covered agency to at a minimum:

(a) Consider guidance prepared by the council under section 20 of this act relating to best practices on environmental justice assessments and when and how to use cumulative environmental health impact analysis;

(b) Where applicable, use cumulative environmental health impact analysis, such as the environmental health disparities map or other data that considers the effects of a proposed action on overburdened communities and vulnerable populations;

(c) Identify overburdened communities and vulnerable populations who are expected to be affected by the proposed action and the potential environmental and health impacts;

(d) Pursuant to the consultation process in section 18 of this act, identify if the proposed action is expected to have any local or regional impacts to federally reserved tribal rights and resources including, but not limited to, those protected by treaty, executive order, or federal law;

(e) Summarize community input and describe how the covered agency can further involve overburdened communities, vulnerable populations, affected tribes, and indigenous populations in development of the proposed action; and

(f) Describe options for the agency to reduce, mitigate, or eliminate identified probable impacts on overburdened communities and vulnerable populations, or provide a justification for not reducing, mitigating, or eliminating identified probable impacts.

(5)(a) To obtain information for the purposes of assessments, a covered agency must solicit feedback from members of overburdened communities and vulnerable populations to assist in the accurate assessment of the potential impact of the action and in developing the means to reduce or eliminate the impact on overburdened communities and vulnerable populations.

(b) A covered agency may include items in the checklist required under subsection (4) of this section that are not specified in subsection (4) of this section.

(c) The completion of an environmental justice checklist under subsection (4) of this section is not required to be a comprehensive or an exhaustive examination of all potential impacts of a significant agency action and does not require a covered agency to conduct novel quantitative or economic analysis of the proposed significant agency action.

(6) Based on the environmental justice assessment, each covered agency must seek, to the extent legal and feasible and consistent with the underlying statute being implemented, to reduce or eliminate the environmental harms and maximize the environmental benefits created by the significant agency action on overburdened communities and vulnerable populations. Consistent with agency authority, mission, and statutory responsibilities, the covered agency must consider each of the following methods for reducing environmental harms or equitably distributing environmental benefits:

(a) Eliminating the disparate impact of environmental harms on overburdened communities and vulnerable populations;

(b) Reducing cumulative environmental health impacts on overburdened communities or vulnerable populations;

(c) Preventing the action from adding to the cumulative environmental health impacts on overburdened communities or vulnerable populations;

(d) Providing equitable participation and meaningful engagement of vulnerable populations and overburdened communities in the development of the significant agency action;

(e) Prioritizing equitable distribution of resources and benefits to overburdened communities;

(f) Promoting positive workforce and job outcomes for overburdened communities;

(g) Meeting community needs identified by the affected overburdened community;

(h) Modifying substantive regulatory or policy requirements; and

(i) Any other mitigation techniques, including those suggested by the council, the office of equity, or representatives of overburdened communities and vulnerable populations.

(7) If the covered agency determines it does not have the ability or authority to avoid or reduce any estimated environmental harm of the significant agency action on overburdened communities and vulnerable populations or address the distribution of environmental and health benefits, the agency must provide a clear explanation of why it has made that determination and provide notice of that explanation to members of the public who participated in the process for the significant agency action or the process for the environmental justice assessment and who provided contact information to the agency.

(8) In developing a process for conducting environmental justice assessments, each covered agency must consider any guidance developed by the council pursuant to section 20 of this act.

(9) The issuance of forest practices permits under chapter 76.09 RCW or sale of timber from state lands and state forestlands as defined in RCW 79.02.010 do not require an environmental justice assessment under this section.

NEW SECTION. Sec. 15. The obligation of a covered agency to conduct an environmental justice assessment pursuant to section 14 of this act for significant agency actions does not, by itself, trigger requirements in chapter 43.21C RCW.

NEW SECTION. Sec. 16. ENVIRONMENTAL JUSTICE OBLIGATIONS OF AGENCIES RELATING TO BUDGETS AND FUNDING. (1) With consideration of the guidelines issued by the council in section 20 of this act, and in iterative consultation with the council, each covered agency must incorporate environmental justice principles into its decision processes for budget development, making expenditures, and granting or withholding environmental benefits. Through the incorporation of environmental justice principles into its decision processes, including by conducting environmental justice assessments where required under section 14 of this act, each covered agency, to the extent allowed by law and consistent with legislative appropriations, must equitably distribute funding and expenditures related to programs that address or may cause environmental harms or provide environmental benefits towards overburdened communities and vulnerable populations.

(2) Beginning on or before July 1, 2023, each covered agency must, where practicable, take the following actions when making expenditure decisions or developing budget requests to the office of financial management and the legislature for programs that address or may cause environmental harms or provide environmental benefits:

(a) Focus applicable expenditures on creating environmental benefits that are experienced by overburdened communities and vulnerable populations, including reducing or eliminating environmental harms, creating community and population

resilience, and improving the quality of life of overburdened communities and vulnerable populations;

(b) Create opportunities for overburdened communities and vulnerable populations to meaningfully participate in agency expenditure decisions;

(c) Clearly articulate environmental justice goals and performance metrics to communicate the basis for agency expenditures;

(d) Consider a broad scope of grants and contracting opportunities that effectuate environmental justice principles, including:

(i) Community grants to monitor pollution;

(ii) Grants focused on building capacity and providing training for community scientists and other staff;

(iii) Making technical assistance available for communities that may be new to receiving agency grant funding; and

(iv) Education and work readiness youth programs focused on infrastructure or utility-related internships to develop career paths and leadership skills for youth; and

(e) Establish a goal of directing 40 percent of grants and expenditures that create environmental benefits to vulnerable populations and overburdened communities.

(3) A covered agency may adopt rules or guidelines for criteria and procedures applicable to incorporating environmental justice principles in expenditure decisions, granting or withholding benefits, and processes for budget development.

(4) In incorporating environmental justice principles into its decision processes for budget development, making expenditures, and granting or withholding benefits, each covered agency must consider any guidance developed by the council pursuant to section 20 of this act.

(5) A covered agency may not take actions or make expenditures under this section that are inconsistent with or conflict with other statutes or with conditions or limitations on the agency's appropriations.

(6) If a covered agency, due to the breadth of its programs and funding opportunities, determines it is not practicable to take the actions listed in subsection (2) of this section for all applicable expenditure decisions and budget requests developed, the covered agency is encouraged to prioritize taking the actions listed in subsection (2) of this section for those budget requests and expenditure decisions that are primarily directed at addressing environmental impacts. By July 1, 2023, each covered agency must publish on its website the types of decision processes for budget development, making expenditures, and granting or withholding environmental benefits for which the agency will take the actions listed in subsection (2) of this section.

NEW SECTION. Sec. 17. REPORTING REQUIREMENTS. (1) By September 1st of each year, each covered agency must annually update the council on the development and implementation of environmental justice in agency strategic plans pursuant to section 12 of this act, budgeting and funding criteria for making budgeting and funding decisions pursuant to section 16 of this act, and community engagement plans pursuant to section 13 of this act.

(2)(a) Beginning in 2024, as part of each covered agency's annual update to the council under subsection (1) of this section, each covered agency must include updates on the agency's implementation status with respect to the environmental justice assessments under section 14 of this act.

(b) By September 1st of each year beginning in 2024, each covered agency must publish or update a dashboard report, in a uniform dashboard format on the office of financial management's website, describing the agency's progress on:

(i) Incorporating environmental justice in its strategic plan;

(ii) The obligations of agencies relating to budgets and funding under section 16 of this act; and

(iii) Its environmental justice assessments of proposed significant agency actions, including logistical metrics related to covered agency completion of environmental justice assessments.

(3) Each covered agency must file a notice with the office of financial management of significant agency actions for which the agency is initiating an environmental justice assessment under section 14 of this act. The office of financial management must prepare a list of all filings received from covered agencies each week and must post the list on its website and make it available to any interested parties. The list of filings must include a brief description of the significant agency action and the methods for providing public comment for agency consideration as part of the environmental justice assessment.

(4) Each covered agency must identify overburdened communities, as required by section 13 of this act, in such a way that the performance effectiveness of the duties created by this chapter can be measured, including the effectiveness of environmental justice assessments required by section 14 of this act. Each covered agency may identify and prioritize overburdened communities as needed to accomplish the purposes of this chapter.

NEW SECTION. Sec. 18. TRIBAL CONSULTATION.

(1) Covered agencies shall develop a consultation framework in coordination with tribal governments that includes best practices, protocols for communication, and collaboration with federally recognized tribes. Consistent with this framework, covered agencies must offer consultation with federally recognized Indian tribes on:

(a) The inclusion or updating of an environmental justice implementation plan within the covered agency's strategic plan required under section 12 of this act;

(b) The creation and adoption or updating of a community engagement plan required under section 13 of this act; and

(c) Significant agency actions under section 14 of this act that affect federally recognized Indian tribes' rights and interests in their tribal lands.

(2) The department of health must offer consultation with federally recognized Indian tribes on the development of the environmental health disparities map under section 19 of this act.

(3) The consultation under subsections (1) and (2) of this section must be independent of any public participation process required by state law, or by a state agency, and regardless of whether the agency receives a request for consultation from an Indian tribe.

(4) Nothing in this chapter is intended to direct, authorize, or encourage covered agencies to collect, maintain, or provide data related to sacred sites, traditional cultural properties, burial grounds, and other tribal sites protected by federal or state law.

NEW SECTION. Sec. 19. A new section is added to chapter 43.70 RCW to read as follows:

ENVIRONMENTAL HEALTH DISPARITIES MAP.

(1) In consultation with the environmental justice council established in section 20 of this act, the department must continue to develop and maintain an environmental health disparities map with the most current available information necessary to identify cumulative environmental health impacts and overburdened communities. The department may also consult with other interested partners, such as the University of Washington department of environmental and occupational health sciences, other academic partners, members of overburdened communities and vulnerable populations, and other agencies. The environmental health disparities map must include tools to:

(a) Track changes in environmental health disparities over time in an interactive, regularly updated display; and

(b) Measure the link between overall environmental health disparity map ranks, environmental data, vulnerable populations characteristics, such as race and income, and human health data.

(2) In further developing and maintaining the environmental health disparities map, the department must:

(a) Solicit feedback from representatives from overburdened communities and vulnerable populations through community engagement and listening sessions in all regions of the state and provide opportunities for public comment; and

(b) Request assistance from:

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5052 with the following amendment(s): 5052-S2.E AMH HCW H1298.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS AND INTENT. (1) The legislature finds that people of color, Indian, people experiencing poverty, and immigrant populations experience significant health disparities compared to the general population, including more limited access to health care and poorer health outcomes. The legislature finds that these circumstances result in higher rates of morbidity and mortality for persons of color and immigrant populations than observed in the general population.

(2) Therefore, the legislature intends to create health equity zones to address significant health disparities identified by health outcome data. The state intends to work with community leaders within the health equity zones to share information and coordinate efforts with the goal of addressing the most urgent needs. Health equity zone partners shall develop, expand, and maintain positive relationships with communities of color, Indian communities, communities experiencing poverty, and immigrant communities within the zone to develop effective and sustainable programs to address health inequity.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department, in coordination with the governor's interagency council on health disparities, local health jurisdictions, and accountable communities of health, must share and review population health data, which may be related to chronic and infectious diseases, maternal birth complications, preterm births and other newborn health complications, and any other relevant health data, including hospital community health needs assessments, to identify, or allow communities to self-identify, potential health equity zones in the state and develop projects to meet the unique needs of each zone. The department must provide technical support to communities in the use of data to facilitate self-identification of health equity zones.

(2) Communities' uses of data must align with projects and outcomes to be measured in self-identified zones.

(3) The department must use the first 12 months following the effective date of this section to develop a plan and process to allow communities to implement health equity zone programs statewide. The department has authority to determine the number of health equity zones and projects based on available resources.

(4) Communities that self-identify zones or the department must notify relevant community organizations in the zones of the health equity zone designation and allow those organizations to identify projects to address the zone's most urgent needs related to health disparities. Community organizations may include, but are not limited to:

- (a) Community health clinics;
- (b) Local health providers;
- (c) Federally qualified health centers;
- (d) Health systems;
- (e) Local government;
- (f) Public school districts;
- (g) Recognized American Indian organizations and Indian health organizations;
- (h) Local health jurisdictions; and

(i) Any other nonprofit organization working to address health disparities in the zone.

(5) Local organizations working within zones may form coalitions to identify the needs of the zone, design projects to address those needs, and develop an action plan to implement the projects. Local organizations may partner with state or national organizations outside the specific zone designation. Projects may include, but are not limited to:

(a) Addressing health care provider access and health service delivery;

(b) Improving information sharing and community trust in providers and services;

(c) Conducting outreach and education efforts; and

(d) Recommending systems and policy changes that will improve population health.

(6) The department must provide:

(a) Support to the coalitions in identifying and applying for resources to support projects within the zones;

(b) Technical assistance related to project management and developing health outcome and other measures to evaluate project success; and

(c) Subject to availability, funding to implement projects.

(7) Subject to the availability of amounts appropriated for this specific purpose, by December 1, 2023, and every two years thereafter, the department must submit a report to the legislature detailing the projects implemented in each zone and the outcome measures, including year-over-year health data, to demonstrate project success.

(8) For the purposes of this section "health equity zone" or "zone" means a contiguous geographic area that demonstrates measurable and documented health disparities and poor health outcomes, which may include but are not limited to high rates of maternal complications, newborn health complications, and chronic and infectious disease, is populated by communities of color, Indian communities, communities experiencing poverty, or immigrant communities, and is small enough for targeted interventions to have a significant impact on health outcomes and health disparities. Documented health disparities must be documented or identified by the department or the centers for disease control and prevention."

This report must identify areas of focus to advance equity that will inform department strategies so that all children, youth, and families are thriving. Metrics detailing progress towards eliminating disparities and disproportionality over time must also be included. The report must also include information on department outcome measures, actions taken, progress toward these goals, and plans for the future year.

(c) The outcome measures must include, but are not limited to:

(iv) Improving reconciliation of children and youth with their families as measured by: (A) Increasing family reunification; and (B) increasing the number of youth who are reunified with their family of origin;

(v) In collaboration with county juvenile justice programs, improving adolescent outcomes including reducing multisystem involvement and homelessness; and increasing school graduation rates and successful transitions to adulthood for youth involved in the child welfare and juvenile justice systems;

(vi) Reducing future demand for mental health and substance use disorder treatment for youth involved in the child welfare and juvenile justice systems;

(vii) In collaboration with county juvenile justice programs, reducing criminal justice involvement and recidivism as measured by: (A) An increase in the number of youth who successfully complete the terms of diversion or alternative sentencing options; (B) a decrease in the number of youth who commit subsequent crimes; and (C) eliminating the discharge of youth from institutional settings into homelessness; and

(viii) Eliminating racial and ethnic disproportionality and disparities in system involvement and across child and youth outcomes in collaboration with other state agencies.

(4) Beginning July 1, 2018, the department must:

(a) Lead ongoing collaborative work to minimize or eliminate systemic barriers to effective, integrated services in collaboration with state agencies serving children, youth, and families;

(b) Identify necessary improvements and updates to statutes relevant to their responsibilities and proposing legislative changes to the governor no less than biennially;

representatives. The list of foster parent rights and responsibilities must be posted on the department's web site, provided to individuals participating in a foster parent orientation before licensure, provided to foster parents in writing at the time of licensure, and provided to foster parents applying for license renewal.

(5) The department is accountable to the public. To ensure transparency, beginning December 30, 2018, agency performance data for the services provided by the department, including outcome data for contracted services, must be available to the public, consistent with confidentiality laws, federal protections, and individual rights to privacy. Publicly available data must include budget and funding decisions, performance-based contracting data, including data for contracted services, and performance data on metrics identified in this section. (e) Early achievers program participants who have published rating levels on the department's web site or on a link on the department's web site may include a brief description of their program, contingent upon the review and approval by the department, as determined by established marketing standards.

(8)(a) The department shall create a professional development pathway for early achievers program participants to obtain a high school diploma or equivalency or higher education credential in early childhood education, early childhood studies, child development, or an academic field related to early care and education.

(b) The professional development pathway must include opportunities for scholarships and grants to assist early achievers program participants with the costs associated with obtaining an educational degree.

(c) The department shall address cultural and linguistic diversity when developing the professional development pathway.

(9) The early achievers quality improvement awards shall be reserved for participants offering programs to an enrollment population consisting of at least five percent of children receiving a state subsidy.

(10) In collaboration with tribal governments, community and statewide partners, and the early achievers review subcommittee created in RCW 43.216.075, the department shall develop a protocol for granting early achievers program participants an extension in meeting rating level requirement timelines outlined for the working connections child care program and the early childhood education and assistance program.

(a) The department may grant extensions only under exceptional circumstances, such as when early achievers program participants experience an unexpected life circumstance.

(b) Extensions shall not exceed six months, and early achievers program participants are only eligible for one extension in meeting rating level requirement timelines.

(c) Extensions may only be granted to early achievers program participants who have demonstrated engagement in the early achievers program.

(11)(a) The department shall accept national accreditation that meets the requirements of this subsection (11) as a qualification for the early achievers program ratings.

(b) Each national accreditation agency will be allowed to submit its most current standards of accreditation to establish potential credit earned in the early achievers program. The department shall grant credit to accreditation bodies that can demonstrate that their standards meet or exceed the current early achievers program standards. By December 1, 2019, and subject to the availability of amounts appropriated for this specific purpose, the department must submit a detailed plan to the governor and the legislature to implement a robust cross-accreditation process with multiple pathways that allows a provider to earn equivalent early achievers credit resulting from accreditation by high quality national organizations.

(c) Licensed child care centers ~~(and)~~₂ child care home providers, and outdoor nature-based child care must meet national accreditation standards approved by the department for the early achievers program in order to be granted credit for the early achievers program standards. Eligibility for the early achievers program is not subject to bargaining, mediation, or interest arbitration under RCW 41.56.028, consistent with the legislative reservation of rights under RCW 41.56.028(4)(d).

(12) The department shall explore the use of alternative quality assessment tools that meet the culturally specific needs of the federally recognized tribes in the state of Washington.

(13) A child care or early learning program that is operated by a federally recognized tribe and receives state funds shall participate in the early achievers program. The tribe may choose to participate through an interlocal agreement between the tribe and the department. The interlocal agreement must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty. The interlocal agreement must provide that:

(a) Tribal child care facilities and early learning programs may volunteer, but are not required, to be licensed by the department;

(b) Tribal child care facilities and early learning programs are not required to have their early achievers program rating level published to the department's web site or through a link on the department's web site; and

(c) Tribal child care facilities and early learning programs must provide notification to parents or guardians who apply for or have been admitted into their program that early achievers program rating level information is available and provide the parents or guardians with the program's early achievers program rating level upon request.

(14) The department shall consult with the early achievers review subcommittee on all substantial policy changes to the early achievers program.

(15) Nothing in this section changes the department's responsibility to collectively bargain over mandatory subjects or limits the legislature's authority to make programmatic modifications to licensed child care and early learning programs under RCW 41.56.028(4)(d).

Sec. 7. RCW 43.216.087 and 2019 c 369 s 5 are each amended to read as follows:

(1)(a) The department shall, in collaboration with tribal governments and community and statewide partners, implement a protocol to maximize and encourage participation in the early achievers program for culturally diverse and low-income center ~~(and)~~₂ family home, and outdoor nature-based child care providers. Amounts appropriated for the encouragement of culturally diverse and low-income center ~~(and)~~₂ family home, and outdoor nature-based child care provider participation shall be appropriated separately from the other funds appropriated for the department, are the only funds that may be used for the

protocol, and may not be used for any other purposes. Funds appropriated for the protocol shall be considered an ongoing program for purposes of future departmental budget requests.

(b) The department shall prioritize the resources authorized in this section to assist providers in the early achievers program to help them reach a rating of level 3 or higher wherever access to subsidized care is at risk.

(2) The protocol should address barriers to early achievers program participation and include at a minimum the following:

(b) The development of needs-based grants for providers in the early achievers program who demonstrate a need for assistance to improve program quality. Priority for the needs-based grants shall be given to culturally diverse and low-income providers;

(c) The development of materials and assessments in a timely manner, and to the extent feasible, in the provider and family home languages; and

(d) The development of flexibility in technical assistance and coaching structures to provide differentiated types and amounts of support to providers based on individual need and cultural context.

(1) In consultation and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of child care facilities or outdoor locations for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages and other characteristics of the children served, variations in the purposes and services offered or size or structure of the agencies to be licensed, or because of any other factor relevant thereto;

(2)(a) In consultation with the state fire marshal's office, the secretary shall use an interagency process to address health and safety requirements for child care programs that serve school-age children and are operated in buildings that contain public or private schools that safely serve children during times in which school is in session;

The state, and any agency thereof, shall not restrict or dictate any specific educational or other programs for early learning programs operated by private schools except for programs that receive state subsidy payments.

Sec. 11. RCW 43.216.260 and 2007 c 415 s 4 are each amended to read as follows:

Subject to appropriation, the department shall maintain an individual-based or portable background check clearance registry. Sec. 14. RCW 43.216.305 and 2020 c 343 s 5 are each amended to read as follows:

(1) Each agency shall make application for a license or the continuation of a full license to the department ~~((on forms))~~ using

a method prescribed by the department. Upon receipt of such application, the department shall either grant or deny a license or continuation of a full license within ninety days. A license or continuation shall be granted if the agency meets the minimum requirements set forth in this chapter and the departmental requirements consistent with this chapter, except that an initial license may be issued as provided in RCW 43.216.315. The department shall consider whether an agency is in good standing, as defined in subsection (4)(b) of this section, before granting a continuation of a full license. Full licenses provided for in this chapter shall continue to remain valid so long as the licensee meets the requirements for a nonexpiring license in subsection (2) of this section and may be transferred to a new licensee in the event of a transfer of ownership of a child care operation. The licensee, however, shall advise the secretary of any material change in circumstances which might constitute grounds for reclassification of license as to category. The license issued under this chapter applies only to the licensee and the location stated in the application. For licensed family day care homes having an acceptable history of child care, the license may remain in effect for two weeks after a move.

(2) In order to qualify for a nonexpiring full license, a licensee must meet the following requirements on an annual basis as established from the date of initial licensure:

(a) Submit the annual licensing fee;

(b) Submit a declaration to the department indicating the licensee's intent to continue operating a licensed child care program, or the intent to cease operation on a date certain;

(c) Submit a declaration of compliance with all licensing rules; and

(d) ~~((Submit))~~ For all current employees of the agency and as defined by department rule, submit background check applications into the department's electronic workforce registry on the schedule established by the department.

(3) If a licensee fails to meet the requirements in subsection (2) of this section for continuation of a full license the license expires and the licensee must submit a new application for licensure under this chapter.

(4)(a) Nothing about the nonexpiring license process may interfere with the department's established monitoring practice.

(b) For the purpose of this section, an agency is considered to be in good standing if in the intervening period between monitoring visits the agency does not have any of the following:

(i) Valid complaints;

(ii) A history of noncompliance related to those valid complaints or pending from prior monitoring visits; or

(iii) Other information that when evaluated would result in a finding of noncompliance with this section.

(c) The department shall consider whether an agency is in good standing when determining the most appropriate approach and process for monitoring visits, for the purposes of administrative efficiency while protecting children, consistent with this chapter. If the department determines that an agency is not in good standing, the department may issue a probationary license, as provided in RCW 43.216.320.

Sec. 15. RCW 43.216.325 and 2018 c 58 s 38 are each amended to read as follows:

(1) An agency may be denied a license, or any license issued pursuant to this chapter may be suspended, revoked, modified, or not renewed by the secretary upon proof (a) that the agency has failed or refused to comply with the provisions of this chapter or the requirements adopted pursuant to this chapter; or (b) that the conditions required for the issuance of a license under this chapter have ceased to exist with respect to such licenses. RCW 43.216.327 governs notice of a license denial, revocation,

suspension, or modification and provides the right to an adjudicative proceeding.

(2) In any adjudicative proceeding regarding the denial, modification, suspension, or revocation of any license under this chapter, the department's decision shall be upheld if it is supported by a preponderance of the evidence.

(3)(a) The department may assess civil monetary penalties upon proof that an agency has failed or refused to comply with the rules adopted under this chapter or that an agency subject to licensing under this chapter is operating without a license except that civil monetary penalties shall not be levied against a licensed foster home.

(b) Monetary penalties levied against unlicensed agencies that submit an application for licensure within thirty days of notification and subsequently become licensed will be forgiven. These penalties may be assessed in addition to or in lieu of other disciplinary actions. Civil monetary penalties, if imposed, may be assessed and collected, with interest, for each day an agency is or was out of compliance.

(c) Civil monetary penalties shall not exceed one hundred fifty dollars per violation for a family day care home and two hundred fifty dollars per violation for child day care centers or outdoor nature-based child care programs. Each day upon which the same or substantially similar action occurs is a separate violation subject to the assessment of a separate penalty.

(d) The department shall provide a notification period before a monetary penalty is effective and may forgive the penalty levied if the agency comes into compliance during this period.

(e) The department may suspend, revoke, or not renew a license for failure to pay a civil monetary penalty it has assessed pursuant to this chapter within ten days after such assessment becomes final. RCW 43.216.335 governs notice of a civil monetary penalty and provides the right to an adjudicative proceeding. The preponderance of evidence standard shall apply in adjudicative proceedings related to assessment of civil monetary penalties.

(4)(a) In addition to or in lieu of an enforcement action being taken, the department may place a child day care center, outdoor nature-based child care provider, or family day care provider on nonreferral status if the center or provider has failed or refused to comply with this chapter or rules adopted under this chapter or an enforcement action has been taken. The nonreferral status may continue until the department determines that: (i) No enforcement action is appropriate; or (ii) a corrective action plan has been successfully concluded.

(b) Whenever a child day care center, outdoor nature-based child care provider, or family day care provider is placed on nonreferral status, the department shall provide written notification to the child day care center, outdoor nature-based child care provider, or family day care provider.

(5) The department shall notify appropriate public and private child care resource and referral agencies of the department's decision to: (a) Take an enforcement action against a child day care center, outdoor nature-based child care provider, or family day care provider; or (b) place or remove a child day care center, outdoor nature-based child care provider, or family day care provider on nonreferral status.

Sec. 16. RCW 43.216.340 and 2014 c 9 s 1 are each amended to read as follows:

(1) Before requiring any alterations to a child care facility due to inconsistencies with requirements in chapter 19.27 RCW, the department shall:

(a) Consult with the city or county enforcement official; and
(b) Receive written verification from the city or county enforcement official that the alteration is required.

(2) The department's consultation with the city or county enforcement official is limited to licensed child care space.

(3) Unless there is imminent danger to children or staff, the department may not modify, suspend, or revoke a child care license or business activities while the department is waiting to:

(a) Consult with the city or county enforcement official under subsection (1)(a) of this section; or

(b) Receive written verification from the city or county enforcement official that the alteration is required under subsection (1)(b) of this section.

(4) For the purposes of this section, "child care facility" means a family day care home, school-age care, outdoor nature-based child care, and child day care center.

Sec. 17. RCW 43.216.360 and 2011 c 296 s 3 are each amended to read as follows:

When the department suspects that an agency is providing child care services without a license, it shall send notice to that agency within ten days. The notice shall include, but not be limited to, the following information:

(1) That a license is required and the reasons why;
(2) That the agency is suspected of providing child care without a license;

(3) That the agency must immediately stop providing child care until the agency becomes licensed;

(4) That the department can issue a penalty of one hundred fifty dollars per day for each day a family day care home provided care without being licensed and two hundred fifty dollars for each day a child day care center or outdoor nature-based child care provider provided care without being licensed;

(5) That if the agency does not initiate the licensing process within thirty days of the date of the notice, the department will post on its web site that the agency is providing child care without a license.

Sec. 18. RCW 43.216.395 and 2017 3rd sp.s. c 6 s 114 are each amended to read as follows:

(1) The department shall develop an internal review process to determine whether department licensors have appropriately and consistently applied agency rules in (~~child care facility licensing compliance agreements~~) inspection reports that do not involve a violation of health and safety standards. Adverse licensing decisions including license denial, suspension, revocation, modification, or nonrenewal pursuant to RCW 43.216.325 or imposition of civil fines pursuant to RCW 43.216.335 are not subject to the internal review process in this section, but may be appealed using the administrative procedure act, chapter 34.05 RCW.

(2) The definitions in this subsection apply throughout this section.

(a) "Child care facility licensing compliance agreement" means an agreement issued by the department in lieu of the department taking enforcement action against a child care provider that contains: (i) A description of the violation and the rule or law that was violated; (ii) a statement from the licensee regarding the proposed plan to comply with the rule or law; (iii) the date the violation must be corrected; (iv) information regarding other licensing action that may be imposed if compliance does not occur by the required date; and (v) the signature of the licensor and licensee or the licensee's delegate.

(b) "Health and safety standards" means rules or requirements developed by the department to protect the health and safety of children against (~~substantial~~) risk of bodily, mental, or psychological injury, harm, illness, or death.

(b) Three child care providers selected by the department from names submitted by the oversight board for children, youth, and families established in RCW 43.216.015.

(4) The internal review process established in this section may overturn, change, or uphold a department licensing decision by majority vote. In the event that the six individuals conducting the internal review process are equally divided, the secretary or the secretary's designee shall make the decision of the internal review process. The internal review process must provide the parties with a written decision of the outcome after completion of the internal review process. A licensee must request a review under the internal review process within ten days of the development of ~~((a child care facility licensing compliance agreement))~~ an inspection report and the internal review process must be completed within ~~((thirty))~~ sixty days after the request from the licensee to initiate the internal review process is received.

~~(((6) The department shall not develop a child care facility licensing compliance agreement with a child care provider for first time violations of rules that do not relate to health and safety standards and that can be corrected on the same day that the violation is identified. The department shall develop a procedure for providing a warning and offering technical assistance to providers in response to these first time violations.))~~

Sec. 19. RCW 43.216.515 and 2020 c 321 s 1 are each amended to read as follows:

(1) Approved early childhood education and assistance programs shall receive state-funded support through the department. Public or private organizations including, but not limited to, school districts, educational service districts, community and technical colleges, local governments, or nonprofit organizations, are eligible to participate as providers of the state early childhood education and assistance program.

(2) Funds obtained by providers through voluntary grants or contributions from individuals, agencies, corporations, or organizations may be used to expand or enhance preschool programs so long as program standards established by the department are maintained.

(3) Persons applying to conduct the early childhood education and assistance program shall identify targeted groups and the number of children to be served, program components, the qualifications of instructional and special staff, the source and amount of grants or contributions from sources other than state funds, facilities and equipment support, and transportation and personal care arrangements.

(4) A new early childhood education and assistance program provider must complete the requirements in this subsection to be eligible to receive state-funded support under the early childhood education and assistance program:

(a) Enroll in the early achievers program within thirty days of the start date of the early childhood education and assistance program contract;

(b)(i) Except as provided in (b)(ii) of this subsection, rate at a level 4 or 5 in the early achievers program within twenty-four months of enrollment. If an early childhood education and assistance program provider rates below a level 4 within twenty-four months of enrollment, the provider must complete remedial activities with the department, and must rate at or request to be rated at a level 4 or 5 within twelve months of beginning remedial activities.

(ii) Licensed or certified child care centers ~~((and homes)),~~ family home providers, and outdoor nature-based child care providers that administer an early childhood education and assistance program shall rate at a level 4 or 5 in the early achievers program within twenty-four months of the start date of the early childhood education and assistance program contract. If an early childhood education and assistance program provider rates below a level 4 within twenty-four months, the provider must complete remedial activities with the department, and must rate at or request to be rated at a level 4 or 5 within twelve months of beginning remedial activities.

(5)(a) If an early childhood education and assistance program provider has successfully completed all of the required early achievers program activities and is waiting to be rated by the deadline provided in this section, the provider may continue to participate in the early achievers program as an approved early childhood education and assistance program provider and receive state subsidy pending the successful completion of a level 4 or 5 rating.

(b) To avoid disruption, the department may allow for early childhood education and assistance program providers who have rated below a level 4 after completion of the twelve-month remedial period to continue to provide services until the current school year is finished.

(c)(i) If the early childhood education and assistance program provider described under subsection (4)(b)(i) or (ii) of this section does not rate or request to be rated at a level 4 or 5 following the remedial period, the provider is not eligible to receive state-funded support under the early childhood education and assistance program under this section.

(ii) If the early childhood education and assistance program provider described under subsection (4)(b)(i) or (ii) of this section does not rate at a level 4 or 5 when the rating is released following the remedial period, the provider is not eligible to receive state-funded support under the early childhood education and assistance program under this section.

(6)(a) When an early childhood education and assistance program in good standing changes classroom locations to a comparable or improved space within the same facility, or to a comparable or improved outdoor location for an outdoor nature-based child care, a rerating is not required outside of the regular rerating and renewal cycle.

(b) When an early childhood education and assistance program in good standing moves to a new facility, or to a new outdoor location for an outdoor nature-based child care, the provider must notify the department of the move within six months of changing locations in order to retain their existing rating. The early achievers program must conduct an observational visit to ensure the new classroom space is of comparable or improved environmental quality. If a provider fails to notify the department within six months of a move, the early achievers rating must be changed from the posted rated level to "Participating, Not Yet Rated" and the provider will cease to receive tiered reimbursement incentives until a new rating is completed.

(7) The department shall collect data periodically to determine the demand for full-day programming for early childhood education and assistance program providers. The department shall analyze this demand by geographic region and shall include the findings in the annual report required under RCW 43.216.089.

(8) The department shall develop multiple pathways for licensed or certified child care centers and homes to administer an early childhood education and assistance program. The pathways shall include an accommodation for these providers to rate at a level 4 or 5 in the early achievers program according to the timelines and standards established in subsection (4)(b)(ii) of

this section. The department must consider using the intermediate level that is between level 3 and level 4 as described in RCW 43.216.085, incentives, and front-end funding in order to encourage providers to participate in the pathway.

Sec. 20. RCW 43.216.530 and 2015 3rd sp.s. c 7 s 10 are each amended to read as follows:

The department shall review applications from public or private organizations for state funding of early childhood education and assistance programs. The department shall consider local community needs, demonstrated capacity, and the need to support a mixed delivery system of early learning that includes alternative models for delivery including licensed centers, outdoor nature-based child care providers, and licensed family child care providers when reviewing applications.

Sec. 21. RCW 43.216.650 and 2015 c 199 s 1 are each amended to read as follows:

(1) For the purposes of this section, "near fatality" means an act that, as certified by a physician, places the child in serious or critical condition.

(2)(a) The department shall conduct a child fatality review if a child fatality occurs in an early learning program described in RCW ((43.215.400 through 43.215.450)) 43.216.500 through 43.216.550 or a licensed child care center, licensed outdoor nature-based child care, or a licensed child care home.

(b) The department shall convene a child fatality review committee and determine the membership of the review committee. The committee shall comprise individuals with appropriate expertise, including but not limited to experts from outside the department with knowledge of early learning licensing requirements and program standards, a law enforcement officer with investigative experience, a representative from a county or state health department, and a child advocate with expertise in child fatalities. The department shall invite one parent or guardian for membership on the child fatality review committee who has had a child die in a child care setting. The department shall ensure that the fatality review team is made up of individuals who had no previous involvement in the case.

(c) The department shall allow the parents or guardians whose child's death is being reviewed to testify before the child fatality review committee.

(d) The primary purpose of the fatality review shall be the development of recommendations to the department and legislature regarding changes in licensing requirements, practice, or policy to prevent fatalities and strengthen safety and health protections for children.

(e) Upon conclusion of a child fatality review required pursuant to this section, the department shall, within one hundred eighty days following the fatality, issue a report on the results of the review, unless an extension has been granted by the governor. Reports must be distributed to the appropriate committees of the legislature, and the department shall create a public web site where all child fatality review reports required under this section must be posted and maintained. A child fatality review report completed pursuant to this section is subject to public disclosure and must be posted on the public web site, except that confidential information may be redacted by the department consistent with the requirements of RCW 13.50.100, 68.50.105, and 74.13.500 through 74.13.525, chapter 42.56 RCW, and other applicable state and federal laws.

(3) The department shall consult with the office of the family and children's ombuds to determine if a review should be conducted in the case of a near child fatality that occurs in an early learning program described in RCW ((43.215.400 through 43.215.450)) 43.216.500 through 43.216.550 or licensed child care center, licensed outdoor nature-based child care, or licensed child care home.

(4) In any review of a child fatality or near fatality, the department and the fatality review team must have access to all records and files regarding the child or that are otherwise relevant to the review and that have been produced or retained by the early education and assistance program provider or licensed child care center, licensed outdoor nature-based child care, or licensed family home provider.

(5) The child fatality review committee shall coordinate with local law enforcement to ensure that the fatality or near fatality review does not interfere with any ongoing or potential criminal investigation.

(6)(a) A child fatality or near fatality review completed pursuant to this section is subject to discovery in a civil or administrative proceeding, but may not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to this section.

(b) A department employee responsible for conducting a child fatality or near fatality review, or member of a child fatality or near fatality review team, may not be examined in a civil or administrative proceeding regarding the following:

(i) The work of the child fatality or near fatality review team;

(ii) The incident under review;

(iii) The employee's or member's statements, deliberations, thoughts, analyses, or impressions relating to the work of the child fatality or near fatality review team or the incident under review; or

(iv) Statements, deliberations, thoughts, analyses, or impressions of any other member of the child fatality or near fatality review team, or any person who provided information to the child fatality or near fatality review team, relating to the work of the child fatality or near fatality review team or the incident under review.

(c) Documents prepared by or for a child fatality or near fatality review team are inadmissible and may not be used in a civil or administrative proceeding, except that any document that exists before its use or consideration in a child fatality or near fatality review, or that is created independently of such review, does not become inadmissible merely because it is reviewed or used by a child fatality or near fatality review team. A person is not unavailable as a witness merely because the person has been interviewed by or has provided a statement for a child fatality or near fatality review, but if called as a witness, a person may not be examined regarding the person's interactions with the child fatality or near fatality review including, without limitation, whether the person was interviewed during such review, the questions that were asked during such review, and the answers that the person provided during such review. This section may not be construed as restricting a person from testifying fully in any proceeding regarding his or her knowledge of the incident under review.

(d) The restrictions in this section do not apply in a licensing or disciplinary proceeding arising from an agency's effort to revoke or suspend the license of any licensed professional based in whole or in part upon allegations of wrongdoing in connection with a minor's death or near fatality reviewed by a child fatality or near fatality review team.

(7) The department shall develop and implement procedures to carry out the requirements of this section.

(8) Nothing in this section creates a duty for the office of the family and children's ombuds under RCW 43.06A.030 as related to children in the care of an early learning program described in RCW ((43.215.400 through 43.215.450)) 43.216.500 through 43.216.550, a licensed child care center, a licensed outdoor nature-based child care, or a licensed child care home.

(2) Promote a variety of culturally and developmentally appropriate child care settings and services of the highest possible quality in accordance with the basic principle of continuity of care. These settings shall include, but not be limited to, family day care homes, (~~mini-centers~~) outdoor nature-based child care centers, and schools.

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5321 with the following amendment(s): 5321-S.E AMH APP H1492.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature enacted the college bound scholarship program in 2007 to encourage all Washington students to dream big by creating a guaranteed four-year tuition scholarship program for students from low-income families. The legislature finds the program has been successful in achieving this goal. A report by the Washington state institute for public policy found that the scholarship increases high school graduation rates, probability of on-time college enrollment, college persistence, and college graduation rates. However, more than one quarter of eligible students are unable to access the scholarship by failing to sign the pledge required by the program. The legislature finds that the pledge has become an unintended barrier to entry, a problem made more acute as students are receiving their education remotely during the COVID-19 pandemic and have less access to school teachers, counselors, and peers. Therefore, the legislature intends with this act to remove the pledge as an eligibility requirement while retaining the requirement that students maintain a "C" average for consideration of admission to a public or private four-year higher education institution and avoid serious interactions with the criminal justice system for four years. In order to ensure that the legislature will fulfill its promise to provide a scholarship upon graduation, the legislature intends by this act to create a statutory contractual right for students who fulfill scholarship requirements

that vests when the student becomes first eligible for the scholarship.

(f) Committed sexual harassment as defined by state law;

(g) Through fraud or misrepresentation, has used the position of peace officer or corrections officer for personal gain;

(h) Engaged in conduct including, but not limited to, verbal statements, writings, online posts, recordings, and gestures, involving prejudice or discrimination against a person on the basis of race, religion, creed, color, national origin, immigration status, disability, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status;

(i) Has affiliation with one or more extremist organizations;

(j) Whether occurring on or off duty, has:

(i) Been found to have committed a felony, without regard to conviction;

(ii) Engaged in a pattern of acts showing an intentional or reckless disregard for the rights of others, including but not limited to violation of an individual's constitutional rights under the state or federal constitution or a violation of RCW 10.93.160;

(iii) Engaged in unsafe practices involving firearms, weapons, or vehicles which indicate either a willful or wanton disregard for the safety of persons or property; or

(iv) Engaged in any conduct or pattern of conduct that: Fails to meet the ethical and professional standards required of a peace officer or corrections officer; disrupts, diminishes, or otherwise

jeopardizes public trust or confidence in the law enforcement profession and correctional system; or demonstrates an inability or unwillingness to uphold the officer's sworn oath to enforce the constitution and laws of the United States and the state of Washington;

(k) Has been suspended or discharged, has resigned or retired in lieu of discharge, or has separated from the agency after the alleged misconduct occurred, for any conduct listed in this section; or

(l) Has voluntarily surrendered the person's certification as a peace officer or corrections officer.

(4) In addition to the penalties set forth in subsection (3) of this section, the commission may require mandatory retraining or placement on probation for up to two years, or both. In determining the appropriate penalty or sanction, the commission shall consider: The findings and conclusions, and the basis for the findings and conclusions, of any due process hearing or disciplinary appeals hearing following an investigation by a law enforcement agency regarding the alleged misconduct, if such hearing has occurred prior to the commission's action; any sanctions or training ordered by the employing agency regarding the alleged misconduct; and whether the employing agency bears any responsibility for the situation.

(5) The commission shall deny certification to any applicant who ~~((has))~~ lost ~~((his or her))~~ certification as a result of a break in service of more than ~~((twenty-four))~~ 24 consecutive months if that applicant failed to comply with the requirements set forth in RCW 43.101.080~~((49))~~ (15) and 43.101.095(2).

(6) The fact that the commission has suspended an officer's certification is not, in and of itself, a bar to the employing agency's maintenance of the officer's health and retirement benefits.

(7) Any suspension or period of probation imposed by the commission shall run concurrently to any leave or discipline imposed by the employing agency for the same incident.

(8) A law enforcement agency may not terminate a peace officer based solely on imposition of suspension or probation by the commission. This subsection does not prohibit a law enforcement agency from terminating a peace officer based on the underlying acts or omissions for which the commission took such action.

(9) Any of the misconduct listed in subsections (2) and (3) of this section is grounds for denial, suspension, or revocation of certification of a reserve officer to the same extent as applied to a peace officer, if the reserve officer is certified pursuant to RCW 43.101.095.

Sec. 10. RCW 43.101.115 and 2001 c 167 s 4 are each amended to read as follows:

(1) A person denied a certification based upon dismissal or withdrawal from a basic law enforcement academy ~~((for any reason not also involving discharge for disqualifying misconduct))~~ or basic corrections academy under RCW 43.101.105(3)(a) is eligible for readmission and certification upon meeting standards established in rules of the commission, which rules may provide for probationary terms on readmission.

(2) A person whose certification is denied or revoked based upon prior administrative error of issuance, failure to cooperate, or interference with an investigation is eligible for certification upon meeting standards established in rules of the commission, ~~((rules which may))~~ which rules shall provide for a probationary period of certification in the event of reinstatement of eligibility.

(3) A person whose certification is mandatorily denied or revoked ~~((based upon a felony criminal conviction))~~ pursuant to RCW 43.101.105(2) is not eligible for certification at any time.

(4) A ~~((peace officer))~~ person whose certification is denied or revoked ~~((based upon discharge for disqualifying misconduct, but not also based upon a felony criminal conviction,))~~ for reasons

other than provided in subsections (1) through (3) of this section may, five years after the revocation or denial, petition the commission for reinstatement of the certificate or for eligibility for reinstatement. The commission ~~((shall))~~ may hold a hearing on the petition to consider reinstatement, and the commission may allow reinstatement based upon standards established in rules of the commission. If the certificate is reinstated or eligibility for certification is determined, the commission ~~((may))~~ shall establish a probationary period of certification.

(5) A ~~((peace officer))~~ person whose certification is revoked based solely upon a criminal conviction may petition the commission for reinstatement immediately upon a final judicial reversal of the conviction. The commission shall hold a hearing on request to consider reinstatement, and the commission may allow reinstatement based on standards established in rules of the commission. If the certificate is reinstated or if eligibility for certification is determined, the commission ~~((may))~~ shall establish a probationary period of certification.

(6) The commission's rules and decisions regarding reinstatement shall align with its responsibilities to enhance public trust and confidence in the law enforcement profession and correctional system.

Sec. 11. RCW 43.101.135 and 2001 c 167 s 6 are each amended to read as follows:

(1)(a) Upon ~~((termination))~~ separation of a peace officer or corrections officer from an employing agency for any reason, including ~~termination~~, resignation, or retirement, the agency ~~((of termination))~~ shall ~~((within fifteen days of the termination,))~~ notify the commission within 15 days of the separation date on a personnel action report form provided by the commission. ~~((The agency of termination shall, upon))~~

(b) If the employer accepts an officer's resignation or retirement in lieu of termination, the employing agency shall report the reasons and rationale in the information provided to the commission, including the findings from any internal or external investigations into alleged misconduct.

(2) In addition to those circumstances under subsection (1) of this section and whether or not disciplinary proceedings have been concluded, the employing agency shall:

(a) Notify the commission within 15 days of learning of the occurrence of any death or serious injury caused by the use of force by an officer or any time an officer has been charged with a crime. Employing agencies must have a policy requiring officers to report any pending criminal charges and any conviction, plea, or other case disposition immediately to their agency; and

(b) Notify the commission within 15 days of an initial disciplinary decision by an employing agency for alleged behavior or conduct by an officer that is noncriminal and may result in revocation of certification pursuant to RCW 43.101.105.

(3) To better enable the commission to act swiftly and comprehensively when misconduct has occurred that may undermine public trust and confidence in law enforcement or the correctional system, if the totality of the circumstances support a conclusion that the officer resigned or retired in anticipation of discipline, whether or not the misconduct was discovered at the time, and when such discipline, if carried forward, would more likely than not have led to discharge, or if the officer was laid off when disciplinary investigation or action was imminent or pending which could have resulted in the officer's suspension or discharge, the employing agency shall conduct and complete the investigation and provide all relevant information to the commission as if the officer were still employed by the agency.

(4) Upon request of the commission, the employing agency shall provide such additional documentation or information as the commission deems necessary to determine whether the

~~((termination))~~ separation or event provides grounds for suspension or revocation ~~((under RCW 43.101.105)).~~

(5) At its discretion, the commission may:

(a) Initiate decertification proceedings upon conclusion of any investigation or disciplinary proceedings initiated by the employing agency;

(b) Separately pursue action against the officer's certification under RCW 43.101.105; or

(c) Wait to proceed until any investigation, disciplinary proceedings, or appeals through the employing agency are final before taking action. Where a decertification decision requires a finding that the officer's conduct violated policy and the employing agency has begun its investigation into the underlying event, the commission shall await notification of a finding by the employing agency before beginning the decertification process.

(6) No action or failure to act by an employing agency or decision resulting from an appeal of that action precludes action by the commission to suspend or revoke an officer's certification.

(7) An employing agency may not enter into any agreement or contract with an officer, or union:

(a) Not to report conduct, delay reporting, or preclude disclosure of any relevant information, including a promise not to check the box on a commission notice that indicates the officer may have committed misconduct, in exchange for allowing an officer to resign or retire or for any other reason; or

(b) That allows the agency to destroy or remove any personnel record while the officer is employed and for 10 years thereafter. Such records must include all misconduct and equal employment opportunity complaints, progressive discipline imposed including written reprimands, supervisor coaching, suspensions, involuntary transfers, investigatory files, and other disciplinary appeals and litigation records.

(8) The commission shall maintain ~~((these notices))~~ all information provided pursuant to this section in a permanent file ~~((subject to RCW 43.101.400)).~~

(9) In addition to disciplinary action authorized in RCW 43.101.105, the commission may impose a civil penalty not to exceed \$10,000 for the failure by an officer or an employing agency to timely and accurately report information pursuant to this section.

Sec. 12. RCW 43.101.145 and 2001 c 167 s 8 are each amended to read as follows:

~~((A law enforcement officer or duly authorized representative of a law enforcement agency))~~ (1) Any individual may submit a written complaint to the commission ~~((charging))~~ stating that ~~((a peace))~~ an officer's certificate should be denied, suspended, or revoked, and specifying the grounds for the ~~((charge))~~ complaint. Filing a complaint does not make a complainant a party to the commission's action.

(2) The commission has sole discretion whether to investigate a complaint, and the commission has sole discretion whether to investigate matters relating to certification, denial of certification, or revocation of certification on any other basis, without restriction as to the source or the existence of a complaint. All complaints must be resolved with a written determination, regardless of the decision to investigate.

(3) The commission may initiate an investigation in any instance where there is a pattern of complaints or other actions that may not have resulted in a formal adjudication of wrongdoing, but when considered together demonstrate conduct that would constitute a violation of RCW 43.101.105 (2) or (3). The commission must consider the agency's policies and procedures and the officer's job duties and assignment in determining what constitutes a pattern.

(4) A person who files a complaint in good faith under this section is immune from suit or any civil action related to the filing or the contents of the complaint.

Sec. 13. RCW 43.101.155 and 2001 c 167 s 9 are each amended to read as follows:

(1) If the commission determines, upon investigation, that there is ~~((probable))~~ cause to believe that a peace officer's ~~or corrections officer's~~ certification should be denied, ~~suspended,~~ or revoked under RCW 43.101.105, the commission must prepare and serve upon the officer a statement of charges. Service on the officer must be by mail or by personal service on the officer ~~unless the officer has consented to service in some other manner, including electronic notification.~~ Notice of the charges must also be mailed to or otherwise served upon the officer's agency of ~~((termination))~~ ~~separation~~ and any current ~~((law enforcement))~~ agency employer. The statement of charges must be accompanied by a notice that to receive a hearing on the denial or revocation, the officer must, within ~~((sixty))~~ 60 days of ~~((communication of))~~ the statement of charges, request a hearing before the ~~((board))~~ panel appointed under RCW 43.101.380. Failure of the officer to request a hearing within the ~~((sixty-day))~~ 60-day period constitutes a default, whereupon the commission may enter an order under RCW 34.05.440.

(2) If a hearing is requested, the officer is required to provide an email address that constitutes the officer's legal address for purposes of any subsequent communication from the commission. Unless otherwise agreed to by the mutual agreement of the parties or for good cause, within two weeks of receipt of the officer's request for a hearing, the commission shall set a date ~~((of))~~ for the hearing, which must be ~~((scheduled not earlier than ninety days nor later than one hundred eighty days after communication of the statement of charges to the officer; the one hundred eighty day period may be extended on mutual agreement of the parties or for good cause))~~ held within 90 days thereafter. ~~((The))~~ On the date the hearing is set, the commission shall ~~((give))~~ transmit electronic and written notice of the hearing ~~((at least twenty days prior to the hearing))~~ to the officer, and provide public notice on the commission website, specifying the time, date, and place of hearing.

Sec. 14. RCW 43.101.157 and 2006 c 22 s 2 are each amended to read as follows:

(1) Tribal governments may voluntarily request certification for their police officers. Tribal governments requesting certification for their police officers must enter into a written agreement with the commission. The agreement must require the tribal law enforcement agency and its officers to comply with all of the requirements for granting, denying, and revoking certification as those requirements are applied to peace officers certified under this chapter and the rules of the commission. To ensure clarity regarding the requirements with which the tribal government and its police officers must comply should the tribal government request certification, a tribal government may first request consultation with the commission.

(2) Officers making application for certification as tribal police officers shall meet the requirements of this chapter and the rules of the commission as those requirements are applied to certification of peace officers. Application for certification as a tribal police officer shall be accepted and processed in the same manner as those for certification of peace officers.

~~((3) For purposes of certification, "tribal police officer" means any person employed and commissioned by a tribal government to enforce the criminal laws of that government.))~~

Sec. 15. RCW 43.101.230 and 1981 c 134 s 1 are each amended to read as follows:

~~((Indian tribe))~~ Tribal police officers and employees who are engaged in law enforcement activities and who do not qualify as

"criminal justice personnel" or "law enforcement personnel" under RCW 43.101.010~~((as now law or hereafter amended, may))~~ shall be provided training under this chapter if: (a) The tribe is recognized by the federal government, and (b) the tribe pays to the commission the full cost of providing such training. The commission shall place all money received under this section into the criminal justice training account.

Sec. 16. RCW 43.101.390 and 2001 c 167 s 11 are each amended to read as follows:

(1) The commission~~((, its boards,))~~ and individuals acting on behalf of the commission ~~((and its boards))~~ are immune from suit in any civil or criminal action contesting or based upon proceedings or other official acts performed in the course of their duties in the administration and enforcement of this chapter.

(2) Without limiting the generality of the foregoing, the commission and individuals acting on behalf of the commission are immune from suit in any civil action based on the certification, denial of certification, suspension, or other action regarding decertification of peace officers, reserve officers, or corrections officers.

Sec. 17. RCW 43.101.420 and 2009 c 19 s 1 are each amended to read as follows:

(1) The commission shall offer a training session on personal crisis recognition and crisis intervention services to criminal justice, ~~((correctional personnel))~~ corrections, and other public safety employees. The training shall be implemented by the commission in consultation with appropriate public and private organizations that have expertise in crisis referral services and in the underlying conditions leading to the need for crisis referral.

(2) The training shall consist of a minimum of one hour of classroom or internet instruction, and shall include instruction on the following subjects:

(a) The description and underlying causes of problems that may have an impact on the personal and professional lives of public safety employees, including mental health issues, chemical dependency, domestic violence, financial problems, and other personal crises;

(b) Techniques by which public safety employees may recognize the conditions listed in (a) of this subsection and understand the need to seek assistance and obtain a referral for consultation and possible treatment; and

(c) A listing of examples of public and private crisis referral agencies available to public safety employees.

(3) The training developed by the commission shall be made available by the commission to all employees of state and local agencies that perform public safety duties. The commission may charge a reasonable fee to defer the cost of making the training available.

Sec. 18. RCW 34.12.035 and 1984 c 141 s 6 are each amended to read as follows:

The chief administrative law judge shall designate an administrative law judge with subject matter expertise to serve, as the need arises, as presiding officer in ~~((state))~~:

(1) State patrol disciplinary hearings conducted under RCW 43.43.090; and

(2) Decertification hearings conducted under RCW 43.101.380.

Sec. 19. RCW 40.14.070 and 2011 c 60 s 18 are each amended to read as follows:

(1)(a) ~~((County))~~ Other than those records detailed in subsection (4) of this section, county, municipal, and other local government agencies may request authority to destroy noncurrent public records having no further administrative or legal value by submitting to the division of archives and records management lists of such records on forms prepared by the division. The archivist, a representative appointed by the state auditor, and a

2021 REGULAR SESSION

representative appointed by the attorney general shall constitute a committee, known as the local records committee, which shall review such lists and which may veto the destruction of any or all items contained therein.

(b) A local government agency, as an alternative to submitting lists, may elect to establish a records control program based on recurring disposition schedules recommended by the agency to the local records committee. The schedules are to be submitted on forms provided by the division of archives and records management to the local records committee, which may either veto, approve, or amend the schedule. Approval of such schedule or amended schedule shall be by unanimous vote of the local records committee. Upon such approval, the schedule shall constitute authority for the local government agency to destroy the records listed thereon, after the required retention period, on a recurring basis until the schedule is either amended or revised by the committee.

(2)(a) Except as otherwise provided by law, and other than the law enforcement records detailed in subsection (4) of this section, no public records shall be destroyed until approved for destruction by the local records committee. Official public records shall not be destroyed unless:

(i) The records are six or more years old;

(ii) The department of origin of the records has made a satisfactory showing to the state records committee that the retention of the records for a minimum of six years is both unnecessary and uneconomical, particularly where lesser federal retention periods for records generated by the state under federal programs have been established; or

(iii) The originals of official public records less than six years old have been copied or reproduced by any photographic, photostatic, microfilm, miniature photographic, or other process approved by the state archivist which accurately reproduces or forms a durable medium for so reproducing the original.

An automatic reduction of retention periods from seven to six years for official public records on record retention schedules existing on June 10, 1982, shall not be made, but the same shall be reviewed individually by the local records committee for approval or disapproval of the change to a retention period of six years.

The state archivist may furnish appropriate information, suggestions, and guidelines to local government agencies for their assistance in the preparation of lists and schedules or any other matter relating to the retention, preservation, or destruction of records under this chapter. The local records committee may adopt appropriate regulations establishing procedures to be followed in such matters.

Records of county, municipal, or other local government agencies, designated by the archivist as of primarily historical interest, may be transferred to a recognized depository agency.

(b)(i) Records of investigative reports prepared by any state, county, municipal, or other law enforcement agency pertaining to sex offenders contained in chapter 9A.44 RCW or sexually violent offenses as defined in RCW 71.09.020 that are not required in the current operation of the law enforcement agency or for pending judicial proceedings shall, following the expiration of the applicable schedule of the law enforcement agency's retention of the records, be transferred to the Washington association of sheriffs and police chiefs for permanent electronic retention and retrieval. Upon electronic retention of any document, the association shall be permitted to destroy the paper copy of the document.

(ii) Any sealed record transferred to the Washington association of sheriffs and police chiefs for permanent electronic retention and retrieval, including records sealed after transfer,

shall be electronically retained in such a way that the record is clearly marked as sealed.

(iii) The Washington association of sheriffs and police chiefs shall be permitted to destroy both the paper copy and electronic record of any offender verified as deceased.

(c) Any record transferred to the Washington association of sheriffs and police chiefs pursuant to (b) of this subsection shall be deemed to no longer constitute a public record pursuant to RCW 42.56.010 and shall be exempt from public disclosure. Such records shall be disseminated only to criminal justice agencies as defined in RCW 10.97.030 for the purpose of determining if a sex offender met the criteria of a sexually violent predator as defined in chapter 71.09 RCW and the end-of-sentence review committee as defined by RCW 72.09.345 for the purpose of fulfilling its duties under RCW 71.09.025 and 9.95.420.

Electronic records marked as sealed shall only be accessible by criminal justice agencies as defined in RCW 10.97.030 who would otherwise have access to a sealed paper copy of the document, the end-of-sentence review committee as defined by RCW 72.09.345 for the purpose of fulfilling its duties under RCW 71.09.025 and 9.95.420, and the system administrator for the purposes of system administration and maintenance.

(3) Except as otherwise provided by law, county, municipal, and other local government agencies may, as an alternative to destroying noncurrent public records having no further administrative or legal value, donate the public records to the state library, local library, historical society, genealogical society, or similar society or organization.

Public records may not be donated under this subsection unless:

(a) The records are seventy years old or more;

(b) The local records committee has approved the destruction of the public records; and

(c) The state archivist has determined that the public records have no historic interest.

(4) Personnel records for any peace officer or corrections officer must be retained for the duration of the officer's employment and a minimum of 10 years thereafter. Such records include all misconduct and equal employment opportunity complaints, progressive discipline imposed including written reprimands, supervisor coaching, suspensions, involuntary transfers, other disciplinary appeals and litigation records, and any other records needed to comply with the requirements set forth in RCW 43.101.095 and 43.101.135.

Sec. 20. RCW 43.101.380 and 2020 c 119 s 10 are each amended to read as follows:

(1) The procedures governing adjudicative proceedings before agencies under chapter 34.05 RCW, the administrative procedure act, govern hearings before the commission and govern all other actions before the commission unless otherwise provided in this chapter. The standard of proof in actions before the commission is ~~((clear, cogent, and convincing))~~ a preponderance of the evidence.

(2) In all hearings requested under RCW 43.101.155 ~~((or 43.101.156)), an administrative law judge appointed under chapter 34.12 RCW shall be the presiding officer, shall make all necessary rulings in the course of the hearing, and shall issue a proposed recommendation, but is not entitled to vote. In addition, a five-member hearings panel shall ((both)) hear the case and make the commission's final administrative decision. ((Members of the commission may, but need not, be appointed to the hearings panels:))~~

~~((as follows two or more panels))~~ a panel to hear certification actions as follows:

(a) When a hearing is requested in relation to a certification action of a Washington peace officer (~~who is not a peace officer of the Washington state patrol~~), the commission shall appoint to the panel: (i) One police chief (~~(- (ii) one)~~) or sheriff from an agency not a current or past employer of the peace officer; (~~((iii) two)~~) (ii) one certified Washington peace officer(s) who (are) is at or below the level of first line supervisor (~~(- one of whom is from a city or county law enforcement agency,))~~) and who (~~(have)~~) has at least ten years' experience as a peace officer(s); (~~(and (iv) one person who is not currently a peace officer and who represents a community college or four-year college or university))~~) (iii) one civilian member of the commission as appointed under RCW 43.101.030(1) (f) and (h) through (j); (iv) one member of the public who is not a prosecutor, defense attorney, judge, or law enforcement officer; and (v) one person with expertise and background in police accountability who is not a current or former peace officer or corrections officer.

(b) (~~When a hearing is requested in relation to a certification action of a peace officer of the Washington state patrol, the commission shall appoint to the panel:~~) (i) Either one police chief or one sheriff; (ii) one administrator of the state patrol; (iii) one certified Washington peace officer who is at or below the level of first line supervisor, who is not a state patrol officer, and who has at least ten years' experience as a peace officer; (iv) one state patrol officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer; and (v) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(e)) When a hearing is requested in relation to a certification action of a Washington corrections officer, the commission shall appoint to the panel: (i) (~~Two heads of~~) A person who heads either a city or county corrections agency or facility or of a Washington state department of corrections facility; (ii) (~~two~~) one corrections officer(s) who (are) is at or below the level of first line supervisor (who are from city, county, or state corrections agencies,)) and who (~~(have)~~) has at least ten years' experience as a corrections officer(s); (iii) one civilian member of the commission as appointed under RCW 43.101.030(1) (f) and (h) through (j); (iv) one member of the public who is not a prosecutor, defense attorney, judge, or law enforcement officer; and (~~((iii))~~) (v) one person with expertise and background in police accountability who is not (currently) a current or former peace officer or corrections officer (and who represents a community college or four-year college or university).

(~~(d)~~) (c) When a hearing is requested in relation to a certification action of a tribal police officer, the commission shall appoint to the panel (i) (~~either one police chief or one sheriff;~~) (ii) one tribal police chief; (~~((iii) one certified Washington peace officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer;~~) (iv)) (ii) one tribal police officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer; (~~(and (v) one person who is not currently a peace officer and who represents a community college or four-year college or university))~~) (iii) one civilian member of the commission as appointed under RCW 43.101.030(1) (f) and (h) through (j); (iv) one member of the public who is not a prosecutor, defense attorney, judge, or law enforcement officer; and (v) one person with expertise and background in police accountability who is not a current or former peace officer or corrections officer.

(~~(e))~~) (d) Persons appointed to hearings panels by the commission shall, in relation to any certification action on which they sit, have the powers, duties, and immunities, and are entitled to the emoluments, including travel expenses in accordance with RCW 43.03.050 and 43.03.060, of regular commission members.

(~~(3)~~) ~~Where the charge upon which revocation or denial is based is that a peace officer or corrections officer was "discharged for disqualifying misconduct," and the discharge is "final," within the meaning of RCW 43.101.105(1)(d) or 43.101.106(4), and the officer received a civil service hearing or arbitration hearing culminating in an affirming decision following separation from service by the employer, the hearings panel may revoke or deny certification if the hearings panel determines that the discharge occurred and was based on disqualifying misconduct;)~~ (4) In decertification matters where there was a due process hearing or a disciplinary appeals hearing following an investigation by a law enforcement agency, or a criminal hearing regarding the alleged misconduct, the hearings panel need not redetermine the underlying facts but may make ((this)) its determination based solely on review of the records and decision relating to ((the employment separation)) those proceedings and any investigative or summary materials from the administrative law judge, legal counsel, and commission staff. However, the hearings panel may, in its discretion, consider additional evidence to determine whether ((such a discharge)) misconduct occurred ((and was based on such disqualifying misconduct)). The hearings panel shall, upon written request by the subject peace officer or corrections officer, allow the peace officer or corrections officer to present additional evidence of extenuating circumstances.

(~~Where the charge upon which revocation or denial of certification is based is that a peace officer or corrections officer "has been convicted at any time of a felony offense" within the meaning of RCW 43.101.105(1)(e) or 43.101.106(3), the hearings panel shall revoke or deny certification if it determines that the peace officer or corrections officer was convicted of a felony. The hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the criminal proceeding. However, the hearings panel shall, upon the panel's determination of relevancy, consider additional evidence to determine whether the peace officer or corrections officer was convicted of a felony.~~)

~~Where the charge upon which revocation or denial is based is under RCW 43.101.105(1) (a), (b), (c), or (f) or 43.101.106 (1), (2), (5), or (6), the hearings panel shall determine the underlying facts relating to the charge upon which revocation or denial of certification is based.~~

(4)) (5) The commission is authorized to proceed regardless of whether an arbitrator or other appellate decision maker overturns the discipline imposed by the officer's employing agency or whether the agency settles an appeal. No action or failure to act by a law enforcement agency or corrections agency or decision resulting from an appeal of that action precludes action by the commission to suspend or revoke an officer's certificate, to place on probation, or to require remedial training for the officer.

(6) The hearings, but not the deliberations of the hearings panel, are open to the public. The transcripts, admitted evidence, and written decisions of the hearings panel on behalf of the commission are not confidential or exempt from public disclosure, and are subject to subpoena and discovery proceedings in civil actions.

(7) Summary records of hearing dispositions must be made available on an annual basis on a public website.

(8) The commission's final administrative decision is subject to judicial review under RCW 34.05.510 through 34.05.598.

Sec. 21. RCW 43.101.400 and 2020 c 119 s 12 are each amended to read as follows:

(1) Except as provided under subsection (2) of this section, ((the following records of the commission are confidential and exempt from public disclosure: (a) The contents of personnel action reports filed under RCW 43.101.135 or 43.101.136; (b)) all files, papers, and other information obtained by the

MR. PRESIDENT:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 7.70.065 and 2020 c 312 s 705 are each amended to read as follows:

(1) Informed consent for health care for a patient who ~~((is a minor or, to consent))~~ does not have the capacity to make a health care decision may be obtained from a person authorized to consent on behalf of such patient. For purposes of this section, a person who is of the age of consent to make a particular health care decision is presumed to have capacity, unless a health care provider reasonably determines the person lacks capacity to make the health care decision due to the person's demonstrated inability to understand and appreciate the nature and consequences of a health condition, the proposed treatment, including the anticipated results, benefits, risks, and alternatives to the proposed treatment, including nontreatment, and reach an informed decision as a result of cognitive impairment; and the health care provider documents the basis for the determination in the medical record.

(a) Persons authorized to provide informed consent to health care on behalf of ~~((a))~~ an adult patient who ~~((has been placed under a guardianship under RCW 11.130.265 a minor or,))~~ does not have the capacity to make a health care decision shall be a member of one of the following classes of persons in the following order of priority:

- (i) The appointed guardian of the patient, if any;
- (ii) The individual, if any, to whom the patient has given a durable power of attorney that encompasses the authority to make health care decisions;
- (iii) The patient's spouse or state registered domestic partner;
- (iv) Children of the patient who are at least eighteen years of age;
- (v) Parents of the patient;
- (vi) Adult brothers and sisters of the patient;
- (vii) Adult grandchildren of the patient who are familiar with the patient;
- (viii) Adult nieces and nephews of the patient who are familiar with the patient;
- (ix) Adult aunts and uncles of the patient who are familiar with the patient; and
- (x)(A) An adult who:
 - (I) Has exhibited special care and concern for the patient;
 - (II) Is familiar with the patient's personal values;

 - (V) Provides a declaration under (a)(x)(B) of this subsection.

(B) An adult who meets the requirements of (a)(x)(A) of this subsection shall provide a declaration, which is effective for up to six months from the date of the declaration, signed and dated under penalty of perjury pursuant to chapter 5.50 RCW, that recites facts and circumstances demonstrating that he or she is familiar with the patient and that he or she:

- (I) Meets the requirements of (a)(x)(A) of this subsection;
- (II) Is a close friend of the patient;
- (III) Is willing and able to become involved in the patient's health care;
- (IV) Has maintained such regular contact with the patient as to be familiar with the patient's activities, health, personal values, and morals; and

(V) Is not aware of a person in a higher priority class willing and able to provide informed consent to health care on behalf of the patient.

(C) A health care provider may, but is not required to, rely on a declaration provided under (a)(x)(B) of this subsection. The health care provider or health care facility where services are rendered is immune from suit in any action, civil or criminal, or from professional or other disciplinary action when such reliance is based on a declaration provided in compliance with (a)(x)(B) of this subsection.

(b) If the health care provider seeking informed consent for proposed health care of the patient who ~~((has been placed under a guardianship under RCW 11.130.265,))~~ does not have the capacity to make a particular health care decision, other than a person who is under the age of consent for the particular health care decision, makes reasonable efforts to locate and secure authorization from a competent person in the first or succeeding class and finds no such person available, authorization may be given by any person in the next class in the order of descending priority. However, no person under this section may provide informed consent to health care:

- (i) If a person of higher priority under this section has refused to give such authorization; or
- (ii) If there are two or more individuals in the same class and the decision is not unanimous among all available members of that class.

(c) Before any person authorized to provide informed consent on behalf of a patient who ~~((has been placed under a guardianship under RCW 11.130.265,))~~ does not have the capacity to make a health care decision exercises that authority, the person must first determine in good faith that that patient, if ~~((competent))~~ he or she had the capacity to make the health care decision, would consent to the proposed health care. If such a determination cannot be made, the decision to consent to the proposed health care may be made only after determining that the proposed health care is in the patient's best interests. This subsection (1)(c) does not apply to informed consent provided on behalf of a patient who has not reached the age of consent required to make a particular health care decision.

(d) No rights under Washington's death with dignity act, chapter 70.245 RCW, may be exercised through a person authorized to provide informed consent to health care on behalf of a patient who ~~((is a minor or has been placed under a guardianship under RCW 11.130.265))~~ does not have the capacity to make a health care decision.

(2) Informed consent for health care, including mental health care, for a patient who is under the age of majority and who is not otherwise authorized to provide informed consent, may be obtained from a person authorized to consent on behalf of such a patient.

(a) Persons authorized to provide informed consent to health care, including mental health care, on behalf of a patient who is under the age of majority and who is not otherwise authorized to

provide informed consent, shall be a member of one of the following classes of persons in the following order of priority:

- (i) The appointed guardian, or legal custodian authorized pursuant to Title 26 RCW, of the minor patient, if any;
- (ii) A person authorized by the court to consent to medical care for a child in out-of-home placement pursuant to chapter 13.32A or 13.34 RCW, if any;
- (iii) Parents of the minor patient;
- (iv) The individual, if any, to whom the minor's parent has given a signed authorization to make health care decisions for the minor patient; and
- (v) A competent adult representing himself or herself to be a relative responsible for the health care of such minor patient or a competent adult who has signed and dated a declaration under penalty of perjury pursuant to chapter 5.50 RCW stating that the adult person is a relative responsible for the health care of the minor patient. Such declaration shall be effective for up to six months from the date of the declaration.

(b)(i) Informed consent for health care on behalf of a patient who is under the age of majority and who is not otherwise authorized to provide informed consent may be obtained from a school nurse, school counselor, or homeless student liaison when:

(A) Consent is necessary for nonemergency, outpatient, primary care services, including physical examinations, vision examinations and eyeglasses, dental examinations, hearing examinations and hearing aids, immunizations, treatments for illnesses and conditions, and routine follow-up care customarily provided by a health care provider in an outpatient setting, excluding elective surgeries;

(B) The minor patient meets the definition of a "homeless child or youth" under the federal McKinney-Vento homeless education assistance improvements act of 2001, P.L. 107-110, January 8, 2002, 115 Stat. 2005; and

(ii) A person authorized to consent to care under this subsection (2)(b) and the person's employing school or school district are not subject to administrative sanctions or civil damages resulting from the consent or nonconsent for care, any care, or payment for any care, rendered pursuant to this section. Nothing in this section prevents a health care facility or a health care provider from seeking reimbursement from other sources for care provided to a minor patient under this subsection (2)(b).

(iii) Upon request by a health care facility or a health care provider, a person authorized to consent to care under this subsection (2)(b) must provide to the person rendering care a declaration signed and dated under penalty of perjury pursuant to chapter 5.50 RCW stating that the person is a school nurse, school counselor, or homeless student liaison and that the minor patient meets the elements under (b)(i) of this subsection. The declaration must also include written notice of the exemption from liability under (b)(ii) of this subsection.

(c) A health care provider may, but is not required to, rely on the representations or declaration of a person claiming to be a relative responsible for the care of the minor patient, under (a)(v) of this subsection, or a person claiming to be authorized to consent to the health care of the minor patient under (b) of this subsection, if the health care provider does not have actual notice of the falsity of any of the statements made by the person claiming to be a relative responsible for the health care of the minor patient, or person claiming to be authorized to consent to the health care of the minor patient.

(d) A health care facility or a health care provider may, in its discretion, require documentation of a person's claimed status as being a relative responsible for the health care of the minor

(4) If a recognized health care emergency exists and the patient ~~((is not legally competent))~~ does not have the capacity to give an informed consent and/or a person legally authorized to consent on behalf of the patient is not readily available, his or her consent to required treatment will be implied.

Sec. 3. RCW 7.70.060 and 2012 c 101 s 1 are each amended to read as follows:

(1) If a patient ~~((while legally competent))~~ who has capacity to make health a care decision, or his or her representative if he or she ~~((is not competent))~~ does not have the capacity to make a health care decision, signs a consent form which sets forth the following, the signed consent form shall constitute prima facie evidence that the patient gave his or her informed consent to the treatment administered and the patient has the burden of rebutting this by a preponderance of the evidence:

(a) A description, in language the patient could reasonably be expected to understand, of:

(i) The nature and character of the proposed treatment;

(ii) The anticipated results of the proposed treatment;

An acknowledgment of shared decision making shall include:

(a) A statement that the patient, or his or her representative, and the health care provider have engaged in shared decision making as an alternative means of meeting the informed consent requirements set forth by laws, accreditation standards, and other mandates;

(b) A brief description of the services that the patient and provider jointly have agreed will be furnished;

(3) As used in this section, "shared decision making" means a process in which the physician or other health care practitioner discusses with the patient or his or her representative the information specified in subsection (2) of this section with the use of a patient decision aid and the patient shares with the provider such relevant personal information as might make one treatment or side effect more or less tolerable than others.

(4)(a) As used in this section, "patient decision aid" means a written, audiovisual, or online tool that provides a balanced presentation of the condition and treatment options, benefits, and harms, including, if appropriate, a discussion of the limits of scientific knowledge about outcomes, for any medical condition or procedure, including abortion as defined in RCW 9.02.170 and:

(ii) That, if a current evaluation is not available from an organization located in the United States or Canada, the medical director of the health care authority has independently assessed and certified based on the international patient decision aid standards.

(b) The health care authority may charge a fee to the certification applicant to defray the costs of the assessment and certification under this subsection.

(5) Failure to use a form or to engage in shared decision making, with or without the use of a patient decision aid, shall not be admissible as evidence of failure to obtain informed consent. There shall be no liability, civil or otherwise, resulting from a health care provider choosing either the signed consent form set forth in subsection (1)(a) of this section or the signed acknowledgment of shared decision making as set forth in subsection (2) of this section.

Sec. 4. RCW 69.50.317 and 2019 c 314 s 17 are each amended to read as follows:

(b) Pain management alternatives to opioids, including nonopioid pharmacological treatments, and nonpharmacological treatments available to the patient, at the discretion of the practitioner and based on the medical condition of the patient; and

(c) A written copy of the warning language provided by the department under RCW 43.70.765.

(2) If the patient is under eighteen years old or ~~((is not competent))~~ does not have the capacity to make a health care decision, the discussion required by subsection (1) of this section must include the patient's parent, guardian, or the person identified in RCW 7.70.065, unless otherwise provided by law.

(3) The practitioner shall document completion of the requirements in subsection (1) of this section in the patient's health care record.

(4) To fulfill the requirements of subsection (1) of this section, a practitioner may designate any individual who holds a credential issued by a disciplining authority under RCW 18.130.040 to conduct the discussion.

(5) Violation of this section constitutes unprofessional conduct under chapter 18.130 RCW.

(6) This section does not apply to:

(a) Opioid prescriptions issued for the treatment of pain associated with terminal cancer or other terminal diseases, or for palliative, hospice, or other end-of-life care of where the practitioner determines the health, well-being, or care of the patient would be compromised by the requirements of this section and documents such basis for the determination in the patient's health care record; or

(b) Administration of an opioid in an inpatient or outpatient treatment setting.

(7) This section does not apply to practitioners licensed under chapter 18.92 RCW.

(8) The department shall review this section by March 31, 2026, and report to the appropriate committees of the legislature on whether this section should be retained, repealed, or amended.

Sec. 5. RCW 70.02.220 and 2017 3rd sp.s. c 6 s 332 are each amended to read as follows:

(1) No person may disclose or be compelled to disclose the identity of any person who has investigated, considered, or requested a test or treatment for a sexually transmitted disease,

except as authorized by this section, RCW 70.02.210, or chapter 70.24 RCW.

(2) No person may disclose or be compelled to disclose information and records related to sexually transmitted diseases, except as authorized by this section, RCW 70.02.210, 70.02.205, or chapter 70.24 RCW. A person may disclose information related to sexually transmitted diseases about a patient without the patient's authorization, to the extent a recipient needs to know the information, if the disclosure is to:

(a) The subject of the test or the subject's legal representative for health care decisions in accordance with RCW 7.70.065, with the exception of such a representative of a minor fourteen years of age or over and otherwise ~~((competent))~~ capable of making health care decisions;

(b) The state ~~((public))~~ health officer as defined in RCW 70.24.017, a local public health officer, or the centers for disease control of the United States public health service in accordance with reporting requirements for a diagnosed case of a sexually transmitted disease;

(c) A health facility or health care provider that procures, processes, distributes, or uses: (i) A human body part, tissue, or blood from a deceased person with respect to medical information regarding that person; (ii) semen, including that was provided prior to March 23, 1988, for the purpose of artificial insemination; or (iii) blood specimens;

(d) Any state or local public health officer conducting an investigation pursuant to RCW 70.24.024, so long as the record was obtained by means of court-ordered HIV testing pursuant to RCW 70.24.340 or 70.24.024;

(e) A person allowed access to the record by a court order granted after application showing good cause therefor. In assessing good cause, the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of the order, the court, in determining the extent to which any disclosure of all or any part of the record of any such test is necessary, shall impose appropriate safeguards against unauthorized disclosure. An order authorizing disclosure must: (i) Limit disclosure to those parts of the patient's record deemed essential to fulfill the objective for which the order was granted; (ii) limit disclosure to those persons whose need for information is the basis for the order; and (iii) include any other appropriate measures to keep disclosure to a minimum for the protection of the patient, the physician-patient relationship, and the treatment services;

(f) Persons who, because of their behavioral interaction with the infected individual, have been placed at risk for acquisition of a sexually transmitted disease, as provided in RCW 70.24.022, if the health officer or authorized representative believes that the exposed person was unaware that a risk of disease exposure existed and that the disclosure of the identity of the infected person is necessary;

(g) A law enforcement officer, firefighter, health care provider, health care facility staff person, department of correction's staff person, jail staff person, or other persons as defined by the board of health in rule pursuant to RCW 70.24.340~~((4))~~, who has requested a test of a person whose bodily fluids he or she has been substantially exposed to, pursuant to RCW 70.24.340~~((4))~~, if a state or local public health officer performs the test;

(h) Claims management personnel employed by or associated with an insurer, health care service contractor, health maintenance organization, self-funded health plan, state administered health care claims payer, or any other payer of health care claims where such disclosure is to be used solely for the prompt and accurate evaluation and payment of medical or related claims. (i) A department of children, youth, and families worker, a child-placing agency worker, or a guardian ad litem who is responsible for making or reviewing placement or case-planning decisions or recommendations to the court regarding a child, who is less than fourteen years of age, has a sexually transmitted disease, and is in the custody of the department of children, youth, and families or a licensed child-placing agency. This information may also be received by a person responsible for providing residential care for such a child when the department of social and health services, the department of children, youth, and families, or a licensed child-placing agency determines that it is necessary for the provision of child care services.

(3) No person to whom the results of a test for a sexually transmitted disease have been disclosed pursuant to subsection (2) of this section may disclose the test results to another person except as authorized by that subsection.

(a) The sexually transmitted disease status of a department of corrections offender who has had a mandatory test conducted pursuant to RCW 70.24.340(1), 70.24.360, or 70.24.370 must be made available by department of corrections health care providers and local public health officers to the department of corrections health care administrator or infection control coordinator of the facility in which the offender is housed. The information may be submitted to transporting officers and receiving facilities, including facilities that are not under the department of corrections' jurisdiction according to the provisions of (d) and (e) of this subsection.

(b) The sexually transmitted disease status of a person detained in a jail who has had a mandatory test conducted pursuant to RCW 70.24.340(1), 70.24.360, or 70.24.370 must be made available by the local public health officer to a jail health care administrator or infection control coordinator. (c) Information regarding the sexually transmitted disease status of an offender or detained person is confidential and may be disclosed by a correctional health care administrator or infection control coordinator or local jail health care administrator or infection control coordinator only as necessary for disease prevention or control and for protection of the safety and security of the staff, offenders, and the public. Unauthorized disclosure of this information to any person may result in disciplinary action, in addition to the penalties prescribed in RCW 70.24.080 or any other penalties as may be prescribed by law.

(d) Notwithstanding the limitations on disclosure contained in (a), (b), and (c) of this subsection, whenever any member of a jail staff or department of corrections staff has been substantially exposed to the bodily fluids of an offender or detained person, then the results of any tests conducted pursuant to RCW 70.24.340(1), 70.24.360, or 70.24.370, must be immediately disclosed to the staff person in accordance with the Washington Administrative Code rules governing employees' occupational

exposure to blood-borne pathogens. Disclosure must be accompanied by appropriate counseling for the staff member, including information regarding follow-up testing and treatment. Disclosure must also include notice that subsequent disclosure of the information in violation of this chapter or use of the information to harass or discriminate against the offender or detainee may result in disciplinary action, in addition to the penalties prescribed in RCW 70.24.080, and imposition of other penalties prescribed by law.

(e) The staff member must also be informed whether the offender or detained person had any other communicable disease, as defined in RCW 72.09.251(3), when the staff person was substantially exposed to the offender's or detainee's bodily fluids.

(f) The test results of voluntary and anonymous HIV testing or HIV-related condition, as defined in RCW 70.24.017, may not be disclosed to a staff person except as provided in this section and RCW 70.02.050(1)(d) and 70.24.340(~~((4))~~). A health care administrator or infection control coordinator may provide the staff member with information about how to obtain the offender's or detainee's test results under this section and RCW 70.02.050(1)(d) and 70.24.340(~~((4))~~).

(5) The requirements of this section do not apply to the customary methods utilized for the exchange of medical information among health care providers in order to provide health care services to the patient, nor do they apply within health care facilities where there is a need for access to confidential medical information to fulfill professional duties.

(6) Upon request of the victim, disclosure of test results under this section to victims of sexual offenses under chapter 9A.44 RCW must be made if the result is negative or positive. The county prosecuting attorney shall notify the victim of the right to such disclosure. The disclosure must be accompanied by appropriate counseling, including information regarding follow-up testing.

(7) A person, including a health care facility or health care provider, shall disclose the identity of any person who has investigated, considered, or requested a test or treatment for a sexually transmitted disease and information and records related to sexually transmitted diseases to federal, state, or local public health authorities, to the extent the health care provider is required by law to report health care information; when needed to determine compliance with state or federal certification or registration rules or laws; or when needed to protect the public health. MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5203 with the following amendment(s): 5203-S.E AMH HCW H1376.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 70.14 RCW to read as follows:

(1)(a) The authority may enter into partnership agreements with another state, a group of states, a state agency, a nonprofit organization, or any other entity to produce, distribute, or purchase generic prescription drugs and distribute and purchase

insulin. Partnership agreements with governmental entities are exempt from competitive solicitation requirements in accordance with RCW 39.26.125(10). However, the authority must comply with state procurement laws related to competitive procurement when purchasing or entering into purchasing agreements with nongovernmental entities.

(b) The generic prescription drugs and insulin must be produced or distributed by a drug company or generic drug manufacturer that is registered with the United States food and drug administration.

(2) The authority shall only enter into partnerships, in consultation with other state agencies as necessary, to produce, distribute, or purchase a generic prescription drug or insulin at a price that results in savings to public and private purchasers and consumers.

(3) For generic prescription drugs and insulin that the authority has entered into a partnership under this section:

(a) State purchased health care programs must purchase the generic prescription drugs and insulin through the partnership, unless the state purchased health care program can obtain the generic prescription drug or insulin at a cost savings through another purchasing mechanism; and

(b) Local governments, private entities, health carriers, and others may choose to voluntarily purchase the generic prescription drugs and insulin from the authority as available quantities allow.

(4) All information and documents obtained or created under this section is exempt from disclosure under chapter 42.56 RCW.

(5) For purposes of this section, the following definitions apply:

(a) "Authority" means the health care authority.

(b) "Eligible prescription drug" means a prescription drug or biological product, as defined in 42 U.S.C. Sec. 262(i), that is not under patent.

(c) "Generic drug" means a drug that is approved pursuant to an application referencing an eligible prescription drug that is submitted under section 505(j) of the federal food, drug, and cosmetic act (21 U.S.C. Sec. 301 et seq.), or section 351(k) of the federal public health service act (42 U.S.C. Sec. 262).

(d) "Purchase" means the acquisition of generic drugs and insulin. "Purchase" includes, but is not limited to, entering into contracts with manufacturers on behalf of those dispensing drugs and other innovative purchasing strategies to help increase access for Washington citizens to the best price available for insulin and generic prescription drugs. This subsection should be interpreted broadly to provide the authority flexibility in how it procures generic drugs and insulin in order to obtain the best price.

(e) "State purchased health care" means medical and health care, pharmaceuticals, and medical equipment purchased with state and federal funds by the department of social and health services, department of health, state health care authority, department of labor and industries, department of corrections, and department of veterans affairs. State purchased health care does not include prescription drugs purchased for medical assistance program clients under chapter 74.09 RCW.

Sec. 2. RCW 70.14.060 and 2020 c 346 s 4 are each amended to read as follows:

(1)(a) The ((~~administrator~~ [director])) director of the state health care authority shall, directly or by contract, adopt policies necessary for establishment of a prescription drug purchasing consortium. The consortium's purchasing activities shall be based upon the evidence-based prescription drug program established under RCW 70.14.050. ((State)) Except as provided in section 1 of this act or exempted under (b) of this subsection, state purchased health care programs as defined in RCW 41.05.011 shall purchase prescription drugs through the consortium for

ONE HUNDRED FIRST DAY, APRIL 21, 2021

2021 REGULAR SESSION

those prescription drugs that are purchased directly by the state and those that are purchased through reimbursement of pharmacies (~~(, unless exempted under (b) of this subsection)~~). The ~~((administrator [director]))~~ director shall not require any supplemental rebate offered to the health care authority by a pharmaceutical manufacturer for prescription drugs purchased for medical assistance program clients under chapter 74.09 RCW be extended to any other state purchased health care program, or to any other individuals or entities participating in the consortium. The ~~((administrator [director]))~~ director shall explore joint purchasing opportunities with other states.

(b) State purchased health care programs are exempt from the requirements of this section if they can demonstrate to the ~~((administrator [director]))~~ director of the state health care authority that, as a result of the availability of federal programs or other purchasing arrangements, their other purchasing mechanisms will result in greater discounts and aggregate cost savings than would be realized through participation in the consortium.

(2) Participation in the purchasing consortium shall be offered as an option beginning January 1, 2006. Participation in the consortium is purely voluntary for units of local government, private entities, labor organizations, health carriers as provided in RCW 48.43.005, state purchased health care services from or through health carriers as provided in RCW 48.43.005, and for individuals who lack or are underinsured for prescription drug coverage. The ~~((administrator [director]))~~ director may set reasonable fees, including enrollment fees, to cover administrative costs attributable to participation in the prescription drug consortium.

(3) The state health care authority is authorized to adopt rules implementing chapter 129, Laws of 2005.

NEW SECTION. Sec. 3. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

MESSAGE FROM THE HOUSE

March 28, 2021

MR. PRESIDENT:

The House passed SUBSTITUTE SENATE BILL NO. 5273 with the following amendment(s): 5273-S AMH ENGR H1281.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the state of Washington will continue to be negatively impacted by the effects of climate change, including reduced winter snowpack, drought, increased frequencies of forest fires, and acidifying oceans that disrupt marine ecosystem viability. In the nearshore environment, climate change contributes to the rise in average sea-surface temperatures and rising sea levels. Hardened shoreline structures are not always well-suited for their intended purpose and may have unintended consequences in the nearshore environment. Soft shorelines or natural shorelines may protect and restore shoreline ecosystems through the use of natural plants and materials, and the legislature finds that landowners must consider alternatives to hardening shorelines to restore ecosystem function and recover threatened and endangered species to help address the impacts of climate change in the nearshore environment.

Sec. 2. RCW 77.55.231 and 2012 1st sp.s. c 1 s 106 are each amended to read as follows:

(1)(a) Conditions imposed upon a permit must be reasonably related to the project. The permit conditions must ensure that the project provides proper protection for fish life, but the department may not impose conditions that attempt to optimize conditions for fish life that are out of proportion to the impact of the proposed project.

(b) In the event that any person desires to replace residential marine shoreline stabilization or armoring, a person must use the least impacting technically feasible bank protection alternative for the protection of fish life. Unless the department provides an exemption depending on the scale and nature of the project, a person that desires to replace residential marine shoreline stabilization or armoring must conduct a site assessment to consider the least impactful alternatives. A person should propose a hard armor technique only after considering site characteristics such as the threat to major improvements, wave energy, and other factors in an analysis of alternatives. The common alternatives identified in (b)(i) through (vii) of this subsection are in order from most preferred to least preferred:

(i) Remove the structure and restore the beach;

(ii) Remove the structure and install native vegetation;

(iii) Remove the structure and control upland drainage;

April 9, 2021

(iv) Remove the structure and replace it with a soft structure constructed of natural materials, including bioengineering;

(v) Remove the hard structure and construct upland retaining walls;

(vi) Remove the hard structure and replace it with a hard structure located landward of the existing structure, preferably at or above the ordinary high water line; or

(vii) Remove the hard structure and replace it with hard shoreline structure in the same footprint as the existing structure.

(c) For the purposes of this subsection, "feasible" means available and capable of being done after taking into consideration cost, existing technology, and logistics in light of overall project purposes.

(2) The permit must contain provisions allowing for minor modifications to the plans and specifications without requiring reissuance of the permit.

(3) The permit must contain provisions that allow for minor modifications to the required work timing without requiring the reissuance of the permit. "Minor modifications to the required work timing" means a minor deviation from the timing window set forth in the permit when there are no spawning or incubating fish present within the vicinity of the project."

Correct the title.

and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5304 with the following amendment(s): 5304-S2.E AMH ENGR H1393.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that when considering releasing persons from state and local institutions, realizing the safety of the public is the primary concern. The legislature also finds that the success of persons with behavioral health needs being released from confinement in a prison, jail, juvenile rehabilitation facility, state hospital, and other state and local institutions can be increased with access to continuity of medical assistance, supportive services, and other targeted assistance. The legislature finds that this act provides strategies to prevent interruption of medical assistance benefits and to allow for a seamless transfer between systems of care. The legislature further finds that this act removes stigmatizing language from the program created under RCW 72.09.370 and 71.24.470 and creates a work group to study how to expand the cost-effective strategies of this program to other populations and settings to enhance recovery, reduce recidivism, and improve safety.

Sec. 2. RCW 74.09.670 and 2016 c 154 s 2 are each amended to read as follows:

~~((The))~~ When the authority receives information that a person enrolled in medical assistance is confined in a setting in which federal financial participation is disallowed by the state's agreements with the federal government, the authority ~~((is directed to))~~ shall suspend, rather than terminate, medical assistance benefits ~~((by July 1, 2017,))~~ for these persons, including those who are incarcerated in a correctional institution as defined in RCW 9.94.049, or committed to a state hospital or other treatment facility. ~~((This must include the ability for a))~~ A person who is not currently enrolled in medical assistance must be allowed to apply for medical assistance in suspense status during ~~((incarceration))~~ confinement, and the ability to apply may not depend upon knowledge of the release or discharge date of the person. ~~((The authority must provide a progress report describing program design and a detailed fiscal estimate to the governor and relevant committees of the legislature by December 1, 2016.))~~

Sec. 3. RCW 74.09.555 and 2019 c 325 s 4005 are each amended to read as follows:

(1) The authority shall adopt rules and policies providing that when persons ~~((with a mental disorder,))~~ who were enrolled in medical assistance immediately prior to confinement, or who become enrolled in medical assistance in suspense status during the period of confinement, are released from confinement, their medical assistance coverage ~~((will))~~ shall be fully reinstated ~~((on the day))~~ no later than at the moment of their release, subject to any expedited review of their continued eligibility for medical assistance coverage that is required under federal or state law. The authority may reinstate medical assistance prior to the day of release provided that no federal funds are expended for any purpose that is not authorized by the state's agreements with the federal government.

(2) The authority, in collaboration with the Washington association of sheriffs and police chiefs, the department of corrections, the department of children, youth, and families, managed care organizations, and behavioral health administrative services organizations, shall establish procedures for coordination between the authority and department field offices, institutions for mental disease, and correctional institutions, as defined in RCW 9.94.049, that result in prompt reinstatement of eligibility

ONE HUNDRED FIRST DAY, APRIL 21, 2021

2021 REGULAR SESSION

and speedy eligibility determinations for ~~((persons who are likely to be eligible for))~~ medical assistance services upon release from confinement. Procedures developed under this subsection must address:

(a) Mechanisms for receiving medical assistance services applications on behalf of confined persons in anticipation of their release from confinement;

(b) Expedient review of applications filed by or on behalf of confined persons and, to the extent practicable, completion of the review before the person is released;

(c) Mechanisms for providing medical assistance services identity cards to persons eligible for medical assistance services ~~((immediately upon))~~ before their release from confinement; ~~((and))~~

(d) Coordination with the federal social security administration, through interagency agreements or otherwise, to expedite processing of applications for federal supplemental security income or social security disability benefits, including federal acceptance of applications on behalf of confined persons; and

(e) Assuring that notification of the person's release date, current location, and other appropriate information is provided to the person's managed care organization before the person's scheduled release from confinement, or as soon as practicable thereafter.

(3) Where medical or psychiatric examinations during a person's confinement indicate that the person is disabled, the correctional institution or institution for mental diseases shall provide the authority with that information for purposes of making medical assistance eligibility and enrollment determinations prior to the person's release from confinement. The authority shall, to the maximum extent permitted by federal law, use the examination in making its determination whether the person is disabled and eligible for medical assistance.

(4) For purposes of this section, "confined" or "confinement" means incarcerated in a correctional institution, as defined in RCW 9.94.049, or admitted to an institute for mental disease, as defined in 42 C.F.R. part 435, Sec. 1009 on July 24, 2005.

NEW SECTION. Sec. 4. (1) The health care authority shall apply for a waiver allowing the state to provide medicaid services to persons who are confined in a correctional institution as defined in RCW 9.94.049 or confined in a state hospital or other treatment facility up to 30 days prior to the person's release or discharge to the community. The purpose is to create continuity of care and provide reentry services.

(2) The health care authority shall consult with the work group established under section 9 of this act about how to optimize the

waiver application and its chance of success, including by limiting its scope if deemed appropriate.

(3) The health care authority shall inform the governor and relevant committees of the legislature in writing when the waiver application is submitted and update them as to progress of the waiver at appropriate points.

(4) No provision of this section may be interpreted to require the health care authority to provide medicaid services to persons who are confined in a correctional institution, state hospital, or other treatment facility up to 30 days prior to the person's release or discharge unless the health care authority obtains final approval for its waiver application from the centers for medicaid and medicaid services.

Sec. 5. RCW 9.94.049 and 1995 c 314 s 6 are each amended to read as follows:

(1) For the purposes of this chapter, the term "correctional institution" means any place designated by law for the keeping of persons held in custody under process of law, or under lawful arrest, including state prisons, county and local jails, juvenile detention centers, and other facilities operated by the department of corrections, department of children, youth, and families, or local governmental units primarily for the purposes of punishment, correction, or rehabilitation following conviction or adjudication of a criminal offense.

(2) For the purposes of RCW 9.94.043 and 9.94.045, "state correctional institution" means all state correctional facilities under the supervision of the secretary of the department of corrections used solely for the purpose of confinement of convicted felons.

Sec. 6. RCW 72.09.370 and 2019 c 325 s 5025 are each amended to read as follows:

(1) The ~~((offender))~~ reentry community ~~((safety))~~ services program is established to provide intensive services to ~~((offenders))~~ persons identified under this subsection and to thereby promote successful reentry, public safety, and recovery. The secretary shall identify ~~((offenders))~~ persons in confinement or partial confinement who: (a) Are reasonably believed to ~~((be dangerous))~~ present a danger to themselves or others if released to the community without supportive services; and (b) have a mental disorder. In ~~((determining an offender's dangerousness))~~ evaluating these criteria, the secretary shall consider behavior known to the department and factors, based on research, that are linked to ~~((an increased))~~ risk ~~((for))~~ of dangerousness ~~((of offenders))~~ for persons with mental illnesses within the criminal justice system and shall include consideration of ~~((an offender's))~~ the person's history of substance use disorder or abuse.

(2) Prior to release of ~~((an offender))~~ a person identified under this section, a team consisting of representatives of the department of corrections, the health care authority, and, as necessary, the indeterminate sentence review board, divisions or administrations within the department of social and health services, specifically including the division of developmental disabilities, the appropriate managed care organization ~~((contracted with the health care authority, the appropriate))~~ or behavioral health administrative services organization, and ~~((the))~~ reentry community services providers, as appropriate, shall develop a plan, as determined necessary by the team, for delivery of treatment and support services to the ~~((offender))~~ person upon release. In developing the plan, the ~~((offender))~~ person shall be offered assistance in executing a mental health advance directive under chapter 71.32 RCW, after being fully informed of the benefits, scope, and purposes of such directive. The team may include a school district representative for ~~((offenders))~~ persons under the age of ~~((twenty one))~~ 21. The team shall consult with the ~~((offender's))~~ person's counsel, if any, and, as appropriate, the

~~((offender's))~~ person's family and community. The team shall notify the crime victim/witness program, which shall provide notice to all people registered to receive notice under RCW 72.09.712 of the proposed release plan developed by the team. Victims, witnesses, and other interested people notified by the department may provide information and comments to the department on potential safety risk to specific individuals or classes of individuals posed by the specific ~~((offender))~~ person. The team may recommend: (a) That the ~~((offender))~~ person be evaluated by ~~((the))~~ a designated crisis responder, as defined in chapter 71.05 RCW; (b) department-supervised community treatment; or (c) voluntary community mental health or substance use disorder or abuse treatment.

(3) Prior to release of ~~((an offender))~~ a person identified under this section, the team shall determine whether or not an evaluation by a designated crisis responder is needed. If an evaluation is recommended, the supporting documentation shall be immediately forwarded to the appropriate designated crisis responder. The supporting documentation shall include the ~~((offender's))~~ person's criminal history, history of judicially required or administratively ordered involuntary antipsychotic medication while in confinement, and any known history of involuntary civil commitment.

(4) If an evaluation by a designated crisis responder is recommended by the team, such evaluation shall occur not more than ten days, nor less than five days, prior to release.

(5) A second evaluation by a designated crisis responder shall occur on the day of release if requested by the team, based upon new information or a change in the ~~((offender's))~~ person's mental condition, and the initial evaluation did not result in an emergency detention or a summons under chapter 71.05 RCW.

(6) If the designated crisis responder determines an emergency detention under chapter 71.05 RCW is necessary, the department shall release the ~~((offender))~~ person only to a state hospital or to a consenting evaluation and treatment facility or secure withdrawal management and stabilization facility. The department shall arrange transportation of the ~~((offender))~~ person to the hospital or facility.

(7) If the designated crisis responder believes that a less restrictive alternative treatment is appropriate, he or she shall seek a summons, pursuant to the provisions of chapter 71.05 RCW, to require the ~~((offender))~~ person to appear at an evaluation and treatment facility or secure withdrawal management and stabilization facility. If a summons is issued, the ~~((offender))~~ person shall remain within the corrections facility until completion of his or her term of confinement and be transported, by corrections personnel on the day of completion, directly to the identified ~~((evaluation and treatment))~~ facility.

(8) The secretary shall adopt rules to implement this section.

Sec. 7. RCW 71.24.470 and 2019 c 325 s 1030 are each amended to read as follows:

(1) The director shall contract, to the extent that funds are appropriated for this purpose, for case management services and such other services as the director deems necessary to assist ~~((offenders))~~ persons identified under RCW 72.09.370 for participation in the ~~((offender))~~ reentry community ((safety)) services program. The contracts may be with any qualified and appropriate entities. The director shall ensure the authority has coverage in all counties of the state for the purposes of providing reentry community services program services.

(2) The case manager has the authority to assist these ~~((offenders))~~ persons in obtaining the services, as set forth in the plan created under RCW 72.09.370(2), for up to five years. The services may include coordination of mental health services, assistance with unfunded medical expenses, assistance obtaining substance use disorder treatment, housing, employment services,

educational or vocational training, independent living skills, parenting education, anger management services, peer services, and such other services as the case manager deems necessary.

(3) The legislature intends that funds appropriated for the purposes of RCW 72.09.370, 71.05.145, and 71.05.212, and this section are to supplement and not to supplant general funding. Funds appropriated to implement RCW 72.09.370, 71.05.145, and 71.05.212, and this section are not to be considered available resources as defined in RCW 71.24.025 and are not subject to the priorities, terms, or conditions in the appropriations act established pursuant to RCW 71.24.035.

(4) The ~~((offender))~~ reentry community ((safety)) services program was formerly known as the community integration assistance program.

Sec. 8. RCW 71.24.480 and 2019 c 325 s 1031 are each amended to read as follows:

(1) A licensed or certified behavioral health agency acting in the course of the ~~((provider's))~~ agency's duties under this chapter ~~((is))~~ and its individual employees are not liable for civil damages resulting from the injury or death of another caused by a participant in the ~~((offender))~~ reentry community ((safety)) services program who is a client of the ~~((provider or organization))~~ agency, unless the act or omission of the ~~((provider or organization))~~ agency or employee constitutes:

(a) Gross negligence;

(b) Willful or wanton misconduct; or

(c) A breach of the duty to warn of and protect from a client's threatened violent behavior if the client has communicated a serious threat of physical violence against a reasonably ascertainable victim or victims.

(2) In addition to any other requirements to report violations, the licensed or certified behavioral health agency shall report ~~((an offender's))~~ a reentry community services program participant's expressions of intent to harm or other predatory behavior, regardless of whether there is an ascertainable victim, in progress reports and other established processes that enable courts and supervising entities to assess and address the progress and appropriateness of treatment.

(3) A licensed or certified behavioral health agency's mere act of treating a participant in the ~~((offender))~~ reentry community ((safety)) services program is not negligence. Nothing in this subsection alters the licensed or certified behavioral health agency's normal duty of care with regard to the client.

(4) The limited liability provided by this section applies only to the conduct of licensed or certified behavioral health agencies and their employees and does not apply to conduct of the state.

(5) For purposes of this section, "participant in the ~~((offender))~~ reentry community ((safety)) services program" means a person who has been identified under RCW 72.09.370 as ~~((an offender))~~ a person who: (a) Is reasonably believed to ~~((be dangerous))~~ present a danger to himself or herself or others if released to the community without supportive services; and (b) has a mental disorder.

NEW SECTION. Sec. 9. A new section is added to chapter 71.24 RCW to read as follows:

(2) The individual reentry plan may be one document, or may be a series of individual plans that combine to meet the requirements of this section.

(3) In developing individual reentry plans, the department shall assess all ~~((offenders))~~ persons using standardized and comprehensive tools to identify the criminogenic risks, programmatic needs, and educational and vocational skill levels for each ~~((offender))~~ person. (b) The ~~((offender's))~~ person's individual reentry plan shall be developed as soon as possible after the initial assessment is conducted, but, whenever possible, no later than ~~((sixty))~~ 60 days

(5) The individual reentry plan shall, at a minimum, include:

ONE HUNDRED FIRST DAY, APRIL 21, 2021
MESSAGE FROM THE HOUSE

2021 REGULAR SESSION

April 11, 2021

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5362 with the following amendment(s): 5362-S2 AMH APP H1350.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature found in 1961 that it is in the public interest to hold agricultural fairs to train youth, to educate the public about the production of food and fiber, and to promote the welfare of farm people and rural living. The legislature finds that the fair fund was created for the purpose of encouraging agricultural fairs and training rural youth. The legislature finds that despite the original expectations, the fair fund has not increased, and this lack of increased support has made it difficult to maintain youth programs. Research has shown that youth who participate in fairs are more likely to get better grades, attend college, and positively contribute to their families and communities.

(2) The legislature finds that fairs also contribute to economic vitality and cultural heritage by: (a) Providing an opportunity for small businesses to reach a larger customer base; (b) providing agricultural suppliers a platform to showcase new technology; (c) creating numerous seasonal jobs; (d) playing a vital role in fund-raising for nonprofit organizations; and (e) providing a venue for community and cultural events.

(3) The legislature further finds that events held on fairgrounds support both the cultural and economic development of rural communities. The legislature finds that connecting the fair fund to revenue generated on fairgrounds encourages fairs to work with local businesses to increase economic opportunity. Thirty-seven counties have a fair. Benton and Franklin counties share a fair. Mason county currently does not have a fair.

Sec. 2. RCW 15.76.115 and 2018 c 280 s 3 are each amended to read as follows:

(1) The fair fund is created in the custody of the state treasury.

(2) All moneys received by the department of agriculture for the purposes of this fund and from RCW 67.16.105 shall be deposited into the fund. Each fiscal year, the state treasurer shall transfer into the fair fund from the general fund (~~the sum of two million dollars~~) an amount appropriated in the omnibus operating appropriations act equal to:

(a) \$2,000,000 for fiscal year 2021;

(b) \$2,750,000 in each fiscal year 2022 and 2023;

(c) \$3,500,000 in each fiscal year 2024 and 2025; and

(d) \$4,000,000 in fiscal year 2026 and each fiscal year thereafter.

(e) To support inclusiveness at fair events, a portion of the additional funds provided to fairs as a result of this act must be prioritized to be spent on educational programs and outreach that are reflective of the diversity within a fair's local population.

(3) Expenditures from the fund may be used only for assisting fairs in the manner provided in this chapter. Only the director of agriculture or the director's designee may authorize expenditures from the fund. The fund is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures."

and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

April 10, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5191 with the following amendment(s): 5191-S.E AMH CPB H1382.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes the need to protect Washingtonians from excessive and unjustified price increases implemented during or shortly after a declared state of emergency for essential goods and services that are vital and necessary for the health, safety, and welfare of consumers.

The legislature also recognizes the need to support businesses providing these goods in understanding their obligations to consumers during times of potential chaos and uncertainty in the marketplace.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Building materials" means lumber, construction tools, windows, and anything else used in the building or rebuilding of property.

(2) "Consumer food item" means any article used or intended for use for food, drink, confection, or condiment by a person or animal.

(3) "Emergency supplies" includes, but is not limited to, water, flashlights, radios, batteries, candles, heating and cooking fuel,

blankets, soap, diapers, temporary shelters, tape, toiletries, personal hygiene products, plywood, nails, and hammers.

(4) "Excessive price" means a price more than 15 percent greater than the price at which the person sold, rented, or offered for sale or rent the same product or service immediately prior to the state of emergency defined in subsection (13) of this section. If the seller did not sell, rent, or offer for sale or rent the product or service immediately prior to the onset of the state of emergency defined in subsection (13) of this section, or if the price charged by the person for the product or service prior to the onset of the state of emergency cannot be determined, an excessive price shall be presumed where the price is more than 15 percent greater than the price of the same product or service offered for sale or rent by other similarly situated sellers prior to the state of emergency defined in subsection (13) of this section. If a state of emergency as defined in subsection (13) of this section continues for more than one year, the price of the product or service on the anniversary of the state of emergency as defined in subsection (13) of this section must be the new baseline price for determining whether a price is excessive.

(5) "Gasoline" means any fuel used to power any motor vehicle or power tool.

(2) The attorney general may issue a cease and desist letter to any person to restrain and prevent violations of this chapter. If the recipient of a cease and desist letter does not comply within five calendar days of receipt of the letter, the attorney general may file an action in superior court at any time thereafter to enforce the cease and desist letter. April 21, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5096 with the following amendment(s): 5096-S.E AMH ENGR H1547.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. The legislature finds that it is the paramount duty of the state to amply provide every child in the state with an education, creating the opportunity for the child to succeed in school and thrive in life. The legislature further finds that high quality early learning and child care is critical to a child's success in school and life, as it supports the development of the child's social-emotional, physical, cognitive, and language skills. Therefore, the legislature will invest in the ongoing support of K-12 education and early learning and child care by dedicating revenues from this act to the education legacy trust account.

The legislature intends to levy a seven percent tax on the privilege of voluntarily selling or exchanging stocks, bonds, and other capital assets where the profit is in excess of \$250,000 annually to fund K-12 education, early learning, and child care, and advance our paramount duty to amply provide an education to every child in the state.

The legislature further intends to exempt certain assets from the tax including, but not limited to, qualified family-owned small businesses, all residential and other real property, and retirement accounts.

NEW SECTION. Sec. 2. REVENUES DEPOSITED INTO EDUCATION LEGACY TRUST ACCOUNT. All taxes, interest, and penalties collected under this chapter must be deposited into the education legacy trust account created in RCW 83.100.230.

Sec. 3. RCW 83.100.230 and 2019 c 415 s 990 are each amended to read as follows:

The education legacy trust account is created in the state treasury. Money in the account may be spent only after appropriation. Expenditures from the account may be used only for support of the common schools, and for expanding access to higher education through funding for new enrollments and financial aid, early learning and child care programs, and other educational improvement efforts. ~~((During the 2015-2017, 2017-2019, and 2019-2021 fiscal biennia appropriations from the account may be made for support of early learning programs. It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.))~~

NEW SECTION. Sec. 4. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adjusted capital gain" means federal net long-term capital gain:

(a) Plus any amount of long-term capital loss from a sale or exchange that is exempt from the tax imposed in this chapter, to the extent such loss was included in calculating federal net long-term capital gain;

(b) Plus any amount of long-term capital loss from a sale or exchange that is not allocated to Washington under section 10 of this act, to the extent such loss was included in calculating federal net long-term capital gain;

(c) Plus any amount of loss carryforward from a sale or exchange that is not allocated to Washington under section 10 of this act, to the extent such loss was included in calculating federal net long-term capital gain;

(d) Less any amount of long-term capital gain from a sale or exchange that is not allocated to Washington under section 10 of

ONE HUNDRED SECOND DAY, APRIL 22, 2021

2021 REGULAR SESSION

this act, to the extent such gain was included in calculating federal net long-term capital gain; and

(e) Less any amount of long-term capital gain from a sale or exchange that is exempt from the tax imposed in this chapter, to the extent such gain was included in calculating federal net long-term capital gain.

(2) "Capital asset" has the same meaning as provided by Title 26 U.S.C. Sec. 1221 of the internal revenue code and also includes any other property if the sale or exchange of the property results in a gain that is treated as a long-term capital gain under Title 26 U.S.C. Sec. 1231 or any other provision of the internal revenue code.

(3) "Federal net long-term capital gain" means the net long-term capital gain reportable for federal income tax purposes determined as if Title 26 U.S.C. Secs. 55 through 59, 1400Z-1, and 1400Z-2 of the internal revenue code did not exist.

(4) "Individual" means a natural person.

(5) "Internal revenue code" means the United States internal revenue code of 1986, as amended, as of the effective date of this section, or such subsequent date as the department may provide by rule consistent with the purpose of this chapter.

(6) "Long-term capital asset" means a capital asset that is held for more than one year.

(7) "Long-term capital gain" means gain from the sale or exchange of a long-term capital asset.

(8) "Long-term capital loss" means a loss from the sale or exchange of a long-term capital asset.

(9) "Real estate" means land and fixtures affixed to land. "Real estate" also includes used mobile homes, used park model trailers, used floating homes, and improvements constructed upon leased land.

(10)(a) "Resident" means an individual:

(i) Who is domiciled in this state during the taxable year, unless the individual (A) maintained no permanent place of abode in this state during the entire taxable year, (B) maintained a permanent place of abode outside of this state during the entire taxable year, and (C) spent in the aggregate not more than 30 days of the taxable year in this state; or

(ii) Who is not domiciled in this state during the taxable year, but maintained a place of abode and was physically present in this state for more than 183 days during the taxable year.

(b) For purposes of this subsection, "day" means a calendar day or any portion of a calendar day.

(c) An individual who is a resident under (a) of this subsection is a resident for that portion of a taxable year in which the individual was domiciled in this state or maintained a place of abode in this state.

(11) "Taxable year" means the taxpayer's taxable year as determined under the internal revenue code.

(12) "Taxpayer" means an individual subject to tax under this chapter.

(13) "Washington capital gains" means an individual's adjusted capital gain less \$250,000, as provided in section 7 of this act and adjusted annually under section 16 of this act, for each return filed under this chapter.

NEW SECTION. Sec. 5. TAX IMPOSED. (1) Beginning January 1, 2022, an excise tax is imposed on the sale or exchange of long-term capital assets. Only individuals are subject to payment of the tax, which equals seven percent multiplied by an individual's Washington capital gains.

(2) The tax levied in subsection (1) of this section is necessary for the support of the state government and its existing public institutions.

(3) If an individual's Washington capital gains are less than zero for a taxable year, no tax is due under this section and no

such amount is allowed as a carryover for use in the calculation of that individual's adjusted capital gain, as defined in section 4(1) of this act, for any taxable year. To the extent that a loss carryforward is included in the calculation of an individual's federal net long-term capital gain and that loss carryforward is directly attributable to losses from sales or exchanges allocated to this state under section 10 of this act, the loss carryforward is included in the calculation of that individual's adjusted capital gain for the purposes of this chapter. An individual may not include any losses carried back for federal income tax purposes in the calculation of that individual's adjusted capital gain for any taxable year.

(4)(a) The tax imposed in this section applies to the sale or exchange of long-term capital assets owned by the taxpayer, whether the taxpayer was the legal or beneficial owner of such assets at the time of the sale or exchange. The tax applies when the Washington capital gains are recognized by the taxpayer in accordance with this chapter.

(b) For purposes of this chapter:

(i) An individual is considered to be a beneficial owner of long-term capital assets held by an entity that is a pass-through or disregarded entity for federal tax purposes, such as a partnership, limited liability company, S corporation, or grantor trust, to the extent of the individual's ownership interest in the entity as reported for federal income tax purposes.

(ii) A nongrantor trust is deemed to be a grantor trust if the trust does not qualify as a grantor trust for federal tax purposes, and the grantor's transfer of assets to the trust is treated as an incomplete gift under Title 26 U.S.C. Sec. 2511 of the internal revenue code and its accompanying regulations. A grantor of such trust is considered the beneficial owner of the capital assets of the trust for purposes of the tax imposed in this section and must include any long-term capital gain or loss from the sale or exchange of a capital asset by the trust in the calculation of that individual's adjusted capital gain, if such gain or loss is allocated to this state under section 10 of this act.

NEW SECTION. Sec. 6. EXEMPTIONS. This chapter does not apply to the sale or exchange of:

(1) All real estate transferred by deed, real estate contract, judgment, or other lawful instruments that transfer title to real property and are filed as a public record with the counties where real property is located;

(2)(a) An interest in a privately held entity only to the extent that any long-term capital gain or loss from such sale or exchange is directly attributable to the real estate owned directly by such entity.

(b)(i) Except as provided in (b)(ii) and (iii) of this subsection, the value of the exemption under this subsection is equal to the fair market value of the real estate owned directly by the entity less its basis, at the time that the sale or exchange of the individual's interest occurs, multiplied by the percentage of the ownership interest in the entity which is sold or exchanged by the individual.

(ii) If a sale or exchange of an interest in an entity results in an amount directly attributable to real property and that is considered as an amount realized from the sale or exchange of property other than a capital asset under Title 26 U.S.C. Sec. 751 of the internal revenue code, such amount must not be considered in the calculation of an individual's exemption amount under (b)(i) of this subsection (2).

(iii) Real estate not owned directly by the entity in which an individual is selling or exchanging the individual's interest must not be considered in the calculation of an individual's exemption amount under (b)(i) of this subsection (2).

(c) Fair market value of real estate may be established by a fair market appraisal of the real estate or an allocation of assets by the seller and the buyer made under Title 26 U.S.C. Sec. 1060 of the internal revenue code, as amended. However, the department is not bound by the parties' agreement as to the allocation of assets, allocation of consideration, or fair market value, if such allocations or fair market value do not reflect the fair market value of the real estate. The assessed value of the real estate for property tax purposes may be used to determine the fair market value of the real estate, if the assessed value is current as of the date of the sale or exchange of the ownership interest in the entity owning the real estate and the department determines that this method is reasonable under the circumstances.

(d) The value of the exemption under this subsection (2) may not exceed the individual's long-term capital gain or loss from the sale or exchange of an interest in an entity for which the individual is claiming this exemption;

(3) Assets held under a retirement savings account under Title 26 U.S.C. Sec. 401(k) of the internal revenue code, a tax-sheltered annuity or custodial account described in Title 26 U.S.C. Sec. 403(b) of the internal revenue code, a deferred compensation plan under Title 26 U.S.C. Sec. 457(b) of the internal revenue code, an individual retirement account or individual retirement annuity described in Title 26 U.S.C. Sec. 408 of the internal revenue code, a Roth individual retirement account described in Title 26 U.S.C. Sec. 408A of the internal revenue code, an employee defined contribution program, an employee defined benefit plan, or a similar retirement savings vehicle;

(9) Goodwill received from the sale of an auto dealership licensed under chapter 46.70 RCW whose activities are subject to chapter 46.96 RCW.

NEW SECTION. Sec. 7. DEDUCTIONS. In computing tax, there may be deducted from the measure of tax:

(1) A standard deduction of \$250,000 per individual, or in the case of spouses or domestic partners, their combined standard

deduction is limited to \$250,000, regardless of whether they file joint or separate returns. The amount of the standard deduction shall be adjusted pursuant to section 16 of this act;

(2) Amounts that the state is prohibited from taxing under the Constitution of this state or the Constitution or laws of the United States; and

(3) The amount of adjusted capital gain derived from the sale or transfer of the taxpayer's interest in a qualified family-owned small business pursuant to section 8 of this act.

NEW SECTION. Sec. 8. QUALIFIED FAMILY-OWNED SMALL BUSINESS DEDUCTION. (1) In computing tax under this chapter for a taxable year, a taxpayer may deduct from the measure of tax the amount of adjusted capital gain derived in the taxable year from the sale of substantially all of the fair market value of the assets of, or the transfer of substantially all of the taxpayer's interest in, a qualified family-owned small business, to the extent that such adjusted capital gain would otherwise be included in the taxpayer's Washington capital gains.

(2) For purposes of this section, the following definitions apply:

(a) "Assets" means real property and personal property, including tangible personal property and intangible property.

(b) "Family" means the same as "member of the family" in RCW 83.100.046.

(c)(i) "Materially participated" means an individual was involved in the operation of a business on a basis that is regular, continuous, and substantial.

(ii) The term "materially participated" must be interpreted consistently with the applicable treasury regulations for Title 26 U.S.C. Sec. 469 of the internal revenue code, to the extent that such interpretation does not conflict with any provision of this section.

(d) "Qualified family-owned small business" means a business:

(i) In which the taxpayer held a qualifying interest for at least five years immediately preceding the sale or transfer described in subsection (1) of this section;

(ii) In which either the taxpayer or members of the taxpayer's family, or both, materially participated in operating the business for at least five of the 10 years immediately preceding the sale or transfer described in subsection (1) of this section, unless such sale or transfer was to a qualified heir; and

(iii) That had worldwide gross revenue of \$10,000,000 or less in the 12-month period immediately preceding the sale or transfer described in subsection (1) of this section. The worldwide gross revenue amount under this subsection (2)(d)(iii) shall be adjusted annually as provided in section 16 of this act.

(e) "Qualified heir" means a member of the taxpayer's family.

(f) "Qualifying interest" means:

(i) An interest as a proprietor in a business carried on as a sole proprietorship; or

(g) "Substantially all" means at least 90 percent.

NEW SECTION. Sec. 9. OTHER TAXES. The tax imposed under this chapter is in addition to any other taxes imposed by the state or any of its political subdivisions, or a municipal corporation, with respect to the same sale or exchange,

ONE HUNDRED SECOND DAY, APRIL 22, 2021

2021 REGULAR SESSION

including the taxes imposed in, or under the authority of, chapter 82.04, 82.08, 82.12, 82.14, 82.45, or 82.46 RCW.

NEW SECTION. Sec. 10. ALLOCATION OF GAINS AND LOSSES. (1) For purposes of the tax imposed under this chapter, long-term capital gains and losses are allocated to Washington as follows:

(a) Long-term capital gains or losses from the sale or exchange of tangible personal property are allocated to this state if the property was located in this state at the time of the sale or exchange. Long-term capital gains or losses from the sale or exchange of tangible personal property are also allocated to this state even though the property was not located in this state at the time of the sale or exchange if:

(i) The property was located in the state at any time during the taxable year in which the sale or exchange occurred or the immediately preceding taxable year;

(ii) The taxpayer was a resident at the time the sale or exchange occurred; and

(iii) The taxpayer is not subject to the payment of an income or excise tax legally imposed on the long-term capital gains or losses by another taxing jurisdiction.

(b) Long-term capital gains or losses derived from intangible personal property are allocated to this state if the taxpayer was domiciled in this state at the time the sale or exchange occurred.

(2)(a) A credit is allowed against the tax imposed in section 5 of this act equal to the amount of any legally imposed income or excise tax paid by the taxpayer to another taxing jurisdiction on capital gains derived from capital assets within the other taxing jurisdiction to the extent such capital gains are included in the taxpayer's Washington capital gains. The amount of credit under this subsection may not exceed the total amount of tax due under this chapter, and there is no carryback or carryforward of any unused credits.

(b) As used in this section, "taxing jurisdiction" means a state of the United States other than the state of Washington, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

NEW SECTION. Sec. 11. FILING OF RETURNS. (1)(a) Except as otherwise provided in this section or RCW 82.32.080, taxpayers owing tax under this chapter must file, on forms prescribed by the department, a return with the department on or before the date the taxpayer's federal income tax return for the taxable year is required to be filed.

(b)(i) Except as provided in (b)(ii) of this subsection (1), returns and all supporting documents must be filed electronically using the department's online tax filing service or other method of electronic reporting as the department may authorize.

(ii) The department may waive the electronic filing requirement in this subsection for good cause as provided in RCW 82.32.080.

(2) In addition to the Washington return required to be filed under subsection (1) of this section, taxpayers owing tax under this chapter must file with the department on or before the date the federal return is required to be filed a copy of the federal income tax return along with all schedules and supporting documentation.

(3) Each taxpayer required to file a return under this section must, without assessment, notice, or demand, pay any tax due thereon to the department on or before the date fixed for the filing of the return, regardless of any filing extension. The tax must be paid by electronic funds transfer as defined in RCW 82.32.085 or by other forms of electronic payment as may be authorized by the department. The department may waive the electronic payment requirement for good cause as provided in RCW 82.32.080. If any

tax due under this chapter is not paid by the due date, interest and penalties as provided in chapter 82.32 RCW apply to the deficiency.

(4)(a) In addition to the Washington return required to be filed under subsection (1) of this section, an individual claiming an exemption under section 6(2) of this act must file documentation substantiating the following:

(i) The fair market value and basis of the real estate held directly by the entity in which the interest was sold or exchanged;

(ii) The percentage of the ownership interest sold or exchanged in the entity owning real estate; and

(iii) The methodology, if any, established by the entity in which the interest was sold or exchanged, for allocating gains or losses to the owners, partners, or shareholders of the entity from the sale of real estate.

(b) The department may by rule prescribe additional filing requirements to substantiate an individual's claim for an exemption under section 6(2) of this act. Prior to adopting any rule under this subsection (4)(b), the department must allow for an opportunity for participation by interested parties in the rule-making process in accordance with the administrative procedure act, chapter 34.05 RCW.

(5) If a taxpayer has obtained an extension of time for filing the federal income tax return for the taxable year, the taxpayer is entitled to the same extension of time for filing the return required under this section if the taxpayer provides the department, before the due date provided in subsection (1) of this section, the extension confirmation number or other evidence satisfactory to the department confirming the federal extension. An extension under this subsection for the filing of a return under this chapter is not an extension of time to pay the tax due under this chapter.

(6)(a) If any return due under subsection (1) of this section, along with a copy of the federal income tax return, is not filed with the department by the due date or any extension granted by the department, the department must assess a penalty in the amount of five percent of the tax due for the taxable year covered by the return for each month or portion of a month that the return remains unfiled. The total penalty assessed under this subsection may not exceed 25 percent of the tax due for the taxable year covered by the delinquent return. The penalty under this subsection is in addition to any penalties assessed for the late payment of any tax due on the return.

(b) The department must waive or cancel the penalty imposed under this subsection if:

(i) The department is persuaded that the taxpayer's failure to file the return by the due date was due to circumstances beyond the taxpayer's control; or

(ii) The taxpayer has not been delinquent in filing any return due under this section during the preceding five calendar years.

NEW SECTION. Sec. 12. JOINT FILERS. (1) If the federal income tax liabilities of both spouses are determined on a joint federal return for the taxable year, they must file a joint return under this chapter.

(2) Except as otherwise provided in this subsection, if the federal income tax liability of either spouse is determined on a separate federal return for the taxable year, they must file separate returns under this chapter. State registered domestic partners may file a joint return under this chapter even if they filed separate federal returns for the taxable year.

(3) The liability for tax due under this chapter of each spouse or state registered domestic partner is joint and several, unless:

(a) The spouse is relieved of liability for federal tax purposes as provided under Title 26 U.S.C. Sec. 6015 of the internal revenue code; or

(b) The department determines that the domestic partner qualifies for relief as provided by rule of the department. Such rule, to the extent possible without being inconsistent with this chapter, must follow Title 26 U.S.C. Sec. 6015.

NEW SECTION. Sec. 13. ADMINISTRATION OF TAXES. Except as otherwise provided by law and to the extent not inconsistent with the provisions of this chapter, chapter 82.32 RCW applies to the administration of taxes imposed under this chapter.

NEW SECTION. Sec. 14. CRIMINAL ACTIONS. (1) Any taxpayer who knowingly attempts to evade payment of the tax imposed under this chapter is guilty of a class C felony as provided in chapter 9A.20 RCW.

(2) Any taxpayer who knowingly fails to pay tax, make returns, keep records, or supply information, as required under this title, is guilty of a gross misdemeanor as provided in chapter 9A.20 RCW.

NEW SECTION. Sec. 15. A new section is added to chapter 82.04 RCW to read as follows:

BUSINESS AND OCCUPATION TAX CREDIT.

(1) To avoid taxing the same sale or exchange under both the business and occupation tax and capital gains tax, a credit is allowed against taxes due under this chapter on a sale or exchange that is also subject to the tax imposed under section 5 of this act. The credit is equal to the amount of tax imposed under this chapter on such sale or exchange.

(2) The credit may be used against any tax due under this chapter.

(3) The credit under this section is earned in regards to a sale or exchange, and may be claimed against taxes due under this chapter, for the tax reporting period in which the sale or exchange occurred. The credit claimed for a tax reporting period may not exceed the tax otherwise due under this chapter for that tax reporting period. Unused credit may not be carried forward or backward to another tax reporting period. No refunds may be granted for unused credit under this section.

(4) The department must apply the credit first to taxes deposited into the general fund. If any remaining credit reduces the amount of taxes deposited into the workforce education investment account established in RCW 43.79.195, the department must notify the state treasurer of such amounts monthly, and the state treasurer must transfer those amounts from the general fund to the workforce education investment account.

NEW SECTION. Sec. 16. ANNUAL ADJUSTMENTS. (1) Beginning December 2023 and each December thereafter, the department must adjust the applicable amounts by multiplying the current applicable amounts by one plus the percentage by which the most current consumer price index available on December 1st of the current year exceeds the consumer price index for the prior 12-month period, and rounding the result to the nearest \$1,000. If an adjustment under this subsection (1) would reduce the applicable amounts, the department must not adjust the applicable amounts for use in the following year. The department must publish the adjusted applicable amounts on its public website by December 31st. The adjusted applicable amounts calculated under this subsection (1) take effect for taxes due and distributions made, as the case may be, in the following calendar year.

(2) For purposes of this section, the following definitions apply:

(a) "Applicable amounts" means:

(i) The standard deduction amount in sections 4(13) and 7(1) of this act; and

(ii) The worldwide gross revenue amount under section 8 of this act.

(b) "Consumer price index" means the consumer price index for all urban consumers, all items, for the Seattle area as calculated by the United States bureau of labor statistics or its successor agency.

(c) "Seattle area" means the geographic area sample that includes Seattle and surrounding areas.

NEW SECTION. Sec. 17. The provisions of RCW 82.32.805 and 82.32.808 do not apply to this act.

NEW SECTION. Sec. 18. Sections 1, 2, 4 through 14, and 16 of this act constitute a new chapter in Title 82 RCW.

NEW SECTION. Sec. 19. (1) If a court of competent jurisdiction, in a final judgment not subject to appeal, adjudges section 5 of this act unconstitutional, or otherwise invalid, in its entirety, section 15 of this act is null and void in its entirety. Any credits previously claimed under section 15 of this act must be repaid within 30 days of the department of revenue's notice to the taxpayer of the amount due.

(2) If the taxpayer fails to repay the credit by the due date, interest and penalties as provided in chapter 82.32 RCW apply to the deficiency.

NEW SECTION. Sec. 20. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Correct the title.

(4) For the purpose of this section, "mobile payment" means an electronic fund transfer initiated through a mobile phone or device.

NEW SECTION. Sec. 6. A new section is added to chapter 19.94 RCW to read as follows:

(1) Interoperability standards provide safeguards to consumers and support access to electric vehicle supply equipment. In order for Washington to have reliable, accessible, and competitive markets for electric vehicle supply equipment that are necessary for the movement of goods and people by electric vehicles, interoperability standards that align with national and international best practices or standards are necessary.

(2) By January 1, 2023, the department, in consultation with the department of commerce and the Washington utilities and transportation commission, must adopt rules establishing requirements for all electric vehicle service providers to, at a minimum, meet and maintain nonproprietary interoperability standards for publicly available level 2 electric vehicle supply equipment and direct current fast charger electric vehicle supply equipment and may review and, if necessary, amend the rules every two years, to maintain consistency with evolving technology. The requirements shall not provide that any charging provider must purchase or license proprietary technology or

software from any other company, and shall not require that companies maintain interoperability agreements with other companies.

(3) For the purpose of this section, "interoperability" means the ability of hardware, software, or a communications network provided by one party, vendor, or service provider to interact with or exchange and make use of information, including payment information, between hardware, software, or a communications network provided by a different party, vendor, or service provider.

(4) The requirements of this section shall not apply to publicly available electric vehicle supply equipment provided by a manufacturer of electric vehicles for the exclusive use by vehicles it manufactures.

NEW SECTION. Sec. 7. A new section is added to chapter 19.94 RCW to read as follows:

(1) This section applies to all electric vehicle service providers operating one or more publicly available level 2 electric vehicle supply equipment or direct current fast charger electric vehicle supply equipment installed in Washington. If an electric vehicle service provider also operates electric vehicle supply equipment that is not available to the public, the requirements of this section apply only to that electric vehicle service provider's publicly available level 2 electric vehicle supply equipment or direct current fast charger electric vehicle supply equipment installed in Washington.

(2) By January 1, 2023, electric vehicle service providers must report inventory and payment method information to the national renewable energy laboratory, alternative fuels data center. The information must be reported, at a minimum, annually and must include, but is not limited to:

(a) Electric vehicle service provider information;

(b) Electric vehicle supply equipment inventory for both active and retired, decommissioned, or removed electric vehicle supply equipment in Washington;

(c) Electric vehicle supply equipment payment method information.

(3) The department may adopt additional reporting requirements to support compliance with this act.

Sec. 8. RCW 19.94.175 and 2019 c 96 s 3 are each amended to read as follows:

(1) Pursuant to RCW 19.94.015, the following annual registration fees shall be charged for each weighing or measuring instrument or device used for commercial purposes in this state:

(a)	Weighing devices:		
(i)	Small scales "zero to four hundred pounds capacity"	\$	16.00
(ii)	Intermediate scales "four hundred one pounds to five thousand pounds capacity" ...	\$	60.00
(iii)	Large scales "over five thousand pounds capacity" ...	\$	120.00
(iv)	Railroad track scales	\$	1,200.00
(b)	Liquid fuel metering devices:		
(i)	Motor fuel meters with flows of twenty gallons or less per minute	\$	16.00
(ii)	Motor fuel meters with flows of more than twenty but not more than one hundred fifty gallons per minute	\$	50.00
(iii)	Motor fuel meters with flows over one hundred fifty gallons per minute	\$	75.00
(c)	Liquid petroleum gas meters:		

(i)	With one inch diameter or smaller dispensers	\$	40.00
(ii)	With greater than one inch diameter dispensers	\$	80.00
(d)	Fabric meters	\$	15.00
(e)	Cordage meters	\$	15.00
(f)	Mass flow meters	\$	300.00
(g)	Taxi meters	\$	40.00
(h)	<u>Level 2 electric vehicle supply equipment port</u>	\$	<u>20.00</u>
(i)	<u>Direct current fast charger electric vehicle supply equipment port</u>	\$	<u>40.00</u>

(2) Pursuant to RCW 19.94.015, a reasonable registration fee for electric vehicle supply equipment, in addition to the fees established in subsection (1) of this section, may be established through rule making to cover the remaining costs associated with enforcing this chapter on electric vehicle supply equipment. The department may consider differential fees to reduce the potential burden of the registration fee for electric vehicle service providers operating less than 25 publicly available electric vehicle supply equipment in Washington.

(3) With the exception of subsection ((3)) (4) of this section, no person shall be required to pay more than the annual registration fee for any weighing or measuring instrument or device in any one year.

((3)) (4) The department or a city sealer may establish reasonable inspection and testing fees for each type or class of weighing or measuring instrument or device specially requested to be inspected or tested by the device owner. These inspection and testing fees shall be limited to those amounts necessary for the department or city sealer to cover the direct costs associated with such inspection and testing. The fees shall not be set so as to compete with service agents normally engaged in such services.

((4)) (5) The weights and measures advisory group within the department must review the fees in subsection (1) of this section and report to stakeholders on the financial status of the program supported by the fees by September 1, 2024, and September 1st every five years thereafter.

Sec. 9. RCW 19.94.190 and 2019 c 96 s 4 are each amended to read as follows:

(1) The director and duly appointed city sealers must enforce the provisions of this chapter.

(2) The department's enforcement proceedings under this chapter are subject to the requirement to provide technical assistance in chapter 43.05 RCW and the administrative procedure act, chapter 34.05 RCW. City sealers undertaking enforcement actions must provide equivalent procedures.

(3) In assessing the amount of a civil penalty, the department or city must give due consideration to the gravity of the violation and history of previous violations.

(4) The director must adopt rules for enforcing and carrying out the purposes of this chapter including but not limited to the following:

(a) Establishing state standards of weight, measure, or count, and reasonable standards of fill for any commodity in package form;

(b) The establishment of technical test procedures to be followed, any necessary report and record forms, and marks of rejection to be used by the director and city sealers in the discharge of their official duties as required by this chapter;

(c) The establishment of technical test procedures, reporting procedures, and any necessary record and reporting forms to be used by service agents when testing and inspecting instruments or devices under RCW 19.94.255(3) or when otherwise installing,

repairing, inspecting, or standardizing the graduations of any weighing or measuring instruments or devices;

(d) The establishment of exemptions from the marking or tagging requirements of RCW 19.94.250 with respect to weighing or measuring instruments or devices of such a character or size that the marking or tagging would be inappropriate, impracticable, or damaging to the apparatus in question;

(e) The establishment of exemptions from the inspection and testing requirements of RCW 19.94.163 with respect to classes of weighing or measuring instruments or devices found to be of such a character that periodic inspection and testing is unnecessary to ensure continued accuracy;

(f) The establishment of inspection and approval techniques, if any, to be used with respect to classes of weighing or measuring instruments or devices that are designed specifically to be used commercially only once and then discarded, or are uniformly mass-produced by means of a mold or die and are not individually adjustable;

(g) The establishment of inspection and testing procedures to be used for classes of weighing or measuring instruments or devices found to be few in number, highly complex, and of such character that differential or special inspection and testing is necessary, including railroad track scales. The department's procedures shall include requirements for the provision, maintenance, and transport of any weight or measure necessary for the inspection and testing at no expense to the state;

(h) Specifications, tolerances, and other technical requirements for commercial weighing and measuring instruments or devices that must be consistent with the most recent edition of the national institute of standards and technology handbook 44 except where modified to achieve state objectives; and

(i) Packaging, labeling, and method of sale of commodities that must be consistent with the most recent edition of the national institute of standards and technology handbook 44 and 130 (for legal metrology and engine fuel quality) except where modified to achieve state objectives.

(5) Rules adopted under this section must also include specifications and tolerances for the acceptable range of accuracy required of weighing or measuring instruments or devices and must be designed to eliminate from use, without prejudice to weighing or measuring instruments or devices that conform as closely as practicable to official specifications and tolerances, those that: (a) Are of such construction that they are faulty, that is, that are not reasonably permanent in their adjustment or will not repeat their indications correctly; or (b) facilitate the perpetration of fraud.

(6) Rules adopted by the director related to the sale of electricity sold as a vehicle fuel and electric vehicle fueling systems may take effect no earlier than January 1, 2024, and may be modified to achieve state objectives, reviewed, and, if necessary, amended, to maintain consistency with evolving technology. To ensure existing infrastructure may continue operating without substantial equipment replacement or alteration, electric vehicle supply equipment installed and placed into service before January 1, 2024, is exempt from the rules of this section until January 1, 2034. Electric vehicle supply equipment that is replaced or retrofitted with new hardware after January 1, 2024, must be considered as having been installed and placed into service after January 1, 2024.

(a) Exempt electric vehicle supply equipment installed and placed into service before January 1, 2024, must:

(i) Comply with RCW 19.94.175; and

(ii) Be clearly marked, identifying the date of installation.

(b) For the purpose of this subsection (6), "retrofitted" means a substantial modification outside of normal wear and tear maintenance.

Individuals performing wood destroying organism inspections that incorporate but are not limited to the activities described in (a) or (b) of this subsection are not exempt from the structural pest inspector licensing requirement.

(4) A structural pest inspector license is not valid for conducting a complete wood destroying organism inspection unless the inspector owns or is employed by a business with a structural pest inspection company license.

Sec. 5. RCW 15.58.210 and 2008 c 285 s 19 are each amended to read as follows:

(4) If an application for license renewal provided for in this section is not filed prior to the business license expiration date, a delinquency fee of ~~((twenty-five))~~ fifty dollars must be assessed and added to the original fee and must be paid by the applicant before the renewal license is issued. The assessment of this delinquency fee does not prevent the department from taking any other action as provided for in this chapter. ~~The penalty does not apply if the applicant furnishes an affidavit that he or she has not distributed this commercial fertilizer subsequent to the expiration of his or her prior license.~~

Sec. 2. RCW 15.54.325 and 2020 c 20 s 1002 are each amended to read as follows:

The provisions of (g)(i) of this subsection do not apply if the anhydrous ammonia is derived in whole or in part from waste such that the fertilizer is a "waste-derived fertilizer" as defined in RCW 15.54.270. Verification of a registration relied on by an applicant under (g)(iii) of this subsection must be submitted with the application;

(4) Registrations are issued by the department for a two-year period beginning on July 1st of a given year and ending twenty-four months later on July 1st, except that registrations issued to a registrant who applies to register an additional product during the last twelve months of the registrant's period expire on the next July 1st.

(5) An application for a new registration must be accompanied by a fee of one hundred fifty dollars for each product.

Sec. 3. RCW 15.54.350 and 1993 c 183 s 6 are each amended to read as follows:

(1) There shall be paid to the department for all commercial fertilizers distributed in this state to nonregistrants or nonlicensees an inspection fee of ~~((fifteen))~~ twenty cents per ton of lime and ~~((thirty))~~ thirty-five cents per ton of all other commercial fertilizer distributed during the year beginning July 1st and ending June 30th.

(2) Distribution of commercial fertilizers for shipment to points outside this state may be excluded.

The department may accept sales records or other records accurately reflecting the tonnage sold and verifying such reports.

~~((2))~~ (3) Each person responsible for the payment of inspection fees for commercial fertilizer distributed in this state must include the inspection fees with each semiannual or annual report. If in an annual reporting period a registrant or licensee distributes less than ~~((eighty-three))~~ one hundred forty-three tons of commercial fertilizer or less than ~~((one hundred sixty-seven))~~ two hundred fifty tons of commercial lime or equivalent combination of the two, the registrant or licensee must pay the minimum inspection fee of ~~((twenty-five))~~ fifty dollars.

~~((3))~~ (4) The department may, upon request, require registrants or licensees to furnish information setting forth the net tons of commercial fertilizer distributed to each location in this state.

~~((4))~~ (5) If the semiannual or annual report indicates that zero tons of commercial fertilizer were distributed during the reporting period, the person responsible for completing the report must pay a filing fee of twelve dollars and fifty cents for a semiannual report or twenty-five dollars for an annual report.

(6)(a) If a complete report is not received by the due date, the person responsible for filing the report must pay a late fee of ~~((twenty-five))~~ fifty dollars.

~~((c) Payment of a late fee does not prevent the department from taking any other action authorized by this chapter for the violation.~~

~~(5)) (7) It is a misdemeanor for any person to divulge any information provided under this section that would reveal the business operation of the person making the report. However, nothing contained in this subsection may be construed to prevent or make unlawful the use of information concerning the business operations of a person in any action, suit, or proceeding instituted under the authority of this chapter, including any civil action for the collection of unpaid inspection fees, which action is authorized and which shall be as an action at law in the name of the director of the department.~~

~~(8) Payment of late fees or filing fees provided for under this section does not prevent the department from taking any other action authorized by this chapter for the violation.~~

NEW SECTION. Sec. 5. All new or renewal applications for registration under this act received on or after the effective date of this section are subject to the provisions of this act, including all fees required by this act.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature recognizes that the COVID-19 pandemic exposed the importance of internet-accessible learning devices for the ability of students to receive a modern education. When Washington schools closed in March 2020, schools and school districts shifted quickly to offering education in an online environment. Teachers adapted their

lessons for videoconferencing platforms and arranged for students to submit homework via email. However, limited opportunities for in-person instruction amplified digital deserts and disparities among students that are likely to continue to grow for the foreseeable future.

(2) The legislature finds that students from low-income families face disproportionate barriers to accessing learning over the internet in their homes, partly because they do not have internet-accessible devices appropriate for learning. The legislature also recognizes that accessing learning over the internet requires more than just an internet-accessible device appropriate for learning. For students and their families to be truly connected, they need the digital literacy, digital skills, and digital support to use internet-accessible devices and to navigate the web in support of student learning.

(3) Therefore, the purposes of this act are to: (a) Accelerate student access to learning devices and related goods and services; (b) expand training programs and technical assistance on using technology to support student learning; and (c) build the capacity of schools and districts to support digital navigation services for students and their families.

Sec. 2. RCW 28A.650.010 and 2017 c 90 s 1 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Digital citizenship" includes the norms of appropriate, responsible, and healthy behavior related to current technology use, including digital and media literacy, ethics, etiquette, and security. The term also includes the ability to access, analyze, evaluate, develop, produce, and interpret media, as well as internet safety and cyberbullying prevention and response.

~~(2) ("Education technology" or "technology" means the effective use of electronic and optical tools, including telephones, and electronic and optical pathways in helping students learn.~~

~~(3) "Network" means integrated linking of education technology systems in schools for transmission of voice, data, video, or imaging, or a combination of these;)) "Learning device" means an internet-accessible computer, tablet, or other device, with an appropriate operating system, software applications, and data security, that can be used to access curricula, educational web applications and websites, and learning management systems, and with telecommunications capabilities sufficient for videoconferencing.~~

NEW SECTION. Sec. 3. A new section is added to chapter 28A.650 RCW to read as follows:

(1) Each educational service district shall provide technology consultation, procurement, and training, in consultation with teacher-librarians through school library information and technology programs as defined in RCW 28A.320.240, and as described in this section. An educational service district may meet the requirements of this section in cooperation with one or more other educational service districts.

(2) Technology consultation involves providing technical assistance and guidance to local school districts related to technology needs and financing, and may include consultation with other entities.

(3)(a) Technology procurement involves negotiating for local school district purchasing and leasing of learning devices and peripheral devices, learning management systems, cybersecurity protection, device insurance, and other technology-related goods and services.

(b) When selecting goods and services for procurement, the educational service district must consider a variety of student needs, as well as accessibility, age appropriateness, privacy and

security, data storage and transfer capacity, and telecommunications capability.

(c) Technology procurement may be performed in consultation and contract with the department of enterprise services under chapter 39.26 RCW.

(4) Technology training involves developing and offering direct services to local school districts related to staff development and capacity building to provide digital navigation services to students and their families. The educational service districts must seek to consult teacher-librarians and other relevant information technology programs to determine where there is a need and focus for this training. These services may be provided on a fee-for-service basis.

(5) Technology consultation, procurement, and training under this section must be provided to local public schools, as defined in RCW 28A.150.010, the Washington center for deaf and hard of hearing youth, and the school for the blind, in addition to local school districts. MR. PRESIDENT:

MR. SPEAKER:

We of your conference committee, to whom was referred Engrossed Second Substitute Senate Bill No. 5237, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. SHORT TITLE. This act may be known and cited as the fair start for kids act.

NEW SECTION. Sec. 2. INTENT. (1) The legislature finds that high quality child care and early learning is critical to a child's success in school and life. The legislature recognizes that COVID-19 has devastated the existing child care industry, making it unduly burdensome for families to find care. The legislature recognizes that without immediate action to support child care providers, and without expanded access to affordable child care, especially infant and school-age care, parents will not be able to return to work while children lose valuable learning

opportunities. In order to bolster a full economic recovery, the legislature finds that every child deserves a fair start.

(2) The legislature finds that access to affordable child care increases economic growth and labor force participation. The legislature further finds that an affordable, accessible system of high quality child care is necessary to the health of Washington's economy because employers benefit when parents have safe, stable, and appropriate care for their children. The legislature recognizes that too many working parents are forced to reduce their hours, decline promotional opportunities, or leave the workforce completely due to a lack of affordable and appropriate child care. The legislature finds that a report commissioned by the department of commerce in 2019 found that working parents in Washington forego \$14,000,000,000 each year directly due to child care scarcity. The legislature recognizes that this disproportionately impacts women in the workforce and that in September 2020 alone, 78,000 men left the workforce, compared to 600,000 women.

(3) The legislature recognizes that quality child care can be a stabilizing factor for children experiencing homelessness, and is a proven protective factor against the impacts of trauma they may experience. Access to child care is also a necessary support for families with young children in resolving homelessness and securing employment.

(4) The legislature finds that the scarcity of child care, exacerbated by COVID-19, most significantly impacts families furthest from opportunity. The legislature recognizes that there are additional barriers to accessing this foundational support for immigrant communities and families whose first language is not English, families who have children with disabilities, rural communities, or other child care deserts. The legislature recognizes that high quality, inclusive child care and early learning programs have been shown to reduce the opportunity gap for low-income children and black, indigenous, and children of color while consistently improving outcomes for all children both inside and outside of the classroom.

(5) The legislature finds that without access to comprehensive, high quality prenatal to five services, children often enter kindergarten without the social-emotional, physical, cognitive, and language skills they need to be successful and fall behind their peers, facing compounding developmental challenges throughout their K-12 education. The legislature finds that cascading impacts of inaccessible child care and early learning programs create systemic barriers for children and their families that result in higher special education needs, greater likelihood of needing to repeat grades, increased child welfare and juvenile justice involvement, reduced high school graduation rates, limited postsecondary education attainment, and greater barriers to employment in adulthood.

(6) The legislature finds the vast majority of child care providers are small businesses and nonprofit organizations. In addition to adhering to federal, state, and local regulations to ensure healthy and safe environments for children, the legislature recognizes that child care providers must ensure their employees are adequately compensated and supported. However, the legislature acknowledges that the reduced staffing ratios for health and safety, additional cost of personal protective equipment and extra cleaning supplies, increased use of substitutes needed during COVID-19-related absences, and increased technology demands during school closures from the pandemic are further straining the viability of the child care business model in Washington state.

(7) The legislature finds that the health and stability of the early learning workforce is pivotal to any expansion of child care in Washington state. The legislature recognizes that the child care workforce, predominantly comprised of women of color, is

structurally afflicted by low wages, limited or no health care, and a severe lack of retirement benefits. The legislature further recognizes that the threat of COVID-19 compounds these underlying issues, forcing providers to navigate increased stress, anxiety, and behavioral issues all while risking their lives to care for children. The legislature recognizes that families, friends, and neighbors who provide care are a critical component of the child care system. The legislature finds that child care workers are essential and deserve to be compensated and benefited accordingly.

(8) Therefore, the legislature resolves to respond to the COVID-19 crisis by first stabilizing the child care industry and then expanding access to a comprehensive continuum of high quality early childhood development programs, including infant and school-age child care, preschool, parent and family supports, and prenatal to three services. The legislature recognizes this continuum as critical to meeting different families' needs and offering every child in Washington access to a fair start.

(9) The legislature recognizes that the federal government has provided substantial additional funding through the coronavirus response and relief supplemental appropriations act, P.L. 116-260, division M., and the American rescue plan act of 2021. The purpose of the additional federal funding is to ensure access to affordable child care and stabilize and support child care providers affected by COVID-19. Therefore, it is the intent of the legislature to use the additional federal funding to supplement state funding in order to accelerate these investments.

(10) The legislature recognizes the strengths that multilingual, diverse early learning providers and caregivers contribute to early learning across the state. Therefore, the legislature intends to expand language access services to create an inclusive early learning system that specifically supports underserved providers.

(11) The legislature intends to expand eligibility for existing child care and preschool programs to increase access. The legislature recognizes that expansion must be accompanied by an investment to make child care more affordable. Therefore, the legislature intends to eliminate copayments for low-income families and limit copayments for any family on subsidy to no more than seven percent of their income.

(12) The legislature further intends to stabilize, support, and grow the diverse early learning workforce by funding living wages and affordable health benefits while providing training, infant and early childhood mental health consultation, shared business services, and a variety of other supports that recognize the critical role that early learning providers serve for all Washington children.

(13) The legislature intends to accelerate Washington's economic recovery from the devastating impacts of COVID-19 by dramatically expanding access to affordable, high quality child care and preschool, in order to get parents back to work and provide every child with a fair start.

(b) An applicant or consumer is a full-time student for the purposes of this subsection if he or she meets the college's definition of a full-time student. ~~((The student must maintain passing grades and be in good standing pursuant to college attendance requirements.))~~

(c) Nothing in this subsection is intended to change how applicants or consumers are prioritized when applicants or consumers are placed on a waitlist for working connections child care benefits.

(d) Subject to the availability of amounts appropriated for this specific purpose, the department may extend the provisions of this subsection (4) to full-time students who are enrolled in a bachelor's degree program or applied baccalaureate degree program.

The legislature further finds that eligibility guidelines require reduced-price meals for children with household incomes at or below 185 percent of the federal poverty level and that this income level is approximately equivalent to 50 percent of the state median income for a household of three.

(2) Therefore, the legislature intends to raise the maximum family income for children entitled to enroll in the early childhood education and assistance program to 36 percent of the state median income beginning July 1, 2026. Beginning in the 2030-31 school year, the legislature intends to raise the maximum family income for children entitled to enroll in this program to 50 percent of the state median income. It is the intent of the legislature to standardize income eligibility levels for assistance programs in order to help families and social workers better understand the benefits for which families qualify and to simplify and align state systems wherever feasible.

(3) The legislature further intends to support educational service districts to help school districts partner with early childhood education and assistance program contractors and providers to expand access.

(2) Beginning July 1, 2021, child care subsidy base rates must achieve the 85th percentile of market for licensed or certified child care providers. The state and the exclusive representative for family child care providers must enter into bargaining over the implementation of the subsidy rate increase under this subsection.

(3)(a) The department shall build upon the work of the child care collaborative task force to develop and implement a child care cost estimate model and use the completed child care cost model ~~((developed under RCW 43.330.527 to determine child care subsidy rates.~~

(2) This section expires January 30, 2025)) to recommend subsidy rates at levels that are sufficient to compensate licensed or certified child care providers for the full costs of providing high quality child care. The department shall consider:

(i) Adjusting rates to reflect cost of living such as area median income, cost of living by zip code, and grouping by categories such as rural, suburban, or urban; and

(ii) Incorporating the rate model for nonstandard child care hours developed under section 306 of this act.

(b) The department shall build upon the work of the child care collaborative task force to evaluate options to support access to affordable health care insurance coverage for licensed or certified child care providers.

NEW SECTION. Sec. 302. EARLY CHILDHOOD EDUCATION AND ASSISTANCE PROGRAM RATES. (1) For the 2021-22 school year, rates for the early childhood education and assistance program must be set at a level at least 10 percent higher than the rates established in section 225, chapter 415, Laws of 2019.

It is the intent of the legislature to allow uses of rate enhancements or site-specific grants to include increased wages for individual staff who provide bilingual instruction, professional development training, the purchase of dual language and culturally appropriate curricula and accompanying training programs, instructional materials, or other related expenses.

(2) The department must consult with a culturally and linguistically diverse stakeholder advisory group to develop criteria for the dual language designation.

(3) The department must adopt rules to implement this section.

NEW SECTION. Sec. 306. NONSTANDARD HOURS RATE MODEL. (1) In order to expand the supply of critically needed after-hours care to meet the needs of parents and caregivers and a round-the-clock economy, the department of children, youth, and families, in consultation with diverse stakeholders, must develop a rate model for nonstandard child care hours and submit the model to the governor and the appropriate committees of the legislature by January 1, 2022.

(2) This section expires June 30, 2022.

NEW SECTION. Sec. 307. EARLY CHILDHOOD EQUITY GRANTS. Eligible applicants include play and learn groups, licensed or certified child care centers and family home providers, license-exempt child care programs, and early childhood education and assistance program contractors. The equity grants are intended to serve as a step toward expanding access to early learning statewide and transforming Washington's early learning system to make it more inclusive and equitable. The department shall administer the early childhood equity grants to support inclusive and culturally and linguistically specific early learning and early childhood and parent support programs across the state.

(2) The department must conduct an equitable process to prioritize grant applications for early childhood equity grant assistance. An eligible applicant may receive an early childhood equity grant once every two years. When conducting the equitable grant process, the department must:

(a) Solicit project applications from a racially and geographically diverse pool of eligible applicants statewide;

(b) Provide application materials in the five most commonly spoken languages in the state and broadly communicate using a variety of strategies to reach diverse communities;

(c) Require applicants to demonstrate their proposed uses of early childhood equity grant funds to incorporate either inclusive practices or culturally and linguistically supportive and relevant practices, or both, into early learning program design, delivery, education, training, and evaluation; and

health consultants ((for each of the six department designated regions)). The department shall determine, in collaboration with the statewide child care resource and referral network, where the additional consultants should be sited based on factors such as the total provider numbers overlaid with indicators of highest need. The infant and early childhood mental health consultants must support early achievers program coaches and child care providers by providing resources, information, and guidance regarding challenging behavior and expulsions and may travel to assist providers in serving families and children with severe behavioral needs. Play and learn groups offer parents and other caregivers culturally responsive opportunities to support their children's early learning, build relationships that reduce isolation and encourage socialization, and promote kindergarten readiness.

NEW SECTION. Sec. 311. PROFESSIONAL DEVELOPMENT. (1) Subject to the availability of amounts appropriated for this specific purpose, the department shall provide professional development supports to aid eligible providers in reaching the professional education and training standards adopted by the department. Professional development supports may include:

(a) Department-required trainings for child care providers conducted by department-approved trainers;

(b) Trainings for license-exempt family, friend, and neighbor child care providers conducted by department-approved trainers;

(c) Early achievers scholarships;

(d) Community-based training pathways and systems developed under RCW 43.216.755;

(e) Supporting a nonprofit organization that provides relationship-based professional development support to family, friend, and neighbor caregivers, child care centers, and licensed family home providers, and their work to help providers start their businesses; and

(f) Other professional development activities such as updating training content, data collection and reporting, trainer recruitment, retention, program monitoring, and trainings delivered by department-approved trainers on topics such as small business management, antibias and antiracist training, providing care for children with developmental disabilities, social-emotional learning, implementing inclusionary practices in early learning environments, infant and toddler care, dual language program development, and providing trauma-informed care.

provider accepting state subsidy; (b) an employee of a licensed or certified child care center, licensed or certified outdoor nature-based care, or a licensed family home provider; (c) a contractor or provider of the early childhood education and assistance program or birth to three early childhood education and assistance program; or (d) an early achievers coach.

NEW SECTION. Sec. 313. CAPACITY FLEXIBILITY FOR FAMILY HOME PROVIDERS. The department may waive the limit, as established in RCW 43.216.010(1)(c), that restricts family home providers from serving not more than 12 children. The department must establish conditions for such waivers by rule and must assess, at a minimum, the provider's available square footage and staffing capabilities prior to issuing any waiver of the limit of 12 children.

NEW SECTION. Sec. 314. SUPPORT FOR CHILD CARE DESERTS. (1) Subject to the availability of amounts appropriated for this specific purpose, the department shall establish a grant program to expand child care in child care deserts. Grants must be used for one-time costs associated with the opening of a child care site, including program costs, for providers who are newly licensed or are in the process of becoming licensed.

(2) The department must use the child care industry insights dashboard from the child care industry assessment as a tool to identify areas in which additional investments are needed in order to expand existing child care capacity to meet family demand and reduce child care deserts.

(3) This section expires June 30, 2026.

PART IV

STRENGTHENING PRENATAL TO THREE SUPPORTS

NEW SECTION. Sec. 401. PRENATAL TO THREE INTENT. (1) The legislature finds that parental relationships and healthy interactions in the first few years of life help shape the development of babies' and toddlers' brains and bodies. Eighty percent of the brain is developed by the age of three and parents are a child's first teachers.

(2) The legislature finds that the federal family first prevention services act (P.L. 115-123) offers the state the opportunity to leverage federal funding for certain programs, including in-home parent skill-based programs, substance use disorder support, and mental health interventions. Culturally relevant, evidence-based programs that may qualify for these federal funds are limited. Therefore, state support may be necessary to serve traditionally underrepresented communities and increase positive engagement from parents and caregivers of children from before birth to age three.

(3) The legislature finds that small teacher-child ratios for infant and toddler care, as well as the existence of child care deserts with low levels of access to care for the birth to three age group, contribute to higher expenses for providers and families with babies and young children.

(4) Therefore, the legislature intends to expand parent and family education and support, incentivize the provision of infant and toddler care, and make early therapeutic and preventative services more readily available to families and young children.

NEW SECTION. Sec. 402. EDUCATION AND SUPPORT FOR PARENTS AND FAMILY, FRIEND, AND

NEIGHBOR CAREGIVERS. (1) Subject to the availability of amounts appropriated for this specific purpose, the department shall administer a prenatal to three family engagement strategy to support expectant parents, babies and toddlers from birth to three years of age, and their caregivers.

(2) Components of the prenatal to three family engagement strategy must include supports and services to improve maternal and infant health outcomes, reduce and mitigate trauma, promote attachment and other social-emotional assets, strengthen parenting skills, and provide early supports to help maximize healthy and robust childhood development and reduce isolation. Services and supports may include:

(a) In-home parent skill-based programs and training established in RCW 43.216.130;

(b) Facilitated play and learn groups;

(c) Parent peer-support groups, including groups designed for families with children with complex needs; families whose primary home language is not English; incarcerated parents; families coping with substance use disorder or mental health support needs; black, indigenous, and families of color; or other specific needs; and

(d) Other prenatal to age three programs and services.

(3) Continuity of services for babies and toddlers are important for early childhood brain development. Therefore, the services and supports described in this section may be made available to biological parents, foster parents, kinship care providers, and other family, friend, and neighbor caregivers.

Sec. 403. RCW 43.216.578 and 2019 c 408 s 8 are each amended to read as follows:

BIRTH TO THREE EARLY CHILDHOOD EDUCATION AND ASSISTANCE PROGRAM.

(1) ~~((Within resources available under the federal preschool development grant birth to five grant award received in December 2018,))~~ Subject to the availability of amounts appropriated for this specific purpose, the department shall ~~((develop a plan for phased implementation of))~~ administer a birth to three early childhood education and assistance program ~~((pilot project))~~ for eligible children under thirty-six months old. Funds to implement the ~~((pilot project))~~ program may include a combination of federal, state, or private sources.

(2) The department may adopt rules to implement the ~~((pilot project))~~ program and may waive or adapt early childhood education and assistance program requirements when necessary to allow for the operation of the birth to three early childhood education and assistance program. The department shall consider early head start rules and regulations when developing the provider and family eligibility requirements and program requirements. ~~((Any deviations from early head start standards, rules, or regulations must be identified and explained by the department in its annual report under subsection (6) of this section.))~~

(3)(a) ~~((Upon securing adequate funds to begin implementation, the pilot project))~~ The birth to three early childhood education and assistance program(s) must be delivered through child care centers and family home providers who meet minimum licensing standards and are enrolled in the early achievers program.

(b) The department must determine minimum early achievers ratings scores for ~~((programs))~~ participating ~~((in the pilot project))~~ contractors.

(4) ~~((When selecting pilot project locations for service delivery, the department may allow each pilot project location to have up to three classrooms per location. When selecting and approving pilot project locations, the department shall attempt to select a combination of rural, urban, and suburban locations. The~~

~~department shall prioritize locations with programs currently operating early head start, head start, or the early childhood education and assistance program.~~

~~(5)) To be eligible for the birth to three early childhood education and assistance program, a child's family income must be at or below ((one hundred thirty)) 50 percent of the ((federal poverty level)) state median income and the child must be under thirty-six months old.~~

~~((6) Beginning November 1, 2020, and each November 1st thereafter during pilot project activity, the department shall submit an annual report to the governor and legislature that includes a status update that describes the planning work completed, the status of funds secured, and any implementation activities of the pilot project. Implementation activity reports must include a description of the participating programs and number of children and families served.))~~

NEW SECTION. Sec. 404. INFANT CARE INCENTIVES. (1) The legislature finds that our state suffers from an extreme shortage of infant child care, impacting the ability of parents to participate in the workforce. Further, parents returning to work after using paid family leave to care for a new child struggle to find readily available, high quality care during a time of critical growth and brain development for young children. Therefore, the legislature intends to incentivize the provision of high quality infant care.

(2) Beginning July 1, 2022, the department shall provide an infant rate enhancement for licensed or certified child care providers and birth to three early childhood education and assistance program contractors who are:

- (a) Accepting state subsidy;
 - (b) In good standing with the early achievers quality rating and improvement system; and
 - (c) Caring for a child between the ages of birth and 11 months.
- (3) The department must adopt rules to implement this section.

NEW SECTION. Sec. 405. EARLY THERAPEUTIC AND PREVENTATIVE SERVICES. (1) Subject to the availability of amounts appropriated for this specific purpose, the department shall administer early therapeutic and preventative services and programs, such as the early childhood intervention and prevention services program, and other related services for children who are:

- (a) Between the ages of birth and five years; and
- (b) Referred by a child welfare worker, a department of social and health services social worker, a primary care physician, a behavioral health provider, or a public health nurse due to: (i) Risk of child abuse or neglect; (ii) exposure to complex trauma; or (iii) significant developmental delays.

(2) Subject to the availability of amounts appropriated for this specific purpose, the department shall make all reasonable efforts to deliver early therapeutic and preventative services and programs statewide. These services and programs must focus first on children and families furthest from opportunity as defined by income and be delivered by programs that emphasize greater racial equity.

PART V CONFORMING AMENDMENTS

REPORT OF THE CONFERENCE COMMITTEE
 Engrossed Second Substitute House Bill No. 1310
 April 22, 2021

MR. PRESIDENT:

MR. SPEAKER:

We of your conference committee, to whom was referred Engrossed Second Substitute House Bill No. 1310, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that additional clarity is necessary following the passage of Initiative Measure No. 940 (chapter 1, Laws of 2019) and Substitute House Bill No. 1064 (chapter 4, Laws of 2019). The legislature intends to address excessive force and discriminatory policing by establishing a requirement for law enforcement and community corrections officers to act with reasonable care when carrying out their duties, including using de-escalation tactics and alternatives to deadly force. Further, the legislature intends to address public safety concerns by limiting the use of deadly force to very narrow circumstances where there is an imminent threat of serious physical injury or death. It is the intent of the legislature that when practicable, peace officers will use the least amount of physical force necessary to overcome actual resistance under the circumstances.

It is the fundamental duty of law enforcement to preserve and protect all human life.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Law enforcement agency" includes any "general authority Washington law enforcement agency" and any "limited authority Washington law enforcement agency" as those terms are defined in RCW 10.93.020.

(2) "Less lethal alternatives" include, but are not limited to, verbal warnings, de-escalation tactics, conducted energy weapons, devices that deploy oleoresin capicum, batons, and beanbag rounds.

(3) "Peace officer" includes any "general authority Washington peace officer," "limited authority Washington peace officer," and "specially commissioned Washington peace officer" as those terms are defined in RCW 10.93.020; however, "peace officer" does not include any corrections officer or other employee of a jail, correctional, or detention facility, but does include any community corrections officer.

NEW SECTION. Sec. 3. (1)(a) Except as otherwise provided under this section, a peace officer may use physical force against a person when necessary to: Protect against criminal conduct where there is probable cause to make an arrest; effect an arrest; prevent an escape as defined under chapter 9A.76 RCW; or protect against an imminent threat of bodily injury to the peace

officer, another person, or the person against whom force is being used.

(b) A peace officer may use deadly force against another person only when necessary to protect against an imminent threat of serious physical injury or death to the officer or another person. For purposes of this subsection (1)(b):

(i) "Imminent threat of serious physical injury or death" means that, based on the totality of the circumstances, it is objectively reasonable to believe that a person has the present and apparent ability, opportunity, and intent to immediately cause death or serious bodily injury to the peace officer or another person.

(ii) "Necessary" means that, under the totality of the circumstances, a reasonably effective alternative to the use of deadly force does not exist, and that the amount of force used was a reasonable and proportional response to the threat posed to the officer and others.

(iii) "Totality of the circumstances" means all facts known to the peace officer leading up to and at the time of the use of force, and includes the actions of the person against whom the peace officer uses such force, and the actions of the peace officer.

(2) A peace officer shall use reasonable care when determining whether to use physical force and when using any physical force against another person. To that end, a peace officer shall:

(a) When possible, exhaust available and appropriate de-escalation tactics prior to using any physical force, such as: Creating physical distance by employing tactical repositioning and repositioning as often as necessary to maintain the benefit of time, distance, and cover; when there are multiple officers, designating one officer to communicate in order to avoid competing commands; calling for additional resources such as a crisis intervention team or mental health professional when possible; calling for back-up officers when encountering resistance; taking as much time as necessary, without using physical force or weapons; and leaving the area if there is no threat of imminent harm and no crime has been committed, is being committed, or is about to be committed;

(b) When using physical force, use the least amount of physical force necessary to overcome resistance under the circumstances. This includes a consideration of the characteristics and conditions of a person for the purposes of determining whether to use force against that person and, if force is necessary, determining the appropriate and least amount of force possible to effect a lawful purpose. Such characteristics and conditions may include, for example, whether the person: Is visibly pregnant, or states that they are pregnant; is known to be a minor, objectively appears to be a minor, or states that they are a minor; is known to be a vulnerable adult, or objectively appears to be a vulnerable adult as defined in RCW 74.34.020; displays signs of mental, behavioral, or physical impairments or disabilities; is experiencing perceptual or cognitive impairments typically related to the use of alcohol, narcotics, hallucinogens, or other drugs; is suicidal; has limited English proficiency; or is in the presence of children;

(c) Terminate the use of physical force as soon as the necessity for such force ends;

(d) When possible, use available and appropriate less lethal alternatives before using deadly force; and

(e) Make less lethal alternatives issued to the officer reasonably available for their use.

(3) A peace officer may not use any force tactics prohibited by applicable departmental policy, this chapter, or otherwise by law, except to protect his or her life or the life of another person from an imminent threat.

(4) Nothing in this section prevents a law enforcement agency or political subdivision of this state from adopting policies or standards with additional requirements for de-escalation and

greater restrictions on the use of physical and deadly force than provided in this section.

NEW SECTION. Sec. 4. (1) By July 1, 2022, the attorney general shall develop and publish model policies on law enforcement's use of force and de-escalation tactics consistent with section 3 of this act.

(2) By December 1, 2022, all law enforcement agencies shall: Adopt policies consistent with the model policies and submit copies of the applicable policies to the attorney general; or, if the agency did not adopt policies consistent with the model policies, provide notice to the attorney general stating the reasons for any departures from the model policies and an explanation of how the agency's policies are consistent with section 3 of this act, including a copy of the agency's relevant policies. After December 1, 2022, whenever a law enforcement agency modifies or repeals any policies pertaining to the use of force or de-escalation tactics, the agency shall submit notice of such action with copies of any relevant policies to the attorney general within 60 days.

(3) By December 31st of each year, the attorney general shall publish on its website a report on the requirements of this section, including copies of the model policies, information as to the status of individual agencies' policies, and copies of any agency policies departing from the model policies.

NEW SECTION. Sec. 5. A new section is added to chapter 43.101 RCW to read as follows:

The basic training provided to criminal justice personnel by the commission must be consistent with the standards in section 3 of this act and the model policies established by the attorney general under section 4 of this act.

Sec. 6. RCW 43.101.450 and 2019 c 1 s 3 (Initiative Measure No. 940) are each amended to read as follows:

(1) Beginning one year after December 6, 2018, all law enforcement officers in the state of Washington must receive violence de-escalation training. Law enforcement officers beginning employment after December 6, 2018, must successfully complete such training within the first (~~fifteen~~) 15 months of employment. The commission shall set the date by which other law enforcement officers must successfully complete such training.

(2) All law enforcement officers shall periodically receive continuing violence de-escalation training to practice their skills, update their knowledge and training, and learn about new legal requirements and violence de-escalation strategies.

(3) The commission shall set training requirements through the procedures in RCW 43.101.455.

(4) Violence de-escalation training provided under this section must be consistent with section 3 of this act and the model policies established by the attorney general under section 4 of this act.

(5) The commission shall submit a report to the legislature and the governor by January 1st and July 1st of each year on the implementation of and compliance with subsections (1) and (2) of this section. The report must include data on compliance by agencies and officers. The report may also include recommendations for any changes to laws and policies necessary to improve compliance with subsections (1) and (2) of this section.

NEW SECTION. Sec. 7. RCW 10.31.050 (Officer may use force) and 2010 c 8 s 1031, Code 1881 s 1031, 1873 p 229 s 211, & 1854 p 114 s 75 are each repealed.

NEW SECTION. Sec. 8. Sections 2 through 4 of this act constitute a new chapter in Title 10 RCW.

NEW SECTION. Sec. 9. If specific funding for the purposes of this act, referencing this act by bill or chapter number,

is not provided by June 30, 2021, in the omnibus appropriations act, this act is null and void."

On page 1, line 2 of the title, after "officers;" strike the remainder of the title and insert "amending RCW 43.101.450; adding a new section to chapter 43.101 RCW; adding a new chapter to Title 10 RCW; creating new sections; and repealing RCW 10.31.050."

MESSAGE FROM THE HOUSE

April 11, 2021

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5383 with the following amendment(s): 5383-S2 AMH ENGR H1463.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the COVID-19 pandemic has made it clear that equitable access to education can only happen with equitable access to reliable broadband. Increasing broadband access to unserved areas of the state is of vital importance to increasing quality of life, broadening educational opportunities, and promoting economic inclusion in the parts of our state that, without broadband access, cannot fully participate in modern society. The legislature further finds that one of the most effective tools to ensure all Washingtonians have an opportunity to equitably access education, the job market, and health care resources is to allow our public utility districts and port districts to provide retail telecommunications services.

Sec. 2. RCW 54.16.330 and 2019 c 365 s 9 are each amended to read as follows:

(1)(a) A public utility district in existence on June 8, 2000, may construct, purchase, acquire, develop, finance, lease, license, handle, provide, add to, contract for, interconnect, alter, improve, repair, operate, and maintain any telecommunications facilities within or without the district's limits for the following purposes:

- (i) For the district's internal telecommunications needs;
- (ii) For the provision of wholesale telecommunications services (~~(within)~~) as follows:

(A) Within the district and by contract with another public utility district;

(B) Within an area in an adjoining county that is already provided electrical services by the district; or

(C) Within an adjoining county that does not have a public utility district providing electrical or telecommunications services headquartered within the county's boundaries, but only if the district providing telecommunications services is not authorized to provide electrical services(-

~~(b) Except as provided in subsection (8) of this section, nothing in this section shall be construed to authorize public utility districts to provide telecommunications services to end users); or~~

(iii) For the provision of retail telecommunications services as authorized in this section.

(2) A public utility district providing wholesale or retail telecommunications services shall ensure that rates, terms, and conditions for such services are not unduly or unreasonably discriminatory or preferential. Rates, terms, and conditions are discriminatory or preferential when a public utility district offering rates, terms, and conditions to an entity for wholesale or retail telecommunications services does not offer substantially similar rates, terms, and conditions to all other entities seeking substantially similar services.

(3) A public utility district providing wholesale or retail telecommunications services shall not be required to, but may, establish a separate utility system or function for such purpose. In either case, a public utility district providing wholesale or retail telecommunications services shall separately account for any revenues and expenditures for those services according to standards established by the state auditor pursuant to its authority in chapter 43.09 RCW and consistent with the provisions of this title. Any revenues received from the provision of wholesale or retail telecommunications services must be dedicated to costs incurred to build and maintain any telecommunications facilities constructed, installed, or acquired to provide such services, including payments on debt issued to finance such services, until such time as any bonds or other financing instruments executed after June 8, 2000, and used to finance such telecommunications facilities are discharged or retired.

(4) When a public utility district provides wholesale or retail telecommunications services, all telecommunications services rendered to the district for the district's internal telecommunications needs shall be allocated or charged at its true and full value. A public utility district may not charge its nontelecommunications operations rates that are preferential or discriminatory compared to those it charges entities purchasing wholesale or retail telecommunications services.

(5) If a person or entity receiving retail telecommunications services from a public utility district under this section has a complaint regarding the reasonableness of the rates, terms, conditions, or services provided, the person or entity may file a complaint with the district commission.

(6) A public utility district shall not exercise powers of eminent domain to acquire telecommunications facilities or contractual rights held by any other person or entity to telecommunications facilities.

(7) Except as otherwise specifically provided, a public utility district may exercise any of the powers granted to it under this title and other applicable laws in carrying out the powers authorized under this section. Nothing in chapter 81, Laws of 2000 limits any existing authority of a public utility district under this title.

(8)(a) If an internet service provider operating on telecommunications facilities of a public utility district that provides wholesale telecommunications services but does not provide retail telecommunications services, ceases to provide access to the internet to its end-use customers, and no other retail service providers are willing to provide service, the public utility district may provide retail telecommunications services to the end-use customers of the defunct internet service provider in order for end-use customers to maintain access to the internet until a replacement internet service provider is, or providers are, in operation.

(b) Within thirty days of an internet service provider ceasing to provide access to the internet, the public utility district must initiate a process to find a replacement internet service provider

or providers to resume providing access to the internet using telecommunications facilities of a public utility district.

(c) For a maximum period of five months, following initiation of the process begun in (b) of this section, or, if earlier than five months, until a replacement internet service provider is, or providers are, in operation, the district commission may establish a rate for providing access to the internet and charge customers to cover expenses necessary to provide access to the internet.

(9) The tax treatment of the retail telecommunications services provided by a public utility district to the end-use customers during the period specified in subsection (8) of this section must be the same as if those retail telecommunications services were provided by the defunct internet service provider.

(10)(a) A public utility district may provide retail telecommunications services to end users in unserved areas.

(b) A public utility district must notify and consult with the governor's statewide broadband office within 30 days of its decision to provide retail telecommunications services to unserved areas. The governor's statewide broadband office must post notices received from a public utility district pursuant to this subsection on its public website.

(c) Any public utility district that intends to provide retail telecommunications services to unserved areas must submit a telecommunications infrastructure and service plan to the governor's statewide broadband office that will be published on the office's website. Submission of plans will enable the governor's statewide broadband office: (i) To better understand infrastructure deployment; (ii) to potentially allocate funding for unserved areas; (iii) to advance the state policy objectives; (iv) to determine whether the plan aligns with state policy objectives and broadband priorities; (v) to measure progress toward serving those in unserved areas; (vi) to report on the feasibility and sustainability of the project; and (vii) to confirm that the project is within an unserved area. The telecommunications infrastructure and service plans shall include, but not be limited to, the following:

(A) Map and description of how the deployment of proposed broadband infrastructure will achieve at a minimum 100 megabits per second download speed and at a minimum 20 megabits per second upload speed and then increases to be consistent with the stated long-term state broadband speed goals for unserved areas;

(B) Project timeline prioritization of unserved areas; and

(C) Description of potential state and federal funding available to provide service to the unserved area.

(d) A public utility district that exercises its authority under (a) of this subsection to provide retail telecommunications services may use state funds, federal funds appropriated through the state, or federal funds dedicated for projects in unserved areas to fund projects identified in the submitted telecommunications infrastructure and service plan required in (c) of this subsection.

(e) A public utility district providing retail telecommunications services under this subsection must operate an open access network.

(f) This section does not apply to retail internet services provided by a public utility district under RCW 54.16.420.

(g) Provisions in this subsection do not apply to the provision of wholesale telecommunications services authorized in this section.

(h) For the purposes of this subsection:

(i) "Open access network" means a network that, during the useful life of the infrastructure, ensures service providers may use network services and facilities at rates, terms, and conditions that are not discriminatory or preferential between providers, and employs accountable interconnection arrangements published and available publicly.

(ii) "Unserved areas" means areas of Washington in which households and businesses lack access to broadband service of speeds at a minimum of 100 megabits per second download and at a minimum 20 megabits per second upload.

Sec. 3. RCW 53.08.370 and 2019 c 365 s 10 are each amended to read as follows:

(1) A port district in existence on June 8, 2000, may construct, purchase, acquire, develop, finance, lease, license, handle, provide, add to, contract for, interconnect, alter, improve, repair, operate, and maintain any telecommunications facilities within or without the district's limits for the following purposes:

(a) For the district's own use; ~~(and)~~

(b) For the provision of wholesale telecommunications services within or without the district's limits ~~(Nothing in this subsection shall be construed to authorize port districts to provide telecommunications services to end users); or~~

(c) For the provision of retail telecommunications services as authorized in this section.

(2) Except as provided in subsection (9) of this section, a port district providing wholesale telecommunications services under this section shall ensure that rates, terms, and conditions for such services are not unduly or unreasonably discriminatory or preferential. Rates, terms, and conditions are discriminatory or preferential when a port district offering such rates, terms, and conditions to an entity for wholesale telecommunications services does not offer substantially similar rates, terms, and conditions to all other entities seeking substantially similar services.

(3) When a port district establishes a separate utility function for the provision of wholesale telecommunications services, it shall account for any and all revenues and expenditures related to its wholesale telecommunications facilities and services separately from revenues and expenditures related to its internal telecommunications operations. Any revenues received from the provision of wholesale telecommunications services must be dedicated to the utility function that includes the provision of wholesale telecommunications services for costs incurred to build and maintain the telecommunications facilities until such time as any bonds or other financing instruments executed after June 8, 2000, and used to finance the telecommunications facilities are discharged or retired.

(4) When a port district establishes a separate utility function for the provision of wholesale telecommunications services, all telecommunications services rendered by the separate function to the district for the district's internal telecommunications needs shall be charged at its true and full value. A port district may not charge its nontelecommunications operations rates that are preferential or discriminatory compared to those it charges entities purchasing wholesale telecommunications services.

(5) A port district shall not exercise powers of eminent domain to acquire telecommunications facilities or contractual rights held by any other person or entity to telecommunications facilities.

(6) Except as otherwise specifically provided, a port district may exercise any of the powers granted to it under this title and other applicable laws in carrying out the powers authorized under this section. Nothing in chapter 81, Laws of 2000 limits any existing authority of a port district under this title.

(7) A port district that has not exercised the authorities provided in this section prior to June 7, 2018, must develop a business case plan before exercising the authorities provided in this section. The port district must procure an independent qualified consultant to review the business case plan, including the use of public funds in the provision of wholesale telecommunications services. Any recommendations or adjustments to the business case plan made during third-party review must be received and either rejected or accepted by the port commission in an open meeting.

(9)(a) A port district under this section may select a telecommunications company to operate all or a portion of the port district's telecommunications facilities.

(b) For the purposes of this section "telecommunications company" means any for-profit entity owned by investors that sells telecommunications services to end users.

(c) Nothing in this subsection (9) is intended to limit or otherwise restrict any other authority provided by law.

(10)(a) A port district may provide retail telecommunications services to end users in unserved areas.

(b) A port district must notify and consult with the governor's statewide broadband office within 30 days of its decision to provide retail telecommunications services to unserved areas. The governor's statewide broadband office must post notices received from a port district pursuant to this subsection on its public website.

(c) Any port district that intends to provide retail telecommunications services to unserved areas must submit a telecommunications infrastructure and service plan to the governor's statewide broadband office that will be published on the office's website. Submission of plans will enable the governor's statewide broadband office: (i) To better understand infrastructure deployment; (ii) to potentially allocate funding for unserved areas; (iii) to advance the state policy objectives; (iv) to determine whether the plan aligns with state policy objectives and broadband priorities; (v) to measure progress toward serving those in unserved areas; (vi) to report on the feasibility and sustainability of the project; and (vii) to confirm that the project is within an unserved area. The telecommunications infrastructure and service plans shall include, but not be limited to, the following:

(A) Map and description of how the deployment of proposed broadband infrastructure will achieve at a minimum 100 megabits per second download speed and at a minimum 20 megabits per second upload speed and then increases to be consistent with the stated long-term state broadband speed goals for unserved areas;

(B) Project timeline prioritization of unserved areas; and

(C) Description of potential state and federal funding available to provide service to the unserved area.

(d) A port district that exercises its authority under (a) of this subsection to provide retail telecommunications services may use state funds, federal funds appropriated through the state, or federal funds dedicated for projects in unserved areas to fund projects identified in the submitted telecommunications infrastructure and service plan required in (c) of this subsection.

(e) A port district providing retail telecommunications services under this subsection must operate an open access network.

(f) Provisions in this subsection do not apply to the provision of wholesale telecommunications services authorized in this section.

(g) For the purposes of this subsection:

(i) "Open access network" means a network that, during the useful life of the infrastructure, ensures service providers may use network services and facilities at rates, terms, and conditions that are not discriminatory or preferential between providers, and employs accountable interconnection arrangements published and available publicly.

(ii) "Unserved areas" means areas of Washington in which households and businesses lack access to broadband service of speeds at a minimum of 100 megabits per second download and at a minimum 20 megabits per second upload.

Sec. 4. RCW 43.330.538 and 2019 c 365 s 6 are each amended to read as follows:

(1)(a) Beginning January 1, 2021, and biennially thereafter, the office shall report to the legislative committees with jurisdiction over broadband policy and finance on the office's activities during the previous two years.

~~((2))~~ (b) The report must, at a minimum, contain:

~~((a))~~ (i) An analysis of the current availability and use of broadband, including average broadband speeds, within the state;

~~((b))~~ (ii) Information gathered from schools, libraries, hospitals, and public safety facilities across the state, determining the actual speed and capacity of broadband currently in use and the need, if any, for increases in speed and capacity to meet current or anticipated needs;

~~((c))~~ (iii) An overview of incumbent broadband infrastructure within the state;

~~((d))~~ (iv) A summary of the office's activities in coordinating broadband infrastructure development with the public works board, including a summary of funds awarded under RCW 43.155.160;

~~((e))~~ (v) Suggested policies, incentives, and legislation designed to accelerate the achievement of the goals under RCW 43.330.536; and

~~((f))~~ (vi) Any proposed legislative and policy initiatives.

(2)(a) By December 31, 2022, the office must submit a report to the governor and the appropriate committees of the legislature regarding the provision of retail telecommunications services to unserved areas by public utility districts and port districts as provided in RCW 54.16.330(10) and 53.08.370(10).

(b) The report must, at a minimum, contain:

(i) The number of public utility districts and port districts providing retail telecommunications services in an unserved area authorized in RCW 54.16.330(10) and 53.08.370(10); and

(ii) Any recommendations to improve the provision of retail telecommunications services in unserved areas."

Correct the title.

and the same are herewith transmitted.

MOTION

Senator Frockt moved that the following striking floor amendment no. 919 by Senator Frockt be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2023, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2022" or "FY 2022" means the period beginning July 1, 2021, and ending June 30, 2022.

(b) "Fiscal year 2023" or "FY 2023" means the period beginning July 1, 2022, and ending June 30, 2023.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2023-2025 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2021, from the 2019-2021 biennial appropriations for each project.

The evaluation and ranking process must also include an examination of existing assets that applicants propose to apply to projects. 2021-23 Clean Energy V - Investing in Washington's Clean Energy (40000148)

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations in this section are provided solely for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions, or increase energy independence for the state. Priority must be given to projects that benefit vulnerable populations and overburdened communities, including tribes and communities with high environmental or energy burdens.

(2) The 2021 state energy strategy must guide the department in the design of programs under this section, using an equity and environmental justice lens for program structure and participation. To the extent practicable, the department must prioritize projects that build upon Washington's existing strengths in communities, aerospace, maritime, information and communications technology (particularly data center infrastructure, artificial intelligence and machine learning), grid modernization, advanced materials, and decarbonizing the built environment.

(3) Subject to the availability of funds, the department must reconvene an advisory committee to support involvement of a broad range of stakeholders in the design and implementation of programs implemented under this section to encourage collaboration, leverage partners, and engage communities and organizations in improving the equitable distribution of benefits from the program.

(4) In soliciting and evaluating proposals, awarding contracts, and monitoring projects under this section, the department must:

(a) Ensure that competitive processes, rather than sole source contracting processes, are used to select all projects, except as otherwise noted in this section; and

(b) Conduct due diligence activities associated with the use of public funds including, but not limited to, oversight of the project selection process, project monitoring, and ensuring that all

applications and contracts fully comply with all applicable laws including disclosure and conflict of interest statutes.

(5) During project solicitation periods for grants funded with this appropriation, the department must maintain a list of applicants by grant program that scored competitively but did not receive a grant award due to lack of available funding. These applicants must be considered for funding during future grant award cycles. If the department submits a 2022 supplemental budget request for this program, the request must include a list of prioritized projects by grant type.

(6)(a) Pursuant to chapter 42.52 RCW, the ethics in public service act, the department must require a project applicant to identify in application materials any state of Washington employees or former state employees employed by the firm or on the firm's governing board during the past 24 months. (ii) Awards must be in the form of a recoverable grant with a 40-year low-income housing covenant on the land.

associated with establishment of the acquired or rented facilities. For youth housing, drop-in centers, and shelter projects, renovation of existing properties is an allowable activity. The department may only approve funding for projects resulting in increased shelter or housing capacity. Amounts provided in this section may not be used for operating or maintenance costs associated with providing housing, supportive services, or debt service.

(2) Funds may also be used for permanent financing for real estate acquired using other short term acquisition sources. To expand availability of permanent housing, financing of acquisition of unoccupied multifamily housing is a priority. Funds must also be provided specifically for the city of Seattle to move people experiencing unsheltered homelessness into safe spaces, including, but not limited to, tiny homes, hotels, enhanced emergency shelters, or other rapid housing alternatives.

(3) While emphasizing the rapid deployment of the amounts appropriated under this section to alleviate the immediate crisis of homelessness throughout the state, the department shall establish criteria for the issuance of the grants, which may include provisions that require that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant, during which time the property must be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued on the date most close in time to the date of authorization of the grant. The criteria must include:

(b) A detailed estimate of the costs associated with the acquisition and any updates or improvements necessary to make the property habitable for its intended use;

(c) A detailed estimate of the costs associated with opening the beds or units; and

(d) A financial plan demonstrating the ability to maintain and operate the property and support its intended tenants throughout the end of the grant contract.

(4) The department must provide a progress report on its website by December 1, 2022. The report must include:

(a) The total number of applications and amount of funding requested; and

(b) A list and description of the projects approved for funding including state funding, total project cost, services anticipated to be provided, housing units, and anticipated completion date.

(5) The funding provided under this section is not subject to the 90-day application periods in RCW 43.185.070 or 43.185A.050. The department of commerce shall dispense funds to the city of Seattle and other qualifying applicants within 45 days of receipt of documentation from the applicant for qualifying uses and execution of any necessary contracts with the department in order to effect the purpose of rapid deployment of funds under this section.

(6) If the department receives simultaneous applications for funding under this program, proposals that reach the greatest public benefit, as defined by the department, must be prioritized. For purposes of this subsection (6), "greatest public benefit" must include, but is not limited to:

(a) The greatest number of accommodations or increased shelter capacity that will benefit extremely low-income people, as well as individuals, families, and youth experiencing homelessness.

(b) Whether the project has federally funded rental assistance tied to it;

(c) The scarcity of the affordable housing or shelter capacity applied for compared to the number of available affordable housing units or shelter capacity in the same geographic location; and

(d) The program's established funding priorities under RCW 43.185.070(5).

(7) \$900,000 of the state building construction account—state appropriation in this section is provided solely for the public building conversion pilot program. The pilot program must be implemented in Grays Harbor county in collaboration with Community House on Broadway, in partnership with CORE Health.

(a) The appropriation may be used only for costs related to rehabilitation, retrofitting, and conversion of the publicly owned building for use as housing for homeless persons.

(b) The appropriation may not be used for staffing or maintaining buildings converted to housing for homeless persons. Costs for staffing and maintenance must be borne by the county or the contractor.

(c) In the contract for the pilot program, the department shall include provisions that require that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

(d) The pilot program should help inform the development of a public building conversion grant program to encourage counties to convert unused, publicly owned buildings into housing for homeless persons. The department must report to the office of financial management and fiscal committees of the legislature by November 1, 2022, regarding the establishment of the pilot program and any recommendations related to implementation of a public building conversion grant program.

Statewide Multi-modal Trails Database (92000448)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely for the recreation and conservation office to develop an official statewide database of paved and unpaved multimodal trails that displays a network of local, regional, and statewide trails that connect, or have the potential of connecting, to provide transportation alternatives that are available to public access. In developing the database and trails network, the office must use and build upon trails work done by Washington state parks and recreation commission and local and regional governments and the active transportation plan developed by the department of transportation. The office should consider the inventorying and mapping efforts already undertaken by nonprofit and private organizations provided that the office deems the information meets their needs for data standards and integrity and the trails are understood to be open and available for use by the public.

(2) Using the existing spatial data collected under subsection (1) of this section, the office must maintain a statewide network of public recreational and commuter routes to facilitate the stewardship of a statewide trails system. The network of trails and the trails database must be developed in a manner that allows the office to update data on a regular basis in consultation and collaboration with other state agencies, cities, counties, parks and recreation districts, regional governments, and private and nonprofit organizations.

(i) Evidence that the application was developed in collaboration with one or more health care entities that provide behavioral health care services to individuals eligible for the housing provided under this subsection;

(ii) A commitment by the applicant to provide, directly or through a formal partnership, necessary treatment and supportive services to the tenants and maintain the beds or housing units for at least a forty-year period;

These funds must be awarded to projects with a total project development cost per housing unit of less than \$200,000, excluding the value of land, off-site infrastructure costs, and any capitalized reserves, compliant with the Americans with disabilities act, and with a commitment by the applicant to maintain the housing units for at least a fifty year period.

(c) \$10,000,000 of the appropriation in this section is provided solely for a state match or state matches on private contributions that fund the production and preservation of affordable housing. (B) The population served, with priority given to projects with at least 50 percent of the housing units being occupied by families and individuals at or below 50 percent area median income;

(C) The degree to which the applicant demonstrates that the improvements will result in a reduction of operating or utilities costs, or both;

(D) The potential for additional years added to the affordability period of the property; and

(E) Other criteria that the department considers necessary to achieve the purpose of this program.

(e)(i) \$7,000,000 of the appropriation in this section is provided solely for loans or grants to design and construct ultra-high energy efficient affordable housing projects.

(ii) To receive funding, a project must provide a life-cycle cost analysis report to the department and must demonstrate energy-saving and renewable energy systems either designed to reach net-zero energy use after housing is fully occupied or designed to achieve the most recent building standard of the passive house institute US as of the effective date of this section.

(iii) The department must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(A) Whether the proposed design has demonstrated that the project will achieve either net-zero energy use when fully occupied or will achieve the most recent building standard of the passive house institute US as of the effective date of this section;

(B) The life-cycle cost of the project;

ONE HUNDRED THIRD DAY, APRIL 23, 2021

(3)(a) The department must strive to allocate all of the amounts appropriated in this section within the 2019-2021 fiscal biennium in the manner prescribed in subsection (1) of this section. However, if upon review of applications the department determines there are not adequate suitable projects in a category, the department may allocate funds to projects serving other low-income and special needs populations, provided those projects are located in an area with an identified need for the type of housing proposed.

Sec. 6008. 2020 c 356 s 1013 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF COMMERCE

2021 Local and Community Projects (40000130)

The appropriation in this section is subject to the following conditions and limitations:

(1) The department may not expend the appropriation in this section unless and until the nonstate share of project costs have been either expended or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature. This requirement does not apply to projects where a share of the appropriation is for design costs only.

(2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. This requirement does not apply to appropriations for preconstruction activities or appropriations in which the sole purpose is to purchase real property that does not include a construction or renovation component.

(3) Projects funded in this section may be required to comply with Washington's high performance building standards as required by chapter 39.35D RCW.

(4) Project funds are available on a reimbursement basis only, and may not be advanced under any circumstances.

(5) In contracts for grants authorized under this section, the department must include provisions that require that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

(6) Projects funded in this section, including those that are owned and operated by nonprofit organizations, are generally required to pay state prevailing wages.

FOR THE DEPARTMENT OF FISH AND WILDLIFE

(1) Nothing in this section alters the obligation set forth in the permanent injunction, including the compliance deadline, entered on March 29, 2013, in *United States v. Washington*, sub-proceeding 01-1 (Culverts), or the guidelines for compliance within the specified timeline with the permanent injunction as developed by the state agencies during the implementation process.

(2) Nothing in this section creates an obligation on the part of the state to provide funding for corrections for nonstate-owned culverts. Nothing in this section precludes the state from providing funding for corrections for nonstate-owned culverts.

(3) In order to provide recommendations, the Brian Abbott fish barrier removal board must develop a comprehensive statewide culvert remediation plan that works in conjunction with the state approach and that fully satisfies the requirements of the *United States v. Washington* permanent injunction and makes both local and state funding recommendations for additional nonstate barrier corrections across state culvert correction programs that maximize the fisheries habitat gain and other benefits to prey available for southern resident killer whale and salmon recovery.

(4) The comprehensive statewide culvert remediation plan must be consistent with the principles and requirements of the *United States v. Washington* permanent injunction and RCW 77.95.180 and must achieve coordinated investment strategy goals of permanent injunction compliance and the following additional resource benefits. The Brian Abbott fish barrier removal board chair, representing the board and the appropriate department of fish and wildlife executive management, shall consult with tribes to develop a watershed approach. Provided it is consistent with the *United States v. Washington* permanent injunction, prioritization of barrier corrections must be developed on a watershed basis and must maximize the following resource priorities:

- (a) Stocks that are listed as threatened or endangered under the federal endangered species act;
- (b) Stocks that contribute to protection and recovery of southern resident orca whales;
- (c) Critical stocks of anadromous fish that limit or prevent harvest of anadromous fish, as identified in the Pacific salmon treaty; and
- (d) Weak stocks of anadromous fish that limit or prevent harvest of anadromous fish, as determined in North of Cape Falcon process.

(5) The comprehensive statewide culvert remediation plan must include recommendations on methods and procedures for state agencies and local governments to complete and maintain accurate barrier inventories. This plan must also allow for efficient bundling of projects to minimize disruption to the public due to construction as well as adjustments in response to obstacles and opportunities encountered during delivery.

(6) The Brian Abbott fish barrier removal board must also:

(a) Provide to the office of financial management and the fiscal committees of the legislature its recommendation as to statutory or policy changes, or budget needs for the board or state capital budget programs, for better implementation and coordination among the state's culvert correction programs by (~~January 15, 2021~~) June 30, 2021; and

(b) Develop a plan to seek and maximize the chances of success of significant federal investment in the comprehensive statewide culvert remediation plan.

(7) It is the intent of the legislature that, in developing future budgets, state agencies administering state culvert correction programs will recommend, to the maximum extent possible,

funding in their culvert correction programs for correction of barriers that are part of the comprehensive statewide culvert remediation plan developed by the Brian Abbott fish barrier removal board under this section.

(8) By November 1, 2020, and March 1, 2021, the Brian Abbott fish barrier removal board and the department of transportation must provide updates on the development of the statewide culvert remediation plan to the office of financial management and the legislative fiscal committees. The first update must include a project timeline and plan to ensure that all agencies with culvert correction programs are involved in the creation of the comprehensive plan.

(9) Prior to presenting the comprehensive statewide culvert remediation plan, the Brian Abbott fish barrier removal board must present the status of the plan to the annual Washington state and Western Washington treaty tribes fish passage barrier repair progress and coordination meeting. The board must submit the comprehensive statewide culvert remediation plan and the process by which it will be adaptively managed over time to the governor and the legislative fiscal committees by (~~January 15, 2021~~) June 30, 2021.

PART 7

MISCELLANEOUS PROVISIONS

NEW SECTION. Sec. 7001. RCW 43.88.031 requires the disclosure of the estimated debt service costs associated with new capital bond appropriations. The estimated debt service costs for the appropriations contained in this act are \$46,768,901 for the 2021-2023 biennium, \$314,662,796 for the 2023-2025 biennium, and \$447,088,148 for the 2025-2027 biennium.

NEW SECTION. Sec. 7002. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency's financing plan approved by the state finance committee.

(2) Those noninstructional facilities of higher education institutions authorized in this section to enter into financial contracts are not eligible for state funded maintenance and operations. Instructional space that is available for regularly scheduled classes for academic transfer, basic skills, and workforce training programs may be eligible for state funded maintenance and operations.

(3) Secretary of state: Enter into a financing contract for up to \$119,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct a new library-archives building.

(4) Washington state patrol: Enter into a financing contract for up to \$7,706,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct a burn building for live fire training.

(5) Department of social and health services: Enter into a financing contract for up to \$115,700,000 plus costs and financing expenses and required reserves pursuant to chapter 39.94 RCW to construct a nursing facility on the fircrest residential habilitation center campus. The department may contract to lease develop or lease purchase the facility. Before entering into a contract, the department must consult with the office of financial management and the office of the state treasurer. Should the department of social and health services choose to use a financing contract that does not provide for the issuance of certificates of participation, the financing contract shall be subject to approval by the state finance committee as required by RCW 39.94.010. In approving a financing contract not providing for the use of certificates of participation, the state finance committee should be reasonably certain that the contract is excluded from the computation of indebtedness, particularly that the contract is not backed by the full faith and credit of the state and the legislature is expressly not obligated to appropriate funds to make payments. For purposes of this subsection, "financing contract" includes but is not limited to a certificate of participation and tax exempt financing similar to that authorized in RCW 47.79.140.

(6) Community and technical colleges:

(a) Enter into a financing contract on behalf of Grays Harbor College for up to \$3,200,000 plus financing expenses and

required reserves pursuant to chapter 39.94 RCW to construct a student services and instructional building.

(c) Enter into a financing contract on behalf of South Puget Sound Community College for up to \$5,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to renovate a health education building.

(d) Enter into a financing contract on behalf of Bates Technical College for up to \$1,350,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to purchase land and facilities.

(7) The department of ecology: Submit a financing contract proposal to fully fund the Lacey headquarters parking garage preservation project, including financing expenses and required reserves pursuant to chapter 39.94 RCW, in the department's 2022 supplemental capital budget request.

NEW SECTION. Sec. 7003. (1) To ensure that major construction projects are carried out in accordance with legislative and executive intent, agencies must complete a predesign for state construction projects with a total anticipated cost in excess of \$5,000,000, or \$10,000,000 for higher education institutions. "Total anticipated cost" means the sum of the anticipated cost of the predesign, design, and construction phases of the project.

(2) Appropriations for design may not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign.

(3) The predesign must explore at least three project alternatives. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative should be the most reasonable and cost-effective solution. The predesign document must include, but not be limited to, program, site, and cost analysis, and an analysis of the life-cycle costs of the alternatives explored, in accordance with the predesign manual adopted by the office of financial management.

(4) The office of financial management may make an exception to the predesign requirements in this section after notifying the legislative fiscal committees and waiting ten days for comment by the legislature regarding the proposed exception.

(5) If House Bill No. 1023 (predesign) is enacted by June 30, 2021 this section is null and void.

NEW SECTION. Sec. 7004. (1) To ensure that major construction projects are carried out in accordance with legislative and executive intent, agencies must complete a predesign for state construction projects with a total anticipated cost in excess of \$10,000,000. For purposes of this section, "total anticipated cost" means the sum of the anticipated cost of the predesign, design, and construction phases of the project.

(2) Appropriations for design may not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign.

(3) The predesign must explore at least three project alternatives. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative should be the most reasonable and cost-effective solution. The predesign document must include, but not be limited to, program, site, and cost analysis, and an analysis of the life-cycle costs of the alternatives explored, in accordance with the predesign manual adopted by the office of financial management.

(4) For projects exceeding the \$10,000,000 predesign threshold established in this section, the office of financial management may make an exception to some or all of the predesign requirements in this section. The office of financial management shall report any exception to the fiscal committees of the legislature:

(a) A description of the major capital project for which the predesign waiver is made;

(b) An explanation of the reason for the waiver; and

(c) A rough order of magnitude cost estimate for the project's design and construction.

(5) In deliberations related to submitting an exception under this section, the office of financial management shall consider the following factors:

(a) Whether there is any determination to be made regarding the site of the project;

(b) Whether there is any determination to be made regarding whether the project will involve renovation, new construction, or both;

(c) Whether, within six years of submitting the request for funding, the agency has completed, or initiated the construction of, a substantially similar project;

(d) Whether there is any anticipated change to the project's program or the services to be delivered at the facility;

(e) Whether the requesting agency indicates that the project may not require some or all of the predesign requirements in this section due to a lack of complexity; and

(f) Whether any other factors related to project complexity or risk, as determined by the office of financial management, could reduce the need for, or scope of, a predesign.

(6) If under this section, some or all predesign requirements are waived, the office of financial management may instead propose a professional project cost estimate instead of a request for predesign funding.

(7) If House Bill No. 1023 (predesign) is not enacted by June 30, 2021, this section is null and void.

NEW SECTION. Sec. 7005. (1) The legislature finds that use of life-cycle cost analysis will aid public entities, architects, engineers, and contractors in making design and construction decisions that positively impact both the initial construction cost and the ongoing operating and maintenance cost of a project. To ensure that the total cost of a project is accounted for and the most reasonable and cost efficient design is used, agencies shall develop life-cycle costs for any construction project over \$10,000,000. The life-cycle costs must represent the present value sum of capital costs, installation costs, operating costs, and maintenance costs over the life expectancy of the project. The legislature further finds the most effective approach to the life-cycle cost analysis is to integrate it into the early part of the design process.

(2) Agencies must develop a minimum of three project alternatives for use in the life-cycle cost analysis. These alternatives must be both distinctly different and viable solutions to the issue being addressed. Agencies must choose the most reasonable and cost-effective solution, as supported by the life-cycle cost analysis. A brief description of each project alternative and why it was chosen must be included in the life-cycle cost analysis section of the predesign.

(3) The office of financial management shall: (a) Make available a life-cycle cost model to be used for analysis; (b) in consultation with the department of enterprise services, provide assistance in using the life-cycle cost model; and (c) update the life-cycle cost model annually including assumptions for inflation rates, discount rates, and energy rates.

(4) Agencies shall consider architectural and engineering firms' and general contractors' experience using life-cycle costs,

2021 REGULAR SESSION

operating costs, and energy efficiency measures when selecting an architectural and engineering firm, or when selecting contractors using alternative contracting methods.

NEW SECTION. Sec. 7006. Agencies administering construction projects with a total anticipated cost in excess of \$5,000,000, or \$10,000,000 for higher education institutions, must submit progress reports to the office of financial management and to the fiscal committees of the house of representatives and senate. "Total anticipated cost" means the sum of the anticipated cost of the predesign, design, and construction phases of the project. Reports must be submitted on July 1st and December 31st of each year in a format determined by the office of financial management. After the project is completed, agencies must also submit a closeout report that identifies the total project cost and any unspent appropriations.

NEW SECTION. Sec. 7007. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 7008. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the fiscal committees of the legislature by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 7009. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from

predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 7010. (1) Any building project that receives over \$10,000,000 in funding from the capital budget must be built to sustainable standards. "Sustainable building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity, and minimizes greenhouse gas emissions. The following design and construction attributes must be integrated into the building project:

(a) **Employ integrated design principles:** Use a collaborative, integrated planning and design process that initiates and maintains an integrated project team in all stages of a project's planning and delivery. Establish performance goals for siting, energy, water, materials, and indoor environmental quality along with other comprehensive design goals and ensures incorporation of these goals throughout the design and life-cycle of the building. Consider all stages of the building's life-cycle, including deconstruction.

(b) **Commissioning:** Employ commissioning practices tailored to the size and complexity of the building and its system components in order to verify performance of building components and systems and help ensure that design requirements are met. This should include an experienced commissioning provider, inclusion of commissioning requirements in construction documents, a commissioning plan, verification of the installation and performance of systems to be commissioned, and a commissioning report.

(c) **Optimize energy performance:** Establish a whole building performance target that takes into account the intended use, occupancy, operations, plug loads, other energy demands, and design to earn the ENERGY STAR targets for new construction and major renovation where applicable. For new construction target low energy use index. For major renovations, target reducing energy use by 50 percent below prerenovations baseline.

(d) **On-site renewable energy:** Implement renewable energy generation projects on agency property for agency use, when life-cycle cost effective.

(e) **High-efficiency electric equipment:** Use only high-efficiency electric equipment for water and space heating needs not met through on-site renewable energy, when life-cycle cost effective.

(f) **Measurement and verification:** For buildings over 50,000 square feet, install building level electricity meters in new major construction and renovation projects to track and continuously optimize performance. Include equivalent meters for natural gas and steam, where natural gas and steam are used. Where appropriate, install dashboards inside buildings to display and incentivize occupants on energy use.

(g) Benchmarking: Compare performance data from the first year of operation with the energy design target. Verify that the building performance meets or exceeds the design target. For other building and space types, use an equivalent benchmarking tool.

NEW SECTION. Sec. 7011. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 7012. Executive Order No. 21-02, archaeological and cultural resources, was issued effective November 10, 2005. Agencies shall comply with the requirements set forth in this executive order and must consult with the department of archaeology and historic preservation and affected tribes on the potential effects of projects on cultural resources and historic properties proposed in state-funded construction or acquisition projects, including grant or pass-through funding that culminates in construction or land acquisitions. Consultation with the department of archaeology and historic preservation and affected tribes must be initiated early in the project planning process, prior to construction or taking title.

Sec. 7013. RCW 43.19.501 and 2020 c 356 s 7005 are each amended to read as follows:

The Thurston county capital facilities account is created in the state treasury. The account is subject to the appropriation and allotment procedures under chapter 43.88 RCW. Moneys in the account may be expended for capital projects in facilities owned and managed by the department in Thurston county.

During the 2019-2021 and 2021-2023 fiscal ((biennium)) biennia, the Thurston county capital facilities account may be appropriated for costs associated with staffing to support capital budget and project activities and lease and facility oversight activities.

NEW SECTION. Sec. 7014. FOR THE ARTS COMMISSION—ART WORK ALLOWANCE. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding \$200,000 by colleges or universities is provided solely for the purposes of RCW 28B.10.027.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency identified in RCW 43.17.200 is provided solely for the purposes of RCW 43.17.200.

(4) At least 80 percent of the moneys spent by the Washington state arts commission during the 2021-2023 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. Except for art allocations made under K-3 class size reduction grants under section 5030 of this act, art allocations not expended within the ensuing two biennia will lapse. The commission may use up to \$200,000 of this amount to conserve or maintain existing pieces in the state art collection.

NEW SECTION. Sec. 7015. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 7016. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial

management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 7017. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 7018. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. Portions of the general obligation bond proceeds authorized by chapter . . . (Substitute House Bill No. 1081), Laws of 2021, (State General Bonds and General Accounts) for deposit into the state taxable building construction account that are in excess of amounts required to comply with the federal internal revenue service rules and regulations shall be deposited into the state building construction account. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the state building construction account, or any other account receiving bond proceeds, and the state taxable building construction account is necessary, or that a shift of appropriation authority from the state taxable building construction account to the state building construction account may be made.

NEW SECTION. Sec. 7019. (1) Minor works project lists are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. Funds appropriated in this act for minor works may not be initially allotted until agencies submit project lists to the office of financial management for review and approval.

(2) Revisions to the project lists, including the addition of projects and the transfer of funds between projects, are allowed but must be submitted to the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee for review and comment, and must include an explanation of variances from prior approved lists. Any project list revisions must be approved by the office of financial management before funds may be expended from the minor works appropriation.

(3)(a) All minor works projects should be completed within two years of the appropriation with the funding provided.

(b) Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects.

(c) Minor works appropriations may not be used for the following: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; movable, temporary, and traditionally funded

operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock; computers; or to supplement funding for projects with funding shortfalls unless expressly authorized. The office of financial management may make an exception to the limitations described in this subsection (3)(c) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(d) Minor works preservation projects may include program improvements of no more than 25 percent of the individual minor works preservation project cost.

(e) Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the minor works categories.

NEW SECTION. Sec. 7020. FOR THE STATE TREASURER—TRANSFERS

(1) Public Works Assistance Account: For transfer to the drinking water assistance account, up to \$5,500,000 for fiscal year 2022 and up to \$5,500,000 for fiscal year 2023 \$11,000,000

(2) Public Works Assistance Account: For transfer to the water pollution control revolving account, up to \$7,500,000 for fiscal year 2022 and up to \$7,500,000 for fiscal year 2023 \$15,000,000

NEW SECTION. Sec. 7021. To the extent that any appropriation authorizes expenditures of state funds from the state building construction account, or from any other capital project account in the state treasury, for a capital project or program that is specified to be funded with proceeds from the sale of bonds, the legislature declares that any such expenditures for that project or program made prior to the issue date of the applicable bonds are intended to be reimbursed from proceeds of those bonds in a maximum amount equal to the amount of such appropriation.

NEW SECTION. Sec. 7022. In order to accelerate the reduction of embodied carbon and improve the environmental performance of construction materials, agencies shall, whenever possible, review and consider embodied carbon reported in environmental product declarations when evaluating proposed structural materials for construction projects.

NEW SECTION. Sec. 7023. The joint legislative task force created in 2018 c 298 s 7011 (uncodified) is hereby reauthorized through June 30, 2023, subject to the requirements that studies and selection of scientists or organizations to implement the studies must be made by a 60 percent majority of the members of the task force and that if a member has not been designated for a position set forth in section 7011(2), chapter 298, Laws of 2018 (uncodified), that position may not be counted for purposes of determining a quorum.

Sec. 7024. RCW 90.94.090 and 2019 c 413 s 7035 are each reenacted and amended to read as follows:

(1) A joint legislative task force on water resource mitigation is established to review the treatment of surface water and groundwater appropriations as they relate to instream flows and fish habitat, to develop and recommend a mitigation sequencing process and scoring system to address such appropriations, and to review the Washington supreme court decision in *Foster v. Department of Ecology*, 184 Wn.2d 465, 362 P.3d 959 (2015).

(2) The task force must consist of the following members:

(c) A representative from the department, appointed by the director of the department;

(d) A representative from the department of fish and wildlife, appointed by the director of the department of fish and wildlife;

(e) A representative from the department of agriculture, appointed by the director of the department of agriculture;

(f) One representative from each of the following groups, appointed by the consensus of the cochairs of the task force:

(i) An organization representing the farming industry in Washington;

(ii) An organization representing Washington cities;

(iii) Two representatives from an environmental advocacy organization or organizations;

(iv) An organization representing municipal water purveyors;

(v) An organization representing business interests;

(vi) Representatives of two federally recognized Indian tribes, one invited by recommendation of the Northwest Indian fisheries commission, and one invited by recommendation of the Columbia river intertribal fish commission.

(3) If a member has not been designated for a position set forth in subsection (2) of this section, that position may not be counted for purposes of determining a quorum.

(4) One cochair of the task force must be a member of the majority caucus of one chamber of the legislature, and one cochair must be a member of the minority caucus of the other chamber of the legislature, as those caucuses existed as of January 19, 2018.

(5) The first meeting of the task force must occur by June 30, 2018.

(6) Staff support for the task force must be provided by the office of program research and senate committee services. The department and the department of fish and wildlife shall cooperate with the task force and provide information as the cochairs reasonably request.

(7) Within existing appropriations, the expenses of the operations of the task force, including the expenses associated with the task force's meetings, must be paid jointly and in equal amounts by the senate and the house of representatives. Task force expenditures are subject to approval by the house executive rules committee and the senate facility and operations committee. Legislative members of the task force are reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members are not entitled to be reimbursed for travel expenses if they are elected officials or are participating on behalf of an employer, governmental entity, or other organization. Any reimbursement for other nonlegislative members is subject to chapter 43.03 RCW.

(8)(a) By November 15, 2019, and November 15, 2022, the joint legislative task force must make recommendations to the legislature in compliance with RCW 43.01.036. ~~((The task force may update its November 15, 2019, recommendations by November 15, 2020, if a majority of the members of the task force determine that such an update is appropriate based on additional information developed as a result of the pilot projects established under subsection (9) of this section.))~~

(b) Recommendations of the joint legislative task force must be made by a sixty percent majority of the appointed members of the task force. The representatives of the departments of fish and wildlife, ecology, and agriculture are not eligible to vote on the recommendations. Minority recommendations that achieve the support of at least five of the appointed voting members of the task force may also be submitted to the legislature.

(9) The department shall issue permit decisions for up to five water resource mitigation pilot projects. It is the intent of the legislature to use the pilot projects to inform the legislative task force process while also enabling the processing of water right applications that address water supply needs. The department is authorized to issue permits in reliance upon water resource mitigation of impacts to instream flows and closed surface water bodies under the following mitigation sequence:

(a) Avoiding impacts by: (i) Complying with mitigation required by adopted rules that set forth minimum flows, levels, or closures; or (ii) making the water diversion or withdrawal subject to the applicable minimum flows or levels; or

(b) Where avoidance of impacts is not reasonably attainable, minimizing impacts by providing permanent new or existing trust water rights or through other types of replacement water supply resulting in no net annual increase in the quantity of water diverted or withdrawn from the stream or surface water body and no net detrimental impacts to fish and related aquatic resources; or

(c) Where avoidance and minimization are not reasonably attainable, compensating for impacts by providing net ecological benefits to fish and related aquatic resources in the water resource inventory area through in-kind or out-of-kind mitigation or a combination thereof, that improves the function and productivity of affected fish populations and related aquatic habitat. Out-of-kind mitigation may include instream or out-of-stream measures that improve or enhance existing water quality, riparian habitat, or other instream functions and values for which minimum instream flows or closures were established in that watershed.

(10) The department must monitor the implementation of the pilot projects, including all mitigation associated with each pilot project, approved under this section at least annually through December 31, 2028.

(11) The pilot projects eligible for processing under this section, based on criteria as of January 19, 2018, include:

(a) A city operating a group A water system in Kitsap county and water resource inventory area 15, with a population between 13,000 and 14,000;

(b) A city operating a group A water system in Pierce county and water resource inventory area 10, with a population between 9,500 and 10,500;

(c) A city operating a group A water system in Thurston county and water resource inventory area 11, with a population between 8,500 and 9,500;

(d) A nonprofit mutual water system operating a group A water system in Pierce county and water resource inventory area 12, with between 10,500 and 11,500 service connections; and

(e) An irrigation district located in Whatcom county and water resource inventory area 1, solely for the purpose of processing changes of water rights from surface water to groundwater, and implementing flow augmentation to benefit instream flows.

(12) Water right applicants eligible to be processed under this pilot project authority must elect to be included in the pilot project review by notifying the department by July 1, 2018. Once an applicant notifies the department of its intent to be processed under this pilot project authority, subsection (9) of this section applies to final decisions issued by the department, even if such a final decision is issued after the expiration of this section.

(13) By November 15, 2018, the department must furnish the task force with information on conceptual mitigation plans for each water resource mitigation pilot project application. By November 15, 2019, and November 15, 2022, the department must provide the task force with an update on the mitigation plans based on additional information developed after November 15, 2018.

(14) To ensure that the processing of pilot project applications can inform the task force process in a timely manner, the department must expedite processing of applications for water resource mitigation pilot projects. The applicant for each pilot project must reimburse the department for the department's costs of processing the applicant's application.

(15) The water resource mitigation pilot project authority granted to the department does not affect or modify any other procedural requirements of chapter 90.03, 90.44, or 90.54 RCW that apply to the processing of such applications.

(16) The joint legislative task force expires December 31, ~~((2020))~~ 2022. During the period from November 16, 2019, through December 31, ~~((2020))~~ 2022, the work of the task force is limited to:

(a) A review of any additional information that may be developed after November 15, 2019, as a result of the pilot projects established under subsection (9) of this section; and

(b) An update of the task force's November 15, 2019, recommendations (~~(under subsection (8) of this section)~~).

(17) This section expires January 1, 2029.

Sec. 7025. RCW 28B.15.210 and 2019 c 413 s 7023 are each amended to read as follows:

Within thirty-five days from the date of collection thereof, all building fees at the University of Washington, including building fees to be charged students registering in the schools of medicine and dentistry, shall be paid into the state treasury and credited as follows:

One-half or such larger portion as may be necessary to prevent a default in the payments required to be made out of the bond retirement fund to the "University of Washington bond retirement fund" and the remainder thereof to the "University of Washington building account." The sum so credited to the University of Washington building account shall be used exclusively for the purpose of erecting, altering, maintaining, equipping, or furnishing buildings, and for certificates of participation under chapter 39.94 RCW, except for any sums transferred as authorized in RCW 28B.20.725(3). The sum so credited to the University of Washington bond retirement fund shall be used for the payment of principal of and interest on bonds outstanding as provided by chapter 28B.20 RCW except for any sums transferred as authorized in RCW 28B.20.725(5). ~~((During the 2017-2019 biennium, sums credited to the University of Washington building account may also be used for routine facility maintenance, utility costs, and facility condition assessments.))~~ During the 2019-2021 biennium, sums credited to the University of Washington building account may also be used for routine facility maintenance, utility costs, and facility condition assessments. During the 2021-2023 biennium, sums credited to the University of Washington building account may also be used for routine facility maintenance, utility costs, and facility condition assessments.

Sec. 7026. RCW 28B.15.310 and 2019 c 413 s 7024 are each amended to read as follows:

(1) By October 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the

scoring process to the legislative fiscal committees and the four-year institutions. Each project must be reviewed and scored within one of the following categories, according to the project's principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at all campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings. Facilities that cannot be economically renovated are considered replacement projects. New space may be programmed for the same or a different use than the space being replaced and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(e) Projects that promote economic growth and innovation through expanded research activity. The acquisition and installation of specialized equipment is authorized under this category; and

(f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the pre-design, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions. The office of financial management, in consultation with the legislative fiscal committees, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(7) By August 1st of each even-numbered year each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. The lists must be submitted to the office of financial management and the legislative fiscal committees. The four-year institutions may aggregate minor works project proposals by primary purpose for ranking purposes. Proposed minor works projects must be prioritized within the aggregated proposal, and supporting documentation, including project descriptions and cost estimates, must be provided to the office of financial management and the legislative fiscal committees.

(8) For the ~~((2017-2019 fiscal biennium and the))~~ 2019-2021 fiscal biennium ~~and the 2021-2023 fiscal biennium~~, pursuant to subsection (1) of this section, by November 1, ~~((2020))~~ 2022, the office of financial management must score higher education capital project criteria with a rating scale that assesses how well a particular project satisfies those criteria. The office of financial management may not use a rating scale that weighs the importance of those criteria.

(b) On contracts made for public use general aviation airport loans, the board must determine the interest rate that loans must bear. The interest rate must not exceed the amount needed to cover the administrative expenses of the board and the loan program. The board may provide reasonable terms and conditions

for the repayment of loans, with the repayment of a loan to begin no later than three years after the award date of the loan. The loans must not exceed 20 years in duration.

 - (n) A strategic plan to maintain long-term operation of the infrastructure;
 - (o) Evidence that no later than six weeks before submission of the application, the applicant contacted, in writing, all entities providing broadband service near the proposed project area to ask each broadband service provider's plan to upgrade broadband service in the project area to speeds that meet or exceed the state's definition for broadband service as defined in RCW 43.330.530, within the time frame specified in the proposed grant or loan activities;
 - (p) If applicable, the broadband service providers' written responses to the inquiry made under (o) of this subsection; and
 - (q) Any additional information requested by the board.
- (6)(a) Within thirty days of the close of the grant and loan application process, the board shall publish on its web site the proposed geographic broadband service area and the proposed broadband speeds for each application submitted.
- (b) Any existing broadband service provider near the proposed project area may, within thirty days of publication of the information under (a) of this subsection, submit in writing to the board an objection to an application. An objection must contain information demonstrating that:
- (i) The project would result in overbuild, meaning that the objecting provider currently provides, or has begun construction to provide, broadband service to end users in the proposed project area at speeds equal to or greater than the state speed goals contained in RCW 43.330.536; or

In assessing the commitment, the board may consider whether the objecting provider has or will provide a bond, letter of credit, or other indicia of financial commitment guaranteeing the project's completion.
- (e) If the board denies funding to an applicant as a result of a broadband service provider's objection made under this section, and the broadband service provider does not fulfill its commitment to provide broadband service in the project area, then for the following two grant and loan cycles, the board is prohibited from denying funding to an applicant on the basis of a challenge by the same broadband service provider, unless the board determines that the broadband service provider's failure to fulfill the provider's commitment was the result of factors beyond the broadband service provider's control. The board is not prohibited from denying funding to an applicant for reasons other than an objection by the same broadband service provider.

- (f) An applicant or broadband service provider that objected to the application may request a debriefing conference regarding the board's decision on the application. (4)(a) The legislature continues to prioritize Washington state's sustainability goals and reaffirms its determination that recyclable construction aggregate and recycled concrete materials are too valuable to be wasted and landfilled. The legislature further finds that the reuse of construction aggregate and recycled concrete materials into construction projects is known to:

(i) Reduce the need for consumption of new construction aggregate materials and conserves existing aggregate resources;

(ii) Encourages reuse and recycling, reduces waste, and discourages landfilling of readily available natural resources;

The evaluation and ranking process shall also consider local community support for projects and an examination of existing assets that applicants may apply to projects.

(ii) The department may establish the amount of state grant assistance for individual project applications but the amount shall not exceed twenty percent, or thirty-three and one-third percent for lists submitted during the 2019-2021 fiscal biennium, of the estimated total capital cost or actual cost of a project, whichever is less. In its report, the department shall also report on the implementation of this chapter, including reasons why the LEED standard was not used as required by RCW 39.35D.020(5)(b). The department shall make recommendations regarding the ongoing implementation of this chapter, including a discussion of incentives and disincentives related to implementing this chapter.

(5) For the purposes of determining compliance with the requirement for a project to be designed, constructed, and certified to at least the LEED silver standard, the department must credit one additional point for a project that uses wood products with a credible third-party sustainable forest certification or from forests regulated under chapter 76.09 RCW, the Washington forest practices act. For projects that qualify for this additional point, and for which an additional point would have resulted in formal certification under the LEED silver standard, the project must be deemed to meet the standard under this section.

(6) During the 2021-2023 fiscal biennium, an alternative high-performance building certification, as determined by the legislature, may be used instead of the LEED silver building design, construction, and certification standard required by this section.

NEW SECTION. Sec. 7050. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 7051. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

The President asked Senator Rolfes to escort Mr. Richard Ramsay to a place of honor on the rostrum.

PERSONAL PRIVILEGE

Senator Frockt: "Thank you, Mr. President. Again, I am so sorry that I could not be here today. I really thought it just best to play it safe and so that's why I'm not there. The first, before I talk about Richard, I want to thank our entire capital budget staff this year, and the budget step generally. It's an incredible amount of work they do on the operating budget in the capital budget. Michele Alishahi, Michael Bezanson, Mary Cho, Sarah Emmans, Kayla Hammer, Julie Murray, Jeff Naas, Corban Nemeth, Brenna Price, Alan Ryan, and Liza Weeks. And then, in particular, this year, they were all amazing but in particular for me the many things that I had to work on this year I want to just call out for their exceptional service Jed Herman, Maria Hovde, and Sarian Scott. They had, we had some of the most complicated parts of the capital budget and they were just incredibly valuable to me and to I know the other members of the team.

Now as for Richard. It's been noted that this is going to be his last capital budget, his last budget. He has been, to me, since I came in as the ranking member, I think it was four three or four years ago I can't remember now, incredibly helpful. Incredibly a much, incredible mentor to me, so I could understand actually what was

going on. And I think it's reflective of his decades of service to this state, in all aspects of state government, and then here at the Capitol. Worked on almost everything that you can imagine. And he's knowledge was invaluable and impeccable. And I'd say in some ways I know we're not supposed to say this because our staff is supposed to be, our nonpartisan staff is supposed to, really supposed to be I would say they are they are Switzerland they there is to show neither favor nor' nor' disfavor and any anything that's going on in the room or around but truly I absolutely came to feel that he was a great friend of mine and a great friend to what we were trying to do and I was trying to do as the lead on on this on this budget. So, he's been an incredible resource and we all owe him a great debt of gratitude for the great work that's gone into this particular budget. It's amazing how much detail goes into it. How very rarely we miss something. Once in a while. Once in a blue moon you miss something, but it almost never happens and that is a tribute to his work and his leadership. I know he's going to be spending a lot of time and he's not quite done yet, he's got a few more months with this but this is probably the last budget. But I know he's going to be spending time with his family, with his kids, one of his daughters worked for us for a while, I know she's doing well up in Seattle, and now he's going to be out in the water rowing. Going back to visit his family in Tennessee, which is probably another reason we had some affinity because I have some roots in Tennessee. My mother is from there originally and I grew up in in Kentucky as many of you know so from that part of the country. And just all I just want to say thank you Richard for everything you've done and just know that your work will never ever be forgotten, and we appreciate it more than you can imagine. So, thank you so much."

The Senate stood in applause to thank Mr. Ramsay.

PERSONAL PRIVILEGE

Senator Honeyford: "Thank you Mr. President. I too want to thank Richard Ramsey for his great work on Capital Budget. I've worked with other Capital Budget staff and I'm really impressed with Brian Simms and his work and I thought when he retired boy it's going to be tough to replace him, but Richard stepped right in and filled the void and has done excellent job for us. He will be missed, and I hope to see him some time out on East Bay rowing with his crew and also, I understand he may be going into the construction industry and so I look forward to seeing progress and the pounding of nails. So, thank you Mr. President."

PERSONAL PRIVILEGE

Senator Schoesler: "Thank you Mr. President. I don't think we can say anything more about how good Mr. Ramsay has served the institution as staff to budgets. My story goes back, I was still a fairly new senator, had a small community with a problem with impact fees in a state institution and a staffer who I hardly knew came all the way over to Franklin County sat down with part of a city council, city manager and I think about two hours one evening showed this little city more than the consultant did in the previous year. And you know your constituents don't forget that when somebody comes helps navigate the path of government and that's when I knew we had a winner there. So, Richard, from the constituents of the Ninth District, Thank you."

REMARKS BY THE PRESIDENT

President Heck: "Richard, congratulations on a stellar public service career. And on behalf of the people of the state of

Washington, the State Senate, we extend to you our deepest, deepest gratitude. Job well done sir."

The President asked Senator Rolfe to escort Mr. Ramsay from his place of honor on the rostrum to a seat in the wings.

MOTION

On motion of Senator Liias, the Senate reverted to the third order of business.

MESSAGE FROM THE SECRETARY OF STATE

The Honorable President of the Senate
Legislature of the State of Washington
Olympia, Washington 98504

MR. PRESIDENT:

We respectfully transmit for your consideration the following bill which was partially vetoed by the Governor, together with the official veto message setting forth his objections to the sections or items of the bill, as required by Article III, section 12, of the Washington State Constitution:

ENGROSSED SECOND SUBSTITUTE SENATE BILL
NO. 5160

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Seal of the state of Washington, this 22 day of April, 2021.

KIM WYMAN, Secretary of State
(Seal)

MESSAGE FROM THE GOVERNOR

April 22, 2021

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 12 and 13, Engrossed Second Substitute Senate Bill No. 5160 entitled:

"AN ACT Relating to addressing landlord-tenant relations by providing certain tenant protections during the public health emergency, providing for legal representation in eviction cases, establishing an eviction resolution pilot program for nonpayment of rent cases, and authorizing landlord access to certain rental assistance programs."

While Section 12 attempts to provide direct financial relief to landlords as part of a larger legislative solution in E2SSB 5160, it creates an entitlement for landlords to receive rent assistance without a sufficient framework to prioritize resources to those landlords who have the greatest need. The estimated cost of Section 12 is \$2.4 billion, which is \$1.5 billion more than is currently appropriated by the state or awarded by the federal government. RCW 43.88.055 requires the Legislature to enact an operating budget that leaves a positive ending fund balance at the end of the fiscal biennium.

Although the final budget will likely have a different ending fund balance than is reflected today, \$1.5 billion in additional costs could not be sustained by available fiscal resources. In order to ensure that the Legislature meets its statutory obligation to leave a positive ending fund balance at the end of the 2021-23

ONE HUNDRED THIRD DAY, APRIL 23, 2021

2021 REGULAR SESSION

biennium, I am vetoing Section 12 of this bill at the request of legislative leadership.

In addition, Section 13 is largely duplicative of an early action bill that I have already signed, ESHB 1368, which provides \$2 million in grant opportunities for eligible landlords. Because of this, Section 13 creates administrative problems for the department of commerce, and may also cause confusion for landlords. As a result, again at the request of legislative leadership, I am also vetoing Section 13.

The Legislature and I agree it is important to provide resources to landlords, and to prioritize assisting those landlords who have a small number of units. If the Legislature wants to increase support for landlords who have a small number of units, I encourage the Legislature to increase funding to the program already created in the early action bill rather than creating redundant programs.

For these reasons I have vetoed Sections 12 and 13 of Engrossed Second Substitute Senate Bill No. 5160.

With the exception of Sections 12 and 13, Engrossed Second Substitute Senate Bill No. 5160 is approved.

Respectfully submitted,

/s/

Jay Inslee
Governor

REPORT OF THE CONFERENCE COMMITTEE
Engrossed Second Substitute House Bill No. 1477
April 23, 2021

MR. PRESIDENT:
MR. SPEAKER:

We of your conference committee, to whom was referred Engrossed Second Substitute House Bill No. 1477, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

"PART I

CRISIS CALL CENTER HUBS AND CRISIS SERVICES

NEW SECTION. Sec. 101. (1) The legislature finds that:

(a) Nearly 6,000 Washington adults and children died by suicide in the last five years, according to the federal centers for disease control and prevention, tragically reflecting a state increase of 36 percent in the last 10 years.

(b) Suicide is now the single leading cause of death for Washington young people ages 10 through 24, with total deaths 22 percent higher than for vehicle crashes.

(c) Groups with suicide rates higher than the general population include veterans, American Indians/Alaska Natives, LGBTQ youth, and people living in rural counties across the state.

(d) More than one in five Washington residents are currently living with a behavioral health disorder.

(e) The COVID-19 pandemic has increased stressors and substance use among Washington residents.

(f) An improved crisis response system will reduce reliance on emergency room services and the use of law enforcement response to behavioral health crises and will stabilize individuals in the community whenever possible.

(g) To accomplish effective crisis response and suicide prevention, Washington state must continue its integrated approach to address mental health and substance use disorder in tandem under the umbrella of behavioral health disorders, consistently with chapter 71.24 RCW and the state's approach to integrated health care. This is particularly true in the domain of suicide prevention, because of the prevalence of substance use as both a risk factor and means for suicide.

(2) The legislature intends to:

(a) Establish crisis call center hubs and expand the crisis response system in a deliberate, phased approach that includes the involvement of partners from a range of perspectives to:

(i) Save lives by improving the quality of and access to behavioral health crisis services;

(ii) Further equity in addressing mental health and substance use treatment and assure a culturally and linguistically competent response to behavioral health crises;

(iii) Recognize that, historically, crisis response placed marginalized communities, including those experiencing behavioral health crises, at disproportionate risk of poor outcomes and criminal justice involvement;

(iv) Comply with the national suicide hotline designation act of 2020 and the federal communications commission's rules adopted July 16, 2020, to assure that all Washington residents receive a consistent and effective level of 988 suicide prevention and other behavioral health crisis response and suicide prevention services no matter where they live, work, or travel in the state; and

(v) Provide higher quality support for people experiencing behavioral health crises through investment in new technology to create a crisis call center hub system to triage calls and link individuals to follow-up care.

(b) Make additional investments to enhance the crisis response system, including the expansion of crisis teams, to be known as mobile rapid response crisis teams, and deployment of a wide array of crisis stabilization services, such as 23-hour crisis stabilization units based on the living room model, crisis stabilization centers, short-term respite facilities, peer-run respite centers, and same-day walk-in behavioral health services. The overall crisis system shall contain components that operate like hospital emergency departments that accept all walk-ins and ambulance, fire, and police drop-offs. Certified peer counselors as well as peers in other roles providing support must be incorporated within the crisis system and along the continuum of crisis care.

NEW SECTION. Sec. 102. A new section is added to chapter 71.24 RCW to read as follows:

(1) Establishing the state crisis call center hubs and enhancing the crisis response system will require collaborative work between the department and the authority within their respective roles. The department shall have primary responsibility for establishing and designating the crisis call center hubs. The authority shall have primary responsibility for developing and implementing the crisis response system and services to support the work of the crisis call center hubs. In any instance in which one agency is identified as the lead, the expectation is that agency will be communicating and collaborating with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the call centers based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022. The funding level shall be determined by considering standards and cost per call predictions provided

by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades.

(3) The department shall adopt rules by July 1, 2023, to establish standards for designation of crisis call centers as crisis call center hubs. The department shall collaborate with the authority and other agencies to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from the crisis response improvement strategy committee created in section 103 of this act.

(4) The department shall designate crisis call center hubs by July 1, 2024. The crisis call center hubs shall provide crisis intervention services, triage, care coordination, referrals, and connections to individuals contacting the 988 crisis hotline from any jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section.

(a) To be designated as a crisis call center hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract to provide crisis call center hub services. The department may revoke the designation of any crisis call center hub that fails to substantially comply with the contract.

(b) The contracts entered shall require designated crisis call center hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly qualified, skilled, and trained clinical staff who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peer counselors to provide follow-up and outreach to callers in distress as available. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline; and

(v) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority.

(c) The department and the authority shall incorporate recommendations from the crisis response improvement strategy committee created under section 103 of this act in its agreements with crisis call center hubs, as appropriate.

(5) The department and authority must coordinate to develop the technology and platforms necessary to manage and operate the behavioral health crisis response and suicide prevention system. The technologies developed must include:

(a) A new technologically advanced behavioral health and suicide prevention crisis call center system platform using

technology demonstrated to be interoperable across crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, for use in crisis call center hubs designated by the department under subsection (4) of this section. This platform, which shall be fully funded by July 1, 2023, shall be developed by the department and must include the capacity to receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future that promote access to the behavioral health crisis system; and

(b) A behavioral health integrated client referral system capable of providing system coordination information to crisis call center hubs and the other entities involved in behavioral health care. This system shall be developed by the authority.

(6) In developing the new technologies under subsection (5) of this section, the department and the authority must coordinate to designate a primary technology system to provide each of the following:

(a) Access to real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services, including:

(i) Real-time bed availability for all behavioral health bed types, including but not limited to crisis stabilization services, triage facilities, psychiatric inpatient, substance use disorder inpatient, withdrawal management, peer-run respite centers, and crisis respite services, inclusive of both voluntary and involuntary beds, for use by crisis response workers, first responders, health care providers, emergency departments, and individuals in crisis; and

(ii) Real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services for a person, including the means to access:

(A) Information about any less restrictive alternative treatment orders or mental health advance directives related to the person; and

(B) Information necessary to enable the crisis call center hub to actively collaborate with emergency departments, primary care providers and behavioral health providers within managed care organizations, behavioral health administrative services organizations, and other health care payers to establish a safety plan for the person in accordance with best practices and provide the next steps for the person's transition to follow-up noncrisis care. To establish information-sharing guidelines that fulfill the intent of this section the authority shall consider input from the confidential information compliance and coordination subcommittee established under section 103 of this act;

(b) The means to request deployment of appropriate crisis response services, which may include mobile rapid response crisis teams, co-responder teams, designated crisis responders, fire department mobile integrated health teams, or community assistance referral and educational services programs under RCW 35.21.930, according to best practice guidelines established by the authority, and track local response through global positioning technology; and

(c) The means to track the outcome of the 988 call to enable appropriate follow up, cross-system coordination, and accountability, including as appropriate: (i) Any immediate services dispatched and reports generated from the encounter; (ii) the validation of a safety plan established for the caller in accordance with best practices; (iii) the next steps for the caller to follow in transition to noncrisis follow-up care, including a next-day appointment for callers experiencing urgent, symptomatic behavioral health care needs; and (iv) the means to verify and document whether the caller was successful in making the transition to appropriate noncrisis follow-up care indicated in the

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

safety plan for the person, to be completed either by the care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub;

(d) A means to facilitate actions to verify and document whether the person's transition to follow up noncrisis care was completed and services offered, to be performed by a care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub;

(e) The means to provide geographically, culturally, and linguistically appropriate services to persons who are part of high-risk populations or otherwise have need of specialized services or accommodations, and to document these services or accommodations; and

(f) When appropriate, consultation with tribal governments to ensure coordinated care in government-to-government relationships, and access to dedicated services to tribal members.

(7) To implement this section the department and the authority shall collaborate with the state enhanced 911 coordination office, emergency management division, and military department to develop technology that is demonstrated to be interoperable between the 988 crisis hotline system and crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, as well as the national suicide prevention lifeline, to assure cohesive interoperability, develop training programs and operations for both 911 public safety telecommunicators and crisis line workers, develop suicide and other behavioral health crisis assessments and intervention strategies, and establish efficient and equitable access to resources via crisis hotlines.

(8) The authority shall:

(a) Collaborate with county authorities and behavioral health administrative services organizations to develop procedures to dispatch behavioral health crisis services in coordination with crisis call center hubs to effectuate the intent of this section;

(b) Establish formal agreements with managed care organizations and behavioral health administrative services organizations by January 1, 2023, to provide for the services, capacities, and coordination necessary to effectuate the intent of this section, which shall include a requirement to arrange next-day appointments for persons contacting the 988 crisis hotline experiencing urgent, symptomatic behavioral health care needs with geographically, culturally, and linguistically appropriate primary care or behavioral health providers within the person's provider network, or, if uninsured, through the person's behavioral health administrative services organization;

(c) Create best practices guidelines by July 1, 2023, for deployment of appropriate and available crisis response services by crisis call center hubs to assist 988 hotline callers to minimize nonessential reliance on emergency room services and the use of law enforcement, considering input from relevant stakeholders and recommendations made by the crisis response improvement strategy committee created under section 103 of this act;

(d) Develop procedures to allow appropriate information sharing and communication between and across crisis and emergency response systems for the purpose of real-time crisis care coordination including, but not limited to, deployment of crisis and outgoing services, follow-up care, and linked, flexible services specific to crisis response; and

(e) Establish guidelines to appropriately serve high-risk populations who request crisis services. The authority shall design these guidelines to promote behavioral health equity for all populations with attention to circumstances of race, ethnicity, gender, socioeconomic status, sexual orientation, and geographic location, and include components such as training requirements for call response workers, policies for transferring such callers to an appropriate specialized center or subnetwork within or external to the national suicide prevention lifeline network, and procedures for referring persons who access the 988 crisis hotline to linguistically and culturally competent care.

(c) Potential options to reduce the tax imposed in section 202 of this act, given the expected level of costs related to infrastructure development and operational support of the 988 crisis hotline and crisis call center hubs; and

(d) The viability of providing funding for in-person mobile rapid response crisis services or other behavioral health first responder services recommended by the crisis response improvement strategy committee funded from the account created in section 205 of this act, given the expected revenues to the account and the level of expenditures required under (a) of this subsection.

(2) If the steering committee finds that funding in-person mobile rapid response crisis services or other behavioral health first responder services recommended by the crisis response improvement strategy committee is viable from the account given the level of expenditures necessary to support the infrastructure development and operational support of the 988 crisis hotline and crisis call center hubs, the steering committee must analyze options for the location and composition of such services given need and available resources with the requirement that funds from the account supplement, not supplant, existing behavioral health crisis funding.

(3) The work of the steering committee under this section must be facilitated by the behavioral health institute at Harborview medical center through its contract with the office of financial management under section 103 of this act with assistance provided by staff from senate committee services, the office of program research, and the office of financial management.

The committee shall provide a report by November 1, 2027, which includes recommendations as to the adequacy of the funding provided to accomplish the intent of the act and any other recommendations for alteration or improvement.

NEW SECTION. Sec. 106. A new section is added to chapter 48.43 RCW to read as follows:

The appointment may be with a licensed provider other than a licensed behavioral health professional, as long as that provider is acting within their scope of practice, and may be provided through telemedicine consistent with RCW 48.43.735. MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5478 with the following amendment(s): 5478-S.E AMH ENGR H1555.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that certain businesses in Washington have experienced significant

and unanticipated impacts during the COVID-19 pandemic. The legislature intends to preemptively minimize the disproportionate impact COVID-19 economic closures have had on these businesses.

(2) Small businesses in particular have fewer reserves and fewer resources to rely upon in periods of downturn. Those businesses owned by historically disadvantaged groups, such as women, minority populations, and immigrants, often experience disproportionately more distress and burden due to the economic impacts of the COVID-19 pandemic compared to their counterparts across the remaining business community. These businesses are absolutely critical to the success of Washington's continued high ratings, number one gross domestic product, and are part of the backbone of Washington's diverse and resilient economy.

(3) The legislature finds that ESSB 5061, passed by the legislature and signed by the governor earlier in the 2021 session, mitigated immediate impacts to employers through caps on the social tax, suspension of the solvency surcharge, and relief of certain benefit charges.

(4) The legislature now intends to address the disproportionate impacts on small and other significantly impacted businesses beyond the limited time period addressed in ESSB 5061. The legislature intends to provide this targeted relief through the one-time application of funds, in order to provide critical support for many of the businesses that are essential to Washington's recovery and ongoing economic vitality, while maintaining a healthy unemployment insurance trust fund for Washington's workers.

NEW SECTION. **Sec. 2.** A new section is added to chapter 50.16 RCW to read as follows:

(1) The unemployment insurance relief account is created in the custody of the state treasurer. Revenues to the account consist of appropriations and transfers by the legislature and all other funding directed for deposit into the account. Only the commissioner of the employment security department or the commissioner's designee may authorize expenditures from the account. Expenditures from the account may be used only for reimbursing the unemployment compensation fund created in RCW 50.16.010 for forgiven benefits for COVID-19 impacted businesses pursuant to sections 3, 4, 5, 6, 7, 8, and 9 of this act. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) By July 1, 2022, the commissioner must certify to the state treasurer the amount of any unobligated moneys in the unemployment insurance relief account that were appropriated by the legislature from the general fund during the 2021-2023 fiscal biennium, and the treasurer must transfer those moneys back to the general fund.

NEW SECTION. **Sec. 3.** A new section is added to chapter 50.29 RCW to read as follows:

(1) By December 20, 2021, the department must determine the forgiven benefits for approved category 1 employers to be reimbursed by the unemployment insurance relief account instead of charged to the employer's experience rating account. Total forgiven benefits for all approved category 1 employers may not exceed the available benefits for category 1.

(2) The department will not charge the forgiven benefits to the employer's experience rating account. The commissioner must instead transfer from the unemployment insurance relief account to the unemployment compensation fund created in RCW 50.16.010 an amount equal to the forgiven benefits.

(3) For the purposes of this section, the following definitions apply:

(a) "Approved benefits" means benefits paid to employees of an approved category 1 employer during the fiscal year ending June 30, 2021, not to exceed an amount that would reduce the employer's rate class increase to no more than a two rate class increase. Approved benefits must not include benefits that were not charged to the employer's experience rating account or benefits otherwise relieved under RCW 50.29.021.

(b) "Approved category 1 employer" means a contribution paying employer:

(i) With 20 or fewer employees in the state as reported on the employer's fourth quarter report to the department for 2020;

(ii) Whose experience rating under RCW 50.29.025(1)(a)(ii) has increased by three or more rate classes from rate year 2021 to rate year 2022; and

(iii) Whose North American industry classification system code for rate year 2021 is within "323," "331," "448," "451," "453," "481," "485," "487," "512," "711," "712," "713," "721," "722," "812," and "814."

(c) "Available benefits for category 1" means \$100,000,000 of the total amount of money in the unemployment insurance relief account.

(d) "Forgiven benefits" means the approved benefits for an individual employer multiplied by the forgiveness ratio.

(e) "Forgiveness ratio" is computed by dividing the available benefits for category 1 by the total approved benefits. The forgiveness ratio cannot be more than one.

(f) "Total approved benefits" means the sum total of all approved benefits.

(4) The department must adopt such rules as are necessary to carry out the purposes of this section.

MESSAGE FROM THE HOUSE

April 23, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5126 with the following amendment(s): 5126-S2.E AMH ENGR H1619.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS AND INTENT. (1) The legislature finds that climate change is one of the greatest challenges facing our state and the world today, an existential crisis with major negative impacts on environmental and human health. Washington is experiencing environmental and

community impacts due to climate change through increasingly devastating wildfires, flooding, droughts, rising temperatures and sea levels, and ocean acidification. Greenhouse gas emissions already in the atmosphere will increase impacts for some period of time. Actions to increase resilience of our communities, natural resource lands, and ecosystems can prevent and reduce impacts to communities and our environment and improve their ability to recover.

(2) In 2020, the legislature updated the state's greenhouse gas emissions limits that are to be achieved by 2030, 2040, and 2050, based on current science and emissions trends, to support local and global efforts to avoid the most significant impacts from climate change. Meeting these limits will require coordinated, comprehensive, and multisectoral implementation of policies, programs, and laws, as other enacted policies are insufficient to meet the limits.

(3) The legislature further finds that while climate change is a global problem, there are communities that have historically borne the disproportionate impacts of environmental burdens and that now bear the disproportionate negative impacts of climate change. Although the state has done significant work in the past to highlight these environmental health disparities, beginning with senator Rosa Franklin's environmental equity study, and continuing through the work of the governor's interagency council on health disparities, the creation of the Washington environmental health disparities map, and recommendations of the environmental justice task force, the state can do much more to ensure that state programs address environmental equity.

(4) The legislature further finds that while enacted carbon policies can be well-intended to reduce greenhouse gas emissions and provide environmental benefits to communities, the policies may not do enough to ensure environmental health disparities are reduced and environmental benefits are provided to those communities most impacted by environmental harms from greenhouse gas and air pollutant emissions.

(5) The legislature further finds that wildfires have become one of the largest sources of black carbon in the last five years. From 2014 through 2018, wildfires in Washington state generated 39,200,000 metric tons of carbon, the equivalent of more than 8,500,000 cars on the road a year. In 2015, when 1,130,000 acres burned in Washington, wildfires were the second largest source of greenhouse gas emissions releasing 17,975,112 metric tons of carbon dioxide into the atmosphere. Wildfire pollution affects all Washingtonians, but has disproportionate health effects on low-income communities, communities of color, and the most vulnerable of our population. Restoring the health of our forests and investing in wildfire prevention and preparedness will therefore contribute to improved air quality and improved public health outcomes.

(6) The legislature further finds that by exercising a leadership role in addressing climate change, Washington will position its economy, technology centers, financial institutions, and manufacturers to benefit from national and international efforts that must occur to reduce greenhouse gases. The legislature intends to create climate policy that recognizes the special nature of emissions-intensive, trade-exposed industries by minimizing leakage and increased life-cycle emissions associated with product imports. The legislature further finds that climate policies must be appropriately designed, in order to avoid leakage that results in net increases in global greenhouse gas emissions and increased negative impacts to those communities most impacted by environmental harms from climate change. The legislature further intends to encourage these industries to continue to innovate, find new ways to be more energy efficient, use lower

carbon products, and be positioned to be global leaders in a low carbon economy.

(7) Under the program, the legislature intends to identify overburdened communities where the highest concentrations of criteria pollutants occur, determine the sources of those emissions and pollutants, and pursue significant reductions of emissions and pollutants in those communities. The legislature further intends for the department of ecology to conduct environmental justice assessments to ensure that funds and programs created under this chapter provide direct and meaningful benefits to vulnerable populations and overburdened communities. Additionally, the legislature intends to prevent job loss and provide protective measures if workers are adversely impacted by the transition to a clean energy economy through transition and assistance programs, worker-support projects, and workforce development and other activities designed to grow and expand the clean manufacturing sector in communities across Washington state. The legislature further intends to empower the environmental justice council established under RCW 70A.---.--- (section 20, chapter . . ., Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141)) to provide recommendations for the development and implementation of the program, the distribution of funds, and the establishment of programs, activities, and projects to achieve environmental justice and environmental health goals. The legislature further intends for the department of ecology to create and adopt community engagement plans and tribal consultation frameworks in the administration of the program to ensure equitable practices for meaningful community and federally recognized tribal involvement. Finally, the legislature intends to establish this program to contribute to a healthy environment for all of Washington's communities.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Allowance" means an authorization to emit up to one metric ton of carbon dioxide equivalent.

(2) "Allowance price containment reserve" means an account maintained by the department with allowances available for sale through separate reserve auctions at predefined prices to assist in containing compliance costs for covered and opt-in entities in the event of unanticipated high costs for compliance instruments.

(3) "Annual allowance budget" means the total number of greenhouse gas allowances allocated for auction and distribution for one calendar year by the department.

(4) "Asset controlling supplier" means any entity that owns or operates interconnected electricity generating facilities or serves as an exclusive marketer for these facilities even though it does not own them, and has been designated by the department and received a department-published emissions factor for the wholesale electricity procured from its system. The department shall use a methodology consistent with the methodology used by an external greenhouse gas emissions trading program that shares the regional electricity transmission system. Electricity from an asset controlling supplier is considered a specified source of electricity.

(5) "Auction" means the process of selling greenhouse gas allowances by offering them up for bid, taking bids, and then distributing the allowances to winning bidders.

(6) "Auction floor price" means a price for allowances below which bids at auction are not eligible to be accepted.

(7) "Auction purchase limit" means the limit on the number of allowances one registered entity or a group of affiliated registered entities may purchase from the share of allowances sold at an auction.

(8) "Balancing authority" means the responsible entity that integrates resource plans ahead of time, maintains load-interchange-generation balance within a balancing authority area, and supports interconnection frequency in real time.

(9) "Balancing authority area" means the collection of generation, transmission, and load within the metered boundaries of a balancing authority. A balancing authority maintains load-resource balance within this area.

(10) "Best available technology" means a technology or technologies that will achieve the greatest reduction in greenhouse gas emissions, taking into account the fuels, processes, and equipment used by facilities to produce goods of comparable type, quantity, and quality. Best available technology must be technically feasible, commercially available, economically viable, not create excessive environmental impacts, and be compliant with all applicable laws while not changing the characteristics of the good being manufactured.

(11) "Biomass" means nonfossilized and biodegradable organic material originating from plants, animals, and microorganisms, including products, by-products, residues, and waste from agriculture, forestry, and related industries as well as the nonfossilized and biodegradable organic fractions of industrial waste, including gases and liquids recovered from the decomposition of nonfossilized and biodegradable organic material.

(12) "Biomass-derived fuels," "biomass fuels," or "biofuels" means fuels derived from biomass that have at least 40 percent lower greenhouse gas emissions based on a full life-cycle analysis when compared to petroleum fuels for which biofuels are capable as serving as a substitute.

(13) "Carbon dioxide equivalents" means a measure used to compare the emissions from various greenhouse gases based on their global warming potential.

(14) "Carbon dioxide removal" means deliberate human activities removing carbon dioxide from the atmosphere and durably storing it in geological, terrestrial, or ocean reservoirs, or in products. "Carbon dioxide removal" includes existing and potential anthropogenic enhancement of biological or geochemical sinks and including, but not limited to, carbon mineralization and direct air capture and storage.

(15) "Climate commitment" means the process and mechanisms to ensure a coordinated and strategic approach to advancing climate resilience and environmental justice and achieving an equitable and inclusive transition to a carbon neutral economy.

(16) "Climate resilience" is the ongoing process of anticipating, preparing for, and adapting to changes in climate and minimizing negative impacts to our natural systems, infrastructure, and communities. For natural systems, increasing climate resilience involves restoring and increasing the health, function, and integrity of our ecosystems and improving their ability to absorb and recover from climate-affected disturbances. For communities, increasing climate resilience means enhancing their ability to understand, prevent, adapt, and recover from climate impacts to people and infrastructure.

(17) "Closed facility" means a facility at which the current owner or operator has elected to permanently stop production and will no longer be an emissions source.

(18) "Compliance instrument" means an allowance or offset credit issued by the department or by an external greenhouse gas emissions trading program to which Washington has linked its greenhouse gas emissions cap and invest program. One compliance instrument is equal to one metric ton of carbon dioxide equivalent.

(19) "Compliance obligation" means the requirement to submit to the department the number of compliance instruments

equivalent to a covered or opt-in entity's covered emissions during the compliance period.

(20) "Compliance period" means the four-year period for which the compliance obligation is calculated for covered entities.

(21) "Cost burden" means the impact on rates or charges to customers of electric utilities in Washington state for the incremental cost of electricity service to serve load due to the compliance cost for greenhouse gas emissions caused by the program. Cost burden includes administrative costs from the utility's participation in the program.

(22) "Covered emissions" means the emissions for which a covered entity has a compliance obligation under section 10 of this act.

(23) "Covered entity" means a person that is designated by the department as subject to sections 8 through 24 of this act.

(ii) Prior to listing any entity as a high priority emitter, the department must notify that entity and share the data used to rank that entity as a high priority emitter, and provide a period of not less than 60 days for the covered entity to submit more recent data or other information relevant to the designation of that entity as a high priority emitter.

(2)(a) Beginning in 2023, and every two years thereafter, the department must conduct a review to determine levels of criteria pollutants, as well as greenhouse gas emissions, in the overburdened communities identified under subsection (1) of this section. This review must also include an evaluation of initial and subsequent health impacts related to criteria pollution in overburdened communities. The department may conduct this evaluation jointly with the department of health.

(b) Once this review determines the levels of criteria pollutants in an identified overburdened community, then the department, in consultation with local air pollution control authorities, must:

(i) Establish air quality targets to achieve air quality consistent with whichever is more protective for human health:

(A) National ambient air quality standards established by the United States environmental protection agency; or

(B) The air quality experienced in neighboring communities that are not identified as overburdened;

(ii) Identify the stationary and mobile sources that are the greatest contributors of those emissions that are either increasing or not decreasing;

(iii) Achieve the reduction targets through adoption of emission control strategies or other methods;

(iv) Adopt, along with local air pollution control authorities, stricter air quality standards, emission standards, or emissions limitations on criteria pollutants, consistent with the authority of the department provided under RCW 70A.15.3000, and may consider alternative mitigation actions that would reduce criteria pollution by similar amounts; and

(v) After adoption of the stricter air quality standards, emission standards, or emissions limitations on criteria pollutants under (b)(iv) of this subsection, issue an enforceable order or the local air authority must issue an enforceable order, as authorized under section 35 of this act, as necessary to comply with the stricter

2021 REGULAR SESSION

standards or limitations and the requirements of this section. The department or local air authority must initiate the process, including provision of notice to all relevant affected permittees or registered sources and to the public, to adopt and implement an enforceable order required under this subsection within six months of the adoption of standards or limitations under (b)(iv) of this subsection.

(c) Actions imposed under this section may not impose requirements on a permitted stationary source that are disproportionate to the permitted stationary source's contribution to air pollution compared to other permitted stationary sources and other sources of criteria pollutants in the overburdened community.

(3) An eligible facility sited after the effective date of this section that receives allowances under section 13 of this act must mitigate increases in its emissions of particulate matter in overburdened communities.

be made to balance investments and benefits across the state and within counties, local jurisdictions, and unincorporated areas as appropriate to reduce disparities by location and to ensure efforts contribute to a reduction in disparities that exist based on race or ethnicity, socioeconomic status, or other factors.

(3) State agencies allocating funds or administering grants or programs from the carbon emissions reduction account created in section 27 of this act, the climate investment account created in section 28 of this act, or the air quality and health disparities improvement account created in section 31 of this act, must:

(a) Report annually to the environmental justice council created in RCW 70A.--- (section 20, chapter . . . , Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141)) regarding progress toward meeting environmental justice and environmental health goals;

(b) Consider recommendations by the environmental justice council; and

(c)(i) If the agency is not a covered agency subject to the requirements of chapter . . . , Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141), create and adopt a community engagement plan to describe how it will engage with overburdened communities and vulnerable populations in allocating funds or administering grants or programs from the climate investment account.

(ii) The plan must include methods for outreach and communication with those who face barriers, language or otherwise, to participation.

NEW SECTION. Sec. 5. ENVIRONMENTAL JUSTICE COUNCIL. (1) The environmental justice council created in RCW 70A.--- (section 20, chapter . . . , Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141)) must provide recommendations to the legislature, agencies, and the governor in the development and implementation of the program established in sections 8 through 24 of this act, and the programs funded from the carbon emissions reduction account created in section 27 of this act and from the climate investment account created in section 28 of this act.

(2) In addition to the duties and authorities granted in chapter 70A.--- RCW (the new chapter created in section 22, chapter . . . , Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141)) to the environmental justice council, the environmental justice council must:

(a) Provide recommendations to the legislature, agencies, and the governor in the development of:

(i) The program established in sections 8 through 24 of this act including, but not limited to, linkage with other jurisdictions, protocols for establishing offset projects and securing offset credits, designation of emissions-intensive and trade-exposed industries under section 13 of this act, and administration of allowances under the program; and

NEW SECTION. Sec. 6. TRIBAL CONSULTATION.

(1) Agencies that allocate funding or administer grant programs appropriated from the climate investment account created in section 28 of this act must develop a consultation framework in coordination with tribal governments that includes best practices, protocols for communication, and collaboration with federally recognized tribes. Under this consultation framework, before allocating funding or administering grant programs appropriated from the climate investment account, agencies must offer consultation with federally recognized tribes on all funding decisions and programs that may impact, infringe upon, or impair the governmental efforts of federally recognized tribes to adopt or enforce their own standards governing or protecting the tribe's resources or other rights and interests in their tribal lands and lands within which a tribe or tribes possess rights reserved by treaty. The consultation is independent of any public participation process required by state law, or by a state agency, and regardless of whether the agency receives a request for consultation from a federally recognized tribe.

(2)(a) If any funding decision, program, project, or activity that impacts lands within which a tribe or tribes possess rights reserved by federal treaty, statute, or executive order is undertaken or funded under this chapter without such consultation with a federally recognized tribe, an affected tribe may request that all further action on the decision, program, project, or activity cease until meaningful consultation with any directly impacted federally recognized tribe is completed.

(b) A project or activity funded in whole or in part from the account created in section 28 of this act must be paused or ceased in the event that an affected federally recognized Indian tribe or the department of archaeology and historic preservation provides timely notice of a determination to the department and any other agency responsible for the project or activity that the project will adversely impact cultural resources, archaeological sites, or sacred sites. A project or activity paused at the direction of the department under this subsection may not be resumed or completed unless the potentially impacted tribe provides consent to the department and the proponent of the project or activity.

NEW SECTION. Sec. 7. GOVERNANCE STRUCTURE.

(1) The governor shall establish a governance structure to implement the state's climate commitment under the authority provided under this chapter and other statutory authority to provide accountability for achieving the state's greenhouse gas limits in RCW 70A.45.020, to establish a coordinated and strategic statewide approach to climate resilience, to build an equitable and inclusive clean energy economy, and to ensure that the government provides clear policy and requirements, financial tools, and other mechanisms to support achieving those limits.

(2) The governance structure for implementing the state's climate commitment must:

(a) Be holistic and address the needs, challenges, and opportunities to meet the climate commitment;

(b) Address emission reductions from all relevant sectors and sources by ensuring that emitters are responsible for meeting targeted greenhouse gas reductions and that the government provides clear policy and requirements, financial tools, and other mechanisms to support achieving those reductions;

(c) Support an equitable transition for vulnerable populations and overburdened communities, including through early and meaningful engagement of overburdened communities and workers to ensure the program achieves equitable and just outcomes;

(d) Build increasing climate resilience for at-risk communities and ecosystems through cross-sectoral coordination, strategic planning, and cohesive policies; and

(e) Apply the most current, accurate, and complete scientific and technical information available to guide the state's climate actions and strategies.

(3) The governance structure for implementing the state's climate commitment must include, but not be limited to, the following elements:

(a) A strategic plan for aligning existing law, rules, policies, programs, and plans with the state's greenhouse gas limits, to the full extent allowed under existing authority;

(b) Common state policies, standards, and procedures for addressing greenhouse gas emissions and climate resilience, including grant and funding programs, infrastructure investments, and planning and siting decisions;

(f) An analysis of gaps and conflicts in state law and programs, with recommendations for improvements to state law.

(4) The governor's office shall develop policy and budget recommendations to the legislature necessary to implement the state's climate commitment by December 31, 2021, in accordance with the purpose, principles, and elements in subsections (1) through (3) of this section.

(5) Nothing in this section establishes or creates legal authority for the department or any other state agency to enact, adopt, issue an order, or in any way implement additional regulatory programs beyond what is provided for under this chapter and other statutes.

NEW SECTION. Sec. 8. CAP ON GREENHOUSE GAS EMISSIONS. (1) In order to ensure that greenhouse gas emissions are reduced by covered entities consistent with the limits established in RCW 70A.45.020, the department must implement a cap on greenhouse gas emissions from covered entities and a program to track, verify, and enforce compliance through the use of compliance instruments.

(2) The program must consist of:

(a) Annual allowance budgets that limit emissions from covered entities, as provided in this section and sections 9 and 10 of this act;

(b) Defining those entities covered by the program, and those entities that may voluntarily opt into coverage under the program, as provided in this section and sections 9 and 10 of this act;

(c) Distribution of emission allowances, as provided in section 12 of this act, and through the allowance price containment provisions under sections 16 and 17 of this act;

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(d) Providing for offset credits as a method for meeting a compliance obligation, pursuant to section 19 of this act;

(e) Defining the compliance obligations of covered entities, as provided in section 22 of this act;

(f) Establishing the authority of the department to enforce the program requirements, as provided in section 23 of this act;

(g) Creating a climate investment account for the deposit of receipts from the distribution of emission allowances, as provided in section 28 of this act;

(h) Providing for the transfer of allowances and recognition of compliance instruments, including those issued by jurisdictions with which Washington has linkage agreements;

(i) Providing monitoring and oversight of the sale and transfer of allowances by the department;

(j) Creating a price ceiling and associated mechanisms as provided in section 18 of this act; and

(k) Providing for the allocation of allowances to emissions-intensive, trade-exposed industries pursuant to section 13 of this act.

(3) The department shall consider opportunities to implement the program in a manner that allows linking the state's program with those of other jurisdictions. The department must evaluate whether such linkage will provide for a more cost-effective means for covered entities to meet their compliance obligations in Washington while recognizing the special characteristics of the state's economy, communities, and industries. The department is authorized to enter into a linkage agreement with another jurisdiction after conducting an environmental justice assessment and after formal notice and opportunity for a public hearing, and when consistent with the requirements of section 24 of this act.

(4) During the 2022 regular legislative session, the department must bring forth agency request legislation developed in consultation with emissions-intensive, trade-exposed businesses, covered entities, environmental advocates, and overburdened communities that outlines a compliance pathway specific to emissions-intensive, trade-exposed businesses for achieving their proportionate share of the state's emissions reduction limits through 2050.

(5) By December 1, 2027, and at least every four years thereafter and in compliance with RCW 43.01.036, the department must submit a report to the legislature that includes a comprehensive review of the implementation of the program to date, including but not limited to outcomes relative to the state's emissions reduction limits, overburdened communities, covered entities, and emissions-intensive, trade-exposed businesses. The department must transmit the report to the environmental justice council at the same time it is submitted to the legislature.

(6) The department must bring forth agency request legislation if the department finds that any provision of this chapter prevents linking Washington's cap and invest program with that of any other jurisdiction.

NEW SECTION. Sec. 9. ANNUAL ALLOWANCE BUDGET AND TIMELINES. (1)(a) The department shall commence the program by January 1, 2023, by determining an emissions baseline establishing the proportionate share that the total greenhouse gas emissions of covered entities for the first compliance period bears to the total anthropogenic greenhouse gas emissions in the state during 2015 through 2019, based on data reported to the department under RCW 70A.15.2200 or provided as required by this chapter, as well as other relevant data. By October 1, 2022, the department shall adopt annual allowance budgets for the first compliance period of the program, calendar years 2023 through 2026, to be distributed from January 1, 2023, through December 31, 2026. If the first compliance period is delayed pursuant to section 22(7) of this act, the department shall

adjust the annual allowance budgets to reflect a shorter first compliance period.

(b) By October 1, 2026, the department shall add to its emissions baseline by incorporating the proportionate share that the total greenhouse gas emissions of new covered entities in the second compliance period bear to the total anthropogenic greenhouse gas emissions in the state during 2023 through 2025. In determining the addition to the baseline, the department may exclude a year from the determination if the department identifies that year to have been an outlier due to a state of emergency. The department shall adopt annual allowance budgets for the second compliance period of the program, calendar years 2027 through 2030, that will be distributed from January 1, 2027, through December 31, 2030.

(c) By October 1, 2028, the department shall adopt by rule the annual allowance budgets for calendar years 2031 through 2040.

(2) The annual allowance budgets must be set to achieve the share of reductions by covered entities necessary to achieve the 2030, 2040, and 2050 statewide emissions limits established in RCW 70A.45.020, based on data reported to the department under chapter 70A.15 RCW or provided as required by this chapter. Annual allowance budgets must be set such that the use of offsets as compliance instruments, consistent with section 19 of this act, does not prevent the achievement of the emissions limits established in RCW 70A.45.020. In so setting annual allowance budgets, the department must reduce the annual allowance budget relative to the limits in an amount equivalent to offset use, or in accordance with a similar methodology adopted by the department. The department must adopt annual allowance budgets for the program on a calendar year basis that provide for progressively equivalent reductions year over year. An allowance distributed under the program, either directly by the department under sections 13 through 15 of this act or through auctions under section 12 of this act, does not expire and may be held or banked consistent with sections 12(6) and 17(1) of this act.

(3) The department must complete an evaluation by December 31, 2027, and by December 31, 2035, of the performance of the program, including its performance in reducing greenhouse gases. If the evaluation shows that adjustments to the annual allowance budgets are necessary for covered entities to achieve their proportionate share of the 2030 and 2040 emission reduction limits identified in RCW 70A.45.020, as applicable, the department shall adjust the annual allowance budgets accordingly. The department must complete additional evaluations of the performance of the program by December 31, 2040, and by December 31, 2045, and make any necessary adjustments in the annual allowance budgets to ensure that covered entities achieve their proportionate share of the 2050 emission reduction limit identified in RCW 70A.45.020. Nothing in this subsection precludes the department from making additional adjustments to annual allowance budgets as necessary to ensure successful achievement of the proportionate emission reduction limits by covered entities. The department shall determine and make public the circumstances, metrics, and processes that would initiate the public consideration of additional allowance budget adjustments to ensure successful achievement of the proportionate emission reduction limits.

(4) Data reported to the department under RCW 70A.15.2200 or provided as required by this chapter for 2015 through 2019 is deemed sufficient for the purpose of adopting annual allowance budgets and serving as the baseline by which covered entities demonstrate compliance under the first compliance period of the program. Data reported to the department under RCW 70A.15.2200 or provided as required by this chapter for 2023 through 2025 is deemed sufficient for adopting annual allowance

budgets and serving as the baseline by which covered entities demonstrate compliance under the second compliance period of the program.

(5) The legislature intends to promote a growing and sustainable economy and to avoid leakage of emissions from manufacturing to other jurisdictions. Therefore, the legislature finds that implementation of this section is contingent upon the enactment of section 13 of this act.

NEW SECTION. Sec. 10. PROGRAM COVERAGE. (1) A person is a covered entity as of the beginning of the first compliance period and all subsequent compliance periods if the person reported emissions under RCW 70A.15.2200 for any calendar year from 2015 through 2019, or if additional data provided as required by this chapter indicates that emissions for any calendar year from 2015 through 2019 equaled or exceeded any of the following thresholds, or if the person is a first jurisdictional deliverer and imports electricity into the state during the compliance period:

(a) Where the person owns or operates a facility and the facility's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent;

(b) Where the person is a first jurisdictional deliverer and generates electricity in the state and emissions associated with this generation equals or exceeds 25,000 metric tons of carbon dioxide equivalent;

(c) Where the person is a first jurisdictional deliverer importing electricity into the state and the cumulative annual total of emissions associated with the imported electricity, whether from specified or unspecified sources, exceeds 25,000 metric tons of carbon dioxide equivalent. In consultation with any linked jurisdiction to the program created by this chapter, by October 1, 2026, the department, in consultation with the department of commerce and the utilities and transportation commission, shall adopt by rule a methodology for addressing imported electricity associated with a centralized electricity market;

(d) Where the person is a supplier of fossil fuel other than natural gas and from that fuel 25,000 metric tons or more of carbon dioxide equivalent emissions would result from the full combustion or oxidation, excluding the amounts for fuel products that are produced or imported with a documented final point of delivery outside of Washington and combusted outside of Washington; and

(e)(i) Where the person supplies natural gas in amounts that would result in exceeding 25,000 metric tons of carbon dioxide equivalent emissions if fully combusted or oxidized, excluding the amounts for fuel products that are produced or imported with a documented final point of delivery outside of Washington and combusted outside of Washington, and excluding the amounts: (A) Supplied to covered entities under (a) through (d) of this subsection; and (B) delivered to opt-in entities;

(ii) Where the person who is not a natural gas company and has a tariff with a natural gas company to deliver to an end-use customer in the state in amounts that would result in exceeding 25,000 metric tons of carbon dioxide equivalent emissions if fully combusted or oxidized, excluding the amounts: (A) Supplied to covered entities under (a) through (d) of this subsection; and (B) the amounts delivered to opt-in entities;

(iii) Where the person is an end-use customer in the state who directly purchases natural gas from a person that is not a natural gas company and has the natural gas delivered through an interstate pipeline to a distribution system owned by the purchaser in amounts that would result in exceeding 25,000 metric tons of carbon dioxide equivalent emissions if fully combusted or oxidized, excluding the amounts: (A) Supplied to covered entities under (a) through (d) of this subsection; and (B) delivered to opt-in entities.

(2) A person is a covered entity as of the beginning of the second compliance period and all subsequent compliance periods if the person reported emissions under RCW 70A.15.2200 or provided emissions data as required by this chapter for any calendar year from 2023 through 2025, where the person owns or operates a waste to energy facility utilized by a county and city solid waste management program and the facility's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent.

(3)(a) A person is a covered entity beginning January 1, 2031, and all subsequent compliance periods if the person reported emissions under RCW 70A.15.2200 or provided emissions data as required by this chapter for any calendar year from 2027 through 2029, where the person owns or operates a:

(i) Landfill utilized by a county and city solid waste management program and the facility's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent; or

(ii) Railroad company, as that term is defined in RCW 81.04.010, and the railroad company's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent.

(b) Subsection (a) of this subsection does not apply to owners or operators of landfills that:

(i) Capture at least 75 percent of the landfill gas generated by the decomposition of waste using methods under 40 C.F.R. Part 98, Subpart HH - Municipal Solid Waste landfills, and subsequent updates; and

(ii) Operate a program, individually or through partnership with another entity, that results in the production of renewable natural gas or electricity from landfill gas generated by the facility.

(c) It is the intent of the legislature to adopt a greenhouse gas reduction policy specific to landfills. If such a policy is not enacted by January 1, 2030, the requirements of this subsection (3) take full effect.

(4) When a covered entity reports, during a compliance period, emissions from a facility under RCW 70A.15.2200 that are below the thresholds specified in subsection (1) or (2) of this section, the covered entity continues to have a compliance obligation through the current compliance period. When a covered entity reports emissions below the threshold for each year during an entire compliance period, or has ceased all processes at the facility requiring reporting under RCW 70A.15.2200, the entity is no longer a covered entity as of the beginning of the subsequent compliance period unless the department provides notice at least 12 months before the end of the compliance period that the facility's emissions were within 10 percent of the threshold and that the person will continue to be designated as a covered entity in order to ensure equity among all covered entities. Whenever a covered entity ceases to be a covered entity, the department shall notify the appropriate policy and fiscal committees of the legislature of the name of the entity and the reason the entity is no longer a covered entity.

(5) For types of emission sources described in subsection (1) of this section that begin or modify operation after January 1, 2023, and types of emission sources described in subsection (2) of this section that begin or modify operation after 2027, coverage under the program starts in the calendar year in which emissions from the source exceed the applicable thresholds in subsection (1) or (2) of this section, or upon formal notice from the department that the source is expected to exceed the applicable emissions threshold, whichever happens first. Sources meeting these conditions are required to transfer their first allowances on the first transfer deadline of the year following the year in which their emissions were equal to or exceeded the emissions threshold.

(6) For emission sources described in subsection (1) of this section that are in operation or otherwise active between 2015 and 2019 but were not required to report emissions for those years

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

under RCW 70A.15.2200 for the reporting periods between 2015 and 2019, coverage under the program starts in the calendar year following the year in which emissions from the source exceed the applicable thresholds in subsection (1) of this section as reported pursuant to RCW 70A.15.2200 or provided as required by this chapter, or upon formal notice from the department that the source is expected to exceed the applicable emissions threshold for the first year that source is required to report emissions, whichever happens first. Sources meeting these criteria are required to transfer their first allowances on the first transfer deadline of the year following the year in which their emissions, as reported under RCW 70A.15.2200 or provided as required by this chapter, were equal to or exceeded the emissions threshold.

(7) The following emissions are exempt from coverage in the program, regardless of the emissions reported under RCW 70A.15.2200 or provided as required by this chapter:

(a) Emissions from the combustion of aviation fuels;

(b) Emissions from watercraft fuels supplied in Washington that are combusted outside of Washington;

(c) Emissions from a coal-fired electric generation facility exempted from additional greenhouse gas limitations, requirements, or performance standards under RCW 80.80.110;

(d) Carbon dioxide emissions from the combustion of biomass or biofuels;

(e)(i) Motor vehicle fuel or special fuel that is used exclusively for agricultural purposes by a farm fuel user. This exemption is available only if a buyer of motor vehicle fuel or special fuel provides the seller with an exemption certificate in a form and manner prescribed by the department. For the purposes of this subsection, "agricultural purposes" and "farm fuel user" have the same meanings as provided in RCW 82.08.865.

(ii) The department must determine a method for expanding the exemption provided under (e)(i) of this subsection to include fuels used for the purpose of transporting agricultural products on public highways. The department must maintain this expanded exemption for a period of five years, in order to provide the agricultural sector with a feasible transition period; and

(f) Emissions from facilities with North American industry classification system code 92811 (national security).

(8) The department shall not require multiple covered entities to have a compliance obligation for the same emissions. The department may by rule authorize refineries, fuel suppliers, facilities using natural gas, and natural gas utilities to provide by agreement for the assumption of the compliance obligation for fuel or natural gas supplied and combusted in the state. The department must be notified of such an agreement at least 12 months prior to the compliance obligation period for which the agreement is applicable.

(9)(a) The legislature intends to promote a growing and sustainable economy and to avoid leakage of emissions from manufacturing to other locations. The legislature further intends to see innovative new businesses locate and grow in Washington that contribute to Washington's prosperity and environmental objectives.

(b) Consistent with the intent of the legislature to avoid the leakage of emissions to other jurisdictions, in achieving the state's greenhouse gas limits in RCW 70A.45.020, the state, including lead agencies under chapter 43.21C RCW, shall pursue the limits in a manner that recognizes that the siting and placement of new or expanded best-in-class facilities with lower carbon emitting processes is in the economic and environmental interests of the state of Washington.

(c) In conducting a life-cycle analysis, if required, for new or expanded facilities that require review under chapter 43.21C RCW, a lead agency must evaluate and attribute any potential net

cumulative greenhouse gas emissions resulting from the project as compared to other existing facilities or best available technology including best-in-class facilities and emerging lower carbon processes that supply the same product or end use. The department may adopt rules to determine the appropriate threshold for applying this analysis.

(d) Covered emissions from an entity that is or will be a covered entity under this chapter may not be the basis for denial of a permit for a new or expanded facility. Covered emissions must be included in the analysis undertaken pursuant to (c) of this subsection. Nothing in this subsection requires a lead agency or a permitting agency to approve or issue a permit to a permit applicant, including to a new or expanded fossil fuel project.

(e) A lead agency under chapter 43.21C RCW or a permitting agency shall allow a new or expanded facility that is a covered entity or opt-in entity to satisfy a mitigation requirement for its covered emissions under this act and under any greenhouse gas emission mitigation requirements for covered emissions under chapter 43.21C RCW by submitting to the department the number of compliance instruments equivalent to its covered emissions during a compliance period.

NEW SECTION. Sec. 11. REQUIREMENTS. (1) All covered entities must register to participate in the program, following procedures adopted by the department by rule.

(2) Entities registering to participate in the program must describe any direct or indirect affiliation with other registered entities.

(3) A person responsible for greenhouse gas emissions that is not a covered entity may voluntarily participate in the program by registering as an opt-in entity. An opt-in entity must satisfy the same registration requirements as covered entities. Once registered, an opt-in entity is allowed to participate as a covered entity in auctions and must assume the same compliance obligation to transfer compliance instruments equal to their emissions at the appointed transfer dates. An opt-in entity may opt out of the program at the end of any compliance period by providing written notice to the department at least six months prior to the end of the compliance period. The opt-in entity continues to have a compliance obligation through the current compliance period. An opt-in entity is not eligible to receive allowances directly distributed under section 13, 14, or 15 of this act.

(4) A person that is not covered by the program and is not a covered entity or opt-in entity may voluntarily participate in the program as a general market participant. General market participants must meet all applicable registration requirements specified by rule.

(5) Federally recognized tribes and federal agencies may elect to participate in the program as opt-in entities or general market participants.

(6) The department shall use a secure, online electronic tracking system to: Register entities in the state program; issue compliance instruments; track ownership of compliance instruments; enable and record compliance instrument transfers; facilitate program compliance; and support market oversight.

(7) The department must use an electronic tracking system that allows two accounts to each covered or opt-in entity:

(a) A compliance account where the compliance instruments are transferred to the department for retirement. Compliance instruments in compliance accounts may not be sold, traded, or otherwise provided to another account or person.

(b) A holding account that is used when a registered entity is interested in trading allowances. Allowances in holding accounts may be bought, sold, transferred to another registered entity, or traded. The amount of allowances a registered entity may have in

its holding account is constrained by the holding limit as determined by the department by rule. Information about the contents of each holding account, including but not limited to the number of allowances in the account, must be displayed on a regularly maintained and searchable public website established and updated by the department.

(8) Registered general market participants are each allowed an account, to hold, trade, sell, or transfer allowances.

(9) The department shall maintain an account for the purpose of retiring allowances transferred by registered entities and from the voluntary renewable reserve account.

(10) The department shall maintain a public roster of all covered entities, opt-in entities, and general market participants on the department's public website.

(11) The department shall include a voluntary renewable reserve account.

NEW SECTION. Sec. 12. AUCTIONS OF ALLOWANCES. (1) Except as provided in sections 13, 14, and 15 of this act, the department shall distribute allowances through auctions as provided in this section and in rules adopted by the department to implement these sections. An allowance is not a property right.

(2)(a) The department shall hold a maximum of four auctions annually, plus any necessary reserve auctions. An auction may include allowances from the annual allowance budget of the current year and allowances from the annual allowance budgets from prior years that remain to be distributed. The department must transmit to the environmental justice council an auction notice at least 60 days prior to each auction, as well as a summary results report and a postauction public proceeds report within 60 days after each auction. The department must communicate the results of the previous calendar year's auctions to the environmental justice council on an annual basis beginning in 2024.

(b) The department must make future vintage allowances available through parallel auctions at least twice annually in addition to the auctions through which current vintage allowances are exclusively offered under (a) of this subsection.

(3) The department shall engage a qualified, independent contractor to run the auctions. The department shall also engage a qualified financial services administrator to hold the bid guarantees, evaluate bid guarantees, and inform the department of the value of bid guarantees once the bids are accepted.

(4) Auctions are open to covered entities, opt-in entities, and general market participants that are registered entities in good standing. The department shall adopt by rule the requirements for a registered entity to register and participate in a given auction.

(a) Registered entities intending to participate in an auction must submit an application to participate at least 30 days prior to the auction. The application must include the documentation required for review and approval by the department. A registered entity is eligible to participate only after receiving a notice of approval by the department.

(b) Each registered entity that elects to participate in the auction must have a different representative. Only a representative with an approved auction account is authorized to access the auction platform to submit an application or confirm the intent to bid for the registered entity, submit bids on behalf of the registered entity during the bidding window, or to download reports specific to the auction.

(5) The department may require a bid guarantee, payable to the financial services administrator, in an amount greater than or equal to the sum of the maximum value of the bids to be submitted by the registered entity.

(6) To protect the integrity of the auctions, a registered entity or group of registered entities with a direct corporate association

are subject to auction purchase and holding limits. The department may impose additional limits if it deems necessary to protect the integrity and functioning of the auctions:

(a) A covered entity or an opt-in entity may not buy more than 10 percent of the allowances offered during a single auction;

(b) A general market participant may not buy more than four percent of the allowances offered during a single auction and may not in aggregate own more than 10 percent of total allowances to be issued in a calendar year;

(c) No registered entity may buy more than the entity's bid guarantee; and

(d) No registered entity may buy allowances that would exceed the entity's holding limit at the time of the auction.

(7)(a) For fiscal year 2023, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$127,341,000 must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(b) For fiscal year 2024, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$356,697,000 must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(c) For fiscal year 2025, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$366,558,000 must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(d) For fiscal years 2026 through 2037, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$359,117,000 per year must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(e) The deposits into the carbon emissions reduction account pursuant to (a) through (d) of this subsection must not exceed \$5,200,000,000 over the first 16 years and any remaining auction proceeds must be deposited into the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(f) For fiscal year 2038 and each year thereafter, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) 50 percent of the auction proceeds to the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(8) The department shall adopt by rule provisions to guard against bidder collusion and minimize the potential for market manipulation. A registered entity may not release or disclose any bidding information including: Intent to participate or refrain from participation; auction approval status; intent to bid; bidding strategy; bid price or bid quantity; or information on the bid guarantee provided to the financial services administrator. The department may cancel or restrict a previously approved auction participation application or reject a new application if the department determines that a registered entity has:

- (a) Provided false or misleading facts;
- (b) Withheld material information that could influence a decision by the department;
- (c) Violated any part of the auction rules;
- (d) Violated registration requirements; or
- (e) Violated any of the rules regarding the conduct of the auction.

(9) Any cancellation or restriction approved by the department under subsection (8) of this section may be permanent or for a specified number of auctions and the cancellation or restriction imposed is not exclusive and is in addition to the remedies that may be available pursuant to chapter 19.86 RCW or other state or federal laws, if applicable.

(10) The department shall design allowance auctions so as to allow, to the maximum extent practicable, linking with external greenhouse gas emissions trading programs in other jurisdictions and to facilitate the transfer of allowances when the state's program has entered into a linkage agreement with other external greenhouse gas emissions trading programs. The department may conduct auctions jointly with linked jurisdictions.

(11) In setting the number of allowances offered at each auction, the department shall consider the allowances in the marketplace due to the marketing of allowances issued as required under sections 13, 14, and 15 of this act in the department's determination of the number of allowances to be offered at auction. The department shall offer only such number of allowances at each auction as will enhance the likelihood of achieving the goals of RCW 70A.45.020.

NEW SECTION. Sec. 13. ALLOCATION OF ALLOWANCES TO EMISSIONS-INTENSIVE, TRADE-EXPOSED INDUSTRIES. (1) Facilities owned or operated by a covered entity must receive an allocation of allowances for the covered emissions at those facilities under this subsection at no cost if the operations of the facility are classified as emissions-intensive and trade-exposed, as determined by being engaged in one or more of the processes described by the following industry descriptions and codes in the North American industry classification system:

(a) Metals manufacturing, including iron and steel making, ferroalloy and primary metals manufacturing, secondary aluminum smelting and alloying, aluminum sheet, plate, and foil manufacturing, and smelting, refining, and alloying of other nonferrous metals, North American industry classification system codes beginning with 331;

(b) Paper manufacturing, including pulp mills, paper mills, and paperboard milling, North American industry classification system codes beginning with 322;

(c) Aerospace product and parts manufacturing, North American industry classification system codes beginning with 3364;

(d) Wood products manufacturing, North American industry classification system codes beginning with 321;

(e) Nonmetallic mineral manufacturing, including glass container manufacturing, North American industry classification system codes beginning with 327;

(f) Chemical manufacturing, North American industry classification system codes beginning with 325;

(g) Computer and electronic product manufacturing, including semiconductor and related device manufacturing, North American industry classification system codes beginning with 334;

(h) Food manufacturing, North American industry classification system codes beginning with 311;

(i) Cement manufacturing, North American industry classification system code 327310;

(j) Petroleum refining, North American industry classification system code 324110;

(k) Asphalt paving mixtures and block manufacturing from refined petroleum, North American industry classification system code 324121;

(l) Asphalt shingle and coating manufacturing from refined petroleum, North American industry classification system code 324122; and

(m) All other petroleum and coal products manufacturing from refined petroleum, North American industry classification system code 324199.

(2) By July 1, 2022, the department must adopt by rule objective criteria for both emissions' intensity and trade exposure for the purpose of identifying emissions-intensive, trade-exposed manufacturing businesses during the second compliance period of the program and subsequent compliance periods. A facility covered by subsection (1)(a) through (m) of this section is considered an emissions-intensive, trade-exposed facility and is eligible for allocation of no cost allowances as described in this section. In addition, any covered party that is a manufacturing business that can demonstrate to the department that it meets the objective criteria adopted by rule is also eligible for treatment as emissions-intensive, trade-exposed and is eligible for allocation of no cost allowances as described in this section. In developing the objective criteria under this subsection, the department must consider the locations of facilities potentially identified as emissions-intensive, trade-exposed manufacturing businesses relative to overburdened communities.

(3)(a) For the first compliance period beginning in January 1, 2023, the annual allocation of no cost allowances for direct distribution to a facility identified as emissions-intensive and trade-exposed must be equal to the facility's baseline carbon intensity established using data from 2015 through 2019, or other data as allowed under this section, multiplied by the facility's actual production for each calendar year during the compliance period. For facilities using the mass-based approach, the allocation of no cost allowances shall be equal to the facility's mass-based baseline using data from 2015 through 2019, or other data as allowed under this section.

(b) For the second compliance period, beginning in January, 2027, and in each subsequent compliance period, the annual allocation of no cost allowances established in (a) of this subsection shall be adjusted according to the benchmark reduction schedules established in (b)(ii) and (iii) and (c) of this subsection multiplied by the facility's actual production during the period. The department shall adjust the no cost allocation of allowances and credits to an emissions-intensive and trade-exposed facility to avoid duplication with any no cost allowances transferred pursuant to sections 14 and 15 of this act, if applicable.

(i) For the purpose of this section, "carbon intensity" means the amount of carbon dioxide equivalent emissions from a facility in metric tons divided by the facility specific measure of production including, but not limited to, units of product manufactured or sold, over the same time interval.

(ii) If an emissions-intensive and trade-exposed facility is not able to feasibly determine a carbon intensity benchmark based on its unique circumstances, the entity may elect to use a mass-based baseline that does not vary based on changes in production volumes. The mass-based baseline must be based upon data from 2015 through 2019, unless the emissions-intensive, trade-exposed facility can demonstrate that there have been abnormal periods of operation that materially impacted the facility and the baseline period should be expanded to include years prior to 2015. For each year during the first four-year compliance period that begins January 1, 2023, these facilities must be awarded no cost allowances equal to 100 percent of the facility's mass-based baseline. For each year during the second four-year compliance period that begins January 1, 2027, these facilities must be awarded no cost allowances equal to 97 percent of the facility's mass-based baseline. For each year during the third compliance period that begins January 1, 2031, these facilities must be awarded no cost allowances equal to 94 percent of the facility's mass-based baseline. Except as provided in (b)(iii) of this subsection, if a facility elects to use a mass-based baseline, it may not later convert to a carbon intensity benchmark during the first three compliance periods.

(iii) A facility with a North American industry classification system code beginning with 3364 that is utilizing a mass-based baseline in (b)(ii) of this subsection must receive an additional no cost allowance allocation under this section in order to accommodate an increase in production that increases its emissions above the baseline on a basis equivalent in principle to those awarded to entities utilizing a carbon intensity benchmark pursuant to this subsection (3)(b). The department shall establish methods to award, for any annual period, additional no cost allowance allocations under this section and, if appropriate based on projected production, to achieve a similar ongoing result through the adjustment of the facility's mass-based baseline. An eligible facility under this subsection that has elected to use a mass-based baseline may not convert to a carbon intensity benchmark until the next compliance period.

(c)(i) By September 15, 2022, each emissions-intensive, trade-exposed facility shall submit its carbon intensity baseline for the first compliance period to the department. The carbon intensity baseline for the first compliance period must use data from 2015-2019, unless the emissions-intensive, trade-exposed facility can demonstrate that there have been abnormal periods of operation that materially impacted the facility and the baseline period should be expanded to include years prior to 2015.

(ii) By November 15, 2022, the department shall review and approve each emissions-intensive, trade-exposed facility's baseline carbon intensity for the first compliance period.

(d) During the first four-year compliance period that begins January 1, 2023, each emissions-intensive, trade-exposed facility must record its facility-specific carbon intensity baseline based on its actual production.

(e)(i) For the second four-year compliance period that begins January 1, 2027, the second period benchmark for each emissions-intensive, trade-exposed facility is three percent below the first period baseline specified in (a), (b), and (c) of this subsection.

(ii) For the third four-year compliance period that begins January 1, 2031, the third period benchmark for each emissions-intensive, trade-exposed facility is three percent lower than the second period benchmark.

(f) Prior to the beginning of either the second, third, or subsequent compliance periods, the department may make an upward adjustment in the next compliance period's benchmark for an emissions-intensive, trade-exposed facility based on the facility's demonstration to the department that additional

reductions in carbon intensity or mass emissions are not technically or economically feasible. The department may base the upward adjustment applicable to an emissions-intensive, trade-exposed facility in the next compliance period on the facility's best available technology analysis. The department shall by rule provide for emissions-intensive, trade-exposed facilities to apply to the department for an adjustment to the allocation for direct distribution of no cost allowances based on its facility-specific carbon intensity benchmark or mass emissions baseline. The department shall make adjustments based on:

(i) A significant change in the emissions use or emissions attributable to the manufacture of an individual good or goods in this state by an emissions-intensive, trade-exposed facility based on a finding by the department that an adjustment is necessary to accommodate for changes in the manufacturing process that have a material impact on emissions;

(ii) Significant changes to an emissions-intensive, trade-exposed facility's external competitive environment that result in a significant increase in leakage risk; or

(iii) Abnormal operating periods when an emissions-intensive, trade-exposed facility's carbon intensity has been materially affected so that these abnormal operating periods are either excluded or otherwise considered in the establishment of the compliance period carbon intensity benchmarks.

(4)(a) By December 1, 2026, the department shall provide a report to the appropriate committees of the senate and house of representatives that describes alternative methods for determining the amount and a schedule of allowances to be provided to facilities owned or operated by each covered entity designated as an emissions-intensive, trade-exposed facility from January 1, 2035, through January 1, 2050. The report must include a review of global best practices in ensuring against emissions leakage and economic harm to businesses in carbon pricing programs and describe alternative methods of emissions performance benchmarking and mass-based allocation of no cost allowances. At a minimum, the department must evaluate benchmarks based on both carbon intensity and mass, as well as the use of best available technology as a method for compliance. In developing the report, the department shall form an advisory group that includes representatives of the manufacturers listed in subsection (1) of this section.

(b) If the legislature does not adopt a compliance obligation for emissions-intensive, trade-exposed facilities by December 1, 2027, those facilities must continue to receive allowances as provided in the third four-year compliance period that begins January 1, 2031.

(5) If the actual emissions of an emissions-intensive, trade-exposed facility exceed the facility's no cost allowances assigned for that compliance period, it must acquire additional compliance instruments such that the total compliance instruments transferred to its compliance account consistent with section 22 of this act equals emissions during the compliance period. An emissions-intensive, trade-exposed facility must be allowed to bank unused allowances, including for future sale and investment in best available technology when economically feasible. The department shall limit the use of offset credits for compliance by an emissions-intensive, trade-exposed facility, such that the quantity of no cost allowances plus the provision of offset credits does not exceed 100 percent of the facility's total compliance obligation over a compliance period.

(6) The department must withhold or withdraw the relevant share of allowances allocated to a covered entity under this section in the event that the covered entity ceases production in the state and becomes a closed facility. In the event an entity curtails all production and becomes a curtailed facility, the allowances are retained but cannot be traded, sold, or transferred

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

and are still subject to the emission reduction requirements specified in this section. An owner or operator of a curtailed facility may transfer the allowances to a new operator of the facility that will be operated under the same North American industry classification system codes. If the curtailed facility becomes a closed facility, then all unused allowances will be transferred to the emissions containment reserve. A curtailed facility is not eligible to receive free allowances during a period of curtailment. Any allowances withheld or withdrawn under this subsection must be transferred to the emissions containment reserve.

(7) An owner or operator of more than one facility receiving no cost allowances under this section may transfer allowances among the eligible facilities.

(8) Rules adopted by the department under this section must include protocols for allocating allowances at no cost to an eligible facility built after the effective date of this section. The protocols must include consideration of the products and criteria pollutants being produced by the facility, as well as the local environmental and health impacts associated with the facility. For a facility that is built on tribal lands or is determined by the department to impact tribal lands and resources, the protocols must be developed in consultation with the affected tribal nations.

NEW SECTION. Sec. 14. ALLOCATION OF ALLOWANCES TO ELECTRIC UTILITIES. (1) The legislature intends by this section to allow all consumer-owned electric utilities and investor-owned electric utilities subject to the requirements of chapter 19.405 RCW, the Washington clean energy transformation act, to be eligible for allowance allocation as provided in this section in order to mitigate the cost burden of the program on electricity customers.

(2)(a) By October 1, 2022, the department shall adopt rules, in consultation with the department of commerce and the utilities and transportation commission, establishing the methods and procedures for allocating allowances for consumer-owned and investor-owned electric utilities. The rules must take into account the cost burden of the program on electricity customers.

(b) By October 1, 2022, the department shall adopt an allocation schedule by rule, in consultation with the department of commerce and the utilities and transportation commission, for the first compliance period for the provision of allowances at no cost to consumer-owned and investor-owned electric utilities. This allocation must be consistent with a forecast, that is approved by the appropriate governing board or the utilities and transportation commission, of each utility's supply and demand, and the cost burden resulting from the inclusion of the covered entities in the first compliance period.

(c) By October 1, 2026, the department shall adopt an allocation schedule by rule, in consultation with the department of commerce and the utilities and transportation commission, for the provision of allowances for the second compliance period at no cost to consumer-owned and investor-owned electric utilities. This allocation must be consistent with a forecast, that is approved by the appropriate governing board or the utilities and transportation commission, of each utility's supply and demand, and the cost burden resulting from the inclusion of covered entities in the second compliance period. The allowances included in this schedule must reflect the increased scope of coverage in the electricity sector relative to the program budget of allowances established in 2022.

(d) By October 1, 2028, the department shall adopt an allocation schedule by rule, in consultation with the department of commerce and the utilities and transportation commission, for the provision of allowances at no cost to consumer-owned and investor-owned electric utilities for the compliance periods

contained within calendar years 2031 through 2045. This allocation must be consistent with a forecast, that is approved by the appropriate governing board or the utilities and transportation commission, of each utility's supply and demand, and the cost burden resulting from the inclusion of the covered entities in the compliance periods. The rule developed under this subsection (2)(d) may prescribe an amount of allowances allocated at no cost that must be consigned to auction by consumer-owned and investor-owned electric utilities. However, utilities may use allowances for compliance equal to their covered emissions in any calendar year they were not subject to potential penalty under RCW 19.405.090. Under no circumstances may utilities receive any free allowances after 2045.

(3)(a) During the first compliance period, allowances allocated at no cost to consumer-owned and investor-owned electric utilities may be consigned to auction for the benefit of ratepayers, deposited for compliance, or a combination of both. The rules adopted by the department under subsection (2) of this section must include provisions for directing revenues generated under this subsection to the applicable utilities.

(b) By October 1, 2026, the department, in consultation with the department of commerce and the utilities and transportation commission, must adopt rules governing the amount of allowances allocated at no cost under subsection (2)(c) of this section that must be consigned to auction. For calendar year 2030, electric utilities may use allowances for compliance equal to their covered emissions if not subject to potential penalty under RCW 19.405.090.

(4) The benefits of all allowances consigned to auction under this section must be used by consumer-owned and investor-owned electric utilities for the benefit of ratepayers, with the first priority the mitigation of any rate impacts to low-income customers.

(5) If an entity is identified by the department as an emissions-intensive, trade-exposed industry under section 13 of this act, unless allowances have been otherwise allocated for electricity-related emissions to the entity under section 13 of this act or to a consumer-owned utility under this section, the department shall allocate allowances at no cost to the electric utility or power marketing administration that is providing electricity to the entity in an amount equal to the forecasted emissions for electricity consumption for the entity for the compliance period.

(6) The department shall allow for allowances to be transferred between a power marketing administration and electric utilities and used for direct compliance.

(7) Rules establishing the allocation of allowances to consumer-owned utilities and investor-owned utilities must consider the impact of electrification of buildings, transportation, and industry on the electricity sector.

(8) Nothing in this section affects the requirements of chapter 19.405 RCW.

(9) A consumer-owned utility that is party to a contract that meets the following conditions must be issued allowances under this section for emissions associated with imported electricity, in order to prevent impairment of the value of the contract to either party:

(a) The contract does not address compliance costs imposed upon the consumer-owned utility by the program created in this chapter; and

(b) The contract was in effect as of the effective date of this section and expires no later than the end of the first compliance period.

NEW SECTION. Sec. 15. ALLOCATION OF ALLOWANCES TO NATURAL GAS UTILITIES. (1) For the

benefit of ratepayers, allowances must be allocated at no cost to covered entities that are natural gas utilities.

(a) By October 1, 2022, the department shall adopt rules, in consultation with the utilities and transportation commission, establishing the methods and procedures for allocating allowances to natural gas utilities. Rules adopted under this subsection must allow for a natural gas utility to be provided allowances at no cost to cover their emissions and decline proportionally with the cap, consistent with section 9 of this act. Allowances allocated at no cost to natural gas utilities must be consigned to auction for the benefit of ratepayers consistent with subsection (2) of this section, deposited for compliance, or a combination of both. The rules adopted by the department pursuant to this section must include provisions directing revenues generated under this subsection to the applicable utilities.

(b) By October 1, 2022, the department shall adopt an allocation schedule by rule, in consultation with the utilities and transportation commission, for the first two compliance periods for the provision of allowances for the benefit of ratepayers at no cost to natural gas utilities.

(c) By October 1, 2028, the department shall adopt an allocation schedule by rule, in consultation with the utilities and transportation commission, for the provision of allowances for the benefit of ratepayers at no cost to natural gas utilities for the compliance periods contained within calendar years 2031 through 2040.

(2)(a) Beginning in 2023, 65 percent of the no cost allowances must be consigned to auction for the benefit of customers, including at a minimum eliminating any additional cost burden to low-income customers from the implementation of this chapter. Rules adopted under this subsection must increase the percentage of allowances consigned to auction by five percent each year until a total of 100 percent is reached.

(b) Revenues from allowances sold at auction must be returned by providing nonvolumetric credits on ratepayer utility bills, prioritizing low-income customers, or used to minimize cost impacts on low-income, residential, and small business customers through actions that include, but are not limited to, weatherization, decarbonization, conservation and efficiency services, and bill assistance. The customer benefits provided from allowances consigned to auction under this section must be in addition to existing requirements in statute, rule, or other legal requirements.

(c) Except for low-income customers, the customer bill credits under this subsection are reserved exclusively for customers at locations connected to a natural gas utility's system on the effective date of this section. Bill credits may not be provided to customers of the gas utility at a location connected to the system after the effective date of this section.

(3) In order to qualify for no cost allowances, covered entities that are natural gas utilities must provide copies of their greenhouse gas emissions reports filed with the United States environmental protection agency under 40 C.F.R. Part 98 subpart NN - suppliers of natural gas and natural gas liquids for calendar years 2015 through 2021 to the department on or before March 31, 2022. The copies of the reports must be provided in electronic form to the department, in a manner prescribed by the department. The reports must be complete and contain all information required by 40 C.F.R. Sec. 98.406 including, but not limited to, information on large end-users served by the natural gas utility. For any year where a natural gas utility was not required to file this report with the United States environmental protection agency, a report may be submitted in a manner prescribed by the department containing all of the information required in the subpart NN report.

(4) To continue receiving no cost allowances, a natural gas utility must provide to the department the United States environmental protection agency subpart NN greenhouse gas emissions report for each reporting year in the manner and by the dates provided by RCW 70A.15.2200(5) as part of the greenhouse gas reporting requirements of this chapter.

NEW SECTION. Sec. 16. EMISSIONS CONTAINMENT RESERVE WITHHOLDING. (1) To help ensure that the price of allowances remains sufficient to incentivize reductions in greenhouse gas emissions, the department must establish an emissions containment reserve and set an emissions containment reserve trigger price by rule. The price must be set at a reasonable amount above the auction floor price and equal to the level established in jurisdictions with which the department has entered into a linkage agreement. In the event that a jurisdiction with which the department has entered into a linkage agreement has no emissions containment trigger price, the department shall suspend the trigger price under this subsection. The purpose of withholding allowances in the emissions containment reserve is to secure additional emissions reductions.

(2) In the event that the emissions containment reserve trigger price is met during an auction, the department must automatically withhold allowances as needed. The department must convert and transfer any allowances that have been withheld from auction into the emissions containment reserve account.

(3) Emissions containment reserve allowances may only be withheld from an auction if the demand for allowances would result in an auction clearing price that is less than the emissions containment reserve trigger price prior to the withholding from the auction of any emissions containment reserve allowances.

(4) The department shall transfer allowances to the emissions containment reserve in the following situations:

(a) No less than two percent of the total number of allowances available from the allowance budgets for calendar years 2023 through 2026;

(b) When allowances are unsold in auctions under section 12 of this act;

(c) When facilities curtail or close consistent with section 13(6) of this act; or

(d) When facilities fall below the emissions threshold. The amount of allowances withdrawn from the program budget must be proportionate to the amount of emissions such a facility was previously using.

(5)(a) Allowances must be distributed from the emissions containment reserve by auction when new covered and opt-in entities enter the program.

(b) Allowances equal to the greenhouse gas emissions resulting from a new or expanded emissions-intensive, trade-exposed facility with emissions in excess of 25,000 metric tons per year during the first applicable compliance period will be provided to the facility from the reserve created in this section and must be retired by the facility. In subsequent compliance periods, the facility will be subject to the regulatory cap and related requirements under this chapter.

NEW SECTION. Sec. 17. ALLOWANCE PRICE CONTAINMENT. (1) To help minimize allowance price volatility in the auction, the department shall adopt by rule an auction floor price and a schedule for the floor price to increase by a predetermined amount every year. The department may not sell allowances at bids lower than the auction floor price. The department's rules must specify holding limits that determine the maximum number of allowances that may be held for use or trade by a registered entity at any one time. The department shall also establish an auction ceiling price to limit extraordinary prices and to determine when to offer allowances through the allowance price containment reserve auctions authorized under this section.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(2) For calendar years 2023 through 2026, the department must place no less than two percent of the total number of allowances available from the allowance budgets for those years in an allowance price containment reserve. The reserve must be designed as a mechanism to assist in containing compliance costs for covered and opt-in entities in the event of unanticipated high costs for compliance instruments.

(3)(a) The department shall adopt rules for holding auctions of allowances from the price containment reserve when the settlement prices in the preceding auction approach the adopted auction ceiling price. The auction must be separate from auctions of other allowances.

(b) Allowances must also be distributed from the allowance price containment reserve by auction when new covered and opt-in entities enter the program and allowances in the emissions containment reserve under section 16 of this act are exhausted.

(4) Only covered and opt-in entities may participate in the auction of allowances from the allowance price containment reserve.

(5) The process for reserve auctions is the same as the process provided in section 12 of this act and the proceeds from reserve auctions must be treated the same.

(6) The department shall by rule:

(a) Set the reserve auction floor price in advance of the reserve auction. The department may choose to establish multiple price tiers for the allowances from the reserve;

(b) Establish the requirements and schedule for the allowance price containment reserve auctions; and

(c) Establish the amount of allowances to be placed in the allowance price containment reserve after the first compliance period ending in 2026.

NEW SECTION. Sec. 18. PRICE CEILING. (1) The department shall establish a price ceiling to provide cost protection for facilities obligated to comply with this chapter. The ceiling must be set at a level sufficient to facilitate investments to achieve further emission reductions beyond those enabled by the price ceiling, with the intent that investments accelerate the state's achievement of greenhouse gas limits established under RCW 70A.45.020. The price ceiling must increase annually in proportion to the price floor.

(2) In the event that no allowances remain in the allowance price containment reserve, the department must issue the number of price ceiling units for sale sufficient to provide cost protection for facilities as established under subsection (1) of this section. Purchases must be limited to entities that do not have sufficient eligible compliance instruments in their holding and compliance accounts for the next compliance period and these entities may only purchase what they need to meet their compliance obligation for the current compliance period. Price ceiling units may not be sold or transferred and must be retired for compliance in the current compliance period. A price ceiling unit is not a property right.

(3) Funds raised in connection with the sale of price ceiling units must be expended to achieve emissions reductions on at least a metric ton for metric ton basis that are real, permanent, quantifiable, verifiable, enforceable by the state, and in addition to any greenhouse gas emission reduction otherwise required by law or regulation and any other greenhouse gas emission reduction that otherwise would occur.

NEW SECTION. Sec. 19. OFFSETS. (1) The department shall adopt by rule the protocols for establishing offset projects and securing offset credits that may be used to meet a portion of a covered or opt-in entity's compliance obligation under section 22 of this act. The protocols adopted by the department under this

section must align with the policies of the state established under RCW 70A.45.090 and 70A.45.100.

(2) Offset projects must:

(a) Provide direct environmental benefits to the state or be located in a jurisdiction with which Washington has entered into a linkage agreement;

(b) Result in greenhouse gas reductions or removals that:

(i) Are real, permanent, quantifiable, verifiable, and enforceable; and

(ii) Are in addition to greenhouse gas emission reductions or removals otherwise required by law and other greenhouse gas emission reductions or removals that would otherwise occur; and

(c) Have been certified by a recognized registry after the effective date of this section or within two years prior to the effective date of this section.

(3)(a) A total of no more than five percent of a covered or opt-in entity's compliance obligation during the first compliance period may be met by transferring offset credits. During these years, at least 50 percent of a covered or opt-in entity's compliance obligation satisfied by offset credits must be sourced from offset projects that provide direct environmental benefits in the state.

(b) A total of no more than four percent of a covered or opt-in entity's compliance obligation during the second compliance period may be met by transferring offset credits. During these years, at least 75 percent of a covered or opt-in entity's compliance obligation satisfied by offset credits must be sourced from offset projects that provide direct environmental benefits in the state. The department may reduce the 75 percent requirement if it determines there is not sufficient offset supply in the state to meet offset demand during the second compliance period.

(c) The limits in (a) and (b) of this subsection may be modified by rule as adopted by the department when appropriate to ensure achievement of the proportionate share of statewide emissions limits established in RCW 70A.45.020 and to provide for alignment with other jurisdictions to which the state has linked.

(d) The limits in (a) and (b) of this subsection may be reduced for a specific covered or opt-in entity if the department determines, in consultation with the environmental justice council, that the covered or opt-in entity has or is likely to:

(i) Contribute substantively to cumulative air pollution burden in an overburdened community as determined by criteria established by the department, in consultation with the environmental justice council; or

(ii) Violate any permits required by any federal, state, or local air pollution control agency where the violation may result in an increase in emissions.

(e) An offset project on federally recognized tribal land does not count against the offset credit limits described in (a) and (b) of this subsection. No more than three percent of a covered or opt-in entity's compliance obligation may be met by transferring offset credits from projects on federally recognized tribal land during the first compliance period. No more than two percent of a covered or opt-in entity's compliance obligation may be met by transferring offset credits from projects on federally recognized tribal land during the second compliance period.

(4) In adopting protocols governing offset projects and covered and opt-in entities' use of offset credits, the department shall:

(a) Take into consideration standards, rules, or protocols for offset projects and offset credits established by other states, provinces, and countries with programs comparable to the program established in this chapter;

(b) Encourage opportunities for the development of offset projects in this state by adopting offset protocols that may include, but need not be limited to, protocols that make use of

aggregation or other mechanisms to reduce transaction costs related to the development of offset projects and that support the development of carbon dioxide removal projects;

(c) Adopt a process for monitoring and invalidating offset credits as necessary to ensure the credit reflects emission reductions or removals that continue to meet the standards required by subsection (1) of this section. If an offset credit is invalidated, the covered or opt-in entity must, within six months of the invalidation, transfer replacement credits or allowances to meet its compliance obligation. Failure to transfer the required credits or allowances is a violation subject to penalties as provided in section 23 of this act; and

(d) Make use of aggregation or other mechanisms, including cost-effective inventory and monitoring provisions, to increase the development of offset and carbon removal projects by landowners across the broadest possible variety of types and sizes of lands, including lands owned by small forestland owners.

(5) Any offset credits used may not be in addition to or allow for an increase in the emissions limits established under RCW 70A.45.020, as reflected in the annual allowance budgets developed under section 9 of this act.

(6) The offset credit must be registered and tracked as a compliance instrument.

(7) Beginning in 2031, the limits established in subsection (3) of this section apply unless modified by rule as adopted by the department after a public consultation process.

NEW SECTION. Sec. 20. ASSISTANCE PROGRAM FOR OFFSETS ON TRIBAL LANDS. (1) In order to ensure that a sufficient number of high quality offset projects are available under the limits set in section 19 of this act, the department must establish an assistance program for offset projects on federally recognized tribal lands in Washington. The assistance may include, but is not limited to, funding or consultation for federally recognized tribal governments to assess a project's technical feasibility, investment requirements, development and operational costs, expected returns, administrative and legal hurdles, and project risks and pitfalls. The department may provide funding or assistance upon request by a federally recognized tribe.

(2) It is the intent of the legislature that not less than \$5,000,000 be provided in the biennial omnibus operating appropriations act for the purposes of this section.

NEW SECTION. Sec. 21. SMALL FORESTLAND OWNER WORK GROUP. (1) The department of natural resources must contract with an eligible entity capable of providing public value to the state through the establishment and implementation of a small forestland owner work group. The purpose of the work group is to forward the goals and implementation of this chapter by identifying possible carbon market opportunities including, but not limited to, the provision of offset credits that qualify under section 19 of this act, and other incentive-based greenhouse gas reduction programs that Washington landowners may be able to access, including compliance markets operated by other jurisdictions, voluntary markets, and federal, state, and private programs for forestlands that can be leveraged to achieve carbon reductions.

(2) The work group established by the eligible entity under this section must:

(a) Provide recommendations for the implementation and funding of a pilot program to develop an aggregator account that will pursue carbon offset projects for small forestland owners in Washington state, including recommendations based on programs established in other jurisdictions;

(b) Coordinate with the department on the development of offset protocols related to landowners under section 19(4)(d) of this act;

(c) Develop a framework and funding proposals for establishing a program to link interested small forestland owners with incentive-based carbon reducing programs that facilitate adoption of forest practices that increase carbon storage and sequestration in forests and wood products. The framework may include:

(i) Identifying areas of coordination and layering among state, federal, and private landowner incentive programs and identifying roadblocks to better scalability;

(ii) Assisting landowners with access to feasibility analyses, market applications, stand inventories, pilot project support, and other services to reduce the transaction costs and barriers to entry to carbon markets or carbon incentive programs; and

(iii) Sharing information with private and other landowners about best practices employed to increase carbon storage and access to incentive programs; and

(d) Recommend policies to support the implementation of incentives for participation in carbon markets.

(3) The work group must transmit a final report to the department by December 1, 2022, that provides recommendations for incentives, the implementation of incentives, and payment structures necessary to support small forest landowners and any recommendations around extending the work group or making the work group permanent. The department must submit the final report to the legislature, in compliance with RCW 43.01.036, by December 31, 2022.

(4) For the purposes of this section, "eligible entity" means a nonprofit entity solely based in Washington that can demonstrate a membership of at least 1000 small forestland owners and that has, as part of its mission, the promotion of the sustainable stewardship of family forestlands.

(5) This section expires July 1, 2023.

NEW SECTION. Sec. 22. COMPLIANCE OBLIGATIONS. (1) A covered or opt-in entity has a compliance obligation for its emissions during each four-year compliance period, with the first compliance period commencing January 1, 2023, except when the first compliance period commences at a later date as provided in subsection (7) of this section. A covered or opt-in entity shall transfer a number of compliance instruments equal to the entity's covered emissions by November 1st of each calendar year in which a covered or opt-in entity has a compliance obligation. The department shall set by rule a percentage of compliance instruments that must be transferred in each year of the compliance period such that covered or opt-in entities are allowed to smooth their compliance obligation within the compliance period but must fully satisfy their compliance obligation over the course of the compliance period, in a manner similar to external greenhouse gas emissions trading programs in other jurisdictions. In meeting a given compliance obligation, a covered or opt-in entity may use allowances issued in that compliance year, or allowances issued in any of the seven years immediately preceding that compliance year.

(2) Compliance occurs through the transfer of compliance instruments or price ceiling units, on or before the transfer date, from the holding account to the compliance account of the covered or opt-in entity as described in section 10 of this act.

(3)(a) A covered entity with a facility eligible for use of price ceiling units under section 18 of this act may substitute the submission of compliance instruments with price ceiling units.

(b) A covered or opt-in entity submitting insufficient compliance instruments to meet its compliance obligation is subject to a penalty as provided in section 23 of this act.

(4) Older vintage allowances must be retired before newer vintage allowances.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(5) A covered or opt-in entity may not borrow an allowance from a future allowance year to meet a current or past compliance obligation.

(6) Upon receipt by the department of all compliance instruments transferred by a covered entity or opt-in entity to meet its compliance obligation, the department shall retire the allowances or offset credits.

(7)(a) In order to coordinate and synchronize the cap and invest program established under this chapter with other transportation-related investments, this section does not take effect until a separate additive transportation revenue act becomes law, at which time the department of licensing must provide written notice to the chief clerk of the house of representatives, the secretary of the senate, and the office of the code reviser.

(b) For the purposes of this subsection, "additive transportation revenue act" means an act, enacted after April 1, 2021, in which the state fuel tax under RCW 82.38.030 is increased by an additional and cumulative tax rate of at least five cents per gallon of fuel.

NEW SECTION. Sec. 23. ENFORCEMENT. (1) All covered and opt-in entities are required to submit compliance instruments in a timely manner to meet the entities' compliance obligations and shall comply with all requirements for monitoring, reporting, holding, and transferring emission allowances and other provisions of this chapter.

(2) If a covered or opt-in entity does not submit sufficient compliance instruments to meet its compliance obligation by the specified transfer dates, a penalty of four allowances for every one compliance instrument that is missing must be submitted to the department within six months. When a covered entity or opt-in entity reasonably believes that it will be unable to meet a compliance obligation, the entity shall immediately notify the department. Upon receiving notification, the department shall issue an order requiring the entity to submit the penalty allowances.

(3) If a covered entity or opt-in entity fails to submit penalty allowances as required by subsection (2) of this section, the department must issue an order or issue a penalty of up to \$10,000 per day per violation, or both, for failure to submit penalty allowances as required by subsection (2) of the section. The order may include a plan and schedule for coming into compliance.

(4) The department may issue a penalty of up to \$50,000 per day per violation for violations of section 12(8) (a) through (e) of this act.

(5) Except as provided in subsections (3) and (4) of this section, any person that violates the terms of this chapter or an order issued under this chapter incurs a penalty of up to \$10,000 per day per violation for each day that the person does not comply. All penalties under subsections (3) and (4) of this section and this subsection must be deposited into the climate investment account created in section 28 of this act.

(6) Orders and penalties issued under this chapter are appealable to the pollution control hearings board under chapter 43.21B RCW.

(7) For the first compliance period, the department may reduce the amount of the penalty by adjusting the monetary amount or the number of penalty allowances described in subsections (2) and (3) of this section.

(8) An electric utility or natural gas utility must notify its retail customers and the environmental justice council in published form within three months of paying a monetary penalty under this section.

(9)(a) No city, town, county, township, or other subdivision or municipal corporation of the state may implement a charge or tax based exclusively upon the quantity of greenhouse gas emissions.

(b) No state agency may adopt or enforce a program that regulates greenhouse gas emissions from a stationary source except as provided in this chapter.

(c) This chapter preempts the provisions of chapter 173-442 WAC.

NEW SECTION. Sec. 24. LINKAGE WITH OTHER JURISDICTIONS. (1) Subject to making the findings and conducting the public comment process described in subsection (3) of this section, the department shall seek to enter into linkage agreements with other jurisdictions with external greenhouse gas emissions trading programs in order to:

(a) Allow for the mutual use and recognition of compliance instruments issued by Washington and other linked jurisdictions;

(b) Broaden the greenhouse gas emission reduction opportunities to reduce the costs of compliance on covered entities and consumers;

(c) Enable allowance auctions to be held jointly and provide for the use of a unified tracking system for compliance instruments;

(d) Enhance market security;

(e) Reduce program administration costs; and

(f) Provide consistent requirements for covered entities whose operations span jurisdictional boundaries.

(2) The director of the department is authorized to execute linkage agreements with other jurisdictions with external greenhouse gas emissions trading programs consistent with the requirements in this chapter. A linkage agreement must cover the following:

(a) Provisions relating to regular, periodic auctions, including requirements for eligibility for auction participation, the use of a single auction provider to facilitate joint auctions, publication of auction-related information, processes for auction participation, purchase limits by auction participant type, bidding processes, dates of auctions, and financial requirements;

(b) Provisions related to holding limits to ensure no entities in any of the programs are disadvantaged relative to their counterparts in the other jurisdictions;

(c) Other requirements, such as greenhouse gas reporting and verification, offset protocols, criteria and process, and supervision and enforcement, to prevent fraud, abuse, and market manipulation;

(d) Common program registry, electronic auction platform, tracking systems for compliance instruments, and monitoring of compliance instruments;

(e) Provisions to ensure coordinated administrative and technical support;

(f) Provisions for public notice and participation; and

(g) Provisions to collectively resolve differences, amend the agreements, and delink or otherwise withdraw from the agreements.

(3) Before entering into a linkage agreement under this section, the department must evaluate and make a finding regarding whether the aggregate number of unused allowances in a linked program would reduce the stringency of Washington's program and the state's ability to achieve its greenhouse gas emissions reduction limits. The department must include in its evaluation a consideration of pre-2020 unused allowances that may exist in the program with which it is proposing to link. Before entering into a linkage agreement, the department must also establish a finding that the linking jurisdiction and the linkage agreement meet certain criteria identified under this subsection and conduct a public comment process to obtain input and a review of the linkage agreement by relevant stakeholders and other interested parties. The department must consider input received from the public comment process before finalizing a linkage agreement. In the event that the department determines that a full linkage

agreement is unlikely to meet the criteria, it may enter into a linkage agreement with limitations, including limits on the share of compliance that may be met with allowances originating from linked jurisdictions and other limitations deemed necessary by the department. A linkage agreement approved by the department must:

(a) Achieve the purposes identified in subsection (1) of this section;

(b) Ensure that the linking jurisdiction has provisions to ensure the distribution of benefits from the program to vulnerable populations and overburdened communities;

(c) Be determined by the department to not yield net adverse impacts to either jurisdictions' highly impacted communities or analogous communities in the aggregate, relative to the baseline level of emissions; and

(d) Not adversely impact Washington's ability to achieve the emission reduction limits established in RCW 70A.45.020.

(4) The state retains all legal and policymaking authority over its program design and enforcement.

NEW SECTION. Sec. 25. RULES. The department shall adopt rules to implement the provisions of the program established in sections 8 through 24 of this act. The department may adopt emergency rules pursuant to RCW 34.05.350 for initial implementation of the program, to implement the state omnibus appropriations act for the 2021-2023 fiscal biennium, and to ensure that reporting and other program requirements are determined early for the purpose of program design and early notice to registered entities with a compliance obligation under the program.

NEW SECTION. Sec. 26. EXPENDITURE TARGETS.

(1) It is the intent of the legislature that each year the total investments made through the carbon emissions reduction account created in section 27 of this act, the climate commitment account created in section 29 of this act, the natural climate solutions account created in section 30 of this act, and the air quality and health disparities improvement account created in section 31 of this act, achieve the following:

(a) A minimum of not less than 35 percent and a goal of 40 percent of total investments that provide direct and meaningful benefits to vulnerable populations within the boundaries of overburdened communities identified under chapter . . . , Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141); and

(b) In addition to the requirements of (a) of this subsection, a minimum of not less than 10 percent of total investments that are used for programs, activities, or projects formally supported by a resolution of an Indian tribe, with priority given to otherwise qualifying projects directly administered or proposed by an Indian tribe. An investment that meets the requirements of both this subsection (1)(b) and (a) of this subsection may count toward the minimum percentage targets for both subsections.

(2) The expenditure of moneys under this chapter must be consistent with applicable federal, state, and local laws, and treaty rights including, but not limited to, prohibitions on uses of funds imposed by the state Constitution.

(3) For the purposes of this section, "benefits" means investments or activities that:

(a) Reduce vulnerable population characteristics, environmental burdens, or associated risks that contribute significantly to the cumulative impact designation of highly impacted communities;

(b) Meaningfully protect an overburdened community from, or support community response to, the impacts of air pollution or climate change; or

(c) Meet a community need identified by vulnerable members of the community that is consistent with the intent of this chapter.

(4) The state must develop a process by which to evaluate the impacts of the investments made under this chapter, work across state agencies to develop and track priorities across the different eligible funding categories, and work with the environmental justice council pursuant to section 5 of this act.

(5) No expenditures may be made from the carbon emissions reduction account created in section 27 of this act, the climate investment account created in section 28 of this act, or the air quality and health disparities improvement account created in section 31 of this act if, by April 1, 2023, the legislature has not considered and enacted request legislation brought forth by the department under section 8 of this act that outlines a compliance pathway specific to emissions-intensive, trade-exposed businesses for achieving their proportionate share of the state's emissions reduction limits through 2050.

NEW SECTION. Sec. 27. CARBON EMISSIONS REDUCTION ACCOUNT. The carbon emissions reduction account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account are intended to affect reductions in transportation sector carbon emissions through a variety of carbon reducing investments. These can include, but are not limited to: Transportation alternatives to single occupancy passenger vehicles; reductions in single occupancy passenger vehicle miles traveled; reductions in per mile emissions in vehicles, including through the funding of alternative fuel infrastructure and incentive programs; and emission reduction programs for freight transportation, including motor vehicles and rail, as well as for ferries and other maritime and port activities. Expenditures from the account may only be made for transportation carbon emission reducing purposes and may not be made for highway purposes authorized under the 18th Amendment of the Washington state Constitution, other than specified in this section. It is the legislature's intent that expenditures from the account used to reduce carbon emissions be made with the goal of achieving equity for communities that historically have been omitted or adversely impacted by past transportation policies and practices.

NEW SECTION. Sec. 28. CLIMATE INVESTMENT ACCOUNT. (1)(a) The climate investment account is created in the state treasury. Except as otherwise provided in this act, all receipts from the auction of allowances authorized in this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation.

(b) Projects or activities funded from the account must meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career development opportunities, and maximize access to economic benefits from such projects for local workers and diverse businesses. Each contracting entity's proposal must be reviewed for equity and opportunity improvement efforts, including: (i) Employer paid sick leave programs; (ii) pay practices in relation to living wage indicators such as the federal poverty level; (iii) efforts to evaluate pay equity based on gender identity, race, and other protected status under Washington law; (iv) facilitating career development opportunities, such as apprenticeship programs, internships, job-shadowing, and on-the-job training; and (v) employment assistance and employment barriers for justice affected individuals.

(2) Moneys in the account may be used only for projects and programs that achieve the purposes of the greenhouse gas emissions cap and invest program established under this chapter. Moneys in the account as described in this subsection must first be appropriated for the administration of the requirements of this chapter, in an amount not to exceed five percent of the total receipt of funds from allowance auction proceeds under this

(2) Moneys in the account may not be used for projects or activities that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from this account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

NEW SECTION. Sec. 30. NATURAL CLIMATE SOLUTIONS ACCOUNT. (1) The natural climate solutions account is created in the state treasury. All moneys directed to the account from the climate investment account created in section 28 of this act must be deposited in the account. Moneys in the account may be spent only after appropriation. Moneys in the account are intended to increase the resilience of the state's waters, forests, and other vital ecosystems to the impacts of climate change, conserve working forestlands at risk of conversion, and increase their carbon pollution reduction capacity through sequestration, storage, and overall system integrity. Moneys in the account must be spent in a manner that is consistent with existing and future assessments of climate risks and resilience from the scientific community and expressed concerns of and impacts to overburdened communities.

(2) Moneys in the account may be allocated for the following purposes:

(a) Clean water investments that improve resilience from climate impacts. Funding under this subsection (2)(a) must be used to:

(i) Restore and protect estuaries, fisheries, and marine shoreline habitats and prepare for sea level rise including, but not limited to, making fish passage correction investments such as those identified in the cost-share barrier removal program for small forestland owners created in RCW 76.13.150 and those that are considered by the fish passage barrier removal board created in RCW 77.95.160;

(ii) Increase carbon storage in the ocean or aquatic and coastal ecosystems;

(b) Healthy forest investments to improve resilience from climate impacts. Funding under this subsection (2)(b) must be used for projects and activities that will:

(i) Increase forest and community resilience to wildfire in the face of increased seasonal temperatures and drought;

(ii) Improve forest health and reduce vulnerability to changes in hydrology, insect infestation, and other impacts of climate change; or

(iii) Prevent emissions by preserving natural and working lands from the threat of conversion to development or loss of critical habitat, through actions that include, but are not limited to, the creation of new conservation lands, community forests, or increased support to small forestland owners through assistance programs including, but not limited to, the forest riparian easement program and the family forest fish passage program. It is the intent of the legislature that not less than \$10,000,000 be expended each biennium for the forestry riparian easement program created in chapter 76.13 RCW or for riparian easement projects funded under the agricultural conservation easements program established under RCW 89.08.530, or similar riparian enhancement programs.

(3) Moneys in the account may not be used for projects that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from this account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

NEW SECTION. Sec. 31. AIR QUALITY AND HEALTH DISPARITIES IMPROVEMENT ACCOUNT. (1) The air quality and health disparities improvement account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account are intended to:

(a) Improve air quality through the reduction of criteria pollutants, including through effective air quality monitoring and the establishment of adequate baseline emissions data; and

(b) Reduce health disparities in overburdened communities by improving health outcomes through the reduction or elimination of environmental harms and the promotion of environmental benefits.

(2) Moneys in the account may be used for either capital budget or transportation budget purposes, or both. Moneys in the account may not be used for projects that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from the account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

(3) It is the intent of the legislature that not less than \$20,000,000 per biennium be dedicated to the account for the purposes of the account.

NEW SECTION. Sec. 32. (1) By December 1, 2029, the joint legislative audit and review committee must analyze the impacts of the initial five years of program implementation and must submit a report summarizing the analysis to the legislature. The analysis must include, at minimum, the following components:

(a) Costs and benefits, including environmental and public health costs and benefits, associated with this chapter for categories of persons participating in the program or that are most impacted by air pollution, as defined in consultation with the departments of ecology and health and as measured on a census tract scale. This component of the analysis must, at a minimum, assess the costs and benefits of changes in the following metrics since the start of the program:

(i) Levels of greenhouse gas emissions and criteria air pollutants for which the United States environmental protection agency has established national ambient air quality standards;

(ii) Fuel prices; and

(iii) Total employment in categories of industries that are covered entities. The categories of industries assessed must include, but are not limited to, electric utilities, natural gas utilities, oil refineries, and other industries classified as emissions-intensive and trade-exposed;

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(c) A summary of the estimated total statewide costs and benefits attributable to the program, including state agency administrative costs and covered entity compliance costs. For purposes of calculating the benefits of the program, the summary may rely, in part, on a constant value of the social costs attributable to greenhouse gas emissions, as identified in contemporary internationally accepted estimates of such global social cost. This summary must include an estimate of the total statewide costs of the program per ton of greenhouse gas emissions reductions achieved by the program; and

(d) An evaluation of the impacts of the program on low-income households.

(2) This section expires June 30, 2030.

Sec. 33. RCW 70A.15.2200 and 2020 c 20 s 1090 are each amended to read as follows:

(1) The board of any activated authority or the department, may classify air contaminant sources, by ordinance, resolution, rule or regulation, which in its judgment may cause or contribute to air pollution, according to levels and types of emissions and other characteristics which cause or contribute to air pollution, and may require registration or reporting or both for any such class or classes. Classifications made pursuant to this section may be for application to the area of jurisdiction of such authority, or the state as a whole or to any designated area within the jurisdiction, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

(2) Except as provided in subsection (3) of this section, any person operating or responsible for the operation of air contaminant sources of any class for which the ordinances, resolutions, rules or regulations of the department or board of the authority, require registration or reporting shall register therewith and make reports containing information as may be required by such department or board concerning location, size and height of contaminant outlets, processes employed, nature of the contaminant emission and such other information as is relevant to air pollution and available or reasonably capable of being assembled. In the case of emissions of greenhouse gases as defined in RCW 70A.45.010 the department shall adopt rules requiring reporting of those emissions. The department or board may require that such registration or reporting be accompanied by a fee, and may determine the amount of such fee for such class or classes: PROVIDED, That the amount of the fee shall only be to compensate for the costs of administering such registration or reporting program which shall be defined as initial registration and annual or other periodic reports from the source owner providing information directly related to air pollution registration, on-site inspections necessary to verify compliance with registration requirements, data storage and retrieval systems necessary for support of the registration program, emission inventory reports and emission reduction credits computed from information provided by sources pursuant to registration program requirements, staff review, including engineering or other reliable analysis for accuracy and currentness, of information provided by sources pursuant to registration program requirements, clerical and other office support provided in direct furtherance of the registration program, and administrative support provided in directly carrying out the registration program: PROVIDED FURTHER, That any such registration made with either the board or the department shall preclude a further registration and reporting with any other board or the department, except that emissions of greenhouse gases as defined in RCW 70A.45.010 must be reported as required under subsection (5) of this section.

All registration program and reporting fees collected by the department shall be deposited in the air pollution control account.

All registration program fees collected by the local air authorities shall be deposited in their respective treasuries.

(3) If a registration or report has been filed for a grain warehouse or grain elevator as required under this section, registration, reporting, or a registration program fee shall not, after January 1, 1997, again be required under this section for the warehouse or elevator unless the capacity of the warehouse or elevator as listed as part of the license issued for the facility has been increased since the date the registration or reporting was last made. If the capacity of the warehouse or elevator listed as part of the license is increased, any registration or reporting required for the warehouse or elevator under this section must be made by the date the warehouse or elevator receives grain from the first harvest season that occurs after the increase in its capacity is listed in the license.

This subsection does not apply to a grain warehouse or grain elevator if the warehouse or elevator handles more than ten million bushels of grain annually.

(4) For the purposes of subsection (3) of this section:

(a) A "grain warehouse" or "grain elevator" is an establishment classified in standard industrial classification (SIC) code 5153 for wholesale trade for which a license is required and includes, but is not limited to, such a licensed facility that also conducts cleaning operations for grain;

(b) A "license" is a license issued by the department of agriculture licensing a facility as a grain warehouse or grain elevator under chapter 22.09 RCW or a license issued by the federal government licensing a facility as a grain warehouse or grain elevator for purposes similar to those of licensure for the facility under chapter 22.09 RCW; and

(c) "Grain" means a grain or a pulse.

(5)(a) The department shall adopt rules requiring persons to report emissions of greenhouse gases as defined in RCW 70A.45.010 where those emissions from a single facility, ~~((source, or site,))~~ or from electricity or fossil fuels sold in Washington by a single supplier or local distribution company, meet or exceed ten thousand metric tons of carbon dioxide equivalent annually. The ~~((department may phase in the requirement to report greenhouse gas emissions until the reporting threshold in this subsection is met, which must occur by January 1, 2012))~~ rules adopted by the department must support implementation of the program created in section 8 of this act. In addition, the rules must require that:

(i) Emissions of greenhouse gases resulting from the combustion of fossil fuels be reported separately from emissions of greenhouse gases resulting from the combustion of biomass; and

(ii) ~~((Reporting will start in 2010 for 2009 emissions.))~~ Each annual report must include emissions data for the preceding calendar year and must be submitted to the department by ~~((October))~~ March 31st of the year in which the report is due. ~~((However, starting in 2011, a person who is required to report greenhouse gas emissions to the United States environmental protection agency under 40 C.F.R. Part 98, as adopted on September 22, 2009, must submit the report required under this section to the department concurrent with the submission to the United States environmental protection agency. Except as otherwise provided in this section, the data for emissions in Washington and any corrections thereto that are reported to the United States environmental protection agency must be the emissions data reported to the department; and~~

(iii) Emissions of carbon dioxide associated with the complete combustion or oxidation of liquid motor vehicle fuel, special fuel, or aircraft fuel that is sold in Washington where the annual emissions associated with that combustion or oxidation equal or

~~exceed ten thousand metric tons be reported to the department. Each person who is required to file periodic tax reports of motor vehicle fuel sales under RCW 82.36.031 or special fuel sales under RCW 82.38.150, or each distributor of aircraft fuel required to file periodic tax reports under RCW 82.42.040 must report to the department the annual emissions of carbon dioxide from the complete combustion or oxidation of the fuels listed in those reports as sold in the state of Washington. The department shall not require suppliers to use additional data to calculate greenhouse gas emissions other than the data the suppliers report to the department of licensing. The rules may allow this information to be aggregated when reported to the department. The department and the department of licensing shall enter into an interagency agreement to ensure proprietary and confidential information is protected if the departments share reported information. Any proprietary or confidential information exempt from disclosure when reported to the department of licensing is exempt from disclosure when shared by the department of licensing with the department under this provision.)~~

~~(b)(i) ((Except as otherwise provided in this subsection, the rules adopted by the department under (a) of this subsection must be consistent with the regulations adopted by the United States environmental protection agency in 40 C.F.R. Part 98 on September 22, 2009.~~

~~(ii)) The department may by rule include additional gases to the definition of "greenhouse gas" in RCW 70A.45.010 only if the gas has been designated as a greenhouse gas by the United States congress ((or)), by the United States environmental protection agency, or included in external greenhouse gas emission trading programs with which Washington has pursuant to section 24 of this act. Prior to including additional gases to the definition of "greenhouse gas" in RCW 70A.45.010, the department shall notify the appropriate committees of the legislature. ~~((Decisions to amend the rule to include additional gases must be made prior to December 1st of any year and the amended rule may not take effect before the end of the regular legislative session in the next year.~~~~

~~(iii)) (ii) The department may by rule exempt persons who are required to report greenhouse gas emissions to the United States environmental protection agency and who emit less than ten thousand metric tons carbon dioxide equivalent annually.~~

~~((iv)) (iii) The department must establish a methodology for persons who are not required to report under this section to voluntarily report their greenhouse gas emissions.~~

~~(c)(i) The department shall review and if necessary update its rules whenever ((the)):~~

~~(A) The United States environmental protection agency adopts final amendments to 40 C.F.R. Part 98 to ensure consistency with federal reporting requirements for emissions of greenhouse gases; or~~

~~(B) Needed to ensure consistency with emissions reporting requirements for jurisdictions with which Washington has entered a linkage agreement. ((However, the))~~

~~(ii) The department shall not amend its rules in a manner that conflicts with ~~((a) of)~~ this ~~((subsection))~~ section.~~

~~(d) The department shall share any reporting information reported to it with the local air authority in which the person reporting under the rules adopted by the department operates.~~

~~(e) The fee provisions in subsection (2) of this section apply to reporting of emissions of greenhouse gases. Persons required to report under (a) of this subsection who fail to report or pay the fee required in subsection (2) of this section are subject to enforcement penalties under this chapter. The department shall enforce the reporting rule requirements ~~((unless it approves a local air authority's request to enforce the requirements for persons operating within the authority's jurisdiction. However,~~~~

~~neither the department nor a local air authority approved under this section are authorized to assess enforcement penalties on persons required to report under (a) of this subsection until six months after the department adopts its reporting rule in 2010)).~~ When a person that holds a compliance obligation under section 10 of this act fails to submit an emissions data report or fails to obtain a positive emissions data verification statement in accordance with (g)(ii) of this subsection, the department may assign an emissions level for that person.

~~(f) The energy facility site evaluation council shall, simultaneously with the department, adopt rules that impose greenhouse gas reporting requirements in site certifications on owners or operators of a facility permitted by the energy facility site evaluation council. The greenhouse gas reporting requirements imposed by the energy facility site evaluation council must be the same as the greenhouse gas reporting requirements imposed by the department. The department shall share any information reported to it from facilities permitted by the energy facility site evaluation council with the council, including notice of a facility that has failed to report as required. The energy facility site evaluation council shall contract with the department to monitor the reporting requirements adopted under this section.~~

~~(g)(i) The ~~((inclusion or failure to include any person, source, classes of persons or sources, or types of emissions of greenhouse gases into the department's rules for reporting under this section does not indicate whether such a person, source, or category is appropriate for inclusion in state, regional, or national greenhouse gas reduction programs or strategies. Furthermore, aircraft fuel purchased in the state may not be considered equivalent to aircraft fuel combusted in the state))~~ department must establish by rule the methods of verifying the accuracy of emissions reports.~~

~~(ii) Verification requirements apply at a minimum to persons required to report under (a) of this subsection with emissions that equal or exceed 25,000 metric tons of carbon dioxide equivalent emissions, including carbon dioxide from biomass-derived fuels, or to persons who have a compliance obligation under section 10 of this act in any year of the current compliance period. The department may adopt rules to accept verification reports from another jurisdiction with a linkage agreement pursuant to section 20 of this act in cases where the department deems that the methods or procedures are substantively similar.~~

~~(h)(i) The definitions in RCW 70A.45.010 apply throughout this subsection (5) unless the context clearly requires otherwise.~~

~~(ii) For the purpose of this subsection (5), the term "supplier" includes: (A) ~~((A motor vehicle fuel supplier or a motor vehicle fuel importer, as those terms are defined in RCW 82.36.010; (B) a special fuel supplier or a special fuel importer, as those terms are defined in RCW 82.38.020; and (C) a distributor of aircraft fuel, as those terms are defined in RCW 82.42.010))~~ Suppliers that produce, import, or deliver, or any combination of producing, importing, or delivering, a quantity of fuel products in Washington that, if completely combusted, oxidized, or used in other processes, would result in the release of greenhouse gases in Washington equivalent to or higher than the threshold established under (a) of this subsection; and (B) suppliers of carbon dioxide that produce, import, or deliver a quantity of carbon dioxide in Washington that, if released, would result in emissions equivalent to or higher than the threshold established under (a) of this subsection.~~

~~(iii) For the purpose of this subsection (5), the term "person" includes: (A) An owner or operator~~((, as those terms are defined by the United States environmental protection agency in its mandatory greenhouse gas reporting regulation in 40 C.F.R. Part 98, as adopted on September 22, 2009; and (B) a supplier))~~ of a facility; (B) a supplier; or (C) an electric power entity.~~

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(iv) For the purpose of this subsection (5), the term "facility" includes facilities that directly emit greenhouse gases in Washington equivalent to the threshold established under (a) of this subsection with at least one source category listed in the United States environmental protection agency's mandatory greenhouse gas reporting regulation, 40 C.F.R. Part 98 Subparts C through II and RR through UU, as adopted on April 25, 2011.

(v) For the purpose of this subsection (5), the term "electric power entity" includes any of the following that supply electric power in Washington with associated emissions of greenhouse gases equal to or above the threshold established under (a) of this subsection: (A) Electricity importers and exporters; (B) retail providers, including multijurisdictional retail providers; and (C) first jurisdictional deliverers, as defined in section 2 of this act, not otherwise included here.

NEW SECTION. Sec. 34. A new section is added to chapter 43.21C RCW to read as follows:

The review under this chapter of greenhouse gas emissions from a new or expanded facility subject to the greenhouse gas emission reduction requirements of chapter 70A--- RCW (the new chapter created in section 38 of this act) must occur consistent with section 10(9) of this act.

NEW SECTION. Sec. 35. A new section is added to chapter 70A.15 RCW to read as follows:

The department or a local air authority must issue an enforceable order under this chapter, consistent with section 3(2) (b) and (c) of this act, to all permitted or registered sources operating in overburdened communities when, consistent with section 3(2)(a) of this act, the department determines that criteria pollutants are not being reduced in an overburdened community and the department or local air authority adopts stricter air quality standards, emissions standards, or emissions limitations on criteria pollutants.

NEW SECTION. Sec. 36. A new section is added to chapter 70A.45 RCW to read as follows:

(4) For the first available appointment and at all times thereafter, one member of Washington's delegation to the council shall reside east of the crest of the Cascade Mountains and one member shall reside west of the crest of the Cascade Mountains, except as follows: Both members may reside on the same side of the Cascade Mountains as long as this deviation does not exceed 12 months in any 10-year period.

Sec. 44. RCW 70A.45.005 and 2020 c 120 s 2 and 2020 c 20 s 1397 are each reenacted and amended to read as follows:

(1) The legislature finds that Washington has long been a national and international leader on energy conservation and environmental stewardship, including air quality protection, renewable energy development and generation, emission standards for fossil-fuel based energy generation, energy efficiency programs, natural resource conservation, sustainable forestry and the production of forest products, vehicle emission standards, and the use of biofuels. Washington is also unique among most states in that in addition to its commitment to reduce emissions of greenhouse gases, it has established goals to grow the clean energy sector and reduce the state's expenditures on imported fuels.

(2) The legislature further finds that Washington should continue its leadership on climate change policy by creating accountability for achieving the emission reductions established in RCW 70A.45.020, participating in the design of a regional multisector market-based system to help achieve those emission reductions, assessing other market strategies to reduce emissions of greenhouse gases, maintaining and enhancing the state's ability

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

to continue to sequester carbon through natural and working lands and forest products, and ensuring the state has a well trained workforce for our clean energy future.

(3) It is the intent of the legislature that the state will: (a) Limit and reduce emissions of greenhouse gas consistent with the emission reductions established in RCW 70A.45.020; (b) minimize the potential to export pollution, jobs, and economic opportunities; (c) support industry sectors that can act as sequesterers of carbon; and (d) reduce emissions at the lowest cost to Washington's economy, consumers, and businesses.

(4) In the event the state elects to participate in a regional multisector market-based system, it is the intent of the legislature that the system will become effective by January 1, 2012, after authority is provided to the department for its implementation. By acting now, Washington businesses and citizens will have adequate time and opportunities to be well positioned to take advantage of the low-carbon economy and to make necessary investments in low-carbon technology.

(5) It is also the intent of the legislature that the regional multisector market-based system recognize Washington's unique emissions and sequestration portfolio, including the:

(a) State's hydroelectric system;

(b) Opportunities presented by Washington's abundant forest resources and the associated forest products industry, along with aquatic and agriculture land and the associated industries; and

(c) State's leadership in energy efficiency and the actions it has already taken that have reduced its generation of greenhouse gas emissions and that entities receive appropriate credit for early actions to reduce greenhouse gases.

(6) If any revenues, excluding those from state trust lands, that accrue to the state are created by a market system, they must be used for the purposes established in chapter 70A.--- RCW (the new chapter created in section 38 of this act) and to further the state's efforts to achieve the goals established in RCW 70A.45.020, address the impacts of global warming on affected habitats, species, and communities, promote and invest in industry sectors that act as sequesterers of carbon, and increase investment in the clean energy economy particularly for communities and workers that have suffered from heavy job losses and chronic unemployment and underemployment.

NEW SECTION. Sec. 45. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 46. (1) The department shall prepare, post on the department website, and submit to the appropriate committees of the legislature an annual report that identifies all distributions of moneys from the accounts created in sections 27 through 31 of this act.

(2) The report must identify, at a minimum, the recipient of the funding, the amount of the funding, the purpose of the funding, the actual end result or use of the funding, whether the project that received the funding produced any verifiable reduction in greenhouse gas emissions or other long-term impact to emissions, and if so, the quantity of reduced greenhouse gas emissions, the cost per carbon dioxide equivalent metric ton of reduced greenhouse gas emissions, and a comparison to other greenhouse gas emissions reduction projects in order to facilitate the development of cost-benefit ratios for greenhouse gas emissions reduction projects.

(3) The department shall require by rule that recipients of funds from the accounts created in sections 27 through 31 of this act report to the department, in a form and manner prescribed by the department, the information required for the department to carry out the department's duties established in this section.

2021 REGULAR SESSION

(4) The department shall update its website with the information described in subsection (2) of this section as appropriate but no less frequently than once per calendar year.

(5) The department shall submit its report to the appropriate committees of the legislature with the information described in subsection (2) of this section no later than September 30 of each year.

NEW SECTION. Sec. 47. RESIDENTIAL HEATING ASSISTANCE PROGRAM. (1) The legislature intends by this section to establish policies to mitigate the cost burden of the program established by this act on consumers who use home heating fuels that are not electricity or natural gas.

(2) The department, in collaboration with interested stakeholders, shall develop a proposal for assisting households that, for residential home heating, use fuels that are not electricity or natural gas. The proposal must give priority to assisting low-income households through weatherization, conservation and efficiency services, and bill assistance.

(3) In the event the department, in collaboration with interested stakeholders, determines that the proposal developed pursuant to subsection (2) of this section requires legislative action, the department shall submit its recommendations for proposed legislation to the appropriate committees of the legislature no later than September 15, 2022."

Correct the title.

and the same are herewith transmitted.

The department must provide grants to eligible organizations, as described in RCW 43.185.060, to provide assistance to program participants. The eligible organizations must use grant moneys for:

(a) Rental assistance, including rental arrears and future rent if needed to stabilize the applicant's housing and prevent their eviction;

(b) Utility assistance for households if needed to prevent an eviction; and

(c) Administrative costs of the eligible organization, which must not exceed limits prescribed by the department.

(2) Households eligible to receive assistance through the eviction prevention rental assistance program are those:

(a) With incomes at or below 80 percent of the county area median income;

(4)(a) Eligible grantees must actively work with organizations rooted in communities of color to assist and serve marginalized populations within their communities.

(b) At least 10 percent of the grant total must be subgranted to organizations that serve and are substantially governed by marginalized populations to pay the costs associated with program outreach, assistance completing applications for assistance, rent assistance payments, activities that directly support the goal of improving access to rent assistance for people of color, and related costs. Upon request by an eligible grantee or the county or city in which it exists, the department must provide a list of organizations that serve and are substantially governed by marginalized populations, if known.

(c) An eligible grantee may request an exemption from the department from the requirements under (b) of this subsection. The department must consult with the stakeholder group established under subsection (2)(c) of this section before granting an exemption. An eligible grantee may request an exemption only if the eligible grantee:

(i) Is unable to subgrant with an organization that serves and is substantially governed by marginalized populations; or

(ii) Provides the department with a plan to spend 10 percent of the grant total in a manner that the department determines will improve racial equity for historically underserved communities more effectively than a subgrant.

(5) The department must ensure equity by developing performance measures and benchmarks that promote both equitable program access and equitable program outcomes. Performance measures and benchmarks must be developed by the department in consultation with stakeholder groups, including persons at risk of homelessness due to unpaid rent, representatives of communities of color, homeless service providers, landlord representatives, local governments that administer homelessness assistance, a statewide association representing cities, a statewide association representing counties, a representative of homeless youth and young adults, and affordable housing advocates. (b) The department must provide counties with the right of first refusal to receive grant funds distributed under this subsection. If a county refuses the funds or does not respond within a time frame established by the department, the department must identify an

alternative grantee. The alternative grantee must distribute the funds in a manner that is in compliance with this chapter.

The annual report must be posted on the department's website. Along with each local government annual report, the department must produce and post information on the local government's homelessness spending from all sources by project during the prior state fiscal year in a format similar to the department's report under subsection (1)(c) of this section. If a local government fails to report or provides an inadequate or incomplete report, the department must take corrective action, which may include withholding state funding for homelessness assistance to the local government to enable the department to use such funds to contract with other public or nonprofit entities to provide homelessness assistance within the jurisdiction.

Sec. 4. RCW 43.185C.060 and 2020 c 357 s 915 are each amended to read as follows:

(1) The home security fund account is created in the state treasury, subject to appropriation. The state's portion of the surcharge established in RCW 36.22.179 and 36.22.1791 and section 1 of this act must be deposited in the account. Expenditures from the account may be used only for homeless housing programs as described in this chapter, including the eviction prevention rental assistance program established in section 2 of this act.

(2) The department must distinguish allotments from the account made to carry out the activities in RCW 43.330.167, 43.330.700 through 43.330.715, 43.330.911, 43.185C.010, 43.185C.250 through 43.185C.320, and 36.22.179(1)(b).

(3) The office of financial management must secure an independent expenditure review of state funds received under RCW 36.22.179(1)(b) on a biennial basis. The purpose of the review is to assess the consistency in achieving policy priorities within the private market rental housing segment for housing persons experiencing homelessness. The independent reviewer must notify the department and the office of financial management of its findings. The first biennial expenditure review, for the 2017-2019 fiscal biennium, is due February 1, 2020. Independent reviews conducted thereafter are due February 1st of each even-numbered year.

(4) During the 2019-2021 fiscal biennium, expenditures from the account may also be used for shelter capacity grants.

Sec. 5. RCW 43.185C.190 and 2011 1st sp.s. c 50 s 955 are each amended to read as follows:

The affordable housing for all account is created in the state treasury, subject to appropriation. The state's portion of the surcharges established in RCW 36.22.178 and section 1 of this act shall be deposited in the account. Expenditures from the account may only be used for affordable housing programs ~~(-During the 2011-2013 fiscal biennium, moneys in the account may be transferred to the home security fund)~~, including operations, maintenance, and services as described in section 1(1)(a) of this act.

NEW SECTION. Sec. 6. (1)(a) The legislature finds that affordable housing, housing instability, and homelessness are persistent and increasing problems throughout the state. Despite significant increases in financial resources by the federal, state, and local governments to address these problems, homelessness and the risk of becoming homeless has worsened in Washington since the legislature authorized the first homeless housing document recording surcharge in 2005. The number of unsheltered homeless encampments in greenbelts, under bridges,

and on our streets is a visible reminder that the current system is not working.

(b) The legislature finds that the COVID-19 pandemic has exacerbated and shed new light on the state's homelessness problems and forced communities and providers to reexamine the types and delivery of housing and services to individuals and families who are homeless or at risk of homelessness. As a result of the changing conditions COVID-19 created, the federal government has provided an infusion of funding for housing and services for homelessness populations in its COVID-19 relief bills to pursue different strategies to improve outcomes. Moreover, there are various proposals to increase state funding to address housing insecurity and homelessness, including this act to impose an additional document recording fee to fund an eviction prevention rental assistance program and other services to persons at risk or experiencing homelessness.

(c) The legislature also finds that there are many causes of homelessness and housing instability, including: (i) A shortage of affordable housing; (ii) local land use planning and property management policies that discourage the development of private sector housing stock to serve low and extremely low-income households; (iii) unemployment and lack of education and job skills to acquire an adequate wage job; (iv) mental health, developmental, and physical disabilities; (v) chemical and alcohol dependency; and (vi) family instability and conflict. The legislature intends to provide for an examination of the economic, social, and health causes of current and expected patterns of housing instability and homelessness, and to secure a common understanding of the contribution each has to the current crisis. The legislature intends for this examination to result in a widely accepted strategy for identifying how best to address homelessness in ways that: (A) Address the root causes of the problem; (B) clearly assign responsibilities of state and local government to address those causes; (C) support local control and provision of services at the local level to address specific community needs, recognizing each community must play a part in the solution; (D) respect property owner rights and encourage private sector involvement in solutions and service; and (E) develop pathways to permanent housing solutions and associated services to break the cycle of housing insecurity and homelessness.

(2)(a) The department of commerce must contract with the William D. Ruckelshaus center to conduct an examination of trends affecting, and policies guiding, the housing and services provided to individuals and families who are or at risk of homelessness in Washington. The center must also facilitate meetings and discussions to develop and implement a long-term strategy to improve services and outcomes for persons at risk or experiencing homelessness and develop pathways to permanent housing solutions.

(b) In fulfilling the requirements of this section, the center must work and consult with (i) willing participants representing tribal and local governments, local providers of housing and services for homeless populations, advocates and stakeholders representing the interests of homeless populations, mental health and substance abuse professionals, representatives of the business community and other organizations, and other representatives the center determines is a necessary participant to examine these issues; (ii) a group of legislators consisting of one member from each of the two largest caucuses in the senate and in the house of representatives appointed by the president of the senate and the speaker of the house of representatives, respectively; and (iii) three representatives of the executive branch appointed by the governor.

(c)(i) The center must conduct fact-finding and stakeholder discussions with participants identified in (b) of this subsection.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

These discussions must identify stakeholder concerns, barriers, opportunities, and desired principles for a long-term strategy to improve the outcomes and services for persons at risk or experiencing homelessness and develop pathways to permanent housing solutions.

(ii) The center must conduct fact-finding and stakeholder discussions with participants identified in (b) of this subsection to identify root causes of housing instability and homelessness within Washington state. This fact-finding should address root causes demographically within subpopulations of persons at risk or experiencing homelessness such as veterans and persons suffering from mental health or substance abuse issues. The fact-finding should also address root causes that may differ geographically or regionally. The fact-finding must identify existing statutory and regulatory issues that impede efforts to address root causes of housing instability and homelessness within Washington state.

(iii) The center must issue two reports of its fact-finding efforts and stakeholder discussions to the governor and the appropriate committees of the house of representatives and the senate. One report on the subjects covered in (c)(i) of this subsection is due December 1, 2021, and one on the subjects covered in (c)(ii) of this subsection is due December 1, 2022.

(d) The center must facilitate discussions between the stakeholders identified in this subsection (2) for the purposes of identifying options and recommendations to develop and implement a long-term strategy to improve the outcomes and service for persons at risk or experiencing homelessness and develop pathways to permanent housing solutions, including the manner and amount in which the state funds homelessness housing and services and performance measures that must be achieved to receive state funding. A report on this effort is due to the governor and the appropriate committees of the house of representatives and the senate by December 1, 2023."
