Other Appropriated Funds	\$65,139,000
TOTAL APPROPRIATION.....	\$94,195,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations in this section are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Funds in the account are provided solely for the information technology projects shown in LEAP omnibus documents IT-2019, dated April 25, 2019, and IT-2020, dated March 9, 2020, which is hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus documents IT-2019, dated April 25, 2019, and IT-2020, dated March 9, 2020, the state

treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. To facilitate transfer of unused moneys originally from other funds and accounts that were deposited into the information technology revolving account as associated with these same projects, and that are not expended by June 30, 2021, the state treasurer is directed to transfer money from other funds and accounts out of the information technology investment revolving account and deposit into the fund or account of origin in accordance with schedules provided by the office of financial management. However, restricted federal funds and qualified employee benefit and pension funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to the office of financial management and the office of the chief information officer to receive funding from the information technology investment revolving account. The office of financial management must notify the fiscal committees of the legislature of the receipt of each application and may not approve a funding request for ten business days from the date of notification.

(3) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by the office of the state chief information officer and office of financial management. Fifteen percent of total funding allocated by the office of financial management, or another amount as defined jointly by the office of financial management and the office of the state chief information officer, will be retained in the account, but remain allocated to that project. The retained funding will be released to the agency only after successful completion of that stage of the project. For the military department enhanced 911 next generation project and the one Washington project, the amount retained is increased to at least twenty percent of total funding allocated for any stage of that project.

(4)(a) Each project must have a technology budget. The technology budget must use a method similar to the state capital budget, identifying project costs, each fund source, and anticipated deliverables through each stage of the entire project investment and across fiscal periods and biennia from project onset through implementation and close out.

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit detailed financial information to the office of financial management and the office of the state chief information officer. The technology budget must describe the total cost of the project by fiscal month to include and identify:

- (i) Fund sources;
- (ii) Full time equivalent staffing level to include job classification assumptions;
- (iii) A discreet appropriation index and program index;
- (iv) Object and subobject codes of expenditures; and
- (v) Anticipated deliverables.

(c) If a project technology budget changes and a revised technology budget is completed, a comparison of the revised technology budget to the last approved technology budget must be posted to the dashboard, to include a narrative rationale on what changed, why, and how that impacts the project in scope, budget, and schedule.

(5)(a) Each project must have an investment plan that includes:

- (i) An organizational chart of the project management team that identifies team members and their roles and responsibilities;

(ii) The office of the state chief information officer staff assigned to the project;

(iii) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(iv) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(v) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(vi) Financial budget coding to include at least discreet program index and subobject codes.

(6) Projects with estimated costs greater than one hundred million dollars from initiation to completion and implementation may be divided into discrete subprojects as determined by the office of the state chief information officer, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget and investment plan as provided in this section.

(7)(a) The office of the state chief information officer shall maintain an information technology project dashboard that provides updated information each fiscal month on projects subject to this section. This includes, at least:

- (i) Project changes each fiscal month;
- (ii) Noting if the project has a completed market requirements document;
- (iii) Financial status of information technology projects under oversight;
- (iv) Coordination with agencies;
- (v) Monthly quality assurance reports, if applicable;
- (vi) Monthly office of the state chief information officer status reports;
- (vii) Historical project budget and expenditures through fiscal year 2019;
- (viii) Budget and expenditures each fiscal month; and
- (ix) Estimated annual maintenance and operations costs by fiscal year.

(b) The dashboard must retain a roll up of the entire project cost, including all subprojects, that can be displayed the subproject detail.

(8) If the project affects more than one agency:

(a) A separate technology budget and investment plan must be prepared for each agency; and

(b) The dashboard must contain a statewide project technology budget roll up that includes each affected agency at the subproject level.

(9) For any project that exceeds two million dollars in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Quality assurance for the project must report independently to the office of the chief information officer;

(b) The office of the chief information officer must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(c) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(d) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate

early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed; and

(e) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements.

(10) The office of the state chief information officer must evaluate the project at each stage and certify whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(11) The office of the state chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the state chief information officer must report on July 1 and December 1 each calendar year, beginning July 1, 2020, any suspension or termination of a project in the previous six month period to the legislative fiscal committees.

(12) The office of the state chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the state chief information officer must report on July 1 and December 1 each calendar year, beginning July 1, 2020, any additional projects to be subjected to this section that were identified in the previous six month period to the legislative fiscal committees.

(13) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

NEW SECTION. Sec. 205. FOR THE TRANSPORTATION COMMISSION

Motor Vehicle Account—State Appropriation	\$2,332,000
Interstate 405 and state Route Number 167 Express Toll Lanes Account—State Appropriation.....	\$127,000
State Route Number 520 Corridor Account—State Appropriation.....	\$276,000
Tacoma Narrows Toll Bridge Account—State Appropriation.....	\$180,000
Alaskan Way Viaduct Replacement Project Account—State Appropriation.....	\$172,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$127,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, \$276,000 of the state route number 520 corridor account—state appropriation, \$180,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$172,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the transportation commission's proportional share of time spent supporting tolling operations for the respective tolling facilities.

(2) The commission shall identify and measure how a road usage charge could be adjusted so that vehicles of comparable efficiency pay the same rate regardless of their means of propulsion and examine options for indexing to stabilize revenue as vehicle fleets become more efficient over time.

(3)(a) The transportation budget is currently reliant on vehicle and driver related fees. Motor vehicle registrations, driver licenses, tolls, and the motor vehicle fuel tax provide the primary revenues for the transportation budget. These user revenues no longer adequately support the transportation system's needs. Many of the transportation modes have no or little ability to generate revenue, yet are important elements of a functioning transportation network. Providing transportation options that do not involve passenger vehicles is critical. The tax burden in the transportation budget falls on people that own and drive vehicles. It fails to provide the money needed for the system quality that the people of Washington want.

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

(b) Therefore, the commission is directed to evaluate, identify, and consider agencies, programs, and activities that are currently funded in the transportation budget that provide a public good that might be paid for using other revenues. The commission is directed to make recommendations for potential changes to funding sources for the transportation system with the goal of providing funding to maintain existing transportation assets in a state of good repair without exclusively relying on vehicle owners or drivers as the revenue source. Preliminary findings must be presented to the Joint Transportation Committee by September 30, 2022, and a final report issued to the appropriate committees of the legislature by December 1, 2022.

The legislature also finds that the water connection provides an ongoing water supply that is necessary to the operation of the training facility, that the state is making use of the water connection for these public activities, and that any future incidental use of the municipal infrastructure put in place to support these activities will not impede the Washington state patrol's ongoing use of the water connection extension.

(b) \$2,220,000 of the transfer from the waste tire removal account—state appropriation to the motor vehicle account—state appropriation in this act, as required under RCW 70A.205.425, reimburses the motor vehicle account—state appropriation for the portion of the water project costs assigned by the agreement to properties, other than the Washington state patrol academy, that make use of the water connection while the agreement remains in effect. This reimbursement to the motor vehicle fund is intended to address any possibility that the termination of this agreement could be determined to result in the unconstitutional use of 18th amendment designated funds for nonhighway purposes under the constitution of the state of Washington; however, this transfer is not intended to indicate that the incidental use of this infrastructure by these properties necessarily requires such reimbursement under the state Constitution.

(b) As part of this pilot program, the owner of a for hire nonemergency medical transportation vehicle may apply to the department, county auditor or other agent, or subagent appointed by the director, for a high occupancy vehicle exempt decal for a for hire nonemergency medical transportation vehicle. The high occupancy vehicle exempt decal allows the for hire nonemergency medical transportation vehicle to use a high occupancy vehicle lane as specified in RCW 46.61.165 and 47.52.025 during the 2021-2023 fiscal biennium.

(c) For the exemption in this subsection to apply to a for hire nonemergency medical transportation vehicle, the decal:

(iii) Must be visible from the rear of the vehicle.

(d) The owner of a for hire nonemergency medical transportation vehicle or the owner's representative must apply for a high occupancy vehicle exempt decal on a form provided or approved by the department. The application must include:

(g) A high occupancy vehicle exempt decal may not be renewed and expires upon the termination of the pilot program established elsewhere in this act. The status as an exempt vehicle continues until suspended or revoked for misuse, or when the vehicle is no longer used as a for hire nonemergency medical transportation vehicle, or when the pilot program established elsewhere in this act is terminated.

(h) The department may adopt rules to implement this subsection.

(11) The department must place personal and company data elements in separate data fields to allow the department to select discrete data elements when providing information or data to persons or entities outside the department. Pursuant to the restrictions in federal and state law, a person's photo, social security number, or medical information must not be made available through public disclosure or data being provided under RCW 46.12.630 or 46.12.635.

(12) The department must work with any regional transit authority pursuant to RCW 82.44.135 to determine cost allocations that are based on actual costs and that would result in full cost recovery for administration and collection of the taxes.

The department must report actual cost allocations to the transportation committees of the legislature by January 1, 2022.

The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

(5) \$20,001,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected share of collecting toll revenues, operating customer services, and maintaining toll collection systems. (c) The office of financial management shall place the amounts provided in this subsection in unallotted status until the department submits a detailed progress report on the progress of the new tolling back office system. The director of the office of financial management or their designee shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.

(7) Out of funding appropriated in this section, the department shall contract with the state auditor's office for a performance audit of the department's project to replace its electronic toll collection system. (2) \$2,400,000 of the multimodal transportation account—state appropriation is provided solely for the pilot program established under RCW 47.04.355, to provide clean alternative fuel vehicle use opportunities to underserved communities and low to moderate income members of the workforce not readily served by transit or located in transportation corridors with emissions that exceed federal or state emissions standards.

(3)(a)(i) \$133,000 of the multimodal transportation account—state appropriation is provided solely for the purpose of conducting an assessment of options for the development, including potential features and costs, for a publicly available mapping and forecasting tool that provides locations and essential information of charging and refueling infrastructure to support forecasted levels of electric vehicle adoption, travel, and usage across Washington state as described in chapter . . . (Engrossed Substitute House Bill No. 1287), Laws of 2021 (preparedness for a zero emissions transportation future).

(ii) The assessment must include a review of existing infrastructure needs assessments, mapping and forecasting tools, environmental health disparity resources, and related modeling. It must be performed in consultation with the department of ecology, department of commerce, and office of equity, and include a stakeholder process to address community, public agency, and relevant public and private utility needs to determine the resources needed to facilitate statewide and local transportation electrification efforts to drive emission reductions consistent with RCW 70A.45.020.

The department must develop a strategy for grant award selection based on maximizing public benefits by: Facilitating residents' and businesses' ability to purchase and lease clean alternative fuel vehicles through increased access to public electric vehicle charging and refueling, facilitating a decline in vehicle emissions that would otherwise contribute to pollution and greenhouse gas emissions, and increasing equity of access to clean alternative fuel vehicles. The department shall use proposed grant matching funds as a criterion for selecting grant award recipients. When the publicly available mapping and forecasting tool in (a) of this subsection has been developed and is available to be used for this purpose, strategy development for grant award selection must include analysis of the information provided by the tool.

It is the intent of the legislature that any legal damages paid to the state as a result of a lawsuit related to contractual provisions for construction and delivery of the Alaskan Way

viaduct replacement project be used to repay project cost increases paid from the transportation partnership account—state funds.

(8) \$193,699,000 of the connecting Washington account—state appropriation is provided solely for the US 395 North Spokane Corridor project (M00800R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(c) It is the legislature's intent that the department shall construct a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the base project is fully funded, the funds must first be applied toward the completion of these two full single-point urban interchanges.

(14) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(15)(a) \$26,928,000 of the motor vehicle account—state appropriation and \$1,671,000 of the motor vehicle account—private/local appropriation are provided solely for supporting a project office and the continued work towards replacement of the Interstate 5 bridge across the Columbia river (G2000088).

When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

(c) During the 2021-2023 biennium the department shall have as a goal to:

(i) Conduct all work necessary to prepare and publish a draft SEIS;

(ii) Coordinate with regulatory agencies to begin the process of obtaining environmental approvals and permits;

(iii) Identify a locally preferred alternative; and

(iv) Begin preparing a final SEIS.

The department shall aim to provide progress reports on these activities to the governor and the transportation committees of the

(8) \$152,453,000 of the capital vessel replacement account—state appropriation is provided solely for the acquisition of a 144-car hybrid-electric vessel. The commencement of construction of new vessels for the ferry system is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing construction and preservation needs of the ferry system fleet of vessels. The legislature has determined that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shipyards. To accomplish construction of vessels in accordance with RCW 47.60.810, the prevailing shipbuilder, for vessels initially funded after July 1, 2020, is encouraged to follow the historical practice of subcontracting the construction of ferry superstructures to a separate nonaffiliated contractor located within the Puget Sound region, that is qualified in accordance with RCW 47.60.690.

(9) The capital vessel replacement account—state appropriation includes up to \$152,453,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(10) For the 2021-2023 biennium, the marine division shall provide to the office of financial management and the legislative transportation committees the following reports on ferry capital projects:

(a) On a semiannual basis the report must include a status update on projects with funding provided in (a)(i) through (iii) of this subsection including, but not limited to, the following:

- (ii) Anticipated cash flow and schedule changes; and
- (iii) Explanations for the changes.

- (i) What work has been done;
- (ii) How have schedules shifted; and
- (iii) Associated changes in funding among projects, accompanied by explanations for the changes.

(c) On an annual basis the report must include an update on the implementation of the maintenance management system with recommendations for using the system to improve the efficiency of project reporting under this subsection.

By November 15, 2022, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(7) \$12,077,000 of the multimodal transportation account—state appropriation is provided solely as expenditure authority for any insurance proceeds received by the state for Passenger Rail Equipment Replacement (project 700010C.) The department must use this expenditure authority only to purchase replacement equipment that has been competitively procured and for service recovery needs and corrective actions related to the December 2017 derailment.

(8) It is the intent of the legislature to encourage the department to pursue federal grant opportunities leveraging up to \$6,696,000 in connecting Washington programmed funds to be used as a state match to improve the state-owned Palouse river and Coulee City system. The amount listed in this subsection is not a commitment for future legislatures, but is the legislature's intent that future legislatures will work to approve biennial appropriations up to a state match share not to exceed \$6,696,000 of a grant award.

Sec. 713. RCW 34.05.350 and 2011 1st sp.s. c 2 s 1 are each amended to read as follows:

(1) If an agency for good cause finds:

(a) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest;

(b) That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule; or

(c) In order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, or in an omnibus transportation appropriations act for the 2021-2023 biennium related to setting toll rates, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency,

the agency may dispense with those requirements and adopt, amend, or repeal the rule on an emergency basis. The agency's finding and a concise statement of the reasons for its finding shall be incorporated in the order for adoption of the emergency rule or amendment filed with the office of the code reviser under RCW 34.05.380 and with the rules review committee.

(2) An emergency rule adopted under this section takes effect upon filing with the code reviser, unless a later date is specified in the order of adoption, and may not remain in effect for longer than one hundred twenty days after filing. Identical or substantially similar emergency rules may not be adopted in sequence unless conditions have changed or the agency has filed

notice of its intent to adopt the rule as a permanent rule, and is actively undertaking the appropriate procedures to adopt the rule as a permanent rule. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.

(3) Within seven days after the rule is adopted, any person may petition the governor requesting the immediate repeal of a rule adopted on an emergency basis by any department listed in RCW 43.17.010. Within seven days after submission of the petition, the governor shall either deny the petition in writing, stating his or her reasons for the denial, or order the immediate repeal of the rule. In ruling on the petition, the governor shall consider only whether the conditions in subsection (1) of this section were met such that adoption of the rule on an emergency basis was necessary. If the governor orders the repeal of the emergency rule, any sanction imposed based on that rule is void. This subsection shall not be construed to prohibit adoption of any rule as a permanent rule.

(d) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(3)(a) \$2,114,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, \$4,920,000 of the state route number 520 corridor account—state appropriation, \$2,116,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$2,776,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to finish implementing a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701 ~~((of this act))~~, chapter 219, Laws of 2020.

(b) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(4) The department shall make detailed quarterly reports to the transportation committees of the legislature and the public on the department's web site on the following:

(6) In calendar year 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2019-2021 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

The department shall provide this data in a report to the transportation committees of the legislature on at least a calendar quarterly basis.

(9) The department shall develop an ongoing cost allocation method to assign appropriate costs to each of the toll funds for services provided by each Washington state department of transportation program and all relevant transportation agencies, including the Washington state patrol and the transportation commission. This method should update the toll cost allocation method used in the 2020 supplemental transportation appropriations act. By December 1, 2020, a report with the recommended method and any changes or potential impacts to toll rates shall be submitted to the transportation committees of the legislature and the office of financial management.

The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

	<u>\$76,044,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2)(a) During the 2019-2021 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(c) The department shall expand the high occupancy vehicle lane access pilot program to organ transport vehicles transporting a time urgent organ for an organ procurement organization as defined in RCW 68.64.010. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, organ transport vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(d) The department shall expand the high occupancy vehicle lane access pilot program to private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a

vehicle, wheelchair-accessible taxicabs that are clearly and identifiably marked as such on all sides of the vehicle are considered public transportation vehicles and must be authorized to use the reserved portion of the highway.

(e) Nothing in this subsection (2) is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for express toll lanes.

(3) When regional transit authority construction activities are visible from a state highway, the department shall allow the regional transit authority to place safe and appropriate signage informing the public of the purpose of the construction activity.

(4) The department must make signage for low-height bridges a high priority.

The reason for the geographic selection of Spokane and Whatcom counties is based on the high utilization of studded tires in these jurisdictions. The public information campaigns must primarily focus on making the consumer aware of the safety implications for other drivers, road deterioration, financial impact for taxpayers, and, secondarily, the alternatives to studded tires. The Whatcom county pilot media-based public information campaign must begin by September 1, 2020. By January 14, 2021, the department must provide the transportation committees of the legislature an update on the Spokane and Whatcom county pilot media-based public information campaigns.

To receive a grant, the transit agency must, to the greatest extent practicable, have a maintenance of effort for special needs transportation that is no less than the previous year's maintenance of effort for special needs transportation. Grants for transit agencies must be prorated based on the amount expended for demand response service and route deviated service in calendar year 2017 as reported in the "Summary of Public Transportation - 2017" published by the department of transportation. Fuel type may not be a factor in the grant selection process.

(b) In order to be eligible to receive a grant under (a) of this subsection during the 2019-2021 fiscal biennium, a transit agency must establish a process for private transportation providers to apply for the use of park and ride facilities. No single business or nonprofit organization may receive more than ten thousand dollars from the program.

(i) Businesses and nonprofit organizations may apply and be awarded funds prior to purchasing a transit subsidy, but the department may not provide reimbursement until proof of purchase or a contract has been provided to the department.

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) To the extent practicable, the department shall use the flexibility and authority granted in this section to minimize the amount of reappropriations needed each biennium.

((47)) (16) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to

provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the appropriated amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) No allotment modifications may be made to amounts provided solely for the special needs transportation grant program;

(b) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this biennium;

This includes reporting after the 2020 legislative session on the measurable results of an early pilot initiative, "Telework Tuesday," beginning in January 2020.

(b) Capitol campus state agency management is directed to fully participate in this work, which aims to reduce greenhouse gases, require less office space and parking investments; provide low cost congestion relief on I-5 during peak periods, US 101, and the local transportation network; and improve retention and recruitment of public employees. The agencies should actively: Encourage employees qualified to telework to participate in this program and increase the number of employees who qualify for mobile work and schedule shifts.

(c) If measurable success is achieved, the capitol campus state agencies shall provide options to expand the project to other jurisdictions concentrated with large employers. Expansion and encouragement of telework will help reduce demand on the transportation system, reduce traffic during peak hours, and reduce greenhouse gas emissions.

(12)(a) (~~(\$422,099,000)~~) \$356,007,000 of the connecting Washington account—state appropriation and (~~(\$456,000)~~) \$400,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(b) Recognizing that the department of transportation requires full possession of parcel number 1-23190 to complete the Montlake Phase of the West End project, the department is directed to:

(i) Work with the operator of the Montlake boulevard market located on parcel number 1-23190 to negotiate a lease allowing continued operations up to January 1, 2020. After that time, the department shall identify an area in the vicinity of the Montlake property for a temporary market or other food service to be provided during the period of project construction. Should the current operator elect not to participate in providing that temporary service, the department shall then develop an outreach plan with the city to solicit community input on the food services provided, and then advertise the opportunity to other potential vendors. Further, the department shall work with the city of Seattle and existing permit processes to facilitate vendor access to and use of the area in the vicinity of the Montlake property.

(ii) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), WSDOT shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

Funds may be used only for the purpose of preserving, commemorating, and sharing the history of the city of Seattle's freeway protests and making the history of activism around the promotion of more integrated transportation and land use planning accessible to current and future generations through the preservation of Bent 2 of the R. H. Thompson freeway ramp.

(13) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(14) (~~(\$310,469,000)~~) \$172,911,000 of the connecting Washington account—state appropriation (~~(is)~~), \$12,599,000 of the motor vehicle account—private/local appropriation, \$2,500,000 of the motor vehicle account—state appropriation, and \$1,500,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(c) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(d) It is the legislature's intent that the department shall construct a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the base project is fully funded, the funds must first be applied toward the completion of these two full single-point urban interchanges.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(f) The department shall explore the development of a multiuse trail for bicyclists, pedestrians, skateboarders, and similar users along the SR 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park.

(g) If sufficient bonding authority to complete this project is not provided within chapter 421, Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter 421, Laws of 2019 by June 30, 2019, it is the intent of the legislature to return the Puget Sound Gateway project (M00600R) to its previously identified construction schedule by moving \$128,900,000 in connecting Washington account—state appropriation back to the 2027-2029 biennium from the 2023-2025 biennium on the list referenced in subsection (2) of this section. If sufficient bonding authority is provided, it is the intent of the legislature to advance the project to allow for earlier completion and inflationary savings.

(15) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(16) (~~(\$1,029,000)~~) \$1,030,000 of the transportation partnership account—state appropriation is provided solely for the U.S. 2 Trestle IJR project (L1000158).

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them

2021 REGULAR SESSION

through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) Any advisory group that the department convenes during the 2019-2021 fiscal biennium must consider the interests of the entire state of Washington.

(19) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2021, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(20)(a) For connecting Washington projects that have already begun and are eligible for the authority granted in section 601 (~~of this act~~), chapter 219, Laws of 2020, the department shall prioritize advancing the following projects if expected reappropriations become available:

- (i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);
- (ii) SR 305 Construction - Safety Improvements (N30500R);
- (iii) SR 14/Bingen Underpass (L2220062);
- (iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);
- (v) US Hwy 2 Safety (N00200R);
- (vi) US-12/Walla Walla Corridor Improvements (T20900R);
- (vii) I-5 JBLM Corridor Improvements (M00100R);
- (viii) I-5/Slater Road Interchange - Improvements (L1000099);
- (ix) SR 510/Yelm Loop Phase 2 (T32700R); or
- (x) SR 520/124th St Interchange (Design and Right of Way) (L1000098).

(b) To the extent practicable, the department shall use the flexibility and authority granted in this section and in section 601 of this act to minimize the amount of reappropriations needed each biennium.

(c) The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(21) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary

construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(22)(a) ~~(\$17,500,000)~~ \$8,072,000 of the motor vehicle account—state appropriation ~~(is)~~ and \$7,329,000 of the motor vehicle account—private/local appropriation are provided solely for staffing of a project office to replace the Interstate 5 bridge across the Columbia river (G2000088). If at least a \$9,000,000 transfer is not authorized in section 406(29), chapter 416, Laws of 2019, then \$9,000,000 of the motor vehicle account—state appropriation lapses.

~~(b) (Of the amount provided in this subsection, \$7,780,000 of the motor vehicle account—state appropriation must be placed in unallotted status by the office of financial management until the department develops a detailed plan for the work of this project office in consultation with the chairs and ranking members of the transportation committees of the legislature. The director of the office of financial management shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.~~

~~(e))~~ The work of this project office includes, but is not limited to, the reevaluation of the purpose and need identified for the project previously known as the Columbia river crossing, the reevaluation of permits and development of a finance plan, the reengagement of key stakeholders and the public, and the reevaluation of scope, schedule, and budget for a reinvigorated bistate effort for replacement of the Interstate 5 Columbia river bridge. When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

~~((d))~~ (c) Within the amount provided in this subsection, the department must implement chapter 137, Laws of 2019 (projects of statewide significance).

~~((e))~~ (d) The department shall have as a goal to:

- (i) Reengage project stakeholders and reevaluate the purpose and need and environmental permits by July 1, 2020;
- (ii) Develop a finance plan by December 1, 2020; and
- (iii) Have made significant progress toward beginning the supplemental environmental impact statement process by June 30, 2021. The department shall aim to provide a progress report on these activities to the governor and the transportation committees of the legislature by December 1, 2019, and a final report to the governor and the transportation committees of the legislature by December 1, 2020.

~~(23) (\$17,500,000 of the motor vehicle account—state appropriation is provided solely to begin the pre-design phase on the I-5/Columbia River Bridge project (G2000088).~~

(b) Of the amounts provided in this subsection, \$320,000 of the connecting Washington account—state appropriation is provided solely to remove the fish passage barrier on state route number 6

that interfaces with Boistfort Valley water utilities near milepost 46.6.

(c) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach to maximize habitat gain by replacing both state and local culverts. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, ability to leverage investments by others, presence of other barriers, project readiness, other transportation projects in the area, and transportation impacts.

(d) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(e) It is the intent of the legislature that for the amount listed for the 2021-2023 biennium for the Fish Passage Barrier Removal project (OB14001) on the LEAP list referenced in subsection (1) of this section, that accrued practical design savings deposited in the transportation future funding program account be used to help fund the cost of fully complying with the court injunction by 2030.

~~((25))~~ (24)(a) The Washington state department of transportation is directed to pursue compliance with the *U.S. v. Washington* permanent injunction by delivering culvert corrections within the injunction area guided by the principle of providing the greatest fisheries habitat gain at the earliest time and considering the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert condition, other transportation projects in the area, and transportation impacts.

(b) The department and Brian Abbott fish barrier removal board, while providing the opportunity for stakeholders, tribes, and government agencies to give input on a statewide culvert remediation plan, must provide updates on the development of the statewide culvert remediation plan to the capital budget, ways and means, and transportation committees of the legislature by November 1, 2020, and March 15, 2021. The first update must include a project timeline and plan to ensure that all state agencies with culvert correction programs are involved in the creation of the comprehensive plan. The department and Brian Abbott fish barrier removal board must submit the final comprehensive statewide culvert remediation plan and the process by which it will be adaptively managed over time to the governor and the legislative fiscal committees by June 30, 2021.

(b) If sufficient bonding authority to complete this project is not provided within chapter 421, Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter 421, Laws of 2019 by June 30, 2019, it is the intent of the legislature to remove the \$100,000,000 in toll funding from this project on the list referenced in subsection (2) of this section.

~~((28))~~ (27) For the I-405/North 8th Street Direct Access Ramp in Renton project (L1000280), if sufficient bonding authority to begin this project is not provided within chapter 421, Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter 421, Laws of 2019, it is the intent of the legislature to remove the project from the list referenced in subsection (2) of this section.

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2020) 2021-1 as developed March ((41, 2020)) 22, 2021, Program - Highway Preservation Program (P). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ((of this act)), chapter 219, Laws of 2020.

Any federal funds gained through efficiencies, adjustments to the federal funds forecast, additional congressional action not related to a specific project or purpose, or the federal funds redistribution process must then be applied to highway and bridge preservation activities or fish passage barrier corrections (0B14001).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act. Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised. The department shall submit a report on fiscal year funds transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

The land mobile radio project is subject to technical oversight by the office of the chief information officer. The department, in collaboration with the office of the chief information officer, shall identify where existing or proposed mobile radio technology investments should be consolidated, identify when existing or proposed mobile radio technology investments can be reused or leveraged to meet multiagency needs, increase mobile radio interoperability between agencies, and identify how redundant investments can be reduced over time. The department shall also provide quarterly reports to the technology services board on project progress.

(5) (~~(\$4,000,000)~~) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for extraordinary costs incurred from litigation awards, settlements, or dispute mitigation activities not eligible for funding from the self-insurance fund. The office of financial management may release the funds only when it determines that all other funds designated for litigation awards, settlements, and dispute mitigation activities have been exhausted. No funds provided in this subsection may be expended on any legal fees related to the SR 99/Alaskan Way viaduct replacement project (809936Z).

(6) The appropriation in this section includes funding for starting planning, engineering, and construction of the Elwha River bridge replacement. To the greatest extent practicable, the department shall maintain public access on the existing route.

The department shall issue FRIB program loans with a repayment period of no more than ten years, and charge only so much interest as is necessary to recoup the department's costs to administer the loans. The department shall report annually to the transportation committees of the legislature and the office of financial management on all FRIB loans issued.

(3) \$7,782,000 of the multimodal transportation account—state appropriation, \$51,000 of the transportation infrastructure account—state appropriation, and \$135,000 of the essential rail assistance account—state appropriation are provided solely for new statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in subsection (1) of this section.

(4) \$367,000 of the transportation infrastructure account—state appropriation and \$1,100,000 of the multimodal transportation account—state appropriation are provided solely to reimburse Highline Grain, LLC for approved work completed on Palouse River and Coulee City (PCC) railroad track in Spokane county between the BNSF Railway Interchange at Cheney and Geiger Junction and must be administered in a manner consistent with freight rail assistance program projects. The value of the public benefit of this project is expected to meet or exceed the cost of this project in: Shipper savings on transportation costs; jobs saved in rail-dependent industries; and/or reduced future costs to repair wear and tear on state and local highways due to fewer annual truck trips (reduced vehicle miles traveled). The amounts provided in this subsection are not a commitment for future legislatures, but it is the legislature's intent that future legislatures will work to approve biennial appropriations until the full \$7,337,000 cost of this project is reimbursed.

(5)(a) \$716,000 of the essential rail assistance account—state appropriation and \$82,000 of the multimodal transportation account—state appropriation are provided solely for the purpose of the rehabilitation and maintenance of the Palouse river and Coulee City railroad line (F01111B).

By November 15, 2020, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(7) ~~(\$10,000,000)~~ \$4,031,000 of the multimodal transportation account—state appropriation is provided solely as expenditure authority for any insurance proceeds received by the state for Passenger Rail Equipment Replacement (project 700010C.) The department must use this expenditure authority only to purchase replacement equipment that has been

competitively procured and for service recovery needs and corrective actions related to the December 2017 derailment.

(8) \$898,000 of the multimodal transportation account—federal appropriation and \$8,000 of the multimodal transportation account—state appropriation are provided solely for the Ridgefield Rail Overpass (project 725910A). Total costs for this project may not exceed \$909,000 across fiscal biennia.

(9)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2021-2023 fiscal biennium, the department may, on a pilot basis, apply funding from a project in this section with an appropriation that cannot be used for the current fiscal biennium to advance the South Kelso Railroad Crossing project (L1000147).

(b) At least ten business days before advancing the project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of the project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) To the extent practicable, the department shall use the flexibility and authority granted in this section to minimize the amount of reappropriations needed each biennium.

~~((41))~~ (11) The department must report to the joint transportation committee on the progress made on freight rail investment bank projects and freight rail assistance projects funded during this biennium by January 1, 2020.

~~((42))~~ (11) \$1,500,000 of the multimodal transportation account—state appropriation is provided solely for the Chelatchie Prairie railroad roadbed rehabilitation project (L1000233).

~~((43))~~ (12) \$250,000 of the multimodal transportation account—state appropriation is provided solely for the Port of Moses Lake Northern Columbia Basin railroad feasibility study (L1000235).

~~((48))~~ (15) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the appropriated amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this biennium;

(b) Allotment modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2019-2021 fiscal biennium

in LEAP Transportation Document ((2020)) 2021-2 ALL PROJECTS as developed March ((41, 2020)) 22, 2021;

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5128 with the following amendment(s): 5128-S2.E AMH ED H1314.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that the COVID-19 pandemic has significantly changed the delivery of education across the state, as school districts transition to remote learning environments to protect the health of students and staff. The legislature also recognizes that the role of transportation services has evolved alongside remote learning programs to help students equitably access the instructional program of basic education. As permitted by emergency proclamation, many school districts have adapted to remote learning by transporting meals, learning materials, and technology supports directly to students' homes or neighborhoods. Other school districts have used transportation resources to bring students to learning centers or other agencies where support services are provided.

This flexibility has allowed school districts to creatively use the resources at their disposal to equitably address the needs of students during an ongoing emergency.

With this act, the legislature intends to preserve this principle of flexibility for qualifying transportation services during a future local, state, or national emergency.

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

NEW SECTION. Sec. 2. A new section is added to chapter 28A.160 RCW to read as follows:

(1) If a school or school district is providing full remote or partial remote instruction under the authority of RCW 28A.150.290 due to a local, state, or national emergency that causes a substantial disruption to full in-person instruction then, in addition to the transportation services allowed under this chapter, the district may use student transportation allocations to provide the following expanded services to students, regardless of whether those students would qualify as eligible students under RCW 28A.160.160:

(a) Delivery of educational services necessary to provide students with the opportunity to equitably access educational services during the period of remote instruction. Delivery of educational services include the transportation of materials, hardware, and other supports that assist students in accessing remote instruction, internet connectivity, or the curriculum;

(b) Delivery of meals to students;

(c) Providing for the transportation of students to and from learning centers or other public or private agencies where educational and support services are being provided to students during the period of remote instruction. "Providing for" includes the provision of payments to allow students to use public transit to access the educational and support services; and

(d) Providing for the transportation of students to and from interscholastic and extracurricular activities.

(2) Nothing in this section is intended to limit a district's ability to use transportation allocations to pay for fixed transportation costs, such as school bus maintenance and basic administrative, regulatory, safety, or operational expenses.

(3) If a district provides expanded services under subsection (1) of this section, the district must track by a separate accounting code the expenditures incurred by the district in providing such services. This data must be included in the report required under RCW 28A.160.170(2).

Sec. 3. RCW 28A.160.160 and 2009 c 548 s 305 are each amended to read as follows:

For purposes of RCW 28A.160.150 through 28A.160.190, except where the context shall clearly indicate otherwise, the following definitions apply:

(1) "Eligible student" means any student served by the transportation program of a school district or compensated for individual transportation arrangements authorized by RCW 28A.160.030 whose route stop is outside the walk area for a student's school, except if the student to be transported is disabled under RCW 28A.155.020 and is either not ambulatory or not capable of protecting his or her own welfare while traveling to or from the school or agency where special education services are provided, in which case no mileage distance restriction applies.

(2) "Superintendent" means the superintendent of public instruction.

(3) "To and from school" means the transportation of students for the following purposes:

(a) Transportation to and from route stops and schools;

(b) Transportation to and from schools pursuant to an interdistrict agreement pursuant to RCW 28A.335.160;

(c) Transportation of students between schools and learning centers for instruction specifically required by statute; ~~(and)~~

(d) Transportation of students with disabilities to and from schools and agencies for special education services; and

(e) Transportation of students to and from interscholastic and extracurricular activities under section 2 of this act.

Academic extended day transportation for the instructional program of basic education under RCW 28A.150.220 shall be considered part of transportation of students "to and from school"

for the purposes of this section. Transportation for field trips may not be considered part of transportation of students "to and from school" under this section.

(4) "Transportation services" for students living within the walk area includes the coordination of walk-to-school programs, the funding of crossing guards, and matching funds for local and state transportation projects intended to mitigate hazardous walking conditions. Priority for transportation services shall be given to students in grades kindergarten through five.

(5) As used in this section, "walk area" means that area around a school with an adequate roadway configuration to provide students access to school with a walking distance of less than one mile. Mileage must be measured along the shortest roadway or maintained public walkway where hazardous conditions do not exist. The hazardous conditions must be documented by a process established in rule by the superintendent of public instruction and must include roadway, environmental, and social conditions. Each elementary school shall identify walk routes within the walk area.

Sec. 4. RCW 28A.160.170 and 2009 c 548 s 306 are each amended to read as follows:

Each district shall submit three times each year to the superintendent of public instruction during October, February, and May of each year a report containing the following:

(1)(a) The number of eligible students transported to and from school as provided for in RCW 28A.160.150, along with identification of stop locations and school locations, and (b) the number of miles driven for pupil transportation services as authorized in RCW 28A.160.150 the previous school year; and

(2) Other operational data and descriptions as required by the superintendent to determine allocation requirements for each district. The superintendent shall require that districts separate the costs of operating the program for the transportation of eligible students to and from school as defined by RCW 28A.160.160(3) ~~((from))~~, non-to-and-from-school pupil transportation costs, and costs to provide expanded services under section 2(1) of this act in the annual financial statement. The cost, quantity, and type of all fuel purchased by school districts for use in to-and-from-school transportation shall be included in the annual financial statement.

Each district shall submit the information required in this section on a timely basis as a condition of the continuing receipt of school transportation moneys.

NEW SECTION. Sec. 5. A new section is added to chapter 28A.710 RCW to read as follows:

Section 2 of this act governs school operation and management under RCW 28A.710.040 and applies to charter schools established under this chapter.

NEW SECTION. Sec. 6. A new section is added to chapter 28A.715 RCW to read as follows:

Section 2 of this act governs school operation and management under RCW 28A.715.020 and applies to state-tribal compact schools established under this chapter.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

MESSAGE FROM THE HOUSE

April 8, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5408 with the following amendment(s): 5408-S.E AMH FIN H1468.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the homestead exemption is intended to protect the homeowner's equity in a home against unsecured creditors. The legislature finds that changes to the homestead exemption are necessary to modernize the law and to address the case of *Wilson v. Rigby*, 909 F.3d 306 (2018) and to adopt the reasoning in *In re Good*, 588 B.R. 573 (Bankr. W.D. Wash. 2018).

Sec. 2. RCW 6.13.010 and 1999 c 403 s 1 are each amended to read as follows:

(1) The homestead consists of real or personal property that the owner ~~or a dependent of the owner~~ uses as a residence. In the case of a dwelling house or mobile home, the homestead consists of the dwelling house or the mobile home in which the owner resides or intends to reside, with appurtenant buildings, and the land on which the same are situated and by which the same are surrounded, or improved or unimproved land, regardless of area, owned with the intention of placing a house or mobile home thereon and residing thereon. A mobile home may be exempted under this chapter whether or not it is permanently affixed to the underlying land and whether or not the mobile home is placed upon a lot owned by the mobile home owner ~~or a dependent of the owner~~. Property included in the homestead must be actually intended or used as the principal home for the owner.

(2) As used in this chapter (~~the term "owner"~~):

(a) "Owner" includes but is not limited to a purchaser under a deed of trust, mortgage, or real estate contract.

~~((3) As used in this chapter, the term "net")~~ (b) "Net value" means market value less all liens and encumbrances senior to the judgment being executed upon and not including the judgment being executed upon.

(c) "Forced sale" includes any sale of homestead property in a bankruptcy proceeding under Title 11 of the United States Code. The reinvestment provisions of RCW 6.13.070 do not apply to the proceeds.

(d) "Dependent" has the meaning given in Title 11 U.S.C. Sec. 522(a)(1).

Sec. 3. RCW 6.13.030 and 2007 c 429 s 1 are each amended to read as follows:

~~(A homestead may consist of lands, as described in RCW 6.13.010, regardless of area, but the homestead exemption amount shall not exceed the lesser of (1) the total net value of the lands, manufactured homes, mobile home, improvements, and other personal property, as described in RCW 6.13.010, or (2) the~~

~~sum of one hundred twenty-five thousand dollars in the case of lands, manufactured homes, mobile home, and improvements, or the sum of fifteen thousand dollars in the case of other personal property described in RCW 6.13.010, except where)) (1) The homestead exemption amount is the greater of:~~

~~(a) \$125,000;~~

~~(b) The county median sale price of a single-family home in the preceding calendar year; or~~

~~(c) Where the homestead is subject to execution, attachment, or seizure by or under any legal process whatever to satisfy a judgment in favor of any state for failure to pay that state's income tax on benefits received while a resident of the state of Washington from a pension or other retirement plan, ((in which event there shall be)) no dollar limit ((on the value of the exemption)).~~

~~(2) In determining the county median sale price of a single-family home in the preceding year, a court shall use data from the Runstad department of real estate at the University of Washington or, if the Runstad department no longer provides the data, a successor entity designated by the office of financial management.~~

Sec. 4. RCW 6.13.060 and 2008 c 6 s 634 are each amended to read as follows:

The homestead of a spouse or domestic partner cannot be conveyed or encumbered unless the instrument by which it is conveyed or encumbered is executed and acknowledged by both spouses or both domestic partners, except that either spouse or both or either domestic partner or both jointly may make and execute powers of attorney for the conveyance or encumbrance of the homestead. The conveyance or encumbrance of the homestead does not require that any dependent of the owner who is not a spouse or domestic partner execute and acknowledge the instrument by which it is conveyed or encumbered.

Sec. 5. RCW 6.13.070 and 1987 c 442 s 207 are each amended to read as follows:

(1) Except as provided in RCW 6.13.080, the homestead is exempt from attachment and from execution or forced sale for the debts of the owner up to the amount specified in RCW 6.13.030.

(2) In a bankruptcy case, the debtor's exemption shall be determined on the date the bankruptcy petition is filed. If the value of the debtor's interest in homestead property on the petition date is less than or equal to the amount that can be exempted under RCW 6.13.030, then the debtor's entire interest in the property, including the debtor's right to possession and interests of no monetary value, is exempt. Any appreciation in the value of the debtor's exempt interest in the property during the bankruptcy case is also exempt, even if in excess of the amounts in RCW 6.13.030(1).

(3) The proceeds of the voluntary sale of the homestead in good faith for the purpose of acquiring a new homestead, and proceeds from insurance covering destruction of homestead property held for use in restoring or replacing the homestead property, up to the amount specified in RCW 6.13.030, shall likewise be exempt for one year from receipt, and also such new homestead acquired with such proceeds.

~~((2))~~ (4) Every homestead created under this chapter is presumed to be valid to the extent of all the property claimed exempt, until the validity thereof is contested in a court of general jurisdiction in the county or district in which the homestead is situated.

Sec. 6. RCW 6.13.080 and 2019 c 238 s 215 are each amended to read as follows:

The homestead exemption is not available against an execution or forced sale in satisfaction of judgments obtained:

(1) On debts secured by mechanic's, laborer's, construction, maritime, automobile repair, material supplier's, or vendor's liens

NINETY FOURTH DAY, APRIL 14, 2021

arising out of and against the particular property claimed as a homestead;

(2) On debts secured;

(a) ~~((by))~~ By security agreements describing as collateral the property that is claimed as a homestead; or

(b) ~~((by))~~ By mortgages or deeds of trust on the premises that have been executed and acknowledged by both spouses or both domestic partners or by any claimant not married or in a state registered domestic partnership. The execution and acknowledgment of a mortgage or deed of trust by a dependent who is not a spouse or domestic partner is not required;

(3) On one spouse's or one domestic partner's or the community's debts existing at the time of that spouse's or that domestic partner's bankruptcy filing where (a) bankruptcy is filed by both spouses or both domestic partners within a six-month period, other than in a joint case or a case in which their assets are jointly administered, and (b) the other spouse or other domestic partner exempts property from property of the estate under the bankruptcy exemption provisions of 11 U.S.C. Sec. 522(d);

(4) On debts arising from a lawful court order or decree or administrative order establishing a child support obligation or obligation to pay maintenance;

(5) On debts owing to the state of Washington for recovery of medical assistance correctly paid on behalf of an individual consistent with 42 U.S.C. Sec. 1396p;

(6) On debts secured by a condominium, homeowners', or common interest community association's lien; or

(7) On debts owed for taxes collected under chapters 82.08, 82.12, and 82.14 RCW but not remitted to the department of revenue.

Sec. 7. RCW 61.24.100 and 1998 c 295 s 12 are each amended to read as follows:

(1) Except to the extent permitted in this section for deeds of trust securing commercial loans, a deficiency judgment shall not be obtained on the obligations secured by a deed of trust against any borrower, grantor, or guarantor after a trustee's sale under that deed of trust.

(2)(a) Nothing in this chapter precludes an action against any person liable on the obligations secured by a deed of trust or any guarantor prior to a notice of trustee's sale being given pursuant to this chapter or after the discontinuance of the trustee's sale.

(b) No action under (a) of this subsection precludes the beneficiary from commencing a judicial foreclosure or trustee's sale under the deed of trust after the completion or dismissal of that action.

(3) This chapter does not preclude any one or more of the following after a trustee's sale under a deed of trust securing a commercial loan executed after June 11, 1998:

(a)(i) To the extent the fair value of the property sold at the trustee's sale to the beneficiary or an affiliate of the beneficiary is less than the unpaid obligation secured by the deed of trust immediately prior to the trustee's sale, an action for a deficiency judgment against the borrower or grantor, if such person or persons was timely given the notices under RCW 61.24.040, for (A) any decrease in the fair value of the property caused by waste to the property committed by the borrower or grantor, respectively, after the deed of trust is granted, and (B) the wrongful retention of any rents, insurance proceeds, or condemnation awards by the borrower or grantor, respectively, that are otherwise owed to the beneficiary.

(ii) This subsection (3)(a) does not apply to any property that is occupied by the borrower as its principal residence as of the date of the trustee's sale;

(b) Any judicial or nonjudicial foreclosures of any other deeds of trust, mortgages, security agreements, or other security

interests or liens covering any real or personal property granted to secure the obligation that was secured by the deed of trust foreclosed; or

(c) Subject to this section, an action for a deficiency judgment against a guarantor if the guarantor is timely given the notices under RCW 61.24.042.

(4) Any action referred to in subsection (3)(a) and (c) of this section shall be commenced within one year after the date of the trustee's sale, or a later date to which the liable party otherwise agrees in writing with the beneficiary after the notice of foreclosure is given, plus any period during which the action is prohibited by a bankruptcy, insolvency, moratorium, or other similar debtor protection statute. If there occurs more than one trustee's sale under a deed of trust securing a commercial loan or if trustee's sales are made pursuant to two or more deeds of trust securing the same commercial loan, the one-year limitation in this section begins on the date of the last of those trustee's sales.

(5) In any action against a guarantor following a trustee's sale under a deed of trust securing a commercial loan, the guarantor may request the court or other appropriate adjudicator to determine, or the court or other appropriate adjudicator may in its discretion determine, the fair value of the property sold at the sale and the deficiency judgment against the guarantor shall be for an amount equal to the sum of the total amount owed to the beneficiary by the guarantor as of the date of the trustee's sale, less the fair value of the property sold at the trustee's sale or the sale price paid at the trustee's sale, whichever is greater, plus interest on the amount of the deficiency from the date of the trustee's sale at the rate provided in the guaranty, the deed of trust, or in any other contracts evidencing the debt secured by the deed of trust, as applicable, and any costs, expenses, and fees that are provided for in any contract evidencing the guarantor's liability for such a judgment. If any other security is sold to satisfy the same debt prior to the entry of a deficiency judgment against the guarantor, the fair value of that security, as calculated in the manner applicable to the property sold at the trustee's sale, shall be added to the fair value of the property sold at the trustee's sale as of the date that additional security is foreclosed. This section is in lieu of any right any guarantor would otherwise have to establish an upset price pursuant to RCW 61.12.060 prior to a trustee's sale.

(6) A guarantor granting a deed of trust to secure its guaranty of a commercial loan shall be subject to a deficiency judgment following a trustee's sale under that deed of trust only to the extent stated in subsection (3)(a)(i) of this section. If the deed of trust encumbers the guarantor's principal residence, the guarantor shall be entitled to receive an amount up to ~~((the homestead exemption set forth in RCW 6.13.030))~~ \$125,000, without regard to the effect of RCW 6.13.080(2), from the bid at the foreclosure or trustee's sale accepted by the sheriff or trustee prior to the application of the bid to the guarantor's obligation.

(7) A beneficiary's acceptance of a deed in lieu of a trustee's sale under a deed of trust securing a commercial loan exonerates the guarantor from any liability for the debt secured thereby except to the extent the guarantor otherwise agrees as part of the deed in lieu transaction.

(8) This chapter does not preclude a beneficiary from foreclosing a deed of trust in the same manner as a real property mortgage and this section does not apply to such a foreclosure.

(9) Any contract, note, deed of trust, or guaranty may, by its express language, prohibit the recovery of any portion or all of a deficiency after the property encumbered by the deed of trust securing a commercial loan is sold at a trustee's sale.

(10) A trustee's sale under a deed of trust securing a commercial loan does not preclude an action to collect or enforce

any obligation of a borrower or guarantor if that obligation, or the substantial equivalent of that obligation, was not secured by the deed of trust.

(11) Unless the guarantor otherwise agrees, a trustee's sale shall not impair any right or agreement of a guarantor to be reimbursed by a borrower or grantor for a deficiency judgment against the guarantor.

(12) Notwithstanding anything in this section to the contrary, the rights and obligations of any borrower, grantor, and guarantor following a trustee's sale under a deed of trust securing a commercial loan or any guaranty of such a loan executed prior to June 11, 1998, shall be determined in accordance with the laws existing prior to June 11, 1998.

NEW SECTION. **Sec. 8.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

INTRODUCTION AND FIRST READING

SJM 8005 by Senators Liias, Kuderer, Hunt and Wellman
Concerning statehood for Washington, D.C.

Referred to Committee on State Government & Elections.

MOTIONS

On motion of Senator Liias, all measures listed on the Introduction and First Reading report were referred to the committees as designated.

At 1:10 p.m., on motion of Senator Liias, the Senate was declared to be at ease subject to the call of the President.

Senator Hasegawa announced a meeting of the Democratic Caucus.

Senator Rivers announced a meeting of the Republican Caucus.

The Senate was called to order at 3:18 p.m. by President Heck.

PERSONAL PRIVILEGE

Senator Liias: "Yes, Thank you Mr. President. It is my sad duty to inform our friends here in the Senate the passing of my predecessor in the Senate, Senator Paull Shin. Describing him as my predecessor doesn't capture all that Paull was to me. He was a friend and a mentor. Someone who helped guide our community. He also was an incredible trailblazer in his own life. He was an orphan, left abandoned by his parents on the streets of Korea during the Korean War, who was adopted by a G.I. who was serving in Korea and brought him here to the United States. And, Paull would share the simple phrase that his life was, he first learned his ABCs, then he got his GED, and then he got his Ph.D. He embodied the American dream in his own career. And throughout his life, faced so much challenge and hardship. When Paull and Donna met, they actually couldn't get married in the state that they fell in love in because of anti-miscegenation laws that were on the books. So, all throughout his life overcoming obstacle after obstacle after obstacle, ending up as the first Korean American here in the Senate. And I take special privilege in having the opportunity to follow in Paull's footsteps. I actually, the 2014 session would have been Paull's last, and he had to leave

us early because of illness, and I filled his final term. And, Paull taught me, and he used the phrase a lot with our constituents, that his service in the Legislature was payback time for all that our country had given him. And when I think about the opportunity to fill that final year of Paull's term, to me that was payback time to my friend for all that he had given to our community. It's incredibly difficult but on behalf of the Senate and all of our colleagues, we express our sadness to Donna, and to the Shin family, to the community who loved him so much. And Mr. President, I will long remember his contributions he made here and am eternally grateful for the opportunity to follow in his footsteps and serve alongside him and learn from him on this journey."

REMARKS BY THE PRESIDENT

President Heck: "Thank you Senator Liias, very well said. The President would like to note that he knew Senator Shin. He was a friend. He was a good Senator in every meaning of that phrase. And he was a good man. Thank you again Senator Liias.

MOTION

On motion of Senator Nguyen, the Senate reverted to the fourth order of business.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.55.181 and 2020 c 166 s 1 are each amended to read as follows:

(1)(a) In order to receive the permit review and approval process created in this section, a fish habitat enhancement project must meet the criteria under this section and must be a project to accomplish one or more of the following tasks:

(i) Elimination of human-made or caused fish passage barriers, including:

(A) Culvert repair and replacement; and

(B) Fish passage barrier removal projects that comply with the forest practices rules, as the term "forest practices rules" is defined in RCW 76.09.020;

(ii) Restoration of an eroded or unstable stream bank employing the principle of bioengineering, including limited use of rock as a stabilization only at the toe of the bank, and with primary emphasis on using native vegetation to control the erosive forces of flowing water;

(iii) Placement of woody debris or other instream structures that benefit naturally reproducing fish stocks; or

(iv) Restoration of native kelp and eelgrass beds and restoring native oysters.

(b) The department shall develop size or scale threshold tests to determine if projects accomplishing any of these tasks should be evaluated under the process created in this section or under other project review and approval processes. A project proposal shall not be reviewed under the process created in this section if the department determines that the scale of the project raises concerns regarding public health and safety.

(c) A fish habitat enhancement project must be approved in one of the following ways in order to receive the permit review and approval process created in this section:

(i) By the department pursuant to chapter 77.95 or 77.100 RCW;

(ii) By the sponsor of a watershed restoration plan as provided in chapter 89.08 RCW;

(iii) By the department as a department-sponsored fish habitat enhancement or restoration project;

(iv) Through the review and approval process for the jobs for the environment program;

~~((xi))~~ (xii) Through other formal review and approval processes established by the legislature.

(2) Fish habitat enhancement projects meeting the criteria of subsection (1) of this section are expected to result in beneficial impacts to the environment. Decisions pertaining to fish habitat enhancement projects meeting the criteria of subsection (1) of this section and being reviewed and approved according to the provisions of this section are not subject to the requirements of RCW 43.21C.030(2)(c).

(3)(a) A permit is required for projects that meet the criteria of subsection (1) of this section and are being reviewed and approved under this section. An applicant shall use a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. The department of transportation shall use the department's online permit application system or a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. On the same day, the applicant shall provide copies of the completed application form to the department and to each appropriate local government. Applicants for a forest practices hydraulic project that are not otherwise required to submit a joint aquatic resource permit application must submit a copy of their forest practices application to the appropriate local government on the same day that they submit the forest practices application to the department of natural resources.

(b) Local governments shall accept the application identified in this section as notice of the proposed project. Permitting decisions over forest practices hydraulic approvals must be made consistent with chapter 76.09 RCW.

(ii) For department of transportation fish passage barrier correction projects, the department of fish and wildlife shall, within 30 days, either issue a permit, with or without conditions, deny approval, or make a determination that the review and approval process created by this section is not appropriate for the proposed project.

(d) If the department determines that the review and approval process created by this section is not appropriate for the proposed project, the department shall notify the applicant and the appropriate local governments of its determination. The applicant may reapply for approval of the project under other review and approval processes.

(e) Any person aggrieved by the approval, denial, conditioning, or modification of a permit other than a forest practices hydraulic project under this section may appeal the decision as provided in RCW 77.55.021(8). (5) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from a fish enhancement project permitted by the department or the department of natural resources under the criteria of this section except upon proof of gross negligence or willful or wanton misconduct.

Sec. 2. RCW 90.58.147 and 2019 c 150 s 2 are each amended to read as follows:

(c) The local government has determined that the project is substantially consistent with the local shoreline master program. The local government shall make such determination in a timely manner and provide it by letter to the project proponent.

(b) The multiagency permit program staff must assist department project teams with developing complete biological assessments and permit applications, provide suggestions for how the project can avoid and minimize impacts, and provide input regarding mitigation for unavoidable impacts;

(2) Establish, implement, and maintain programmatic agreements and permits with federal and state agencies to expedite the process of ensuring compliance with the endangered species act, section 106 of the national historic preservation act, hydraulic project approvals, the clean water act, and other federal acts as appropriate;

(3) Collaborate with permitting staff from the United States army corps of engineers, Seattle district, department of ecology, and department of fish and wildlife to develop, implement, and maintain complete permit application guidance. The guidance must identify the information that is required for agencies to consider a permit application complete; ~~(and)~~

(4) Perform internal quality assurance and quality control to ensure that permit applications are complete before submitting them to the regulatory agencies; and

(5) Implement a multiagency effort, in coordination with the department of ecology and the department of fish and wildlife, and work with the relevant federal environmental permitting agencies to streamline the acquisition of commonly needed environmental permits and approvals for department of transportation fish passage barrier correction projects. Expected results include developing programmatic permit options that simplify the application process, reduce paperwork, and reduce the amount of time and cost it takes to acquire these permits and approvals."

In permitting such transfers, the governing body may not allow the tuition benefit to be bought, sold, bartered, or otherwise exchanged for goods and services by either the beneficiary or the purchaser.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) The governing body shall adopt a unit price of no more than 10 percent, including administrative fees, above the current unit payout value if:

(a) The best estimate funded status of the program provided by the state actuary is in excess of at least 120 percent as of July 1st of each year; and

(b) Tuition and fee increases for the academic year immediately following the July 1st best estimate funded status will be no more than the average annual percentage growth rate in the median hourly wage for Washington for the previous 14 years as the wage is determined by the federal bureau of labor statistics.

(8) For units purchased at the 2020-21 unit price, the governing body shall grant additional units to each account holder equivalent to the difference between the 2020-21 unit price and the 2020-21 unit payout value, after adjusting the unit payout value 10 percent above the current price, including administrative fees, as determined by the governing body.

(9) For the 2015-16 and 2016-17 academic years only, the governing body shall set the payout value for units redeemed during that academic year only at one hundred seventeen dollars and eighty-two cents per unit. For academic years after the 2016-

17 academic year, the governing body shall make program adjustments it deems necessary and appropriate to ensure that the total payout value of each account on October 9, 2015, is not decreased or diluted as a result of the initial application of any changes in tuition under section 3, chapter 36, Laws of 2015 3rd sp. sess. In the event the committee or governing body provides additional units under chapter 36, Laws of 2015 3rd sp. sess., the committee and governing body shall also increase the maximum number of units that can be redeemed in any year to mitigate the reduction in available account value during any year as a result of chapter 36, Laws of 2015 3rd sp. sess. The governing body must notify holders of tuition units after the adjustment in this subsection is made and must include a statement concerning the adjustment.

~~((8))~~ (10) The governing body shall allow account owners who purchased units before July 1, 2015, to redeem such units at the unit cash value price provided that all the redeemed funds are deposited immediately into an eligible Washington college savings program account established by the governing body. Within ninety days of April 15, 2018, the committee, in consultation with the state actuary and state investment board, shall:

(a) Establish a period that is not less than ninety days during which eligible purchasers may redeem units at the unit cash value price for the purposes of this subsection and provide at least thirty days' notice prior to the ninety-day window to all eligible account holders about the redemption option; and

(b) Establish the unit cash value price. The committee, in consultation with the state actuary and the state investment board, may revalue the unit cash value price established in this subsection ~~((8))~~ (10)(b) up to three times during the ninety-day period in which eligible purchasers may redeem units for the unit cash value price.

~~((9))~~ (11)(a) After the governing body completes the requirements of subsection ~~((8))~~ (10) of this section, the governing body shall adjust, by March 1, 2019, all remaining unredeemed units purchased before July 1, 2015, as follows:

(i) First, the governing body shall take the difference between the average unit purchase price in each individual's account and the 2016-17 unit payout value and increase the number of units in each individual's account by a number of units of equivalent total value at the 2017-18 unit purchase price, if the average unit purchase price is more than the 2016-17 unit payout value; and

(ii) Second, after (a)(i) of this subsection is completed, the governing body, with assistance from the state actuary, shall grant an additional number of units to each account holder with unredeemed and purchased units before July 1, 2015, in order to lower the best-estimate funded status of the program to one hundred twenty-five percent, subject to a limit of an increase of fifteen percent of unredeemed and purchased units per account holder. The state actuary shall select the measurement date, assumptions, and methods necessary to perform an actuarial measurement consistent with the purpose of this subsection.

(b) For the purpose of this subsection ~~((9))~~ (11), and for account holders with uncompleted custom monthly contracts, the governing body shall only include purchased and unredeemed units before July 1, 2015.

~~((4))~~ (12) The governing body shall collect an amortization fee as a component of each future unit sold whenever the governing body determines amortization fees are necessary to increase the best-estimate funded status of the program.

~~((1))~~ (13) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program. Materials and online publications advertising the Washington advanced college tuition payment program shall

include a disclaimer that the Washington advanced college tuition payment program's guarantee is that one hundred tuition units will equal one year of full-time, resident, undergraduate tuition at the most expensive state institution of higher education, and that if resident, undergraduate tuition is reduced, a tuition unit may lose monetary value.

~~((42))~~ (14) In addition to any other powers conferred by this chapter, the governing body may:

(a) Impose reasonable limits on the number of tuition units or units that may be used in any one year;

(b) Determine and set any time limits, if necessary, for the use of benefits under this chapter;

(c) Impose and collect administrative fees and charges in connection with any transaction under this chapter;

(d) Appoint and use advisory committees and the state actuary as needed to provide program direction and guidance;

(e) Formulate and adopt all other policies and rules necessary for the efficient administration of the program;

(f) Consider the addition of an advanced payment program for room and board contracts and also consider a college savings program;

(g) Purchase insurance from insurers licensed to do business in the state, to provide for coverage against any loss in connection with the account's property, assets, or activities or to further insure the value of the tuition units;

(h) Make, execute, and deliver contracts, conveyances, and other instruments necessary to the exercise and discharge of its powers and duties under this chapter;

(i) Contract for the provision for all or part of the services necessary for the management and operation of the program with other state or nonstate entities authorized to do business in the state;

(j) Contract for other services or for goods needed by the governing body in the conduct of its business under this chapter;

(k) Contract with financial consultants, actuaries, auditors, and other consultants as necessary to carry out its responsibilities under this chapter;

(l) Solicit and accept cash donations and grants from any person, governmental agency, private business, or organization; and

(m) Perform all acts necessary and proper to carry out the duties and responsibilities of this program under this chapter."

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5295 with the following amendment(s): 5295-S.E AMH ENGR H1406.E

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) To provide clarity and certainty to stakeholders on the details of performance-based regulation, the utilities and transportation commission is directed to conduct a proceeding to develop a policy statement addressing alternatives to traditional cost of service rate making, including performance measures or goals, targets, performance incentives, and penalty mechanisms. As part of such a proceeding, the utilities and transportation commission must consider factors including, but not limited to, lowest reasonable cost planning, affordability, increases in energy burden, cost of service, customer satisfaction and engagement, service reliability, clean energy or renewable procurement, conservation acquisition, demand side management expansion, rate stability, timely

execution of competitive procurement practices, attainment of state energy and emissions reduction policies, rapid integration of renewable energy resources, and fair compensation of utility employees.

(2) In developing its policy statement, the utilities and transportation commission must in its proceeding allow for participation and consultation with regulated utilities, the attorney general's office, and other interested stakeholders including, but not limited to, residential, industrial, commercial, and low-income customers and organizations, as well as environmental or community organizations and stakeholders.

(3) By January 1, 2022, the utilities and transportation commission shall notify the chairs and ranking members of the appropriate committees of the legislature of the process to date, the expected duration of, and work plan associated with this proceeding.

NEW SECTION. Sec. 2. A new section is added to chapter 80.28 RCW to read as follows:

(1) Beginning January 1, 2022, every general rate case filing of a gas or electrical company must include a proposal for a multiyear rate plan as provided in this chapter. The commission may, by order after an adjudicative proceeding as provided by chapter 34.05 RCW, approve, approve with conditions, or reject, a multiyear rate plan proposal made by a gas or electrical company or an alternative proposal made by one or more parties, or any combination thereof. The commission's consideration of a proposal for a multiyear rate plan is subject to the same standards applicable to other rate filings made under this title, including the public interest and fair, just, reasonable, and sufficient rates. In determining the public interest, the commission may consider such factors including, but not limited to, environmental health and greenhouse gas emissions reductions, health and safety concerns, economic development, and equity, to the extent such factors affect the rates, services, and practices of a gas or electrical company regulated by the commission.

(2) The commission may approve, disapprove, or approve with modifications any proposal to recover from ratepayers up to five percent of the total revenue requirement approved by the commission for each year of a multiyear rate plan for tariffs that reduce the energy burden of low-income residential customers including, but not limited to: (a) Bill assistance programs; or (b) one or more special rates. For any multiyear rate plan approved under this section resulting in a rate increase, the commission must approve an increase in the amount of low-income bill assistance to take effect in each year of the rate plan where there is a rate increase. At a minimum, the amount of such low-income assistance increase must be equal to double the percentage increase, if any, in the residential base rates approved for each year of the rate plan. The commission may approve a larger increase to low-income bill assistance based on an appropriate record.

(3)(a) If it approves a multiyear rate plan, the commission shall separately approve rates for each of the initial rate year, the second rate year and, if applicable, the third rate year, and the fourth rate year.

(b) The commission shall ascertain and determine the fair value for rate-making purposes of the property of any gas or electrical company that is or will be used and useful under RCW 80.04.250 for service in this state by or during each rate year of the multiyear rate plan. For the initial rate year, the commission shall, at a minimum, ascertain and determine the fair value for rate-making purposes of the property of any gas or electrical company that is used and useful for service in this state as of the rate effective date. The commission may order refunds to customers if property expected to be used and useful by the rate effective date when the

commission approves a multiyear rate plan is in fact not used and useful by such a date.

(c) The commission shall ascertain and determine the revenues and operating expenses for rate-making purposes of any gas or electrical company for each rate year of the multiyear rate plan.

(d) In ascertaining and determining the fair value of property of a gas or electrical company pursuant to (b) of this subsection and projecting the revenues and operating expenses of a gas or electrical company pursuant to (c) of this subsection, the commission may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at fair, just, reasonable, and sufficient rates.

(e) If the commission approves a multiyear rate plan with a duration of three or four years, then the electrical company must update its power costs as of the rate effective date of the third rate year. The proceeding to update the electrical company's power costs is subject to the same standards that apply to other rate filings made under this title.

(4) Subject to subsection (5) of this section, the commission may by order establish terms, conditions, and procedures for a multiyear rate plan and ensure that rates remain fair, just, reasonable, and sufficient during the course of the plan.

(5) Notwithstanding subsection (4) of this section, a gas or electrical company is bound by the terms of the multiyear rate plan approved by the commission for each of the initial rate year and the second rate year. A gas or electrical company may file a new multiyear rate plan in accordance with this section for the third rate year and fourth rate year, if any, of a multiyear rate plan.

(6) If the annual commission basis report for a gas or electrical company demonstrates that the reported rate of return on rate base of the company for the 12-month period ending as of the end of the period for which the annual commission basis report is filed is more than .5 percent higher than the rate of return authorized by the commission in the multiyear rate plan for such a company, the company shall defer all revenues that are in excess of .5 percent higher than the rate of return authorized by the commission for refunds to customers or another determination by the commission in a subsequent adjudicative proceeding. If a multistate electrical company with fewer than 250,000 customers in Washington files a multiyear rate plan that provides for no increases in base rates in consecutive years beyond the initial rate year, the commission shall waive the requirements of this subsection provided that such a waiver results in just and reasonable rates.

(7) The commission must, in approving a multiyear rate plan, determine a set of performance measures that will be used to assess a gas or electrical company operating under a multiyear rate plan. These performance measures may be based on proposals made by the gas or electrical company in its initial application, by any other party to the proceeding in its response to the company's filing, or in the testimony and evidence admitted in the proceeding. In developing performance measures, incentives, and penalty mechanisms, the commission may consider factors including, but not limited to, lowest reasonable cost planning, affordability, increases in energy burden, cost of service, customer satisfaction and engagement, service reliability, clean energy or renewable procurement, conservation acquisition, demand side management expansion, rate stability, timely execution of competitive procurement practices, attainment of state energy and emissions reduction policies, rapid integration of renewable energy resources, and fair compensation of utility employees.

(8) Nothing in this section precludes any gas or electrical company from making filings required or permitted by the commission.

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

(9) The commission shall align, to the extent practical, the timing of approval of a multiyear rate plan of an electrical company submitted pursuant to this section with the clean energy implementation plan of the electrical company filed pursuant to RCW 19.405.060.

(10) The provisions of this section may not be construed to limit the existing rate-making authority of the commission.

Sec. 3. RCW 80.28.068 and 2009 c 32 s 1 are each amended to read as follows:

~~((Upon))~~ (1) Upon its own motion, or upon request by an electrical or gas company, or other party to a general rate case hearing, or other proceeding to set rates, the commission may approve rates, charges, services, and/or physical facilities at a discount, or through grants, for low-income senior customers and low-income customers. Expenses and lost revenues as a result of these discounts, grants, or other low-income assistance programs shall be included in the company's cost of service and recovered in rates to other customers. Each gas or electrical company must propose a low-income assistance program comprised of a discount rate for low-income senior customers and low-income customers as well as grants and other low-income assistance programs. The commission shall approve, disapprove, or approve with modifications each gas or electrical company's low-income assistance discount rate and grant program. The gas or electrical company must use reasonable and good faith efforts to seek approval for low-income program design, eligibility, operation, outreach, and funding proposals from its low-income and equity advisory groups in advance of filing such proposals with the commission. In order to remove barriers and to expedite assistance, low-income discounts or grants approved under this section must be provided in coordination with community-based organizations in the gas or electrical company's service territory including, but not limited to, grantees of the department of commerce, community action agencies, and community-based nonprofit organizations. Nothing in this section may be construed as limiting the commission's authority to approve or modify tariffs authorizing low-income discounts or grants.

(2) Eligibility for a low-income discount rate or grant established in this section may be established upon verification of a low-income customer's receipt of any means-tested public benefit, or verification of eligibility for the low-income home energy assistance program, or its successor program, for which eligibility does not exceed the low-income definition set by the commission pursuant to RCW 19.405.020. The public benefits may include, but are not limited to, assistance that provides cash, housing, food, or medical care including, but not limited to, temporary assistance for needy families, supplemental security income, emergency assistance to elders, disabled, and children, supplemental nutrition assistance program benefits, public housing, federally subsidized or state-subsidized housing, the low-income home energy assistance program, veterans' benefits, and similar benefits.

(3) Each gas or electrical company shall conduct substantial outreach efforts to make the low-income discounts or grants available to eligible customers and must provide annual reports to the commission as to the gas or electrical company's outreach activities and results. Such outreach: (a) Shall be made at least semiannually to inform customers of available rebates, discounts, credits, and other cost-saving mechanisms that can help them lower their monthly bills for gas or electrical service; and (b) may be in the form of any customary and usual methods of communication or distribution including, without limitation, widely broadcast communications with customers, direct mailing, telephone calls, electronic communications, social media postings, in-person contacts, websites of the gas or electrical

company, press releases, and print and electronic media, that are designed to increase access to and participation in bill assistance programs.

(4) Outreach may include establishing an automated program of matching customer accounts with lists of recipients of the means-tested public benefit programs and, based on the results of the matching program, to presumptively offer a low-income discount rate or grant to eligible customers so identified. However, the gas or electrical company must within 60 days of the presumptive enrollment inform such a low-income customer of the presumptive enrollment and all rights and obligations of a customer under the program, including the right to withdraw from the program without penalty.

(5) A residential customer eligible for a low-income discount rate must receive the service on demand.

(6) A residential customer may not be charged for initiating or terminating low-income discount rates, grants, or any other form of energy assistance.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Energy burden" has the same meaning as defined in RCW 19.405.020.

(b) "Low-income" has the same meaning as defined in RCW 19.405.020.

(c) "Physical facilities" includes, but may not be limited to, a community solar project as defined in RCW 80.28.370.

NEW SECTION. Sec. 4. A new section is added to chapter 80.28 RCW to read as follows:

(1) A gas company or electrical company shall, upon request, enter into one or more written agreements with organizations that represent broad customer interests in regulatory proceedings conducted by the commission, subject to commission approval in accordance with subsection (2) of this section, including but not limited to organizations representing low-income, commercial, and industrial customers, vulnerable populations, or highly impacted communities. The agreement must govern the manner in which financial assistance may be provided to the organization. More than one gas company, electrical company, or organization representing customer interests may join in a single agreement. Any agreement entered into under this section must be approved, approved with modifications, or rejected by the commission. The commission must consider whether the agreement is consistent with a reasonable allocation of financial assistance provided to organizations pursuant to this section among classes of customers of the gas or electrical company.

(2) Before administering an agreement entered into under subsection (1) of this section, the commission shall, by rule or order, determine:

(a) The amount of financial assistance, if any, that may be provided to any organization;

(b) The manner in which the financial assistance is distributed;

(c) The manner in which the financial assistance is recovered in the rates of the gas company or electrical company under subsection (3) of this section; and

(d) Other matters necessary to administer the agreement.

(3) The commission shall allow a gas company or electrical company that provides financial assistance under this section to recover the amounts provided in rates. The commission shall allow a gas company or electrical company to defer inclusion of those amounts in rates if the gas company or electrical company so elects. An agreement under this section may not provide for payment of any amounts to the commission.

(4) Organizations representing vulnerable populations or highly impacted communities must be prioritized for funding under this section.

Sec. 5. RCW 80.28.074 and 1988 c 166 s 1 are each amended to read as follows:

The legislature declares it is the policy of the state to:

- (1) Preserve affordable (~~((natural gas and electric))~~) energy services to the residents of the state;
- (2) Maintain and advance the efficiency and availability of (~~((natural gas and electric))~~) energy services to the residents of the state of Washington;
- (3) Ensure that customers pay only reasonable charges for (~~((natural gas and electric service))~~) energy services;
- (4) Permit flexible pricing of (~~((natural gas and electric))~~) energy services.

NEW SECTION. Sec. 6. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Correct the title.

MESSAGE FROM THE HOUSE

April 5, 2021

MR. PRESIDENT:

The House passed SENATE BILL NO. 5299 with the following amendment(s): 5299 AMH ED H1398.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.230.300 and 2019 c 180 s 2 are each amended to read as follows:

(1) Beginning no later than the 2022-23 school year, each school district that operates a high school must, at a minimum, provide an opportunity to access an elective computer science course that is available to all high school students. School districts are encouraged to consider community-based or public-private partnerships in establishing and administering a course, but any course offered in accordance with this section must be aligned to the state learning standards for computer science or mathematics.

(2) In accordance with the requirements of this section, beginning in the 2019-20 school year, school districts may award academic credit for computer science to students based on student completion of a competency examination that is aligned with the state learning standards for computer science or mathematics and course equivalency requirements adopted by the office of the superintendent of public instruction to implement this section. Each school district board of directors in districts that award credit under this subsection shall develop a written policy for awarding such credit that includes:

- (a) A course equivalency approval procedure;
- (b) Procedures for awarding competency-based credit for skills learned partially or wholly outside of a course; and
- (c) An approval process for computer science courses taken before attending high school under RCW 28A.230.090 (4) and (5).

(3) Prior to the use of any competency examination under this section that may be used to award academic credit to students, the office of the superintendent of public instruction must review the examination to ensure its alignment with:

(a) The state learning standards for computer science or mathematics; and

(b) Course equivalency requirements adopted by the office of the superintendent of public instruction to implement this section.

(4)(a) For purposes of meeting graduation requirements under RCW 28A.230.090, a student may substitute a computer science course aligned to state computer science learning standards as an alternative to a third year mathematics or third year science course if:

(i) Prior to the substitution, the school counselor provides the student and the student's parent or guardian with written notification of the consequences of the substitution on postsecondary opportunities;

(ii) The student, the student's parent or guardian, and the student's school counselor or principal agree to the substitution; and

(iii) The substitution is aligned with the student's high school and beyond plan.

(b) A substitution permitted under this subsection (4) may only be used once per student.

Sec. 2. RCW 28A.230.090 and 2020 c 307 s 6 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and 28A.655.250 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of

2021 REGULAR SESSION

the American Indian peoples who were the first inhabitants of the state.

(b) Except as provided otherwise in this subsection, the certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation. The requirement to earn a certificate of academic achievement to qualify for graduation from a public high school concludes with the graduating class of 2019. The obligation of qualifying students to earn a certificate of individual achievement as a prerequisite for graduation from a public high school concludes with the graduating class of 2021.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and inform course taking that is aligned with the student's goals for education or training and career after high school.

(ii)(A) A high school and beyond plan must be initiated for each student during the seventh or eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(B) For students with an individualized education program, the high school and beyond plan must be developed in alignment with their individualized education program. The high school and beyond plan must be developed in a similar manner and with similar school personnel as for all other students.

(iii)(A) The high school and beyond plan must be updated to reflect high school assessment results in RCW 28A.655.070(3)(b) and to review transcripts, assess progress toward identified goals, and revised as necessary for changing interests, goals, and needs. The plan must identify available interventions and academic support, courses, or both, that are designed for students who are not on track to graduate, to enable them to fulfill high school graduation requirements. Each student's high school and beyond plan must be updated to inform junior year course taking.

(B) For students with an individualized education program, the high school and beyond plan must be updated in alignment with their school to postschool transition plan. The high school and beyond plan must be updated in a similar manner and with similar school personnel as for all other students.

(iv) School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan, and the plan must be provided to the students' parents or guardians in their native language if that language is one of the two most frequently spoken non-English languages of students in the district. Nothing in this subsection (1)(c)(iv) prevents districts from providing high school and beyond plans to parents and guardians in additional languages that are not required by this subsection.

(v) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) Identification of dual credit programs and the opportunities they create for students, including eligibility for automatic enrollment in advanced classes under RCW 28A.320.195, career and technical education programs, running start programs, AP courses, international baccalaureate programs, and college in the high school programs;

(D) Information about the college bound scholarship program established in chapter 28B.118 RCW;

(E) A four-year plan for course taking that:

(I) Includes information about options for satisfying state and local graduation requirements;

(II) Satisfies state and local graduation requirements;

(III) Aligns with the student's secondary and postsecondary goals, which can include education, training, and career;

(IV) Identifies course sequences to inform academic acceleration, as described in RCW 28A.320.195 that include dual credit courses or programs and are aligned with the student's goals; and

(V) Includes information about the college bound scholarship program, the Washington college grant, and other scholarship opportunities;

(F) Evidence that the student has received the following information on federal and state financial aid programs that help pay for the costs of a postsecondary program:

(I) Information about the documentation necessary for completing the applications; application timeliness and submission deadlines; the importance of submitting applications early; information specific to students who are or have been in foster care; information specific to students who are, or are at risk of being, homeless; information specific to students whose family member or guardians will be required to provide financial and tax information necessary to complete applications; and

(II) Opportunities to participate in sessions that assist students and, when necessary, their family members or guardians, fill out financial aid applications; and

(G) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(e). The rules must include authorization for a school district to waive up to two credits for individual students based on a student's circumstances, provided that none of the waived credits are identified as mandatory core credits by the state board of education. School districts must adhere to written policies authorizing the waivers that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal, or as provided in RCW 28A.230.300(4).

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(e) to an

applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district must update the high school and beyond plans for each student who has not earned a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 by ninth grade, to ensure that the student takes a mathematics course in both ninth and tenth grades. This course may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) Unless requested otherwise by the student and the student's family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit."

MESSAGE FROM THE HOUSE

March 24, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5229 with the following amendment(s): 5229-S.E AMH HCW H1297.1

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds that:

(1) Healthy Washingtonians contribute to the economic and social welfare of their families and communities, and access to health services and improved health outcomes allows all Washington families to enjoy productive and satisfying lives;

(2) The COVID-19 pandemic has further exposed that health outcomes are experienced differently by different people based on discrimination and bias by the health care system. Research shows that health care resources are distributed unevenly by intersectional categories including, but not limited to, race, gender, ability status, religion, sexual orientation, socioeconomic status, and geography; and

(3) These inequities have permeated health care delivery, deepening adverse outcomes for marginalized communities. This bill aims to equip health care workers with the skills to recognize and reduce these inequities in their daily work. In addition to their

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

individual impact, health care workers need the skills to address systemic racism and bias.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) By January 1, 2024, the rule-making authority for each health profession licensed under Title 18 RCW subject to continuing education requirements must adopt rules requiring a licensee to complete health equity continuing education training at least once every four years.

(2) Health equity continuing education courses may be taken in addition to or, if a rule-making authority determines the course fulfills existing continuing education requirements, in place of other continuing education requirements imposed by the rule-making authority.

(3)(a) The secretary and the rule-making authorities must work collaboratively to provide information to licensees about available courses. The secretary and rule-making authorities shall consult with patients or communities with lived experiences of health inequities or racism in the health care system and relevant professional organizations when developing the information and must make this information available by July 1, 2023. The information should include a course option that is free of charge to licensees. It is not required that courses be included in the information in order to fulfill the health equity continuing education requirement.

(b) By January 1, 2023, the department, in consultation with the boards and commissions, shall adopt model rules establishing the minimum standards for continuing education programs meeting the requirements of this section. The department shall consult with patients or communities with lived experience of health inequities or racism in the health care system, relevant professional organizations, and the rule-making authorities in the development of these rules.

(c) The minimum standards must include instruction on skills to address the structural factors, such as bias, racism, and poverty, that manifest as health inequities. These skills include individual-level and system-level intervention, and self-reflection to assess how the licensee's social position can influence their relationship with patients and their communities. These skills enable a health care professional to care effectively for patients from diverse cultures, groups, and communities, varying in race, ethnicity, gender identity, sexuality, religion, age, ability, socioeconomic status, and other categories of identity. The courses must assess the licensee's ability to apply health equity concepts into practice. Course topics may include, but are not limited to:

(i) Strategies for recognizing patterns of health care disparities on an individual, institutional, and structural level and eliminating factors that influence them;

(ii) Intercultural communication skills training, including how to work effectively with an interpreter and how communication styles differ across cultures;

(iii) Implicit bias training to identify strategies to reduce bias during assessment and diagnosis;

(iv) Methods for addressing the emotional well-being of children and youth of diverse backgrounds;

(v) Ensuring equity and antiracism in care delivery pertaining to medical developments and emerging therapies;

(vi) Structural competency training addressing five core competencies:

(A) Recognizing the structures that shape clinical interactions;

(B) Developing an extracurricular language of structure;

(C) Rearticulating "cultural" formulations in structural terms;

(D) Observing and imagining structural interventions; and

(E) Developing structural humility; and

(vii) Cultural safety training.

(4) The rule-making authority may adopt rules to implement and administer this section, including rules to establish a process to determine if a continuing education course meets the health equity continuing education requirement established in this section.

(5) For purposes of this section the following definitions apply:

(a) "Rule-making authority" means the regulatory entities identified in RCW 18.130.040 and authorized to establish continuing education requirements for the health care professions governed by those regulatory entities.

(b) "Structural competency" means a shift in medical education away from pedagogic approaches to stigma and inequalities that emphasize cross-cultural understandings of individual patients, toward attention to forces that influence health outcomes at levels above individual interactions. Structural competency reviews existing structural approaches to stigma and health inequities developed outside of medicine and proposes changes to United States medical education that will infuse clinical training with a structural focus.

(c) "Cultural safety" means an examination by health care professionals of themselves and the potential impact of their own culture on clinical interactions and health care service delivery. This requires individual health care professionals and health care organizations to acknowledge and address their own biases, attitudes, assumptions, stereotypes, prejudices, structures, and characteristics that may affect the quality of care provided. In doing so, cultural safety encompasses a critical consciousness where health care professionals and health care organizations engage in ongoing self-reflection and self-awareness and hold themselves accountable for providing culturally safe care, as defined by the patient and their communities, and as measured through progress towards achieving health equity. Cultural safety requires health care professionals and their associated health care organizations to influence health care to reduce bias and achieve equity within the workforce and working environment.

Sec. 3. RCW 43.70.615 and 2006 c 237 s 2 are each amended to read as follows:

(1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. ~~((The disciplining authorities having the authority to offer continuing education may provide training in the dynamics of providing culturally competent, multicultural health care to diverse populations.))~~ Any such education shall be developed in collaboration with education programs that train students in that health profession. ~~((A disciplining authority may require that instructors of continuing education or continuing competency programs integrate multicultural health into their curricula when it is appropriate to the subject matter of the instruction.))~~ No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes expenditures from its proportions of the account. ~~((A disciplining authority may defray costs by authorizing a fee to be~~

charged for participants or materials relating to any sponsored program.)

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

(2) If the person determined to have committed the infraction does not contest the determination the person shall respond by completing the appropriate portion of the notice of infraction and submitting it, either by mail or in person, to the court specified on the notice. A check or money order in the amount of the penalty prescribed for the infraction must be submitted with the response, unless the person selects the option attesting that the person does not have the current ability to pay the infraction in full. Upon deferring findings, the court may assess costs as the court deems appropriate for administrative processing. If at the end of the deferral period the defendant has met all conditions and has not been determined to have committed another traffic infraction, the court may dismiss the infraction.

(b) A person may not receive more than one deferral within a seven-year period for traffic infractions for moving violations and more than one deferral within a seven-year period for traffic infractions for nonmoving violations.

(c) A person who is the holder of a commercial driver's license or who was operating a commercial motor vehicle at the time of the violation may not receive a deferral under this section.

(2) The monetary penalty for a violation of (a) RCW 46.55.105(2) is two hundred fifty dollars for each offense; (b) RCW 46.61.210(1) is five hundred dollars for each offense. No penalty assessed under this subsection (2) may be reduced.

(3) The supreme court shall prescribe by rule a schedule of monetary penalties for designated traffic infractions. This rule shall also specify the conditions under which local courts may exercise discretion in assessing fines and penalties for traffic infractions. The legislature respectfully requests the supreme court to adjust this schedule every two years for inflation.

(4) There shall be a penalty of twenty-five dollars for failure to respond to a notice of traffic infraction except where the infraction relates to parking as defined by local law, ordinance, regulation, or resolution or failure to pay a monetary penalty imposed pursuant to this chapter. A local legislative body may set a monetary penalty not to exceed twenty-five dollars for failure to respond to a notice of traffic infraction relating to parking as defined by local law, ordinance, regulation, or resolution. The local court, whether a municipal, police, or district court, shall impose the monetary penalty set by the local legislative body.

(6) Whenever a monetary penalty, fee, cost, assessment, or other monetary obligation is imposed by a court under this chapter, it is immediately payable and is enforceable as a civil judgment under Title 6 RCW. If the court determines ~~(in its discretion)~~ that a person is not able to pay a monetary obligation in full ~~(and not more than one year has passed since the later of July 1, 2005, or the date the monetary obligation initially became due and payable)~~, the court shall enter into a payment plan with the person ~~(unless the person has previously been granted a payment plan with respect to the same monetary obligation, or unless the person is in noncompliance of any existing or prior payment plan, in which case the court may, at its discretion, implement a payment plan. If the court has notified the department that the person has failed to pay or comply and the person has subsequently entered into a payment plan and made an initial payment, the court shall notify the department that the infraction has been adjudicated, and the department shall rescind any suspension of the person's driver's license or driver's privilege based on failure to respond to that infraction. "Payment plan," as used in this section, means a plan that requires reasonable payments based on the financial ability of the person to pay. The person may voluntarily pay an amount at any time in addition to the payments required under the payment plan.~~

~~(a) If a payment required to be made under the payment plan is delinquent or the person fails to complete a community restitution program on or before the time established under the payment plan, unless the court determines good cause therefor and adjusts the payment plan or the community restitution plan accordingly, the court may refer the unpaid monetary penalty, fee, cost, assessment, or other monetary obligation for civil enforcement until all monetary obligations, including those imposed under subsections (3) and (4) of this section, have been paid, and court authorized community restitution has been completed, or until the~~

~~court has entered into a new time payment or community restitution agreement with the person. For those infractions subject to suspension under RCW 46.20.289, the court shall notify the department of the person's failure to meet the conditions of the plan, and the department shall suspend the person's driver's license or driving privileges.~~

~~(b) If a person has not entered into a payment plan with the court and has not paid the monetary obligation in full on or before the time established for payment, the court may refer the unpaid monetary penalty, fee, cost, assessment, or other monetary obligation to a collections agency until all monetary obligations have been paid, including those imposed under subsections (3) and (4) of this section, or until the person has entered into a payment plan under this section. For those infractions subject to suspension under RCW 46.20.289, the court shall notify the department of the person's delinquency, and the department shall suspend the person's driver's license or driving privileges.~~

~~(c) If the payment plan is to be administered by the court, the court may assess the person a reasonable administrative fee to be wholly retained by the city or county with jurisdiction. The administrative fee shall not exceed ten dollars per infraction or twenty-five dollars per payment plan, whichever is less.~~

~~(d) Nothing in this section precludes a court from contracting with outside entities to administer its payment plan system. When outside entities are used for the administration of a payment plan, the court may assess the person a reasonable fee for such administrative services, which fee may be calculated on a periodic, percentage, or other basis.~~

~~(e) If a court authorized community restitution program for offenders is available in the jurisdiction, the court may allow conversion of all or part of the monetary obligations due under this section to court authorized community restitution in lieu of time payments if the person is unable to make reasonable time payments)) in accordance with section 4 of this act and standards that may be set out in court rule.~~

(7) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction shall be assessed:

(a) A fee of five dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the emergency medical services and trauma care system trust account under RCW 70.168.040;

(b) A fee of ten dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the Washington auto theft prevention authority account; and

(c) A fee of five dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the traumatic brain injury account established in RCW 74.31.060.

(8)(a) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction other than of RCW 46.61.527 or 46.61.212 shall be assessed an additional penalty of ~~((twenty dollars))~~ \$24. The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a court authorized community restitution program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (8) by participation in the court authorized community restitution program.

(b) ~~((Eight dollars and fifty cents))~~ \$12.50 of the additional penalty under (a) of this subsection shall be remitted to the state treasurer. The remaining revenue from the additional penalty

must be remitted under chapters 2.08, 3.46, 3.50, 3.62, 10.82, and 35.20 RCW. Money remitted under this subsection to the state treasurer must be deposited as follows: \$8.50 in the state general fund and \$4 in the driver licensing technology support account created under section 15 of this act. The moneys deposited into the driver licensing technology support account must be used to support information technology systems used by the department to communicate with the judicial information system, manage driving records, and implement court orders. The balance of the revenue received by the county or city treasurer under this subsection must be deposited into the county or city current expense fund. Moneys retained by the city or county under this subsection shall constitute reimbursement for any liabilities under RCW 43.135.060.

(9) If a legal proceeding, such as garnishment, has commenced to collect any delinquent amount owed by the person for any penalty imposed by the court under this section, the ~~((court may, at its discretion, enter into))~~ person may request a payment plan pursuant to section 4 of this act.

(10) The monetary penalty for violating RCW 46.37.395 is: (a) Two hundred fifty dollars for the first violation; (b) five hundred dollars for the second violation; and (c) seven hundred fifty dollars for each violation thereafter.

(11) The additional monetary penalty for a violation of RCW 46.20.500 is not subject to assessments or fees provided under this section.

(12) The additional monetary fine for a violation of RCW 46.61.110, 46.61.145, 46.61.180, 46.61.185, 46.61.190, and 46.61.205 is not subject to assessments or fees provided under this section.

(13) The additional monetary penalties for a violation of RCW 46.61.165 are not subject to assessments or fees provided under this section.

NEW SECTION. Sec. 4. A new section is added to chapter 46.63 RCW to read as follows:

(1)(a) A person may request a payment plan at any time for the payment of any monetary penalty, fee, cost, assessment, or other monetary obligation associated with a traffic infraction. If the person does not have the ability to pay the monetary obligation in full, the person has not previously been granted a payment plan for the same monetary obligation, and the court has not authorized its collections agency to take civil legal enforcement action, the court shall enter into a payment plan with the individual. Where the court has authorized its collections agency to take civil legal enforcement action, the court may, at its discretion, enter into a payment plan.

(b) If a court authorized community restitution program for offenders is available in the jurisdiction, the court may allow conversion of all or part of the monetary obligations due under this section to court authorized community restitution in lieu of time payments if the person is unable to make reasonable time payments.

(2) The person may voluntarily pay an amount at any time in addition to the payments required under the payment plan.

(3) If a payment required to be made under the payment plan is delinquent or the person fails to complete a community restitution program on or before the time established under the payment plan, unless the court determines good cause therefor and adjusts the payment plan or the community restitution plan accordingly, the court may refer the unpaid monetary penalty, fee, cost, assessment, or other monetary obligation for civil enforcement until all monetary obligations have been paid and court authorized community restitution has been completed, or until the court has entered into a new payment plan or community restitution agreement with the person.

2021 REGULAR SESSION

(4)(a) If a person has not entered into a payment plan with the court and has not paid the monetary obligation in full, no sooner than 90 days from the date of the infraction the court may refer the unpaid monetary penalty, fee, cost, assessment, or other monetary obligation to a collections agency until all monetary obligations have been paid or until the person has entered into a payment plan under this section.

(b) If a person responded to a traffic infraction for a moving violation attesting that the person did not have the ability to pay the infraction in full, the court must attempt to enter into a payment plan with the person prior to referring the monetary obligation to a collections agency.

(5) If the payment plan is to be administered by the court, the court may assess the person a reasonable administrative fee to be wholly retained by the city or county with jurisdiction. The administrative fee shall not exceed \$10 per infraction or \$25 per payment plan, whichever is less.

(6) Nothing in this section precludes a court from contracting with outside entities to administer its payment plan system. When outside entities are used for the administration of a payment plan, the court may assess the person a reasonable fee for such administrative services, which fee may be calculated on a periodic, percentage, or other basis.

(7) The court may modify a payment plan at any time.

(8) The court may require a person who fails to make payment as required under a payment plan to appear and provide evidence of ability to pay.

(2) The department shall suspend all driving privileges of a person when the department receives notice from another state under Article IV of the nonresident violator compact under RCW 46.23.010 or from a jurisdiction that has entered into an agreement with the department under RCW 46.23.020, other than for a standing, stopping, or parking violation, provided that the traffic infraction or traffic offense is committed on or after July 1, 2005.

(3) A suspension under this section takes effect pursuant to the provisions of RCW 46.20.245, and remains in effect until the department has received a certificate from the court showing that the case has been adjudicated, and until the person meets the requirements of RCW 46.20.311. ~~((In the case of failure to respond to a traffic infraction issued under RCW 46.55.105, the department shall suspend all driving privileges until the person provides evidence from the court that all penalties and restitution have been paid.))~~

(4) Is incompetent to drive a motor vehicle under RCW 46.20.031(3);

(5) Has failed to respond to a notice of traffic infraction, failed to appear at a ~~((requested))~~ hearing, ~~((violated a written promise to appear in court,))~~ or has failed to comply with the terms of a ~~((notice of traffic infraction,))~~ criminal complaint~~((s))~~ or criminal citation for a moving violation, as provided in RCW 46.20.289;

(1) Whenever the official records of the department show that a person has committed a traffic infraction for a moving violation on three or more occasions within a one-year period, or on four or more occasions within a two-year period, the department must suspend the license of the driver for a period of 60 days and establish a period of probation for one calendar year to begin when the suspension ends. Prior to reinstatement of a license, the person must complete a safe driving course as recommended by the department. During the period of probation, the person must not be convicted of any additional traffic infractions for moving violations. Any traffic infraction for a moving violation committed during the period of probation shall result in an additional 30-day suspension to run consecutively with any suspension already being served.

(2) When a person has committed a traffic infraction for a moving violation on two occasions within a one-year period or three occasions within a two-year period, the department shall send the person a notice that an additional infraction will result in suspension of the person's license for a period of 60 days.

(3) The department may not charge a reissue fee at the end of the term of suspension under this section.

(4) For purposes of this section, multiple traffic infractions issued during or as the result of a single traffic stop constitute one occasion.

Sec. 8. RCW 46.20.311 and 2020 c 330 s 7 are each amended to read as follows:

(1)(a) The department shall not suspend a driver's license or privilege to drive a motor vehicle on the public highways for a fixed period of more than one year, except as specifically permitted under RCW 46.20.267, 46.20.342, or other provision of law.

(b) Except for a suspension under RCW 46.20.267, 46.20.289, 46.20.291(5), 46.61.740, or 74.20A.320, whenever the license or driving privilege of any person is suspended by reason of a conviction, a finding that a traffic infraction has been committed,

(c) If the suspension is the result of a nonfelony violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the substance use disorder agency or probation department designated under RCW 46.61.5056 and shall deny reinstatement until enrollment and participation in an approved program has been established and the person is otherwise qualified. If the suspension is the result of a violation of RCW 46.61.502(6) or 46.61.504(6), the department shall determine the person's eligibility for licensing based upon the reports provided by the substance use disorder agency required under RCW 46.61.524 and shall deny reinstatement until satisfactory progress in an approved program has been established and the person is otherwise qualified. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, and the person is required pursuant to RCW 46.20.720 to drive only a motor vehicle equipped with a functioning ignition interlock, the department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. The department may waive the requirement for written verification under this subsection if it determines to its satisfaction that a device previously verified as having been installed on a vehicle owned or operated by the person is still installed and functioning or as permitted by RCW 46.20.720(8). If, based upon notification from the interlock provider or otherwise, the department determines that an interlock required under RCW 46.20.720 is no longer installed or functioning as required, the department shall suspend the person's license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(d) Whenever the license or driving privilege of any person is suspended as a result of certification of noncompliance with a child support order under chapter 74.20A RCW, the suspension shall remain in effect until the person provides a release issued by the department of social and health services stating that the person is in compliance with the order.

(e)(i) ~~(The)~~ Except as provided in section 7(3) of this act, the department shall not issue to the person a new, duplicate, or renewal license until the person pays a reissue fee of seventy-five dollars.

(ii) Except as provided in subsection (4) of this section, if the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be one hundred seventy dollars.

(2)(a) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have the license or privilege renewed or restored until: (i) After the expiration of one year from the date the license or privilege to drive was revoked; (ii) after the expiration of the applicable revocation period provided by RCW 46.20.3101 or 46.61.5055; (iii) after the expiration of two years for persons convicted of vehicular homicide; or (iv) after the expiration of the applicable revocation period provided by RCW 46.20.265.

(b)(i) After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of seventy-five dollars.

(ii) Except as provided in subsection (4) of this section, if the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504, the reissue fee shall be one hundred seventy dollars. If the revocation is the result of a nonfelony violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the substance use disorder agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified. If the suspension is the result of a violation of RCW 46.61.502(6) or 46.61.504(6), the department shall determine the person's eligibility for licensing based upon the reports provided by the substance use disorder agency required under RCW 46.61.524 and shall deny reinstatement until satisfactory progress in an approved program has been established and the person is otherwise qualified. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, and the person is required pursuant to RCW 46.20.720 to drive only a motor vehicle equipped with a functioning ignition interlock or other biological or technical device, the department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person applying for a new license. The department may waive the requirement for written verification under this subsection if it determines to its satisfaction that a device previously verified as having been installed on a vehicle owned or operated by the person is still installed and functioning or as permitted by RCW 46.20.720(8). If, following issuance of a new license, the department determines, based upon notification from the interlock provider or otherwise, that an interlock required under RCW 46.20.720 is no longer functioning, the department shall suspend the person's license or privilege to drive until the department has received written verification from an interlock provider that a functioning interlock is installed.

(c) Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(3)(a) Whenever the driver's license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of seventy-five dollars.

(b) Except as provided in subsection (4) of this section, if the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (i) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (ii) the refusal to submit to a chemical test of the driver's blood alcohol content, the reissue fee shall be one hundred seventy dollars.

(4) When the department reinstates a person's driver's license following a suspension, revocation, or denial under RCW

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

46.20.3101 or 46.61.5055, and the person is entitled to full day-for-day credit under RCW 46.20.3101(4) or 46.61.5055(9)(b)(ii) for an additional restriction arising from the same incident, the department shall impose no additional reissue fees under subsection (1)(e)(ii), (2)(b)(ii), or (3)(b) of this section associated with the additional restriction.

Sec. 9. RCW 46.20.342 and 2015 c 149 s 1 are each amended to read as follows:

(1) It is unlawful for any person to drive a motor vehicle in this state while that person is in a suspended or revoked status or when his or her privilege to drive is suspended or revoked in this or any other state. Any person who has a valid Washington driver's license is not guilty of a violation of this section.

(a) A person found to be a habitual offender under chapter 46.65 RCW, who violates this section while an order of revocation issued under chapter 46.65 RCW prohibiting such operation is in effect, is guilty of driving while license suspended or revoked in the first degree, a gross misdemeanor. Upon the first such conviction, the person shall be punished by imprisonment for not less than ten days. Upon the second conviction, the person shall be punished by imprisonment for not less than ninety days. (ix) A conviction of RCW 46.61.500, relating to reckless driving;

(x) A conviction of RCW 46.61.502 or 46.61.504, relating to a person under the influence of intoxicating liquor or drugs;

(xi) A conviction of RCW 46.61.520, relating to vehicular homicide;

(c) A person who violates this section when his or her driver's license or driving privilege is, at the time of the violation, suspended or revoked solely because:

(i) ~~(the)~~ The person must furnish proof of satisfactory progress in a required alcoholism or drug treatment program(~~(?)~~);

(ii) ~~(the)~~ The person must furnish proof of financial responsibility for the future as provided by chapter 46.29 RCW(~~(?)~~);

(iii) ~~(the)~~ The person has failed to comply with the provisions of chapter 46.29 RCW relating to uninsured accidents(~~(?)~~);

(iv) ~~(the)~~ The person has failed to respond to a notice of traffic infraction for a moving violation, failed to appear at a ~~(requested)~~ hearing for a moving violation, ~~(violated a written promise to appear in court,)~~ or ~~(has)~~ failed to comply with the terms of a ~~(notice of traffic infraction)~~ criminal complaint or criminal citation for a moving violation, as provided in RCW 46.20.289(~~(?)~~)(1);

(d) For the purposes of this subsection, a person is not considered to be eligible to reinstate his or her driver's license or driving privilege if the person is eligible to obtain an ignition interlock driver's license but did not obtain such a license.

(2) Upon receiving a record of conviction of any person or upon receiving an order by any juvenile court or any duly authorized court officer of the conviction of any juvenile under this section, the department shall:

(a) For a conviction of driving while suspended or revoked in the first degree, as provided by subsection (1)(a) of this section, extend the period of administrative revocation imposed under chapter 46.65 RCW for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or

(b) For a conviction of driving while suspended or revoked in the second degree, as provided by subsection (1)(b) of this section, not issue a new license or restore the driving privilege for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or

(c) Not extend the period of suspension or revocation if the conviction was under subsection (1)(c) of this section. If the conviction was under subsection (1)(a) or (b) of this section and the court recommends against the extension and the convicted person has obtained a valid driver's license, the period of suspension or revocation shall not be extended.

Sec. 10. RCW 46.20.391 and 2012 c 82 s 2 are each amended to read as follows:

(1) Any person licensed under this chapter who is convicted of an offense relating to motor vehicles for which suspension or revocation of the driver's license is mandatory, other than vehicular homicide, vehicular assault, driving while under the influence of intoxicating liquor or any drug, or being in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, may submit to the department an application for a temporary restricted driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is eligible to receive the license, may issue a temporary restricted driver's license and may set definite restrictions as provided in RCW 46.20.394.

(2)(a) A person licensed under this chapter whose driver's license is suspended administratively due to failure to appear or ~~((pay a traffic ticket under))~~ respond pursuant to RCW 46.20.289; a violation of the financial responsibility laws under chapter 46.29 RCW; or for multiple violations within a specified period of time under RCW 46.20.291, may apply to the department for an occupational driver's license.

(3) An applicant for an occupational or temporary restricted driver's license who qualifies under subsection (1) or (2) of this section is eligible to receive such license only if:

(a) Within seven years immediately preceding the date of the offense that gave rise to the present conviction or incident, the applicant has not committed vehicular homicide under RCW 46.61.520 or vehicular assault under RCW 46.61.522; and

(b) The applicant demonstrates that it is necessary for him or her to operate a motor vehicle because he or she:

(i) Is engaged in an occupation or trade that makes it essential that he or she operate a motor vehicle;

(ii) Is undergoing continuing health care or providing continuing care to another who is dependent upon the applicant;

(iii) Is enrolled in an educational institution and pursuing a course of study leading to a diploma, degree, or other certification of successful educational completion;

(viii) Presents evidence that he or she has applied for a position in an apprenticeship or on-the-job training program for which a driver's license is required to begin the program, provided that a license granted under this provision shall be in effect for no longer than fourteen days; and

(c) The applicant files satisfactory proof of financial responsibility under chapter 46.29 RCW; and

(d) Upon receipt of evidence that a holder of an occupational driver's license granted under this subsection is no longer enrolled in an apprenticeship or on-the-job training program, the director shall give written notice by first-class mail to the driver that the occupational driver's license shall be canceled. If at any time before the cancellation goes into effect the driver submits evidence of continued enrollment in the program, the cancellation shall be stayed. If the cancellation becomes effective, the driver may obtain, at no additional charge, a new occupational driver's license upon submittal of evidence of enrollment in another program that meets the criteria set forth in this subsection; and

(e) The department shall not issue an occupational driver's license under (b)(iv) of this subsection if the applicant is able to receive transit services sufficient to allow for the applicant's participation in the programs referenced under (b)(iv) of this subsection.

(4) A person aggrieved by the decision of the department on the application for an occupational or temporary restricted driver's license may request a hearing as provided by rule of the department.

(5) The director shall cancel an occupational or temporary restricted driver's license after receiving notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, no longer meets the eligibility requirements, or has been convicted of or found to have committed a separate offense or any other act or omission that under this chapter would warrant suspension or revocation of a regular driver's license. The department must give notice of the cancellation as provided under RCW 46.20.245. A person whose occupational or temporary restricted driver's license has been canceled under this section may reapply for a new occupational or temporary restricted driver's license if he or she is otherwise qualified under this section and pays the fee required under RCW 46.20.380.

NEW SECTION. Sec. 11. A new section is added to chapter 46.20 RCW to read as follows:

MESSAGE FROM THE HOUSE

April 9, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5172 with the following amendment(s): 5172-S.E AMH HOFF TANG 109

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. In order to stabilize, strengthen, and protect our state's agricultural workforce and economy, it is the intent of the legislature to pass the laws necessary to protect

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

farmworkers and to provide agricultural employers with certainty and predictability.

The legislature intends to address the historical exceptions of agricultural work from overtime standards from both the federal fair labor standards act and the state minimum wage act when they were enacted over 60 years ago. Excluded from the opportunity to earn overtime pay, farmworkers across our state remain among our state's poorest workers. A United States department of labor study in 2016 found that nationally, 30 percent of farmworker families live below the poverty line, almost double the poverty rate of American families overall. The state department of health found that the current novel coronavirus pandemic has had a significant and disproportionate impact on farmworkers. The virus' risks to essential farmworkers from potential workplace exposures are compounded by systemic barriers to testing, prevention measures, and medical care.

The legislature also intends to avoid disruptions within the state's vital agricultural sector. While Washington is well known as the national leader in apple production, the state's agricultural sector is incredibly diverse: Over 300 crops are harvested, and a variety of livestock are raised on over 35,000 farms across the state. The robust size of our agricultural sector means our state overall ranks in the top 10 nationally in the size of our farm labor force. Agriculture is a cornerstone of our state economy. Uncertainty from recent legal decisions regarding overtime standards are compounding the pandemic's disruptions to the food chain and the safety challenges of operating during a public health crisis.

The legislature intends to provide clear overtime standards to reduce litigation between parties in this key sector of the state's economy during the challenges and additional costs brought on by the novel coronavirus and to protect the security of our food supply chain. This act's transitional approach is reasonable to achieve the legislature's purpose of increasing the safety of an at risk and essential workforce, increasing the public welfare of low-income individuals by removing a historical barrier to their earning potential, and maintaining the food security and economic security provided by a stable agricultural sector.

Sec. 2. RCW 49.46.130 and 2013 c 207 s 1 are each amended to read as follows:

(1) Except as otherwise provided in this section, no employer shall employ any of his or her employees for a workweek longer than forty hours unless such employee receives compensation for his or her employment in excess of the hours above specified at a rate not less than one and one-half times the regular rate at which he or she is employed.

(2) This section does not apply to:

(a) Any person exempted pursuant to RCW 49.46.010(3). The payment of compensation or provision of compensatory time off in addition to a salary shall not be a factor in determining whether a person is exempted under RCW 49.46.010(3)(c);

(b) Employees who request compensating time off in lieu of overtime pay;

(c) Any individual employed as a seaman whether or not the seaman is employed on a vessel other than an American vessel;

For the purposes of this subsection, "industry" means a trade, business, industry, or other activity, or branch, or group thereof, in which individuals are gainfully employed (section 3(h) of the Fair Labor Standards Act of 1938, as amended (Public Law 93-259));

(b) A straight commission, a salary plus commission, or a salary plus bonus applied to gross salary.

"NEW SECTION. Sec. 1. The legislature finds that substance use disorder is a disease and should be treated using a public health, rather than a criminal justice-centered, approach. Existing laws criminalizing the possession of drugs have been ineffective in reducing drug use and preventing substance use disorder. These laws cause significant harm to individuals who use drugs by disrupting and further destabilizing their lives. It also contributes to an increased risk of death, the spread of infectious diseases, mass incarceration, the separation of families, and barriers to accessing housing, employment, and other vital services. Furthermore, even though research shows that drugs are used and sold at similar levels across all races, laws criminalizing the use of drugs have disproportionately impacted minority communities.

This act takes the important first step of reducing the crime of possession from a felony to a gross misdemeanor and institutes greater opportunities for treatment. In coordination with this act, the legislature intends to increase funding for programs that have a proven track record of assisting individuals to break free from substance use dependency. These programs include LEAD (law enforcement assisted diversion/let everyone advance with dignity program); HOST (homeless outreach stabilization transition teams); peer-run clubhouses; opioid treatment network; project for psychiatric outreach for the homeless; mobile opioid treatment grant; peer support programs; and family navigators.

The purpose of this act is to save lives and to help transform Washington's approach to drug use from one based on criminalization and stigma to one based on science and compassion.

(i) The design of ongoing qualitative and quantitative research about the types of services desired by people with substance use disorders and barriers they experience in accessing existing and recommended services; and

PERSONAL PRIVILEGE

Senator Sheldon: "Mr. President, it was with extreme sadness to hear Senator Liias say that Senator Paull Shin had passed on today. I served a long time with Senator Shin and admired him greatly. When you got to know Senator Shin and his personal story, it was impossible to have a bad day. He was such a kind gentleman. Took his role as a senator so serious. And worked with people across the aisle and really around the country. He was really a rock star in Korea. Executive branch of our United States government used him, and he helped them in many ways in the contacts he made. So, it's very sad to hear that he is gone but my Session Aide, Bev Burnley, worked for him for a long time as well, and we all admired Paull and certainly will miss his smiling face. And he always gave you a handshake when you talked to him during the day and when he said good morning to you. I'll always remember that handshake, firm, and earnest. That was Paull Shin in my memory. Thank you, Mr. President."

PERSONAL PRIVILEGE

Senator Keiser: "I want to thank Senator Sheldon for his comments, and I would ask for the Lieutenant Governor and presiding officer to call for a moment of silence. We've been very busy today. I believe it's time for us to take a few minutes and center ourselves on the loss of a very valued colleague. Thank you."

(7)(a) Beginning January 1, 2024, or when rule making is complete, whichever is sooner, the department may, on an annual basis on January 1st, review and determine for the following year whether to adjust the minimum postconsumer recycled content percentage required for a type of container or product or category of covered products pursuant to subsection (4), (5), or (6) of this section. The department's review may be initiated by the department or at the petition of a producer or a covered product manufacturing industry not more than once annually. When submitting a petition, producers or a producer manufacturing industry must provide necessary information that will allow the department to make a determination under (b) of this subsection.

(b) In making a determination pursuant to this subsection, the department must consider, at a minimum, all of the following factors:

(i) Changes in market conditions, including supply and demand for postconsumer recycled content plastics, collection rates, and bale availability both domestically and globally;

(ii) Recycling rates;

(ii) For plastic household cleaning and personal care product containers, the department may not adjust the minimum postconsumer recycled content requirements above the minimum postconsumer recycled content percentages for the year under review required pursuant to subsection (5) of this section or below a minimum of 10 percent.

(iii) For plastic trash bags, the department may not adjust the minimum postconsumer recycled content requirements above the minimum postconsumer recycled content percentages for the year under review required pursuant to subsection (6) of this section or below the minimum percentage required in subsection (6)(a) of this section.

(d) A producer or the manufacturing industry for a covered product may appeal a decision by the department to adjust postconsumer recycled content percentages under (a) of this subsection or to temporarily exclude covered products from minimum postconsumer recycled content requirements under subsection (8) of this section to the pollution control hearings board within 30 days of the department's determination.

(8) The department must temporarily exclude from minimum postconsumer recycled content requirements for the upcoming year any types of covered products in plastic containers for which a producer annually demonstrates to the department by December 31st of a given year that the achievement of postconsumer recycled content requirements in the container material is not technically feasible in order to comply with health or safety requirements of federal law, including the federal laws specified in subsection (7)(b)(v) of this section. A producer must continue to register and report consistent with the requirements of this chapter for covered products temporarily excluded from minimum postconsumer recycled content requirements under this subsection.

NEW SECTION. Sec. 4. PRODUCER REPORTING REQUIREMENTS. (1)(a) Except as provided in (b) and (c) of this subsection, beginning April 1, 2024, each producer of covered products, individually or through a third party representing a group of producers, must provide an annual report to the department that includes the amount in pounds of virgin plastic and the amount in pounds of postconsumer recycled

content by resin type used for each category of covered products that are sold, offered for sale, or distributed in or into Washington state, including the total postconsumer recycled content resins as a percentage of total weight. The report must be submitted in a format and manner prescribed by the department. A manufacturer may submit national data allocated on a per capita basis for Washington to approximate the information required in this subsection if the producer or third-party representative demonstrates to the department that state level data are not available or feasible to generate.

(b) The requirements of (a) of this subsection apply to household cleaning and personal care products in plastic containers beginning April 1, 2026.

(c) The requirements of (a) of this subsection apply to wine in 187 milliliter plastic beverage containers and dairy milk in plastic beverage containers beginning April 1, 2029.

(d) The department must post the information reported under this subsection on its website, except as provided in subsection (2) of this section.

(2) A producer that submits information or records to the department under this chapter may request that the information or records be made available only for the confidential use of the department, the director, or the appropriate division of the department. The director of the department must give consideration to the request and if this action is not detrimental to the public interest and is otherwise in accordance with the policies and purposes of chapter 43.21A RCW, the director must grant the request for the information to remain confidential as authorized in RCW 43.21A.160.

NEW SECTION. Sec. 5. PENALTIES FOR POSTCONSUMER RECYCLED CONTENT REQUIREMENTS. (1)(a) A producer that does not meet the minimum postconsumer recycled content requirements pursuant to section 3 of this act is subject to a penalty pursuant to this section. Beginning June 1st of the year following the first year that minimum postconsumer recycled product content requirements apply to a category of covered product, the penalty must be calculated consistent with subsection (2) of this section unless a penalty reduction or corrective action plan has been approved pursuant to subsection (3) of this section.

(b) A producer that is assessed a penalty pursuant to this section may pay the penalty to the department in one payment, in quarterly installments, or arrange an alternative payment schedule subject to the approval of the department, not to exceed a 12-month payment schedule unless the department determines an extension is needed due to unforeseen circumstances, such as a public health emergency, state of emergency, or natural disaster.

(2) Beginning June 1st of the year following the first year that minimum postconsumer recycled product content requirements apply to a category of covered product, and annually thereafter, the department shall determine the penalty for the previous calendar year based on the postconsumer recycled content requirement of the previous calendar year. The department shall calculate the amount of the penalty based upon the amounts in pounds in the aggregate of virgin plastic, postconsumer recycled content plastic, and any other plastic per category used by the producer to produce covered products sold or offered for sale in or into Washington state, in accordance with the following:

(a)(i) The annual penalty amount assessed to a producer must equal the product of both of the following: The total pounds of plastic used per category multiplied by the relevant minimum postconsumer recycled plastic target percentage, less the pounds of total plastic multiplied by the percent of postconsumer recycled plastic used; multiplied by 20 cents.

(ii) Example: $[(\text{Total pounds of plastic used} \times \text{minimum postconsumer recycled plastic target percentage}) - (\text{Total pounds of plastic used} \times \text{postconsumer recycled plastic percentage used})] \times 20 \text{ cents}$.

(b) For the purposes of (a) of this subsection, both of the following apply:

(i) The total pounds of plastic used must equal the sum of the amount of virgin plastic, postconsumer recycled content plastic, and any other plastic used by the producer, as reported pursuant to section 4 of this act.

(ii) If the product calculated pursuant to (a) of this subsection is equal to or less than zero, the department may not assess a penalty.

(3)(a)(i) The department shall consider granting a reduction of penalties assessed pursuant to this section for the purpose of meeting the minimum postconsumer recycled content requirements required pursuant to section 3 of this act.

(ii) In determining whether to grant the reduction pursuant to (a)(i) of this subsection, the department shall consider, at a minimum, all of the following factors:

(A) Anomalous market conditions;

(B) Disruption in, or lack of supply of, recycled plastics; and

(C) Other factors that have prevented a producer from meeting the requirements.

(b) In lieu of or in addition to assessing a penalty under this section, the department may require a producer to submit a corrective action plan detailing how the producer plans to come into compliance with section 3 of this act.

(4) For the purposes of determining compliance with the postconsumer recycled content requirements of this chapter, the department may consider the date of manufacture of a covered product or the container of a covered product.

(5) A producer shall pay the penalty assessed pursuant to this section, as applicable, based on the information reported to the department as required under section 4 of this act in the form and manner prescribed by the department.

(6) A producer may appeal the penalty assessed under this section to the pollution control hearings board within 30 days of assessment.

(7) Penalties collected under this section must be deposited in the recycling enhancement account created in section 13 of this act.

For the purposes of this section, written notification serves as notice of the violation. The department must issue at least two notices of violation by certified mail prior to assessing a penalty under subsection (2) of this section.

(2) A producer in violation of the registration, reporting, or labeling requirements in section 3, 4, or 7 of this act is subject to a civil penalty for each day of violation in an amount not to exceed \$1,000.

(b) A uniform resource locator or quick response code to an internet website that contains the information required pursuant to (a) of this subsection.

(2)(a) The provisions of subsection (1) of this section do not apply to a plastic bag that is designed and manufactured to hold, store, or transport dangerous waste or biomedical waste.

(b) For the purposes of this subsection:

(i) "Biomedical waste" means any waste defined as that term under RCW 70A.228.010; and

MR. PRESIDENT:

The House passed SUBSTITUTE SENATE BILL NO. 5025 with the following amendment(s): 5025-S AMH CPB H1289.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

- (1) Strong consumer protection and antitrust penalties are critical to protecting consumers and ensuring a fair marketplace;
- (2) Strong penalties ensure accountability, deter violations, and ensure a level playing field for businesses;
- (3) Washington currently does not provide strong penalties for violations of the state's consumer protection act, which prohibits unfair or deceptive acts or practices and unfair methods of competition;
- (4) Washington's penalty for unfair or deceptive acts or practices has not kept pace with inflation, and has not increased since 1970;
- (5) Washington's penalty for unfair methods of competition has also not kept pace with inflation, and has not increased since 1983;
- (6) Consequently, Washington has one of the lowest consumer protection penalties in the United States;
- (7) Twenty-four state legislatures representing more than 200 million Americans have passed enhanced penalties for violations that target or impact certain vulnerable populations, but Washington does not have an enhanced penalty;
- (8) Many Washingtonians are hurting financially due to the impacts of the global pandemic;
- (9) Washington's weak penalties place Washington consumers at greater risk; and
- (10) Washingtonians deserve strong consumer protections to ensure entities that illegally, unfairly, and deceptively go after their hard-earned dollars are held accountable.

Sec. 2. RCW 19.86.140 and 1983 c 288 s 2 are each amended to read as follows:

Every person who shall violate the terms of any injunction issued as in this chapter provided, shall forfeit and pay a civil

penalty of not more than ~~((twenty five thousand dollars))~~ \$125,000.

Every ~~((person, other than a corporation,))~~ individual who violates RCW 19.86.030 or 19.86.040 shall pay a civil penalty of not more than ~~((one hundred thousand dollars))~~ \$180,000. Every ~~((corporation which))~~ person, other than an individual, who violates RCW 19.86.030 or 19.86.040 shall pay a civil penalty of not more than ~~((five hundred thousand dollars))~~ \$900,000.

Every person who violates RCW 19.86.020 shall forfeit and pay a civil penalty of not more than ~~((two thousand dollars))~~ \$7,500 for each violation: PROVIDED, That nothing in this paragraph shall apply to any radio or television broadcasting station which broadcasts, or to any publisher, printer or distributor of any newspaper, magazine, billboard or other advertising medium who publishes, prints or distributes, advertising in good faith without knowledge of its false, deceptive or misleading character.

For unlawful acts or practices that target or impact specific individuals or communities based on demographic characteristics including, but not limited to, age, race, national origin, citizenship or immigration status, sex, sexual orientation, presence of any sensory, mental, or physical disability, religion, veteran status, or status as a member of the armed forces, as that term is defined in 10 U.S.C. Sec. 101, an enhanced penalty of \$5,000 shall apply.

For the purpose of this section the superior court issuing any injunction shall retain jurisdiction, and the cause shall be continued, and in such cases the attorney general acting in the name of the state may petition for the recovery of civil penalties.

With respect to violations of RCW 19.86.030 and 19.86.040, the attorney general, acting in the name of the state, may seek recovery of such penalties in a civil action.

By December 1, 2022, and every five years thereafter, the office of the attorney general shall evaluate the efficacy of the maximum civil penalty amounts established in this section in deterring violations of the consumer protection act and the difference, if any, between the current penalty amounts and the penalty amounts adjusted for inflation, and provide the legislature with a report of its findings and any recommendations in compliance with RCW 43.01.036.

Sec. 3. RCW 4.16.160 and 1986 c 305 s 701 are each amended to read as follows:

The limitations prescribed in this chapter shall apply to actions brought in the name or for the benefit of any county or other municipality or quasimunicipality of the state, in the same manner as to actions brought by private parties: PROVIDED, That, except as provided in RCW 4.16.310, there shall be no limitation to actions brought in the name or for the benefit of the state, and no claim of right predicated upon the lapse of time shall ever be asserted against the state, including actions asserting a claim for civil penalties under RCW 19.86.140: AND FURTHER PROVIDED, That no previously existing statute of limitations shall be interposed as a defense to any action brought in the name or for the benefit of the state, although such statute may have run and become fully operative as a defense prior to February 27, 1903, nor shall any cause of action against the state be predicated upon such a statute.

(4) "Gross misconduct" means a criminal act in connection with an individual's work for which the individual has been convicted in a criminal court, or has admitted committing, or conduct connected with the individual's work that demonstrates a flagrant and wanton disregard of and for the rights, title, or interest of the employer or a fellow employee.

Sec. 2. RCW 50.20.010 and 2021 c 2 s 8 are each amended to read as follows:

(1) An unemployed individual shall be eligible to receive waiting period credits or benefits with respect to any week in his or her eligibility period only if the commissioner finds that:

(a) The individual has registered for work at, and thereafter has continued to report at, an employment office in accordance with such regulation as the commissioner may prescribe, except that the commissioner may by regulation waive or alter either or both of the requirements of this subdivision as to individuals attached to regular jobs and as to such other types of cases or situations with respect to which the commissioner finds that the compliance with such requirements would be oppressive, or would be inconsistent with the purposes of this title;

(b) The individual has filed an application for an initial determination and made a claim for waiting period credit or for benefits in accordance with the provisions of this title;

(c) The individual is able to work, and is available for work in any trade, occupation, profession, or business for which the individual is reasonably fitted.

(i) To be available for work, an individual must be ready, able, and willing, immediately to accept any suitable work which may be offered to him or her and must be actively seeking work pursuant to customary trade practices and through other methods when so directed by the commissioner or the commissioner's agents. If a labor agreement or dispatch rules apply, customary trade practices must be in accordance with the applicable agreement or rules.

(ii) Until June 30, 2021, an individual under quarantine or isolation, as defined by the department of health, as directed by a public health official during the novel coronavirus outbreak pursuant to the gubernatorial declaration of emergency of February 29, 2020, will meet the requirements of this subsection (1)(c) if the individual is able to perform, available to perform, and actively seeking work which can be performed while under quarantine or isolation.

(iii) For the purposes of this subsection, "customary trade practices" includes compliance with an electrical apprenticeship training program that includes a recognized referral system under apprenticeship program standards approved by the Washington state apprenticeship and training council;

(d) The individual has been unemployed for a waiting period of one week;

(e) The individual participates in reemployment services if the individual has been referred to reemployment services pursuant to the profiling system established by the commissioner under RCW 50.20.011, unless the commissioner determines that:

(i) The individual has completed such services; or

(ii) There is justifiable cause for the claimant's failure to participate in such services; and

(f) As to weeks which fall within an extended benefit period as defined in RCW 50.22.010, the individual meets the terms and conditions of RCW 50.22.020 with respect to benefits claimed in excess of twenty-six times the individual's weekly benefit amount.

(2) An individual's eligibility period for regular benefits shall be coincident to his or her established benefit year. An individual's eligibility period for additional or extended benefits shall be the periods prescribed elsewhere in this title for such benefits.

(3)(a) For any weeks of unemployment insurance benefits when the one week waiting period is fully paid or fully reimbursed by the federal government, subsection (1)(d) of this section is waived.

(b) For any weeks of unemployment insurance benefits when the one week waiting period is partially paid or partially reimbursed by the federal government, the department may, by rule, elect to waive subsection (1)(d) of this section.

(4) During the weeks of a public health emergency, an unemployed individual may also meet the requirements of subsection (1)(c) of this section if:

(a) The unemployed individual is able to perform, available to perform, and actively seeking suitable work which can be performed for an employer from the individual's home; and

(b) The unemployed individual or another individual residing with the unemployed individual is at higher risk of severe illness or death from the disease that is the subject of the public health emergency because the higher risk individual:

(i) Was in an age category that is defined as high risk for the disease that is the subject of the public health emergency by:

(A) The federal centers for disease control and prevention;

(B) The department of health; or

(C) The equivalent agency in the state where the individual resides; or

(ii) Has an underlying health condition, verified as required by the department by rule, that is identified as a risk factor for the disease that is the subject of the public health emergency by:

(A) The federal centers for disease control and prevention;

(B) The department of health; or

(C) The equivalent agency in the state where the individual resides.

(5)(a) During the weeks of a public health emergency, an unemployed health care worker may also meet the requirements of subsection (1)(c) of this section if the unemployed health care worker described in RCW 50.20.050(3) and 50.29.021(1)(c)(iii) is able to perform, available to perform, and actively seeking suitable work which will commence after quarantine or which can be performed for an employer from the individual's home.

(b) For purposes of this subsection, "health care worker" means an individual who worked at a health care facility as defined in RCW 9A.50.010, and was directly involved in the delivery of health services.

Sec. 3. RCW 50.20.050 and 2021 c 2 s 10 are each amended to read as follows:

(1) With respect to separations that occur on or after September 6, 2009, and for separations that occur before April 4, 2021:

(a) A claimant shall be disqualified from benefits beginning with the first day of the calendar week in which the claimant left work voluntarily without good cause and thereafter for seven calendar weeks and until the claimant obtains bona fide work in employment covered by this title and earned wages in that employment equal to seven times the claimant's weekly benefit amount. Good cause reasons to leave work are limited to reasons listed in (b) of this subsection.

The disqualification shall continue if the work obtained is a mere sham to qualify for benefits and is not bona fide work. In determining whether work is of a bona fide nature, the commissioner shall consider factors including but not limited to the following:

(i) The duration of the work;

(ii) The extent of direction and control by the employer over the work; and

(iii) The level of skill required for the work in light of ~~(the)~~ the claimant's training and experience.

(b) A claimant has good cause and is not disqualified from benefits under (a) of this subsection only under the following circumstances:

(i) The claimant has left work to accept a bona fide offer of bona fide work as described in (a) of this subsection;

(ii) The separation was necessary because of the illness or disability of the claimant or the death, illness, or disability of a member of the claimant's immediate family if:

(A) The claimant pursued all reasonable alternatives to preserve the claimant's employment status by requesting a leave of absence, by having promptly notified the employer of the reason for the absence, and by having promptly requested reemployment when again able to assume employment. These alternatives need not be pursued, however, when they would have been a futile act, including those instances when the futility of the act was a result of a recognized labor/management dispatch system; and

(B) The claimant terminated the claimant's employment status, and is not entitled to be reinstated to the same position or a comparable or similar position;

(iii) The claimant: (A) Left work to relocate for the employment of a spouse or domestic partner that is outside the existing labor market area; and (B) remained employed as long as was reasonable prior to the move;

(iv) The separation was necessary to protect the claimant or the claimant's immediate family members from domestic violence, as defined in RCW 26.50.010, or stalking, as defined in RCW 9A.46.110;

(v) The claimant's usual compensation was reduced by twenty-five percent or more;

(vi) The claimant's usual hours were reduced by twenty-five percent or more;

(vii) The claimant's worksite changed, such change caused a material increase in distance or difficulty of travel, and, after the change, the commute was greater than is customary for workers in the claimant's job classification and labor market;

(viii) The claimant's worksite safety deteriorated, the claimant reported such safety deterioration to the employer, and the employer failed to correct the hazards within a reasonable period of time;

(ix) The claimant left work because of illegal activities in the claimant's worksite, the claimant reported such activities to the employer, and the employer failed to end such activities within a reasonable period of time;

(x) The claimant's usual work was changed to work that violates the claimant's religious convictions or sincere moral beliefs; or

(xi) The claimant left work to enter an apprenticeship program approved by the Washington state apprenticeship training council. Benefits are payable beginning Sunday of the week prior to the week in which the claimant begins active participation in the apprenticeship program.

(2) With respect to separations that occur on or after April 4, 2021:

(a) A claimant shall be disqualified from benefits beginning with the first day of the calendar week in which the claimant has left work voluntarily without good cause and thereafter for seven calendar weeks and until the claimant has obtained bona fide work in employment covered by this title and earned wages in that employment equal to seven times the claimant's weekly benefit amount. Good cause reasons to leave work are limited to reasons listed in (b) of this subsection.

The disqualification shall continue if the work obtained is a mere sham to qualify for benefits and is not bona fide work. In determining whether work is of a bona fide nature, the commissioner shall consider factors including but not limited to the following:

(i) The duration of the work;

(ii) The extent of direction and control by the employer over the work; and

(iii) The level of skill required for the work in light of the claimant's training and experience.

(b) A claimant has good cause and is not disqualified from benefits under (a) of this subsection only under the following circumstances:

(i) The claimant has left work to accept a bona fide offer of bona fide work as described in (a) of this subsection;

(ii) The separation was necessary because of the illness or disability of the claimant or the death, illness, or disability of a member of the claimant's immediate family if:

(A) The claimant made reasonable efforts to preserve the claimant's employment status by requesting a leave of absence, by having promptly notified the employer of the reason for the absence, and by having promptly requested reemployment when again able to assume employment. These alternatives need not be pursued, however, when they would have been a futile act, including those instances when the futility of the act was a result of a recognized labor/management dispatch system; and

(B) The claimant terminated the claimant's employment status, and is not entitled to be reinstated to the same position or a comparable or similar position;

(iii) The claimant: (A) Left work to relocate for the employment of a spouse or domestic partner that is outside the existing labor market area; and (B) remained employed as long as was reasonable prior to the move;

(iv) The separation was necessary to protect the claimant or the claimant's immediate family members from domestic violence, as defined in RCW 26.50.010, or stalking, as defined in RCW 9A.46.110;

(v) The claimant's usual compensation was reduced by twenty-five percent or more;

(vi) The claimant's usual hours were reduced by twenty-five percent or more;

(vii) The claimant's worksite changed, such change caused a material increase in distance or difficulty of travel, and, after the change, the commute was greater than is customary for workers in the individual's job classification and labor market;

(viii) The claimant's worksite safety deteriorated, the claimant reported such safety deterioration to the employer, and the employer failed to correct the hazards within a reasonable period of time;

(ix) The claimant left work because of illegal activities in the claimant's worksite, the claimant reported such activities to the employer, and the employer failed to end such activities within a reasonable period of time;

(x) The claimant's usual work was changed to work that violates the claimant's religious convictions or sincere moral beliefs;

(xi) The claimant left work to enter an apprenticeship program approved by the Washington state apprenticeship training council. Benefits are payable beginning Sunday of the week prior to the week in which the claimant begins active participation in the apprenticeship program; or

(xii) During a public health emergency:

(A) The claimant was unable to perform the claimant's work for the employer from the claimant's home;

(B) The claimant is able to perform, available to perform, and can actively seek suitable work which can be performed for an employer from the claimant's home; and

(C) The claimant or another individual residing with the claimant is at higher risk of severe illness or death from the disease that is the subject of the public health emergency because the higher risk individual:

(I) Was in an age category that is defined as high risk for the disease that is the subject of the public health emergency by the federal centers for disease control and prevention, the department

of health, or the equivalent agency in the state where the individual resides; or

(II) Has an underlying health condition, verified as required by the department by rule, that is identified as a risk factor for the disease that is the subject of the public health emergency by the federal centers for disease control and prevention, the department of health, or the equivalent agency in the state where the individual resides.

(3) With respect to claims that occur on or after July 4, 2021, a claimant has good cause and is not disqualified from benefits under subsection (2)(a) of this section under the following circumstances, in addition to those listed under subsection (2)(b) of this section, if, during a public health emergency, the claimant worked at a health care facility as defined in RCW 9A.50.010, was directly involved in the delivery of health services, and left work for the period of quarantine consistent with the recommended guidance from the United States centers for disease control and prevention or subject to the direction of the state or local health jurisdiction because of exposure to or contracting the disease that is the subject of the declaration of the public health emergency.

(4) Notwithstanding subsection (1) of this section, a claimant who was simultaneously employed in full-time employment and part-time employment and is otherwise eligible for benefits from the loss of the full-time employment shall not be disqualified from benefits because the claimant:

(a) Voluntarily quit the part-time employment before the loss of the full-time employment; and

(b) Did not have prior knowledge that the claimant would be separated from full-time employment.

Sec. 4. RCW 50.29.021 and 2021 c 2 s 16 are each amended to read as follows:

(1)(a) An experience rating account shall be established and maintained for each employer, except employers as described in RCW 50.44.010, 50.44.030, and 50.50.030 who have properly elected to make payments in lieu of contributions, taxable local government employers as described in RCW 50.44.035, and those employers who are required to make payments in lieu of contributions, based on existing records of the employment security department.

(b) Benefits paid to an eligible individual shall be charged to the experience rating accounts of each of such individual's employers during the individual's base year in the same ratio that the wages paid by each employer to the individual during the base year bear to the wages paid by all employers to that individual during that base year, except as otherwise provided in this section.

(c) When the eligible individual's separating employer is a covered contribution paying base year employer, benefits paid to the eligible individual shall be charged to the experience rating account of only the individual's separating employer if the individual qualifies for benefits under:

(i) RCW 50.20.050 (1)(b)(i) or (2)(b)(i), as applicable, and became unemployed after having worked and earned wages in the bona fide work; ~~((e))~~

(ii) RCW 50.20.050 (1)(b) (v) through (x) or (2)(b) (v) through (x); or

(iii) During a public health emergency, the claimant worked at a health care facility as defined in RCW 9A.50.010, was directly involved in the delivery of health services, and was terminated from work due to entering quarantine because of exposure to or contracting the disease that is the subject of the declaration of the public health emergency.

(2) The legislature finds that certain benefit payments, in whole or in part, should not be charged to the experience rating accounts of employers except those employers described in RCW

50.44.010, 50.44.030, and 50.50.030 who have properly elected to make payments in lieu of contributions, taxable local government employers described in RCW 50.44.035, and those employers who are required to make payments in lieu of contributions, as follows:

(a) Benefits paid to any individual later determined to be ineligible shall not be charged to the experience rating account of any contribution paying employer, except as provided in subsection (4) of this section.

(b) Benefits paid to an individual filing under the provisions of chapter 50.06 RCW shall not be charged to the experience rating account of any contribution paying employer only if:

(i) The individual files under RCW 50.06.020(1) after receiving crime victims' compensation for a disability resulting from a nonwork-related occurrence; or

(ii) The individual files under RCW 50.06.020(2).

(c) Benefits paid which represent the state's share of benefits payable as extended benefits defined under RCW 50.22.010(6) shall not be charged to the experience rating account of any contribution paying employer.

(d) In the case of individuals who requalify for benefits under RCW 50.20.050 or 50.20.060, benefits based on wage credits earned prior to the disqualifying separation shall not be charged to the experience rating account of the contribution paying employer from whom that separation took place.

(e) Benefits paid to an individual who qualifies for benefits under RCW 50.20.050 (1)(b) (iv) or (xi) ~~((~~ee~~))~~, (2)(b) (iv), (xi), or (xii), or (3), as applicable, shall not be charged to the experience rating account of any contribution paying employer.

(f) Benefits paid that exceed the benefits that would have been paid if the weekly benefit amount for the claim had been determined as one percent of the total wages paid in the individual's base year shall not be charged to the experience rating account of any contribution paying employer. This subsection (2)(f) does not apply to the calculation of contribution rates under RCW 50.29.025 for rate year 2010 and thereafter.

(g) Upon approval of an individual's training benefits plan submitted in accordance with RCW 50.22.155(2), an individual is considered enrolled in training, and regular benefits beginning with the week of approval shall not be charged to the experience rating account of any contribution paying employer.

(h) Training benefits paid to an individual under RCW 50.22.155 shall not be charged to the experience rating account of any contribution paying employer.

(i)(i) Benefits paid during the one week waiting period when the one week waiting period is fully paid or fully reimbursed by the federal government shall not be charged to the experience rating account of any contribution paying employer.

(ii) In the event the one week waiting period is partially paid or partially reimbursed by the federal government, the department may, by rule, elect to not charge, in full or in part, benefits paid during the one week waiting period to the experience rating account of any contribution paying employer.

(j) Benefits paid for all weeks starting with the week ending March 28, 2020, and ending with the week ending May 30, 2020, shall not be charged to the experience rating account of any contribution paying employer.

(3)(a) A contribution paying base year employer, except employers as provided in subsection (5) of this section, not otherwise eligible for relief of charges for benefits under this section, may receive such relief if the benefit charges result from payment to an individual who:

(i) Last left the employ of such employer voluntarily for reasons not attributable to the employer;

(ii) Was discharged for misconduct or gross misconduct connected with his or her work not a result of inability to meet the minimum job requirements;

(iii) Is unemployed as a result of closure or severe curtailment of operation at the employer's plant, building, worksite, or other facility. This closure must be for reasons directly attributable to a catastrophic occurrence such as fire, flood, or other natural disaster, or to the presence of any dangerous, contagious, or infectious disease that is the subject of a public health emergency at the employer's plant, building, worksite, or other facility;

(iv) Continues to be employed on a regularly scheduled permanent part-time basis by a base year employer and who at some time during the base year was concurrently employed and subsequently separated from at least one other base year employer. Benefit charge relief ceases when the employment relationship between the employer requesting relief and the claimant is terminated. This subsection does not apply to shared work employers under chapter 50.60 RCW;

(v) Continues to be employed on a regularly scheduled permanent part-time basis by a base year employer and who qualified for two consecutive unemployment claims where wages were attributable to at least one employer who employed the individual in both base years. Benefit charge relief ceases when the employment relationship between the employer requesting relief and the claimant is terminated. This subsection does not apply to shared work employers under chapter 50.60 RCW;

(vi) Was hired to replace an employee who is a member of the military reserves or National Guard and was called to federal active military service by the president of the United States and is subsequently laid off when that employee is reemployed by their employer upon release from active duty within the time provided for reemployment in RCW 73.16.035;

(vii) Worked for an employer for ~~((twenty))~~ 20 weeks or less, and was laid off at the end of temporary employment when that employee temporarily replaced a permanent employee receiving family or medical leave benefits under Title 50A RCW, and the layoff is due to the return of that permanent employee. This subsection (3)(a)(vii) applies to claims with an effective date on or after January 1, 2020; or

(viii) Was discharged because the individual was unable to satisfy a job prerequisite required by law or administrative rule.

(b) The employer requesting relief of charges under this subsection must request relief in writing within thirty days following mailing to the last known address of the notification of the valid initial determination of such claim, stating the date and reason for the separation or the circumstances of continued employment. The commissioner, upon investigation of the request, shall determine whether relief should be granted.

(4) When a benefit claim becomes invalid due to an amendment or adjustment of a report where the employer failed to report or inaccurately reported hours worked or remuneration paid, or both, all benefits paid will be charged to the experience rating account of the contribution paying employer or employers that originally filed the incomplete or inaccurate report or reports. An employer who reimburses the trust fund for benefits paid to workers and who fails to report or inaccurately reported hours worked or remuneration paid, or both, shall reimburse the trust fund for all benefits paid that are based on the originally filed incomplete or inaccurate report or reports.

(5) An employer's experience rating account may not be relieved of charges for a benefit payment and an employer who reimburses the trust fund for benefit payments may not be credited for a benefit payment if a benefit payment was made because the employer or employer's agent failed to respond timely

or adequately to a written request of the department for information relating to the claim or claims without establishing good cause for the failure and the employer or employer's agent has a pattern of such failures. The commissioner has the authority to determine whether the employer has good cause under this subsection.

(a) For the purposes of this subsection, "adequately" means providing accurate information of sufficient quantity and quality that would allow a reasonable person to determine eligibility for benefits.

(b)(i) For the purposes of this subsection, "pattern" means a benefit payment was made because the employer or employer's agent failed to respond timely or adequately to a written request of the department for information relating to a claim or claims without establishing good cause for the failure, if the greater of the following calculations for an employer is met:

(A) At least three times in the previous two years; or

(B) Twenty percent of the total current claims against the employer.

(ii) If an employer's agent is utilized, a pattern is established based on each individual client employer that the employer's agent represents.

NEW SECTION. Sec. 5. If any part of sections 1 through 4 of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state or the eligibility of employers in this state for federal unemployment tax credits, the conflicting part of sections 1 through 4 of this act is inoperative solely to the extent of the conflict, and the finding or determination does not affect the operation of the remainder of sections 1 through 4 of this act. Rules adopted under sections 1 through 4 of this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state or the granting of federal unemployment tax credits to employers in this state.

NEW SECTION. Sec. 6. A new section is added to chapter 51.32 RCW to read as follows:

(1) For health care employees who are covered under this title, there exists a prima facie presumption that any infectious or contagious diseases which are the subject of a public health emergency are occupational diseases under RCW 51.08.140 during a public health emergency.

(2) The health care employee must provide verification, as required by the department by rule, to the department or the self-insurer that the employee is in quarantine or has contracted the disease after exposure to the infectious or contagious disease that is the subject of the public health emergency.

(3) This presumption of occupational disease may be rebutted by clear and convincing evidence that:

(a) The exposure to the infectious or contagious disease which is the subject of the public health emergency occurred from other employment or nonemployment activities; or

(b) The employee was working from the employee's home or other location not under the employer's control, on leave from the employee's employment, or some combination thereof, for the period of quarantine outlined for the disease immediately prior to the employee's date of disease contraction or period of incapacity resulting from exposure to the disease which is the subject of the public health emergency.

(4)(a) RCW 51.32.090(7) does not apply to an occupational disease under this section except that no worker shall receive compensation for or during the day on which the occupational disease was contracted. For the purposes of this subsection (4), the day on which the occupational disease was contracted is whichever date occurs first of the following:

(i) The date that the worker first missed work due to symptoms of the infectious or contagious disease;

(ii) The date the worker was quarantined by a medical provider or public health official; or

(iii) The date the worker received a positive test result confirming contraction of the infectious or contagious disease.

(b) If leave or similar benefits are paid to the worker as part of a federal or state program for these employees during the public health emergency, total temporary disability benefits are not payable for the same period of time covered by this federal or state program.

(5) Costs of claims allowed under this section shall not affect the experience rating of employers insured by the state fund. When calculating assessments due to the department for which total claim costs are the basis, self-insured employers and self-insurance hospital groups formed under RCW 51.14.150 and 51.14.160 may deduct the cost of payments made under this section from the total of all claim costs reported.

(6) For purposes of this section:

(a) "Health care employee" means an employee of any health care facility or other organization that provides emergency or medical services who has or likely has had direct contact with any person who has been exposed to or tested positive for any infectious or contagious diseases which are the subject of a public health emergency.

(b) "Health care facility" has the same meaning as in RCW 9A.50.010.

(c) "Public health emergency" means a declaration or order that covers the jurisdiction where the employee was working on the date of exposure concerning any dangerous, contagious, or infectious diseases, including a pandemic, and is issued as follows:

(i) The president of the United States has declared a national or regional emergency; or

(ii) The governor of Washington declared a state of emergency under RCW 43.06.010(12).

(7) The presumption in subsection (1) of this section takes effect on the day the national, regional, or state emergency is declared and continues until this declaration is revoked.

(8) The provisions of RCW 51.28.055 concerning time limits for filing claims for occupational disease apply to claims covered under this section.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Correct the title.

and the same are herewith transmitted.

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5193 with the following amendment(s): 5193-S.E AMH LAWS H1303.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds with roughly \$4,700,000,000 in the state unemployment insurance trust fund, Washington entered the COVID-19 pandemic with one of the strongest and best-funded trust funds in the nation. During an unprecedented time, the state's unemployment insurance trust fund provided critical economic support to Washington workers and businesses through unemployment benefits and helped bolster the state's economy.

The legislature recognizes that the employment security department maintains a recession readiness team that prepares the agency to respond to economic changes, helping employers and employees plan for the future. Based on experience with past recessions, the employment security department's readiness team prepared contingency plans for a possible economic crisis. During the great recession, there were approximately 61,000 continued unemployment insurance claims in September 2008, rising to a high of approximately 173,000 claims in January of 2010, a period of 16 months. During the first three months of COVID-19, unemployment insurance claims were more than double those filed during the great recession, a time period that was seven times longer. From February 2020 to April 2020, unemployment insurance claims went from approximately 62,000 to approximately 447,000 claims. The sudden magnitude of claimants overwhelmed the system; contributing to Washingtonians waiting months for their earned benefits and facing deep economic insecurity.

The legislature finds that, despite conscientious economic emergency planning by the employment security department, claims processing issues are central problems encumbering the

employment security department's ability to timely meet a suddenly increased demand for benefits. Immediate additional measures to facilitate rapid and equitable provision of unemployment benefits now, and enhanced preparation to do so in future economic downturns or emergencies, are critically important.

The legislature further finds that a federal retroactive funding model that looks back instead of preparing for potential economic shocks ahead was a major contributing factor to the challenges faced by all states during the COVID-19 pandemic in quickly paying benefits to unemployed workers. Our employment security department cannot quickly scale up for increased workloads and new programs if its administrative funding is based on funding that looks backward instead of forward.

Amid an unprecedented need for benefits and stresses on our unemployment insurance program, the legislature intends to create a pool of qualified unemployment insurance claim adjudicators, reduce claimants' need for assistance, assure transparency of claims processing performance measures, and make other system enhancements. Together, these systems enhancements will ensure quicker claim resolution and benefit payment; thus providing critical economic support during future unemployment crises.

NEW SECTION. Sec. 2. A new section is added to chapter 50.12 RCW to read as follows:

(1) The employment security department must create a training program to prepare a reserve force of skilled unemployment insurance claim adjudicators who can be available quickly when claims volume demands.

(2) The program must:

(a) Be open to both state and other public employees and private citizens;

(b) Be of sufficient quality that persons completing the training and any required continuing education would be ready to work as an unemployment insurance claim adjudicator within one week of commencing employment with the employment security department; and

(c) Provide a certification of completion to participants who complete the program.

(3) The office of financial management must collaborate with the employment security department to assist the department in identifying agencies with current state employees who meet the minimum qualifications for unemployment insurance claims' adjudicator. Employees at other agencies, who meet the minimum qualifications of the unemployment insurance claims' adjudicator classification, may, upon approval of their agency, attend required training provided by the department. In designated times of high unemployment claims, current state employees who have completed required training and who are otherwise qualified may be selected to assist the department in processing unemployment insurance claims or related activities. The office of financial management may adopt rules or issue guidance to assist in the implementation of this provision.

(4) By October 1, 2021, and each year thereafter, the employment security department must provide a report to the house of representatives committee on labor and workplace standards and the senate committee on labor, commerce, and tribal affairs, or successor committees, on the number of persons with current certifications under subsection (2)(c) of this section, the number of people employed by the department and over what period of time, and the adjudicator training and hiring costs.

NEW SECTION. Sec. 3. A new section is added to chapter 50.12 RCW to read as follows:

(1) The department must designate department employees to assure that letters, alerts, and notices produced manually or by the department's unemployment insurance technology system are written in plainly understood language and tested on claimants before they are approved for use. Criteria for approval must include comprehensibility, clarity, and readability. If the messaging of any letter, alert, or notice falls short of those criteria, manual methods of producing a comprehensible version shall be considered while the department waits for their unemployment insurance technology system to incorporate required modifications.

(2) Determinations and redeterminations must clearly convey applicable statute numbers, a brief explanation of pertinent law, outline of relevant facts, reasoning, decision, and result.

(3) The department will work with an unemployment insurance advisory committee comprised of business and worker advocates to explore:

(a) Establishing thresholds that will trigger automatic adjustments in department staffing assignments and phone agent staffing levels;

(b) Establishing a pilot to provide a caseworker approach to the claims of a group of claimants with that casework carrying over to reemployment services;

(c) Increasing language access, including by providing translation of notices sent to claimants as part of their unemployment insurance claims; and

(d) Frequency of the initial and continuing training to meet the needs of section 2 of this act.

(4) Dedicated toll-free phone lines must be established for claimants who lack computer skills or access to computers, claimants with disabilities, and claimants with limited English proficiency.

NEW SECTION. Sec. 4. A new section is added to chapter 50.12 RCW to read as follows:

The department must:

(1) Maintain an online data dashboard.

(2) Provide quarterly reports with performance metrics that include:

(a) Updates of unemployment rates;

(b) Total numbers of claims paid, amount compensated, claims denied, claims pending in adjudication, claims on which payment has been halted for review, pending appeals, appeals redetermined by the department, and appeals sent to the office of administrative hearings;

(c) Claims center phone statistics including call volume, hold times, abandoned calls, repeat calls, and all-circuits-busy messages for both claimants and employers;

(d) Ratio of staff phone agents to employers and ratio of staff phone agents to claimants;

(e) Number and dollar total of overpayments imposed and overpayment waiver approval rate; and

(f) The percentage of unemployed persons in the state receiving benefits (reciprocity rate).

NEW SECTION. Sec. 5. (1) By September 1, 2021, and at least quarterly through September 1, 2022, the employment security department must provide a report to the house of representatives committee on labor and workplace standards and the senate committee on labor, commerce, and tribal affairs, or successor committees, that includes:

(a) The department's progress in implementing this act;

(b) Updates on any new federal programs or funds received by the department for unemployment compensation and administration and the use of such funds;

(c) Any software or technology issues related to claims processing, including any issues causing claim delays or inaccurate automated notifications;

(d) Updates on the department's protocols and process for protecting sensitive data; and

(e) Any other relevant unemployment issues, or information related to enhancing the unemployment insurance system, as determined by the department.

(2) This section expires December 1, 2022."

Correct the title.

and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

April 9, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5194 with the following amendment(s): 5194-S2.E AMH CWD H1377.1

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. INTENT. The legislature recognizes that student completion rates for workforce training certification and degree programs at community and technical

colleges are far lower than desirable to ensure that students may utilize the opportunities of postsecondary education to lift themselves and their families out of poverty and to meet our state's student achievement council road map goals, including for 70 percent of Washington residents to have a postsecondary certification or degree to meet workforce needs. The legislature recognizes that first-generation college-attending students, students with disabilities, and underrepresented minority students face far greater obstacles to apply, remain in school, and complete programs. This disparate impact greatly affects our state's commitment to equity.

The legislature recognizes that offering tuition financial support to first-generation and underrepresented minority students is necessary for students to enroll and attend college but must also be accompanied by proven supports for them to complete their degrees or workforce training programs.

The legislature recognizes that there are mentorship and advising programs based on strong evidence that have been proven to be successful in greatly increasing retention and degree or workforce training completion rates for first-generation students, underrepresented minority students, students with disabilities, and for all students at community and technical colleges. It is the legislature's intent that successful programs such as guided pathways be implemented at all community and technical colleges with the goal of doubling completion rates (as measured by completion in six years) for students in the next eight years. To accomplish this goal, the legislature intends to achieve full implementation of research-based programs to improve student outcomes, such as guided pathways. The legislature affirms that all students receiving Washington college grants, college bound scholarships, or federal Pell grants should receive the supports, including mentoring, that have been proven to increase completion rates.

The legislature further finds that research establishes that students from underrepresented minorities are far more likely to complete degrees or workforce training certification programs if the faculty and staff of the college reflect the diversity of the student body. Therefore, the legislature intends for the state's community and technical colleges to develop and implement plans to increase faculty and staff diversity.

NEW SECTION. Sec. 2. FINDINGS. The legislature finds that there is a need to expand investments in community and technical colleges for the purpose of guaranteeing both equitable access and educational success for all residents of the state, particularly for students from communities of color and low-income communities. The legislature finds further that equality of opportunity for all students requires investments to support services that are critical to: The success of students of color and low-income students; provide systemwide equity initiatives intended to make community and technical college campuses welcoming, benevolent places; overcome the digital divide for all students; and provide qualified and available counseling throughout the community and technical college system. The legislature also finds that a more full-time, stable, fairly compensated, and diverse community and technical college faculty is necessary to enhance student success and to improve the mentoring available for a diverse student body. The legislature also finds that resources for student aid and workforce investment need to be adequate to meet the needs of all students in the state, particularly those from families of color and low-income families.

NEW SECTION. Sec. 3. DIVERSITY, EQUITY, AND INCLUSION STRATEGIC PLAN. (1) Beginning July 30, 2022, all community and technical colleges must submit, on a biennial basis, strategic plans to the state board for community

and technical colleges for achieving diversity, equity, and inclusion of all races on their campuses.

(2) Colleges must create their strategic plans using an inclusive process of stakeholders including, but not limited to, classified staff, faculty, administrative exempt staff, students, and community organizations. Colleges are encouraged to use campus climate surveys to develop and update strategic plans for diversity, equity, and inclusion of all races.

(3) In addition to planning, each community and technical college shall include in its diversity program opportunities for students from historically marginalized communities to form student-based organizations, and to use community-based organizations, that permit students to work together to mentor and assist one another in navigating the educational system and to access trained mentors using evidence-based mentoring strategies.

(4) Each community and technical college shall establish a culturally appropriate outreach program. The outreach program may include communities of color, students with disabilities, neurodiverse communities, and low-income communities and be designed to assist potential students to understand the opportunities available in the community and technical college system. The outreach program may assist students with navigating the student aid system. Outreach programs may include partnerships with appropriate community-based organizations and use research and supports from the student achievement council.

(5) The state board for community and technical colleges shall develop a model faculty diversity program designed to provide for the retention and recruitment of faculty from all racial, ethnic, and cultural backgrounds. The faculty diversity program must be based on proven practices in diversity hiring processes.

(6) Each community and technical college shall conspicuously post on its website and include in the strategic plans, programs, and reports definitions for key terms including: Diversity, equity, inclusion, culturally competent, culturally appropriate, historically marginalized communities, communities of color, low-income communities, and community organizations.

NEW SECTION. Sec. 4. STUDENT SUCCESS SUPPORT PROGRAMS AND GUIDED PATHWAYS IMPLEMENTATION. (1) Subject to availability of amounts appropriated for this specific purpose, each community and technical college shall fully implement guided pathways. At a minimum, guided pathways implementation must include:

(a) Comprehensive mapping of student educational pathways with student end goals in mind. These must include transparent and clear career paths that are tightly aligned to the skills sought by employers. Pathways must align course sequences to show clear paths for students, alignment with K-12 and university curriculum, and skill sets needed to enter the workforce;

(b) Dedicated advising and career counseling that helps students make informed program choices and develop completion plans. Advising services may include processes that help students explore possible career and educational choices while also emphasizing early planning. Advising must be culturally competent and with an emphasis on helping historically underserved, low-income, and students of color navigate their education;

(c) Data analysis of student learning as well as program and service outcomes. Data must be used to inform program development, the creation and further refinement of student pathways, and to provide opportunities for early intervention to help students succeed; and

(d) A student success support infrastructure using programs that the state board for community and technical colleges finds have been effective in closing equity gaps among historically underserved student populations and improve student completion rates. The student success support program must be based on research or documented evidence of success. In tandem with guided pathways implementation, student success support programs may include evidence-based elements such as:

- (i) Equity competent academic advising services;
- (ii) Equity competent career development programming;
- (iii) Clear information regarding financial aid and financial literacy; and
- (iv) Inclusive curriculum and teaching practices.

(2) Each community and technical college shall post on its website and include in the guided pathways program documentation and reports definitions for key terms including: Diversity, equity, inclusion, culturally competent, culturally appropriate, historically marginalized communities, communities of color, low-income communities, and community organizations.

(3)(a) The Washington state institute for public policy, in consultation with the workforce education investment accountability and oversight board under RCW 28C.18.200, shall complete an evaluation of the guided pathways model. To the extent possible, the institute shall complete a preliminary report that evaluates the effect of the guided pathways model on early student outcomes including, but not limited to, student retention and persistence, college level English and math within the first year, and graduation and transfer rates. The preliminary report must review the implementation of the guided pathways model in Washington and any available evidence of the effectiveness of the guided pathways model. The preliminary report must be submitted by December 15, 2023.

(b) The Washington state institute for public policy shall complete a final report that evaluates the effect of the guided pathways on longer-term student outcomes including, but not limited to, degree completion, time to degree, transfer to four-year institutions, employment, and earnings, to the extent possible. The final report must be submitted by December 15, 2029.

(c) Both the preliminary and final reports must consider differences in outcomes by racial and ethnic subgroups and socioeconomic status.

NEW SECTION. Sec. 5. TENURE-TRACK FACULTY.

(1) The legislature recognizes that student outcomes and success, especially for first generation, underserved students, may be significantly improved by increasing the number of full-time faculty at community and technical colleges.

(a) The legislature's goal is that community and technical colleges increase the numbers of full-time tenured positions by adding 200 new full-time tenure-track positions in the 2021-2023 fiscal biennium.

(b) This goal is best accomplished through converting part-time faculty positions to full-time tenure-track positions and by hiring new full-time faculty through processes identified in each college's diversity, equity, and inclusion of all races strategic plan described in section 3 of this act. If specific funding for the purpose of conversion assignments proposed in this section is not provided in the omnibus appropriations act, the conversion assignments proposed must be delayed until such time as specific funding is provided.

(c) The college board must collect data and assess the impact of the 200 additional full-time tenure-track faculty on student completion rates. The college board must convene representatives of faculty, staff, and administration to report on outcomes as a result of increasing full-time tenure-track faculty. In consultation

with representatives of faculty, staff, and administration, the college board must make recommendations about future steps to increase full-time tenure-track faculty that incorporate faculty diversity and historically underserved communities. The college board must report the results of its assessment, along with next step recommendations, to the legislature by December 15, 2023. The college board shall conspicuously post on its website and include in the report definitions for key terms including: Diversity, equity, inclusion, culturally competent, culturally appropriate, historically marginalized communities, communities of color, low-income communities, and community organizations.

(2) This section expires July 1, 2024.

NEW SECTION. Sec. 6. MENTAL HEALTH COUNSELOR PILOT PROGRAM.

(1) Subject to the availability of amounts appropriated for this specific purpose, the college board shall administer a pilot program to increase student access to mental health counseling and services.

(2) The college board, in collaboration with the selection committee, shall select community or technical colleges to participate in the pilot program. At least half of the participating colleges must be located outside of the Puget Sound area. For purposes of this section, "Puget Sound area" means Snohomish, King, Pierce, and Thurston counties. Each participating college must receive a grant to implement one or more strategies to increase student access to mental health counseling and services, including substance use disorder counseling and services.

(3)(a) A selection committee consisting of the following shall assist with the application selection process:

- (i) One community or technical college president;
- (ii) One community or technical college vice president for student services or student instruction;
- (iii) Two faculty counselors employed at a community or technical college; and
- (iv) One community or technical college student.

(b) The selection committee may consult with representatives of an entity within a college or university that has expertise in suicide prevention and the department of health in developing selection criteria.

(4) Community and technical colleges wishing to participate in the pilot program shall apply to the college board. Applicants must identify opportunities for expanding on-campus mental health counseling and services. Applicants must also show a commitment to further develop partnerships by engaging external community providers, including those who provide crisis services and substance use disorder treatment and counseling. Applications that demonstrate plans to include one or more of the following strategies recommended by the community and technical college counselors task force must be prioritized:

(a) Improve equity, diversity, and inclusion of all races in counseling services, such as by diversifying the counselor workforce by adopting equity-centered recruiting, training, and retention practices or by providing equity training and awareness for all counselors;

(b) Meet mental health needs of students through an all-campus effort;

(c) Engage students to help increase mental health and counseling awareness and promote help-seeking behavior through student groups and other methods;

(d) Increase the visibility of counseling services on campus;

(e) Increase or expand external partnerships with community service providers;

(f) Adopt the use of telebehavioral health, especially in under resourced communities;

(g) Develop an assessment of counseling services to inform improvements and ensure counseling services are meeting student needs; or

(h) Implement counseling approaches grounded in theory that have evidence of being effective.

(5) Colleges selected to participate in the pilot program that use grant funding to hire additional mental health counselors must hire counselors who have specific graduate-level training for meeting the mental and behavioral health needs of students.

(6) Colleges selected to participate in the pilot program shall submit a joint report to the appropriate committees of the legislature and in accordance with RCW 43.01.036 by November 1, 2023. The report must include:

(a) Information on which colleges were selected for the pilot program, how much grant funding was received per college, and what strategies each implemented to increase student access to mental health counseling and services;

(b) Demographic data of students accessing mental health counseling and services, including those students who are considered underrepresented or traditionally have limited access to mental health counseling and services;

(c) Whether the mental health counseling and services provided are meeting the demand of students in terms of type and availability, and whether the various types of mental health counseling and services are being provided by community providers versus on-campus services;

(d) Information and data on the effectiveness, including cost-effectiveness, of each strategy used to increase student access to mental health counseling and services, including substance use disorder counseling and services, such as the number of additional students served, reduced wait times for counseling appointments, or other data that reflects expanded access; and

(e) Lessons learned and recommendations for improving student access to mental health counseling and services at community and technical colleges and to community providers, including whether there were any strategies implemented that proved more effective than others in increasing access.

(7) Colleges selected for the pilot program shall conspicuously post on their websites and include in the report to the legislature the definitions for key terms including: Diversity, equity, inclusion, culturally competent, culturally appropriate, historically marginalized communities, communities of color, low-income communities, and community organizations.

(8) The pilot program expires July 1, 2025.

(9) This section expires January 1, 2026.

NEW SECTION. Sec. 7. MINIMUM COUNSELOR STANDARDS. (1) It is the intent of the legislature to provide clear minimum standards to ensure qualified faculty counselors while also providing flexibility to allow for differences in criteria required by hiring institutions. Within existing resources, and beginning September 1, 2021, the college board shall adopt rules regarding the minimum hiring standards for a faculty counselor. At a minimum, these must include:

(a) A graduate or professional degree in a related field;

(b) Completion of appropriate graduate coursework; and

(c) Standards established by the state board for community and technical colleges.

(2) The requirements and standards imposed through this section do not apply to an individual employed by a college district as a counselor before September 1, 2021. Counselors who began employment at one college district prior to September 1, 2021, and moved employment to a different college district after that date may carry the exemptions from the requirements and

standards imposed through this section to their new place of employment.

MESSAGE FROM THE HOUSE

April 9, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5227 with the following amendment(s): 5227-S2.E AMH ENGR H1309.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that a postsecondary credential such as a degree, apprenticeship, or certificate is increasingly necessary to obtain a job that offers a good salary and advancement opportunities and that increasing the number of students in Washington who obtain such a credential is essential to the state's economic success. The legislature also recognizes that equity gaps remain among postsecondary students and that those gaps particularly impact students from historically marginalized communities.

The legislature finds that developing and maintaining a culture of belonging and support for students, faculty, and staff at institutions of higher education is essential to student success, and that faculty and staff play a key role. The legislature therefore seeks to ensure that public institutions of higher education provide faculty and staff, as well as students, with training to give them tools to address matters related to antiracism, diversity, equity, and inclusion.

The legislature further finds it necessary to regularly analyze the impact of that training on the campus community and to identify any measures needed to increase diversity, equity, and inclusion. Accordingly, the legislature intends that each public institution of higher education assess the learning, working, and living environment on campus that students, faculty, and staff experience to better understand the evolving state of diversity, equity, and inclusion.

NEW SECTION. Sec. 2. A new section is added to chapter 28B.10 RCW to read as follows:

(1) Each institution of higher education must:

(a) Provide professional development, either existing or new, focused on diversity, equity, inclusion, and antiracism for faculty and staff. This program must be developed in partnership with the institution's administration, faculty, staff, and student leadership groups. Efforts must be made to ensure the program is developed and delivered by individuals with innate and acquired experience and expertise in the field of diversity, equity, and inclusion. The content framework for professional development must be posted on each institution's public website for parents and community members. The professional development must begin in the 2022-23 academic year;

(b) Create an evaluation for professional development participants. The evaluations must, at minimum, capture a participant's level of satisfaction with the professional development opportunity, the degree to which the learning objectives were achieved, and how the knowledge gained may be applied to their work;

(c)(i) Share completed evaluations of program participants annually with either the state board for community and technical colleges or an organization representing the presidents of the public four-year institutions of higher education, depending on the institution; and (ii) submit curriculum and other pertinent information regarding the program beginning July 1, 2023, and, subsequently, if there is a meaningful change or by request of the reporting entity.

(2) The purpose of each professional development program curriculum must be rooted in eliminating structural racism against all races and promoting diversity, equity, and inclusion while improving academic, social, and health and wellness outcomes for students from historically marginalized communities. The program must also include elements that focus on commonalities and humanity. Institutions of higher education may further develop a curriculum that is reflective of the needs of the campus community.

(3)(a) Beginning with the 2022-23 academic year, every new faculty and staff member at an institution of higher education must participate in the program, regardless of whether they are a full-time or part-time employee. All faculty and staff participating in the professional development program must complete an evaluation. Other faculty and staff may participate in the professional development program as needed or required by their institution. Each institution must develop a goal of at least 80 percent of their total faculty and staff completing the professional development program every two years and report on their goal's progress in the report established in section 5 of this act. Each institution may determine how to show progress towards their goal. Part-time faculty and staff who are employed at more than one institution of higher education are only required to complete the professional development program at one institution if they provide proof of completion to their other institution of higher education employers to receive credit for participation.

(b) Beginning with the 2024-25 academic year, 35 percent of tenured faculty and 35 percent of administrators at each institution of higher education must complete the professional development program every two years, regardless of whether they are a full-time or part-time employee.

(4) The state board for community and technical colleges and an organization representing the presidents of the public four-year institutions of higher education may conduct further analysis of the professional development programs through participant evaluation data, use of focus groups, or other methods to determine promising practices. The state board for community and technical colleges and an organization representing the presidents of the public four-year institutions of higher education must post a list of model standards and promising practices for

professional development on their public websites for parents and community members.

(5) The institutions of higher education shall adopt rules as necessary or appropriate for effecting the provisions of this section, not in conflict with this chapter, and in accordance with the provisions of chapter 34.05 RCW, the administrative procedure act.

NEW SECTION. Sec. 3. A new section is added to chapter 28B.10 RCW to read as follows:

(1)(a) The institutions of higher education as defined in RCW 28B.10.016 shall each conduct a campus climate assessment to understand the current state of diversity, equity, and inclusion in the learning, working, and living environment on campus for students, faculty, and staff. The assessment shall occur, at minimum, every five years. Institutions of higher education shall use the results of the campus climate assessment to inform the professional development, established in section 2 of this act, and program, established in section 4 of this act. Institutions may use an existing campus climate assessment to meet this requirement.

(b) The state board for community and technical colleges shall develop a model campus climate assessment for the community and technical colleges that the colleges may use or modify to meet the requirements of this section.

(2) The design of an existing or new campus climate assessment must involve, at minimum, students, college and university diversity officers, faculty, and staff. The campus climate assessment must include, at minimum, an evaluation of student and employee attitudes and awareness of campus diversity, equity, and inclusion issues. The campus climate assessment may also include questions evaluating the prevalence of discrimination, sexual assault, harassment, and retaliation on and off campus, in addition to student, faculty, and staff knowledge of campus policies and procedures addressing discrimination, sexual assault, harassment, and retaliation. College and university diversity officers and students must be consulted in the development of recommendations.

(3) Institutions of higher education must, at minimum, conduct annual listening and feedback sessions for diversity, equity, and inclusion for the entire campus community during periods between campus climate assessments. Institutions of higher education must, to the maximum extent practicable, compensate students for their participation in the annual listening and feedback sessions.

(4) Beginning July 1, 2022, the institutions of higher education shall report findings or progress in completing their campus climate assessment and, when applicable, information on their listening and feedback sessions annually to either the state board for community and technical colleges or an organization representing the presidents of the public four-year institutions of higher education. The institutions of higher education must also publish annually on the institution's public website the results of either the campus climate assessment or listening and feedback sessions.

(5) The state board for community and technical colleges may require colleges to repeat their campus climate assessment. An organization representing the presidents of the public four-year institutions of higher education may also request state universities, regional universities, and The Evergreen State College to repeat their campus climate assessment.

NEW SECTION. Sec. 4. A new section is added to chapter 28B.10 RCW to read as follows:

(1) Each institution of higher education must:

(a) Provide a program, either existing or new, on diversity, equity, inclusion, and antiracism to students beginning with the

2024-25 academic year. Institutions of higher education may expand the focus of its program to reflect the needs of the campus community. This program must be developed in partnership with the institution's administration, faculty, staff, and student leadership groups. Efforts should be made to ensure the program is developed and delivered by individuals with innate and acquired experience and expertise in the field of diversity, equity, and inclusion. The content framework for each program must be posted on each institution's public website for parents and community members; and

(b) Create an evaluation for program participants. The evaluation must, at minimum, capture a participant's level of satisfaction with the program and how they will apply the program to their education.

(2) The purpose of each program must be rooted in eliminating structural racism against all races and promoting diversity, equity, and inclusion while improving outcomes for students from historically marginalized communities. The program must also include elements that focus on commonalities and humanity. Institutions of higher education may further develop a curriculum that is reflective of the needs of the campus community.

(3) During the 2024-25 academic year, all degree-seeking students at institutions of higher education must participate in the program, regardless of whether they are a full-time or part-time student. Beginning with the 2025-26 academic year, the program is only required for degree-seeking students who are new or have transferred to the institution and have not yet participated in a required diversity, equity, inclusion, and antiracism program at an institution of higher education. Students must be allowed to opt out of participation in the program if they self-attest to taking a diversity, equity, inclusion, and antiracism training at an institution of higher education within the previous five years.

(4) The state board for community and technical colleges and an organization representing the presidents of the public four-year institutions of higher education may conduct further analysis of the programs, through participant evaluation data, use of focus groups, or other methods to determine promising practices. The state board for community and technical colleges and an organization representing the presidents of the public four-year institutions of higher education must post a list of model standards and promising practices for programs on their public websites for parents and community members.

(5) The institutions of higher education shall adopt rules as necessary or appropriate for effecting the provisions of this section, not in conflict with this chapter, and in accordance with the provisions of chapter 34.05 RCW, the administrative procedure act.

(6) For purposes of this section, "student" or "students" does not include nonmatriculated students.

NEW SECTION. Sec. 5. A new section is added to chapter 28B.10 RCW to read as follows:

By December 31, 2024, and biennially thereafter, the state board for community and technical colleges and an organization representing the presidents of the public four-year institutions of higher education shall each submit a report to the higher education committees of the legislature in accordance with RCW 43.01.036 for their respective institutions of higher education. The reports must include the following:

(1) Information on the professional development programs implemented by each institution of higher education, including updates on progress towards meeting the goal outlined in section 1 of this act;

March 28, 2021

(2) A summary of results of the campus climate assessments and other relevant information received by the institutions of higher education; and

(3) By December 31, 2026, and biennially thereafter, the reports must also include information on the student diversity, equity, inclusion, and antiracism programs implemented by each institution of higher education.

NEW SECTION. Sec. 6. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state."

MESSAGE FROM THE HOUSE

MR. PRESIDENT:

The House passed SUBSTITUTE SENATE BILL NO. 5236 with the following amendment(s): 5236-S AMH HCW H1258.2

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 70.38.111 and 2020 c 258 s 1 are each amended to read as follows:

(1) The department shall not require a certificate of need for the offering of an inpatient tertiary health service by:

(b) A health care facility if (i) the facility primarily provides or will provide inpatient health services, (ii) the facility is or will be controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations which has, in the service area of the organization or service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals, (iii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iv) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination; or

(c) A health care facility (or portion thereof) if (i) the facility is or will be leased by a health maintenance organization or combination of health maintenance organizations which has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals and, on the date the application is submitted under subsection (2) of this section, at least fifteen years remain in the term of the lease, (ii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization;

if, with respect to such offering or obligation by a nursing home, the department has, upon application under subsection (2) of this section, granted an exemption from such requirement to the organization, combination of organizations, or facility.

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

(a) It has submitted at least thirty days prior to the offering of services reviewable under RCW 70.38.105(4)(d) an application for such exemption; and

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or

(b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a)(ii) or (iii) or the requirements of (1)(b)(i) and (ii).

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements to the offering of inpatient tertiary health services to the extent that such offering is not exempt under the provisions of this section or RCW 70.38.105(7).

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member's financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8) A rural hospital determined to no longer meet critical access hospital status for state law purposes as a result of participation in the Washington rural health access preservation pilot identified by the state office of rural health and formerly licensed as a hospital under chapter 70.41 RCW may apply to the department to renew its hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW. If all or part of a formerly licensed rural hospital is sold, purchased, or leased during the period the rural hospital does not meet critical access hospital status as a result of participation in the Washington rural health access preservation pilot and the new owner or lessor applies to renew the rural hospital's license, then the sale, purchase, or lease of part or all of the rural hospital is subject to the provisions of this chapter.

(9)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed assisted living facility care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously

licensed number of nursing home beds without obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given, at a minimum, one year prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given a minimum of ninety days prior to the effective date of license modification reflecting the restored beds. Prior to any license modification to convert beds back to nursing home beds under this section, the licensee must demonstrate that the nursing home meets the certificate of need exemption requirements of this section.

The term "construction," as used in (b)(ii) of this subsection, is limited to those projects that are expected to equal or exceed the expenditure minimum amount, as determined under this chapter.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner's approval of the bed reduction.

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5313 with the following amendment(s): 5313-S2 AMH CODY H1369.1

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 49.60.178 and 2020 c 52 s 9 are each amended to read as follows:

(1) It is an unfair practice for any person whether acting for himself, herself, or another in connection with an insurance transaction or transaction with a health maintenance organization to cancel or fail or refuse to issue or renew insurance or a health maintenance agreement to any person because of sex, marital status, sexual orientation, race, creed, color, national origin, citizenship or immigration status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with disabilities: PROVIDED, That a practice which is not unlawful under RCW 48.30.300, 48.44.220, ~~((or))~~ 48.46.370, or 48.43.0128 does not constitute an unfair practice for the purposes of this section. For the purposes of this section, "insurance transaction" is defined in RCW 48.01.060, health maintenance agreement is defined in RCW 48.46.020, and "health maintenance organization" is defined in RCW 48.46.020.

(2) The fact that such unfair practice may also be a violation of chapter 48.30, 48.43, 48.44, or 48.46 RCW does not constitute a defense to an action brought under this section.

(3) The insurance commissioner, under RCW 48.30.300 and 48.43.0128, and the human rights commission, under chapter 49.60 RCW, shall have concurrent jurisdiction under this section and shall enter into a working agreement as to procedure to be followed in complaints under this section.

Sec. 2. RCW 41.05.017 and 2019 c 427 s 21 are each amended to read as follows:

Each health plan that provides medical insurance offered under this chapter, including plans created by insuring entities, plans not subject to the provisions of Title 48 RCW, and plans created under RCW 41.05.140, are subject to the provisions of RCW 48.43.500, 70.02.045, 48.43.505 through 48.43.535, 48.43.537, 48.43.545, 48.43.550, 70.02.110, 70.02.900, 48.43.190, 48.43.083, 48.43.0128, and chapter 48.49 RCW.

Sec. 3. RCW 48.43.0128 and 2020 c 228 s 9 are each amended to read as follows:

(1) A health carrier offering a nongrandfathered health plan or a plan deemed by the commissioner to have a short-term limited purpose or duration, or to be a student-only plan that is guaranteed renewable while the covered person is enrolled as a regular, full-time undergraduate student at an accredited higher education institution may not:

(a) In its benefit design or implementation of its benefit design, discriminate against individuals because of their age, expected length of life, present or predicted disability, degree of medical dependency, quality of life, or other health conditions; and

(b) With respect to the health plan or plan deemed by the commissioner to have a short-term limited purpose or duration, or to be a student-only plan that is guaranteed renewable while the covered person is enrolled as a regular, full-time undergraduate student at an accredited higher education institution, discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, or sexual orientation.

(2) Nothing in this section may be construed to prevent ~~((an issuer))~~ a carrier from appropriately utilizing reasonable medical management techniques.

(3) For health plans issued or renewed on or after January 1, 2022:

(a) A health carrier may not deny or limit coverage for gender affirming treatment when that treatment is prescribed to an individual because of, related to, or consistent with a person's gender expression or identity, as defined in RCW 49.60.040, is medically necessary, and is prescribed in accordance with accepted standards of care.

(b) A health carrier may not apply categorical cosmetic or blanket exclusions to gender affirming treatment. When prescribed as medically necessary gender affirming treatment, a health carrier may not exclude as cosmetic services facial feminization surgeries and other facial gender affirming treatment, such as tracheal shaves, hair electrolysis, and other care such as mastectomies, breast reductions, breast implants, or any combination of gender affirming procedures, including revisions to prior treatment.

(c) A health carrier may not issue an adverse benefit determination denying or limiting access to gender affirming services, unless a health care provider with experience prescribing or delivering gender affirming treatment has reviewed and confirmed the appropriateness of the adverse benefit determination.

(d) Health carriers must comply with all network access rules and requirements established by the commissioner.

(4) For the purposes of this section, "gender affirming treatment" means a service or product that a health care provider, as defined in RCW 70.02.010, prescribes to an individual to treat any condition related to the individual's gender identity and is prescribed in accordance with generally accepted standards of care. Gender affirming treatment must be covered in a manner compliant with the federal mental health parity and addiction equity act of 2008 and the federal affordable care act. Gender affirming treatment can be prescribed to two spirit, transgender, nonbinary, intersex, and other gender diverse individuals.

(5) Nothing in this section may be construed to mandate coverage of a service that is not medically necessary.

(6) By December 1, 2022, the commissioner, in consultation with the health care authority and the department of health, must issue a report on geographic access to gender affirming treatment across the state. The report must include the number of gender affirming providers offering care in each county, the carriers and medicaid managed care organizations those providers have active contracts with, and the types of services provided by each provider in each region. The commissioner must update the report biannually and post the report on its website.

(7) The commissioner shall adopt any rules necessary to implement subsections (3), (4), and (5) of this section.

(8) Unless preempted by federal law, the commissioner shall adopt any rules necessary to implement subsections (1) and (2) of this section, consistent with federal rules and guidance in effect on January 1, 2017, implementing the patient protection and affordable care act.

NEW SECTION. Sec. 4. A new section is added to chapter 74.09 RCW to read as follows:

(1) In the provision of gender affirming care services through programs under this chapter, the authority, managed care plans, and providers that administer or deliver such services may not discriminate in the delivery of a service provided through a program of the authority based on the covered person's gender identity or expression.

(2) Beginning January 1, 2022:

(a) The authority and any managed care plans delivering or administering services purchased or contracted for by the

authority may not apply categorical cosmetic or blanket exclusions to gender affirming treatment.

(b) Facial feminization surgeries and facial gender affirming treatment, such as tracheal shaves, hair electrolysis, and other care such as mastectomies, breast reductions, breast implants, or any combination of gender affirming procedures, including revisions to prior treatment, when prescribed as gender affirming treatment, may not be excluded as cosmetic.

(c) The authority and managed care plans administering services purchased or contracted for by the authority may not issue an adverse benefit determination denying or limiting access to gender affirming treatment, unless a health care provider with experience prescribing or delivering gender affirming treatment has reviewed and confirmed the appropriateness of the adverse benefit determination.

(d) If the authority and managed care plans administering services purchased or contracted for by the authority do not have an adequate network for gender affirming treatment, they shall ensure the delivery of timely and geographically accessible medically necessary gender affirming treatment at no greater expense than if they had an in-network, geographically accessible provider available. This includes, but is not limited to, providing case management services to secure out-of-network gender affirming treatment options that are available to the enrollee in a timely manner within their geographic region. The enrollee shall pay no more than the same cost sharing that the enrollee would pay for the same covered services received from an in-network provider.

(3) For the purposes of this section, "gender affirming treatment" means a service or product that a health care provider, as defined in RCW 70.02.010, prescribes to an individual to support and affirm the individual's gender identity. Gender affirming treatment includes, but is not limited to, treatment for gender dysphoria. Gender affirming treatment can be prescribed to two spirit, transgender, nonbinary, and other gender diverse individuals.

(4) Nothing in this section may be construed to mandate coverage of a service that is not medically necessary.

(5) The authority shall adopt rules necessary to implement this section.

NEW SECTION. Sec. 5. This act shall be known and cited as the Gender Affirming Treatment Act."

It must also examine the income levels of public option plan enrollees over time. The analysis may examine a sample of hospitals of various sizes and located in various counties. (b) The health care cost transparency board established under chapter 70.390 RCW shall analyze the effect that enrollment in public option plans has had on consumers, including an analysis of the benefits provided to, and premiums and cost-sharing amounts paid by, consumers enrolled in public option plans compared to other standardized and nonstandardized qualified health plans; and

The goal of the procurement conducted under this section is to have a choice of qualified health plans under this section offered in every county in the state. The authority may not execute a contract with an apparently successful bidder under this section until after the insurance commissioner has given final approval of the health carrier's rates and forms pertaining to the health plan to be offered under this section and certification of the health plan under RCW 43.71.065.

(2) A qualified health plan offered under this section must meet the following criteria:

(a) The qualified health plan must be a standardized health plan established under RCW 43.71.095;

(d) The qualified health plan may use an integrated delivery system or a managed care model that includes care coordination or care management to enrollees as appropriate;

(i) Be focused on care that has high variation, high cost, or low evidence of clinical effectiveness; and

(ii) Meet national accreditation standards;

~~((ii) Beginning in calendar year 2023, if the authority determines that selective contracting will result in actuarially sound premium rates that are no greater than the qualified health plan's previous plan year rates adjusted for inflation using the consumer price index, the director may, in consultation with the health benefit exchange, waive (g)(i) of this subsection as a requirement of the contracting process under this section;))~~

(h) For services provided by rural hospitals certified by the centers for medicare and medicaid services as critical access hospitals or sole community hospitals, the rates may not be less than one hundred one percent of allowable costs as defined by the United States centers for medicare and medicaid services for purposes of medicare cost reporting;

(3)(a) At the request of the authority for monitoring, enforcement, or program and quality improvement activities, a qualified health plan offered under this section must provide cost and quality of care information and data to the authority, and may not enter into an agreement with a provider or third party that would restrict the qualified health plan from providing this information or data.

(b) Pursuant to RCW 42.56.650, any cost or quality information or data submitted to the authority is exempt from public disclosure.

(4) Nothing in this section prohibits a health carrier offering qualified health plans under this section from offering other health plans in the individual market.

Sec. 7. RCW 43.71.095 and 2019 c 364 s 1 are each amended to read as follows:

(1) The exchange, in consultation with the commissioner, the authority, an independent actuary, and other stakeholders, must establish up to three standardized health plans for each of the bronze, silver, and gold levels.

(a) The standardized health plans must be designed to reduce deductibles, make more services available before the deductible, provide predictable cost sharing, maximize subsidies, limit adverse premium impacts, reduce barriers to maintaining and improving health, and encourage choice based on value, while limiting increases in health plan premium rates.

(b) The exchange may update the standardized health plans annually.

(c) The exchange must provide a notice and public comment period before finalizing each year's standardized health plans.

(d) The exchange must provide written notice of the standardized health plans to licensed health carriers by January 31st before the year in which the health plans are to be offered on the exchange. The exchange may make modifications to the standardized plans after January 31st to comply with changes to state or federal law or regulations.

(2)(a) Beginning January 1, 2021, any health carrier offering a qualified health plan on the exchange must offer ~~((one))~~ the silver ((standardized health plan)) and ~~((one))~~ gold standardized health plans established under this section on the exchange in each county where the carrier offers a qualified health plan. If a health carrier offers a bronze health plan on the exchange, it must offer ~~((one))~~ the bronze standardized health plans established under this section on the exchange in each county where the carrier offers a qualified health plan.

(b)(i) ~~((A))~~ Until December 31, 2022, a health ((plan)) carrier offering a standardized health plan under this section may also offer nonstandardized health plans on the exchange. Beginning January 1, 2023, a health carrier offering a standardized health plan under this section may also offer up to two nonstandardized gold health plans, two nonstandardized bronze health plans, one nonstandardized silver health plan, one nonstandardized platinum health plan, and one nonstandardized catastrophic health plan in each county where the carrier offers a qualified health plan.

(ii) The exchange, in consultation with the office of the insurance commissioner, shall analyze the impact to exchange consumers of offering only standard plans beginning in 2025 and submit a report to the appropriate committees of the legislature by December 1, 2023. The report must include an analysis of how plan choice and affordability will be impacted for exchange consumers across the state, including an analysis of offering a bronze standardized high deductible health plan compatible with a health savings account, and a gold standardized health plan closer in actuarial value to the silver standardized health plan.

(iii) The actuarial value of nonstandardized silver health plans offered on the exchange may not be less than the actuarial value of the standardized silver health plan with the lowest actuarial value.

(c) A health carrier offering a standardized health plan on the exchange under this section must continue to meet all requirements for qualified health plan certification under RCW 43.71.065 including, but not limited to, requirements relating to rate review and network adequacy."

BERNARD DEAN, Chief Clerk

MOTION

Senator Frockt moved that the Senate concur in the House amendment(s) to Engrossed Second Substitute Senate Bill No. 5377.

Senators Frockt and Muzzall spoke in favor of the motion.

POINT OF INQUIRY

Senator Cleveland: "Thank you. I would like to ask in Section 5.1A of the bill, it requires that hospitals contract with at least one public option plan upon receiving an offer from a public option plan. If the Health Care Authority under Section 5.1B of this legislation chooses to contract with more than one carrier to offer public option plans in a county, must the hospital contract with more than one carrier?"

Senator Frockt: "Yes. We believe the answer to that is yes. The language of Section 5.1A directs a hospital that receives payment for services provided to, provided by Medicaid, PEBB or SEBB enrollees have at least one public option plan and if they receive an offer from the public option carrier. If the Health Care Authority chooses to contract with more than one carrier in a given year, in a particular county, to offer public option plans in a county under that section, under Section 5.1B, the hospital also must contract with any public option plans that makes an offer to that hospital. So that clarifies that question. Thank you, Mr. President.

The President declared the question before the Senate to be the motion by Senator Frockt that the Senate concur in the House amendment(s) to Engrossed Second Substitute Senate Bill No. 5377.

The motion by Senator Frockt carried and the Senate concurred in the House amendment(s) to Engrossed Second Substitute Senate Bill No. 5377 by voice vote.

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5399 with the following amendment(s): 5399-S2.E AMH APP H1486.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Healthy Washingtonians contribute to the economic well-being of their families and communities, and access to appropriate health services and improved health outcomes allow all Washingtonian families to enjoy productive and satisfying lives;

(b) Washington and the United States are experiencing the deepest economic crisis since the Great Depression, caused by a public health crisis;

(c) Skyrocketing unemployment rates due to COVID-19 have exposed the frailties and inequalities of the current health care system while causing unsustainable strain to the state's medicaid system;

(d) Thousands of union and nonunion workers are unemployed and without health insurance;

(e) Approximately 125,000 undocumented people live in the state with no access to health care during a global pandemic;

(f) Multiple economic analyses show that a universal system is less expensive, more equitable, and will produce billions in savings per year; and

(g) While a unified health care financing system can provide universal coverage, increase access to care, decrease costs, and improve quality, implementing such a system in the state is dependent on foundational legal, financial, and programmatic changes from the federal government.

(2) The legislature intends to create a permanent universal health care commission to:

(a) Implement immediate and impactful changes in the state's current health care system to increase access to quality, affordable health care by streamlining access to coverage, reducing fragmentation of health care financing across multiple public and private health insurance entities, reducing unnecessary administrative costs, reducing health disparities, and establishing mechanisms to expeditiously link residents with their chosen providers; and

(b) Establish the preliminary infrastructure to create a universal health system, including a unified financing system, that controls health care spending so that the system is affordable to the state, employers, and individuals, once the necessary federal authorities have been realized.

(3) The legislature further intends that the state, in collaboration with all communities, health plans, and providers, should take steps to improve health outcomes for all residents of the state.

NEW SECTION. Sec. 2. A new section is added to chapter 41.05 RCW to read as follows:

(1) The universal health care commission is established to create immediate and impactful changes in the health care access and delivery system in Washington and to prepare the state for the creation of a health care system that provides coverage and access for all Washington residents through a unified financing system once the necessary federal authority has become available. The authority must begin any necessary federal application process within 60 days of its availability.

(2) The commission includes the following voting members:

(a) One member from each of the two largest caucuses of the house of representatives, appointed by the speaker of the house of representatives;

(b) One member from each of the two largest caucuses of the senate, appointed by the president of the senate;

(c) The secretary of the department of health, or the secretary's designee;

(e) The chief executive officer of the Washington health benefit exchange, or the chief executive officer's designee;

(f) The insurance commissioner, or the commissioner's designee;

(g) The director of the office of equity, or the director's designee; and

(h) Six members appointed by the governor, using an equity lens, with knowledge and experience regarding health care coverage, access, and financing, or other relevant expertise, including at least one consumer representative and at least one invitation to an individual representing tribal governments with knowledge of the Indian health care delivery in the state.

(3)(a) The governor must appoint the chair of the commission from any of the members identified in subsection (2) of this section for a term of no more than three years. A majority of the voting members of the commission shall constitute a quorum for any votes of the commission.

(b) The commission's meetings shall be open to the public pursuant to chapter 42.30 RCW. The authority must publish on its website the dates and locations of commission meetings, agendas of prior and upcoming commission meetings, and meeting materials for prior and upcoming commission meetings.

(4) The health care authority shall staff the commission.

(5) Members of the commission shall serve without compensation but must be reimbursed for their travel expenses while on official business in accordance with RCW 43.03.050 and 43.03.060.

(6) The commission may establish advisory committees that include members of the public with knowledge and experience in health care, in order to support stakeholder engagement and an analytical process by which key design options are developed. A member of an advisory committee need not be a member of the commission.

(7) By November 1, 2022, the commission shall submit a baseline report to the legislature and the governor, and post it on the authority's website. The report must include:

(a) A complete synthesis of analyses done on Washington's existing health care finance and delivery system, including cost, quality, workforce, and provider consolidation trends and how they impact the state's ability to provide all Washingtonians with timely access to high quality, affordable health care;

(b) A strategy for developing implementable changes to the state's health care financing and delivery system to increase access to health care services and health coverage, reduce health care costs, reduce health disparities, improve quality, and prepare for the transition to a unified health care financing system by actively examining data and reports from sources that are monitoring the health care system. Such sources shall include data or reports from the health care cost transparency board under RCW 70.390.070, the public health advisory board, the governor's interagency coordinating council on health disparities under RCW 43.20.275, the all-payer health care claims database established under chapter 43.371 RCW, prescription drug price data, performance measure data under chapter 70.320 RCW, and other health care cost containment programs;

(c) An inventory of the key design elements of a universal health care system including:

(i) A unified financing system including, but not limited to, a single-payer financing system;

(ii) Eligibility and enrollment processes and requirements;

(iii) Covered benefits and services;

(iv) Provider participation;

(v) Effective and efficient provider payments, including consideration of global budgets and health plan payments;

(vi) Cost containment and savings strategies that are designed to assure that total health care expenditures do not exceed the health care cost growth benchmark established under chapter 70.390 RCW;

(vii) Quality improvement strategies;

(viii) Participant cost sharing, if appropriate;

(ix) Quality monitoring and disparities reduction;

(x) Initiatives for improving culturally appropriate health services within public and private health-related agencies;

(xi) Strategies to reduce health disparities including, but not limited to, mitigating structural racism and other determinants of health as set forth by the office of equity;

(xii) Information technology systems and financial management systems;

(xiii) Data sharing and transparency; and

(xiv) Governance and administration structure, including integration of federal funding sources;

(d) An assessment of the state's current level of preparedness to meet the elements of (c) of this subsection and steps Washington should take to prepare for a just transition to a unified health care financing system, including a single-payer financing system. Recommendations must include, but are not limited to, administrative changes, reorganization of state programs, retraining programs for displaced workers, federal waivers, and statutory and constitutional changes;

(e) Recommendations for implementing reimbursement rates for health care providers serving medical assistance clients who are enrolled in programs under chapter 74.09 RCW at a rate that is no less than 80 percent of the rate paid by medicare for similar services;

(f) Recommendations for coverage expansions to be implemented prior to and consistent with a universal health care system, including potential funding sources; and

(g) Recommendations for the creation of a finance committee to develop a financially feasible model to implement universal health care coverage using state and federal funds.

(8) Following the submission of the baseline report on November 1, 2022, the commission must structure its work to continue to further identify opportunities to implement reforms consistent with subsection (7)(b) of this section and to implement structural changes to prepare the state for a transition to a unified health care financing system. The commission must submit annual reports to the governor and the legislature each November 1st, beginning in 2023. The reports must detail the work of the commission, the opportunities identified to advance the goals under subsection (7) of this section, which, if any, of the opportunities a state agency is implementing, which, if any, opportunities should be pursued with legislative policy or fiscal authority, and which opportunities have been identified as beneficial, but lack federal authority to implement.

(9) Subject to sufficient existing agency authority, state agencies may implement specific elements of any report issued under this section. This section shall not be construed to authorize the commission to implement a universal health care system through a unified financing system until there is further action by the legislature and the governor.

(10) The commission must hold its first meeting within 90 days of the effective date of this section."

MR. PRESIDENT:

The House receded from its amendment(s) to ENGROSSED SUBSTITUTE SENATE BILL NO. 5408. Under suspension of the rules, the bill was returned to second reading for the purposes of amendment(s). The House adopted the following amendment(s): 5408-S.E AMH HANS H1556.1, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that the homestead exemption is intended to protect the homeowner's equity in a home against unsecured creditors. The legislature finds that changes to the homestead exemption are necessary to

modernize the law and to address the case of *Wilson v. Rigby*, 909 F.3d 306 (2018) and to adopt the reasoning in *In re Good*, 588 B.R. 573 (Bankr. W.D. Wash. 2018).

Sec. 2. RCW 6.13.010 and 1999 c 403 s 1 are each amended to read as follows:

(1) The homestead consists of real or personal property that the owner or a dependent of the owner uses as a residence. In the case of a dwelling house or mobile home, the homestead consists of the dwelling house or the mobile home in which the owner resides or intends to reside, with appurtenant buildings, and the land on which the same are situated and by which the same are surrounded, or improved or unimproved land, regardless of area, owned with the intention of placing a house or mobile home thereon and residing thereon. A mobile home may be exempted under this chapter whether or not it is permanently affixed to the underlying land and whether or not the mobile home is placed upon a lot owned by the mobile home owner or a dependent of the owner. Property included in the homestead must be actually intended or used as the principal home for the owner.

(2) As used in this chapter ~~((the term "owner"))~~;

(a) "Owner" includes but is not limited to a purchaser under a deed of trust, mortgage, or real estate contract.

~~((3) As used in this chapter, the term "net"))~~ (b) "Net value" means market value less all liens and encumbrances senior to the judgment being executed upon and not including the judgment being executed upon.

(c) "Forced sale" includes any sale of homestead property in a bankruptcy proceeding under Title 11 of the United States Code. The reinvestment provisions of RCW 6.13.070 do not apply to the proceeds.

(d) "Dependent" has the meaning given in Title 11 U.S.C. Sec. 522(a)(1).

Sec. 3. RCW 6.13.030 and 2007 c 429 s 1 are each amended to read as follows:

~~((A homestead may consist of lands, as described in RCW 6.13.010, regardless of area, but the homestead exemption amount shall not exceed the lesser of (1) the total net value of the lands, manufactured homes, mobile home, improvements, and other personal property, as described in RCW 6.13.010, or (2) the sum of one hundred twenty five thousand dollars in the case of lands, manufactured homes, mobile home, and improvements, or the sum of fifteen thousand dollars in the case of other personal property described in RCW 6.13.010, except where)) (1) The homestead exemption amount is the greater of:~~

(a) \$125,000;

(b) The county median sale price of a single-family home in the preceding calendar year; or

(c) Where the homestead is subject to execution, attachment, or seizure by or under any legal process whatever to satisfy a judgment in favor of any state for failure to pay that state's income tax on benefits received while a resident of the state of Washington from a pension or other retirement plan, ((in which event there shall be)) no dollar limit ((on the value of the exemption)).

(2) In determining the county median sale price of a single-family home in the preceding year, a court shall use data from the Washington center for real estate research or, if the Washington center no longer provides the data, a successor entity designated by the office of financial management.

Sec. 4. RCW 6.13.060 and 2008 c 6 s 634 are each amended to read as follows:

The homestead of a spouse or domestic partner cannot be conveyed or encumbered unless the instrument by which it is conveyed or encumbered is executed and acknowledged by both

spouses or both domestic partners, except that either spouse or both or either domestic partner or both jointly may make and execute powers of attorney for the conveyance or encumbrance of the homestead. The conveyance or encumbrance of the homestead does not require that any dependent of the owner who is not a spouse or domestic partner execute and acknowledge the instrument by which it is conveyed or encumbered.

Sec. 5. RCW 6.13.070 and 1987 c 442 s 207 are each amended to read as follows:

(1) Except as provided in RCW 6.13.080, the homestead is exempt from attachment and from execution or forced sale for the debts of the owner up to the amount specified in RCW 6.13.030.

(2) In a bankruptcy case, the debtor's exemption shall be determined on the date the bankruptcy petition is filed. If the value of the debtor's interest in homestead property on the petition date is less than or equal to the amount that can be exempted under RCW 6.13.030, then the debtor's entire interest in the property, including the debtor's right to possession and interests of no monetary value, is exempt. Any appreciation in the value of the debtor's exempt interest in the property during the bankruptcy case is also exempt, even if in excess of the amounts in RCW 6.13.030(1).

(3) The proceeds of the voluntary sale of the homestead in good faith for the purpose of acquiring a new homestead, and proceeds from insurance covering destruction of homestead property held for use in restoring or replacing the homestead property, up to the amount specified in RCW 6.13.030, shall likewise be exempt for one year from receipt, and also such new homestead acquired with such proceeds.

~~((2))~~ (4) Every homestead created under this chapter is presumed to be valid to the extent of all the property claimed exempt, until the validity thereof is contested in a court of general jurisdiction in the county or district in which the homestead is situated.

Sec. 6. RCW 6.13.080 and 2019 c 238 s 215 are each amended to read as follows:

The homestead exemption is not available against an execution or forced sale in satisfaction of judgments obtained:

(1) On debts secured by mechanic's, laborer's, construction, maritime, automobile repair, material supplier's, or vendor's liens arising out of and against the particular property claimed as a homestead;

(2) On debts secured:

(a) ~~((by))~~ By security agreements describing as collateral the property that is claimed as a homestead; or

(b) ~~((by))~~ By mortgages or deeds of trust on the premises that have been executed and acknowledged by both spouses or both domestic partners or by any claimant not married or in a state registered domestic partnership. The execution and acknowledgment of a mortgage or deed of trust by a dependent who is not a spouse or domestic partner is not required;

(3) On one spouse's or one domestic partner's or the community's debts existing at the time of that spouse's or that domestic partner's bankruptcy filing where (a) bankruptcy is filed by both spouses or both domestic partners within a six-month period, other than in a joint case or a case in which their assets are jointly administered, and (b) the other spouse or other domestic partner exempts property from property of the estate under the bankruptcy exemption provisions of 11 U.S.C. Sec. 522(d);

(4) On debts arising from a lawful court order or decree or administrative order establishing a child support obligation or obligation to pay maintenance;

(6) On debts secured by a condominium, homeowners', or common interest community association's lien; or

(7) On debts owed for taxes collected under chapters 82.08, 82.12, and 82.14 RCW but not remitted to the department of revenue.

Sec. 7. RCW 61.24.100 and 1998 c 295 s 12 are each amended to read as follows:

(1) Except to the extent permitted in this section for deeds of trust securing commercial loans, a deficiency judgment shall not be obtained on the obligations secured by a deed of trust against any borrower, grantor, or guarantor after a trustee's sale under that deed of trust.

(2)(a) Nothing in this chapter precludes an action against any person liable on the obligations secured by a deed of trust or any guarantor prior to a notice of trustee's sale being given pursuant to this chapter or after the discontinuance of the trustee's sale.

(b) No action under (a) of this subsection precludes the beneficiary from commencing a judicial foreclosure or trustee's sale under the deed of trust after the completion or dismissal of that action.

(3) This chapter does not preclude any one or more of the following after a trustee's sale under a deed of trust securing a commercial loan executed after June 11, 1998:

(a)(i) To the extent the fair value of the property sold at the trustee's sale to the beneficiary or an affiliate of the beneficiary is less than the unpaid obligation secured by the deed of trust immediately prior to the trustee's sale, an action for a deficiency judgment against the borrower or grantor, if such person or persons was timely given the notices under RCW 61.24.040, for (A) any decrease in the fair value of the property caused by waste to the property committed by the borrower or grantor, respectively, after the deed of trust is granted, and (B) the wrongful retention of any rents, insurance proceeds, or condemnation awards by the borrower or grantor, respectively, that are otherwise owed to the beneficiary.

(ii) This subsection (3)(a) does not apply to any property that is occupied by the borrower as its principal residence as of the date of the trustee's sale;

(b) Any judicial or nonjudicial foreclosures of any other deeds of trust, mortgages, security agreements, or other security interests or liens covering any real or personal property granted to secure the obligation that was secured by the deed of trust foreclosed; or

(c) Subject to this section, an action for a deficiency judgment against a guarantor if the guarantor is timely given the notices under RCW 61.24.042.

(4) Any action referred to in subsection (3)(a) and (c) of this section shall be commenced within one year after the date of the trustee's sale, or a later date to which the liable party otherwise agrees in writing with the beneficiary after the notice of foreclosure is given, plus any period during which the action is prohibited by a bankruptcy, insolvency, moratorium, or other similar debtor protection statute. If there occurs more than one trustee's sale under a deed of trust securing a commercial loan or if trustee's sales are made pursuant to two or more deeds of trust securing the same commercial loan, the one-year limitation in this section begins on the date of the last of those trustee's sales.

(5) In any action against a guarantor following a trustee's sale under a deed of trust securing a commercial loan, the guarantor may request the court or other appropriate adjudicator to determine, or the court or other appropriate adjudicator may in its discretion determine, the fair value of the property sold at the sale

and the deficiency judgment against the guarantor shall be for an amount equal to the sum of the total amount owed to the beneficiary by the guarantor as of the date of the trustee's sale, less the fair value of the property sold at the trustee's sale or the sale price paid at the trustee's sale, whichever is greater, plus interest on the amount of the deficiency from the date of the trustee's sale at the rate provided in the guaranty, the deed of trust, or in any other contracts evidencing the debt secured by the deed of trust, as applicable, and any costs, expenses, and fees that are provided for in any contract evidencing the guarantor's liability for such a judgment. If any other security is sold to satisfy the same debt prior to the entry of a deficiency judgment against the guarantor, the fair value of that security, as calculated in the manner applicable to the property sold at the trustee's sale, shall be added to the fair value of the property sold at the trustee's sale as of the date that additional security is foreclosed. This section is in lieu of any right any guarantor would otherwise have to establish an upset price pursuant to RCW 61.12.060 prior to a trustee's sale.

(6) A guarantor granting a deed of trust to secure its guaranty of a commercial loan shall be subject to a deficiency judgment following a trustee's sale under that deed of trust only to the extent stated in subsection (3)(a)(i) of this section. If the deed of trust encumbers the guarantor's principal residence, the guarantor shall be entitled to receive an amount up to ~~((the homestead exemption set forth in RCW 6.13.030))~~ \$125,000, without regard to the effect of RCW 6.13.080(2), from the bid at the foreclosure or trustee's sale accepted by the sheriff or trustee prior to the application of the bid to the guarantor's obligation.

(7) A beneficiary's acceptance of a deed in lieu of a trustee's sale under a deed of trust securing a commercial loan exonerates the guarantor from any liability for the debt secured thereby except to the extent the guarantor otherwise agrees as part of the deed in lieu transaction.

MESSAGE FROM THE HOUSE

April 8, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5237 with the following amendment(s): 5237-S2.E AMH ENGR H1378.E

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. SHORT TITLE. This act may be known and cited as the fair start for kids act.

NEW SECTION. Sec. 2. INTENT. (1) The legislature finds that high quality child care and early learning is critical to a child's success in school and life. The legislature recognizes that COVID-19 has devastated the existing child care industry, making it unduly burdensome for families to find care. The legislature recognizes that without immediate action to support child care providers, and without expanded access to affordable child care, especially infant and school-age care, parents will not be able to return to work while children lose valuable learning opportunities. In order to bolster a full economic recovery, the legislature finds that every child deserves a fair start.

(2) The legislature finds that access to affordable child care increases economic growth and labor force participation. The legislature further finds that an affordable, accessible system of

high quality child care is necessary to the health of Washington's economy because employers benefit when parents have safe, stable, and appropriate care for their children. The legislature recognizes that too many working parents are forced to reduce their hours, decline promotional opportunities, or leave the workforce completely due to a lack of affordable and appropriate child care. The legislature finds that a report commissioned by the department of commerce in 2019 found that working parents in Washington forego \$14,000,000,000 each year directly due to child care scarcity. The legislature recognizes that this disproportionately impacts women in the workforce and that in September 2020 alone, 78,000 men left the workforce, compared to 600,000 women.

(3) The legislature recognizes that quality child care can be a stabilizing factor for children experiencing homelessness, and is a proven protective factor against the impacts of trauma they may experience. Access to child care is also a necessary support for families with young children in resolving homelessness and securing employment.

(4) The legislature finds that the scarcity of child care, exacerbated by COVID-19, most significantly impacts families furthest from opportunity. The legislature recognizes that there are additional barriers to accessing this foundational support for immigrant communities and families whose first language is not English, families who have children with disabilities, rural communities, or other child care deserts. The legislature recognizes that high quality, inclusive child care and early learning programs have been shown to reduce the opportunity gap for low-income children and black, indigenous, and children of color while consistently improving outcomes for all children both inside and outside of the classroom.

(5) The legislature finds that without access to comprehensive, high quality prenatal to five services, children often enter kindergarten without the social-emotional, physical, cognitive, and language skills they need to be successful and fall behind their peers, facing compounding developmental challenges throughout their K-12 education. The legislature finds that cascading impacts of inaccessible child care and early learning programs create systemic barriers for children and their families that result in higher special education needs, greater likelihood of needing to repeat grades, increased child welfare and juvenile justice involvement, reduced high school graduation rates, limited postsecondary education attainment, and greater barriers to employment in adulthood.

(6) The legislature finds the vast majority of child care providers are small businesses and nonprofit organizations. In addition to adhering to federal, state, and local regulations to ensure healthy and safe environments for children, the legislature recognizes that child care providers must ensure their employees are adequately compensated and supported. However, the legislature acknowledges that the reduced staffing ratios for health and safety, additional cost of personal protective equipment and extra cleaning supplies, increased use of substitutes needed during COVID-19-related absences, and increased technology demands during school closures from the pandemic are further straining the viability of the child care business model in Washington state.

(7) The legislature finds that the health and stability of the early learning workforce is pivotal to any expansion of child care in Washington state. The legislature recognizes that the child care workforce, predominantly comprised of women of color, is structurally afflicted by low wages, limited or no health care, and a severe lack of retirement benefits. The legislature further recognizes that the threat of COVID-19 compounds these

underlying issues, forcing providers to navigate increased stress, anxiety, and behavioral issues all while risking their lives to care for children. The legislature recognizes that families, friends, and neighbors who provide care are a critical component of the child care system. The legislature finds that child care workers are essential and deserve to be compensated and benefited accordingly.

(8) Therefore, the legislature resolves to respond to the COVID-19 crisis by first stabilizing the child care industry and then expanding access to a comprehensive continuum of high quality early childhood development programs, including infant and school-age child care, preschool, parent and family supports, and prenatal to three services. The legislature recognizes this continuum as critical to meeting different families' needs and offering every child in Washington access to a fair start.

(9) The legislature recognizes that the federal government has provided substantial additional funding through the coronavirus response and relief supplemental appropriations act, P.L. 116-260, division M., and the American rescue plan act of 2021. The purpose of the additional federal funding is to ensure access to affordable child care and stabilize and support child care providers affected by COVID-19. Therefore, it is the intent of the legislature to use the additional federal funding to supplement state funding in order to accelerate these investments.

(10) The legislature recognizes the strengths that multilingual, diverse early learning providers and caregivers contribute to early learning across the state. Therefore, the legislature intends to expand language access services to create an inclusive early learning system that specifically supports underserved providers.

(11) The legislature intends to expand eligibility for existing child care and preschool programs to increase access. The legislature recognizes that expansion must be accompanied by an investment to make child care more affordable. Therefore, the legislature intends to eliminate copayments for low-income families and limit copayments for any family on subsidy to no more than seven percent of their income.

(12) The legislature further intends to stabilize, support, and grow the diverse early learning workforce by funding living wages and affordable health benefits while providing training, infant and early childhood mental health consultation, shared business services, and a variety of other supports that recognize the critical role that early learning providers serve for all Washington children.

(13) The legislature intends to accelerate Washington's economic recovery from the devastating impacts of COVID-19 by dramatically expanding access to affordable, high quality child care and preschool, in order to get parents back to work and provide every child with a fair start.

WORKING CONNECTIONS CHILD CARE FOR STUDENT PARENTS.

(1) The department shall establish and implement policies in the working connections child care program to promote stability and quality of care for children from low-income households. These policies shall focus on supporting school readiness for young learners. Policies for the expenditure of funds constituting the working connections child care program must be consistent with the outcome measures established by the department and the standards established in this section intended to promote stability, quality, and continuity of early care and education programming.

(2) As recommended by P.L. 113-186, authorizations for the working connections child care subsidy are effective for twelve months beginning July 1, 2016(~~unless an earlier date is provided in the omnibus appropriations act~~).

(c) Nothing in this subsection is intended to change how applicants or consumers are prioritized when applicants or consumers are placed on a waitlist for working connections child care benefits.

(d) Subject to the availability of amounts appropriated for this specific purpose, the department may extend the provisions of this subsection (4) to full-time students who are enrolled in a bachelor's degree program or applied baccalaureate degree program.

The legislature further finds that eligibility guidelines require reduced-price meals for children with household incomes at or below 185 percent of the federal poverty level and that this

income level is approximately equivalent to 50 percent of the state median income for a household of three.

(2) Therefore, the legislature intends to raise the maximum family income for children entitled to enroll in the early childhood education and assistance program to 36 percent of the state median income beginning July 1, 2026. Beginning in the 2030-31 school year, the legislature intends to raise the maximum family income for children entitled to enroll in this program to 50 percent of the state median income. (b) The department shall build upon the work of the child care collaborative task force to evaluate options to support access to affordable health care insurance coverage for licensed or certified child care providers.

NEW SECTION. Sec. 312. PROFESSIONAL DEVELOPMENT. (3) This section expires June 30, 2026.

PART IV

STRENGTHENING PRENATAL TO THREE SUPPORTS

NEW SECTION. Sec. 401. PRENATAL TO THREE INTENT. (1) The legislature finds that parental relationships and healthy interactions in the first few years of life help shape the development of babies' and toddlers' brains and bodies. Eighty percent of the brain is developed by the age of three and parents are a child's first teachers.

(2) The legislature finds that the federal family first prevention services act (P.L. 115-123) offers the state the opportunity to leverage federal funding for certain programs, including in-home parent skill-based programs, substance use disorder support, and mental health interventions. Culturally relevant, evidence-based programs that may qualify for these federal funds are limited. Therefore, state support may be necessary to serve traditionally underrepresented communities and increase positive engagement from parents and caregivers of children from before birth to age three.

(3) The legislature finds that small teacher-child ratios for infant and toddler care, as well as the existence of child care deserts with low levels of access to care for the birth to three age group, contribute to higher expenses for providers and families with babies and young children.

(4) Therefore, the legislature intends to expand parent and family education and support, incentivize the provision of infant

and toddler care, and make early therapeutic and preventative services more readily available to families and young children.

NEW SECTION. Sec. 402. EDUCATION AND SUPPORT FOR PARENTS AND FAMILY, FRIEND, AND NEIGHBOR CAREGIVERS. (1) Subject to the availability of amounts appropriated for this specific purpose, the department shall administer a prenatal to three family engagement strategy to support expectant parents, babies and toddlers from birth to three years of age, and their caregivers.

(2) Components of the prenatal to three family engagement strategy must include supports and services to improve maternal and infant health outcomes, reduce and mitigate trauma, promote attachment and other social-emotional assets, strengthen parenting skills, and provide early supports to help maximize healthy and robust childhood development and reduce isolation. Services and supports may include:

- (a) In-home parent skill-based programs and training established in RCW 43.216.130;
 - (b) Facilitated play and learn groups;
 - (c) Parent peer-support groups, including groups designed for families with children with complex needs; families whose primary home language is not English; incarcerated parents; families coping with substance use disorder or mental health support needs; black, indigenous, and families of color; or other specific needs; and
 - (d) Other prenatal to age three programs and services.
- (3) Continuity of services for babies and toddlers are important for early childhood brain development. Therefore, the services and supports described in this section may be made available to biological parents, foster parents, kinship care providers, and other family, friend, and neighbor caregivers.

Sec. 403. RCW 43.216.578 and 2019 c 408 s 8 are each amended to read as follows:

BIRTH TO THREE EARLY CHILDHOOD EDUCATION AND ASSISTANCE PROGRAM.

(1) ~~((Within resources available under the federal preschool development grant birth to five grant award received in December 2018;))~~ Subject to the availability of amounts appropriated for this specific purpose, the department shall ~~((develop a plan for phased implementation of))~~ administer a birth to three early childhood education and assistance program ~~((pilot project))~~ for eligible children under thirty-six months old. Funds to implement the ~~((pilot project))~~ program may include a combination of federal, state, or private sources.

(2) The department may adopt rules to implement the ~~((pilot project))~~ program and may waive or adapt early childhood education and assistance program requirements when necessary to allow for the operation of the birth to three early childhood education and assistance program. The department shall consider early head start rules and regulations when developing the provider and family eligibility requirements and program requirements. ~~((Any deviations from early head start standards, rules, or regulations must be identified and explained by the department in its annual report under subsection (6) of this section.))~~

(3)(a) ~~((Upon securing adequate funds to begin implementation, the pilot project))~~ The birth to three early childhood education and assistance program ~~((s))~~ must be delivered through child care centers and family home providers who meet minimum licensing standards and are enrolled in the early achievers program.

(b) The department must determine minimum early achievers ratings scores for ~~((programs))~~ participating ~~((in the pilot project))~~ contractors.

~~((4))~~ ~~((When selecting pilot project locations for service delivery, the department may allow each pilot project location to have up to three classrooms per location. When selecting and approving pilot project locations, the department shall attempt to select a combination of rural, urban, and suburban locations. MESSAGE FROM THE HOUSE

April 6, 2021

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5183 with the following amendment(s): 5183-S2 AMH PS H1363.1

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that nonfatal strangulation is among the most dangerous acts of domestic violence and sexual assault. Strangulation involves external compression of the victim's airway and blood vessels, causing reduced air and blood flow to the brain. Victims may show no or minimal external signs of injury despite having life-threatening internal injuries including traumatic brain injury. Injuries may present after the assault or much later and may persist for months and even years postassault. Victims who are strangled multiple times face a greater risk of traumatic brain injury. Traumatic brain injury symptoms are often not recognized as assault-related and may include cognitive difficulties such as decreased ability to concentrate, make decisions, and solve problems. Traumatic brain injury symptoms may also include behavior and personality changes such as irritability, impulsivity, and mood swings.

Domestic violence victims who have been nonfatally strangled are eight times more likely to become a subsequent victim of homicide at the hands of the same abusive partner. Research shows that previous acts of strangulation are a unique and substantial predictor of attempted and completed homicide against an intimate partner.

For years, forensic nurses in Washington have provided high-level care to sexual assault victims. Forensic nurses are also trained in medical evaluation of nonfatal strangulation, but only provide this evaluation in cases of sexual assault involving strangulation, as crime victims' compensation will not reimburse in nonsexual assault cases. Strangulation affects victims physically and psychologically. These victims deserve a higher standard of response and medical care. Allowing crime victims' compensation to reimburse for forensic nurse examinations for victims of domestic violence strangulation will provide a better, more victim-centered response in the most dangerous of domestic violence felony cases.

NEW SECTION. Sec. 2. A new section is added to chapter 43.280 RCW to read as follows:

(1) The office of crime victims advocacy shall develop best practices that local communities may use on a voluntary basis to

create more access to forensic nurse examiners in cases of nonfatal strangulation assault including, but not limited to, partnerships to serve multiple facilities, mobile nurse examiner teams, and multidisciplinary teams to serve victims in local communities.

(a) When developing the best practices, the office of crime victims advocacy shall consult with:

- (i) The Washington association of sheriffs and police chiefs;
- (ii) The Washington association of prosecuting attorneys;
- (iii) The Washington state coalition against domestic violence;
- (iv) The Harborview abuse and trauma center;
- (v) The Washington state hospital association;
- (vi) The Washington state association of counties;
- (vii) The association of Washington cities;
- (viii) The Washington coalition of sexual assault programs;
- (ix) The schools of nursing at Washington State University and the University of Washington;

(x) Collective bargaining representatives of frontline nurse examiners; and

(xi) Other organizations deemed appropriate by the office of crime victims advocacy.

(b) The office of crime victims advocacy shall complete the best practices no later than January 1, 2022, and publish them on its website.

(2) The office of crime victims advocacy shall develop strategies to make forensic nurse examiner training available to nurses in all regions of the state without requiring the nurses to travel unreasonable distances and without requiring medical facilities or the nurses to incur unreasonable expenses. Among other important factors deemed relevant and appropriate by the office of crime victims advocacy, the strategies should take into account the unique challenges faced by medical facilities and nurses operating in rural areas.

(a) When developing the strategies, the office of crime victims advocacy shall consult with:

- (i) The Harborview abuse and trauma center;
- (ii) The department of health;
- (iii) The nursing care quality assurance commission;
- (iv) The Washington state nurses association;
- (v) The Washington state hospital association;
- (vi) The schools of nursing at Washington State University and the University of Washington;
- (vii) Forensic nurse practitioners; and
- (viii) Other organizations deemed appropriate by the office of crime victims advocacy.

(b) The office of crime victims advocacy shall report the strategies to the governor and the appropriate committees of the legislature no later than October 1, 2022.

(3) This section expires June 30, 2023.

NEW SECTION. Sec. 3. A new section is added to chapter 7.68 RCW to read as follows:

(1) No costs incurred by a hospital or other emergency medical facility for the examination of the victim of domestic violence assault involving nonfatal strangulation, when such examination is performed for the purposes of gathering evidence for possible prosecution, shall be billed or charged directly or indirectly to the victim of such assault. Such costs shall be paid by the state pursuant to this chapter.

(2) The department must notify the office of financial management and the fiscal committees of the legislature if it projects that the cost of services provided under this section exceeds the amount of funding provided by the legislature solely for the purposes of this section.

(3) This section expires June 30, 2023.

NEW SECTION. Sec. 3. A new section is added to chapter 7.68 RCW to read as follows:

(1) No costs incurred by a hospital or other emergency medical facility for the examination of the victim of domestic violence assault involving nonfatal strangulation, when such examination is performed for the purposes of gathering evidence for possible prosecution, shall be billed or charged directly or indirectly to the victim of such assault. Such costs shall be paid by the state pursuant to this chapter.

PARLIAMENTARY INQUIRY

Senator Darneille: "Thank you Mr. President. My inquiry is about votes that we can physically see on the screen that are not recorded as a vote. It seemed last week that you were allowing a thumbs up for a vote when a person could not communicate verbally and that did not happen with a vote by Senator Wellman a couple of votes ago and I wonder what your procedures are?"

REPLY BY THE PRESIDENT

President Heck: "Senator Darneille, it was a voice vote."

Senator Darneille: "I believe that was a final vote Mr. President."

President Heck: "So, Senator Darneille, we did not know that she was having problems. What we knew was that she was not responding to the prompt to cast her vote. We will continue to monitor the screen as best we can and when given an indication. But we don't know whether a member is having technical problems, or they've stepped out of the room for a bio-break. But we will keep an eye on it."

MESSAGE FROM THE HOUSE

April 11, 2021

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5368 with the following amendment(s): 5368-S2 AMH APP H1490.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 35A.14 RCW to read as follows:

(1) A code city as provided in RCW 35A.14.296(2) may collaborate with the county or counties where the code city is located to form an interlocal agreement regarding annexation of unincorporated territory within the urban growth area boundary. The interlocal agreement formation process must include procedures for public participation. The procedures must provide for broad dissemination of proposals and alternatives, opportunity for written comments, public meetings after effective notice, and consideration of and response to public comments. The interlocal agreement may only be executed after notice of availability of the agreement is posted on the website of each legislative body for four weeks and a public hearing by each legislative body, separately or jointly. This method of annexation shall be an alternative method and is additional to all other methods provided for in this chapter.

(2) An interlocal agreement under this section may include use of a sales tax credit for annexed areas should such a credit be reinstated by the legislature.

(3) The agreement or plan under this section must address the following:

(a) A balancing of annexations of commercial, industrial, and residential properties so that any potential loss or gain is considered and distributed fairly as determined by tax revenue;

(b) Development, ownership, and maintenance of infrastructure;

(c) The potential for revenue-sharing agreements.

(4) In addressing the items in subsection (3)(a) through (c) of this section, the parties must also address the balancing of factors and objectives for annexation review in RCW 36.93.170 and 36.93.180.

(5) By December 1, 2021, the association of Washington cities and the Washington state association of counties shall report to the legislature, in compliance with RCW 43.01.036, on how a sales tax credit may be utilized to encourage appropriate annexations and what limits should be associated with such a credit if reinstated.

Sec. 2. RCW 36.70A.330 and 1997 c 429 s 21 are each amended to read as follows:

(1) After the time set for complying with the requirements of this chapter under RCW 36.70A.300(3)(b) has expired, or at an earlier time upon the motion of a county or city subject to a

determination of invalidity under RCW 36.70A.300, the board shall set a hearing for the purpose of determining whether the state agency, county, or city is in compliance with the requirements of this chapter.

(2) The board shall conduct a hearing and issue a finding of compliance or noncompliance with the requirements of this chapter and with any compliance schedule established by the board in its final order. A person with standing to challenge the legislation enacted in response to the board's final order may participate in the hearing along with the petitioner and the state agency, county, or city. A hearing under this subsection shall be given the highest priority of business to be conducted by the board, and a finding shall be issued within forty-five days of the filing of the motion under subsection (1) of this section with the board. The board shall issue any order necessary to make adjustments to the compliance schedule and set additional hearings as provided in subsection (5) of this section.

(3) If the board after a compliance hearing finds that the state agency, county, or city is not in compliance, the board shall transmit its finding to the governor. ~~((The))~~

(a) The board may refer a finding of noncompliance to the department. The purpose of the referral is for the department to provide technical assistance to facilitate speedy resolution of the finding of noncompliance and to provide training pursuant to section 3 of this act as necessary.

(b) Alternatively, the board may recommend to the governor that the sanctions authorized by this chapter be imposed. The board shall take into consideration the county's or city's efforts to meet its compliance schedule in making the decision to recommend sanctions to the governor.

(4) In a compliance hearing upon petition of a party, the board shall also reconsider its final order and decide, if no determination of invalidity has been made, whether one now should be made under RCW 36.70A.302.

(5) The board shall schedule additional hearings as appropriate pursuant to subsections (1) and (2) of this section.

NEW SECTION. Sec. 3. A new section is added to chapter 36.70A RCW to read as follows:

(1) The department shall offer training to assist local governments in understanding findings of noncompliance from the growth management hearings board pursuant to RCW 36.70A.300 and 36.70A.330 and applying prior decisions of the board to ongoing planning efforts to avoid findings of noncompliance.

(2) The department may award grants to a public agency with appropriate expertise and funded by local governments to provide the training required in subsection (1) of this section.

(3) The training provided in subsection (1) of this section is limited to counties that are largely rural.

Sec. 4. RCW 43.155.070 and 2017 3rd sp.s. c 10 s 9 are each amended to read as follows:

(2) Except where necessary to address a public health need or substantial environmental degradation, and except as provided in subsection (12) of this section, a county, city, or town planning

under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4)(a) The board must develop a process to prioritize applications and funding of loans and grants for public works projects submitted by local governments. The board must consider, at a minimum and in any order, the following factors in prioritizing projects:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages other funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(v) Whether the project promotes the sustainable use of resources and environmental quality, as applicable;

(vi) Whether the project consolidates or regionalizes systems;

(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;

(viii) Whether the system is being well-managed in the present and for long-term sustainability;

(ix) Achieving equitable distribution of funds by geography and population;

(x) The extent to which the project meets the following state policy objectives:

(A) Efficient use of state resources;

(B) Preservation and enhancement of health and safety;

(C) Abatement of pollution and protection of the environment;

(D) Creation of new, family-wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;

(E) Fostering economic development consistent with chapter 36.70A RCW;

(F) Efficiency in delivery of goods and services and transportation; and

(G) Reduction of the overall cost of public infrastructure;

(xi) Whether the applicant sought or is seeking funding for the project from other sources; and

(xii) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before September 1, 2018, and each year thereafter, the board must develop and submit a report regarding the construction loans and grants to the office of financial management and appropriate fiscal committees of the senate and house of representatives. The report must include:

(i) The total number of applications and amount of funding requested for public works projects;

(ii) A list and description of projects approved in the preceding fiscal year with project scores against the board's prioritization criteria;

(iii) The total amount of loan and grants disbursements made from the public works assistance account in the preceding fiscal year;

(iv) The total amount of loan repayments in the preceding fiscal year for outstanding loans from the public works assistance account;

(v) The total amount of loan repayments due for outstanding loans for each fiscal year over the following ten-year period; and

(vi) The total amount of funds obligated and timing of when the funds were obligated in the preceding fiscal year.

(c) The maximum amount of funding that the board may provide for any jurisdiction is ten million dollars per biennium.

(5) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before September 1st of each year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans and grants made under RCW 43.155.065 and 43.155.068.

(7) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds to the board for the purpose of funding public works projects under this chapter.

(8) To qualify for loans, grants, or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(9) After January 1, 2010, any project designed to address the effects of stormwater or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(10) For projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is reasonably obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan or grant.

(11) The board must implement policies and procedures designed to maximize local government consideration of other funds to finance local infrastructure.

(12) The provisions in subsection (2) of this section do not apply to a county, city, or town applying for grants and loans under this chapter for projects that support broadband services where such grants and loans will assist the county, city, or town with economic development, disaster resiliency and response, adaptation to public health emergencies such as pandemics, and emergency management.

NEW SECTION. Sec. 5. A new section is added to chapter 43.160 RCW to read as follows:

The board is prohibited from considering whether a county, city, or town is compliant with chapter 36.70A RCW when considering applications for broadband funding.

MESSAGE FROM THE HOUSE

April 9, 2021

MR. PRESIDENT:

The House passed SECOND SUBSTITUTE SENATE BILL NO. 5195 with the following amendment(s): 5195-S2 AMH DAVI H1524.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Opioid use disorder is a treatable brain disease from which people recover;

(b) Individuals living with opioid use disorder are at high risk for fatal overdose;

(c) Overdose deaths are preventable with lifesaving opioid overdose reversal medications like naloxone;

(d) Just as individuals with life-threatening allergies should carry an EpiPen, individuals with opioid use disorder should carry opioid overdose reversal medication;

(e) There are 53,000 individuals in Washington enrolled in apple health, Washington's medicaid program, that have a diagnosis of opioid use disorder and yet there are alarmingly few medicaid claims for opioid overdose reversal medication; and

(f) Most of the opioid overdose reversal medication distributed in Washington is currently paid for with flexible federal and state dollars and distributed in bulk, rather than appropriately billed to a patient's insurance. Those finite flexible funds should instead be used for nonmedicaid eligible expenses or for opioid overdose reversal medication distributed in nonmedicaid eligible settings or to nonmedicaid eligible persons. The state's current methods for acquisition and distribution of opioid overdose reversal medication are not sustainable and insufficient to reach all Washingtonians living with opioid use disorder.

(2) Therefore, it is the intent of the legislature to increase access for all individuals with opioid use disorder to opioid overdose reversal medication so that if they experience an overdose, they will have a second chance. As long as there is breath, there is hope for recovery.

Sec. 2. RCW 70.41.480 and 2019 c 314 s 18 are each amended to read as follows:

(1) The legislature finds that high quality, safe, and compassionate health care services for patients of Washington state must be available at all times. The legislature further finds that there is a need for patients being released from hospital emergency departments to maintain access to emergency medications when community or hospital pharmacy services are not available, including medication for opioid overdose reversal and for the treatment for opioid use disorder as appropriate. It is the intent of the legislature to accomplish this objective by allowing practitioners with prescriptive authority to prescribe limited amounts of prepackaged emergency medications to patients being discharged from hospital emergency departments when access to community or outpatient hospital pharmacy services is not otherwise available.

(2) A hospital may allow a practitioner to prescribe prepackaged emergency medications and allow a practitioner or a registered nurse licensed under chapter 18.79 RCW to distribute prepackaged emergency medications to patients being discharged from a hospital emergency department in the following circumstances:

(a) During times when community or outpatient hospital pharmacy services are not available within fifteen miles by road; ~~or~~

(b) When, in the judgment of the practitioner and consistent with hospital policies and procedures, a patient has no reasonable ability to reach the local community or outpatient pharmacy; ~~(c) or~~

~~(c) When, in the judgment of the practitioner and consistent with hospital policies and procedures, a patient is at risk of opioid overdose and the prepackaged emergency medication being distributed is an opioid overdose reversal medication. The labeling requirements of RCW 69.41.050 and 18.64.246 do not apply to opioid overdose reversal medications dispensed, distributed, or delivered pursuant to a prescription, collaborative drug therapy agreement, standing order, or protocol issued in accordance with this section. The individual or entity that dispenses, distributes, or delivers an opioid overdose reversal medication as authorized by this section must ensure that directions for use are provided).~~

(3) A hospital may only allow this practice if: The director of the hospital pharmacy, in collaboration with appropriate hospital medical staff, develops policies and procedures regarding the following:

(a) Development of a list, preapproved by the pharmacy director, of the types of emergency medications to be prepackaged and distributed;

(b) Assurances that emergency medications to be prepackaged pursuant to this section are prepared by a pharmacist or under the supervision of a pharmacist licensed under chapter 18.64 RCW;

(c) Development of specific criteria under which emergency prepackaged medications may be prescribed and distributed consistent with the limitations of this section;

(d) Assurances that any practitioner authorized to prescribe prepackaged emergency medication or any nurse authorized to distribute prepackaged emergency medication is trained on the types of medications available and the circumstances under which they may be distributed;

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that in 2008, the sex offender policy board was established to provide a more coordinated and integrated response to sex offender management in Washington state. The legislature further finds that in March 2020, the board was convened to review policies and practices related to sexually violent predators. The legislature recognizes that the board released a report and a series of recommendations regarding improvement to the current practice in order to ensure a successful transition for individuals convicted of sex offenses from total confinement back into the community. The legislature resolves to increase community safety through successful transition by enacting the recommendations of the board and other related policies.

Sec. 2. RCW 71.09.020 and 2015 c 278 s 2 are each reenacted and amended to read as follows:

(8) "Likely to engage in predatory acts of sexual violence if not confined in a secure facility" means that the person more probably than not will engage in such acts if released unconditionally from detention on the sexually violent predator petition. Such likelihood must be evidenced by a recent overt act if the person is not totally confined at the time the petition is filed under RCW 71.09.030.

(9) "Mental abnormality" means a congenital or acquired condition affecting the emotional or volitional capacity which predisposes the person to the commission of criminal sexual acts in a degree constituting such person a menace to the health and safety of others.

~~((6))~~ (7) No indigent person may be conditionally released or unconditionally discharged under this chapter without suitable clothing, and the secretary shall furnish the person with such sum of money as is required by RCW 72.02.100 for persons without ample funds who are released from correctional institutions. As funds are available, the secretary may provide payment to the indigent persons conditionally released pursuant to this chapter consistent with the optional provisions of RCW 72.02.100 and 72.02.110, and may adopt rules to do so.

~~((7))~~ (8) If a civil commitment petition is dismissed, or a trier of fact determines that a person does not meet civil commitment criteria, the person shall be released within twenty-four hours of service of the release order on the superintendent of the special commitment center, or later by agreement of the person who is the subject of the petition.

Sec. 4. RCW 71.09.090 and 2018 c 131 s 2 are each amended to read as follows:

(1)(a) If the secretary determines that the person's condition has so changed that ~~((either: (a) The))~~ the person no longer meets the definition of a sexually violent predator ~~((; or (b) conditional release to a less restrictive alternative is in the best interest of the person and conditions can be imposed that adequately protect the community))~~, the secretary shall authorize the person to petition the court for ~~((conditional release to a less restrictive alternative or))~~ unconditional discharge. The petition shall be filed with the court and served upon the prosecuting agency responsible for the initial commitment. The court, upon receipt of the petition for ~~((conditional release to a less restrictive alternative or))~~ unconditional discharge, shall within ~~((forty five))~~ 45 days order a hearing.

(b) If the secretary determines that the person's condition has so changed that conditional release to a less restrictive alternative is in the best interest of the person and conditions can be imposed that adequately protect the community, then the secretary shall authorize the person to petition the court for conditional release to a less restrictive alternative. Upon receipt of the petition, the court shall order the department to identify a less restrictive alternative placement that satisfies RCW 71.09.092 (1) through (4). Once identified, notice of the placement shall be filed with the court and served upon: The prosecuting agency responsible for the initial commitment; any person or persons identified in RCW 71.09.140(2)(a) who have opted to receive notifications under this chapter; and the person and his or her counsel. If the department cannot identify a placement available to the person that satisfies RCW 71.09.092 (1) through (4) within 90 days, the department shall provide a written certification to the court, the prosecuting agency responsible for the initial commitment, and the person and his or her counsel, detailing the efforts of the department to identify a qualifying placement. Upon the department's certification, the person may propose a placement that satisfies RCW 71.09.092 (1) through (3). After a less restrictive placement has been proposed by either the department or the person, the court shall within 45 days order a hearing.

(2)(a) Nothing contained in this chapter shall prohibit the person from otherwise petitioning the court for conditional release to a less restrictive alternative or unconditional discharge without the secretary's approval. The secretary shall provide the committed person with an annual written notice of the person's right to petition the court for conditional release to a less restrictive alternative or unconditional discharge over the secretary's objection. The notice shall contain a waiver of rights. The secretary shall file the notice and waiver form and the annual report with the court. If the person does not affirmatively waive the right to petition, the court shall set a show cause hearing to determine whether probable cause exists to warrant a hearing on whether the person's condition has so changed that: (i) He or she no longer meets the definition of a sexually violent predator; or (ii) conditional release to a proposed less restrictive alternative would be in the best interest of the person and conditions can be imposed that would adequately protect the community.

(b)(i) The committed person shall have a right to have an attorney represent him or her at the show cause hearing, which may be conducted solely on the basis of affidavits or declarations, but the person is not entitled to be present at the show cause hearing. At the show cause hearing, the prosecuting agency shall present prima facie evidence establishing: (A) That the committed person continues to meet the definition of a sexually violent predator; and (B) that a less restrictive alternative is not in the best interest of the person and conditions cannot be imposed that adequately protect the community.

(ii)(A) If the state produces prima facie evidence that the committed person continues to be a sexually violent predator, then the state's burden under (b)(i)(A) of this subsection is met and an unconditional release trial may not be ordered unless the committed person produces evidence satisfying: Subsection (4)(a) of this section; and subsection (4)(b) (i) or (ii) of this section.

(B) If the state produces prima facie evidence that a less restrictive alternative is not appropriate for the committed person, then the state's burden under (b)(i)(B) of this subsection is met, and a conditional release trial may not be ordered unless the committed person:

(I) Produces evidence satisfying: Subsection (4)(a) of this section; and subsection (4)(b) (i) or (ii) of this section; and

(II) Presents the court with a specific placement satisfying the requirements of RCW 71.09.092.

(iii) In making the showing required under (b)(i) of this subsection, the state may rely exclusively upon the annual report prepared pursuant to RCW 71.09.070. The committed person may present responsive affidavits or declarations to which the state may reply.

(c)(i) If the court at the show cause hearing determines that either: ~~((+)) (A) The state has failed to present prima facie evidence that the committed person continues to meet the definition of a sexually violent predator ((and that no proposed less restrictive alternative is in the best interest of the person and conditions cannot be imposed that would adequately protect the community));~~ or ~~((+)) (B) probable cause exists to believe that the person's condition has so changed that ((-A-) The) the person no longer meets the definition of a sexually violent predator ((-or (B) release to a proposed less restrictive alternative would be in the best interest of the person and conditions can be imposed that would adequately protect the community));~~ then the court shall set a hearing on ~~((either or both issues))~~ the issue of unconditional discharge.

(ii) If the court at the show cause hearing determines that the state has failed to present prima facie evidence that no proposed less restrictive alternative is in the best interest of the person and conditions cannot be imposed that would adequately protect the community, the court shall enter an order directing the department to propose a less restrictive alternative that satisfies RCW 71.09.092 (1) through (4). If the department cannot identify a placement available to the person that satisfies RCW 71.09.092 (1) through (4) within 90 days, the department shall provide a written certification to the court, the prosecuting agency responsible for the initial commitment, and the person and his or her counsel, detailing the efforts of the department to identify a qualifying placement. Upon the department's certification, the person may propose a placement that satisfies RCW 71.09.092 (1) through (3). After a less restrictive placement has been proposed by either the department or the person, the court shall set a hearing on the issue of conditional release.

(iii) If the court at the show cause hearing determines, based on the evidence submitted by the person, that probable cause exists to believe that release to a less restrictive alternative would be in the best interest of the person and conditions can be imposed that would adequately protect the community, the court shall set a hearing on the issue of conditional release if the person presents the court with a specific placement that satisfies the requirements of RCW 71.09.092.

(d) If the court has not previously considered the issue of release to a less restrictive alternative, either through a trial on the merits or through the procedures set forth in RCW 71.09.094(1), or if an immediately preceding less restrictive alternative was revoked due to the loss of adequate housing or treatment for reasons other than noncompliance with housing requirements, treatment, or other conditions of the less restrictive alternative, the court shall consider whether release to a less restrictive alternative would be in the best interests of the person and conditions can be imposed that would adequately protect the community, without considering whether the person's condition has changed. ~~((The court may not find probable cause for a trial addressing less restrictive alternatives unless a proposed less restrictive alternative placement meeting the conditions of RCW 71.09.092 is presented to the court at the show cause hearing.))~~

(3)(a) At the hearing resulting from subsection (1) or (2) of this section, the committed person shall be entitled to be present and to the benefit of all constitutional protections that were afforded

to the person at the initial commitment proceeding. The prosecuting agency shall represent the state and shall have a right to a jury trial and to have the committed person evaluated by experts chosen by the state. The prosecuting agency shall have a right to a current evaluation of the person by experts chosen by the state. The judge may require the person to complete any or all of the following procedures or tests if requested by the evaluator: (i) A clinical interview; (ii) psychological testing; (iii) plethysmograph testing; and (iv) polygraph testing. The judge may order the person to complete any other procedures and tests relevant to the evaluation. The state is responsible for the costs of the evaluation. The committed person shall also have the right to a jury trial and the right to have experts evaluate him or her on his or her behalf and the court shall appoint an expert if the person is indigent and requests an appointment.

(b) Whenever any indigent person is subjected to an evaluation under (a) of this subsection, the office of public defense is responsible for the cost of one expert or professional person conducting an evaluation on the person's behalf. When the person wishes to be evaluated by a qualified expert or professional person of his or her own choice, such expert or professional person must be permitted to have reasonable access to the person for the purpose of such evaluation, as well as to all relevant medical and psychological records and reports. In the case of a person who is indigent, the court shall, upon the person's request, assist the person in obtaining an expert or professional person to perform an evaluation or participate in the hearing on the person's behalf. Nothing in this chapter precludes the person from paying for additional expert services at his or her own expense.

(c) If the issue at the hearing is whether the person should be unconditionally discharged, the burden of proof shall be upon the state to prove beyond a reasonable doubt that the committed person's condition remains such that the person continues to meet the definition of a sexually violent predator. Evidence of the prior commitment trial and disposition is admissible. The recommitment proceeding shall otherwise proceed as set forth in RCW 71.09.050 and 71.09.060.

(d) If the issue at the hearing is whether the person should be conditionally released to a less restrictive alternative, the burden of proof at the hearing shall be upon the state to prove beyond a reasonable doubt that conditional release to any proposed less restrictive alternative either: (i) Is not in the best interest of the committed person; or (ii) does not include conditions that would adequately protect the community. Evidence of the prior commitment trial and disposition is admissible.

(4)(a) Probable cause exists to believe that a person's condition has "so changed," under subsection (2) of this section, only when evidence exists, since the person's last commitment trial, or less restrictive alternative revocation proceeding, of a substantial change in the person's physical or mental condition such that the person either no longer meets the definition of a sexually violent predator or that a conditional release to a less restrictive alternative is in the person's best interest and conditions can be imposed to adequately protect the community.

(b) A new trial proceeding under subsection (3) of this section may be ordered, or a trial proceeding may be held, only when there is current evidence from a licensed professional of one of the following and the evidence presents a change in condition since the person's last commitment trial proceeding:

(i) An identified physiological change to the person, such as paralysis, stroke, or dementia, that renders the committed person unable to commit a sexually violent act and this change is permanent; or

(ii) A change in the person's mental condition brought about through positive response to continuing participation in treatment

which indicates that the person meets the standard for conditional release to a less restrictive alternative or that the person would be safe to be at large if unconditionally released from commitment.

(c) For purposes of this section, a change in a single demographic factor, without more, does not establish probable cause for a new trial proceeding under subsection (3) of this section. As used in this section, a single demographic factor includes, but is not limited to, a change in the chronological age, marital status, or gender of the committed person.

(5) When the court enters an order for unconditional discharge of a person from an immediately preceding less restrictive placement, the court must direct the clerk to transmit a copy of the order to the department of corrections for discharge process and termination of cause.

(6) The jurisdiction of the court over a person civilly committed pursuant to this chapter continues until such time as the person is unconditionally discharged.

~~((6))~~ (7) During any period of confinement pursuant to a criminal conviction, or for any period of detention awaiting trial on criminal charges, this section is suspended.

Sec. 5. RCW 71.09.092 and 2009 c 409 s 9 are each amended to read as follows:

Before the court may enter an order directing conditional release to a less restrictive alternative, it must find the following: (1) The person will be treated by a treatment provider who is qualified to provide such treatment in the state of Washington under chapter 18.155 RCW; (2) the treatment provider has presented a specific course of treatment and has agreed to assume responsibility for such treatment and will report progress to the court on a regular basis, and will report violations immediately to the court, the prosecutor, the supervising community corrections officer, and the superintendent of the special commitment center; (3) housing exists in Washington that complies with distance restrictions, is sufficiently secure to protect the community, and the person or agency providing housing to the conditionally released person has agreed in writing to accept the person, to provide the level of security required by the court, and immediately to report to the court, the prosecutor, the supervising community corrections officer, and the superintendent of the special commitment center if the person leaves the housing to which he or she has been assigned without authorization; (4) if the department has proposed housing that is outside of the county of commitment, a documented effort was made by the department to ensure that placement is consistent with fair share principles of release; (5) the person is willing to comply with the treatment provider and all requirements imposed by the treatment provider and by the court; and ~~((5))~~ (6) the person will be under the supervision of the department of corrections and is willing to comply with supervision requirements imposed by the department of corrections.

Sec. 6. RCW 71.09.096 and 2015 c 278 s 3 are each amended to read as follows:

(1) If the court or jury determines that conditional release to a less restrictive alternative is in the best interest of the person and includes conditions that would adequately protect the community, and the court determines that the minimum conditions set forth in RCW 71.09.092 and in this section are met, the court shall enter judgment and direct a conditional release.

(2) The court shall impose any additional conditions necessary to ensure compliance with treatment and to protect the community. If the court finds that conditions do not exist that will both ensure the person's compliance with treatment and protect the community, then the person shall be remanded to the custody of the department of social and health services for control, care,

and treatment in a secure facility as designated in RCW 71.09.060(1).

(3) If the service provider designated by the court to provide inpatient or outpatient treatment or to monitor or supervise any other terms and conditions of a person's placement in a less restrictive alternative is other than the department of social and health services or the department of corrections, then the service provider so designated must agree in writing to provide such treatment, monitoring, or supervision in accord with this section. Any person providing or agreeing to provide treatment, monitoring, or supervision services pursuant to this chapter may be compelled to testify and any privilege with regard to such person's testimony is deemed waived.

(4)(a) Prior to authorizing any release to a less restrictive alternative, the court shall impose such conditions upon the person as are necessary to ensure the safety of the community. In imposing conditions, the court must impose a restriction on the proximity of the person's residence to public or private schools providing instruction to kindergarten or any grades one through 12 in accordance with RCW 72.09.340. Courts shall require a minimum distance restriction of 500 feet on the proximity of the person's residence to child care facilities and public or private schools providing instruction to kindergarten or any grades one through 12. The court shall order the department of corrections to investigate the less restrictive alternative and, within 60 days of the order to investigate, recommend any additional conditions to the court. These conditions shall be individualized to address the person's specific risk factors and criminogenic needs and may include, but are not limited to the following: Specification of residence or restrictions on residence including distance restrictions, specification of contact with a reasonable number of individuals upon the person's request who are verified by the department of corrections to be appropriate social contacts, prohibition of contact with potential or past victims, prohibition of alcohol and other drug use, participation in a specific course of inpatient or outpatient treatment that may include monitoring by the use of polygraph and plethysmograph, monitoring through the use of global positioning ((~~satellite [global positioning system]]~~) system technology, supervision by a department of corrections community corrections officer, a requirement that the person remain within the state unless the person receives prior authorization by the court, and any other conditions that the court determines are in the best interest of the person or others. A copy of the conditions of release shall be given to the person and to any designated service providers.

(b) To the greatest extent possible, the person, person's counsel, prosecuting agency responsible for the initial commitment, treatment provider, supervising community corrections officer, and appropriate clinical staff of the special commitment center shall meet and collaborate to craft individualized, narrowly tailored, and empirically based conditions to present to the court to help facilitate the person's successful transition to the community.

(5)(a) Prior to authorizing release to a less restrictive alternative proposed by the department, the court shall consider whether ((it is appropriate to release the person to the person's county of commitment)) the person's less restrictive alternative placement is in accordance with fair share principles. To ensure equitable distribution of releases, and prevent the disproportionate grouping of persons subject to less restrictive orders in any one county, or in any one jurisdiction or community within a county, the legislature finds it is appropriate for releases to a less restrictive alternative to occur in ((the person's county of commitment, unless)) a manner that adheres to fair share

principles. The legislature recognizes that there may be reasons why the department may not recommend that a person be released to his or her county of commitment, including availability of individualized resources, the person's support needs, or when the court determines that the person's return to his or her county of commitment would be inappropriate considering any court-issued protection orders, victim safety concerns that cannot be addressed through use of global positioning system technology, the ((availability)) unavailability of appropriate treatment or facilities that would adequately protect the community, negative influences on the person, ((~~or~~)) and the location of family or other persons or organizations offering support to the person. If the court authorizes conditional release based on the department's proposal to a county other than the county of commitment, the court shall enter specific findings regarding its decision and identify whether the release remains in line with fair share principles.

(b)(i) When the department ((~~or court assists in developing a~~) develops a less restrictive alternative placement under this section ((which is outside of the county of commitment, and there are two or more options for placement, it shall endeavor to develop the placement in a manner that does not have a disproportionate effect on a single county)), it shall attempt to identify a placement satisfying the requirements of RCW 71.09.092 that is aligned with fair share principles. The department shall document its rationale for the recommended placement.

(ii) If the department does not support or recommend conditional release to a less restrictive alternative due to a clinical determination, the department shall document its objection and certify that the department is developing the less restrictive alternative pursuant to a court order and not because of a clinical determination.

(iii) When the department develops or proposes a less restrictive alternative placement under this chapter, it shall be considered a predisposition recommendation.

(iv) In developing, modifying, and enforcing less restrictive alternatives, the department shall be deemed to be performing a quasi-judicial function.

((~~b~~)) (c) If the committed person is not conditionally released to his or her county of commitment, the department shall provide the law and justice council of the county in which the person is conditionally released with notice and a written explanation, including whether the department remains in compliance with fair share principles regarding releases under this chapter.

((~~e~~)) (d) For purposes of this section, the person's county of commitment means the county of the court which ordered the person's commitment.

((~~d~~)) (e) This subsection (5) does not apply to releases to a secure community transition facility under RCW 71.09.250.

(6)(a) When ordered by the court, the department must provide less restrictive alternative treatment that includes, at a minimum:

(i) The services identified in the person's discharge plan as outlined in RCW 71.09.080(4);

(ii) The assignment of a community care coordinator;

(iii) Regular contacts with providers of court-ordered treatment services;

(iv) Community escorts, if needed;

(v) A transition plan that addresses the person's access to continued services upon unconditional discharge;

(vi) Financial support for necessary housing;

(vii) Life skills training and disability accommodations, if needed; and

(viii) Assistance in pursuing benefits, education, and employment.

(b) At the time the department of corrections is ordered to investigate a proposed less restrictive alternative placement, subject to the availability of amounts appropriated for this specific purpose, the department shall assign a social worker to assist the person with discharge planning, pursuing benefits, and coordination of care prior to release.

(i) The social worker shall assist the person with completing applications for benefits prior to the person's release from total confinement.

(ii) To promote continuity of care and the individual's success in the community, the department social worker shall be responsible for initiating a clinical transition of care between the last treating clinician at the special commitment center and the person's designated community treatment provider. This transition between one clinical setting to another shall occur no later than 15 days before an individual's release from the special commitment center.

(iii) If applicable, the social worker shall assist the person with locating any needed disability accommodations in the community and with obtaining resources to help address the person's identified life skills needs prior to release from total confinement.

(7) Any service provider designated to provide inpatient or outpatient treatment shall monthly, or as otherwise directed by the court, submit to the court, to the department of social and health services facility from which the person was released, to the prosecuting agency, and to the supervising community corrections officer, a report stating whether the person is complying with the terms and conditions of the conditional release to a less restrictive alternative.

~~((7))~~ (8) Each person released to a less restrictive alternative shall have his or her case reviewed by the court that released him or her no later than one year after such release and annually thereafter until the person is unconditionally discharged. Review may occur in a shorter time or more frequently, if the court, in its discretion on its own motion, or on motion of the person, the secretary, or the prosecuting agency so determines. The ~~((sole question))~~ questions to be determined by the court ~~((is))~~ are whether the person shall continue to be conditionally released to a less restrictive alternative, and if so, whether a modification to the person's less restrictive alternative order is appropriate to ensure the conditional release remains in the best interest of the person and adequate to protect the victim and the community. The court in making its determination shall be aided by the periodic reports filed pursuant to subsection ~~((6))~~ (7) of this section and the opinions of the secretary and other experts or professional persons.

Sec. 7. RCW 71.09.130 and 1995 c 216 s 16 are each amended to read as follows:

(1) In the event of an escape by a person committed under this chapter from a state institution or the disappearance of such a person while on conditional release, the superintendent or community corrections officer shall notify the following as appropriate: Local law enforcement officers, other governmental agencies, the person's relatives, and any other appropriate persons about information necessary for the public safety or to assist in the apprehension of the person.

(2) If a person committed under this chapter disappears while on conditional release, the department of corrections may enter a warrant for the person's arrest for up to 96 hours pending entry of a bench warrant by the court.

(3) The department of corrections, its officers, agents, and employees are not liable for the acts of individuals on conditional release unless the department of corrections, its officers, agents, and employees acted with gross negligence.

(4) The department, its officers, agents, and employees are not liable for the acts of individuals on conditional release unless the department, its officers, agents, and employees acted with gross negligence.

Sec. 8. RCW 71.09.140 and 2012 c 257 s 12 are each amended to read as follows:

(1)(a) At the earliest possible date, and in no event later than ~~((thirty))~~ 30 days before conditional release, change of address for a person on conditional release, or unconditional discharge, except in the event of escape, the department of social and health services shall send written notice of conditional release, unconditional discharge, or escape, to the following:

~~((a))~~ (i) The chief of police of the city, if any, in which the person will reside or in which placement will be made under a less restrictive alternative;

~~((b))~~ (ii) The sheriff of the county in which the person will reside or in which placement will be made under a less restrictive alternative; and

~~((c))~~ (iii) The sheriff of the county where the person was last convicted of a sexually violent offense, if the department does not know where the person will reside.

The department shall notify the state patrol of the release of all sexually violent predators and that information shall be placed in the Washington crime information center for dissemination to all law enforcement.

(b) A return to total confinement or to a secure community transition facility pending revocation or modification proceedings is not considered a change of address for purposes of (a) of this subsection, and an additional community notification process is not required, unless conditional release is revoked under RCW 71.09.098 or the return lasts longer than 90 days.

(2) The same notice as required by subsection (1) of this section shall be sent to the following if such notice has been requested in writing about a specific person found to be a sexually violent predator under this chapter:

(a) The victim or victims of any sexually violent offenses for which the person was convicted in the past or the victim's next of kin if the crime was a homicide. "Next of kin" as used in this section means a person's spouse, parents, siblings, and children;

(b) Any witnesses who testified against the person in his or her commitment trial under RCW 71.09.060; and

(c) Any person specified in writing by the prosecuting agency.

Information regarding victims, next of kin, or witnesses requesting the notice, information regarding any other person specified in writing by the prosecuting agency to receive the notice, and the notice are confidential and shall not be available to the committed person.

(3) If a person committed as a sexually violent predator under this chapter escapes from a department of social and health services facility, the department shall immediately notify, by the most reasonable and expedient means available, the chief of police of the city and the sheriff of the county in which the committed person resided immediately before his or her commitment as a sexually violent predator, or immediately before his or her incarceration for his or her most recent offense. If previously requested, the department shall also notify the witnesses and the victims of the sexually violent offenses for which the person was convicted in the past or the victim's next of kin if the crime was a homicide. If the person is recaptured, the department shall send notice to the persons designated in this subsection as soon as possible but in no event later than two working days after the department learns of such recapture.

(4) If the victim or victims of any sexually violent offenses for which the person was convicted in the past or the victim's next of kin, or any witness is under the age of ~~((sixteen))~~ 16, the notice

required by this section shall be sent to the parents or legal guardian of the child.

(5) The department of social and health services shall send the notices required by this chapter to the last address provided to the department by the requesting party. The requesting party shall furnish the department with a current address.

(6) Nothing in this section shall impose any liability upon a chief of police of a city or sheriff of a county for failing to request in writing a notice as provided in subsection (1) of this section.

Sec. 9. RCW 71.09.250 and 2003 c 216 s 3 are each amended to read as follows:

(1)(a) The secretary is authorized to site, construct, occupy, and operate (i) a secure community transition facility on McNeil Island for persons authorized to petition for a less restrictive alternative under RCW 71.09.090(1) and who are conditionally released; and (ii) a special commitment center on McNeil Island with up to four hundred four beds as a total confinement facility under this chapter, subject to appropriated funding for those purposes. The secure community transition facility shall be authorized for the number of beds needed to ensure compliance with the orders of the superior courts under this chapter and the federal district court for the western district of Washington. The total number of beds in the secure community transition facility shall be limited to ~~((twenty-four))~~ 24, consisting of up to ~~((fifteen))~~ 15 transitional beds and up to nine pretransitional beds. The residents occupying the transitional beds shall be the only residents eligible for transitional services occurring in Pierce county. In no event shall more than ~~((fifteen))~~ 15 residents of the secure community transition facility be participating in off-island transitional, educational, or employment activity at the same time in Pierce county. The department shall provide the Pierce county sheriff, or his or her designee, with a list of the ~~((fifteen))~~ 15 residents so designated, along with their photographs and physical descriptions, and the list shall be immediately updated whenever a residential change occurs. The Pierce county sheriff, or his or her designee, shall be provided an opportunity to confirm the residential status of each resident leaving McNeil Island.

(b) For purposes of this subsection, "transitional beds" means beds only for residents who are judged by a qualified expert to be suitable to leave the island for treatment, education, and employment.

(2)(a) The secretary is authorized to site, either within the secure community transition facility established pursuant to subsection (1)(a)(i) of this section, or within the special commitment center, up to nine pretransitional beds.

(b) Residents assigned to pretransitional beds shall not be permitted to leave McNeil Island for education, employment, treatment, or community activities in Pierce county.

(c) For purposes of this subsection, "pretransitional beds" means beds for residents whose progress toward a less secure residential environment and transition into more complete community involvement is projected to take substantially longer than a typical resident of the special commitment center.

(3) Notwithstanding RCW 36.70A.103 or any other law, this statute preempts and supersedes local plans, development regulations, permitting requirements, inspection requirements, and all other laws as necessary to enable the secretary to site, construct, occupy, and operate a secure community transition facility on McNeil Island and a total confinement facility on McNeil Island.

(4) To the greatest extent possible, until June 30, 2003, persons who were not civilly committed from the county in which the secure community transition facility established pursuant to subsection (1) of this section is located may not be conditionally

released to a setting in that same county less restrictive than that facility.

(5) As of June 26, 2001, the state shall immediately cease any efforts in effect on such date to site secure community transition facilities, other than the facility authorized by subsection (1) of this section, and shall instead site such facilities in accordance with the provisions of this section.

(6) The department must:

(a) Identify the minimum and maximum number of secure community transition facility beds in addition to the facility established under subsection (1) of this section that may be necessary for the period of May 2004 through May 2007 and provide notice of these numbers to all counties by August 31, 2001; and

(b) Develop and publish policy guidelines for the siting and operation of secure community transition facilities.

(7)(a) The total number of secure community transition facility beds that may be required to be sited in a county between June 26, 2001, and June 30, 2008, may be no greater than the total number of persons civilly committed from that county, or detained at the special commitment center under a pending civil commitment petition from that county where a finding of probable cause had been made on April 1, 2001. The total number of secure community transition facility beds required to be sited in each county between July 1, 2008, and June 30, 2015, may be no greater than the total number of persons civilly committed from that county or detained at the special commitment center under a pending civil commitment petition from that county where a finding of probable cause had been made as of July 1, 2008.

(b) Counties and cities that provide secure community transition facility beds above the maximum number that they could be required to site under this subsection are eligible for a bonus grant under the incentive provisions in RCW 71.09.255. The county where the special commitment center is located shall receive this bonus grant for the number of beds in the facility established in subsection (1) of this section in excess of the maximum number established by this subsection.

(c) No secure community transition facilities in addition to the one established in subsection (1) of this section may be required to be sited in the county where the special commitment center is located until after June 30, 2008, provided however, that the county and its cities may elect to site additional secure community transition facilities and shall be eligible under the incentive provisions of RCW 71.09.255 for any additional facilities meeting the requirements of that section.

(8) After the department demonstrates the need for additional bed capacity to the appropriate committees of the legislature, and receives approval and funding from the appropriate committees of the legislature to build additional bed capacity, the state is authorized to site and operate secure community transition facilities and other conditional release and transitional facilities in any county in the state in accordance with RCW 71.09.315. Any facilities or placements developed under this section may be identified through a request for proposal process or through direct state acquisition and development. Any contracts with facilities or placements entered into under this section shall include a provision requiring oversight by the department to ensure the programs are operating appropriately.

NEW SECTION. **Sec. 11.** A new section is added to chapter 71.09 RCW to read as follows:

(1) In accordance with RCW 71.09.090 and 71.09.096, the department shall have the primary responsibility for developing a less restrictive alternative placement. To ensure the department has sufficient less restrictive alternative placements to choose from that satisfy the requirements of RCW 71.09.092, subject to the availability of amounts appropriated for this specific purpose, the department shall use a request for proposal process to solicit and contract with housing and treatment providers from across the state and facilitate fair share principles among the counties. In order to increase the number of housing options for individuals qualifying for a less restrictive alternative, the department shall have oversight of the vendors and providers who contract with the state, including the authority to inspect and ensure compliance, negotiate the rates charged for services, ensure adequate living conditions of housing locations, and terminate contracts. The department shall maintain a statewide accounting of the contracted community housing and treatment providers in each county and provide a biannual report to the legislature and governor by December 1st on the availability and adequacy of less restrictive alternative placements and the department's compliance with fair share principles.

71.09.315. The department shall require the housing provider to provide proof that the facility is in compliance with all local zoning and building codes.

(i) General housing requirements include running water, electricity, bedroom and living space of adequate size, and no mold or infestations.

(ii) Availability of public services include availability of chaperones and whether the placement is within a reasonable distance to a grocery store, bank, public transportation options, and offices for public services and benefits.

(iii) Other considerations include whether the placement is consistent with fair share principles across the counties, whether the placement is within reasonable distance to other current or planned components of the less restrictive alternative, whether the placement is within reasonable distance to employment opportunities, and the reliability of global positioning system technology.

(b) Factors for evaluating less restrictive alternative options for a specific individual include sex offender treatment considerations, criminogenic needs and risk factors, protective factors, and the specific needs of the client.

(i) Sex offender treatment considerations include whether the housing is within a reasonable distance from the treatment provider, whether the treatment provider is a good therapeutic match with the client, and whether the treatment provider has relevant experience and background to treat the client if the client has special needs.

(ii) Criminogenic needs and risk factors include consideration of the person's specific needs and risk factors in evaluating less restrictive alternative options.

(iii) Protective factors include whether housing is within a reasonable distance of family, friends, potential hobbies, potential employment, and educational opportunities.

NEW SECTION. **Sec. 13.** A new section is added to chapter 71.09 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department, the sex offender policy board, and department of health shall convene a work group to develop recommendations to increase the availability and quality of sex offender treatment providers to meet the growing number of persons qualifying for conditional release to a less restrictive alternative. The work group shall gather data on best practices in other states and make recommendations whether sex offender treatment providers should be required to contract with the department; whether annual or biannual trainings by the department should be mandatory for prospective and existing sex offender treatment providers; whether the department should provide competitive wages for services or pay that is commensurate with the years of experience or education level of

the treatment provider; and whether the department should provide other incentives such as a cost-of-living pay increase or compensating providers for the cost of mandated trainings associated with the sex offender treatment provider license under chapter 18.155 RCW. A report shall be submitted to the legislature by December 1, 2021.

(2) This section expires June 30, 2022.

The inspection shall be made without providing advance notice of it. Every inspection may include an inspection of every part of the premises and an examination of all records, methods of administration, the general and special dietary and the stores and methods of supply. Those nursing homes that provide community-based care shall establish and maintain separate and distinct accounting and other essential records for the purpose of appropriately allocating costs of the providing of such care: PROVIDED, That such costs shall not be considered allowable costs for reimbursement purposes under chapter 74.46 RCW. Following such inspection or inspections, written notice of any violation of this law or the rules and regulations promulgated hereunder, shall be given to the applicant or licensee and the department. The notice shall describe the reasons for the facility's noncompliance. The department may prescribe by regulations that any licensee or applicant desiring to make specified types of alterations or additions to its facilities or to construct new facilities shall, before commencing such alteration, addition or new construction, submit its plans and specifications therefor to the department for preliminary inspection and approval or recommendations with respect to compliance with the regulations and standards herein authorized.

(2) If a pandemic, natural disaster, or other declared state of emergency prevents the department from completing inspections according to the timeline in subsection (1) of this section, the department shall adopt rules to reestablish inspection timelines based on the length of time since the last complete inspection, compliance history of each facility, immediate health or safety concerns, and centers for medicare and medicaid services requirements.

(a) Rules adopted under this subsection (2) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all facility inspections are occurring according to time frames

established in subsection (1) of this section, whichever occurs later. Once the department determines a rule adopted under this subsection (2) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of inspection compliance with subsection (1) of this section and provide the legislature with a report.

Sec. 5. RCW 18.51.230 and 2020 c 263 s 2 are each amended to read as follows:

(1) The department shall, in addition to any inspections conducted pursuant to complaints filed pursuant to RCW 18.51.190, conduct a periodic general inspection of each nursing home in the state without providing advance notice of such inspection. Such inspections must conform to the federal standards for surveys under 42 C.F.R. Part 488, Subpart E.

(2) If a pandemic, natural disaster, or other declared state of emergency prevents the department from completing inspections according to the timeline in subsection (1) of this section, the department shall adopt rules to reestablish inspection timelines based on the length of time since the last complete inspection, compliance history of each facility, immediate health or safety concerns, and centers for medicare and medicaid services requirements.

(a) Rules adopted under this subsection (2) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all facility inspections are occurring according to time frames established in subsection (1) of this section, whichever occurs later. Once the department determines a rule adopted under this subsection (2) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of inspection compliance with subsection (1) of this section and provide the legislature with a report.

Sec. 6. RCW 74.42.360 and 2020 c 263 s 3 are each amended to read as follows:

(1) The facility shall have staff on duty twenty-four hours daily sufficient in number and qualifications to carry out the provisions of RCW 74.42.010 through 74.42.570 and the policies, responsibilities, and programs of the facility.

(2) The department shall institute minimum staffing standards for nursing homes. Beginning July 1, 2016, facilities must provide a minimum of 3.4 hours per resident day of direct care. Direct care staff has the same meaning as defined in RCW 74.42.010. The minimum staffing standard includes the time when such staff are providing hands-on care related to activities of daily living and nursing-related tasks, as well as care planning. The legislature intends to increase the minimum staffing standard to 4.1 hours per resident day of direct care, but the effective date of a standard higher than 3.4 hours per resident day of direct care will be identified if and only if funding is provided explicitly for an increase of the minimum staffing standard for direct care.

(a) The department shall establish in rule a system of compliance of minimum direct care staffing standards by January 1, 2016. Oversight must be done at least quarterly using the centers for medicare and medicaid services' payroll-based journal and nursing home facility census and payroll data.

(b) The department shall establish in rule by January 1, 2016, a system of financial penalties for facilities out of compliance with minimum staffing standards. No monetary penalty may be issued

during the implementation period of July 1, 2016, through September 30, 2016. If a facility is found noncompliant during the implementation period, the department shall provide a written notice identifying the staffing deficiency and require the facility to provide a sufficiently detailed correction plan to meet the statutory minimum staffing levels. Monetary penalties begin October 1, 2016. Monetary penalties must be established based on a formula that calculates the cost of wages and benefits for the missing staff hours. If a facility meets the requirements in subsection (3) or (4) of this section, the penalty amount must be based solely on the wages and benefits of certified nurse aides. The first monetary penalty for noncompliance must be at a lower amount than subsequent findings of noncompliance. Monetary penalties established by the department may not exceed two hundred percent of the wage and benefit costs that would have otherwise been expended to achieve the required staffing minimum hours per resident day for the quarter. A facility found out of compliance must be assessed a monetary penalty at the lowest penalty level if the facility has met or exceeded the requirements in subsection (2) of this section for three or more consecutive years. Beginning July 1, 2016, pursuant to rules established by the department, funds that are received from financial penalties must be used for technical assistance, specialized training, or an increase to the quality enhancement established in RCW 74.46.561.

(c) The department shall establish in rule an exception allowing geriatric behavioral health workers as defined in RCW 74.42.010 to be recognized in the minimum staffing requirements as part of the direct care service delivery to individuals who have a behavioral health condition. Hours worked by geriatric behavioral health workers may be recognized as direct care hours for purposes of the minimum staffing requirements only up to a portion of the total hours equal to the proportion of resident days of clients with a behavioral health condition identified at that facility on the most recent semiannual minimum data set. In order to qualify for the exception:

(i) The worker must:

(A) Have a bachelor's or master's degree in social work, behavioral health, or other related areas; or

(B) Have at least three years experience providing care for individuals with chronic mental health issues, dementia, or intellectual and developmental disabilities in a long-term care or behavioral health care setting; or

(C) Have successfully completed a facility-based behavioral health curriculum approved by the department under RCW 74.39A.078;

(ii) Any geriatric behavioral health worker holding less than a master's degree in social work must be directly supervised by an employee who has a master's degree in social work or a registered nurse.

(d)(i) The department shall establish a limited exception to the 3.4 hours per resident day staffing requirement for facilities demonstrating a good faith effort to hire and retain staff.

(ii) To determine initial facility eligibility for exception consideration, the department shall send surveys to facilities anticipated to be below, at, or slightly above the 3.4 hours per resident day requirement. These surveys must measure the hours per resident day in a manner as similar as possible to the centers for medicare and medicaid services' payroll-based journal and cover the staffing of a facility from October through December of 2015, January through March of 2016, and April through June of 2016. A facility must be below the 3.4 staffing standard on all three surveys to be eligible for exception consideration. If the staffing hours per resident day for a facility declines from any quarter to another during the survey period, the facility must

provide sufficient information to the department to allow the department to determine if the staffing decrease was deliberate or a result of neglect, which is the lack of evidence demonstrating the facility's efforts to maintain or improve its staffing ratio. The burden of proof is on the facility and the determination of whether or not the decrease was deliberate or due to neglect is entirely at the discretion of the department. If the department determines a facility's decline was deliberate or due to neglect, that facility is not eligible for an exception consideration.

(iii) To determine eligibility for exception approval, the department shall review the plan of correction submitted by the facility. Before a facility's exception may be renewed, the department must determine that sufficient progress is being made towards reaching the 3.4 hours per resident day staffing requirement. When reviewing whether to grant or renew an exception, the department must consider factors including but not limited to: Financial incentives offered by the facilities such as recruitment bonuses and other incentives; the robustness of the recruitment process; county employment data; specific steps the facility has undertaken to improve retention; improvements in the staffing ratio compared to the baseline established in the surveys and whether this trend is continuing; and compliance with the process of submitting staffing data, adherence to the plan of correction, and any progress toward meeting this plan, as determined by the department.

(iv) Only facilities that have their direct care component rate increase capped according to RCW 74.46.561 are eligible for exception consideration. Facilities that will have their direct care component rate increase capped for one or two years are eligible for exception consideration through June 30, 2017. Facilities that will have their direct care component rate increase capped for three years are eligible for exception consideration through June 30, 2018.

(v) The department may not grant or renew a facility's exception if the facility meets the 3.4 hours per resident day staffing requirement and subsequently drops below the 3.4 hours per resident day staffing requirement.

(vi) The department may grant exceptions for a six-month period per exception. The department's authority to grant exceptions to the 3.4 hours per resident day staffing requirement expires June 30, 2018.

(3)(a) Large nonessential community providers must have a registered nurse on duty directly supervising resident care twenty-four hours per day, seven days per week.

(b)(i) The department shall establish a limited exception process for large nonessential community providers that can demonstrate a good faith effort to hire a registered nurse for the last eight hours of required coverage per day. In granting an exception, the department may consider the competitiveness of the wages and benefits offered as compared to nursing facilities in comparable geographic or metropolitan areas within Washington state, the provider's recruitment and retention efforts, and the availability of registered nurses in the particular geographic area. A one-year exception may be granted and may be renewable; however, the department may limit the admission of new residents, based on medical conditions or complexities, when a registered nurse is not on-site and readily available. If a large nonessential community provider receives an exception, that information must be included in the department's nursing home locator.

(ii) By August 1, 2023, and every three years thereafter, the department, along with a stakeholder work group established by the department, shall conduct a review of the exceptions process to determine if it is still necessary. As part of this review, the department shall provide the legislature with a report that includes

enforcement and citation data for large nonessential community providers that were granted an exception in the three previous fiscal years in comparison to those without an exception. The report must include a similar comparison of data, provided to the department by the long-term care ombuds, on long-term care ombuds referrals for large nonessential community providers that were granted an exception in the three previous fiscal years and those without an exception. This report, along with a recommendation as to whether the exceptions process should continue, is due to the legislature by December 1st of each year in which a review is conducted. Based on the recommendations outlined in this report, the legislature may take action to end the exceptions process.

(4) Essential community providers and small nonessential community providers must have a registered nurse on duty directly supervising resident care a minimum of sixteen hours per day, seven days per week, and a registered nurse or a licensed practical nurse on duty directly supervising resident care the remaining eight hours per day, seven days per week.

(5) For the purposes of this section, "behavioral health condition" means one or more of the behavioral symptoms specified in section E of the minimum data set.

(6) If a pandemic, natural disaster, or other declared state of emergency impedes or prevents facilities from compliance with subsections (2) through (4) of this section, the department may adopt rules to grant exceptions to these requirements, waive penalties, and suspend oversight activities. Facilities must remain in compliance with subsection (1) of this section. Rules adopted under this subsection are effective until 12 months after the termination of the pandemic, natural disaster, or other declared state of emergency or until determined no longer necessary by the department, whichever occurs first. Once the department determines a rule adopted under this subsection is no longer necessary, it must repeal the rule under RCW 34.05.353.

Sec. 7. RCW 74.39A.074 and 2017 c 216 s 1 are each amended to read as follows:

(1)(a) Except for long-term care workers exempt from certification under RCW 18.88B.041(1)(a), all persons hired as long-term care workers must meet the minimum training requirements in this section within one hundred twenty calendar days after the date of being hired.

(b) Except as provided in RCW 74.39A.076, the minimum training requirement is seventy-five hours of entry-level training approved by the department. A long-term care worker must successfully complete five of these seventy-five hours before being eligible to provide care.

(c) Training required by (d) of this subsection applies toward the training required under RCW 18.20.270 or 70.128.230 or any statutory or regulatory training requirements for long-term care workers employed by community residential service businesses.

(d) The seventy-five hours of entry-level training required shall be as follows:

(i) Before a long-term care worker is eligible to provide care, he or she must complete:

(A) Two hours of orientation training regarding his or her role as caregiver and the applicable terms of employment; and

(B) Three hours of safety training, including basic safety precautions, emergency procedures, and infection control; and

(ii) Seventy hours of long-term care basic training, including training related to:

(A) Core competencies; and

(B) Population specific competencies, including identification of individuals with potential hearing loss and how to seek assistance if hearing loss is suspected.

(2) Only training curriculum approved by the department may be used to fulfill the training requirements specified in this section. The department shall only approve training curriculum that:

(a) Has been developed with input from consumer and worker representatives; and

(b) Requires comprehensive instruction by qualified instructors on the competencies and training topics in this section.

(3) Individual providers under RCW 74.39A.270 shall be compensated for training time required by this section.

(4) If a pandemic, natural disaster, or other declared state of emergency impacts the ability of long-term care workers to complete training as required by this section, the department may adopt rules to allow long-term care workers additional time to complete the training requirements.

(a) Rules adopted under this subsection (4) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all long-term care workers who were unable to complete the training required in subsection (1)(a) of this section have had adequate access to complete the required training, whichever is later. Once the department determines a rule adopted under this subsection (4) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of training compliance with subsection (1)(a) of this section and provide the legislature with a report.

(5) The department shall adopt rules to implement this section.

Sec. 8. RCW 74.39A.076 and 2019 c 363 s 19 are each amended to read as follows:

(1) Beginning January 7, 2012, except for long-term care workers exempt from certification under RCW 18.88B.041(1)(a):

(a) A biological, step, or adoptive parent who is the individual provider only for the person's developmentally disabled son or daughter must receive twelve hours of training relevant to the needs of adults with developmental disabilities within the first one hundred twenty days after becoming an individual provider.

(b) A spouse or registered domestic partner who is a long-term care worker only for a spouse or domestic partner, pursuant to the long-term services and supports trust program established in chapter 50B.04 RCW, must receive fifteen hours of basic training, and at least six hours of additional focused training based on the care-receiving spouse's or partner's needs, within the first one hundred twenty days after becoming a long-term care worker.

(c) A person working as an individual provider who (i) provides respite care services only for individuals with developmental disabilities receiving services under Title 71A RCW or only for individuals who receive services under this chapter, and (ii) works three hundred hours or less in any calendar year, must complete fourteen hours of training within the first one hundred twenty days after becoming an individual provider. Five of the fourteen hours must be completed before becoming eligible to provide care, including two hours of orientation training regarding the caregiving role and terms of employment and three hours of safety training. The training partnership identified in RCW 74.39A.360 must offer at least twelve of the fourteen hours online, and five of those online hours must be individually selected from elective courses.

(d) Individual providers identified in (d)(i) or (ii) of this subsection must complete thirty-five hours of training within the first one hundred twenty days after becoming an individual provider. Five of the thirty-five hours must be completed before

becoming eligible to provide care. Two of these five hours shall be devoted to an orientation training regarding an individual provider's role as caregiver and the applicable terms of employment, and three hours shall be devoted to safety training, including basic safety precautions, emergency procedures, and infection control. Individual providers subject to this requirement include:

(i) An individual provider caring only for the individual provider's biological, step, or adoptive child or parent unless covered by (a) of this subsection; and

(ii) A person working as an individual provider who provides twenty hours or less of care for one person in any calendar month.

(2) In computing the time periods in this section, the first day is the date of hire.

(3) Only training curriculum approved by the department may be used to fulfill the training requirements specified in this section. The department shall only approve training curriculum that:

(a) Has been developed with input from consumer and worker representatives; and

(b) Requires comprehensive instruction by qualified instructors.

(4) If a pandemic, natural disaster, or other declared state of emergency impacts the ability of long-term care workers to complete training as required by this section, the department may adopt rules to allow long-term care workers additional time to complete the training requirements.

(a) Rules adopted under this subsection (4) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all long-term care workers who were unable to complete the training required in subsection (1) of this section have had adequate access to complete the required training, whichever is later. Once the department determines a rule adopted under this subsection (4) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of training compliance with subsection (1) of this section and provide the legislature with a report.

(5) The department shall adopt rules to implement this section.

Sec. 9. RCW 74.39A.341 and 2015 c 152 s 3 are each amended to read as follows:

(1) All long-term care workers shall complete twelve hours of continuing education training in advanced training topics each year. This requirement applies beginning July 1, 2012.

(2) Completion of continuing education as required in this section is a prerequisite to maintaining home care aide certification under chapter 18.88B RCW.

(3) Unless voluntarily certified as a home care aide under chapter 18.88B RCW, subsection (1) of this section does not apply to:

(a) An individual provider caring only for his or her biological, step, or adoptive child;

(b) Registered nurses and licensed practical nurses licensed under chapter 18.79 RCW;

(c) Before January 1, 2016, a long-term care worker employed by a community residential service business;

(d) A person working as an individual provider who provides twenty hours or less of care for one person in any calendar month; or

(e) A person working as an individual provider who only provides respite services and works less than three hundred hours in any calendar year.

(4) Only training curriculum approved by the department may be used to fulfill the training requirements specified in this section. The department shall only approve training curriculum that:

(a) Has been developed with input from consumer and worker representatives; and

(b) Requires comprehensive instruction by qualified instructors.

(5) Individual providers under RCW 74.39A.270 shall be compensated for training time required by this section.

(6) If a pandemic, natural disaster, or other declared state of emergency impacts the ability of long-term care workers to complete training as required by this section, the department may adopt rules to allow long-term care workers additional time to complete the training requirements.

(a) Rules adopted under this subsection (6) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all long-term care workers who were unable to complete the training required in this section have had adequate access to complete the required training, whichever is later. Once the department determines a rule adopted under this subsection (6) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of training compliance with subsection (1) of this section and provide the legislature with a report.

(7) The department of health shall adopt rules to implement subsection (1) of this section.

~~((7))~~ (8) The department shall adopt rules to implement subsection (2) of this section.

Sec. 10. RCW 18.88B.021 and 2013 c 259 s 1 are each amended to read as follows:

(1) Beginning January 7, 2012, except as provided in RCW 18.88B.041, any person hired as a long-term care worker must be certified as a home care aide as provided in this chapter within two hundred calendar days after the date of ~~(being hired. In computing the time periods in this subsection, the first day is the date of)~~ hire, as defined by the department. The department may adopt rules determining under which circumstances a long-term care worker may have more than one date of hire, restarting the person's 200-day period to obtain certification as a home care aide.

(2)(a) No person may practice or, by use of any title or description, represent himself or herself as a certified home care aide without being certified as provided in this chapter.

(b) This section does not prohibit a person: (i) From practicing a profession for which the person has been issued a license or which is specifically authorized under this state's laws; or (ii) who is exempt from certification under RCW 18.88B.041 from providing services as a long-term care worker.

(c) In consultation with consumer and worker representatives, the department shall, by January 1, 2013, establish by rule a single scope of practice that encompasses both long-term care workers who are certified home care aides and long-term care workers who are exempted from certification under RCW 18.88B.041.

(3) If a pandemic, natural disaster, or other declared state of emergency impacts the ability of long-term care workers to complete certification as required by this section, the department may adopt rules to allow long-term care workers additional time to become certified.

(a) Rules adopted under this subsection (3) are effective until the termination of the pandemic, natural disaster, or other

declared state of emergency or until the department determines that additional time for long-term care workers to become certified is no longer necessary, whichever is later. Once the department determines a rule adopted under this subsection (3) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of certification compliance with subsection (1) of this section and rules adopted under this subsection (3) and provide the legislature with a report.

(4) The department shall adopt rules to implement this section.

Sec. 11. RCW 70.128.230 and 2019 c 466 s 5 are each amended to read as follows:

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Caregiver" includes all adult family home resident managers and any person who provides residents with hands-on personal care on behalf of an adult family home, except volunteers who are directly supervised.

(b) "Indirect supervision" means oversight by a person who has demonstrated competency in the core areas or has been fully exempted from the training requirements pursuant to this section and is quickly and easily available to the caregiver, but not necessarily on-site.

(2) Training must have three components: Orientation, basic training, and continuing education. All adult family home providers, resident managers, and employees, or volunteers who routinely interact with residents shall complete orientation. Caregivers shall complete orientation, basic training, and continuing education.

(3) Orientation consists of introductory information on residents' rights, communication skills, fire and life safety, and universal precautions. Orientation must be provided at the facility by appropriate adult family home staff to all adult family home employees before the employees have routine interaction with residents.

(4) Basic training consists of modules on the core knowledge and skills that caregivers need to learn and understand to effectively and safely provide care to residents. Basic training must be outcome-based, and the effectiveness of the basic training must be measured by demonstrated competency in the core areas through the use of a competency test. Basic training must be completed by caregivers within one hundred twenty days of the date on which they begin to provide hands-on care. Until competency in the core areas has been demonstrated, caregivers shall not provide hands-on personal care to residents without direct supervision.

(5) For adult family homes that serve residents with special needs such as dementia, developmental disabilities, or mental illness, specialty training is required of providers and resident managers.

(a) Specialty training consists of modules on the core knowledge and skills that providers and resident managers need to effectively and safely provide care to residents with special needs. Specialty training should be integrated into basic training wherever appropriate. Specialty training must be outcome-based, and the effectiveness of the specialty training measured by demonstrated competency in the core specialty areas through the use of a competency test.

(b) Specialty training must be completed by providers and resident managers before admitting and serving residents who have been determined to have special needs related to mental illness, dementia, or a developmental disability. Should a resident

develop special needs while living in a home without specialty designation, the provider and resident manager have one hundred twenty days to complete specialty training.

(6) Continuing education consists of ongoing delivery of information to caregivers on various topics relevant to the care setting and care needs of residents. Competency testing is not required for continuing education. Continuing education is not required in the same calendar year in which basic or modified basic training is successfully completed. Continuing education is required in each calendar year thereafter. If specialty training is completed, the specialty training applies toward any continuing education requirement for up to two years following the completion of the specialty training.

(7) Persons who successfully complete the competency challenge test for basic training are fully exempt from the basic training requirements of this section. Persons who successfully complete the specialty training competency challenge test are fully exempt from the specialty training requirements of this section.

(8)(a) Registered nurses and licensed practical nurses licensed under chapter 18.79 RCW are exempt from any continuing education requirement established under this section.

(b) The department may adopt rules that would exempt licensed persons from all or part of the training requirements under this chapter, if they are (i) performing the tasks for which they are licensed and (ii) subject to chapter 18.130 RCW.

(9) In an effort to improve access to training and education and reduce costs, especially for rural communities, the adult family home training network must include the use of innovative types of learning strategies such as internet resources, videotapes, and distance learning using satellite technology coordinated through community colleges, private associations, or other entities, as defined by the department.

(10) The adult family home training network shall assist adult family homes that desire to deliver facility-based training with facility designated trainers, or adult family homes that desire to pool their resources to create shared training systems. The department shall develop criteria for reviewing and approving trainers and training materials. The department may approve a curriculum based upon attestation by an adult family home administrator that the adult family home's training curriculum addresses basic and specialty training competencies identified by the department, and shall review a curriculum to verify that it meets these requirements. The department may conduct the review as part of the next regularly scheduled inspection authorized under RCW 70.128.070. The department shall rescind approval of any curriculum if it determines that the curriculum does not meet these requirements.

(11) The department shall adopt rules by September 1, 2002, for the implementation of this section.

(12)(a) Except as provided in (b) of this subsection, the orientation, basic training, specialty training, and continuing education requirements of this section commence September 1, 2002, and shall be applied to (i) employees hired subsequent to September 1, 2002; or (ii) existing employees that on September 1, 2002, have not successfully completed the training requirements under RCW 70.128.120 or 70.128.130 and this section. Existing employees who have not successfully completed the training requirements under RCW 70.128.120 or 70.128.130 shall be subject to all applicable requirements of this section.

(b) Beginning January 7, 2012, long-term care workers, as defined in RCW 74.39A.009, employed by an adult family home are also subject to the training requirements under RCW 74.39A.074.

(13) If a pandemic, natural disaster, or other declared state of emergency makes specialty training unavailable, the department may adopt rules to allow an adult family home where the provider and resident manager have not completed specialty training to admit a resident or residents with special needs related to mental illness, dementia, or a developmental disability, or to care for a resident or residents already living in the home who develop special needs. Such rules must include information about how to complete the specialty training once the training is available.

(a) Rules adopted under this subsection (13) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that providers and resident managers who were unable to complete the specialty training required in subsection (5)(b) of this section have had adequate access to complete the required training, whichever is later. Once the department determines a rule adopted under this subsection (13) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of training compliance with subsection (5)(b) of this section and provide the legislature with a report.

Sec. 12. RCW 18.20.270 and 2013 c 259 s 4 are each amended to read as follows:

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Caregiver" includes any person who provides residents with hands-on personal care on behalf of an assisted living facility, except volunteers who are directly supervised.

(b) "Direct supervision" means oversight by a person who has demonstrated competency in the core areas or has been fully exempted from the training requirements pursuant to this section, is on the premises, and is quickly and easily available to the caregiver.

(2) Training must have the following components: Orientation, basic training, specialty training as appropriate, and continuing education. All assisted living facility employees or volunteers who routinely interact with residents shall complete orientation. Assisted living facility administrators, or their designees, and caregivers shall complete orientation, basic training, specialty training as appropriate, and continuing education.

(3) Orientation consists of introductory information on residents' rights, communication skills, fire and life safety, and universal precautions. Orientation must be provided at the facility by appropriate assisted living facility staff to all assisted living facility employees before the employees have routine interaction with residents.

(4) Basic training consists of modules on the core knowledge and skills that caregivers need to learn and understand to effectively and safely provide care to residents. Basic training must be outcome-based, and the effectiveness of the basic training must be measured by demonstrated competency in the core areas through the use of a competency test. Basic training must be completed by caregivers within one hundred twenty days of the date on which they begin to provide hands-on care. Until competency in the core areas has been demonstrated, caregivers shall not provide hands-on personal care to residents without direct supervision. Assisted living facility administrators, or their designees, must complete basic training and demonstrate competency within one hundred twenty days of employment.

(5) For assisted living facilities that serve residents with special needs such as dementia, developmental disabilities, or mental illness, specialty training is required of administrators, or designees, and caregivers.

(a) Specialty training consists of modules on the core knowledge and skills that caregivers need to effectively and safely provide care to residents with special needs. Specialty training should be integrated into basic training wherever appropriate. Specialty training must be outcome-based, and the effectiveness of the specialty training measured by demonstrated competency in the core specialty areas through the use of a competency test.

(b) Specialty training must be completed by caregivers within one hundred twenty days of the date on which they begin to provide hands-on care to a resident having special needs. However, if specialty training is not integrated with basic training, the specialty training must be completed within ninety days of completion of basic training. Until competency in the core specialty areas has been demonstrated, caregivers shall not provide hands-on personal care to residents with special needs without direct supervision.

(c) Assisted living facility administrators, or their designees, must complete specialty training and demonstrate competency within one hundred twenty days from the date on which the administrator or his or her designee is hired, if the assisted living facility serves one or more residents with special needs.

(6) Continuing education consists of ongoing delivery of information to caregivers on various topics relevant to the care setting and care needs of residents. Competency testing is not required for continuing education. Continuing education is not required in the same calendar year in which basic or modified basic training is successfully completed. Continuing education is required in each calendar year thereafter. If specialty training is completed, the specialty training applies toward any continuing education requirement for up to two years following the completion of the specialty training.

(7) Persons who successfully challenge the competency test for basic training are fully exempt from the basic training requirements of this section. Persons who successfully challenge the specialty training competency test are fully exempt from the specialty training requirements of this section.

(8)(a) Registered nurses and licensed practical nurses licensed under chapter 18.79 RCW are exempt from any continuing education requirement established under this section.

(b) The department may adopt rules that would exempt licensed persons from all or part of the training requirements under this chapter, if they are (i) performing the tasks for which they are licensed and (ii) subject to chapter 18.130 RCW.

(9) In an effort to improve access to training and education and reduce costs, especially for rural communities, the coordinated system of long-term care training and education must include the use of innovative types of learning strategies such as internet resources, videotapes, and distance learning using satellite technology coordinated through community colleges or other entities, as defined by the department.

(10) The department shall develop criteria for the approval of orientation, basic training, and specialty training programs.

(11) Assisted living facilities that desire to deliver facility-based training with facility designated trainers, or assisted living facilities that desire to pool their resources to create shared training systems, must be encouraged by the department in their efforts. The department shall develop criteria for reviewing and approving trainers and training materials that are substantially similar to or better than the materials developed by the department. The department may approve a curriculum based upon attestation by an assisted living facility administrator that the assisted living facility's training curriculum addresses basic and specialty training competencies identified by the department, and shall review a curriculum to verify that it meets these

requirements. The department may conduct the review as part of the next regularly scheduled yearly inspection and investigation required under RCW 18.20.110. The department shall rescind approval of any curriculum if it determines that the curriculum does not meet these requirements.

(12) The department shall adopt rules for the implementation of this section.

(13)(a) Except as provided in (b) of this subsection, the orientation, basic training, specialty training, and continuing education requirements of this section commence September 1, 2002, or one hundred twenty days from the date of employment, whichever is later, and shall be applied to (i) employees hired subsequent to September 1, 2002; and (ii) existing employees that on September 1, 2002, have not successfully completed the training requirements under RCW 74.39A.010 or 74.39A.020 and this section. Existing employees who have not successfully completed the training requirements under RCW 74.39A.010 or 74.39A.020 shall be subject to all applicable requirements of this section.

(b) Beginning January 7, 2012, long-term care workers, as defined in RCW 74.39A.009, employed by facilities licensed under this chapter are also subject to the training requirements under RCW 74.39A.074.

(14) If a pandemic, natural disaster, or other declared state of emergency makes specialty training unavailable, the department may adopt rules to allow an assisted living facility where the administrator, designee, and caregiving staff have not completed specialty training to admit a resident or residents with special needs related to mental illness, dementia, or a developmental disability. Such rules must include information about how to complete the specialty training once the training is available.

(a) Rules adopted under this subsection (14) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that providers and resident managers who were unable to complete the specialty training required in subsection (5)(b) of this section have had adequate access to complete the required training, whichever is later. Once the department determines a rule adopted under this subsection (14) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of training compliance with subsection (5)(b) of this section and provide the legislature with a report.

Sec. 13. RCW 70.128.070 and 2011 1st sp.s. c 3 s 204 are each amended to read as follows:

(1) A license shall remain valid unless voluntarily surrendered, suspended, or revoked in accordance with this chapter.

(2)(a) Homes applying for a license shall be inspected at the time of licensure.

(b) Homes licensed by the department shall be inspected at least every eighteen months, with an annual average of fifteen months. However, an adult family home may be allowed to continue without inspection for two years if the adult family home had no inspection citations for the past three consecutive inspections and has received no written notice of violations resulting from complaint investigations during that same time period.

(c) The department may make an unannounced inspection of a licensed home at any time to assure that the home and provider are in compliance with this chapter and the rules adopted under this chapter.

(d) If a pandemic, natural disaster, or other declared state of emergency prevents the department from completing inspections according to the timeline in this subsection, the department shall adopt rules to reestablish inspection timelines based on the length of time since last inspection, compliance history of each facility, and immediate health or safety concerns.

(i) Rules adopted under this subsection (2)(d) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all facility inspections are occurring according to time frames established in (b) of this subsection, whichever is later. Once the department determines a rule adopted under this subsection (2)(d) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(ii) Within 12 months of the termination of the pandemic, natural disaster, or declared state of emergency, the department shall conduct a review of inspection compliance with (b) of this subsection and provide the legislature with a report.

(3) If the department finds that the home is not in compliance with this chapter, it shall require the home to correct any violations as provided in this chapter.

Sec. 14. RCW 70.97.160 and 2020 c 278 s 9 are each amended to read as follows:

(1) The department shall make or cause to be made at least one inspection of each facility prior to licensure and an unannounced full inspection of facilities at least once every eighteen months. The statewide average interval between full facility inspections must be fifteen months.

(2) Any duly authorized officer, employee, or agent of the department may enter and inspect any facility at any time to determine that the facility is in compliance with this chapter and applicable rules, and to enforce any provision of this chapter. Complaint inspections shall be unannounced and conducted in such a manner as to ensure maximum effectiveness. No advance notice shall be given of any inspection unless authorized or required by federal law.

(3) During inspections, the facility must give the department access to areas, materials, and equipment used to provide care or support to residents, including resident and staff records, accounts, and the physical premises, including the buildings, grounds, and equipment. The department has the authority to privately interview the provider, staff, residents, and other individuals familiar with resident care and service plans.

(4) Any public employee giving advance notice of an inspection in violation of this section shall be suspended from all duties without pay for a period of not less than five nor more than fifteen days.

(5) The department shall prepare a written report describing the violations found during an inspection, and shall provide a copy of the inspection report to the facility.

(6) The facility shall develop a written plan of correction for any violations identified by the department and provide a plan of correction to the department within ten working days from the receipt of the inspection report.

(7) If a pandemic, natural disaster, or other declared state of emergency prevents the department from completing inspections according to the timeline in this section, the department shall adopt rules to reestablish inspection timelines based on the length of time since last inspection, compliance history of each facility, and immediate health or safety concerns.

(a) Rules adopted under this subsection (7) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all facility inspections are occurring according to time frames

established in subsection (1) of this section, whichever is later. Once the department determines a rule adopted under this subsection (7) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of inspection compliance with subsection (1) of this section and provide the legislature with a report.

Sec. 15. RCW 18.20.110 and 2012 c 10 s 6 are each amended to read as follows:

(1) The department shall make or cause to be made, at least every eighteen months with an annual average of fifteen months, an inspection and investigation of all assisted living facilities. However, the department may delay an inspection to twenty-four months if the assisted living facility has had three consecutive inspections with no written notice of violations and has received no written notice of violations resulting from complaint investigation during that same time period. The department may at anytime make an unannounced inspection of a licensed facility to assure that the licensee is in compliance with this chapter and the rules adopted under this chapter. Every inspection shall focus primarily on actual or potential resident outcomes, and may include an inspection of every part of the premises and an examination of all records, methods of administration, the general and special dietary, and the stores and methods of supply; however, the department shall not have access to financial records or to other records or reports described in RCW 18.20.390. Financial records of the assisted living facility may be examined when the department has reasonable cause to believe that a financial obligation related to resident care or services will not be met, such as a complaint that staff wages or utility costs have not been paid, or when necessary for the department to investigate alleged financial exploitation of a resident. Following such an inspection or inspections, written notice of any violation of this law or the rules adopted hereunder shall be given to the applicant or licensee and the department. The department may prescribe by rule that any licensee or applicant desiring to make specified types of alterations or additions to its facilities or to construct new facilities shall, before commencing such alteration, addition, or new construction, submit plans and specifications therefor to the agencies responsible for plan reviews for preliminary inspection and approval or recommendations with respect to compliance with the rules and standards herein authorized.

(2) If a pandemic, natural disaster, or other declared state of emergency prevents the department from completing inspections according to the timeline in subsection (1) of this section, the department shall adopt rules to reestablish inspection timelines based on the length of time since last inspection, compliance history of each facility, and immediate health or safety concerns.

(a) Rules adopted under this subsection (2) are effective until the termination of the pandemic, natural disaster, or other declared state of emergency or until the department determines that all facility inspections are occurring according to time frames established in subsection (1) of this section, whichever is later. Once the department determines a rule adopted under this subsection (2) is no longer necessary, it must repeal the rule under RCW 34.05.353.

(b) Within 12 months of the termination of the pandemic, natural disaster, or other declared state of emergency, the department shall conduct a review of inspection compliance with subsection (1) of this section and provide the legislature with a report.

Sec. 16. RCW 18.88A.030 and 2010 c 169 s 4 are each amended to read as follows:

(1)(a) A nursing assistant may assist in the care of individuals as delegated by and under the direction and supervision of a licensed (registered) nurse or licensed practical nurse.

(b) A health care facility shall not assign a nursing assistant-registered to provide care until the nursing assistant-registered has demonstrated skills necessary to perform competently all assigned duties and responsibilities.

(c) Nothing in this chapter shall be construed to confer on a nursing assistant the authority to administer medication unless delegated as a specific nursing task pursuant to this chapter or to practice as a licensed (registered) nurse or licensed practical nurse as defined in chapter 18.79 RCW.

(2)(a) A nursing assistant employed in a nursing home must have successfully obtained certification through: (i) An approved training program and the competency evaluation within ~~((four months after the date of employment))~~ a period of time determined in rule by the commission; or (ii) alternative training and the competency evaluation prior to employment.

At least one option adopted by the commission must allow an applicant to take the competency evaluation if he or she:

(a)(i) Is a certified home care aide pursuant to chapter 18.88B RCW; or

(ii) Is a certified medical assistant pursuant to a certification program accredited by a national medical assistant accreditation organization and approved by the commission; and

(b) Has successfully completed at least twenty-four hours of training that the commission determines is necessary to provide training equivalent to approved training on topics not addressed in the training specified for certification as a home care aide or medical assistant, as applicable. In the commission's discretion, a portion of these hours may include clinical training.

~~(2)(a) ((By July 1, 2011, the))~~ The commission, in consultation with the secretary, the department of social and health services, and consumer, employer, and worker representatives, shall adopt rules to implement this section and to provide ~~((beginning January 1, 2012,))~~ for a program of credentialing reciprocity to the extent required by this section between home care aide and medical assistant certification and nursing assistant certification. ~~((By July 1, 2011, the))~~ The secretary shall also adopt such rules as may be necessary to implement this section and the credentialing reciprocity program.

HOUSE BILL NO. 1316, by Representatives Cody, Macri, Duerr, Santos, Bateman and Lekanoff

Concerning the hospital safety net assessment.

The measure was read the second time.

MOTION

Senator Rolfes moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 74.60.005 and 2019 c 318 s 1 are each amended to read as follows:

(1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby support additional payments to hospitals for medicaid services as specified in this chapter.

(2) The legislature finds that federal health care reform will result in an expansion of medicaid enrollment in this state and an increase in federal financial participation.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) To generate approximately one billion dollars per state fiscal biennium in new state and federal funds by disbursing all of that amount to pay for medicaid hospital services and grants to certified public expenditure and critical access hospitals, except costs of administration as specified in this chapter, in the form of additional payments to hospitals and managed care plans, which may not be a substitute for payments from other sources, but which include quality improvement incentive payments under RCW 74.09.611;

(c) To generate two hundred ninety-two million dollars per biennium during the ((2019-2021 and)) 2021-2023 and 2023-2025 biennia in new funds to be used in lieu of state general fund payments for medicaid hospital services;

(d) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the payments authorized by this chapter;

(e) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the rates the state paid for those services on July 1, 2015, as adjusted for current enrollment and utilization; and

(f) For each of the two biennia starting with fiscal year ((2020)) 2022 to generate:

(i) Four million dollars for new integrated evidence-based psychiatry residency program slots that did not receive state funding prior to 2016 at the integrated psychiatry residency program at the University of Washington; and

(ii) Eight million two hundred thousand dollars for family medicine residency program slots that did not receive state funding prior to 2016, as directed through the family medicine

residency network at the University of Washington, for slots where residents are employed by hospitals.

Sec. 2. RCW 74.60.020 and 2019 c 318 s 3 are each amended to read as follows:

(1) A dedicated fund is hereby established within the state treasury to be known as the hospital safety net assessment fund. The purpose and use of the fund shall be to receive and disburse funds, together with accrued interest, in accordance with this chapter. Moneys in the fund, including interest earned, shall not be used or disbursed for any purposes other than those specified in this chapter. Any amounts expended from the fund that are later recouped by the authority on audit or otherwise shall be returned to the fund.

(a) Any unexpended balance in the fund at the end of a fiscal year shall carry over into the following fiscal year or that fiscal year and the following fiscal year and shall be applied to reduce the amount of the assessment under RCW 74.60.050(1)(c).

(b) Any amounts remaining in the fund after July 1, ~~((2023))~~ 2025, shall be refunded to hospitals, pro rata according to the amount paid by the hospital since July 1, 2013, subject to the limitations of federal law.

(2) All assessments, interest, and penalties collected by the authority under RCW 74.60.030 and 74.60.050 shall be deposited into the fund.

(3) Disbursements from the fund are conditioned upon appropriation and the continued availability of other funds sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the levels the state paid for those services on July 1, 2015, as adjusted for current enrollment and utilization.

(a) Disbursements from the fund may be made only:

(a) To make payments to hospitals and managed care plans as specified in this chapter;

(b) To refund erroneous or excessive payments made by hospitals pursuant to this chapter;

(c) For one million dollars per biennium for payment of administrative expenses incurred by the authority in performing the activities authorized by this chapter;

(d) For two hundred ninety-two million dollars per biennium, to be used in lieu of state general fund payments for medicaid hospital services, provided that if the full amount of the payments required under RCW 74.60.120 and 74.60.130 cannot be distributed in a given fiscal year, this amount must be reduced proportionately;

(e) To repay the federal government for any excess payments made to hospitals from the fund if the assessments or payment increases set forth in this chapter are deemed out of compliance with federal statutes and regulations in a final determination by a court of competent jurisdiction with all appeals exhausted. In such a case, the authority may require hospitals receiving excess payments to refund the payments in question to the fund. The state in turn shall return funds to the federal government in the same proportion as the original financing. If a hospital is unable to refund payments, the state shall develop either a payment plan, or deduct moneys from future medicaid payments, or both;

(f) To pay an amount sufficient, when combined with the maximum available amount of federal funds necessary to provide a one percent increase in medicaid hospital inpatient rates to hospitals eligible for quality improvement incentives under RCW 74.09.611. By May 16, 2018, and by each May 16 thereafter, the authority, in cooperation with the department of health, must verify that each hospital eligible to receive quality improvement incentives under the terms of this chapter is in substantial compliance with the reporting requirements in RCW 43.70.052

and 70.01.040 for the prior period. For the purposes of this subsection, "substantial compliance" means, in the prior period, the hospital has submitted at least nine of the twelve monthly reports by the due date. The authority must distribute quality improvement incentives to hospitals that have met these requirements beginning July 1 of 2018 and each July 1 thereafter; and

(g) For each state fiscal year ~~((2020))~~ 2022 through ~~((2023))~~ 2025 to generate:

(i) Two million dollars for integrated evidence-based psychiatry residency program slots that did not receive state funding prior to 2016 at the integrated psychiatry residency program at the University of Washington; and

(ii) Four million one hundred thousand dollars for family medicine residency program slots that did not receive state funding prior to 2016, as directed through the family medicine residency network at the University of Washington, for slots where residents are employed by hospitals.

Sec. 3. RCW 74.60.090 and 2019 c 318 s 6 are each amended to read as follows:

(1) In each fiscal year commencing upon satisfaction of the applicable conditions in RCW 74.60.150(1), funds must be disbursed from the fund and the authority shall make grants to certified public expenditure hospitals, which shall not be considered payments for hospital services, as follows:

(a) University of Washington medical center: ~~((Ten million five hundred fifty five thousand dollars in state fiscal year 2020 and up))~~ Up to twelve million fifty-five thousand dollars in state fiscal year ((2021)) 2022 through ((2023)) 2025 paid as follows, except if the full amount of the payments required under RCW 74.60.120(1) and 74.60.130 cannot be distributed in a given fiscal year, the amounts in this subsection must be reduced proportionately:

(i) ~~((Four))~~ Five million ~~((four))~~ nine hundred fifty-five thousand dollars in state fiscal years ~~((2020))~~ 2022 through ~~((2023, except that from state fiscal year 2021 through 2023, if northwest hospital is ineligible to participate in this chapter as a prospective payment hospital, the amount per state fiscal year must be five million nine hundred fifty five thousand dollars))~~ 2025;

(ii) Two million dollars to integrated, evidence-based psychiatry residency program slots that did not receive state funding prior to 2016, at the integrated psychiatry residency program at the University of Washington; and

(iii) Four million one hundred thousand dollars to family medicine residency program slots that did not receive state funding prior to 2016, as directed through the family medicine residency network at the University of Washington, for slots where residents are employed by hospitals;

(b) Harborview medical center: Ten million two hundred sixty thousand dollars in each state fiscal year ~~((2020))~~ 2022 through ~~((2023))~~ 2025, except if the full amount of the payments required under RCW 74.60.120(1) and 74.60.130 cannot be distributed in a given fiscal year, the amounts in this subsection must be reduced proportionately;

(c) All other certified public expenditure hospitals: Five million six hundred fifteen thousand dollars in each state fiscal year ~~((2020))~~ 2022 through ~~((2023))~~ 2025, except if the full amount of the payments required under RCW 74.60.120(1) and 74.60.130 cannot be distributed in a given fiscal year, the amounts in this subsection must be reduced proportionately. The amount of payments to individual hospitals under this subsection must be determined using a methodology that provides each hospital with a proportional allocation of the group's total amount of medicaid and state children's health insurance program payments

determined from claims and encounter data using the same general methodology set forth in RCW 74.60.120 (3) and (4).

(2) Payments must be made quarterly, before the end of each quarter, taking the total disbursement amount and dividing by four to calculate the quarterly amount. The authority shall provide a quarterly report of such payments to the Washington state hospital association.

Sec. 4. RCW 74.60.901 and 2019 c 318 s 8 are each amended to read as follows:

This chapter expires July 1, (~~2023~~) 2025."

NEW SECTION. **Sec. 101.** (1) The legislature finds that:

(a) Nearly 6,000 Washington adults and children died by suicide in the last five years, according to the federal centers for disease control and prevention, tragically reflecting a state increase of 36 percent in the last 10 years.

(b) Suicide is now the single leading cause of death for Washington young people ages 10 through 24, with total deaths 22 percent higher than for vehicle crashes.

(c) Groups with suicide rates higher than the general population include veterans, American Indians/Alaska Natives, LGBTQ youth, and people living in rural counties across the state.

(d) More than one in five Washington residents are currently living with a behavioral health disorder.

(e) The COVID-19 pandemic has increased stressors and substance use among Washington residents.

(f) An improved crisis response system will reduce reliance on emergency room services and the use of law enforcement response to behavioral health crises and will stabilize individuals in the community whenever possible.

(g) To accomplish effective crisis response and suicide prevention, Washington state must continue its integrated approach to address mental health and substance use disorder in tandem under the umbrella of behavioral health disorders, consistently with chapter 71.24 RCW and the state's approach to integrated health care. This is particularly true in the domain of suicide prevention, because of the prevalence of substance use as both a risk factor and means for suicide.

(2) The legislature intends to:

(a) Establish crisis call center hubs and expand the crisis response system in a deliberate, phased approach that includes the involvement of partners from a range of perspectives to:

(i) Save lives by improving the quality of and access to behavioral health crisis services;

(ii) Further equity in addressing mental health and substance use treatment and assure a culturally and linguistically competent response to behavioral health crises;

(iii) Recognize that, historically, crisis response placed marginalized communities, including those experiencing behavioral health crises, at disproportionate risk of poor outcomes and criminal justice involvement;

(iv) Comply with the national suicide hotline designation act of 2020 and the federal communications commission's rules adopted July 16, 2020, to assure that all Washington residents receive a consistent and effective level of 988 suicide prevention and other behavioral health crisis response services no matter where they live, work, or travel in the state; and

(v) Provide higher quality support for people experiencing behavioral health crises through investment in new technology to create a crisis call center hub system to triage calls and link individuals to follow-up care.

(b) Make additional investments to enhance the crisis response system, including the expansion of crisis teams, to be known as mobile rapid response crisis teams, and deployment of a wide array of crisis stabilization services, such as 23-hour crisis stabilization units based on the living room model, crisis stabilization centers, short-term respite facilities, peer-run respite centers, and same-day walk-in behavioral health services. The overall crisis system shall contain components that operate like hospital emergency departments that accept all walk-ins and ambulance, fire, and police drop-offs. Certified peer counselors as well as peers in other roles providing support must be incorporated within the crisis system and along the continuum of crisis care.

NEW SECTION. Sec. 102. A new section is added to chapter 71.24 RCW to read as follows:

(1) Establishing the state crisis call center hubs and enhancing the crisis response system will require collaborative work between the department and the authority within their respective roles. The department shall have primary responsibility for establishing and designating the crisis call center hubs. The authority shall have primary responsibility for developing and implementing the crisis response system and services to support the work of the crisis call center hubs. In any instance in which one agency is identified as the lead, the expectation is that agency will be communicating and collaborating with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the call centers based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022, and an in-state call response rate of at least 95 percent by July 1, 2023. The funding level shall be determined by considering standards and cost per call predictions provided by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades.

(3) The department shall adopt rules by July 1, 2023, to establish standards for designation of crisis call centers as crisis call center hubs. The department shall collaborate with the authority and other agencies to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from the crisis response improvement strategy committee created in section 103 of this act.

(4) The department shall designate crisis call center hubs by July 1, 2024. The crisis call center hubs shall provide crisis intervention services, triage, care coordination, referrals, and connections to individuals contacting the 988 crisis hotline from any jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section.

(a) To be designated as a crisis call center hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract with the department to provide crisis call center hub services. The department may revoke the designation of any crisis call center hub that fails to substantially comply with the contract.

(b) The contracts entered by the department shall require designated crisis call center hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly skilled and trained clinical staff with at least a bachelors or masters level of education, as appropriate, who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peer counselors to provide follow-up and outreach to callers in distress as available. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline; and

(v) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority.

(c) The department shall incorporate recommendations from the crisis response improvement strategy committee created under section 103 of this act in its agreements with crisis call center hubs, as appropriate.

(5) The department shall develop a new technologically advanced behavioral health crisis call center system platform using technology demonstrated to be interoperable across crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, for use in crisis call center hubs designated by the department under subsection (4) of this section. This platform, which shall be fully funded by July 1, 2023, must include the capacity to receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future that promote access to the behavioral health crisis system. The platform must have the following capacities:

(a) To access real-time information relevant to the coordination of behavioral health crisis response services provided by the behavioral health integrated client reference system developed under subsection (7) of this section;

(b) Request deployment of appropriate crisis response services, which may include mobile rapid response crisis teams, coresponder teams, designated crisis responders, mobile integrated health teams, or community assistance referral and educational services programs under RCW 35.21.930, according to best practice guidelines established by the authority, and track local response through global positioning technology; and

(c) Track the outcome of the 988 call to enable appropriate follow up, cross-system coordination, and accountability, including as appropriate: (i) Any immediate services dispatched and reports generated from the encounter; (ii) the contents of the safety plan established for the caller; (iii) the next steps for the caller to follow in transition to noncrisis follow-up care, including a next-day appointment for callers experiencing urgent, symptomatic behavioral health care needs; and (iv) the means to verify and document whether the caller was successful in making the transition to appropriate noncrisis follow-up care indicated in

the safety plan for the person, to be completed either by the care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub.

(6) To implement this section the department shall collaborate with the state enhanced 911 coordination office, emergency management division, and military department to develop technology that is demonstrated to be interoperable between the 988 crisis hotline system and crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, as well as the national suicide prevention lifeline, to assure cohesive interoperability, develop training programs and operations for both 911 public safety telecommunicators and crisis line workers, develop suicide and other behavioral health crisis assessments and intervention strategies, and establish efficient and equitable access to resources via crisis hotlines.

(7) The authority shall develop a behavioral health integrated client reference system capable of providing system coordination information to crisis call center hubs and to other entities involved in behavioral health care, at a time to be determined by the crisis response improvement strategy committee created under section 103 of this act. The system must include the capacity to provide the following:

(a) Real-time bed availability for all behavioral health bed types, including but not limited to crisis stabilization services, triage facilities, psychiatric inpatient, substance use disorder inpatient, withdrawal management, peer-run respite centers, and crisis respite services, inclusive of both voluntary and involuntary beds, for use by crisis response workers, first responders, health care providers, and individuals in crisis;

(b) Real-time information relevant to the coordination of behavioral health crisis response services for a person, including the means to access: (i) Information about any less restrictive alternative treatment orders or mental health advance directives related to the person; and (ii) information necessary to enable the crisis call center hub to actively collaborate with primary care providers and behavioral health providers within managed care organizations, behavioral health administrative services organizations, and other health care payers to establish a safety plan for the person and provide the next steps for the person's transition to follow up noncrisis care. To establish information sharing guidelines that fulfill the intent of this section the authority shall consider input from the confidential information compliance and coordination subcommittee established under section 103 of this act;

(c) A means to facilitate actions to verify and document whether the person's transition to follow up noncrisis care was successful, to be performed by a care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub; and

(d) The means to provide geographically, culturally, and linguistically appropriate services to persons who are part of high-risk populations or otherwise have need of specialized services or accommodations, and to document these services or accommodations.

(8) The authority shall:

(a) Collaborate with county authorities and behavioral health administrative services organizations to develop procedures to

dispatch behavioral health crisis services in coordination with crisis call center hubs to effectuate the intent of this section;

(b) Establish formal agreements with managed care organizations and behavioral health administrative services organizations to provide for the services, capacities, and coordination necessary to effectuate the intent of this section, which shall include a requirement to arrange next-day appointments for persons contacting the 988 crisis hotline experiencing urgent, symptomatic behavioral health care needs with geographically, culturally, and linguistically appropriate primary care or behavioral health providers within the person's provider network, or, if uninsured, through the person's behavioral health administrative services organization;

(c) Create best practices guidelines by July 1, 2023, for deployment of appropriate and available crisis response services by crisis call center hubs to assist 988 hotline callers to minimize nonessential reliance on emergency room services and the use of law enforcement, considering input from relevant stakeholders and recommendations made by the crisis response improvement strategy committee created under section 103 of this act;

(d) Develop procedures to allow appropriate information sharing and communication between and across crisis and emergency response systems for the purpose of real-time crisis care coordination including, but not limited to, deployment of crisis and outgoing services, follow-up care, and linked, flexible services specific to crisis response; and

(e) Establish guidelines to appropriately serve high-risk populations who request crisis services. The authority shall design these guidelines to promote behavioral health equity for all populations with attention to circumstances of race, ethnicity, gender, socioeconomic status, sexual orientation, and geographic location, and include components such as training requirements for call response workers, policies for transferring such callers to an appropriate specialized center or subnetwork within or external to the national suicide prevention lifeline network, and procedures for referring persons who access the 988 crisis hotline to linguistically and culturally competent care.

NEW SECTION. Sec. 104. A new section is added to chapter 71.24 RCW to read as follows:

(1) The crisis response improvement strategy steering committee under section 103 of this act must monitor and make recommendations related to the funding of crisis response services out of the account created in section 205 of this act. The crisis response improvement strategy steering committee must analyze:

(a) The projected expenditures from the account created under section 205 of this act, taking into account call volume, utilization projections, and other operational impacts;

(b) The costs of providing statewide coverage of mobile rapid response crisis teams or other behavioral health first responder services recommended by the crisis response improvement strategy committee, based on 988 crisis hotline utilization and taking into account existing state and local funding;

(c) Potential options to reduce the tax imposed in section 202 of this act, given the expected level of costs related to infrastructure development and operational support of the 988 crisis hotline and crisis call center hubs; and

(d) The viability of providing funding for in-person mobile rapid response crisis services or other behavioral health first responder services recommended by the crisis response improvement strategy committee funded from the account created in section 205 of this act, given the expected revenues to the account and the level of expenditures required under (a) of this subsection.

(2) If the steering committee finds that funding in-person mobile rapid response crisis services or other behavioral health first responder services recommended by the crisis response improvement strategy committee is viable from the account given

the level of expenditures necessary to support the infrastructure development and operational support of the 988 crisis hotline and crisis call center hubs, the steering committee must analyze options for the location and composition of such services given need and available resources with the requirement that funds from the account supplement, not supplant, existing behavioral health crisis funding.

(3) The work of the steering committee under this section must be facilitated by the behavioral health institute at Harborview medical center through its contract with the office of financial management under section 103 of this act with assistance provided by staff from senate committee services, the office of program research, and the office of financial management.

(4) The steering committee shall submit preliminary recommendations to the governor and the appropriate policy and fiscal committees of the legislature by January 1, 2022, and final recommendations to the governor and the appropriate policy and fiscal committees of the legislature by January 1, 2023.

NEW SECTION. Sec. 105. A new section is added to chapter 71.24 RCW to read as follows:

(1) The department and authority shall provide an annual report regarding the usage of the 988 crisis hotline, call outcomes, and the provision of crisis services inclusive of mobile rapid response crisis teams and crisis stabilization services. The report shall be submitted to the governor and the appropriate committees of the legislature each November beginning in 2023. The report shall include information on the fund deposits and expenditures of the account created in section 205 of this act.

(2) The department and authority shall coordinate with the department of revenue, and any other agency that is appropriated funding under the account created in section 205 of this act, to develop and submit information to the federal communications commission required for the completion of fee accountability reports pursuant to the national suicide hotline designation act of 2020.

(3) The joint legislative audit and review committee shall schedule an audit to begin after the full implementation of this act, to provide transparency as to how funds from the statewide 988 behavioral health crisis response and suicide prevention line account have been expended, and to determine whether funds used to provide acute behavioral health, crisis outreach, and stabilization services are being used to supplement services identified as baseline services in the comprehensive analysis provided under section 103 of this act, or to supplant baseline services. The committee shall provide a report by November 1, 2027, which includes recommendations as to the adequacy of the funding provided to accomplish the intent of the act and any other recommendations for alteration or improvement.

NEW SECTION. Sec. 106. A new section is added to chapter 48.43 RCW to read as follows:

Health plans issued or renewed on or after January 1, 2023, must make next-day appointments available to enrollees experiencing urgent, symptomatic behavioral health conditions to receive covered behavioral health services. The appointment may be with a licensed provider other than a licensed behavioral health professional, as long as that provider is acting within their scope of practice. Need for urgent symptomatic care is associated with the presentation of behavioral health signs or symptoms that require immediate attention, but are not emergent.

NEW SECTION. Sec. 107. A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor shall appoint a 988 hotline and behavioral health crisis system coordinator to provide project coordination and oversight for the implementation and administration of the

988 crisis hotline, other requirements of this act, and other projects supporting the behavioral health crisis system. The coordinator shall:

(a) Oversee the collaboration between the department of health and the health care authority in their respective roles in supporting the crisis call center hubs and providing the necessary support services for 988 callers;

(b) Ensure coordination and facilitate communication between stakeholders such as crisis call center hub contractors, behavioral health administrative service organizations, county authorities, other crisis hotline centers, managed care organizations, and, in collaboration with the state enhanced 911 coordination office, with 911 emergency communications systems;

(c) Review the adequacy and consistency of training for crisis call center personnel and, in coordination with the state enhanced 911 coordination office, for 911 operators with respect to their interactions with the crisis hotline center;

(d) Review contractual agreements between the department of health and crisis call center hubs and between the health care authority and managed care organizations and behavioral health administrative services organizations to ensure adequate requirements are established to support the behavioral health crisis system; and

(e) Coordinate implementation of other behavioral health initiatives among state agencies and educational institutions, as appropriate, including coordination of data between agencies.

CRISIS CALL CENTER HUBS AND CRISIS SERVICES

NEW SECTION. Sec. 101. (1) The legislature finds that:

(a) Nearly 6,000 Washington adults and children died by suicide in the last five years, according to the federal centers for disease control and prevention, tragically reflecting a state increase of 36 percent in the last 10 years.

(b) Suicide is now the single leading cause of death for Washington young people ages 10 through 24, with total deaths 22 percent higher than for vehicle crashes.

(c) Groups with suicide rates higher than the general population include veterans, American Indians/Alaska Natives, LGBTQ youth, and people living in rural counties across the state.

(d) More than one in five Washington residents are currently living with a behavioral health disorder.

(e) The COVID-19 pandemic has increased stressors and substance use among Washington residents.

(f) An improved crisis response system will reduce reliance on emergency room services and the use of law enforcement response to behavioral health crises and will stabilize individuals in the community whenever possible.

(2) The legislature intends to:

(a) Establish crisis call center hubs and expand the crisis response system in a deliberate, phased approach that includes the involvement of partners from a range of perspectives to:

(i) Save lives by improving the quality of and access to behavioral health crisis services;

(ii) Further equity in addressing mental health and substance use treatment and assure a culturally and linguistically competent response to behavioral health crises;

(iii) Recognize that, historically, crisis response placed marginalized communities, including those experiencing behavioral health crises, at disproportionate risk of poor outcomes and criminal justice involvement;

(iv) Comply with the national suicide hotline designation act of 2020 and the federal communications commission's rules adopted July 16, 2020, to assure that all Washington residents receive a consistent and effective level of 988 suicide prevention and other

behavioral health crisis response services no matter where they live, work, or travel in the state; and

(v) Provide higher quality support for people experiencing behavioral health crises through investment in new technology to create a crisis call center hub system to triage calls and link individuals to follow-up care.

(b) Make additional investments to enhance the crisis response system, including the expansion of crisis teams, to be known as mobile rapid response crisis teams, and deployment of a wide array of crisis stabilization services, such as 23-hour crisis stabilization units based on the living room model, crisis stabilization centers, short-term respite facilities, peer-operated respite services, and same-day walk-in behavioral health services. The overall crisis system shall contain components that operate like hospital emergency departments that accept all walk-ins and ambulance, fire, and police drop-offs. The department shall have primary responsibility for establishing and designating the crisis call center hubs. The authority shall have primary responsibility for developing and implementing the crisis response system and services to support the work of the crisis call center hubs. In any instance in which one agency is identified as the lead, the expectation is that agency will be communicating and collaborating with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the call centers based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022, and an in-state call response rate of at least 95 percent by July 1, 2023. The funding level shall be determined by considering standards and cost per call predictions provided by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades.

(3) The department shall adopt rules by July 1, 2023, to establish standards for designation of crisis call centers as crisis call center hubs. The department shall collaborate with the authority and other agencies to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from the crisis response improvement strategy committee created in section 103 of this act.

(4) The department shall designate crisis call center hubs by July 1, 2024. The crisis call center hubs shall provide crisis intervention services, triage, care coordination, referrals, and connections to individuals contacting the 988 crisis hotline from any jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section.

(a) To be designated as a crisis call center hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract with the department

to provide crisis call center hub services. The department may revoke the designation of any crisis call center hub that fails to substantially comply with the contract.

(b) The contracts entered by the department shall require designated crisis call center hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly skilled and trained clinical staff with at least a bachelors or masters level of education, as appropriate, who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peers to provide follow-up and outreach to callers in distress as available and appropriate. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline; and

(v) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority.

(c) The department may incorporate recommendations from the crisis response improvement strategy committee created in section 103 of this act in its agreements with crisis call center hubs, as appropriate.

(5) The department shall, in collaboration with the authority, develop a new technologically advanced behavioral health crisis call center system platform for use in crisis call center hubs designated by the department under subsection (4) of this section, which shall be fully funded by July 1, 2023. The platform must include the capacity to:

(a) Receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future and promote access to the behavioral health crisis system;

(b) Access real-time information relevant to the coordination of behavioral health crisis response services from managed care organizations, behavioral health administrative services organizations, and other health care payers, including both primary care providers and behavioral health providers within managed care organization networks, to enable the crisis call center hubs to actively collaborate with these entities to provide for the care needs of the person contacting the 988 crisis hotline, according to formal agreements established by the authority. The information accessible to the platform must include comprehensive and up-to-date information about less restrictive alternative treatment orders and mental health advance directives;

(c) Deploy crisis response services, which may include mobile rapid response crisis teams, coresponder teams, mobile integrated health teams, or community assistance referral and educational services programs under RCW 35.21.930, according to best practice guidelines established by the authority, and track local response through global positioning technology;

(d) Use technology demonstrated to be interoperable across crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services;

(e) Arrange next-day appointments for persons experiencing urgent, symptomatic behavioral health care needs and follow-up services for other persons contacting the 988 crisis hotline with geographically, culturally, and linguistically appropriate primary care or behavioral health providers within the person's provider network, or, if uninsured, through the person's behavioral health administrative services organization;

(f) Track and provide real-time bed availability to crisis response workers and individuals in crisis for all behavioral health bed types, including crisis stabilization services, psychiatric inpatient, substance use disorder inpatient, withdrawal management, and peer crisis respite, including voluntary and involuntary beds; and

(g) Appropriately serve high-risk populations according to guidelines established by the authority. The authority shall design these guidelines to promote behavioral health equity for all populations with regard to circumstances of race, ethnicity, gender, socioeconomic status, sexual orientation, and geographic location, and include components such as training requirements, policies for transferring such callers to an appropriate specialized center or subnetwork within or external to the national suicide prevention lifeline network, and procedures for referring persons accessing the 988 crisis hotline to linguistically and culturally competent care.

(6) The authority, in consultation with the department, shall adopt rules necessary to implement this section. The rules must allow appropriate information sharing and communication between and across crisis and emergency response systems for the purpose of real-time crisis care coordination including, but not limited to, deployment of crisis and outgoing services, follow-up care, and linked, flexible services specific to crisis response.

(7) The department shall collaborate with the state enhanced 911 coordination office, emergency management division, and military department to develop technology that is demonstrated to be interoperable between the 988 crisis hotline system and crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, as well as the national suicide prevention lifeline, to assure cohesive interoperability, develop training programs and operations for both 911 public safety telecommunicators and crisis line workers, develop suicide and other behavioral health crisis assessments and intervention strategies, and establish efficient and equitable access to resources via crisis hotlines.

Strike everything after the enacting clause and insert the following:

"PART I

CRISIS CALL CENTER HUBS AND CRISIS SERVICES

NEW SECTION. Sec. 101. (1) The legislature finds that:

(a) Nearly 6,000 Washington adults and children died by suicide in the last five years, according to the federal centers for disease control and prevention, tragically reflecting a state increase of 36 percent in the last 10 years.

(b) Suicide is now the single leading cause of death for Washington young people ages 10 through 24, with total deaths 22 percent higher than for vehicle crashes.

(c) Groups with suicide rates higher than the general population include veterans, American Indians/Alaska Natives, LGBTQ youth, and people living in rural counties across the state.

(d) More than one in five Washington residents are currently living with a behavioral health disorder.

(e) The COVID-19 pandemic has increased stressors and substance use among Washington residents.

(f) An improved crisis response system will reduce reliance on emergency room services and the use of law enforcement response to behavioral health crises and will stabilize individuals in the community whenever possible.

(g) To accomplish effective crisis response and suicide prevention, Washington state must continue its integrated approach to address mental health and substance use disorder in tandem under the umbrella of behavioral health disorders, consistently with chapter 71.24 RCW and the state's approach to integrated health care. This is particularly true in the domain of suicide prevention, because of the prevalence of substance use as both a risk factor and means for suicide.

(2) The legislature intends to:

(a) Establish crisis call center hubs and expand the crisis response system in a deliberate, phased approach that includes the involvement of partners from a range of perspectives to:

(i) Save lives by improving the quality of and access to behavioral health crisis services;

(ii) Further equity in addressing mental health and substance use treatment and assure a culturally and linguistically competent response to behavioral health crises;

(iii) Recognize that, historically, crisis response placed marginalized communities, including those experiencing behavioral health crises, at disproportionate risk of poor outcomes and criminal justice involvement;

(iv) Comply with the national suicide hotline designation act of 2020 and the federal communications commission's rules adopted July 16, 2020, to assure that all Washington residents receive a consistent and effective level of 988 suicide prevention and other behavioral health crisis response services no matter where they live, work, or travel in the state; and

(v) Provide higher quality support for people experiencing behavioral health crises through investment in new technology to create a crisis call center hub system to triage calls and link individuals to follow-up care.

(b) Make additional investments to enhance the crisis response system, including the expansion of crisis teams, to be known as mobile rapid response crisis teams, and deployment of a wide array of crisis stabilization services, such as 23-hour crisis stabilization units based on the living room model, crisis stabilization centers, short-term respite facilities, peer-run respite centers, and same-day walk-in behavioral health services. The overall crisis system shall contain components that operate like hospital emergency departments that accept all walk-ins and ambulance, fire, and police drop-offs. Certified peer counselors as well as peers in other roles providing support must be incorporated within the crisis system and along the continuum of crisis care.

NEW SECTION. Sec. 102. A new section is added to chapter 71.24 RCW to read as follows:

(1) Establishing the state crisis call center hubs and enhancing the crisis response system will require collaborative work between the department and the authority within their respective roles. The department shall have primary responsibility for establishing and designating the crisis call center hubs. The authority shall have primary responsibility for developing and implementing the crisis response system and services to support the work of the crisis call center hubs. In any instance in which one agency is identified as the lead, the expectation is that agency will be communicating and collaborating with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the call centers based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022, and an in-state call response rate of at least 95 percent by July 1, 2023. The funding level shall be determined by considering standards and cost per call predictions provided by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades.

(3) The department shall adopt rules by July 1, 2023, to establish standards for designation of crisis call centers as crisis call center hubs. The department shall collaborate with the authority and other agencies to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from the crisis response improvement strategy committee created in section 103 of this act.

(4) The department shall designate crisis call center hubs by July 1, 2024. The crisis call center hubs shall provide crisis intervention services, triage, care coordination, referrals, and connections to individuals contacting the 988 crisis hotline from any jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section.

(a) To be designated as a crisis call center hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract to provide crisis call center hub services. The department may revoke the designation of any crisis call center hub that fails to substantially comply with the contract.

(b) The contracts entered shall require designated crisis call center hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly skilled and trained clinical staff with at least a bachelors or masters level of education, as appropriate, who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peer counselors to provide follow-up and outreach to callers in distress as available. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline; and

(v) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority.

(c) The department and the authority shall incorporate recommendations from the crisis response improvement strategy committee created under section 103 of this act in its agreements with crisis call center hubs, as appropriate.

(5) The department and authority must coordinate to develop the technology and platforms necessary to manage and operate the behavioral health crisis response and suicide prevention system. The technologies developed must include:

(a) A new technologically advanced behavioral health and suicide prevention crisis call center system platform using technology demonstrated to be interoperable across crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, emergency departments, and other nonbehavioral health crisis services, for use in crisis call center hubs designated by the department under subsection (4) of this section. This platform, which shall be fully funded by July 1, 2023, shall be developed by the department and must include the capacity to receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future that promote access to the behavioral health crisis system; and

(b) A behavioral health integrated client referral system capable of providing system coordination information to crisis call center hubs and the other entities involved in behavioral health care. This system shall be developed by the authority.

(6) In developing the new technologies under subsection (5) of this section, the department and the authority must coordinate to designate a primary technology system to provide each of the following:

(a) Access to real-time information relevant to the coordination of behavioral health crisis response services;

(b) The means to request deployment of appropriate crisis response services, which may include mobile rapid response crisis teams, co-responder teams, designated crisis responders, fire department mobile integrated health teams, or community assistance referral and educational services programs under RCW

35.21.930, according to best practice guidelines established by the authority, and track local response through global positioning technology; and

(c) The means to track the outcome of the 988 call to enable appropriate follow up, cross-system coordination, and accountability, including as appropriate: (i) Any immediate services dispatched and reports generated from the encounter; (ii) the validation of a safety plan established for the caller in accordance with best practices; (iii) the next steps for the caller to follow in transition to noncrisis follow-up care, including a next-day appointment for callers experiencing urgent, symptomatic behavioral health care needs; and (iv) the means to verify and document whether the caller was successful in making the transition to appropriate noncrisis follow-up care indicated in the safety plan for the person, to be completed either by the care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub;

(d) Real-time bed availability for all behavioral health bed types, including but not limited to crisis stabilization services, triage facilities, psychiatric inpatient, substance use disorder inpatient, withdrawal management, peer-run respite centers, and crisis respite services, inclusive of both voluntary and involuntary beds, for use by crisis response workers, first responders, health care providers, and individuals in crisis;

(e) Real-time information relevant to the coordination of behavioral health crisis response services for a person, including the means to access: (i) Information about any less restrictive alternative treatment orders or mental health advance directives related to the person; and (ii) information necessary to enable the crisis call center hub to actively collaborate with primary care providers and behavioral health providers within managed care organizations, behavioral health administrative services organizations, and other health care payers to establish a safety plan for the person and provide the next steps for the person's transition to follow up noncrisis care. To establish information sharing guidelines that fulfill the intent of this section the authority shall consider input from the confidential information compliance and coordination subcommittee established under section 103 of this act;

(f) A means to facilitate actions to verify and document whether the person's transition to follow up noncrisis care was completed and services offered, to be performed by a care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub;

(g) The means to provide geographically, culturally, and linguistically appropriate services to persons who are part of high-risk populations or otherwise have need of specialized services or accommodations, and to document these services or accommodations; and

(h) When appropriate, consultation with tribal governments to ensure coordinated care in government-to-government relationships, and access to dedicated services to tribal members.

(7) To implement this section the department and the authority shall collaborate with the state enhanced 911 coordination office, emergency management division, and military department to develop technology that is demonstrated to be interoperable between the 988 crisis hotline system and crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral

health crisis services, as well as the national suicide prevention lifeline, to assure cohesive interoperability, develop training programs and operations for both 911 public safety telecommunicators and crisis line workers, develop suicide and other behavioral health crisis assessments and intervention strategies, and establish efficient and equitable access to resources via crisis hotlines.

(8) The authority shall:

(a) Collaborate with county authorities and behavioral health administrative services organizations to develop procedures to dispatch behavioral health crisis services in coordination with crisis call center hubs to effectuate the intent of this section;

(b) Establish formal agreements with managed care organizations and behavioral health administrative services organizations to provide for the services, capacities, and coordination necessary to effectuate the intent of this section, which shall include a requirement to arrange next-day appointments for persons contacting the 988 crisis hotline experiencing urgent, symptomatic behavioral health care needs with geographically, culturally, and linguistically appropriate primary care or behavioral health providers within the person's provider network, or, if uninsured, through the person's behavioral health administrative services organization;

(c) Create best practices guidelines by July 1, 2023, for deployment of appropriate and available crisis response services by crisis call center hubs to assist 988 hotline callers to minimize nonessential reliance on emergency room services and the use of law enforcement, considering input from relevant stakeholders and recommendations made by the crisis response improvement strategy committee created under section 103 of this act;

(d) Develop procedures to allow appropriate information sharing and communication between and across crisis and emergency response systems for the purpose of real-time crisis care coordination including, but not limited to, deployment of crisis and outgoing services, follow-up care, and linked, flexible services specific to crisis response; and

(e) Establish guidelines to appropriately serve high-risk populations who request crisis services. The authority shall design these guidelines to promote behavioral health equity for all populations with attention to circumstances of race, ethnicity, gender, socioeconomic status, sexual orientation, and geographic location, and include components such as training requirements for call response workers, policies for transferring such callers to an appropriate specialized center or subnetwork within or external to the national suicide prevention lifeline network, and procedures for referring persons who access the 988 crisis hotline to linguistically and culturally competent care.

(2) If the steering committee finds that funding in-person mobile rapid response crisis services or other behavioral health first responder services recommended by the crisis response improvement strategy committee is viable from the account given the level of expenditures necessary to support the infrastructure development and operational support of the 988 crisis hotline and crisis call center hubs, the steering committee must analyze options for the location and composition of such services given need and available resources with the requirement that funds from the account supplement, not supplant, existing behavioral health crisis funding.

used to provide acute behavioral health, crisis outreach, and stabilization services are being used to supplement services identified as baseline services in the comprehensive analysis provided under section 103 of this act, or to supplant baseline services. MESSAGE FROM THE HOUSE

April 8, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5160 with the following amendment(s): 5160-S2.E AMH ENGR H1400.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the COVID-19 pandemic is causing a sustained global economic slowdown, and an economic downturn throughout Washington state with unprecedented numbers of layoffs and reduced work hours for a significant percentage of our workforce. Many of the state's workforce has been impacted by these layoffs and substantially reduced work hours and have suffered economic hardship, disproportionately affecting low and moderate-income workers resulting in lost wages and the inability to pay for basic

household expenses, including rent. Hundreds of thousands of tenants in Washington are unable to consistently pay their rent, reflecting the continued financial precariousness of many renters in the state. Before the COVID-19 pandemic, nonpayment of rent was the leading cause of evictions within the state. Because the COVID-19 pandemic has led to an inability for tenants to consistently pay rent, the likelihood of evictions has increased, as well as life, health, and safety risks to a significant percentage of the state's tenants. As a result, the governor has issued a temporary moratorium on evictions as of March 2020, with multiple extensions and other related actions, to reduce housing instability and enable tenants to stay in their homes.

Therefore, it is the intent of the legislature with this act to increase tenant protections during the public health emergency, provide legal representation for qualifying tenants in eviction cases, establish an eviction resolution pilot program to address nonpayment of rent eviction cases before any court filing, and ensure tenants and landlords have adequate opportunities to access state and local rental assistance programs to reimburse landlords for unpaid rent and preserve tenancies.

NEW SECTION. Sec. 2. A new section is added to chapter 59.18 RCW to read as follows:

The definitions in this section apply to sections 3 and 4 of this act unless the context clearly requires otherwise.

(1) "Dwelling unit" has the same meaning as defined in RCW 59.18.030, and includes a manufactured/mobile home or a mobile home lot as defined in RCW 59.20.030.

(2) "Eviction moratorium" refers to the governor of the state of Washington's proclamation 20-19.6, proclaiming a moratorium on certain evictions for all counties throughout Washington state on March 18, 2021.

(3) "Landlord" has the same meaning as defined in RCW 59.18.030 and 59.20.030.

(4) "Prospective landlord" has the same meaning as defined in RCW 59.18.030.

(5) "Public health emergency" refers to the governor of the state of Washington's proclamation 20-05, proclaiming a state of emergency for all counties throughout Washington state on February 29, 2020, and any subsequent orders extending or amending such proclamation due to COVID-19 until the proclamation expires or is terminated by the governor of the state of Washington.

(6) "Rent" has the same meaning as defined in RCW 59.18.030.

(7) "Tenant" refers to any individual renting a dwelling unit or lot primarily for living purposes, including any individual with a tenancy subject to this chapter or chapter 59.20 RCW or any individual residing in transient lodging, such as a hotel or motel or camping area as their primary dwelling, for 30 days or more prior to March 1, 2020. "Tenant" does not include any individual residing in a hotel or motel or camping area as their primary dwelling for more than 30 days after March 1, 2020, if the hotel or motel or camping area has provided the individual with a seven-day eviction notice, which must include the following language: "For no-cost legal assistance, please call 2-1-1 or the Northwest Justice Project CLEAR Hotline outside King County (888) 201-1014 weekdays between 9:15 a.m. – 12:15 p.m., or (888) 387-7111 for seniors (age 60 and over). You may find additional resource information at <http://www.washingtonlawhelp.org>." "Tenant" also does not include occupants of homeless mitigation sites or a person entering onto land without permission of the landowner or lessor. For purposes of this subsection, any local government provision of solid waste or hygiene services to unsanctioned encampments does not constitute permission to occupy land.

TENANT PROTECTIONS

NEW SECTION. Sec. 3. A new section is added to chapter 59.18 RCW to read as follows:

(1) A landlord may not charge or impose any late fees or other charges against any tenant for the nonpayment of rent that became due between March 1, 2020, and six months following the expiration of the eviction moratorium.

(2) For rent that accrued between March 1, 2020, and the six months following the expiration of the eviction moratorium expiration date:

(a) A landlord may not report to a prospective landlord:

(i) A tenant's nonpayment of rent that accrued between March 1, 2020, and the six months following the expiration of the eviction moratorium; or

(ii) An unlawful detainer action pursuant to RCW 59.12.030(3) that resulted from a tenant's nonpayment of rent between March 1, 2020, and the six months following the expiration of the eviction moratorium.

(b) A prospective landlord may not take an adverse action based on a prospective tenant's nonpayment of rent that occurred between March 1, 2020, and the six months following the expiration of the eviction moratorium.

(3)(a) A landlord or prospective landlord may not deny, discourage application for, or otherwise make unavailable any rental dwelling unit based on a tenant's or prospective tenant's medical history including, but not limited to, the tenant's or prospective tenant's prior or current exposure or infection to the COVID-19 virus.

(b) A landlord or prospective landlord may not inquire about, consider, or require disclosure of a tenant's or prospective tenant's medical records or history, unless such disclosure is necessary to evaluate a reasonable accommodation request or reasonable modification request under RCW 49.60.222.

(4) A landlord or prospective landlord in violation of this section is liable in a civil action for up to two and one-half times the monthly rent of the real property at issue, as well as court costs and reasonable attorneys' fees. A court must impose this penalty in an amount necessary to deter future violations, payable to the tenant bringing the action.

REPAYMENT PLANS

NEW SECTION. Sec. 4. A new section is added to chapter 59.18 RCW to read as follows:

(1) The eviction moratorium instituted by the governor of the state of Washington's proclamation 20-19.6 shall end on June 30, 2021.

(2) If a tenant has remaining unpaid rent that accrued between March 1, 2020, and six months following the expiration of the eviction moratorium or the end of the public health emergency, whichever is greater, the landlord must offer the tenant a reasonable schedule for repayment of the unpaid rent that does not exceed monthly payments equal to one-third of the monthly rental charges during the period of accrued debt. If a tenant fails to accept the terms of a reasonable repayment plan within 14 days of the landlord's offer, the landlord may proceed with an unlawful detainer action as set forth in RCW 59.12.030(3) but subject to any requirements under the eviction resolution pilot program established under section 7 of this act. If the tenant defaults on any rent owed under a repayment plan, the landlord may apply for reimbursement from the landlord mitigation program as authorized under RCW 43.31.605(1)(d) or proceed with an unlawful detainer action as set forth in RCW 59.12.030(3) but subject to any requirements under the eviction resolution pilot program established under section 7 of this act. The court must consider the tenant's circumstances, including decreased income

or increased expenses due to COVID-19, and the repayment plan terms offered during any unlawful detainer proceeding.

(3) Any repayment plan entered into under this section must:

(a) Not require payment until 30 days after the repayment plan is offered to the tenant;

(b) Cover rent only and not any late fees, attorneys' fees, or any other fees and charges;

(c) Allow for payments from any source of income as defined in RCW 59.18.255(5) or from pledges by nonprofit organizations, churches, religious institutions, or governmental entities; and

(d) Not include provisions or be conditioned on: The tenant's compliance with the rental agreement, payment of attorneys' fees, court costs, or other costs related to litigation if the tenant defaults on the rental agreement; a requirement that the tenant apply for governmental benefits or provide proof of receipt of governmental benefits; or the tenant's waiver of any rights to a notice under RCW 59.12.030 or related provisions before a writ of restitution is issued.

(4) It is a defense to an eviction under RCW 59.12.030(3) that a landlord did not offer a repayment plan in conformity with this section.

(5) To the extent available funds exist for rental assistance from a federal, state, local, private, or nonprofit program, the tenant or landlord may continue to seek rental assistance to reduce and/or eliminate the unpaid rent balance.

Sec. 5. RCW 43.31.605 and 2020 c 315 s 8 and 2020 c 169 s 2 are each reenacted and amended to read as follows:

(1)(a) Subject to the availability of funds for this purpose, the landlord mitigation program is created and administered by the department. The department shall have such rule-making authority as the department deems necessary to administer the program.

(b) The following types of claims related to landlord mitigation for renting private market rental units to low-income tenants using a housing subsidy program are eligible for reimbursement from the landlord mitigation program account:

(iii) When a landlord has been reimbursed pursuant to this subsection (1)(c), the tenant for whom payment was made shall reimburse the department by depositing the amount disbursed from the landlord mitigation program account into the court registry of the superior court in which the judgment was entered. The tenant or other interested party may seek an ex parte order of the court under the unlawful detainer action to order such funds to be disbursed by the court. Upon entry of the order, the court clerk shall disburse the funds and include a case number with any payment issued to the department. If directed by the court, a clerk shall issue any payments made by a tenant to the department without further court order.

(iv) The department may deny an application made by a tenant who has failed to reimburse the department for prior payments issued pursuant to this subsection (1)(c).

(v) With any disbursement from the account to the landlord, the department shall notify the tenant at the address provided within the application that a disbursement has been made to the landlord on the tenant's behalf and that failure to reimburse the account for the payment through the court registry may result in a denial of a future application to the account pursuant to this subsection (1)(c). The department may include any other additional information about how to reimburse the account it deems necessary to fully inform the tenant.

(vi) The department's duties with respect to obtaining reimbursement from the tenant to the account are limited to those specified within this subsection (1)(c).

(vii) If at any time funds do not exist in the landlord mitigation program account to reimburse claims submitted under this subsection (1)(c), the department must create and maintain a waitlist and distribute funds in the order the claims are received pursuant to subsection (6) of this section. Payment of any claims on the waitlist shall be made only from the landlord mitigation program account. The department shall not be civilly or criminally liable and may not have any penalty or cause of action of any nature arise against it regarding the provision or lack of provision of funds for reimbursement.

(4) Claims pursuant to subsection (1)(b) of this section related to a tenancy must total at least five hundred dollars in order for a claim to be eligible for reimbursement from the program.
