State funds used for the purpose described in this subsection must not compromise fully complying with the court injunction by 2030.

(b) The department shall coordinate with the Brian Abbott fish passage barrier removal board and local governments to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts.

(3)(a) \$10,000,000 of the move ahead WA state—appropriation is provided solely for the stormwater retrofits and improvements project (L4000040). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$500,000,000 for this project.

The legislature finds that the replacement of the I-5 Columbia River Bridge is a project of national significance and is critical for the movement of freight. One span is now 104 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging Interstate Bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods and services is a high priority. Therefore, the legislature intends to support the replacement of the I-5 Columbia River Bridge with an investment of \$1,000,000,000 over the 16-year move ahead WA investment program.

(6) \$5,000,000 of the move ahead WA flexible account-state appropriation is provided solely for railroad crossing grant awards which match federal funds for city and county projects which eliminate at-grade highway-rail crossings.

(7) It is the intent of the legislature that \$25,000,000 will be provided as part of the move ahead WA investment package in a future biennium, as indicated on the list identified in subsection (1) of this section, for the Ballard and Magnolia bridge project (L4000123). As part of the project, the Seattle department of transportation (SDOT) must consult with an independent engineering firm to verify that the costs for the type, size, and location preliminary design report (TS&L), environmental impact statement (EIS), and 60 percent design work are within industry cost range standards in advance of moving forward with construction. SDOT must ensure that funds are maximized by limiting the percentage for TS&L, EIS, and 60 percent design work to 10 percent of the total cost of the project. Of the \$25,000,000, \$12,500,000 must remain in unallotted status, and may be distributed to SDOT only upon determination by the office of financial management that SDOT's cost estimates have been verified by an independent engineering firm as within industry cost range standards, and SDOT has secured the additional matching funding needed to complete the TS&L, EIS, and 60 percent design work.

(8)(a) It is the intent of the legislature, over the first five years of the move ahead WA program, that \$50,000,000 will be provided to SDOT to implement Aurora Avenue North Safety

Improvements (L4000154). Under this program, SDOT will be required to implement strategic transportation investments for the Aurora Ave N Corridor from N 90th St to N 105th St that ensure slow vehicle speeds, walkability, multimodal mobility, safe routes to local schools, and safety for residents, which will demonstrate the benefits of similar transportation investments for other locations along Aurora Avenue and elsewhere. SDOT must convene a neighborhood oversight board consisting of residents of communities of the Aurora Ave N Corridor to prioritize investments and monitor project implementation. The oversight board should be composed of an equitable representation of local communities along the Aurora Ave N Corridor, including residents with disabilities. SDOT will ensure that the oversight board is consulted on a bimonthly basis during the prioritization process.

(b) The legislature intends, upon completion of the State Route 99/Aurora Avenue North Planning Study, that projects recommended in the study will be funded by this program. A specific focus must be on access management to consolidate driveways and improve safety for vulnerable users. This work must also include installation of full curb and sidewalks to improve safety, mobility, transit ridership, equity, and work towards the goals set forth in vision zero, target zero, and the Washington state active transportation plan. SDOT must ensure the design and implementation of an accessible sidewalk network to support users with mobility limitations, convenient and accessible transit stops, all-ages-and-abilities bicycle facilities, and safe pedestrian-activated crosswalks that puts safety over speed, balances the needs of different modes, reduces the level of traffic stress experienced by pedestrians and cyclists, connects to existing bicycle and transit networks, creates safe walking and bicycling routes to local schools including crosswalks, improves human and environmental health, and supports the surrounding neighborhoods. SDOT must coordinate with the Washington state department of transportation and King county metro in implementing the investments. SDOT must ensure that funds are maximized by limiting the percentage for planning, predesign, design, permitting, and

environmental review to 10 percent of the total cost of each project.

(c) The legislature intends that all Aurora Avenue North Safety Improvement projects funded in this program be completed by December 31, 2029, and that no funds may be expended for this purpose after this date.

THIRD READING

Madame Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2124 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature intends to create the office of state legislative labor relations for the purposes of considering and managing the unique issues raised by legislative collective bargaining. By examining issues set forth in section 2 of this act, the office will provide the legislature with a fuller understanding of how the legislature as an employer can best implement legislation for collective bargaining for legislative employees, which would be administered by the public employment relations commission.

NEW SECTION. **Sec. 2.** (1) The office of state legislative labor relations is created to assist the house of representatives, the senate, and legislative agencies in implementing and managing the process of collective bargaining for employees of the legislative branch of state government.

(2)(a) Subject to (b) of this subsection, the secretary of the senate and the chief clerk of the house of representatives shall employ a director of the office. The director serves at the pleasure of the secretary of the senate and the chief clerk of the house of representatives, who shall fix the director's salary.

(b) The secretary of the senate and the chief clerk of the house of representatives shall, before employing a director, consult with legislative employees, the senate facilities and operations committee, the house executive rules committee, and the human resources officers of the house of representatives, the senate, and legislative agencies.

(c) The director serves as the executive and administrative head of the office and may employ additional employees to assist in carrying out the duties of the office. The duties of the office include, but are not limited to,

conducting negotiations on behalf of the employer.

(d) The director shall contract with an external consultant for the purposes of gathering input from legislative employees, taking into consideration RCW 42.52.020 and rules of the house of representatives and the senate. The gathering of input must be in the form of, at a minimum, surveys.

(3) The director, in consultation with the secretary of the senate, the chief clerk of the house of representatives, and the administrative heads of legislative agencies shall:

(a) Examine issues related to collective bargaining for employees of the house of representatives, the senate, and legislative agencies; and

(b) After consultation with the external consultant, develop best practices and options for the legislature to consider in implementing and administering collective bargaining for employees of the house of representatives, the senate, and legislative agencies.

(4)(a) By December 1, 2022, the director shall submit a preliminary report to the appropriate committees of the legislature that provides a progress report on the director's considerations.

(b) By October 1, 2023, the director shall submit a final report to the appropriate committees of the legislature. At a minimum, the final report must address considerations on the following issues:

(i) Which employees of the house of representatives, the senate, and legislative agencies for whom collective bargaining may be appropriate;

(ii) Mandatory, permissive, and prohibited subjects of bargaining;

(iii) Who would negotiate on behalf of the house of representatives, the senate, and legislative agencies, and which entity or entities would be considered the employer for purposes of bargaining;

(iv) Definitions for relevant terms;

(v) Common public employee collective bargaining agreement frameworks related to grievance procedures and processes for disciplinary actions;

(vi) Procedures related to the commission certifying exclusive

bargaining representatives, determining bargaining units, adjudicating unfair labor practices, determining representation questions, and coalition bargaining;

(vii) The efficiency and feasibility of coalition bargaining;

(viii) Procedures for approving negotiated collective bargaining agreements;

(ix) Procedures for submitting requests for funding to the appropriate legislative committees if appropriations are necessary to implement provisions of the collective bargaining agreements; and

(x) Approaches taken by other state legislatures that have authorized collective bargaining for legislative employees.

(5) The report must include a summary of any statutory changes needed to address the considerations listed in subsection (4) of this section related to the collective bargaining process for legislative employees.

NEW SECTION. Sec. 3. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the public employment relations commission.

(2) "Director" means the director of the office of state legislative labor relations.

(3) "Employee organization" means any organization, union, or association in which employees participate and that exists for the purpose, in whole or in part, of collective bargaining with employers.

(4) "Exclusive bargaining representative" means any employee organization that has been certified under this chapter as the representative of the employees in an appropriate bargaining unit.

(5) "Legislative agencies" means the joint legislative audit and review committee, the statute law committee, the legislative ethics board, the legislative evaluation and accountability program committee, the office of the state actuary, the legislative service center, the office of legislative support services, the joint

transportation committee, and the redistricting commission.

(6) "Office" means the office of state legislative labor relations.

NEW SECTION. Sec. 4. Collective bargaining negotiations under this chapter shall commence no earlier than May 1, 2024. No collective bargaining agreement entered into under this chapter may take effect prior to July 1, 2025.

NEW SECTION. Sec. 5. (1) Except as may be specifically limited by this chapter, legislative employees shall have the right to self-organization, to form, join, or assist employee organizations, and to bargain collectively through representatives of their own choosing for the purpose of collective bargaining free from interference, restraint, or coercion. Legislative employees shall also have the right to refrain from any or all such activities.

(2) Except as may be specifically limited by this chapter, the commission shall determine all questions pertaining to ascertaining exclusive bargaining representatives for legislative employees and collectively bargaining under this chapter. However, no employee organization shall be recognized or certified as the exclusive bargaining representative of a bargaining unit of employees of the legislative branch unless it receives the votes of a majority of employees in the petitioned for bargaining unit voting in a secret election by mail ballot administered by the commission. The commission's process must allow for an employee, group of employees, employee organizations, employer, or their agents to have the right to petition on any question concerning representation.

(3) The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.

NEW SECTION. Sec. 6. During a legislative session or committee assembly days, nothing contained in this chapter permits or grants to any legislative employee the right to strike,

participate in a work stoppage, or refuse to perform their official duties.

NEW SECTION. Sec. 7. (1) Collective bargaining negotiations under this chapter must commence no later than July 1st of each even-numbered year after a bargaining unit has been certified.

(2) The duration of any collective bargaining agreement shall not exceed one fiscal biennium.

NEW SECTION. Sec. 8. (1) It is an unfair labor practice for an employer in the legislative branch of state government:

(a) To interfere with, restrain, or coerce employees in the exercise of the rights guaranteed by this chapter;

(b) To dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it: PROVIDED, That subject to rules adopted by the commission, an employer shall not be prohibited from permitting employees to confer with it or its representatives or agents during working hours without loss of time or pay;

(c) To encourage or discourage membership in any employee organization by discrimination in regard to hire, tenure of employment, or any term or condition of employment;

(d) To discharge or discriminate otherwise against an employee because that employee has filed charges or given testimony under this chapter;

(e) To refuse to bargain collectively with the exclusive bargaining representatives of its employees.

(2) It is an unfair labor practice for an employee organization:

(a) To restrain or coerce an employee in the exercise of the rights guaranteed by this chapter: PROVIDED, That this subsection shall not impair the right of an employee organization to prescribe its own rules with respect to the acquisition or retention of membership in the employee organization or to an employer in the selection of its representatives for the purpose of bargaining or the adjustment of grievances;

(b) To cause or attempt to cause an employer to discriminate against an employee in violation of subsection (1)(c) of this section;

(c) To discriminate against an employee because that employee has filed charges or given testimony under this chapter;

(d) To refuse to bargain collectively with an employer.

(3) The expressing of any views, arguments, or opinion, or the dissemination thereof to the public, whether in written, printed, graphic, or visual form, shall not constitute or be evidence of an unfair labor practice under this chapter, if such expression contains no threat of reprisal or force or promise of benefit.

NEW SECTION. Sec. 9. (1) The employer shall not bargain over rights of management which, in addition to all powers, duties, and rights established by constitutional provision or statute, shall include, but not be limited to, the following:

(a) The functions and programs of the employer, the use of technology, and the structure of the organization, including the size and composition of standing committees;

(b) The employer's budget and the size of the employer's workforce, including determining the financial basis for layoffs;

(c) The right to direct and supervise employees;

(d) The hours of work during legislative session and the cutoff calendar for a legislative session; and

(e) Retirement plans and retirement benefits.

(2) Except for an applicable code of conduct policy adopted by a chamber of the legislature or a legislative agency, if a conflict exists between policies adopted by the legislature relating to wages, hours, and terms and conditions of employment and a provision of a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with a statute or an applicable term of a code of conduct policy adopted by a chamber of the legislature or a legislative agency is invalid and unenforceable.

NEW SECTION. Sec. 10. Sections 1 through 9 and 11 of this act constitute a new chapter in Title 44 RCW.

NEW SECTION. Sec. 11. Sections 3 through 9 of this act take effect May 1, 2024."

On page 1, line 16 of the title, after "employment;" strike the remainder of the title and insert "adding a new chapter to Title 44 RCW; and providing an effective date."

and the same is herewith transmitted.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2124, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

March 10, 2022

Madame Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 1814 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that stimulating local investment in community solar projects continues to be an important part of a state energy strategy by helping to increase energy independence from fossil fuels, promote economic development, hedge against the effects of climate change, and attain environmental benefits. The legislature finds that although previous community solar programs were successful in stimulating these benefits, the programs failed to provide an adequate framework for low-income participation and long-term market certainty. The legislature finds that the vast majority of Washingtonians still do not have access to the benefits of solar energy. The legislature intends to stimulate the deployment of community solar projects for the benefit of all Washingtonians by funding the renewable energy production incentive program for community solar projects and by creating opportunities for broader participation, especially by low-income households and low-income service providers. As of December 2021, the state is 10.3 megawatts short of the 115 megawatts of solar photovoltaic capacity established as a goal under RCW 82.16.155. The legislature therefore intends to provide an incentive sufficient to promote installation of community solar projects through June 30, 2033, at which point the legislature expects to review the effectiveness of enhancing access to community solar projects.

Sec. 2. RCW 82.16.130 and 2017 3rd sp.s. c 36 s 4 are each amended to read as follows:

(1) A light and power business is allowed a credit against taxes due under this chapter in an amount equal to:

(a) Incentive payments made in any fiscal year under RCW 82.16.120 and 82.16.165; and

(b) Any fees a utility is allowed to recover pursuant to RCW 82.16.165(5).

(2) The credits must be taken in a form and manner as required by the department. The credit taken under this section for the fiscal year may not exceed one and one-half percent of the ~~((businesses))~~ business's taxable Washington power sales generated in calendar year 2014 and due under RCW 82.16.020(1)(b) or two hundred fifty thousand dollars, whichever is greater, for incentive payments made for the following:

(a) Renewable energy systems, other than community solar projects, that are certified for an incentive payment as of June 30, 2020; and

(b) Community solar and shared commercial projects that are under precertification status under RCW 82.16.165(7)(b) as of June 30, 2020, and that are certified for an incentive payment in accordance with the terms of that precertification by June 30, 2022.

(3) The credit may not exceed the tax that would otherwise be due under this chapter. Refunds may not be granted in the place of credits. Expenditures not used to earn a credit in one fiscal year may not be used to earn a credit in subsequent years.

(4) For any business that has claimed credit for amounts that exceed the correct amount of the incentive payable under RCW 82.16.120, the amount of tax against which credit was claimed for the excess payments is immediately due and payable. The department may deduct amounts due from future credits claimed by the business.

(a) Except as provided in (b) of this subsection, the department must assess interest but not penalties on the taxes against which the credit was claimed. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and accrues until the taxes against which the credit was claimed are repaid.

(b) A business is not liable for excess payments made in reliance on amounts reported by the Washington State University extension energy program as due and payable as provided under RCW 82.16.165(20), if such amounts are later found to be abnormal or inaccurate due to no fault of the business.

(5) The amount of credit taken under this section is not confidential taxpayer

information under RCW 82.32.330 and is subject to disclosure.

(6) The right to earn tax credits for incentive payments made under RCW 82.16.120 expires June 30, 2020. Credits may not be claimed after June 30, 2021.

(7)(a) The right to earn tax credits for incentive payments made under RCW 82.16.165 for the following expires June 30, 2029:

(i) Renewable energy systems, other than community solar projects, that are certified for an incentive payment as of June 30, 2020; and

(ii) Community solar and shared commercial projects that are under precertification status under RCW 82.16.165(7)(b) as of June 30, 2020, and that are certified for an incentive payment in accordance with the terms of that precertification by June 30, 2022.

(b) Credits may not be claimed after June 30, 2030.

(8) This section expires June 30, 2033.

NEW SECTION. Sec. 3. A new section is added to chapter 82.16 RCW to read as follows:

(1) Beginning July 1, 2022, a light and power business is allowed a credit against taxes due under this chapter in an amount equal to incentive payments made in any fiscal year under section 5 of this act.

(2) The credits must be taken in a form and manner as required by the department. The credit taken under this section for the fiscal year may not exceed 1.5 percent of the business's taxable Washington power sales generated in calendar year 2014 and due under RCW 82.16.020(1)(b) or \$250,000, whichever is greater, for incentive payments made for community solar projects that submit an application for precertification under section 5 of this act on or after July 1, 2022, and that are certified for an incentive payment in accordance with the terms of that precertification by June 30, 2033.

(3) The credit may not exceed the tax that would otherwise be due under this chapter. Refunds may not be granted in the place of credits.

(4) For any business that has claimed credit for amounts that exceed the correct amount of the incentive payable

under section 5 of this act, the amount of tax against which credit was claimed for the excess payments is immediately due and payable. The department may deduct amounts from future credits claimed by the business.

(a) Except as provided in (b) of this subsection, the department must assess interest but not penalties on the taxes against which the credit was claimed. Interest may be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and accrues until the taxes against which the credit was claimed are repaid.

(b) A business is not liable for excess payments made in reliance on amounts reported by the Washington State University extension energy program as due and payable as provided under section 5 of this act, if such amounts are later found to be abnormal or inaccurate due to no fault of the business.

(5) The amount of credit taken under this section is not confidential taxpayer information under RCW 82.32.330 and is subject to disclosure.

(6) The right to earn tax credits for incentive payments made under section 5 of this act expires June 30, 2036. Credits may not be claimed under this section after June 30, 2037.

(7) This section expires June 30, 2038.

NEW SECTION. Sec. 5. A new section is added to chapter 82.16 RCW to read as follows:

(1) Beginning July 1, 2022, through June 30, 2033, an administrator of a community solar project meeting the eligibility requirements described in this section and RCW 82.16.170(3) may submit an application to the Washington State University extension energy program to receive a precertification for a community solar project. Projects with precertification applications approved by the Washington State University extension energy program have two years to complete their projects and apply for certification. Projects that have not completed certification within two years may apply to the Washington State University extension energy program for an extension of their precertification status for an additional 180 days if they can demonstrate significant progress during the time they were in precertification status. By certifying qualified projects pursuant to the requirements of this section and RCW 82.16.170(3), the Washington State University extension energy program authorizes the utility serving the site of a community solar project in the state of Washington to remit a one-time low-income community solar incentive payment to the community solar project

administrator, who accepts the payment on behalf of, and for the purpose of providing direct benefits to, the project's qualifying subscribers.

(2) A one-time low-income community solar incentive payment remitted to a community solar project administrator for a project certified under this section equals the sum of the following:

(a) An amount, not to exceed \$20,000 per community solar project, equal to the community solar project's administrative costs related to the administrative start-up of the project for qualifying subscribers; and

(b) An amount that does not exceed 100 percent of the proportional cost of the installed cost of the share of the community solar project that provides direct benefits to qualifying subscribers, taking into account any federal tax credits or other federal or nonfederal grants or incentives that the program is benefiting from.

(3) No new certification may be issued under this section for a community solar project that was certified under RCW 82.16.120 or 82.16.165, or for a community solar project served by a utility that has elected not to participate in the incentive program provided in this section.

(4) Community solar projects that are under precertification status under RCW 82.16.165 as of June 30, 2020, may not apply for precertification of that same project for the one-time low-income community solar incentive payment provided in this section.

(5)(a) In addition to the one-time low-income community solar incentive payment under subsection (2) of this section, a participating utility must also provide the following compensation for the generation of electricity from the certified project:

(i) For a community solar project that has an alternating current nameplate capacity no greater than 100 kilowatts, and that is connected behind the electric service meter, compensation must be determined in accordance with RCW 80.60.020 and provided to the retail electric customer receiving service at the situs of the meter.

(ii) For all other community solar projects for which the administrator is not a utility, compensation paid to the

interconnection customer must be determined in a written agreement between the interconnection customer and the utility.

(iii) For all other community solar projects for which the administrator is a utility, compensation must be provided directly to subscribers in accordance with subsection (8)(a)(i) of this section.

(iv)(A) When the administrator of a community solar project receives compensation for the generation of electricity from a participating utility, interconnection customer, or from the retail electric customer that is the host for the community solar project, the administrator must provide all of that compensation as a direct benefit to the project subscribers, except as described in (iv)(B) of this subsection.

(B) An administrator may deduct ongoing administrative and maintenance costs from compensation they provide to subscribers from power generation, provided those costs are identified in the subscription agreement or justified to the Washington State University extension energy program. The Washington State University extension energy program shall review any such administrative and maintenance costs justifications for reasonableness and approve, reject, or negotiate changes to the proposal. An administrator may request a change in the deduction for administrative and maintenance costs to the Washington State University extension energy program only if the subscription agreement includes language notifying the subscriber that administrative and maintenance fees are subject to change.

(b) For 10 years after certification, and by March 1st of each year following certification, the administrator must provide the Washington State University extension energy program with signed statements of the following for the preceding year:

(i) The energy production for the period for which compensation is to be provided;

(ii) Each subscriber's units of the project;

(iii) The amount disbursed to each subscriber for the period; and

(iv) The date and amount disbursed to each subscriber.

(6) A utility's participation in the incentive program provided in this section is voluntary.

(a) The utility may terminate its voluntary participation in the program by providing notice in writing to the Washington State University extension energy program to cease accepting new applications for precertification for community solar projects that would be served by that utility. Such notice of termination of participation is effective after 15 days, at which point the Washington State University extension energy program may not accept new applications for precertification for community solar projects that would be served by that utility.

(b) Upon receiving a utility's notice of termination of participation in the incentive program, the Washington State University extension energy program must report on its website that community solar project customers of that utility are no longer eligible to receive new certifications under the program.

(c) A utility that has terminated participation in the program may resume participation upon filing a notice with the Washington State University extension energy program.

(7)(a) The Washington State University extension energy program may issue certifications authorizing incentive payments under this section in a total statewide amount not to exceed \$100,000,000, and subject to the following biennial dollar limits:

(i) For fiscal year 2023, \$300,000; and

(ii) For each biennium beginning on or after July 1, 2023, \$25,000,000.

(b) The Washington State University extension energy program must attempt to equitably distribute incentive funds throughout the state. Considerations for equitable fund distribution, based on precertification applications received from administrators served by utilities voluntarily participating in the program, may include measures to reserve or allocate available funds based on the proportion of public utility taxes collected, the proportion of the state's low-income customers served by each utility based on low-income home energy

assistance program data at the department of commerce, measures to achieve an equitable geographic distribution of community solar installations and a diversity of administrative models for community solar projects, and the amount of energy burden reduction for qualifying subscribers relative to the project's cost. If an equitable distribution of funds is not feasible due to a lack of precertification applications, the Washington State University extension energy program may allocate funds based on (a) of this subsection on a first-come, first-served basis.

(c) The Washington State University extension energy program must ensure that at least \$2,000,000 of the statewide total for the entire program is used to support nonprofit organizations' innovative approaches to allocating benefits to subscribers, defining and valuing benefits to be provided to subscribers or other aspects of the subscriber, administrator, system host, and utility relationship.

(d) The Washington State University extension energy program must also ensure that at least \$2,000,000 of the statewide total for the entire program is available to tribal governments and their designated subdivisions and agencies.

(e) The Washington State University extension energy program shall regularly publish and update guidelines for how it manages the allocation of available funding, based on the evaluation of applications and the factors specified in (b) of this subsection.

(f) Beginning in fiscal year 2026, the Washington State University extension energy program may waive the requirements in (c) or (d) of this subsection if it fails to receive applications that meet the criteria of (c) or (d) of this subsection sufficient to result in the full allocation of incentives.

(8)(a) Prior to obtaining certification under this section, the administrator of a community solar project must apply for precertification against the funds available for incentive payments under subsection (7) of this section in order to be guaranteed an incentive payment under this section. The application for precertification must include, at a minimum:

(i) A demonstration of how the project will deliver continuing direct benefits to low-income subscribers. A direct

benefit can include credit for the power generation for the community solar project or other mechanisms that lower the energy burden of a low-income subscriber; and

(ii) Any other information the Washington State University extension energy program deems necessary in determining eligibility for precertification.

(b) The administrator of a community solar project must complete an application for certification in accordance with the requirements of subsection (9) of this section within less than two years of being approved for precertification status. The administrator must submit a project update to the Washington State University extension energy program after one year in precertification status.

(9) To obtain certification for the one-time community solar incentive payment provided under this section, a project administrator must submit to the Washington State University extension energy program an application, including, at a minimum:

(a) A signed statement that the applicant has not previously received a notice of eligibility from the department under RCW 82.16.120 or the Washington State University extension energy program under RCW 82.16.165 entitling the applicant to receive annual incentive payments for electricity generated by the community solar project at the same meter location;

(b) A signed statement of the costs paid by the administrator related to administering the project for qualifying subscribers;

(c) A signed statement of the total project costs, including the proportional cost of the share of the community solar project that provides direct benefits to qualifying subscribers;

(d) A signed statement describing the amount of the upfront incentive and the timing, method, and distribution of estimated benefits to qualifying subscribers. The statement must describe any estimated energy burden reduction associated with the direct benefits;

(e) Available system operation data, such as global positioning system

coordinates, tilt, estimated shading, and azimuth;

(f) Any other information the Washington State University extension energy program deems necessary in determining eligibility and incentive levels or administering the program;

(g)(i) Except as provided in (g)(ii) of this subsection (9), the date that the community solar project received its final electrical inspection from the applicable local jurisdiction, as well as a copy of the permit or, if the permit is available online, the permit number or other documentation deemed acceptable by the Washington State University extension energy program;

(ii) The Washington State University extension energy program may waive the requirement in (g)(i) of this subsection (9), accepting an application and granting provisional certification prior to proof of final electrical inspection. Provisional certification expires 180 days after issuance, unless the applicant submits proof of the final electrical inspection from the applicable local jurisdiction or the Washington State University extension energy program extends certification, for a term or terms of 30 days, due to extenuating circumstances;

(h) Confirmation of the number of qualifying subscribers;

(i) A copy of the executed agreement describing how benefits will be determined and distributed from the retail electric customer or interconnection customer to the administrator if the administrator and the retail electric customer or interconnection customer are not the same. The Washington State University extension energy program must review the executed agreement to determine that benefits are being fairly determined and that there is an adequate plan for distributing the benefits; and

(j) Any other information the Washington State University extension energy program deems necessary in determining eligibility and incentive levels or administering the program.

(10) No incentive payments may be authorized or accrued until the final electrical inspection and executed interconnection agreement are submitted to the Washington State University extension energy program.

(11)(a) The Washington State University extension energy program must review each project for which an application for certification is submitted in accordance with subsection (8) of this section for reasonable cost and financial structure, with a targeted installed cost for the solar energy system of \$2 per watt direct current for systems over 200 kilowatts and \$2.25 per watt direct current for systems equal to or under 200 kilowatts. For solar energy systems that include storage systems, the targeted installed cost of the storage system is \$600 per kilowatt-hour of storage capacity.

(b) The Washington State University extension energy program may approve an application for a project that costs more or less than the targeted installed costs under (a) of this subsection based on a review of the project, documents submitted by the project applicant, and available data. Project cost evaluations may include costs associated with energy storage systems and electrical system improvements to permit grid-independent operation. Applicants may petition the Washington State University extension energy program to approve a higher cost per watt or per kilowatt-hour for unusual circumstances.

(c) The Washington State University extension energy program may review the cost per watt target under (a) of this subsection prior to each fiscal biennium and is authorized to determine a new cost per watt target.

(12)(a) Within 30 days of receipt of an application for certification, the Washington State University extension energy program must notify the applicant and, except when a utility is the applicant, the utility serving the site of the community solar project, by mail or electronically, whether certification has been granted. The certification notice must state the total dollar amount of the low-income community solar incentive payment for which the applicant is eligible under this section.

(b) Within 60 days of receipt of a notification under (a) of this subsection, the utility serving the site of the community solar project must remit the applicable one-time low-income community solar incentive payment to the project administrator, who accepts the payment on behalf of, and for the purpose of providing direct benefits to, the project's qualifying subscribers.

(13)(a) Certification follows the community solar project if the following conditions are met using procedures established by the Washington State University extension energy program:

(i) The community solar project is transferred to a new owner who notifies the Washington State University extension energy program of the transfer;

(ii) The new owner provides an executed interconnection agreement with the utility serving the site of the community solar project; and

(iii) The new owner agrees to provide equivalent ongoing benefits to qualifying subscribers as the current owner.

(b) In the event that a qualifying subscriber terminates their participation in a community solar project during the first 120 months after project certification, the system certification follows the project and participation must be transferred to a new qualifying subscriber.

(14) Beginning January 1, 2023, the Washington State University extension energy program must post on its website and update at least monthly a report, by utility, of:

(a) The number of certifications issued for community solar projects; and

(b) An estimate of the amount of credit that has not yet been allocated for low-income community solar incentive payments and that remains available for new community solar project certifications in the state.

(15) Persons receiving incentive payments under this section must keep and preserve, for a period of five years for the duration of the consumer contract, suitable records as may be necessary to determine the amount of incentive payments applied for and received.

(16) The nonpower attributes of the community solar project must be retired on behalf of the subscribers unless, in the case of a utility-owned community solar project, a contract between the subscriber that benefits the subscriber clearly states that the attributes will be retained and retired by the utility.

(17) All lists, technical specifications, determinations, and guidelines developed under this section must be made publicly available online by

the Washington State University extension energy program.

(18) The Washington State University extension energy program may, through a public process, develop program requirements, policies, and processes necessary for the administration or implementation of this section.

(19) Applications, certifications, requests for incentive payments under this section, and the information contained therein are not deemed tax information under RCW 82.32.330 and are subject to disclosure.

(20) No certification may be issued under this section by the Washington State University extension energy program for a community solar project after June 30, 2035.

(21) Community solar projects certified under this section must be sited on preferred sites to protect natural and working lands as determined by the Washington State University extension energy program.

(22) This section expires June 30, 2038.

Sec. 6. RCW 82.16.170 and 2017 3rd sp.s. c 36 s 7 are each amended to read as follows:

(1) The purpose of community solar programs is to facilitate broad, equitable community investment in and access to solar power. Beginning July 1, 2017, a community solar administrator may organize and administer a community solar project as provided in this section.

(2) ((A)) In order to receive certification for the incentive payment provided under RCW 82.16.165(1) by June 30, 2021, a community solar project must have a direct current nameplate capacity that is no more than one thousand kilowatts and must have at least ten participants or at least one participant for every ten kilowatts of direct current nameplate capacity, whichever is greater. A community solar project that has a direct current nameplate capacity greater than five hundred kilowatts must be subject to a standard interconnection agreement with the utility serving the situs of the community solar project. Except for community solar projects authorized under subsection ~~((+9))~~ (10) of this section, each participant must be a customer of the utility providing

service at the situs of the community solar project.

(3) In order to receive certification for the incentive payment provided under section 5 of this act beginning July 1, 2022, a community solar project must meet the following requirements:

(a) The administrator of the community solar project must be a utility, nonprofit, or tribal housing authority that administers a community solar project on tribal lands or lands held in trust for a federally recognized tribe by the United States for subscribers who are tribal members, or other local housing authority. The administrator of the community solar project must apply for precertification under section 5 of this act on or after July 1, 2022;

(b) The community solar project must have a direct current nameplate capacity that is greater than 12 kilowatts but no greater than 199 kilowatts, and must have at least two subscribers or one low-income service provider subscriber;

(c) The administrator of the community solar project must provide a verified list of qualifying subscribers;

(d) Verification that an individual household subscriber meets the definition of low-income must be provided to the administrator by an entity with authority to maintain the confidentiality of the income status of the low-income subscriber. If the providing entity incurs costs to verify a subscriber's income status, the administrator must provide reimbursement of those costs;

(e) Except for community solar projects authorized under subsection (10) of this section, each subscriber must be a customer of the utility providing service at the site of the community solar project;

(f) In the event that a low-income subscriber in a community solar project certified under section 5 of this act moves within 120 months of system certification from the household premises of the subscriber's current subscription to another, the subscriber may continue the subscription, provided that the new household premises is served by the utility providing service at the site of the community solar project. In the event that a subscriber is no longer served by that utility or the subscriber terminates participation in a community

solar project certified under section 5 of this act, the certification follows the system and participation must be transferred by the administrator to a new qualifying subscriber as specified in section 5 of this act;

(g) The administrator must include in the application for precertification a project prospectus that demonstrates how the administrator intends to provide direct benefits to qualifying subscribers for the duration of their subscription to the community solar project; and

(h) The length of the subscription term for low-income subscribers must be the same length as for other subscribers, if applicable.

(4) The administrator of a community solar project must administer the project in a transparent manner that allows for fair and nondiscriminatory opportunity for participation by utility customers.

~~((4))~~ (5) The administrator of a community solar project may establish a reasonable fee to cover costs incurred in organizing and administering the community solar project. Project participants, prior to making the commitment to participate in the project, must be given clear and conspicuous notice of the portion of the incentive payment that will be used for this purpose.

~~((5))~~ (6) The administrator of a community solar project must maintain and update annually through June 30, 2030, the following information for each project it operates or administers:

(a) Ownership information;

(b) Contact information for technical management questions;

(c) Business address;

(d) Project design details, including project location, output capacity, equipment list, and interconnection information; and

(e) Subscription information, including rates, fees, terms, and conditions.

~~((6))~~ (7) The administrator of a community solar project must provide the information required in subsection ~~((5))~~ (6) of this section to the Washington State University extension energy program at the time it submits the

applications allowed under RCW 82.16.165(1) and section 5 of this act.

~~((7))~~ (8) The administrator of a community solar project must provide each project participant with a disclosure form containing all material terms and conditions of participation in the project, including but not limited to the following:

(a) Plain language disclosure of the terms under which the project participant's share of any incentive payment will be calculated by the Washington State University extension energy program ~~((over the life of the contract))~~;

(b) Contract provisions regulating the disposition or transfer of the project participant's interest in the project, including any potential costs associated with such a transfer;

(c) All recurring and nonrecurring charges;

(d) A description of the billing and payment procedures;

(e) A description of any compensation to be paid in the event of project underperformance;

(f) Current production projections and a description of the methodology used to develop the projections;

(h) Any other terms and conditions of the services provided by the administrator.

~~((8))~~ (9) A utility may not adopt rates, terms, conditions, or standards that unduly or unreasonably discriminate between utility-administered community solar projects and those administered by another entity.

~~((9))~~ (10) A public utility district that is engaged in distributing electricity to more than one retail electric customer in the state and a joint operating agency organized under chapter 43.52 RCW on or before January 1, 2017, may enter into an agreement with each other to construct and own a community solar project that is located on property owned by a joint operating agency or on property that receives electric service from a participating public utility district. Each participant of a community solar project under this subsection must be a customer

of at least one of the public utility districts that is a party to the agreement with a joint operating agency to construct and own a community solar project.

~~((10))~~ (11) The Washington utilities and transportation commission must publish, without disclosing proprietary information, a list of the following:

(a) Entities other than utilities, including affiliates or subsidiaries of utilities, that organize and administer community solar projects; and

(b) Community solar projects and related programs and services offered by investor-owned utilities.

~~((11))~~ (12) If a consumer-owned utility opts to provide a community solar program or contracts with a nonutility administrator to offer a community solar program, the governing body of the consumer-owned utility must publish, without disclosing proprietary information, a list of the nonutility administrators contracted by the utility as part of its community solar program.

MESSAGE FROM THE SENATE

March 10, 2022

Madame Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1914 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 43.365.005 and 2006 c 247 s 1 are each amended to read as follows:

The legislature recognizes the motion picture industry in Washington as a valuable commodity contributing greatly to the economic vitality of the state and the cultural integrity of our communities. The legislature further recognizes the production of in-state motion pictures, television programs, and television commercials creates a marked increase in tourism, family-wage jobs, and the sale of local goods and services generating revenue for the state. Furthermore, with captive national and international audiences, the world is introduced to the state's pristine scenic venues and reminded that the Pacific Northwest is a great place to live and raise a family. The legislature also recognizes the inherent educational value of promoting arts and culture as well as the benefits of training young motion picture professionals who will build a fruitful industry for years to come.

The legislature finds in recent years that the state has realized a drastic decline in motion picture production that precludes economic expansion and threatens the state's reputation as a production destination. With the emergence of tax incentives in (~~thirty~~) other states nationwide, in-state producers are taking their projects to more competitive economic climates, such as Oregon and Vancouver, British Columbia, where compelling tax incentive packages and subsidies are already in effect.

The legislature also finds that in recent years increasingly workers in Washington state are without health insurance coverage and retirement income protections, causing hardships on workers and their families and higher costs to the state.

The legislature also recognizes that there are significant barriers to entry for those from marginalized communities to enter the motion picture workforce. This results in lost opportunity for people to tell stories in film that reflect a breadth of diversity in experience across race, gender, ability, sexual orientation, and place of origin.

The legislature also finds that more investment in the film industry will increase revenue with Washington state businesses and create family-wage jobs that pay health and retirement benefits for Washington workers. Moreover, targeted investments in rural and marginalized communities will create opportunities to build an equitable workforce and film industry.

Therefore, it is the intent of the legislature to recognize both national and international competition in the motion picture production marketplace. The legislature is committed to leveling the competitive playing field and promoting an equitable film industry and is interested in a partnership with the private sector to regain Washington's place as a premier destination to make motion pictures, television, and television commercials. While at the same time the legislature is committed to ensuring that workers in the motion picture and television industry are covered under health insurance and retirement income plans and that motion picture production sets and stories reflect the diversity of Washington residents.

Sec. 4. RCW 43.365.020 and 2012 c 189 s 2 are each amended to read as follows:

(1) The department must adopt criteria for the approved motion picture competitiveness program with the sole purpose of revitalizing the state's economic, cultural, and educational standing in the national and international market of motion picture production. The board may establish additional criteria to maximize the use of in-state labor.

~~((7))~~ (8)(a) The approved motion picture competitiveness program may allocate an annual aggregate of no more than ten percent of the qualifying contributions by the program under RCW 82.04.4489 to provide funding support for filmmakers who are Washington residents, new forms of production, and emerging technologies.

For small motion picture productions, the approved motion picture competitiveness program, after determining a conditional approval of the production, shall hold the production's funding assistance in reserve while the entity seeking funding assistance for the production secures financing for the remainder of the budget. Once the entity seeking funding assistance for the production demonstrates to the program that it has secured the necessary financing, the program shall certify the small motion picture production as approved. If the entity seeking funding assistance cannot demonstrate within six months from the date of conditional approval that it has secured the total budget, the program must make the funding assistance available to other eligible applicants with funding assistance approval.

(1) Subject to the limitations in this section, a credit is allowed against the tax imposed under this chapter for contributions made by a person to a Washington motion picture competitiveness program.

(2) The person must make the contribution before claiming a credit authorized under this section. Credits earned under this section may be claimed against taxes due for the calendar year in which the contribution is made. The amount of credit claimed for a reporting period may not exceed the tax otherwise due under this chapter for that reporting period. No person may claim more than ~~((seven hundred fifty thousand dollars))~~ \$1,000,000 of credit in any calendar year, including credit carried over from a previous calendar year. No refunds may be granted for any unused credits.

(3) The maximum credit that may be earned for each calendar year under this section for a person is limited to the lesser of ~~((seven hundred fifty thousand dollars))~~ \$1,000,000 or an amount equal to one hundred percent of the contributions made by the person to a program during the calendar year.

(4) Except as provided under subsection (5) of this section, a tax credit claimed under this section may not be carried over to another year.

(5) Any amount of tax credit otherwise allowable under this section not claimed by the person in any calendar year may be carried over and claimed against the person's tax liability for the next succeeding calendar year. Any credit remaining unused in the next succeeding calendar year may be carried forward and claimed against the person's tax liability for the second succeeding calendar year; and any credit not used in that second succeeding calendar year may be carried over and claimed against the person's tax liability for the third succeeding calendar year, but may not be carried over for any calendar year thereafter.

(6) Credits are available on a first-in-time basis. The department must disallow any credits, or portion thereof, that would cause the total amount of credits claimed under this section during any calendar year to exceed ~~((three million five hundred thousand dollars))~~ \$15,000,000. If this limitation is reached, the department must notify all Washington motion picture competitiveness programs that the annual statewide limit has been met. In addition, the department must provide written notice to any person who has claimed tax credits in excess of the limitation in this subsection. The notice must indicate the amount of tax due and provide that the tax be paid within thirty days from the date of the notice. The department may not assess penalties and interest as provided in chapter 82.32 RCW on the amount due in the initial notice if the amount due is paid by the due date specified in the notice, or any extension thereof.

(7) To claim a credit under this section, a person must electronically file with the department all returns, forms, and any other information required by the department, in an electronic format as provided or approved by the department. Any return, form, or

information required to be filed in an electronic format under this section is not filed until received by the department in an electronic format. As used in this subsection, "returns" has the same meaning as "return" in RCW 82.32.050.

(8) No application is necessary for the tax credit. The person must keep records necessary for the department to verify eligibility under this section.

(9) A Washington motion picture competitiveness program must provide to the department, upon request, such information needed to verify eligibility for credit under this section, including information regarding contributions received by the program.

(10) The department may not allow any credit under this section before July 1, 2006.

(11) For the purposes of this section, "Washington motion picture competitiveness program" or "program" means an organization established pursuant to chapter 43.365 RCW.

(12) Persons claiming a credit against the tax imposed under this chapter for contributions made to a Washington motion picture competitiveness program and not otherwise receiving funding assistance under RCW 43.365.020 are exempt from the annual reporting requirements in RCW 82.32.534 and 43.365.040.

(13) No credit may be earned for contributions made on or after July 1, (~~2027~~) 2030.

Sec. 6. RCW 43.365.040 and 2012 c 189 s 5 are each amended to read as follows:

(1) The legislature finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources the legislature needs information on how incentives are used.

(2) Each motion picture production receiving funding assistance under RCW 43.365.020 must report information to the department by filing a complete annual survey. The survey is due by March 31st of the year following any calendar year in which funding assistance under RCW 43.365.020 is taken. The department may extend the due date for timely filing of annual surveys under this section if failure to file was the result of circumstances beyond the control of the

motion picture production receiving the funding assistance.

(3) The Washington motion picture competitiveness program established in RCW 43.365.030, in collaboration with the department and the department of revenue, and in consultation with the joint legislative audit and review committee, must develop a survey form and instructions that accompany the survey form by November 1, 2012. The instructions must provide sufficient detail to ensure consistent reporting. The survey must be designed to acquire data to allow the state to better measure the effectiveness of the program and to provide transparency of the motion picture competitiveness program. The survey must include:

(a) The total amount of taxes paid;

(b) The amount of taxes paid classified by type, which may include, but is not limited to, sales taxes, use taxes, business and occupation taxes, unemployment insurance taxes, and workers' compensation premiums;

(c) The amount of funding assistance received; and

(d) The following information for employment positions in Washington by the motion picture production receiving funding assistance, including indirect employment by contractors or other affiliates:

(iv) The number of employment positions that have employer-provided medical, dental, and retirement benefits; and

(v) The number of employment positions filled by Washington state residents, and residency information for employment positions filled by people from other locations.

(4) The department may request additional information necessary to measure the results of the funding assistance (~~program~~), to be submitted at the same time as the survey.

(5) If a person fails to submit an annual survey under subsection (2) of this section by the due date of the report or any extension the department must declare the amount of funding assistance for the previous calendar year to be immediately due and payable. The department must assess interest, but not penalties, on the amounts due under this section. The interest is assessed at the rate provided for delinquent taxes under chapter 82.32 RCW, retroactively to the date the funding assistance was received, and accrues until the funding assistance is repaid.

(6) The department must use the information from this section to prepare summary descriptive statistics. The department must report these statistics to the legislature each even-numbered year by September 1st. The department must provide the complete annual surveys to the joint legislative audit and review committee, which shall perform a review as required under RCW 43.365.050.

(7) The motion picture competitiveness program must periodically audit and generally monitor the survey information submitted by production companies for completeness and accuracy.

Sec. 7. RCW 43.365.050 and 2006 c 247 s 7 are each amended to read as follows:

~~((The provisions of RCW 82.04.4489 are subject to review by the joint legislative audit and review committee.))~~ (1) It is the legislature's specific public policy objective to increase the viability of the motion picture and film industry and associated creative industries in Washington state. It is the legislature's intent to increase the credit available under RCW 82.04.4489 in order to attract additional motion picture and film projects, thereby increasing family-wage jobs.

(2) The joint legislative audit and review committee ((will)) must review and make a recommendation to the ((house finance committee and the senate ways and means committee)) fiscal committees of the legislature by December 1, ((2010)) 2026, regarding the effectiveness of the motion picture competitiveness program including, but not limited to, the amount of state revenue generated, the amount and number of family ((wages [wage])) - wage jobs with benefits created, adherence to the criteria in RCW 43.365.020, changes in Washington's share of the film employment market, and

any other factors deemed appropriate by the joint legislative audit and review committee.

(3) In order to obtain the data necessary to perform the review in subsection (2) of this section, the joint legislative audit and review committee may refer to tax data provided to the department of revenue and the annual survey required under RCW 43.365.040.

MESSAGE FROM THE SENATE

March 10, 2022

Madame Speaker:

The Senate has passed THIRD SUBSTITUTE HOUSE BILL NO. 1359 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds that operations of businesses in the hospitality industry have been significantly disrupted since the beginning of the COVID-19 pandemic. Many of these businesses, including restaurants, hotels, theaters, caterers, and nightclubs maintain state liquor licenses in order to offer their customers beer, wine, or spirits as products or amenities as authorized under the terms of their licenses. However, many licensees' businesses were completely or partially closed for much of 2020 and continue to be closed or substantially disrupted in 2021 and 2022. Recognizing many licensees' inability to fully operate and use their license, and the financial hardships faced by many licensees, the legislature intends to provide relief to the hospitality industry by reducing certain liquor license fees in 2022 and 2023.

(d) Upon request of the department of revenue, the board and the department of labor and industries must both provide a list of persons that they have determined

to be ineligible for a fee waiver under (b) of this subsection for the reasons described in (c) of this subsection. Unless otherwise agreed, any list must be received by the department of revenue no later than 15 calendar days after the request is made.

Sec. 9. RCW 66.24.170 and 2021 c 6 s 3 are each amended to read as follows:

(2) The license allows for the manufacture of wine in Washington state from grapes or other agricultural products.

(3) Any domestic winery licensed under this section may also act as a retailer of wine of its own production. Any domestic winery licensed under this section may act as a distributor of its own production. Notwithstanding any language in this title to the contrary, a domestic winery may use a common carrier to deliver up to one hundred cases of its own production, in the aggregate, per month to licensed Washington retailers. A domestic winery may not arrange for any such common carrier shipments to licensed retailers of wine not of its own production. Except as provided in this section, any winery operating as a distributor and/or retailer under this subsection must comply with the applicable laws and rules relating to distributors and/or retailers, except that a winery operating as a distributor may maintain a warehouse off the premises of the winery for the distribution of wine of its own production provided that: (a) The warehouse has been approved by the board under RCW 66.24.010; and (b) the number of warehouses off the premises of the winery does not exceed one.

(4)(a) A domestic winery licensed under this section, at locations separate from any of its production or manufacturing sites, may serve samples of its own products, with or without charge, may sell wine of its own production at retail, and may sell for off-premises consumption wines of its own production in kegs or sanitary containers meeting the applicable requirements of federal law brought to the premises by the purchaser or furnished by the licensee and filled at the tap at the time of sale, provided that: (i) Each additional location has been approved by the board under RCW 66.24.010; (ii) the total number of additional locations does not exceed four; (iii) a winery may not act as a distributor at any such additional location; and (iv) any person selling or serving wine at an additional location for on-premises consumption must obtain a class 12 or class 13 alcohol server permit. Each additional location is deemed to be part of the winery license for the purpose of this title. At additional locations operated by multiple wineries under this section, if the board cannot connect a violation of RCW 66.44.200 or 66.44.270 to a single licensee, the board may hold all licensees operating the additional location jointly liable. Nothing in this

subsection may be construed to prevent a domestic winery from holding multiple domestic winery licenses.

(b) A customer of a domestic winery may remove from the premises of the domestic winery or from a tasting room location approved under (a) of this subsection, recorked or recapped in its original container, any portion of wine purchased for on-premises consumption.

(5)(a) A domestic winery licensed under this section may apply to the board for an endorsement to sell wine of its own production at retail for off-premises consumption at a qualifying farmers market. The annual fee for this endorsement is seventy-five dollars. An endorsement issued pursuant to this subsection does not count toward the four additional retail locations limit specified in this section.

(b) For each month during which a domestic winery will sell wine at a qualifying farmers market, the winery must provide the board or its designee a list of the dates, times, and locations at which bottled wine may be offered for sale. The approved locations under an endorsement granted under this subsection include tasting or sampling privileges subject to the conditions pursuant to RCW 66.24.175. The winery may not store wine at a farmers market beyond the hours that the winery offers bottled wine for sale. The winery may not act as a distributor from a farmers market location.

(e) Before a winery may sell bottled wine at a qualifying farmers market, the farmers market must apply to the board for authorization for any winery with an endorsement approved under this subsection to sell bottled wine at retail at the farmers market. This application shall include, at a minimum: (i) A map of the farmers market showing all booths, stalls, or other designated locations at which an approved winery may sell bottled

wine; and (ii) the name and contact information for the on-site market managers who may be contacted by the board or its designee to verify the locations at which bottled wine may be sold. Before authorizing a qualifying farmers market to allow an approved winery to sell bottled wine at retail at its farmers market location, the board must notify the persons or entities of such application for authorization pursuant to RCW 66.24.010 (8) and (9). An authorization granted under this subsection (5)(e) may be withdrawn by the board for any violation of this title or any rules adopted under this title.

(f) The board may adopt rules establishing the application and approval process under this section and such additional rules as may be necessary to implement this section.

(B) The total combined gross annual sales of vendors who are farmers exceeds the total combined gross annual sales of vendors who are processors or resellers. (C) The total combined gross annual sales of vendors who are farmers, processors, or resellers exceeds the total combined gross annual sales of vendors who are not farmers, processors, or resellers;

Such wine is deemed wine manufactured in the state of Washington for the purposes of RCW 66.24.206, and shall not require a special license.

(7) During an event held by a nonprofit holding a special occasion license issued under RCW 66.24.380, a domestic winery licensed under this section may take orders, either in writing or electronically, and accept payment for wines of its own production under the following conditions:

(d) The domestic winery complies with all requirements in chapter 66.20 RCW for direct sale of wine to consumers;

(e) The wine is not sold for resale; and

(f) The domestic winery is entitled to all proceeds from the sale and delivery of its wine to a consumer after the conclusion of the special occasion event, but may enter into an agreement to share a portion of the proceeds of these sales with the special occasion licensee licensed under RCW 66.24.380.

THIRD READING

Madame Speaker:

We of your Conference Committee, to whom was
referred SUBSTITUTE HOUSE BILL NO. 1876,
concerning public investment impact disclosures for certain
ballot measures that repeal, levy, or modify any tax or fee
and have a fiscal impact statement that shows that adoption
of the measure would cause a net change in state revenue,
have had the same under consideration and we recommend
that:

All previous amendments not be adopted and that the
attached striking amendment S-5448.2 be adopted.

Strike everything after the enacting
clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature
recognizes that the people have reserved
for themselves the power to enact or
reject legislation through the
initiative and referendum process, as
provided in Article II, section 1 of the
state Constitution. The legislature
finds that when exercising this right,
the people are entitled to know the
fiscal impact that their vote will have
on public investments at the time they
cast their ballots. The legislature
further finds that when a ballot measure
will affect funding for public
investments, a neutral, nonprejudicial
disclosure of the public investments
affected will provide greater
transparency and necessary information
for voters.

NEW SECTION. **Sec. 2.** A new section
is added to chapter 29A.72 RCW to read as
follows:

(1) The attorney general must prepare
a public investment impact disclosure for
any ballot measure that:

(a) Repeals, levies, or modifies any
tax or fee, including changing the scope
or application of an existing tax or fee;
and

(b) Has a fiscal impact statement, as
provided by RCW 29A.72.025, that shows
that adoption of the measure would cause
a net change in state revenue.

(2) The public investment impact
disclosure must include a description of

the investments that will be affected if the measure is adopted. The description must be sufficiently broad to reflect the subject of the investments that will be impacted by the change in revenue that will result from adoption of the measure, but also sufficiently precise to give notice of the subject matter of the investments that will be impacted by the change in revenue that will result from adoption of the measure. The description may not exceed 10 words, unless the fiscal impact is primarily to the state general fund, in which case the description must list the top three categories of state services funded by the general fund in the current state budget and may not exceed 15 words. The attorney general may consult with the office of financial management or any other state or local agencies as necessary to procure accurate information to draft the description.

(3) The format of the public investment impact disclosure, as it appears on the ballot, is:

"This measure would (increase or decrease) funding for (description of services)."

(4) In drafting the public investment impact disclosure, the attorney general must use neutral language that cannot reasonably be expected to create prejudice for or against the measure. The language of the disclosure is not subject to appeal, except as provided in this act.

(5) The attorney general must file the public investment impact disclosure with the secretary of state no later than July 23rd.

(6) The secretary of state must certify the public investment impact disclosure and timely transmit it to each county auditor for its inclusion on the ballot.

(7) Public investment impact disclosures are not considered part of the ballot title under this chapter and are not subject to any of the legal requirements for ballot titles.

Sec. 3. RCW 29A.72.050 and 2003 c 111 s 1806 are each amended to read as follows:

(1) The ballot title for an initiative to the people, an initiative to the legislature, a referendum bill, or a referendum measure consists of: (a) A

statement of the subject of the measure; (b) a concise description of the measure; and (c) a question in the form prescribed in this section for the ballot measure in question. The statement of the subject of a measure must be sufficiently broad to reflect the subject of the measure, sufficiently precise to give notice of the measure's subject matter, and not exceed ten words. The concise description must contain no more than thirty words, be a true and impartial description of the measure's essential contents, clearly identify the proposition to be voted on, and not, to the extent reasonably possible, create prejudice either for or against the measure.

(2) If a public investment impact disclosure is required under section 2 of this act, the disclosure must appear in the middle of the ballot title, after the concise description and before the question. The disclosure is not, however, considered part of the ballot title and is not subject to any of the legal requirements for ballot titles under this chapter.

(3) For an initiative to the people, or for an initiative to the legislature for which the legislature has not proposed an alternative, the ballot title and public investment impact disclosure, if applicable, must be displayed on the ballot substantially as follows:

"Initiative Measure No. . . . concerns (statement of subject). This measure would (concise description). (Public investment impact disclosure, if applicable). Should this measure be enacted into law?

Yes

No

PART II

HUMAN SERVICES

Sec. 201. 2021 c 334 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through

43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or

investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize((s)) federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2022, unless prohibited by this act, the department may transfer general fund-state appropriations for fiscal year 2022 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2022 in response to the COVID-19 pandemic or caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(9) The department may not transfer appropriations for the developmental disabilities program to any other program or subprograms of the department of social and health services.

(3) No more than \$26,837,000 of the general fund-federal appropriation and \$26,839,000 of the general fund-local appropriation may be expended for tailored support for older adults and medicaid alternative care described in initiative 2 of the medicaid

transformation demonstration waiver under healthier Washington as well as administrative expenses for initiative 3. The authority shall contract and provide funding to the department of social and health services to administer initiative 2. The director in cooperation with the secretary of the department of social and health services shall report to the office of financial management all of the expenditures of this section and shall provide such fiscal data in the time, manner, and form requested. The authority shall not increase general fund-state expenditures on this initiative.

(4) No more than (~~(\$50,389,000)~~) \$28,680,000 of the general fund-federal appropriation and no more than (~~(\$22,862,000)~~) \$12,992,000 of the general fund-local appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority shall not increase general fund-state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(5) The authority shall submit an application to the centers for medicare and medicaid services to renew the 1115 demonstration waiver for an additional five years as described in subsections (2), (3), and (4) of this section. The authority may not accept or expend any federal funds received under an 1115 demonstration waiver except as described in this section unless the legislature has appropriated the federal funding. To ensure compliance with legislative requirements and terms and conditions of the waiver, the authority shall implement the renewal of the 1115 demonstration waiver and reporting requirements with oversight from the office of financial management. The legislature finds that

appropriate management of the renewal of the 1115 demonstration waiver as set forth in subsections (6), (7), and (8) of this section requires sound, consistent, timely, and transparent oversight and analytic review in addition to lack of redundancy with other established measures. The patient must be considered first and foremost in the implementation and execution of the demonstration waiver. To accomplish these goals, the authority shall develop consistent performance measures that focus on population health and health outcomes. The authority shall limit the number of projects that accountable communities of health may participate in under initiative 1 to a maximum of six and shall seek to develop common performance measures when possible. The joint select committee on health care oversight will evaluate the measures chosen: (a) For effectiveness and appropriateness; and (b) to provide patients and health care providers with significant input into the implementation of the demonstration waiver to promote improved population health and patient health outcomes. In cooperation with the department of social and health services, the authority shall consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget to the joint select committee on health care oversight prior to submitting these waivers for federal approval. Prior to final approval or acceptance of funds by the authority, the authority shall submit the special terms and conditions as submitted to the centers for medicare and medicaid services and the anticipated budget for the duration of the renewed waiver to the governor, the joint select committee on health care, and the fiscal committees of the legislature. By federal standard any programs created or funded by this waiver do not create an entitlement. The demonstration period for the waiver as described in subsections (6), (7), and (8) of this section begins January 1, 2023.

(6)(a) \$32,432,000 of the general fund-federal appropriation and \$40,296,000 of the general fund-local appropriation are provided solely for accountable communities of health described in initiative 1 of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. In renewing this

initiative, the authority shall consider local input regarding community needs and shall limit total local projects to no more than six. To provide transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not supplement the amounts provided in this subsection with any general fund-state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the fiscal committees of the legislature all expenditures under this subsection and provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) \$110,778,000 of the general fund-federal appropriation and \$45,248,000 of the general fund-private/local appropriation are provided solely for the medicaid quality improvement program and this is the maximum amount that may be expended for this purpose. Medicaid quality improvement program payments do not count against the 1115 demonstration waiver spending limits and are excluded from the waiver's budget neutrality calculation. The authority may provide medicaid quality improvement program payments to apple health managed care organizations and their partnering providers as they meet designated milestones. Partnering providers and apple health managed care organizations must work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority may only use the medicaid quality improvement program to support initiatives 1, 2, and 3 as described in the 1115 demonstration waiver and may not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not constitute an entitlement for clients or providers. The authority shall not supplement the amounts provided in this subsection with any general fund-state, general fund-federal, or general fund-local moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and

health outcomes. The director shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(c) In collaboration with the accountable communities of health, the authority will submit a report to the governor and the joint select committee on health care oversight describing how each of the accountable community of health's work aligns with the community needs assessment no later than December 1, 2022.

(d) Performance measures and payments for accountable communities of health shall reflect accountability measures that demonstrate progress toward transparent, measurable, and meaningful goals that have an impact on improved population health and improved health outcomes, including a path to financial sustainability. While these goals may have variation to account for unique community demographics, measures should be standardized when possible.

(7) \$19,902,000 of the general fund-federal appropriation and \$19,903,000 of the general fund-local appropriation are provided solely for long-term support services as described in initiative 2 of the 1115 demonstration waiver as well as administrative expenses for initiative 3 and this is the maximum amount that may be expended for this purpose. The authority shall contract with and provide funding to the department of social and health services to administer initiative 2. The director in cooperation with the secretary of the department of social and health services shall report to the office of financial management all of the expenditures of this section and shall provide such fiscal data in the time, manner, and form requested. The authority shall not supplement the amounts provided in this subsection with any general fund-state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section.

(8)(a) \$13,235,000 of the general fund-federal appropriation and \$7,318,000 of the general fund-local appropriation are provided solely for supported housing and employment services described in initiative 3a and 3b of the 1115 demonstration waiver and this is the maximum amount that may be

expended for this purpose. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third-party administrator. The authority and the department, in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not supplement the amounts provided in this subsection with any general fund-state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) The authority and the department shall seek additional flexibilities for housing supports through the centers for medicare and medicaid services and shall coordinate with the office of financial management and the department of commerce to ensure that services are not duplicated.

(c) The director shall report to the joint select committee on health care oversight no less than quarterly on utilization and caseload statistics for both supportive housing and employment services and its progress toward increasing uptake and availability for these services.

(9) \$202,000 of the general fund-state appropriation for fiscal year 2023 is provided solely for supported employment services and \$208,000 of the general fund-state appropriation for fiscal year 2023 is provided solely for supported housing services, similar to the services described in initiatives 3a and 3b of the 1115 demonstration waiver to individuals who are ineligible for medicaid. Under these initiatives, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its third-party administrator. Before authorizing services, eligibility for

initiative 3a or 3b of the 1115 demonstration waiver must first be determined.

(10) The authority shall submit a plan to preserve the waiver that allows for the full cost of stays in institutions for mental diseases to be included in managed care rates by November 1, 2021, to the appropriate committees of the legislature.

~~((6))~~ (11) The authority shall submit a plan to preserve the waiver allowing for full federal financial participation for medical clients in mental health facilities classified as institutions for mental diseases by November 1, 2021, to the appropriate committees of the legislature.

~~((7))~~ (12) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

~~((8))~~ (13) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

~~((9))~~ (14) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

~~((10))~~ (15) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

~~((11))~~ (16) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(17) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

~~((12) \$3,997,000)~~ (18) \$3,733,000 of the general fund-state appropriation for fiscal year 2022, \$4,261,000 of the general fund-state appropriation for fiscal year 2023, and ~~((8,786,000))~~ \$9,050,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

~~((13))~~ (19) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

~~((14))~~ (20) \$7,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's

discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

~~((15))~~ (21) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2021-2023 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2021, and by November 1, 2022, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2022 and fiscal year 2023, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates

developed, implemented, and consistent with policies approved in the 2021-2023 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. ~~((702,000))~~ \$425,000 of the general fund-state appropriation for fiscal year 2022 and ~~((649,000))~~ \$391,000 of the general fund-state appropriation for fiscal year 2023 are provided solely for state grants for the participating hospitals.

~~((16))~~ (22) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

~~((17))~~ (23) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low

birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

~~((18))~~ (24) The authority shall submit reports to the governor and the legislature by September 15, 2021, and no later than September 15, 2022, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

~~((19))~~ (25) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

~~((20))~~ (26) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

~~((21))~~ (27) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

~~((22))~~ (28) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit

exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

~~((23))~~ (29) \$90,000 of the general fund—state appropriation for fiscal year 2022, \$90,000 of the general fund—state appropriation for fiscal year 2023, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program. By November 15, 2022, the authority shall submit a report to the appropriate committees to the legislature that provides, at a minimum, information about the number of calls received by the nonprofit organization in the previous year, the amount of time spent on each call, comparisons to previous years, where available, and information about what data is collected related to this service.

~~((24))~~ (30) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

~~((25))~~ (31) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

~~((26))~~ (32) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

~~((27))~~ (33) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance

clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

~~((29))~~ (34) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

~~((29))~~ (35) Sufficient amounts are appropriated in this section for the authority to provide a medicaid equivalent adult dental benefit to clients enrolled in the medical care service program.

~~((30))~~ (36) During the 2021-2023 fiscal biennium, sufficient amounts are provided in this section for the authority to provide services identical to those services covered by the Washington state family planning waiver program as of August 2018 to individuals who:

(a) Are over nineteen years of age;

(b) Are at or below two hundred and sixty percent of the federal poverty level as established in WAC 182-505-0100;

(c) Are not covered by other public or private insurance; and

(d) Need family planning services and are not currently covered by or eligible for another medical assistance program for family planning.

~~((31))~~ (37) Sufficient amounts are appropriated within this section for the authority to incorporate the expected outcomes and criteria to measure the performance of service coordination organizations as provided in chapter 70.320 RCW into contracts with managed care organizations that provide services to clients. The authority is directed to:

(a) Contract with an external quality improvement organization to annually analyze the performance of managed care organizations providing services to clients under this chapter based on seven performance measures. The analysis required under this subsection must:

(i) Measure managed care performance in four common measures across each managed care organization, including:

(A) At least one common measure must be weighted towards having the potential to impact managed care costs; and

(B) At least one common measure must be weighted towards population health management, as defined by the measure; and

(ii) Measure managed care performance in an additional three quality focus performance measures specific to a managed care organization. Quality focus performance measures chosen by the authority must:

(A) Be chosen from the statewide common measure set;

(B) Reflect specific measures where a managed care organization has poor performance; and

(C) Be substantive and clinically meaningful in promoting health status.

(b) The authority shall set the four common measures to be analyzed across all managed care organizations.

(c) The authority shall set three quality focus performance measures specific to each managed care organization. The authority must determine performance measures for each managed care organization based on the criteria established in (a)(ii) of this subsection.

(d) By September 15, 2021, and annually thereafter, the authority shall notify each managed care organization of the performance measures for the organization for the subsequent plan year.

(e) Two percent of the total plan year funding appropriated to each managed care organization that provides services to clients under chapter 70.320 RCW shall be withheld. At least seventy-five percent of the withhold shall be held contingent on each managed care organization's performance on the seven performance measures identified in this section. Each managed care organization may earn back the annual withhold if the external quality improvement organization finds that the managed care organization:

(i) Made statistically significant improvement in the seven performance measures as compared to the preceding plan year; or

(ii) Scored in the top national medicaid quartile of the performance measures.

(f) The amount of withhold annually paid to each managed care organization shall be proportional to findings of statistically significant improvement or top national medicaid quartile scoring by a managed care organization.

(g) For no more than two of the four quality focus performance measures, the authority may use an alternate methodology to approximate top national medicaid quartile performance where top quartile performance data is unavailable.

(h) For the purposes of this subsection, "external quality improvement organization" means an organization that meets the competence and independence requirements under 42 C.F.R. Sec. 438.354, as it existed on the effective date of this section.

~~((32))~~ (38)(a) The authority shall ensure that appropriate resources are dedicated to implementing the recommendations of the centers for medicare and medicaid services center for program integrity as provided to the authority in the January 2019 Washington focused program integrity review final report. Additionally, the authority shall:

(i) Work to ensure the efficient operations of the managed care plans, including but not limited to, a deconflicting process for audits with and among the managed care plans and the medicaid fraud division at the attorney general's office, to ensure the authority staff perform central audits of cases that appear across multiple managed care plans, versus the audits performed by the individual managed care plans or the fraud division; and

(ii) Remain accountable for operating in an effective and efficient manner, including performing program integrity activities that ensure high value in the medical assistance program in general and in medicaid managed care specifically;

(A) Work with its contracted actuary and the medicaid forecast work group to develop methods and metrics related to managed care program integrity activity that shall be incorporated into annual rate setting; and

(B) Work with the medicaid forecast work group to ensure the results of program integrity activity are incorporated into the rate setting process in a transparent, timely, measurable, quantifiable manner.

(b) The authority shall submit a report to the governor and appropriate committees of the legislature by October 1, 2021, that includes, but is not limited to:

(i) Specific, quantified actions that have been taken, to date, related to the recommendations of the centers for medicare and medicaid services center for program integrity as provided to the authority in the January 2019 Washington focused program integrity review final report; and

(ii) Specific, quantified information regarding the steps taken toward (a)(i), (iii), and (iv) of this subsection.

~~((33))~~ (39) No later than December 31, 2021, the health care authority, in partnership with the department of social and health services as described in section 204(16) of this act, shall submit a waiver request to the federal department of health and human services to authorize presumptive medicaid eligibility determinations for clients preparing for acute care hospital discharge who may need long-term services and supports. The department and the authority shall hold stakeholder discussions, including opportunities for public review and comment, during development of the waiver request. Upon submission of the waiver request, the department and the authority shall submit a report to the governor and the appropriate legislative committees that describes the request and identifies any statutory changes that may be necessary if the federal government approves the request.

~~((34))~~ (40) \$2,786,000 of the general fund-state appropriation for fiscal year 2022, \$3,714,000 of the general fund-state appropriation for fiscal year 2023, and \$11,009,000 of the general fund-federal appropriation are provided solely to maintain and increase access for behavioral health services through increased provider rates. The rate increases are effective October 1, 2021, and must be applied to the following codes for children and adults enrolled in the medicaid program: 90832, 90833, 90834, 90837, H0004, H0036, H2015,

H2021, H0023, 90836, 90838, 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171, 90845, 90846, 90847, 90849, 90853, 90785, and 90791. The authority may use a substitute code in the event that any of the codes identified in this subsection are discontinued and replaced with an updated code covering the same service. Within the amounts provided in this subsection the authority must:

(a) Implement this rate increase in accordance with the process established in chapter 285, Laws of 2020 (EHB 2584) (behavioral health rates);

(b) Raise the state fee-for-service rates for these codes by up to 15 percent, except that the state medicaid rate may not exceed the published medicare rate or an equivalent relative value unit rate if a published medicare rate is not available;

(c) Require in contracts with managed care organizations that, beginning October 2021, managed care organizations pay no lower than the fee-for-service rate for these codes, and adjust managed care capitation rates accordingly; and

(d) Not duplicate rate increases provided in subsections (~~((35) and (36))~~) (41) and (42) of this section.

~~((35))~~ (41) \$19,664,000 of the general fund-state appropriation for fiscal year 2022, \$26,218,000 of the general fund-state appropriation for fiscal year 2023, and \$77,996,000 of the general fund-federal appropriation are provided solely to maintain and increase access for primary care services for medicaid-enrolled patients through increased provider rates beginning October 1, 2021. Within the amounts provided in this subsection the authority must:

(d) Apply reimbursement rates required under this subsection to payment codes in a manner consistent with the temporary increase in medicaid reimbursement rates under federal rules and guidance in effect on January 1, 2014, implementing the patient protection and affordable care act, except that the authority may not require provider attestations;

(e) Pursue state plan amendments to require medicaid managed care organizations to increase rates under this subsection through adoption of a uniform percentage increase for network providers pursuant to 42 C.F.R. Sec. 438.6(c)(1)(iii)(B), as existing on January 1, 2019; and

~~((\$37,403,000))~~

\$39,296,000

The appropriation in this section is subject to the following conditions and limitations:

(1) Any savings from reduced claims costs must be reserved for funding employee benefits during the 2023-2025 fiscal biennium and may not be used for administrative expenses. The health care authority shall deposit any moneys received on behalf of the uniform medical plan resulting from rebates on prescription drugs, audits of hospitals, subrogation payments, or any other moneys received as a result of prior uniform medical plan claims payments, in the public employees' and retirees' insurance account to be used for insurance benefits.

(2) Any changes to benefits must be approved by the public employees' benefits board. The board shall not make any changes to benefits without considering a comprehensive analysis of the cost of those changes, and shall not increase benefits unless offsetting cost reductions from other benefit revisions are sufficient to fund the changes. The board shall not make any change in retiree eligibility criteria that reestablishes eligibility for enrollment in PEBB benefits. However, the funding provided anticipates that the public employees' benefits board may increase the virtual access to behavioral health resources and interventions and case management.

(3) Except as may be provided in a health care bargaining agreement, to provide benefits within the level of funding provided in part IX of this bill, the public employees' benefits board shall require or make any or all of the following: Employee premium copayments, increases increase in point-of-service cost sharing, the implementation of managed competition, or make other changes to benefits consistent with RCW 41.05.065.

Among those services were provision of the provider network and provider contracts, provider relations, portions of claims administration, member appeals, and portions of member communications.

(b) The purpose of the study is to enable the authority to provide the option of a return of some, or all, of the administrative functions that began to be provided by contracted services in 2011. The current contract for these services expires in 2029.

(c) By June 30, 2023, the health care authority must prepare a report on the uniform medical plan administrative services that were provided by contract prior to 2010, those that have been procured through the third-party administrative contract since, what

elements of those services could be provided either directly or through discrete provider contracts, and the resources the authority would need to administer these functions. The report must also compare the cost of the administration of components before and after the transition to the current contracts; include assumptions about the impacts on claims; include a description of the performance guarantees in the current contract; and provide an implementation plan to enable the health care authority to resume self-administration for some or all of the administrative services at the end of the current contract.

(d) The report must be presented to the public employees' benefits board and the school employees' benefits board at the first meeting of each board following completion of the report in 2023, and provided to the appropriate committees of the legislature thereafter.

The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (~~(+6)~~) (7) of this section. The application shall be developed to allow for the delivery of wraparound supportive behavioral health services for individuals with mental illnesses who also have a personal care need. The waiver shall be developed to standardize coverage and administration, improve the current benefit design, and clarify roles in administration of the behavioral health personal care services benefit. By December 1, 2021, the authority, in coordination with the department of social and health services, must submit a report to the office of financial management and the appropriate committees of the legislature which provides the following:

(i) A description of the new benefit design developed for the waiver, including a description of the services to be provided and the responsibility for payment under the waiver;

~~((9))~~ (10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection ~~((6))~~ (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not

diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in

payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to

the department of corrections for all department of corrections offenders that receive medicaid paid services.

~~((17))~~ (18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. It is the intent of the legislature that this will be the last appropriation made to buy back licenses for the Columbia river gillnet fishery.

(b) For all licenses purchased, the department shall calculate the reduced impacts to wild and endangered stocks based on the most recent five-year average of harvest and reserve those impacts for conservation through increased wild salmonid escapement or mark-selective fisheries capable of harvesting surplus hatchery-reared salmon where needed to meet federal genetic protection requirements for wild salmon populations in a manner consistent with state-tribal fishery management agreements.
