(2) Siting of new generation, upgraded transformers and substations, and investment in replacement and upgrades of transition lines while keeping electricity rates affordable are crucial elements of the climate change and resiliency policy.

**"Sec. 9.** RCW 13.40.210 and 2017 3rd sp.s. c 6 s 609 are each amended to read as follows:

(1) The secretary shall set a release date for each juvenile committed to its custody. The release date shall be within the prescribed range to which a juvenile has been committed under RCW 13.40.0357 or 13.40.030 except as provided in RCW 13.40.320 concerning offenders the department determines are eligible for the juvenile offender basic training camp program. Such dates shall be determined prior to the expiration of sixty percent of a juvenile's minimum term of confinement included within the prescribed range to which the juvenile has been committed. The

secretary shall release any juvenile committed to the custody of the department within four calendar days prior to the juvenile's release date or on the release date set under this chapter. Days spent in the custody of the department shall be tolled by any period of time during which a juvenile has absented himself or herself from the department's supervision without the prior approval of the secretary or the secretary's designee.

(2) The secretary shall monitor the average daily population of the state's juvenile residential facilities. When the secretary concludes that in-residence population of residential facilities exceeds one hundred five percent of the rated bed capacity specified in statute, or in absence of such specification, as specified by the department in rule, the secretary may recommend reductions to the governor. On certification by the governor that the recommended reductions are necessary, the secretary has authority to administratively release a sufficient number of offenders to reduce in-residence population to one hundred percent of rated bed capacity. The secretary shall release those offenders who have served the greatest proportion of their sentence. However, the secretary may deny release in a particular case at the request of an offender, or if the secretary finds that there is no responsible custodian, as determined by the department, to whom to release the offender, or if the release of the offender would pose a clear danger to society. The department shall notify the committing court of the release at the time of release if any such early releases have occurred as a result of excessive in-residence population. In no event shall an offender adjudicated of a violent offense be granted release under the provisions of this subsection.

(3)(a) Following the release of any juvenile under subsection (1) of this section, the secretary may require the juvenile to comply with a program of parole to be administered by the department in his or her community which shall last no longer than eighteen months, except that in the case of a juvenile sentenced for ~~((rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, or indecent liberties with forcible compulsion,))~~ a sex offense as defined under RCW 9.94A.030 the period of parole shall be twenty-four months and, in the discretion of the secretary, may be up to thirty-six months when the secretary finds that an additional period of parole is necessary and appropriate in the interests of public safety or to meet the ongoing needs of the juvenile. A parole program is mandatory for offenders released under subsection (2) of this section and for offenders who receive a juvenile residential commitment sentence for theft of a motor vehicle, possession of a stolen motor vehicle, or taking a motor vehicle without permission 1. A juvenile adjudicated for unlawful possession of a firearm, possession of a stolen firearm, theft of a firearm, or drive-by shooting may participate in aggression replacement training, functional family therapy, or functional family parole

aftercare if the juvenile meets eligibility requirements for these services. The decision to place an offender in an evidence-based parole program shall be based on an assessment by the department of the offender's risk for reoffending upon release and an assessment of the ongoing treatment needs of the juvenile. The department shall prioritize available parole resources to provide supervision and services to offenders at moderate to high risk for reoffending.

(b) The secretary shall, for the period of parole, facilitate the juvenile's reintegration into his or her community and to further this goal shall require the juvenile to refrain from possessing a firearm or using a deadly weapon and refrain from committing new offenses and may require the juvenile to: (i) Undergo available medical, psychiatric, drug and alcohol, sex offender, mental health, and other offense-related treatment services; (ii) report as directed to a parole officer and/or designee; (iii) pursue a course of study, vocational training, or employment; (iv) notify the parole officer of the current address where he or she resides; (v) be present at a particular address during specified hours; (vi) remain within prescribed geographical boundaries; (vii) submit to electronic monitoring; (viii) refrain from using illegal drugs and alcohol, and submit to random urinalysis when requested by the assigned parole officer; (ix) refrain from contact with specific individuals or a specified class of individuals; (x) meet other conditions determined by the parole officer to further enhance the juvenile's reintegration into the community; (xi) pay any court-ordered fines or restitution; and (xii) perform community restitution. Community restitution for the purpose of this section means compulsory service, without compensation, performed for the benefit of the community by the offender. Community restitution may be performed through public or private organizations or through work crews.

(c) The secretary may further require up to twenty-five percent of the highest risk juvenile offenders who are placed on parole to participate in an intensive supervision program. Offenders participating in an intensive supervision program shall be required to comply with all terms and conditions listed in (b) of this subsection and shall also be required to comply with the following additional terms and conditions: (i) Obey all laws and refrain from any conduct that threatens public safety; (ii) report at least once a week to an assigned community case manager; and (iii) meet all other requirements imposed by the community case manager related to participating in the intensive supervision program. As a part of the intensive supervision program, the secretary may require day reporting.

(d) After termination of the parole period, the juvenile shall be discharged from the department's supervision.

(4)(a) The department may also modify parole for violation thereof. If, after affording a juvenile all of the due process rights to which he or she would be entitled

if the juvenile were an adult, the secretary finds that a juvenile has violated a condition of his or her parole, the secretary shall order one of the following which is reasonably likely to effectuate the purpose of the parole and to protect the public: (i) Continued supervision under the same conditions previously imposed; (ii) intensified supervision with increased reporting requirements; (iii) additional conditions of supervision authorized by this chapter; (iv) except as provided in (a)(v) and (vi) of this subsection, imposition of a period of confinement not to exceed thirty days in a facility operated by or pursuant to a contract with the state of Washington or any city or county for a portion of each day or for a certain number of days each week with the balance of the days or weeks spent under supervision; (v) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the offense for which the offender was sentenced is rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, indecent liberties with forcible compulsion, or a sex offense that is also a serious violent offense as defined by RCW 9.94A.030; and (vi) the secretary may return the offender to confinement for the remainder of the sentence range if the youth has completed the basic training camp program as described in RCW 13.40.320.

(b) The secretary may modify parole and order any of the conditions or may return the offender to confinement for up to twenty-four weeks if the offender was sentenced for a sex offense as defined under RCW 9A.44.128 and is known to have violated the terms of parole. Confinement beyond thirty days is intended to only be used for a small and limited number of sex offenders. It shall only be used when other graduated sanctions or interventions have not been effective or the behavior is so egregious it warrants the use of the higher level intervention and the violation: (i) Is a known pattern of behavior consistent with a previous sex offense that puts the youth at high risk for reoffending sexually; (ii) consists of sexual behavior that is determined to be predatory as defined in RCW 71.09.020; or (iii) requires a review under chapter 71.09 RCW, due to a recent overt act. The total number of days of confinement for violations of parole conditions during the parole period shall not exceed the number of days provided by the maximum sentence imposed by the disposition for the underlying offense pursuant to RCW 13.40.0357. The department shall not aggregate multiple parole violations that occur prior to the parole revocation hearing and impose consecutive twenty-four week periods of confinement for each parole violation. The department is authorized to engage in rule making pursuant to chapter 34.05 RCW, to implement this subsection, including narrowly defining the behaviors that could lead to this higher level intervention.

(c) If the department finds that any juvenile in a program of parole has

possessed a firearm or used a deadly weapon during the program of parole, the department shall modify the parole under (a) of this subsection and confine the juvenile for at least thirty days. Confinement shall be in a facility operated by or pursuant to a contract with the state or any county.

(5) A parole officer of the department of children, youth, and families shall have the power to arrest a juvenile under his or her supervision on the same grounds as a law enforcement officer would be authorized to arrest the person.

(6) If so requested and approved under chapter 13.06 RCW, the secretary shall permit a county or group of counties to perform functions under subsections (3) through (5) of this section."

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 4.24.550 and 2015 c 261 s 1 are each amended to read as follows:

(1) In addition to the disclosure under subsection (5) of this section, public agencies are authorized to release information to the public regarding sex offenders and kidnapping offenders when the agency determines that disclosure of the information is relevant and necessary to protect the public and counteract the danger created by the particular offender. This authorization applies to information regarding: (a) Any person adjudicated or convicted of a sex offense as defined in RCW 9A.44.128 or a kidnapping offense as defined by RCW 9A.44.128; (b) any person under the jurisdiction of the indeterminate sentence review board as the result of a sex offense or kidnapping offense; (c) any person committed as a sexually violent predator under chapter 71.09 RCW or as a sexual psychopath under chapter 71.06 RCW; (d) any person found not guilty of a sex offense or kidnapping offense by reason of insanity under chapter 10.77 RCW; and (e) any person found incompetent to stand trial for a sex offense or kidnapping offense and subsequently committed under chapter 71.05 or 71.34 RCW.

(2) Except for the information specifically required under subsection (5) of this section, the extent of the (~~public disclosure~~) community notification of relevant and necessary information shall be rationally related to: (a) The level of risk posed by the offender to the community; (b) the locations where the offender resides, expects to reside, or is regularly found; and (c) the needs of the affected community

members for information to enhance their individual and collective safety.

(3) Except for the information specifically required under subsection (5) of this section, local law enforcement agencies shall consider the following guidelines in determining the extent of (~~a public disclosure~~) community notification made under this section: (a) For offenders classified as risk level I, the agency shall share information with other appropriate law enforcement agencies and, if the offender is a student, the public or private school regulated under Title 28A RCW or chapter 72.40 RCW which the offender is attending, or planning to attend. The agency may disclose, upon request, relevant, necessary, and accurate information to any victim or witness to the offense, any individual community member who lives near the residence where the offender resides, expects to reside, or is regularly found, and any individual who requests information regarding a specific offender; (b) for offenders classified as risk level II, the agency may also disclose relevant, necessary, and accurate information to public and private schools, child day care centers, family day care providers, public libraries, businesses and organizations that serve primarily children, women, or vulnerable adults, and neighbors and community groups near the residence where the offender resides, expects to reside, or is regularly found; (c) for offenders classified as risk level III, the agency may also disclose relevant, necessary, and accurate information to the public at large; and (d) because more localized notification is not feasible and homeless and transient offenders may present unique risks to the community, the agency may also disclose relevant, necessary, and accurate information to the public at large for offenders registered as homeless or transient.

(4) The county sheriff with whom an offender classified as risk level III is registered shall release a sex offender community notification that conforms to the guidelines established under RCW 4.24.5501.

(5)(a) When funded by federal grants or other sources, the Washington association of sheriffs and police chiefs shall create and maintain a statewide registered kidnapping and sex offender website, which shall be available to the public. The website shall post all level III and level II registered sex offenders, level I registered sex offenders only during the time they are out of compliance with registration requirements under RCW 9A.44.130 or if lacking a fixed residence as provided in RCW 9A.44.130, and all registered kidnapping offenders in the state of Washington.

(i) For level III offenders, the website shall contain, but is not limited to, the registered sex offender's name, relevant criminal convictions, address by hundred block, physical description, and photograph. The website shall provide mapping capabilities that display the sex offender's address by hundred block on a map. The website shall allow citizens to search for registered sex offenders within the state of

Washington by county, city, zip code, last name, and address by hundred block.

(ii) For level II offenders, and level I sex offenders during the time they are out of compliance with registration requirements under RCW 9A.44.130, the website shall contain, but is not limited to, the same information and functionality as described in (a)(i) of this subsection, provided that it is permissible under state and federal law. If it is not permissible, the website shall be limited to the information and functionality that is permissible under state and federal law.

(iii) For kidnapping offenders, the website shall contain, but is not limited to, the same information and functionality as described in (a)(i) of this subsection, provided that it is permissible under state and federal law. If it is not permissible, the website shall be limited to the information and functionality that is permissible under state and federal law.

(b) Law enforcement agencies must provide information requested by the Washington association of sheriffs and police chiefs to administer the statewide registered kidnapping and sex offender website.

(c)(i) (~~Within~~) Except as provided in (c)(iii) of this subsection, within five business days of the Washington association of sheriffs and police chiefs receiving any public record request under chapter 42.56 RCW for sex offender and kidnapping offender information, records or website data it holds or maintains pursuant to this section or a unified sex offender registry, the Washington association of sheriffs and police chiefs shall refer the requester in writing to the appropriate law enforcement agency or agencies for submission of such a request. The Washington association of sheriffs and police chiefs shall have no further obligation under chapter 42.56 RCW for responding to such a request.

(ii) This (~~subparagraph~~) subsection (5) (c) of this section is remedial and applies retroactively.

Information held by or accessible to the Washington association of sheriffs and police chiefs for a person who is required to register under RCW 9A.44.130 for an offense committed when under age 18 is exempt from public disclosure under chapter 42.56 RCW.

(6)(a) Law enforcement agencies responsible for the registration and dissemination of information regarding offenders required to register under RCW 9A.44.130 shall assign a risk level classification to all offenders after consideration of: (i) Any available risk level classifications provided by the department of corrections, the department of social and health services, and the indeterminate sentence review board; (ii) the agency's own application of a sex offender risk assessment tool; and (iii) other information and aggravating or mitigating factors known to the agency and deemed rationally related to the risk posed by the offender to the community at large.

(b) A sex offender shall be classified as a risk level I if his or her risk assessment and other information or factors deemed relevant by the law enforcement agency

indicate he or she is at a low risk to sexually reoffend within the community at large. A sex offender shall be classified as a risk level II if his or her risk assessment and other information or factors deemed relevant by the law enforcement agency indicate he or she is at a moderate risk to sexually reoffend within the community at large. A sex offender shall be classified as a risk level III if his or her risk assessment and other information or factors deemed relevant by the law enforcement agency indicate he or she is at a high risk to sexually reoffend within the community at large.

(c) The agency shall make a good faith effort to notify the public and residents within a reasonable period of time after the offender registers with the agency.

(d) Agencies may develop a process to allow an offender to petition for review of the offender's assigned risk level classification. The timing, frequency, and process for review are at the sole discretion of the agency.

(7) An appointed or elected public official, public employee, or public agency as defined in RCW 4.24.470, or units of local government and its employees, as provided in RCW 36.28A.010, are immune from civil liability for damages for any discretionary risk level classification decisions or release of relevant and necessary information, unless it is shown that the official, employee, or agency acted with gross negligence or in bad faith. The immunity in this section applies to risk level classification decisions and the release of relevant and necessary information regarding any individual for whom disclosure is authorized. The decision of a law enforcement agency or official to classify an offender to a risk level other than the one assigned by the department of corrections, the department of social and health services, or the indeterminate sentence review board, or the release of any relevant and necessary information based on that different classification shall not, by itself, be considered gross negligence or bad faith. The immunity provided under this section applies to the release of relevant and necessary information to other public officials, public employees, or public agencies, and to the general public.

(8) Except as may otherwise be provided by law, nothing in this section shall impose any liability upon a public official, public employee, or public agency for failing to release information authorized under this section.

~~(9) ((Nothing in this section implies that information regarding persons designated in subsection (1) of this section is confidential except as may otherwise be provided by law)) Sex offender and kidnapping offender information for a person who is required to register under RCW 9A.44.130 for an offense committed when under age 18 is exempt from public disclosure under chapter 42.56 RCW.~~

SECOND SUBSTITUTE HOUSE BILL NO. 1216 was read the second time.

With the consent of the House, amendment (087) was withdrawn.

Representative Fitzgibbon moved the adoption of the striking amendment (178):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1. STATEMENT OF LEGISLATIVE INTENT.** (1) The legislature finds that efficient and effective siting and permitting of new clean energy projects throughout Washington is necessary to: Fight climate change and achieve the state's greenhouse gas emission limits; improve air quality; grow family-wage clean energy jobs and innovative clean energy businesses that provide economic benefits across the state; and make available secure domestic sources of the clean energy products needed to transition off fossil fuels.

(2) The legislature intends to: Enable more efficient and effective siting and permitting of clean energy projects with policies and investments that protect the environment, overburdened communities, and tribal rights, interests, and resources, including cultural resources; bring benefits to the communities that host clean energy projects; and facilitate the rapid transition to clean energy that is required to avoid the worst impacts of climate change on Washington's people and places. There is no single solution for improved siting and permitting processes. Rather, a variety of efforts and investments will help bring together state, local, tribal, and federal governments, communities, workers, clean energy project developers, and others to succeed in this essential task.

(3) Efficient and effective siting and permitting will benefit from early and meaningful community and tribal engagement, and from up-front planning including identification of areas of higher and lower levels of impact, and nonproject environmental review that identifies measures to avoid, minimize, and mitigate project impacts.

(4) Incorporating the principles and strategies identified in subsections (1), (2), and (3) of this section, the legislature intends to invest in, facilitate, and require better coordinated, faster environmental review and permitting decisions by state and local governments.

(5) Therefore, it is the intent of the legislature to support efficient, effective siting and permitting of clean energy projects through a variety of interventions, including:

(a) Establishing an interagency clean energy siting coordinating council to improve siting and permitting of clean energy projects;

(b) Creating a designation for clean energy projects of statewide significance;

(c) Creating a fully coordinated permit process for clean energy projects;

(d) Improving processes for review of clean energy projects under the state environmental policy act;

(e) Requiring preparation of separate nonproject environmental impact statements for green electrolytic and renewable hydrogen projects and colocated battery

energy storage facilities, onshore utility-scale wind energy projects and colocated battery energy storage facilities, and for solar energy projects and colocated battery energy storage facilities, with the goal of preparing these nonproject reviews by June 30, 2025; and

(f) Requiring the Washington State University energy program to complete by June 30, 2025, a siting information process for pumped storage projects in Washington.

**PART 1  
INTERAGENCY CLEAN ENERGY SITING COORDINATING COUNCIL**

**NEW SECTION. Sec. 101. INTERAGENCY CLEAN ENERGY SITING COORDINATING COUNCIL.**

(1) The interagency clean energy siting coordinating council is created. The coordinating council is cochaired by the department of commerce and the department of ecology with participation from the following:

- (a) The office of the governor;
- (b) The energy facility site evaluation council;
- (c) The department of fish and wildlife;
- (d) The department of agriculture;
- (e) The governor's office of Indian affairs;
- (f) The department of archaeology and historic preservation;
- (g) The department of natural resources;
- (h) The department of transportation;
- (i) The utilities and transportation commission;
- (j) The governor's office for regulatory innovation and assistance; and
- (k) Other state and federal agencies invited by the department of commerce and the department of ecology with key roles in siting clean energy to participate on an ongoing or ad hoc basis.

(2) The department of commerce and department of ecology shall assign staff in each agency to lead the coordinating council's work and provide ongoing updates to the governor and appropriate committees of the legislature, including those with jurisdiction over the environment, energy, or economic development policy.

(3) For purposes of this section and section 102 of this act, "coordinating council" means the interagency clean energy siting coordinating council created in this section.

**NEW SECTION. Sec. 102. INTERAGENCY CLEAN ENERGY SITING COORDINATING COUNCIL DUTIES.**

(1) The responsibilities of the coordinating council include, but are not limited to:

- (a) Identifying actions to improve siting and permitting of clean energy projects as defined in section 201 of this act, including through review of the recommendations of the department of ecology and department of commerce's 2022 *Low Carbon Energy Facility Siting Improvement Report*, creating implementation plans and timelines, and making recommendations for needed funding or policy changes;

(b) Tracking federal government efforts to improve clean energy project siting and permitting, including potential federal funding sources, and identifying state agency actions to improve coordination across state, local, and federal processes or to pursue supportive funding;

(c) Conducting outreach to parties with interests in clean energy siting and permitting for ongoing input on how to improve state agency processes and actions;

(d) Establishing work groups as needed to focus on specific energy types such as solar, wind, battery storage, or emerging technologies, or specific geographies for clean energy project siting;

(e) The creation of advisory committees deemed necessary to inform the development of items identified in (a) through (d) of this subsection;

(f) Supporting the governor's office of Indian affairs in creating and updating annually, or when requested by a federally recognized Indian tribe, a list of contacts at federally recognized Indian tribes, applicable tribal laws on consultation from federally recognized Indian tribes, and tribal preferences regarding outreach about clean energy project siting and permitting, such as outreach by developers directly, by state government in the government-to-government relationship, or both;

(g) Supporting the department of archaeology and historic preservation, the governor's office of Indian affairs, the department of commerce, and the energy facility site evaluation council in developing and providing to clean energy project developers a training on consultation and engagement processes for federally recognized Indian tribes. The governor's office of Indian affairs must collaborate with federally recognized Indian tribes in the development of the training;

(h) Supporting the department of archaeology and historic preservation in updating the statewide predictive archaeological model to provide clean energy project developers information about where archaeological resources are likely to be found and the potential need for archaeological investigations; and

(i) Supporting and promptly providing information to the department of ecology in support of the nonproject reviews required under section 303 of this act.

(2) The coordinating council shall provide an annual report beginning October 1, 2024, to the governor and the appropriate committees of the legislature summarizing: Progress on efficient, effective, and responsible siting and permitting of clean energy projects; areas of additional work, including where clean energy project siting and permitting outcomes are not broadly recognized as efficient, effective, or responsible; resource needs; and any needed policy changes to help achieve the deployment of clean energy necessary to meet the state's statutory greenhouse gas emissions limits, chapter 70A.45 RCW, and the clean energy transformation act requirements, chapter 19.405 RCW, and to support achieving the state energy strategy adopted by the department of commerce.

(3) The coordinating council shall:

(a) Advise the department of commerce in:  
(i) Contracting with an external, independent third party to:

(A) Carry out an evaluation of state agency siting and permitting processes for clean energy projects and related federal and state regulatory requirements, including the energy facility site evaluation council permitting process authorized in chapter 80.50 RCW;

(B) Identify successful models used in other states for the siting and permitting of projects similar to clean energy projects, including local and state government programs to prepare build ready clean energy sites; and

(C) Develop recommendations for improving these processes, including potential policy changes and funding, with the goal of more efficient, effective siting of clean energy projects; and

(ii) Reporting on the evaluation and recommendations in (a)(i) of this subsection to the governor and the legislature by July 1, 2024;

(b) Pursue development of a consolidated clean energy application similar to the joint aquatic resources permit application for, at a minimum, state permits needed for clean energy projects. The department of ecology shall lead this effort and engage with federal agencies and local governments to explore inclusion of federal and local permit applications as part of the consolidated application. The department may design a single consolidated application for multiple clean energy project types, may design separate applications for individual clean energy technologies, or may design an application for related resources. The department of ecology shall provide an update on its development of consolidated permit applications for clean energy projects to the governor and legislature by December 31, 2024. The consolidated permit application process must be available, but not required, for clean energy projects;

(c) Explore development of a consolidated permit for clean energy projects. The department of ecology shall lead this effort and, in consultation with federally recognized Indian tribes, explore options including a clean energy project permit that consolidates department of ecology permits only, or that consolidates permits from multiple state and local agencies. The permit structure must identify criteria or conditions that must be met for projects to use the consolidated permit. The department of ecology may analyze criteria or conditions as part of a nonproject review under chapter 43.21C RCW. The department of ecology shall update the legislature on its evaluation of consolidated permit options and make recommendations by October 1, 2024; and

(d) Determine priorities for categories of clean energy projects to be the focus of new nonproject environmental impact statements under chapter 43.21C RCW for the legislature to fund subsequent to the nonproject environmental impact statements specified in section 302 of this act.

CLEAN ENERGY PROJECTS OF STATEWIDE SIGNIFICANCE—DEPARTMENT OF COMMERCE DECISION.** (1) (a) The department of commerce, in consultation with natural resources agencies and other state agencies identified as likely to have a role in siting or permitting a project, must review applications received under section 202 of this act.

(b) The director of the department of commerce must determine within 60 days whether to designate an applicant's project as a clean energy project of statewide significance. The department of commerce may pause its review of an application and the applicability of the 60-day determination time frame under this subsection to request additional information from an applicant.

(2) The department of commerce may designate a clean energy project of statewide significance taking into consideration:

(a) Whether the project qualifies as a clean energy project;

(b) Whether the project will: Contribute to achieving state emission reduction limits under chapter 70A.45 RCW; be consistent with the state energy strategy adopted by the department of commerce; contribute to achieving other state requirements for clean energy and greenhouse gas emissions reductions; and support the state's economic development goals;

**NEW SECTION. Sec. 204.** CLEAN ENERGY COORDINATED PERMITTING PROCESS—DEPARTMENT OF ECOLOGY DUTIES. An optional, fully coordinated permit process is established for clean energy projects that do not apply to the energy facility site evaluation council under chapter 80.50 RCW. In support of the coordinated permitting process for clean energy projects, the department of ecology must:

(1) Act as the central point of contact for the project proponent for the coordinated permitting process for projects that do not apply to the energy facility site evaluation council under chapter 80.50 RCW and communicate with the project proponent about defined issues;

(2) Conduct an initial assessment of the proposed project review and permitting actions for coordination purposes as provided in section 205 of this act;

(3) Ensure that the project proponent has been informed of all the information needed to apply for the state and local permits that are included in the coordinated permitting process;

(4) Facilitate communication between project proponents and agency staff to promote timely permit decisions and promote adherence to agreed schedules;

(5) Verify completion among participating agencies of administrative review and permit procedures, such as providing public notice;

(6) Assist in resolving any conflict or inconsistency among permit requirements and conditions;

(7) Consult with potentially affected federally recognized Indian tribes as provided in section 209 of this act in support of the coordinated permitting process;

(8) Engage with potentially affected overburdened communities as provided in section 209 of this act;

(9) Manage a fully coordinated permitting process; and

(10) Coordinate with local jurisdictions to assist with fulfilling the requirements

of chapter 36.70B RCW and other local permitting processes.

**NEW SECTION. Sec. 205.** CLEAN ENERGY COORDINATED PERMITTING PROCESS INITIAL ASSESSMENT. (1) Upon the request of a proponent of a clean energy project, the department of ecology must conduct an initial assessment to determine the level of coordination needed, taking into consideration the complexity of the project and the experience of those expected to be involved in the project application and review process.

(2) The initial project assessment must consider the complexity, size, and need for assistance of the project and must address as appropriate:

(a) The expected type of environmental review;

(b) The state and local permits or approvals that are anticipated to be required for the project;

(c) The permit application forms and other application requirements of the participating permit agencies;

(d) The anticipated information needs and issues of concern of each participating agency; and

(e) The anticipated time required for the environmental review process under chapter 43.21C RCW and permit decisions by each participating agency, including the estimated time required to determine if the permit applications are complete, to conduct the environmental review under chapter 43.21C RCW, and conduct permitting processes for each participating agency. In determining the estimated time required, full consideration must be given to achieving the greatest possible efficiencies through any concurrent studies and any consolidated applications, hearings, and comment periods.

(3) The outcome of the initial assessment must be documented in writing, furnished to the project proponent, and be made available to the public.

(4) The initial assessment must be completed within 60 days of the clean energy project proponent's request to the department under this section, unless information on the project is not complete.

**NEW SECTION. Sec. 206.** CLEAN ENERGY COORDINATED PERMITTING PROCESS REQUIREMENTS AND PROCEDURES. (1) A project proponent may submit a written request to the department of ecology pursuant to section 208 of this act and a local government development agreement to support local government actions pursuant to section 207 of this act for participation in a fully coordinated permitting process. To be eligible to participate in the fully coordinated permit process:

(a) The project proponent must:

(i) Enter into a cost-reimbursement agreement pursuant to section 208 of this act;

(ii) Provide sufficient information on the project and project site to identify probable significant adverse environmental impacts;

(iii) Provide information on any voluntary mitigation measures; and

(iv) Provide information on engagement actions taken by the proponent with federally recognized Indian tribes, local government, and overburdened communities; and

(b) The department of ecology must determine that the project raises complex coordination, permit processing, or substantive permit review issues.

(2) A project proponent who requests designation as a fully coordinated project must provide the department of ecology with a complete description of the project. The department of ecology may request any information from the project proponent that is necessary to make the designation under this section and may convene a meeting of the likely participating permit agencies.

(3) For a fully coordinated permitting process, the department of ecology must serve as the main point of contact for the project proponent and participating agencies with regard to coordinating the permitting process for the project as a whole. Each participating permit agency must designate a single point of contact for coordinating with the department of ecology. The department of ecology must keep a schedule identifying required procedural steps in the permitting process and highlighting substantive issues as appropriate that must be resolved in order for the project to move forward. In carrying out these responsibilities, the department of ecology must:

(a) Conduct the duties for the coordinated permitting process as described in section 205 of this act;

(b)(i) Reach out to tribal or federal jurisdictions responsible for issuing a permit for the project and invite them to participate in the coordinated permitting process or to receive periodic updates of the project;

(ii) Reach out to local jurisdictions responsible for issuing a permit for the project and inform them of their obligations under section 207 of this act.

(4) Within 30 days, or longer with agreement of the project proponent, of the date that the department of ecology determines a project is eligible for the fully coordinated permitting process, the department of ecology shall convene a work plan meeting with the project proponent, local government, and the participating permit agencies to develop a coordinated permitting process schedule. The work plan meeting agenda may include any of the following:

(a) Review of the permits that are anticipated for the project;

(b) A review of the permit application forms and other application requirements of the agencies that are participating in the coordinated permitting process;

(c) An estimation of the timelines that will be used by each participating permit agency to make permit decisions, including the estimated time periods required to determine if the permit applications are complete and to review or respond to each application or submittal of new information. In the development of this timeline, full

attention must be given to achieving the maximum efficiencies possible through concurrent studies and consolidated applications, hearings, and comment periods; or

(d) An estimation of reasonable costs for the department of ecology, participating agencies, and the county, city, or town in which the project is proposed for environmental review and permitting, based on known information about the project.

(5) Each participating agency and the lead agency under chapter 43.21C RCW must send at least one representative qualified to discuss the applicability and timelines associated with all permits administered by that agency or jurisdiction to the work plan meeting. The department of ecology must notify any relevant federal agency or potentially affected federally recognized Indian tribe of the date of the meeting and invite them to participate in the process.

(6) Any accelerated time period for the consideration of a permit application or for the completion of the environmental review process under chapter 43.21C RCW must be consistent with any statute, rule, or regulation, or adopted state policy, standard, or guideline that requires the participation of other agencies, federally recognized Indian tribes, or interested persons in the application process.

(7) Upon the completion of the work plan meeting under subsection (4) of this section, the department of ecology must finalize the coordinated permitting process schedule, share it in writing with the project proponent, participating state agencies, lead agencies under chapter 43.21C RCW, and cities and counties subject to an agreement specified in section 207 of this act, and make the schedule available to the public.

(8) As part of the coordinated permit process, the developer may prepare a community benefit agreement or other similar document to identify how to mitigate potential community impacts or impacts to tribal rights and resources, including cultural resources. The agreement should include benefits in addition to jobs or tax revenues resulting from the project. Approval of any benefit agreement or other legal document stipulating the benefits that the developer agrees to fund or furnish, in exchange for community or tribal government support of the project, must be made by the local government legislative authority of the county, city, or town in which the project is proposed or by the relevant federally recognized Indian tribal government.

(9) If a lead agency under chapter 43.21C RCW, a permit agency, or the project proponent foresees, at any time, that it will be unable to meet the estimated timelines or other obligations under the schedule agreement, it must notify the department of ecology of the reasons for the delay and offer potential solutions or an amended timeline. The department of ecology must notify the participating agencies and the project proponent and, upon agreement of all parties, adjust the schedule or, if necessary, schedule another work plan meeting.

(10) The project proponent may withdraw from the coordinated permitting process by submitting to the department of ecology a written request that the process be terminated. Upon receipt of the request, the department of ecology must notify each participating agency that a coordinated permitting process is no longer applicable to the project.

**NEW SECTION. Sec. 207. CLEAN ENERGY COORDINATED PERMITTING PROCESS—LOCAL JURISDICTION AGREEMENTS.** (1)(a) Counties and cities with clean energy projects that are determined to be eligible for the fully coordinated permit process shall enter into an agreement with the department of ecology or with the project proponents of clean energy projects for expediting the completion of projects.

(b) For the purposes of this section, "expedite" means that a county or city will develop and implement a method to accelerate the process for permitting and environmental review. Expediting should not disrupt or otherwise delay the permitting and environmental review of other projects or require the county or city to incur additional costs that are not compensated.

(2) Agreements required by this section must include requirements that the county or city coordinate with the department of ecology and conduct environmental review and permitting to align with the work plan described in section 206(4) of this act and:

(a) Expedite permit processing for the design and construction of the project;

(b) Expedite environmental review processing;

(c) Expedite processing of requests for street, right-of-way, or easement vacations necessary for the construction of the project;

(d) Develop and follow a plan for consultation with potentially affected federally recognized Indian tribes; and

(e) Carry out such other actions identified by the department of ecology as needed for the fully coordinated permitting process.

**NEW SECTION. Sec. 208. CLEAN ENERGY COORDINATED PERMITTING PROCESS—COST-REIMBURSEMENT AGREEMENTS.** (1) For a fully coordinated permitting process, a project proponent must enter into a cost-reimbursement agreement with the department of ecology in accordance with RCW 43.21A.690. The cost-reimbursement agreement is to recover reasonable costs incurred by the department of ecology and participating agencies in carrying out the coordinated permitting process.

(2) The cost-reimbursement agreement may include deliverables and schedules for invoicing and reimbursement.

(3) For a fully coordinated permitting process, a project proponent must enter into a development agreement with the county, city, or town in which the project is proposed, in accordance with the authorization and requirements in RCW 36.70B.170 through 36.70B.210. The development agreement must detail the

obligations of the local jurisdiction and the project applicant. It must also include, but not be limited to, the process the county, city, or town will implement for meeting its obligation to expedite the application, other clarifications for project phasing, and an estimate of reasonable costs.

(4) If a project proponent foresees, at any time, that it will be unable to meet its obligations under the agreement, it must notify the department of ecology and state the reasons, along with proposals for resolution.

**NEW SECTION. Sec. 209. CLEAN ENERGY COORDINATED PERMITTING PROCESS—TRIBAL CONSULTATION AND OVERBURDENED COMMUNITY ENGAGEMENT.** (1)(a) The department of ecology must offer early, meaningful, and individual consultation with any affected federally recognized Indian tribe on designated clean energy projects participating in the coordinated permitting process for the purpose of understanding potential impacts to tribal rights, interests, and resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which an Indian tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required by state law, or by a state agency. The goal of the consultation process is to support the coordinated permitting process by early identification of tribal rights, interests, and resources, including tribal cultural resources, potentially affected by the project, and identifying solutions, when possible, to avoid, minimize, or mitigate any adverse effects on tribal rights, interests, or resources, including tribal cultural resources, based on environmental or permit reviews.

(b) At the earliest possible date after the initiation of the coordinated permitting process under this chapter, the department of ecology shall engage in a preapplication process with all affected federally recognized Indian tribes.

(i) The department of ecology must notify the department of archaeology and historic preservation, the department of fish and wildlife, and all affected federally recognized Indian tribes within the project area. The notification must include geographical location, detailed scope of the proposed project, preliminary proposed project details available to federal, state, or local governmental jurisdictions, and all publicly available materials.

(ii) The department of ecology must also offer to discuss the project with the department of archaeology and historic preservation, the department of fish and wildlife, and all affected federally recognized Indian tribes within the project area. Discussions may include the project's impact to tribal rights, interests, and resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and

interests in tribal lands and lands within which a tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order.

(iii) All affected federally recognized Indian tribes may submit to the department of ecology a summary of tribal issues, questions, concerns, or other statements regarding the project, which must become part of the official files maintained by the department of ecology for the coordinated permitting process. The summary does not limit what issues affected federally recognized Indian tribes may raise in the consultation process.

(iv) The notification and offer to initiate discussion must be documented by the department of ecology and delivered to the department of archaeology and historic preservation, the department of fish and wildlife, and to the affected federally recognized Indian tribe or tribes. If the discussions pursuant to (b)(ii) of this subsection do not occur, the department of ecology must document the reason why the discussion or discussions did not occur.

(v) Nothing in this section may be interpreted to require the disclosure of information that is exempt from disclosure pursuant to RCW 42.56.300 or federal law, including section 304 of the national historic preservation act of 1966. Any information that is exempt from disclosure pursuant to RCW 42.56.300 or federal law, including section 304 of the national historic preservation act of 1966, shall not become part of publicly available coordinated permitting process files.

(2) The department of ecology must identify overburdened communities, as defined in RCW 70A.02.010, which may be potentially affected by clean energy projects participating in the coordinated permitting process. The department of ecology must verify these communities have been meaningfully engaged in the regulatory processes in a timely manner by participating agencies and their comments considered for determining potential impacts.

NEW SECTION. **Sec. 210.** MISCELLANEOUS.

(1) Nothing in this chapter:

(a) Prohibits an applicant, a project proponent, a state agency, a local government, or a federally recognized Indian tribe from entering into a nondisclosure agreement to protect confidential business information, trade secrets, financial information, or other proprietary information;

(b) Limits or affects other statutory provisions specific to any state agency related to that agency's procedures and protocols related to the identification, designation, or disclosure of information identified as confidential business information, trade secrets, financial information, or other proprietary information;

(c) Limits or affects the provisions of chapter 42.56 RCW as they apply to information or nondisclosure agreements obtained by a state agency under this chapter; or

(d) Relieves the responsible official under chapter 43.21C RCW for an action of the official's responsibilities under that chapter.

(2) The decisions by the department of commerce to designate a clean energy project of statewide significance must be made available to the public. Regardless of any exemptions otherwise set forth in RCW 42.56.270, publicly shared information must include the designee's name, a brief description of the project, the intended project location, a description of climate and economic development benefits to the state and communities therein, a tribal engagement plan, a community engagement plan, and a community benefit agreement if applicable.

(3) The department of commerce may terminate a designation of a clean energy project of statewide significance for reasons that include, but are not limited to, failure to comply with requirements of the designation or the emergence of new information that significantly alters the department of commerce's assessment of the applicant's application, project, or project proponent. The department of commerce must notify the applicant, project proponent, and the department of ecology of the termination in writing within 30 days.

(4) Nothing in this chapter affects the jurisdiction of the energy facility site evaluation council under chapter 80.50 RCW.

(5) This chapter does not limit or abridge the powers and duties granted to a participating permit agency under the law or laws that authorizes or requires the agency to issue a permit for a project. Each participating permit agency retains its authority to make all decisions on all substantive matters with regard to the respective component permit that is within its scope of its responsibility including, but not limited to, the determination of permit application completeness, permit approval or approval with conditions, or permit denial.

**PART 3  
PERMITTING AND ENVIRONMENTAL REVIEW  
PROVISIONS FOR CLEAN ENERGY PROJECTS**

NEW SECTION. **Sec. 301.** A new section is added to chapter 43.21C RCW to read as follows:

(l) "Storage facility" has the same meaning as defined in RCW 80.50.020.

(2)(a) After the submission of an environmental checklist and prior to issuing a threshold determination that a clean energy project proposal is likely to cause a probable significant adverse environmental impact consistent with RCW 43.21C.033, the lead agency must notify the project applicant and explain in writing the basis for its anticipated determination of significance. Prior to issuing the threshold determination of significance, the lead agency must give the project applicant the option of withdrawing and revising its application and the associated environmental checklist. The lead agency shall make its threshold determination based upon the changed or clarified application and associated environmental checklist. The responsible official has no more than 30 days from the date of the resubmission of a clarified or changed application to make a threshold determination, unless the applicant makes material changes that substantially modify the impact of the proposal, in which case the responsible official must treat the resubmitted clarified or changed application as new, and is subject to the timelines established in RCW 43.21C.033.

(b) The notification required under (a) of this subsection is not an official determination by the lead agency and is not subject to appeal under this chapter.

(c) Nothing in this subsection amends the requirements of RCW 43.21C.033 as they apply to proposals that are not for clean energy projects and nothing in this subsection precludes the lead agency from allowing an applicant for a proposal that is not a clean energy project to follow application processes similar to or the same as the application processes identified in this subsection.

(3)(a) When an environmental impact statement is required, a lead agency shall prepare a final environmental impact statement for clean energy projects within 24 months of a threshold determination of a probable significant, adverse environmental impact.

(b) A lead agency may work with clean energy project applicants to set or extend a time limit longer than 24 months under (a) of this subsection, provided the:

(i) Applicant agrees to a longer time limit; and

(ii) Responsible official for the lead agency maintains an updated schedule available for public review.

(c) For all clean energy projects that require the preparation of an environmental impact statement, the lead agency shall work collaboratively with applicants and all agencies that will have actions requiring review under this chapter to develop a schedule that shall:

(i) Include a list of, and roles and responsibilities for, all entities that have actions requiring review under this chapter for the project;

(ii) Include a comprehensive schedule of dates by which review under this chapter will be completed, all actions requiring review under this chapter will be taken, and the public will have an opportunity to participate;

(iii) Be completed within 60 days of issuance of a determination of significance;

(iv) Be updated as needed, but no later than 30 days of missing a date on the schedule; and

(v) Be available for public review on the state environmental policy act register.

(d) A lead agency may fulfill its responsibilities under this subsection with a coordinated project plan prepared pursuant to 42 U.S.C. Sec. 4370m-2(c)(1) if it includes all dates identified under (c)(ii) of this subsection.

(e) A failure to comply with the requirements in this subsection is not subject to appeal and does not provide a basis for the invalidation of the review by an agency under this chapter. Nothing in this subsection creates any civil liability for an agency or creates a new cause of action against an agency.

(f) For clean energy projects, the provisions of this subsection are in addition to the requirements of RCW 43.21C.0311.

(4) This subsection provides clarifications on the content of review under this chapter specific to clean energy projects.

(a) In defining the proposal that is the subject of review under this chapter, a lead agency may not combine the evaluation of a clean energy project proposal with other proposals unless the:

(i) Proposals are closely related; or

(ii) Applicant agrees to combining the proposals' evaluation.

(b) An agency with authority to impose mitigation under RCW 43.21C.060 may require mitigation measures for clean energy projects only to address the environmental impacts that are attributable to and caused by a proposal.

**NEW SECTION. Sec. 302.** A new section is added to chapter 43.21C RCW to read as follows:

**NONPROJECT ENVIRONMENTAL IMPACT STATEMENTS.** (1) The department of ecology shall prepare nonproject environmental impact statements, pursuant to RCW 43.21C.030, that assess and disclose the probable significant adverse environmental

impacts, and that identify related mitigation measures, for each of the following categories of clean energy projects, and colocated battery energy storage projects that may be included in such projects:

(a) Green electrolytic or renewable hydrogen projects;

(b) Utility-scale solar energy projects, which will consider the findings of the Washington State University least-conflict solar siting process; and

(c) Onshore utility-scale wind energy projects.

(2) The scope of a nonproject environmental review shall be limited to the probable, significant adverse environmental impacts in geographic areas that are suitable for the applicable clean energy type. The department of ecology may consider standard attributes for likely development, proximity to existing transmission or complementary facilities, and planned corridors for transmission capacity construction, reconstruction, or enlargement. The nonproject review is not required to evaluate geographic areas that lack the characteristics necessary for the applicable clean energy project type.

(3) (a) The scope of nonproject environmental impact statements must consider, as appropriate, analysis of the following probable significant adverse environmental impacts, including direct, indirect, and cumulative impacts to:

(i) Historic and cultural resources;

(ii) Species designated for protection under RCW 77.12.020 or the federal endangered species act;

(iii) Landscape scale habitat connectivity and wildlife migration corridors;

(iv) Environmental justice and overburdened communities as defined in RCW 70A.02.010;

(v) Cultural resources and elements of the environment relevant to tribal rights, interests, and resources including tribal cultural resources, and fish, wildlife, and their habitat;

(vi) Land uses, including agricultural and ranching uses; and

(vii) Military installations and operations.

(b) The nonproject environmental impact statements must identify measures to avoid, minimize, and mitigate probable significant adverse environmental impacts identified during the review. These include measures to mitigate probable significant adverse environmental impacts to elements of the environment as defined in WAC 197-11-444 as it existed as of January 1, 2023, tribal rights, interests, and resources, including tribal cultural resources, as identified in RCW 70A.65.305, and overburdened communities as defined in RCW 70A.02.010. The department of ecology shall consult with federally recognized Indian tribes and other agencies with expertise in identification and mitigation of probable, significant adverse environmental impacts including, but not limited to, the department of fish and wildlife. The department of ecology shall further specify when probable, significant

adverse environmental impacts cannot be mitigated.

(4) In defining the scope of nonproject review of clean energy projects, the department of ecology shall request input from agencies, federally recognized Indian tribes, industry, stakeholders, local governments, and the public to identify the geographic areas suitable for the applicable clean energy project type, based on the climatic and geophysical attributes conducive to or required for project development. The department of ecology will provide opportunities for the engagement of tribes, overburdened communities, and stakeholders that self-identify an interest in participating in the processes.

(5) The department of ecology will offer early and meaningful consultation with any affected federally recognized Indian tribe on the nonproject review under this section for the purpose of understanding potential impacts to tribal rights and resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which an Indian tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order. Certain information obtained by the department of ecology under this section is exempt from disclosure consistent with RCW 42.56.300.

(6) Final nonproject environmental review documents for the clean energy projects identified in subsection (1) of this section, where applicable, shall include maps identifying probable, significant adverse environmental impacts for the resources evaluated. Maps must be prepared with the intention to illustrate probable, significant impacts, creating a tool that may be used by project proponents, tribes, and government to inform decision making. The maps may not be used in the place of surveys on specific parcels of land or input of a potentially affected federally recognized Indian tribe regarding specific parcels.

(7) Following the completion of a nonproject review subject to this section, the interagency clean energy siting coordinating council created in section 101 of this act must consider the findings and make recommendations to the legislature and governor on potential areas to designate as clean energy preferred zones for the clean energy project technology analyzed, and any taxation, regulatory, environmental review, or other benefits that should accrue to projects in such designated preferred zones.

(8) Nothing in this section prohibits or precludes projects from being located outside areas designated as clean energy preferred zones.

**NEW SECTION. Sec. 303.** A new section is added to chapter 43.21C RCW to read as follows:

**LEAD AGENCY USE OF NONPROJECT ENVIRONMENTAL IMPACT STATEMENT.** (1) A lead agency conducting a project-level environmental review under this chapter of a clean energy project identified in section 302(1) of this act must consider a

nonproject environmental impact statement prepared pursuant to section 302 of this act in order to identify and mitigate project-level probable significant adverse environmental impacts.

(2)(a) Project-level environmental review conducted pursuant to this chapter of a clean energy project identified in section 302(1) of this act must begin with review of the applicable nonproject environmental impact statement prepared pursuant to section 302 of this act. The review must address any probable significant adverse environmental impacts associated with the proposal that were not analyzed in the nonproject environmental impact statements prepared pursuant to section 302 of this act. The review must identify any mitigation measures specific to the project for probable significant adverse environmental impacts.

(b) Lead agencies reviewing site-specific project proposals for clean energy projects under this chapter shall use the nonproject review described in this section through one of the following methods and in accordance with WAC 197-11-600, as it existed as of January 1, 2023:

(i) Use of the nonproject review unchanged, in accordance with RCW 43.21C.034, if the project does not cause any probable significant adverse environmental impact not identified in the nonproject review;

(ii) Preparation of an addendum;

(iii) Incorporation by reference; or

(iv) Preparation of a supplemental environmental impact statement.

(3) Clean energy project proposals following the recommendations developed in the nonproject environment review completed pursuant to section 302 of this act must be considered to have mitigated the probable significant adverse project-specific environmental impacts under this chapter for which recommendations were specifically developed unless the project-specific environmental review identifies project-level probable significant adverse environmental impacts not addressed in the nonproject environmental review.

**NEW SECTION. Sec. 304.** A new section is added to chapter 36.70B RCW to read as follows:

**PROHIBITION ON DEMONSTRATION OF NEED.** During project review of a project to construct or improve facilities for the generation, transmission, or distribution of electricity, a local government may not require a project applicant to demonstrate the necessity or utility of the project other than to require, as part of a completed application under RCW 36.70B.070(2), submission of any publicly available documentation required by the federal energy regulatory commission or its delegees or the utilities and transportation commission or its delegees, or from any other federal agency with regulatory authority over the assessment of electric power transmission and distribution needs as applicable.

**NEW SECTION. Sec. 305.** A new section is added to chapter 36.01 RCW to read as follows:

A county may not prohibit the installation of wind and solar resource evaluation equipment necessary for the design and environmental planning of a renewable energy project.

**NEW SECTION. Sec. 306. IDENTIFYING INFORMATION FOR PUMPED STORAGE SITING.** (1) The Washington State University energy program shall conduct a process to identify issues and interests related to siting pumped storage projects in Washington state, to support expanded capacity to store intermittently produced renewable energy, such as from wind and solar, as part of the state's transition from fossil fuel to 100 percent clean energy. The Washington State University energy program may decide to include within the process's scope the collocation of pumped storage with wind or solar energy generation. The goal of the process is to identify and understand issues and interests of various stakeholders and federally recognized Indian tribes related to areas where pumped storage might be sited, providing useful information to developers of potential projects, and for subsequent environmental reviews under the state environmental policy act.

(2) In carrying out this process, the Washington State University energy program shall provide ample opportunities for the engagement of federally recognized Indian tribes, local governments and special purpose districts, land use and environmental organizations, and additional stakeholders that self-identify as interested in participating in the process.

(3) The Washington State University energy program must develop and make available a map and associated GIS data layers, highlighting areas identified through the process.

(4) Any information provided by tribes will help to inform the map product, but the Washington State University energy program may not include sensitive tribal information, as identified by federally recognized Indian tribes, in the publicly available map or GIS data layers. The information developed by this process and creation of the map under this section does not supplant the need for project developers to conduct early and individual outreach to federally recognized Indian tribes and other affected communities. The Washington State University energy program must take precautions to prevent disclosure of any sensitive tribal information it receives during the process, consistent with RCW 42.56.300.

(5) The pumped storage siting information process must be completed by June 30, 2025.

**NEW SECTION. Sec. 307.** (1)(a) The department must consult with stakeholders from rural communities, agriculture, natural resource management and conservation, and forestry to gain a better understanding of the benefits and impacts of anticipated changes in the state's energy system, including the siting of facilities under the

jurisdiction of the energy facility site evaluation council, and to identify risks and opportunities for rural communities. This consultation must be conducted in compliance with the community engagement plan developed by the department under chapter 70A.02 RCW and with input from the environmental justice council, using the best recommended practices available at the time. The department must collect the best available information and learn from the lived experiences of people in rural communities, with the objective of improving state implementation of clean energy policies, including the siting of energy facilities under the jurisdiction of the energy facility site evaluation council, in ways that protect and improve life in rural Washington. The department must consult with an array of rural community members, including: Low-income community and vulnerable population members or representatives; legislators; local elected officials and staff; those involved with agriculture, forestry, and natural resource management and conservation; renewable energy project property owners; utilities; large energy consumers; and others.

(b) The consultation must include stakeholder meetings with at least one in eastern Washington and one in western Washington.

(c) The department's consultation with stakeholders may include, but is not limited to, the following topics:

(i) Energy facility siting under the jurisdiction of the energy facility site evaluation council, including placement of new renewable energy resources, such as wind and solar generation, pumped storage, and batteries or new nonemitting electric generation resources, and their contribution to resource adequacy;

(ii) Production of hydrogen, biofuels, and feedstocks for clean fuels;

(iii) Programs to reduce energy cost burdens on rural families and farm operations;

(iv) Electric vehicles, farm and warehouse equipment, and charging infrastructure suitable for rural use;

(v) Efforts to capture carbon or produce energy on agricultural, forest, and other rural lands, including dual use solar projects that ensure ongoing agricultural operations;

(vi) The use of wood products and forest practices that provide low-carbon building materials and renewable fuel supplies; and

(vii) The development of clean manufacturing facilities, such as solar panels, vehicles, and carbon fiber.

(2)(a) The department must complete a report on rural clean energy and resilience that takes into consideration the consultation with rural stakeholders as described in subsection (1) of this section. The report must include recommendations for how policies, projects, and investment programs, including energy facility siting through the energy facility site evaluation council, can be developed or amended to more equitably distribute costs and benefits to rural communities. The report must include an assessment of how to improve the total benefits to rural areas overall, as well as

the equitable distribution of benefits and costs within rural communities.

(b) The report must include a baseline understanding of rural energy production and consumption, and collect data on their economic impacts. Specifically, the report must examine:

(i) Direct, indirect, and induced jobs in construction and operations;

(ii) Financial returns to property owners;

(iii) Effects on local tax revenues and public services, which must include whether any school districts had a net loss of resources from diminished local effort assistance payments required under chapter 28A.500 RCW and impacts to public safety, the 911 emergency communications system, mental health, criminal justice, and rural county roads;

(iv) Effects on other rural land uses, such as agriculture, natural resource management and conservation, and tourism;

(v) Geographic distribution of large energy projects previously sited or forecast to be sited in Washington;

(vi) Potential forms of economic development assistance and impact mitigation payments; and

(vii) Relevant information from the least-conflict priority solar siting pilot project in the Columbia basin of eastern and central Washington required under section 607, chapter 334, Laws of 2021.

(c) The report must include a forecast of what Washington's clean energy transition will require for siting energy projects in rural Washington. The department must gather and analyze the best available information to produce forecast scenarios.

(d) By December 1, 2024, the department must submit a final report on rural clean energy and resilience to the joint committee on energy supply, energy conservation, and energy resilience created in RCW 44.39.010 and the appropriate policy and fiscal committees of the legislature.

(3) For the purposes of this section, "department" means the department of commerce.

**Sec. 308.** RCW 44.39.010 and 2005 c 299 s 1 are each amended to read as follows:

There is hereby created the joint committee on energy supply ~~((and))~~ energy conservation, and energy resilience.

**Sec. 309.** RCW 44.39.012 and 2005 c 299 s 4 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Committee" means the joint committee on energy supply ~~((and))~~ energy conservation, and energy resilience.

(2) "Conservation" means reduced energy consumption or energy cost, or increased efficiency in the use of energy, and activities, measures, or equipment designed to achieve such results.

**NEW SECTION. Sec. 310.** (1) The committee shall review the report produced by the department of commerce under section

307 of this act and consider any policy or budget recommendations to reduce impacts and increase benefits of the clean energy transition for rural communities, including mechanisms to support local tax revenues and public services.

(2) The committee must hold at least two meetings, at least one of which must be in eastern Washington. The first meeting of the committee must occur by September 30, 2023.

(3) Relevant state agencies, departments, and commissions, including the energy facility site evaluation council, shall cooperate with the committee and provide information as the chair reasonably requests.

(4) The committee shall report its findings and any recommendations to the energy facility site evaluation council and the committees of the legislature with jurisdiction over environment and energy laws by December 1, 2024. Recommendations of the committee may be made by a simple majority of committee members. In the event that the committee does not reach majority-supported recommendations, the committee may report minority findings supported by at least two members of the committee.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Alternative energy" means energy derived from an alternative energy resource specified in RCW 80.50.020(1).

(b) "Committee" means the joint committee on energy supply, energy conservation, and energy resilience created in RCW 44.39.010.

(6) This section expires June 30, 2025.

SECOND SUBSTITUTE HOUSE BILL NO. 1316 was read the second time.

Representative Stokesbary moved the adoption of the striking amendment (270):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that dual credit enrollment in high school improves college attendance, persistence, and completion, especially for low-income students. Students who enrolled in dual credit courses in high school improve their likelihood of college success. They are more likely to graduate college and

more likely to complete their bachelor's degree within four years. However, the legislature also finds that low-income students are less likely to access dual credit opportunities in high school, and they are subsequently less likely to apply to college and to complete their bachelor's degree within four years. The legislature finds that when students who have financial need in college first obtain dual credits while in high school, they improve their likelihood of college success. In addition, students who are eligible for financial aid in college actually reduce costs to the state by pursuing dual credit enrollment while in high school.

Therefore, it is the intent of the legislature to remove barriers to dual credit participation in high school, especially for low-income students, by subsidizing all dual credit costs and fees for students whose family incomes would make them eligible for state financial aid in college. It is also the intent of the legislature to encourage low-income students to complete dual credit courses in high school by sharing the savings to which these students' efforts contributed, in the form of a \$1,000 payment to eligible students who complete their first year of college.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28A.600 RCW to read as follows:

(1) The office of the superintendent of public instruction shall administer a program to subsidize certain dual credit program costs for eligible students.

(2)(a) For eligible students enrolled in running start courses, the program must subsidize:

(i) Any student-voted fees, technology fees, course fees, laboratory fees, or other fees required for enrollment, up to 18 credits per quarter, that were not waived by the institution of higher education under RCW 28A.600.310; and

(ii) Textbooks and other course materials required by the institution of higher education.

(b) To subsidize the costs required by (a) of this subsection, the office of the superintendent of public instruction must transmit to each institution of higher education \$1,000 per full-time equivalent eligible student per academic year. At the end of the academic year, each institution of higher education must return any unused funds to the office of the superintendent of public instruction.

(c) For the purposes of this subsection (2), "institution of higher education" has the same meaning as in RCW 28A.600.300.

(3) For eligible students enrolled in college in the high school program courses, the program must subsidize tuition fees permitted under RCW 28A.600.287.

(4) For eligible students enrolled in career and technical education dual credit courses, the program must subsidize transcription fees assessed by the institution of higher education.

(5) For eligible students taking advanced placement exams, international baccalaureate exams, and Cambridge international exams,

the program must subsidize student fees related to exam registration and administration.

(6) The office of the superintendent of public instruction must collaborate with institutions of higher education to facilitate identification of eligible students who qualify for fee waivers for running start program courses under RCW 28A.600.310.

(7) The office of the superintendent of public instruction, school districts, institutions of higher education, and other recipients of program funds under this section may not use the funds to supplant federal and private funds that cover dual credit course costs or dual credit exam costs for eligible students.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Institution of higher education" has the same meaning as in RCW 28B.10.016, and also means a public tribal college located in Washington and accredited by the northwest commission on colleges and universities or another accrediting association recognized by the United States department of education.

(iii) Whose parent or legal guardian attests that the student demonstrates financial need equivalent to the financial need required to receive the maximum Washington college grant under RCW 28B.92.205, using the attestation form developed as required under section 3 of this act.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28B.77 RCW to read as follows:

The council, in consultation with the office of the superintendent of public instruction, the state board for community and technical colleges, public four-year institutions of higher education, and other interested parties, shall develop and publish an income attestation form to be used to determine student eligibility for:

(1) The dual credit subsidy program under section 2 of this act; and (2) fee waivers for running start program courses under RCW 28A.600.310.

**NEW SECTION. Sec. 4.** A new section is added to chapter 28A.600 RCW to read as follows:

persons be considered in any enrollment statistics that would affect higher education budgetary determinations.

(7) Each school district, charter school, and state-tribal compact school must award high school credit to a student enrolled in a program course if the student successfully completes the course. If no comparable course is offered by the school district, charter school, or state-tribal compact school, the chief administrator shall determine how many credits to award for the successful completion of the program course. The determination must be made in writing before the student enrolls in the program course. The awarded credit must be applied toward graduation requirements and subject area requirements. Evidence of successful completion of each program course must be included in the student's high school records and transcript.

(8) An institution of higher education must award college credit to a student enrolled in a program course if the student successfully completes the course. Evidence of successful completion of each program course must be included in the student's college transcript.

**"NEW SECTION. Sec. 1.** A new section is added to chapter 48.43 RCW to read as follows:

(1) Each carrier offering a health plan issued or renewed on or after January 1, 2024, shall comply with the following standards related to prior authorization for health care services and prescription drugs:

(a) The carrier shall meet the following time frames for prior authorization determinations and notifications to a participating provider or facility that submits the prior authorization request through an electronic prior authorization process, as designated by each carrier:

(i) For electronic standard prior authorization requests, the carrier shall make a decision and notify the provider or facility of the results of the decision within three calendar days, excluding holidays, of submission of an electronic prior authorization request by the provider or facility that contains the necessary information to make a determination. If insufficient information has been provided to the carrier to make a decision, the carrier shall request any additional information from the provider or facility within one calendar day of submission of the electronic prior authorization request.

(ii) For electronic expedited prior authorization requests, the carrier shall make a decision and notify the provider or facility of the results of the decision within one calendar day of submission of an electronic prior authorization request by the provider or facility that contains the necessary information to make a determination. If insufficient information has been provided to the carrier to make a decision, the carrier shall request any additional information from the provider or facility within one calendar day of submission of the electronic prior authorization request.

(b) The carrier shall meet the following time frames for prior authorization determinations and notifications to a participating provider or facility that submits the prior authorization request through a process other than an electronic prior authorization process:

(i) For nonelectronic standard prior authorization requests, the carrier shall make a decision and notify the provider or facility of the results of the decision within five calendar days of submission of a nonelectronic prior authorization request by the provider or facility that contains the necessary information to make a determination. If insufficient information

has been provided to the carrier to make a decision, the carrier shall request any additional information from the provider or facility within five calendar days of submission of the nonelectronic prior authorization request.

(ii) For nonelectronic expedited prior authorization requests, the carrier shall make a decision and notify the provider or facility of the results of the decision within two calendar days of submission of a nonelectronic prior authorization request by the provider or facility that contains the necessary information to make a determination. If insufficient information has been provided to the carrier to make a decision, the carrier shall request any additional information from the provider or facility within one calendar day of submission of the nonelectronic prior authorization request.

(c) In any instance in which a carrier has determined that a provider or facility has not provided sufficient information for making a determination under (a) and (b) of this subsection, a carrier may establish a specific reasonable time frame for submission of the additional information. This time frame must be communicated to the provider or enrollee with a carrier's request for additional information.

(d) The carrier's prior authorization requirements must be described in detail and written in easily understandable language. The carrier shall make its most current prior authorization requirements and restrictions, including the written clinical review criteria, available to providers and facilities in an electronic format upon request. The prior authorization requirements must be based on peer-reviewed clinical review criteria. The clinical review criteria must be evidence-based criteria and must accommodate new and emerging information related to the appropriateness of clinical criteria with respect to black and indigenous people, other people of color, gender, and underserved populations. The clinical review criteria must be evaluated and updated, if necessary, at least annually.

(2)(a) Each carrier shall build and maintain a prior authorization application programming interface that automates the process for in-network providers to determine whether a prior authorization is required, identify prior authorization information and documentation requirements, and facilitate the exchange of prior authorization requests and determinations from its electronic health records or practice management system. The application programming interface must:

(i) Use fast health care interoperability resources;

(ii) Automate the process to determine whether a prior authorization is required for durable medical equipment, a health care service, or a prescription drug;

(iii) Allow providers to query the carrier's prior authorization documentation requirements;

(iv) Support an automated approach using nonproprietary open workflows to compile and exchange the necessary data elements to populate the prior authorization

requirements that are compliant with the federal health insurance portability and accountability act of 1996 or have an exception from the federal centers for medicare and medicaid services; and

(v) Indicate that a prior authorization denial or authorization of a service less intensive than that included in the original request is an adverse benefit determination and is subject to the carrier's grievance and appeal process under RCW 48.43.535.

(b)(i) Beginning January 1, 2025, the application programming interface must support the exchange of prior authorization requests and determinations for health care services.

(ii) Beginning January 1, 2027, the application programming interface must support the exchange of prior authorization requests and determinations for prescription drugs, including information on covered alternative prescription drugs in the event of denials.

(c) If federal rules related to standards for using an application programming interface to communicate prior authorization status to providers are not finalized by the federal centers for medicare and medicaid services by September 13, 2023, the requirements of (b)(i) of this subsection may not be enforced until January 1, 2026.

(d)(i) If a carrier determines that it will not be able to satisfy the requirements of (a) of this subsection by January 1, 2025, the carrier shall submit a narrative justification to the commissioner describing:

(A) The reasons that the carrier cannot reasonably satisfy the requirements;

(B) The impact of noncompliance upon providers and enrollees;

(C) The current or proposed means of providing health information to the providers; and

(D) A timeline and implementation plan to achieve compliance with the requirements.

(ii) The commissioner may grant a one-year delay in enforcement of the requirements of (a) of this subsection (2) if the commissioner determines that the carrier has made a good faith effort to comply with the requirements.

(iii) This subsection (2)(d) shall not apply if the delay in enforcement in (c) of this subsection takes effect because the federal centers for medicare and medicaid services did not finalize the applicable regulations by September 13, 2023.

(3) Nothing in this section applies to prior authorization determinations made pursuant to RCW 48.43.761.

(4) For the purposes of this section:

(a) "Expedited prior authorization request" means a request by a provider or facility for approval of a health care service or prescription drug where:

(i) The passage of time:

(A) Could seriously jeopardize the life or health of the enrollee;

(B) Could seriously jeopardize the enrollee's ability to regain maximum function; or

(C) In the opinion of a provider or facility with knowledge of the enrollee's medical condition, would subject the enrollee to severe pain that cannot be

adequately managed without the health care service or prescription drug that is the subject of the request; or

(ii) The enrollee is undergoing a current course of treatment using a nonformulary drug.

(b) "Standard prior authorization request" means a request by a provider or facility for approval of a health care service or prescription drug where the request is made in advance of the enrollee obtaining a health care service or prescription drug that is not required to be expedited.

(1) The department shall develop and administer a grant program to provide direct financial assistance to counties and cities for the adoption of preapproved accessory dwelling unit plans.

(2) When a preapproved plan is submitted to a county or city during the process of seeking permit approval for the development of an accessory dwelling unit, the county's or city's review of the preapproved plan may not be more than administrative.

(3) For the purpose of this section, "preapproved accessory dwelling unit plans" means a selection of architectural plans for accessory dwelling units that have been reviewed by county or city code officials and approved for compliance with applicable building codes within the county or city.

**NEW SECTION. Sec. 2.** A new section is added to chapter 19.27 RCW to read as follows:

(1)(a) The state building code council shall convene a work group for the purpose of simplifying the production of middle housing by recommending a mechanism in the international residential code that adopts by reference the provisions for multiplex housing in the international building code. The mechanism must include those sections from the international building code necessary to ensure public health, safety, and general welfare in multiplex housing, and may not reduce any requirements for multiplex housing contained in the international building code.

(b) The work group shall provide its recommendations to the council in time for the council to adopt or amend rules or codes as necessary for implementation in the 2024 international residential code. The council shall take action to adopt additions and amendments to rules or codes as necessary to apply the new reference mechanism in the international residential code to multiplex housing by July 1, 2026.

(c) For purposes of this subsection, "multiplex housing" means a building with at least three but no more than six dwelling units in a single structure with common walls and floors and a functional primary street entrance, with no more than three stories above grade plane.

(2)(a) The state building code council shall convene a work group for the purpose of recommending modifications and limitations to the international building code that would allow a single exit stairway to serve multifamily residential structures up to six stories above grade plane. The recommendations must include considerations for water supply, the presence of a professional fire department, and any other provisions necessary to ensure public health, safety, and general welfare.

(b) The work group shall provide its recommendations to the council in time for the council to adopt or amend rules or codes as necessary for implementation in the 2024

international building code. The council shall take action to adopt additions and amendments to rules or codes as necessary by July 1, 2026.

**NEW SECTION. Sec. 3.** A new section is added to chapter 36.70A RCW to read as follows:

(1) Cities planning under RCW 36.70A.040 must adopt or amend by ordinance and incorporate into their development regulations, zoning regulations, and other official controls the requirements of subsection (3) of this section, to take effect six months after the jurisdiction's next periodic comprehensive plan update required under RCW 36.70A.130, within urban growth areas designated according to RCW 36.70A.110.

(2) The requirements of subsection (3) of this section:

(a) Apply and take effect in any city that has not adopted or amended ordinances, regulations, or other official controls as required under this section; and

(b) Supersede, preempt, and invalidate any local development regulations that conflict with this section.

(3) Within residential zones that allow for middle housing, cities shall not require through development regulations any standards for middle housing that are more restrictive than those required for detached single-family residences, unless otherwise required by state law including, but not limited to, shoreline regulations under chapter 90.58 RCW, building codes under chapter 19.27 RCW, energy codes under chapter 19.27A RCW, electrical codes under chapter 19.28 RCW, or critical areas protection, but may apply any objective development regulations that are required for detached single-family residences, including setback and tree canopy and retention requirements.

(4) Beginning July 1, 2026, cities may not require more than a single stairway in residential buildings of six or fewer stories if the conditions in the international building code are met.

(5) For the purposes of this section:

(a) "Cottage housing" means residential units on a lot with a common open space that either: (i) Is owned in common; or (ii) has units owned as condominium units with property owned in common and a minimum of 20 percent of the lot size as open space.

(b) "Courtyard apartments" means up to four attached dwelling units arranged on two or three sides of a yard or court.

(c) "Middle housing" means buildings that are compatible in scale, form, and character with single-family homes and contain two or more attached, stacked, or clustered homes, duplexes, triplexes, fourplexes, fiveplexes, sixplexes, cottage housing, stacked flats, townhouses, or courtyard apartments.

(d) "Stacked flat" means dwelling units in a residential building of no more than three stories on a residential zoned lot in which each floor may be separately rented or owned.

(e) "Townhouses" means buildings that contain three or more attached single-family dwelling units that extend from foundation

to roof and that have a yard or public way on not less than two sides.

**NEW SECTION. Sec. 4.** A new section is added to chapter 36.70A RCW to read as follows:

All cities and counties may adopt development regulations that create a simple, low cost, expedited permit process for development of single-family, duplex, triplex, or accessory dwelling housing units with less than 1,801 square feet per unit for property situated within cities or urban growth areas in locations designated for residential housing. This process should make it easy for an applicant to submit and receive approval for all permits required to build housing units. The expedited process should lower costs and simplify the building of housing units tailored to be priced for extremely low-income, low-income, or moderate-income households.

**Sec. 5.** RCW 36.70B.020 and 1995 c 347 s 402 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Closed record appeal" means an administrative appeal on the record to a local government body or officer, including the legislative body, following an open record hearing on a project permit application when the appeal is on the record with no or limited new evidence or information allowed to be submitted and only appeal argument allowed.

(2) "Local government" means a county, city, or town.

(3) "Open record hearing" means a hearing, conducted by a single hearing body or officer authorized by the local government to conduct such hearings, that creates the local government's record through testimony and submission of evidence and information, under procedures prescribed by the local government by ordinance or resolution. An open record hearing may be held prior to a local government's decision on a project permit to be known as an "open record predecision hearing." An open record hearing may be held on an appeal, to be known as an "open record appeal hearing," if no open record predecision hearing has been held on the project permit.

(4) "Project permit" or "project permit application" means any land use or environmental permit or license required from a local government for a project action, including but not limited to building permits, subdivisions, binding site plans, planned unit developments, conditional uses, shoreline substantial development permits, site plan review, permits or approvals required by critical area ordinances, site-specific rezones authorized by a comprehensive plan or subarea plan, but excluding the adoption or amendment of a comprehensive plan, subarea plan, or development regulations except as otherwise specifically included in this subsection.

(5) "Public meeting" means an informal meeting, hearing, workshop, or other public gathering of people to obtain comments from

the public or other agencies on a proposed project permit prior to the local government's decision. A public meeting may include, but is not limited to, (~~a design review or~~) an architectural control board meeting, a special review district or community council meeting, or a scoping meeting on a draft environmental impact statement. A public meeting does not include an open record hearing. The proceedings at a public meeting may be recorded and a report or recommendation may be included in the local government's project permit application file.

**Sec. 6.** RCW 36.70B.120 and 1995 c 347 s 416 are each amended to read as follows:

(1) Each local government planning under RCW 36.70A.040 shall establish a permit review process that provides for the integrated and consolidated review and decision on two or more project permits relating to a proposed project action, including a single application review and approval process covering all project permits requested by an applicant for all or part of a project action and a designated permit coordinator. If an applicant elects the consolidated permit review process, the determination of completeness, notice of application, and notice of final decision must include all project permits being reviewed through the consolidated permit review process.

(2) Consolidated permit review may provide different procedures for different categories of project permits, but if a project action requires project permits from more than one category, the local government shall provide for consolidated permit review with a single open record hearing and no more than one closed record appeal as provided in RCW 36.70B.060. Each local government shall determine which project permits are subject to an open record hearing and a closed record appeal. Examples of categories of project permits include but are not limited to:

(a) Proposals that are categorically exempt from chapter 43.21C RCW, such as construction permits, that do not require environmental review or public notice;

(b) Permits that require environmental review, but no open record predecision hearing; and

(c) Permits that require a threshold determination and an open record predecision hearing and may provide for a closed record appeal to a hearing body or officer or to the local government legislative body.

(3) A local government may provide by ordinance or resolution for the same or a different decision maker or hearing body or officer for different categories of project permits. In the case of consolidated project permit review, the local government shall specify which decision makers shall make the decision or recommendation, conduct the hearing, or decide the appeal to ensure that consolidated permit review occurs as provided in this section. The consolidated permit review may combine an open record predecision hearing on one or more permits with an open record appeal hearing on other permits. In such cases, the local government

by ordinance or resolution shall specify which project permits, if any, shall be subject to a closed record appeal.

(4) (a) When reviewing a housing development permit application, a local government planning under RCW 36.70A.040 may only require administrative design review to determine compliance with any applicable design standards.

(b) For the purposes of this subsection (4):

(i) "Administrative design review" means a development permit process whereby an application is reviewed, approved, or denied by the planning director or the planning director's designee based solely on objective design and development standards without a public meeting or hearing, unless such review is otherwise required by state or federal law, or the structure is a designated landmark or historic district established under a local preservation ordinance.

(ii) "Housing development" means a proposed or existing structure that is used as a home, residence, or place to sleep by one or more persons including, but not limited to, single-family residences, manufactured homes, multifamily housing, group homes, and foster care facilities.

(5) A local government planning under RCW 36.70A.040 must comply with the requirements of subsection (4) of this section beginning six months after its next periodic comprehensive plan update required under RCW 36.70A.130.

NEW SECTION. Sec. 7. The office of regulatory innovation and assistance shall contract with a qualified external consultant or entity to develop a standard plan set demonstrating a prescriptive compliance pathway that will meet or exceed all energy code regulations for residential housing in the state subject to the international residential code. The standard plan set may be used, but is not required, by local governments and building industries. In developing the standard plan set, the consultant shall, at a minimum, seek feedback from cities, counties, building industries, and building officials. The standard plan set must be completed by June 30, 2024.

NEW SECTION. Sec. 8. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2023, in the omnibus appropriations act, this act is null and void."

SUBSTITUTE HOUSE BILL NO. 1678 was read the second time.

Representative Riccelli moved the adoption of the striking amendment (183):

Strike everything after the enacting clause and insert the following:

NEW SECTION. **Sec. 1.** The legislature finds that good oral health is an integral piece of overall health and well-being. Without treatment, dental disease compromises overall health and requires increasingly costly interventions. However, most dental disease can be prevented at little cost through routine dental care and disease prevention.

Dental-related issues are a leading reason that Washingtonians seek care in hospital emergency departments, which has become the source of care for many, especially uninsured and low-income populations.

It is the intent of the legislature to expand access to oral health care for all Washingtonians through an evidence-based mid-level dental provider called a dental therapist. Dental therapy is a strategy to address racial and ethnic disparities in health and rural health care access gaps. Dental therapists are also a strategy to increase workforce diversity in health care and expand career opportunities for existing members of the dental care workforce such as dental hygienists.

It is the legislature's intent that dental therapists will meet the needs of local communities as they work under the direction of a dentist licensed in accordance with state or federal law. The

legislature intends for dental therapists to be incorporated into the dental care workforce and used to effectively treat more patients.

It is the intent of the legislature to follow the national commission on dental accreditation's standards for dental therapy education. This will ensure that dental therapists are trained to the highest quality standards and provide state-to-state consistency. It is the intent of the legislature that incorporating the commission on dental accreditation's standards for dental therapy education will pave the way for Washington education institutions to become accredited programs and for students to qualify for financial aid.

It is also the intent of the legislature to provide an efficient and reasonable pathway, through a limited license, for federally certified dental health aide therapists or tribally licensed dental therapists to become a Washington state licensed dental therapist.

NEW SECTION. **Sec. 2.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Close supervision of a dentist" means that a supervising dentist:

(a) Has personally examined and diagnosed the patient and has personally authorized the procedures to be performed;

(b) Is continuously on-site while the procedure in question is being performed; and

(c) Is capable of responding immediately in the event of an emergency.

(2) "Committee" means the dental hygiene examining committee established in chapter 18.29 RCW.

(3) "Dental therapist" means a person licensed to practice dental therapy under this chapter.

(4) "Dental therapy" means the services and procedures specified in section 6 of this act.

(5) "Dentist" means a person licensed to practice dentistry under chapter 18.32 RCW or exempt from such licensure pursuant to Title 25 U.S.C. Sec. 1621t of the Indian health care improvement act.

(6) "Denturist" means a person licensed to engage in the practice of denturism under chapter 18.30 RCW.

(7) "Department" means the department of health.

(8) "Off-site supervision" means supervision that does not require the dentist to be personally on-site when services are provided or to previously examine or diagnose the patient.

(9) "Practice plan contract" means a document that is signed by a dentist and a dental therapist and outlines the functions the dentist authorizes the dental therapist to perform and the level and type of dentist supervision that is required.

(10) "Secretary" means the secretary of health.

NEW SECTION. **Sec. 3.** No person may practice dental therapy or represent himself

or herself as a dental therapist without being licensed by the department under this chapter. Every person licensed to practice dental therapy in this state shall renew their license and comply with administrative procedures, administrative requirements, continuing education requirements, and fees provided in RCW 43.70.250 and 43.70.280. The department shall establish by rule mandatory continuing education requirements to be met by dental therapists applying for license renewal.

**NEW SECTION. Sec. 4.** (1) The department shall issue a license to practice as a dental therapist to any applicant who:

(a) Pays any applicable fees established by the secretary under RCW 43.70.110 and 43.70.250;

(b) Except as provided in subsection (2) of this section, successfully completes a dental therapist program that is accredited or has received initial accreditation by the American dental association's commission on dental accreditation;

(c) Passes an examination approved by the committee; and

(d) Submits, on forms provided by the secretary, the applicant's name, address, and other applicable information as determined by the secretary.

(d) Beginning July 1, 2017, the training required by this subsection must be on the model list developed under subsection (6) of this section. Nothing in this subsection (1)(d) affects the validity of training completed prior to July 1, 2017.

(2)(a) Except as provided in (b) of this subsection:

(i) A professional listed in subsection (1)(a) of this section must complete the first training required by this section by the end of the first full continuing education reporting period after January 1, 2014, or during the first full continuing education reporting period after initial licensure or certification, whichever occurs later.

(9) The secretary and the disciplining authorities affected by this section shall adopt any rules necessary to implement this section.

(10) For purposes of this section:

### ADDRESS BY PRESIDENT NIINISTÖ

President Niinistö: “Governor Inslee, President Heck, Members of the Washington State Legislature, Justices of the State Supreme Court, Dear Washingtonians,

It is a great pleasure and an honour for me to address this body. Finland and the United States share a strong and longstanding relationship. Geographically, we might be far apart, but our cultural and historical ties are close. And most importantly, we stand for the same values.

The current critical geopolitical situation has brought us closer together than ever before. We are now strengthening our ties in sectors such as defense, trade, technology and energy security. And soon we will be able to call each other Allies.

Ladies and Gentlemen, more than one year ago, Russia launched its brutal attack on Ukraine and brought full-scale war back on the European continent. The past year has seen horrors we did not expect to see in Europe in this day and age. Cities destroyed. Schools, homes and critical infrastructure demolished. Thousands of lives taken. Millions forced to leave their homes.

In his recent address in Warsaw, President Biden called Russia’s invasion a test for the ages. A test not just for Ukraine, but also for Europe, America, NATO and all democracies. Ukraine has faced that test with its head held high. The Ukrainians continue to fight for their freedom and for our common values with incredible strength and resilience.

The transatlantic community stands by Ukraine, strong and united. In senates and parliaments on both sides of the Atlantic, old policies have been reviewed and strong decisions have been made. Together we have provided Ukraine with great amounts of military aid, material support and humanitarian relief. We must continue to do so, until a just and sustainable peace is achieved.

For us Finns, Russia’s attack brought back echoes of our own history. It evoked our collective memory. Describing Finland’s battle against the Soviet Union in the Winter War, President Franklin D. Roosevelt wrote: “the people of Finland, by their unexcelled valour and strong resistance in the face of overwhelming armed forces, have won the moral right to live in everlasting peace and independence in the land they have so bravely defended”.

There seems to be no end in sight for Russia’s war in Ukraine. It is for Ukraine to decide, when it is the time for negotiations. Finland supports Ukraine’s initiative for a just peace. And one thing is clear: the Ukrainians have the right to live in peace and independence in their country.

Dear Friends,

In December 2021, when the President of Russia demanded that NATO must not expand eastward, we in Finland knew what he was after. He sought to re-establish spheres of influence. And by so doing, he wanted to limit also our right to choose our own alliances. We could not let him do that.

Ten years prior - in our very first meeting - I had told President Putin that Finland, like every sovereign nation, maximizes its own security. Russia’s attempt to limit our freedom of decision and finally, its attack on another sovereign neighbour, made our decision clear. In May 2022, Finland officially decided to apply for NATO membership.

Finland has always understood that security is not to be taken for granted. We have held on to conscription and consistently invested in our national defence. In 2021, we made a decision to purchase 64 F-35 fighter jets. That is a lot for a small country. Finland’s NATO membership will not only maximize our own security. We will be a strong contributor for the security of the whole Alliance.

Throughout our membership process, the support we have gotten from the United States has been overwhelming. President Biden has thrown his weight and extraordinary leadership behind Finland’s and Sweden’s membership processes. Dozens of members of the United States Senate and House of Representatives, from both sides of the aisle, have worked tirelessly on our behalf. And Americans across the country have voiced their support. For that, I want to say: thank you.

Finland’s and Sweden’s NATO memberships are still two ratifications short of completion. But it is my hope and belief that the NATO Summit in Vilnius will be a true display of allied unity with 32 members around the table.

Ladies and Gentlemen,

The State of Washington is one of Finland’s core partners in the United States. The first Finnish communities settled here at the end of the 19th century. In 1915, there were about 55 Finnish families and 29 saunas in Kirkland’s Finn Hill. Today, Finland has a population of 5.5 million and around 3 million saunas. The “sauna ratio” was about right here in Washington State more than a hundred years ago.

The Finnish and Nordic communities in Washington are still strong and active. We are proud to even have our “own” representative here in state Legislature, Senator Marko Liias. And, of course, our two representatives, forwards Joonas Donskoi and Eeli Tolvanen, in the Seattle Krakens.

The multiple, overlapping crises we are faced with underscore the need for partnerships. For Finland, state partnerships in the US are an increasingly important element of bilateral cooperation.

In 2021, Finland and Washington State signed a Memorandum of Understanding to deepen our economic ties. We are working to accelerate our cooperation in crucial fields of the future: high technology and green transition. I hope that this visit can also serve to take this work forward. I have with me a group of leading Finnish companies working in these fields.

In the global fight against climate change, Finland and Washington are forerunners. Finland’s goal is to be carbon-neutral by 2035. Reaching that goal requires investments, political leadership, determination and innovation. But the way I see it, sustainability should not be seen as a sacrifice but as an opportunity.

Combating climate change is absolutely crucial for the survival of our planet. But it also makes economic sense. Global markets for green technologies are growing rapidly and offer tremendous potential for forerunners like us.

In the future, our competitiveness and national security will be closely tied to emerging technologies. In fields such as 6G, quantum computing and artificial intelligence, we have a lot to gain from cooperation. Only together can we ensure that these crucial technologies will be developed and used in line with our values.

I trust that the good work that we have started between Finland and the State of Washington will bear fruit and benefit not just us but also the larger international community.

Ladies and Gentlemen,

The bigger the challenges we face, the more important that we face them together. Europe needs the United States. But the United States also needs Europe. Together we have built and upheld the post World War II international institutions and order. From the United Nations to Bretton Woods. And together we will continue to uphold and revitalize this order, also after this war.

Thank you.”

The President thanked President Niinistö for his remarks.

The President called upon the special committee consisting of Senators Liias and J. Wilson and Representatives Entenman and Harris to escort His Excellency Sauli Niinistö, President of Finland and His Excellency Jay Inslee, Governor of Washington from the Chamber.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 53.08 RCW to read as follows:

(1) Two or more port districts, operating under a mutual agreement pursuant to RCW 53.08.240, may levy and collect jointly the property tax assessments authorized under RCW 53.36.020 under the following conditions:

(a) The port districts are adjacent, and the boundaries of the port districts are coextensive with county boundaries;

(b) The commissioners of each port district have, no later than July 1st, and by at least a two-thirds margin, voted to conduct a joint property tax levy for collection in the following year and for subsequent years, until such time as the commissioners of each port district have voted to discontinue the joint property tax levy;

(c) The joint property tax levy has been approved by a majority of voters at special elections called under RCW 29A.04.330 by the port district commissioners of the port districts that propose to conduct the joint property tax levy. The special elections within each port district must be held on the same day. If the certified election results show that a majority of the total votes cast among all the port districts participating in the special elections approve the joint property tax levy, then the joint levy shall be deemed approved. Once voters have approved the conduct of a joint property tax levy, the conduct of a joint levy in subsequent consecutive years does not require voter approval; and

(d) The joint property tax rate imposed is the same in each participating port district.

(2)(a) Two or more port districts that are jointly levying and collecting property taxes as provided for under subsection (1) of this section are considered a "taxing district" under RCW 84.04.120.

(b) The commissioners of the port districts that are jointly levying and collecting property taxes under subsection (1) of this section are considered the governing body of the districts for the purposes of RCW 84.55.120.

(3)(a) Port districts that are jointly levying and collecting property taxes as

provided for in subsection (1) of this section may not independently conduct a property tax levy under RCW 53.36.020, except as provided in (b) of this subsection.

(b) Port districts conducting a joint levy may independently approve a property tax levy under RCW 53.36.020 to the extent needed to provide for payment of principal and interest on general bonded indebtedness.

(4)(a) Notwithstanding RCW 84.55.035, when conducting a joint property tax levy, the first joint levy amount must be set as provided for in RCW 84.55.020 as if the port districts had consolidated. Subsequent joint levies are subject to the limitations in RCW 84.55.010.

(b) Any increase in the property tax revenue by the jointly taxing port districts may only be authorized pursuant to RCW 84.55.120, except that any such increase must be approved by at least two-thirds of the commissioners of each of the port districts.

(c) Port districts that are jointly levying and collecting property taxes may conduct a levy in an amount exceeding the limitations provided for in chapter 84.55 RCW as provided for in RCW 84.55.050, except that such a levy may only be conducted if approved by a majority of voters in each port district participating in the joint property tax levy.

(5) The separate obligations of each of the port districts conducting a joint property tax levy shall not be affected by the conduct of the joint levy, and shall remain the responsibility of the individual port district subject to the obligation. Taxes and assessments for payment of such obligations shall continue to be levied and collected as provided for in subsection (3) (b) of this section in each port district notwithstanding the joint property tax levy. While any such obligations remain outstanding, funds subject to such obligations shall be kept separate.

(6)(a) In the event that two or more port districts operating under a mutual agreement pursuant to RCW 53.08.240 cease to operate under the agreement, the joint debts and assets of the port districts must be divided as provided for in the agreement. If no provision for such division was made, the debts and assets must be divided amongst the port districts in the same proportion as the property tax assessments were divided amongst the districts.

(b) The first property tax levy conducted by a port district after it ceases to conduct a joint property tax levy with another port district must be set so that the levy does not exceed the port district's proportional share of the last levy jointly conducted with one or more other port districts plus additional increases allowed under RCW 84.55.010.

With the consent of the House, amendment (123) was withdrawn.

Representative Dent moved the adoption of the striking amendment (280):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that even though lead is a widely recognized hazard to human health and to the environment, and leaded motor vehicle gasoline was phased out across the United States decades ago, leaded gasoline remains in widespread use at general aviation airports by piston engine noncommercial aircraft. Recent studies have found elevated levels of lead in the blood of residents, and particularly worryingly in the blood of children residing in general aviation airport communities, for whom lead is especially harmful to their development. There is consensus among the medical and scientific communities that the levels detected in children living around general airports similar to those in Washington are hazardous. The national academies of sciences, engineering, and medicine in 2015 concluded that lead "is a well-known air pollutant that can lead to a variety of adverse health impacts, including neurological effects in children that lead to behavioral problems, learning deficits, and lowered IQ."

(2) The United States environmental protection agency has recently taken steps towards making an endangerment finding that may eventually lead, through a complex federal regulatory process involving the

United States federal aviation administration, to the elimination of lead from aviation gasoline. That unfolding federal process is too slow to adequately protect those currently living near general aviation airports from the harms of lead.

(3) Therefore, it is the intent of the legislature to take steps to mitigate public health and environmental concerns caused by the use of leaded gasoline at airports, and to encourage the federal aviation administration to expedite the transition to the use of unleaded aviation gasoline.

**NEW SECTION. Sec. 2.** A new section is added to chapter 47.68 RCW to read as follows:

(1) The department must carry out an education and outreach campaign targeted to airport operators and pilots of piston-engine aircraft on the topic of lead emissions from piston-engine aircraft and the disposal of fuel samples from sumping aircraft fuel tanks.

(2) The department, in coordination with the federal aviation administration and an association representing managers of airports in Washington, must develop a bulletin to send to airport operators. The bulletin must offer best practices to build awareness with airport employees, airport-based pilots, transient pilots, fixed base operators, and other on-airport tenants related to the issue of lead emissions from piston-engine aircraft and the handling of leaded aviation fuel.

(3) For purposes of subsections (1) and (2) of this section, the department may rely upon primers, guides, tools, and resources developed for airports or aircraft operators under the eliminate aviation gasoline lead emissions initiative.

(4) The department must develop and communicate to the federal aviation administration a written recommendation to amend their advisory circular on airport master plans to include evaluation of aircraft runup area locations to limit exposure to the public from piston-engine aircraft, with consideration of the 2021 consensus study report from the national academies of sciences, engineering, and medicine entitled "*Options for Removing Lead Emissions from Piston-Engine Aircraft.*"

(5)(a) The department must submit a formal request to the federal aviation administration for the prioritization of efforts to accelerate the work of the initiative to eliminate aviation gasoline lead emissions as part of the federal aviation administration's request in the congressional reauthorization act process pertaining to the federal aviation administration.

(b) The department must cooperate with and participate in aviation trade associations, including trade associations for state aviation officials and airport executive associations, for the purpose of advocating for the acceleration of the initiative to eliminate aviation gasoline lead emissions as part of those organizations' respective legislative priorities for congressional reauthorization

acts pertaining to the federal aviation administration.

(6) The department, in consultation with representatives of airport operators, fixed-base operators, and at least one national association representing general aviation pilots, one national association representing business aviation, and the Washington aviation and aerospace advisory committee must submit recommendations to the appropriate committees of the legislature by December 8, 2023, on:

(a) Financial incentives including, but not limited to, grants, taxes, aircraft registration fees, other fees, and leasehold excise tax reductions, to be provided by the state for leaded aviation fuel reduction; and

(b) Management strategies for airport operators and fixed-base operators, limited fixed-base operators, and businesses operating piston-engine aircraft to pursue programs and projects to acquire equipment, build facilities, or implement operational programs with the goal of reducing emissions from piston-engine aircraft that use leaded aviation fuels.

**NEW SECTION. Sec. 3.** A new section is added to chapter 43.70 RCW to read as follows:

The department must update its blood lead testing guidance for health care providers related to children living near airports at which aviation gasoline is used. The update must include children at risk of lead exposure due to airport operations among the high-risk populations broadly recommended for a blood lead test, without respect to the clinical judgment of the health care provider. For purposes of determining which children are at highest risk of lead exposure due to airport operations, the department must consider including children living, attending day care, preschool, or school within one kilometer of a general aviation airport, among other populations. The department must conduct outreach with and provide information to health care providers about the guidance.

**NEW SECTION. Sec. 4.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 5.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Correct the title.

(2) The secretary shall establish by rule minimum standards for licensed or certified behavioral health agencies that must, at a minimum, establish: (a) Qualifications for staff providing services directly to persons with mental disorders, substance use disorders, or both; (b) the intended result of each service; and (c) the rights and responsibilities of persons receiving behavioral health services pursuant to this chapter and chapter 71.05 RCW. The secretary shall provide for deeming of licensed or certified behavioral health agencies as meeting state minimum standards as a result of accreditation by a recognized behavioral health accrediting body recognized and having a current agreement with the department.

(3) The department shall review reports or other information alleging a failure to comply with this chapter or the standards and rules adopted under this chapter and may initiate investigations and enforcement actions based on those reports.

(4) The department shall conduct inspections of agencies and facilities, including reviews of records and documents required to be maintained under this chapter or rules adopted under this chapter.

(5) The department may suspend, revoke, limit, restrict, or modify an approval, or refuse to grant approval, for failure to meet the provisions of this chapter, or the standards adopted under this chapter. RCW 43.70.115 governs notice of a license or certification denial, revocation, suspension, or modification and provides the right to an adjudicative proceeding.

(6) No licensed or certified behavioral health ~~((service provider))~~agency may advertise or represent itself as a licensed or certified behavioral health ~~((service provider))~~agency if approval has not been granted or has been denied, suspended, revoked, or canceled.

(7) Licensure or certification as a behavioral health ~~((service provider))~~agency is effective for one calendar year from the date of issuance of the license or certification. The license or certification must specify the types of services provided by the behavioral health ~~((service provider))~~agency that meet the standards adopted under this chapter. Renewal of a license or certification must be made in accordance with this section for initial approval and in accordance with the standards set forth in rules adopted by the secretary.

(8) Licensure or certification as a licensed or certified behavioral health ~~((service provider))~~agency must specify the types of services provided that meet the

standards adopted under this chapter. Renewal of a license or certification must be made in accordance with this section for initial approval and in accordance with the standards set forth in rules adopted by the secretary.

(9) The department shall develop a process by which a provider may obtain dual licensure as an evaluation and treatment facility and secure withdrawal management and stabilization facility.

(10) Licensed or certified behavioral health ~~((service providers))~~agencies may not provide types of services for which the licensed or certified behavioral health ~~((service provider))~~agency has not been certified. Licensed or certified behavioral health ~~((service providers))~~agencies may provide services for which approval has been sought and is pending, if approval for the services has not been previously revoked or denied.

(11) The department periodically shall inspect licensed or certified behavioral health ~~((service providers))~~agencies at reasonable times and in a reasonable manner.

(12) Upon petition of the department and after a hearing held upon reasonable notice to the facility, the superior court may issue a warrant to an officer or employee of the department authorizing him or her to enter and inspect at reasonable times, and examine the books and accounts of, any licensed or certified behavioral health ~~((service provider))~~agency refusing to consent to inspection or examination by the department or which the department has reasonable cause to believe is operating in violation of this chapter.

(13) The department shall maintain and periodically publish a current list of licensed or certified behavioral health ~~((service providers))~~agencies.

(14) Each licensed or certified behavioral health ~~((service provider))~~agency shall file with the department or the authority upon request, data, statistics, schedules, and information the department or the authority reasonably requires. A licensed or certified behavioral health ~~((service provider))~~agency that without good cause fails to furnish any data, statistics, schedules, or information as requested, or files fraudulent returns thereof, may have its license or certification revoked or suspended.

(15) The authority shall use the data provided in subsection (14) of this section to evaluate each program that admits children to inpatient substance use disorder treatment upon application of their parents. The evaluation must be done at least once every twelve months. In addition, the authority shall randomly select and review the information on individual children who are admitted on application of the child's parent for the purpose of determining whether the child was appropriately placed into substance use disorder treatment based on an objective evaluation of the child's condition and the outcome of the child's treatment.

(16) Any settlement agreement entered into between the department and licensed or certified behavioral health ~~((service providers))~~agencies to resolve

administrative complaints, license or certification violations, license or certification suspensions, or license or certification revocations may not reduce the number of violations reported by the department unless the department concludes, based on evidence gathered by inspectors, that the licensed or certified behavioral health ((service provider))agency did not commit one or more of the violations.

(17) In cases in which a behavioral health ((service provider))agency that is in violation of licensing or certification standards attempts to transfer or sell the behavioral health ((service provider))agency to a family member, the transfer or sale may only be made for the purpose of remedying license or certification violations and achieving full compliance with the terms of the license or certification. Transfers or sales to family members are prohibited in cases in which the purpose of the transfer or sale is to avoid liability or reset the number of license or certification violations found before the transfer or sale. If the department finds that the owner intends to transfer or sell, or has completed the transfer or sale of, ownership of the behavioral health ((service provider))agency to a family member solely for the purpose of resetting the number of violations found before the transfer or sale, the department may not renew the behavioral health ((service provider's))agency's license or certification or issue a new license or certification to the behavioral health service provider.

(18) Every licensed or certified outpatient behavioral health agency shall display the 988 crisis hotline number in common areas of the premises and include the number as a calling option on any phone message for persons calling the agency after business hours.

(19) Every licensed or certified inpatient or residential behavioral health agency must include the 988 crisis hotline number in the discharge summary provided to individuals being discharged from inpatient or residential services.

**NEW SECTION. Sec. 3.** A new section is added to chapter 71.24 RCW to read as follows:

The informational materials must include appropriate information for persons seeking services at behavioral health clinics and medical clinics, as well as media audiences and students at K-12 schools and higher education institutions. The department shall make the informational materials available to behavioral health clinics, medical clinics, media, K-12 schools, higher education institutions, and other relevant settings. The informational materials shall be made available to professionals during training in suicide assessment, treatment,

and management under RCW 43.70.442. To tailor the messages of the informational materials and the social media campaign, the department must consult with tribes, the American Indian health commission of Washington state, the native and strong lifeline, the Washington state department of veterans affairs, representatives of agricultural communities, and persons with lived experience related to mental health issues, substance use disorder issues, a suicide attempt, or a suicide loss.

(c) The training required by this subsection must be at least six hours in length, unless a disciplining authority has determined, under subsection (10)(b) of this section, that training that includes only screening and referral elements is appropriate for the profession in question, in which case the training must be at least three hours in length.

(d) Beginning July 1, 2017, the training required by this subsection must be on the model list developed under subsection (6) of this section. Nothing in this subsection (1)(d) affects the validity of training completed prior to July 1, 2017.

(2)(a) Except as provided in (b) of this subsection:

(i) A professional listed in subsection (1)(a) of this section must complete the first training required by this section by the end of the first full continuing education reporting period after January 1, 2014, or during the first full continuing education reporting period after initial licensure or certification, whichever occurs later.

(ii) Beginning July 1, 2021, the second training for a psychologist, a marriage and

family therapist, a mental health counselor, an advanced social worker, an independent clinical social worker, a social worker associate-advanced, or a social worker associate-independent clinical must be either: (A) An advanced training focused on suicide management, suicide care protocols, or effective treatments; or (B) a training in a treatment modality shown to be effective in working with people who are suicidal, including dialectical behavior therapy, collaborative assessment and management of suicide risk, or cognitive behavior therapy-suicide prevention. If a professional subject to the requirements of this subsection has already completed the professional's second training prior to July 1, 2021, the professional's next training must comply with this subsection. This subsection (2)(a)(ii) does not apply if the licensee demonstrates that the training required by this subsection (2)(a)(ii) is not reasonably available.

(b)(i) A professional listed in subsection (1)(a) of this section applying for initial licensure may delay completion of the first training required by this section for six years after initial licensure if he or she can demonstrate successful completion of the training required in subsection (1) of this section no more than six years prior to the application for initial licensure.

(ii) Beginning July 1, 2021, a psychologist, a marriage and family therapist, a mental health counselor, an advanced social worker, an independent clinical social worker, a social worker associate-advanced, or a social worker associate-independent clinical exempt from his or her first training under (b)(i) of this subsection must comply with the requirements of (a)(ii) of this subsection for his or her first training after initial licensure. If a professional subject to the requirements of this subsection has already completed the professional's first training after initial licensure, the professional's next training must comply with this subsection (2)(b)(ii). This subsection (2)(b)(ii) does not apply if the licensee demonstrates that the training required by this subsection (2)(b)(ii) is not reasonably available.

(4)(a) A disciplining authority may, by rule, specify minimum training and experience that is sufficient to exempt an individual professional from the training requirements in subsections (1) and (5) of this section. Nothing in this subsection (4)(a) allows a disciplining authority to provide blanket exemptions to broad categories or specialties within a profession.

(c) The training required by this subsection must be at least six hours in length, unless a disciplining authority has determined, under subsection (10)(b) of this section, that training that includes only screening and referral elements is appropriate for the profession in question, in which case the training must be at least three hours in length.

(d) Beginning July 1, 2017, the training required by this subsection must be on the model list developed under subsection (6) of this section. Nothing in this subsection (5)(d) affects the validity of training completed prior to July 1, 2017.

Beginning July 1, 2021, for purposes of subsection (2)(a)(ii) of this section, the model list must include advanced training and training in treatment modalities shown to be effective in working with people who are suicidal.

(b) The secretary and the disciplining authorities shall update the list at least once every two years.

(c) By June 30, 2016, the department shall adopt rules establishing minimum standards for the training programs included on the model list. The minimum standards must require that six-hour trainings include content specific to veterans and the assessment of issues related to imminent harm via lethal means or self-injurious behaviors and that three-hour trainings for pharmacists or dentists include content related to the assessment of issues related to imminent harm via lethal means. By July 1, 2024, the minimum standards must be updated to require that both the six-hour and three-hour trainings include content specific to the availability of and the services offered by the 988 crisis hotline and the behavioral health crisis response and suicide prevention system and best practices for assisting persons with

accessing the 988 crisis hotline and the system. Beginning September 1, 2024, trainings submitted to the department for review and approval must include the updated information in the minimum standards for the model list as well as all subsequent submissions. (7) The department shall provide the health profession training standards created in this section to the professional educator standards board as a model in meeting the requirements of RCW 28A.410.226 and provide technical assistance, as requested, in the review and evaluation of educator training programs. The educator training programs approved by the professional educator standards board may be included in the department's model list.

(8) Nothing in this section may be interpreted to expand or limit the scope of practice of any profession regulated under chapter 18.130 RCW.

(9) The secretary and the disciplining authorities affected by this section shall adopt any rules necessary to implement this section.

For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion.

(12) An employee of a community mental health agency licensed under chapter 71.24 RCW or a chemical dependency program certified under chapter 71.24 RCW is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion.

**Sec. 5.** RCW 71.24.890 and 2021 c 302 s 102 are each amended to read as follows:

(1) Establishing the state ~~((crisis call center))~~designated 988 contact hubs and enhancing the crisis response system will require collaborative work between the department and the authority within their respective roles. The department shall have primary responsibility for establishing and designating the ~~((crisis call center))~~designated 988 contact hubs. The authority shall have primary responsibility for developing and implementing the crisis response system and services to support the work of the ~~((crisis call center))~~designated 988 contact hubs. In any instance in which one agency is identified as the lead, the expectation is that agency will be communicating and collaborating with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the call centers based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022. The funding level shall be determined by considering standards and cost per call

predictions provided by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades. In contracting with the crisis call centers, the department:

(a) May provide funding to support crisis call centers and designated 988 contact hubs to enter into limited on-site partnerships with the public safety answering point to increase the coordination and transfer of behavioral health calls received by certified public safety telecommunicators that are better addressed by clinic interventions provided by the 988 system. Tax revenue may be used to support on-site partnerships;

(b) Shall require that crisis call centers enter into data-sharing agreements, when appropriate, with the department, the authority, and applicable regional behavioral health administrative services organizations to provide reports and client level data regarding 988 crisis hotline calls, as allowed by and in compliance with existing federal and state law governing the sharing and use of protected health information, including dispatch time, arrival time, and disposition of the outreach for each call referred for outreach by each region. The department and the authority shall establish requirements that the crisis call centers report the data identified in this subsection (2)(b) to regional behavioral health administrative services organizations for the purposes of maximizing medicaid reimbursement, as appropriate, and implementing this chapter and chapters 71.05 and 71.34 RCW including, but not limited to, administering crisis services for the assigned regional service area, contracting with a sufficient number or licensed or certified providers for crisis services, establishing and maintaining quality assurance processes, maintaining patient tracking, and developing and implementing strategies to coordinate care for individuals with a history of frequent crisis system utilization.

(3) The department shall adopt rules by ~~((July))~~January 1, ((2023))2025, to establish standards for designation of crisis call centers as ~~((crisis call center))~~designated 988 contact hubs. The department shall collaborate with the authority and other agencies to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from the crisis response improvement strategy committee created in RCW 71.24.892.

(4) The department shall designate ~~((crisis call center))~~designated 988 contact hubs by ~~((July))~~January 1, ((2024))2026. The ~~((crisis call center))~~designated 988 contact hubs shall provide crisis intervention services, triage, care coordination, referrals, and connections to individuals contacting the 988 crisis hotline from any

jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section.

(a) To be designated as a ~~((crisis call center))~~ designated 988 contact hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract to provide ~~((crisis call center))~~ designated 988 contact hub services. The department may revoke the designation of any ~~((crisis call center))~~ designated 988 contact hub that fails to substantially comply with the contract.

(b) The contracts entered shall require designated ~~((crisis call center))~~ 988 contact hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly qualified, skilled, and trained clinical staff who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners for callers that need additional clinical interventions, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peer counselors to provide follow-up and outreach to callers in distress as available. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Train employees to screen persons contacting the designated 988 contact hub to determine if they are associated with the agricultural community and if they prefer to be connected to a crisis hotline that specializes in working with members from the agricultural community. The training shall prepare staff to be able to provide appropriate assessments, interventions, and resources to members of the agricultural community in a way that maintains the anonymity of the person making contact;

(v) Prominently display 988 crisis hotline information on their websites, including a description of what the caller should expect when contacting the crisis call center and a description of the various options available to the caller, including call lines specialized in the behavioral health needs of veterans, American Indian and Alaska Native persons, Spanish-speaking persons, LGBTQ populations, and persons connected with the agricultural community;

(vi) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline; ~~((and~~

~~((v))~~ (vii) Develop and submit to the department protocols between the designated 988 contact hub and 911 call centers within the region in which the designated crisis call center operates and receive approval of the protocols by the department and the state 911 coordination office;

(viii) Develop, in collaboration with the region's behavioral health administrative services organizations, and jointly submit to the authority protocols related to the dispatching of mobile rapid response crisis teams and community-based crisis teams endorsed under section 8 of this act and receive approval of the protocols by the authority;

(ix) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority. The data must include deidentified information regarding the number of contacts connected to the agricultural community and the nature of those contacts; and

(x) Enter into data-sharing agreements with the department, the authority, and applicable regional behavioral health administrative services organizations to provide reports and client level data regarding 988 crisis hotline calls, including dispatch time, arrival time, and disposition of the outreach for each call referred for outreach by each region. The department and the authority shall establish requirements that the designated 988 contact hubs report the data identified in this subsection (4)(b)(x) to regional behavioral health administrative services organizations for the purposes of maximizing medicaid reimbursement, as appropriate, and implementing this chapter and chapters 71.05 and 71.34 RCW including, but not limited to, administering crisis services for the assigned regional service area, contracting with a sufficient number or licensed or certified providers for crisis services, establishing and maintaining quality assurance processes, maintaining patient tracking, and developing and implementing strategies to coordinate care for individuals with a history of frequent crisis system utilization.

(c) The department and the authority shall incorporate recommendations from the crisis response improvement strategy committee created under RCW 71.24.892 in its agreements with ~~((crisis call center))~~ designated 988 contact hubs, as appropriate.

(5) The department and authority must coordinate to develop the technology and platforms necessary to manage and operate the behavioral health crisis response and suicide prevention system. The department and the authority must include the crisis call centers and designated 988 contact hubs in the decision-making process for selecting any technology platforms that will be used to operate the system. No decisions made by the department or the authority shall interfere with the routing of the 988 crisis hotline calls, texts, or chat as part of Washington's active agreement with the administrator of the national suicide prevention lifeline or 988 administrator

that routes 988 contacts into Washington's system. The technologies developed must include:

(a) A new technologically advanced behavioral health and suicide prevention crisis call center system platform ((using technology demonstrated to be interoperable across crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services)) for use in ((crisis call center)) designated 988 contact hubs designated by the department under subsection (4) of this section. This platform, which shall be fully funded by July 1, ((2023))2024, shall be developed by the department and must include the capacity to receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future that promote access to the behavioral health crisis system; and

(b) A behavioral health integrated client referral system capable of providing system coordination information to ((crisis call center)) designated 988 contact hubs and the other entities involved in behavioral health care. This system shall be developed by the authority.

(6) In developing the new technologies under subsection (5) of this section, the department and the authority must coordinate to designate a primary technology system to provide each of the following:

(a) Access to real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services, including:

(i) Real-time bed availability for all behavioral health bed types, including but not limited to crisis stabilization services, triage facilities, psychiatric inpatient, substance use disorder inpatient, withdrawal management, peer-run respite centers, and crisis respite services, inclusive of both voluntary and involuntary beds, for use by crisis response workers, first responders, health care providers, emergency departments, and individuals in crisis; and

(ii) Real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services for a person, including the means to access:

(A) Information about any less restrictive alternative treatment orders or mental health advance directives related to the person; and

(B) Information necessary to enable the ((crisis call center)) designated 988 contact hub to actively collaborate with emergency departments, primary care providers and behavioral health providers within managed care organizations, behavioral health administrative services organizations, and other health care payers to establish a safety plan for the person in accordance with best practices and provide the next steps for the person's transition to follow-up noncrisis care. To establish information-sharing guidelines that fulfill the intent of this section the authority shall consider input from the confidential information compliance and coordination subcommittee established under RCW 71.24.892;

~~((b) The means to request deployment of appropriate crisis response services, which may include mobile rapid response crisis teams, co-responder teams, designated crisis responders, fire department mobile integrated health teams, or community assistance referral and educational services programs under RCW 35.21.930, according to best practice guidelines established by the authority, and track local response through global positioning technology; and~~

**NEW SECTION. Sec. 8.** A new section is added to chapter 71.24 RCW to read as follows:

(1) By April 1, 2024, the authority shall establish standards for issuing an endorsement to any mobile rapid response crisis team or community-based crisis team that meets the criteria under either subsection (2) or (3) of this section, as applicable. The endorsement is a voluntary credential that a mobile rapid response crisis team or community-based crisis team may obtain to signify that it maintains the capacity to respond to persons who are experiencing a significant behavioral health emergency requiring an urgent, in-person response. The attainment of an endorsement allows the mobile rapid response crisis team or community-based crisis team to become eligible for performance payments as provided in subsection (10) of this section.

(2) The authority's standards for issuing an endorsement to a mobile rapid response crisis team or a community-based crisis team must consider:

(a) Minimum staffing requirements to effectively respond in-person to individuals experiencing a significant behavioral health emergency. Except as provided in subsection (3) of this section, the team must include appropriately credentialed and supervised staff employed by a licensed or certified behavioral health agency and may include other personnel from participating entities listed in subsection (3) of this section. The team shall include certified peer counselors as a best practice to the extent practicable based on workforce availability. The team may include fire departments, emergency medical services, public health, medical facilities, nonprofit organizations, and city or county governments. The team may not include law enforcement personnel;

(b) Capabilities for transporting an individual experiencing a significant behavioral health emergency to a location providing appropriate level crisis stabilization services, as determined by regional transportation procedures, such as crisis receiving centers, crisis stabilization units, and triage facilities. The standards must include vehicle and equipment requirements, including minimum requirements for vehicles and equipment to be able to safely transport the individual, as well as communication equipment standards. The vehicle standards must allow for an ambulance or aid vehicle licensed under chapter 18.73 RCW to be deemed to meet the standards; and

(c) Standards for the initial and ongoing training of personnel and for providing clinical supervision to personnel.

(3) The authority must adjust the standards for issuing an endorsement to a

community-based crisis team under subsection (2) of this section if the team is comprised solely of an emergency medical services agency, whether it is part of a fire service agency or a private entity, that is located in a rural county in eastern Washington with a population of less than 60,000 residents. Under the adjusted standards, until January 1, 2030, the authority shall exempt a team from the personnel standards under subsection (2)(a) of this section and issue an endorsement to a team if:

(a) The personnel assigned to the team have met training requirements established by the authority under subsection (2)(c) of this section, as those requirements apply to emergency medical service and fire service personnel, including completion of the three-hour training in suicide assessment, treatment, and management under RCW 43.70.442;

(b) The team operates under a memorandum of understanding with a licensed or certified behavioral health agency to provide direct, real-time consultation through a behavioral health provider employed by a licensed or certified behavioral health agency while the team is responding to a call. The consultation may be provided by telephone, through remote technologies, or, if circumstances allow, in person; and

(c) The team does not include law enforcement personnel.

(4) Prior to issuing an initial endorsement or renewing an endorsement, the authority shall conduct an on-site survey of the applicant's operation.

(5) An endorsement must be renewed every three years.

(6) The authority shall establish forms and procedures for issuing and renewing an endorsement.

(7) The authority shall establish procedures for the denial, suspension, or revocation of an endorsement.

(8)(a) The decision of a mobile rapid response crisis team or community-based crisis team to seek endorsement is voluntary and does not prohibit a nonendorsed team from participating in the crisis response system when (i) responding to individuals who are not experiencing a significant behavioral health emergency that requires an urgent in-person response or (ii) responding to individuals who are experiencing a significant behavioral health emergency that requires an urgent in-person response when there is not an endorsed team available.

(b) The decision of a mobile rapid response crisis team not to pursue an endorsement under this section does not affect its obligation to comply with any standards adopted by the authority with respect to mobile rapid response crisis teams.

(c) The decision of a mobile rapid response crisis team not to pursue an endorsement under this section does not affect its responsibilities and reimbursement for services as they may be defined in contracts with managed care organizations or behavioral health administrative services organizations.

(9) The costs associated with endorsement activities shall be supported with funding

from the statewide 988 behavioral health crisis response and suicide prevention line account established in RCW 82.86.050.

(10) The authority shall establish an endorsed mobile rapid response crisis team and community-based crisis team performance program with receipts from the statewide 988 behavioral health crisis response and suicide prevention line account.

(i) Issue establishment grants to support mobile rapid response crisis teams and community-based crisis teams seeking to meet the elements necessary to become endorsed under either subsection (2) or (3) of this section;

(ii) Issue performance payments in the form of an enhanced case rate to mobile rapid response crisis teams and community-based crisis teams that have received an endorsement from the authority under either subsection (2) or (3) of this section; and

(iii) Issue supplemental performance payments in the form of an enhanced case rate higher than that available in (a)(ii) of this subsection (10) to mobile rapid response crisis teams and community-based crisis teams that have received an endorsement from the authority under either subsection (2) or (3) of this section and demonstrate to the authority that for the previous three months they met the following response time and in route time standards:

(A) Between January 1, 2025, through December 31, 2026:

(I) Arrive to the individual's location within 30 minutes of being dispatched by the designated 988 contact hub, at least 80 percent of the time in urban areas;

(II) Arrive to the individual's location within 40 minutes of being dispatched by the designated 988 contact hub, at least 80 percent of the time in suburban areas; and

(III) Be in route within 15 minutes of being dispatched by the designated 988 contact hub, at least 80 percent of the time in rural areas; and

(B) On and after January 1, 2027:

(I) Arrive to the individual's location within 20 minutes of being dispatched by the designated 988 contact hub, at least 80 percent of the time in urban areas;

(II) Arrive to the individual's location within 30 minutes of being dispatched by the designated 988 contact hub, at least 80 percent of the time in suburban areas; and

(III) Be in route within 10 minutes of being dispatched by the designated 988 contact hub, at least 80 percent of the time in rural areas.

(b) The authority shall design the program in a manner that maximizes the state's ability to receive federal matching funds.

(11) The authority shall contract with the actuaries responsible for development of Medicaid managed care rates to conduct an analysis and develop options for payment mechanisms and levels for rate enhancements under subsection (10) of this section. The authority shall consult with staff from the office of financial management and the fiscal committees of the legislature in conducting this analysis. The payment

mechanisms must be developed to maximize leverage of allowable federal medicaid match. The analysis must clearly identify assumptions, include cost projections for the rate level options broken out by fund source, and summarize data used for the cost analysis. The cost projections must be based on Washington state specific utilization and cost data. The analysis must identify low, medium, and high ranges of projected costs associated for each option accounting for varying scenarios regarding the numbers of teams estimated to qualify for the enhanced case rates and supplemental performance payments. The analysis must identify costs for both medicaid clients, and for state-funded nonmedicaid clients paid through contracts with behavioral health administrative services organizations. The analysis must account for phasing in of the number of teams that meet endorsement criteria over time and project annual costs for a four-year period associated with each of the scenarios. The authority shall submit a report summarizing the analysis, payment mechanism options, enhanced performance payment and supplemental performance payment rate level options, and related cost estimates to the office of financial management and the appropriate committees of the legislature by December 1, 2023.

(12) The authority shall conduct a review of the endorsed community-based crisis teams established under subsection (3) of this section and report to the governor and the health policy committees of the legislature by December 1, 2028. The report shall provide information about the engagement of the community-based crisis teams receiving an endorsement under subsection (3) of this section and their ability to provide a timely and appropriate response to persons experiencing a behavioral health crisis and any recommended changes to the teams to better meet the needs of the community including personnel requirements, training standards, and behavioral health provider consultation.

"**NEW SECTION. Sec. 1.** The legislature finds that Washington is facing an

unprecedented housing shortage for its current population and without significant action will not meet its goal of creating 1,000,000 homes by 2044.

Increasing housing options that are more affordable to various income levels is critical to achieving the state's housing goals, including those codified by the legislature under chapter 254, Laws of 2021.

There is continued need for the development of housing at all income levels, including middle housing that will provide a wider variety of housing options and configurations to allow Washingtonians to live near where they work.

To unlock opportunity for Washingtonians it is necessary to lift bans on the development of modest home choices in cities near job centers, transit, and amenity-rich neighborhoods.

Homes developed at higher densities and gentle density housing types are more affordable by design for Washington residents both in their construction and reduced household energy and transportation costs.

While creating more housing options, it is essential for cities to identify areas at higher risk of displacement and establish antidisplacement policies as required in Engrossed Second Substitute House Bill No. 1220 (chapter 254, Laws of 2021).

The state has made historic investments in subsidized affordable housing through the housing trust fund, yet even with these historic investments, the magnitude of the housing shortage requires both public and private investment.

In addition to addressing the housing shortage, allowing more housing options in areas already served by urban infrastructure will reduce the pressure to develop natural and working lands, support key strategies for climate change, food security, and Puget Sound recovery, and save taxpayers and ratepayers money.

**Sec. 2.** RCW 36.70A.030 and 2021 c 254 s 6 are each amended to read as follows:

In determining whether forestland is primarily devoted to growing trees for long-term commercial timber production on land that can be economically and practically managed for such production, the following factors shall be considered: (a) The proximity of the land to urban, suburban, and rural settlements; (b) surrounding parcel size and the compatibility and intensity of adjacent and nearby land uses; (c) long-term local economic conditions that affect the ability to manage for timber production; and (d) the availability of public facilities and services conducive to conversion of forestland to other uses.

~~((31))~~ (39) "Wetland" or "wetlands" means areas that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. Wetlands do not include those artificial wetlands intentionally created from nonwetland sites, including, but not limited to, irrigation and drainage ditches, grass-lined swales, canals, detention facilities, wastewater treatment facilities, farm ponds, and landscape amenities, or those wetlands created after July 1, 1990, that were unintentionally created as a result of the construction of a road, street, or highway. Wetlands may include those artificial wetlands intentionally created from nonwetland areas created to mitigate conversion of wetlands.

**NEW SECTION. Sec. 3.** A new section is added to chapter 36.70A RCW to read as follows:

(1) Except as provided in section 4 of this act, any city that is required or chooses to plan under RCW 36.70A.040 must provide by ordinance and incorporate into its development regulations, zoning regulations, and other official controls, authorization for the following:

(a) For cities with a population of at least 25,000 but less than 75,000 based on office of financial management population estimates:

(i) The development of at least two units per lot on all lots zoned predominantly for residential use;

(ii) The development of at least four units per lot on all lots zoned predominantly for residential use within one-half mile walking distance of a major transit stop or community amenity; and

(iii) The development of at least four units per lot on all lots zoned predominantly for residential use if at least one unit is affordable housing.

(b) For cities with a population of at least 75,000, or any city within a contiguous urban growth area with the largest city in a county with a population of more than 275,000, based on office of financial management population estimates:

(i) The development of at least four units per lot on all lots zoned predominantly for residential use;

(ii) The development of at least six units per lot on all lots zoned predominantly for residential use within one-quarter mile walking distance of a major transit stop or community amenity; and

(iii) The development of at least six units per lot on all lots zoned predominantly for residential use if at least two units are affordable housing.

(2)(a) To qualify for the additional units allowed under subsection (1) of this section, the applicant must commit to renting or selling the required number of units as affordable housing. The units must be maintained as affordable for a term of at least 50 years, and the property must satisfy that commitment and all required affordability and income eligibility conditions adopted by the local government under this chapter. A city must require the applicant to record a covenant or deed restriction that ensures the continuing rental of units subject to these affordability requirements consistent with the conditions in chapter 84.14 RCW for a period of no less than 50 years. The covenant or deed restriction must also address criteria and policies to maintain public benefit if the property is converted to a use other than which continues to provide for permanently affordable housing.

(b) The units dedicated as affordable must be provided in a range of sizes comparable to other units in the development. To the extent practicable, the number of bedrooms in affordable units must be in the same proportion as the number of bedrooms in units within the entire development. The affordable units must generally be distributed throughout the development and have substantially the same

functionality as the other units in the development.

(c) If a city has enacted a program under RCW 36.70A.540, the terms of that program govern to the extent they vary from the requirements of this subsection.

(3) If a city has enacted a program under RCW 36.70A.540, subsection (1) of this section does not preclude the city from requiring any development, including development described in subsection (1) of this section, to provide affordable housing, either on-site or through an in-lieu payment, nor limit the city's ability to expand such a program or modify its requirements.

(4) A city must allow at least six of the eight types of middle housing to achieve the unit density required in subsection (1) of this section. A city must also allow zero lot line short or long subdivisions where the number of lots created is equal to the unit density required in subsection (1) of this section.

(5) Any city subject to the requirements of this section:

(a) May only adopt objective development and design standards on the development of middle housing;

(b) May only apply administrative design review;

(c) Except as provided in (a) of this subsection, shall not require through development regulations any standards for middle housing that are more restrictive than those required for detached single-family residences, but may apply any objective development regulations that are required for detached single-family residences, including set-back and tree canopy and retention requirements;

(d) Shall apply to middle housing the same development permit and environmental review processes that apply to detached single-family residences, unless otherwise required by state law including, but not limited to, shoreline regulations under chapter 90.58 RCW, building codes under chapter 19.27 RCW, energy codes under chapter 19.27A RCW, or electrical codes under chapter 19.28 RCW;

(e) Shall not require off-street parking as a condition of permitting development of middle housing within one-half mile walking distance of a major transit stop;

(f) Shall not require more than one off-street parking space per unit as a condition of permitting development of middle housing on lots smaller than 6,000 square feet;

(g) Shall not require more than two off-street parking spaces per unit as a condition of permitting development of middle housing on lots greater than 6,000 square feet; and

(h) May impose a limit of two units on a residential lot of 2,000 square feet or less created through a lot split pursuant to RCW 36.70A.--- (section 2, chapter . . . (ESSB 1245), Laws of 2023).

(6) The provisions of subsection (5)(e) through (g) of this section do not apply:

(a) If a local government submits to the department an empirical study prepared by a credentialed transportation or land use planning expert that clearly demonstrates, and the department finds and certifies, that

the application of the parking limitations of subsection (5)(e) through (g) of this section for middle housing will be significantly less safe for vehicle drivers or passengers, pedestrians, or bicyclists than if the jurisdiction's parking requirements were applied to the same location for the same number of detached houses. The department must develop guidance to assist cities on items to include in the study; or

(b) To portions of cities within a one-mile radius of a commercial airport in Washington with at least 9,000,000 annual enplanements.

(7) The provisions of this section do not apply to lots designated with critical areas or their buffers as designated in RCW 36.70A.060, or to a watershed serving a reservoir for potable water if that watershed is or was listed, as of the effective date of this section, as impaired or threatened under section 303(d) of the federal clean water act (33 U.S.C. Sec. 1313(d)).

(8) Nothing in this section prohibits a city from permitting detached single-family residences.

(9) A city must comply with the requirements of this section or section 4 of this act on the latter of:

(a) Six months after its next periodic comprehensive plan update required under RCW 36.70A.130; or

(b) 12 months after a determination by the office of financial management that the city has reached a population threshold established under this section.

(10) Except for specific areas granted an implementation timeline extension under section 9 of this act, the capital facilities plan element required by RCW 36.70A.070(3) is not required to be updated to accommodate the increased housing and population capacity required by this act until the periodic comprehensive plan update required for the city under RCW 36.70A.130(5) that occurs on or after June 30, 2034.

(11) Any city that adopts development regulations consistent with the requirements of section 3 of this act shall be considered in compliance with RCW 36.70A.070(2)(f) until June 30, 2032.

**NEW SECTION. Sec. 4.** A new section is added to chapter 36.70A RCW to read as follows:

(1) As an alternative to the density requirements in section 3(1) of this act, a city may implement the density requirements in section 3(1) of this act for at least 75 percent of lots in the city that are primarily dedicated to single-family detached housing units.

(2) The 25 percent of lots for which the requirements of section 3(1) of this act are not implemented must include:

(a) Any areas within the city for which the department has certified an extension of the implementation timelines under section 7 of this act due to the risk of displacement;

(b) Any areas within the city for which the department has certified an extension of the implementation timelines under section 9

of this act due to a lack of infrastructure capacity;

(c) Any lots designated with critical areas or their buffers that are exempt from the density requirements as provided in section 3(7) of this act;

(d) Any portion of a city within a one-mile radius of a commercial airport with at least 9,000,000 annual enplanements that is exempt from the parking requirements under section 3(6)(b) of this act; and

(e) Any areas subject to sea level rise, increased flooding, or geological hazards over the next 100 years.

(3) The 25 percent of lots for which the requirements of section 3(1) of this act are not implemented may not include:

(a) Any areas for which the exclusion would further racially disparate impacts or result in zoning with a discriminatory effect;

(b) Any areas within one-half mile walking distance of a major transit stop or community amenity;

(c) Any areas historically covered by a covenant or deed restriction excluding racial minorities from owning property or living in the area;

(d) Any areas within one-half mile walking distance of an institution of higher learning, including a public college or university; or

(e) Any areas within one-half mile walking distance of a building, shopping center, or business area containing at least 100,000 square feet of retail space.

**NEW SECTION. Sec. 5.** A new section is added to chapter 36.70A RCW to read as follows:

Population associated with permits for middle housing units are exempt from the threshold of an office of financial management population projection to a county or a county population allocation to a city.

**NEW SECTION. Sec. 6.** A new section is added to chapter 36.70A RCW to read as follows:

(1)(a) The department is directed to provide technical assistance to cities as they implement the requirements under section 3 or 4 of this act.

(b) The department shall prioritize such technical assistance to cities demonstrating the greatest need.

(2)(a) The department shall publish model middle housing ordinances no later than six months following the effective date of this section.

(b) In any city subject to section 3 of this act that has not passed ordinances, regulations, or other official controls within the time frames provided under section 3(9) of this act, the model ordinance supersedes, preempts, and invalidates local development regulations until the city takes all actions necessary to implement section 3 or 4 of this act.

(3)(a) The department is directed to establish a process by which cities implementing the requirements of section 3 of this act may seek approval of alternative local action necessary to meet the requirements of this act.

(b) The department may approve actions under this section for cities that have, by January 1, 2023, adopted a comprehensive plan that is substantially similar to the requirements of this act and, within one year of the effective date of this section, adopts permanent development regulations that are substantially similar to the requirements of this act. In determining whether a city's adopted comprehensive plan and permanent development regulations are substantially similar, the department must find as substantially similar plans and regulations that:

(i) Result in an overall increase in housing units allowed in single-family zones that is at least 75 percent of the increase in housing units allowed in single-family zones if the specific provisions of this act were adopted;

(ii) Allow for middle housing throughout the city, rather than just in targeted locations; and

(iii) Allow for additional density near major transit stops and community amenities, and for projects that incorporate dedicated affordable housing.

(c) The department may determine that a comprehensive plan and development regulations that do not meet these criteria are otherwise substantially similar to the requirements of this act if the city can clearly demonstrate that the regulations adopted will result in a greater increase in middle housing production within single family zones than would be allowed through implementation of section 3 of this act.

(d) Any local actions approved by the department pursuant to (a) of this subsection to implement the requirements under section 3 of this act are exempt from appeals under this chapter and chapter 43.21C RCW.

(e) The department's final decision to approve or reject actions by cities implementing section 3 of this act may be appealed to the growth management hearings board by filing a petition as provided in RCW 36.70A.290.

(4) For the purpose of this section, "single-family zones" means those zones where single-family detached housing is the predominant land use.

**NEW SECTION. Sec. 7.** A new section is added to chapter 36.70A RCW to read as follows:

Any city choosing the alternative density requirements in section 4 of this act may apply to the department for, and the department may certify, an extension for areas at risk of displacement as determined by the antidisplacement analysis that a jurisdiction is required to complete under RCW 36.70A.070(2). The city must create a plan for implementing antidisplacement policies by their next implementation progress report required by RCW 36.70A.130(9).

**Sec. 8.** RCW 36.70A.280 and 2011 c 360 s 17 are each amended to read as follows:

(1) The growth management hearings board shall hear and determine only those petitions alleging either:

(a) That, except as provided otherwise by this subsection, a state agency, county, or city planning under this chapter is not in compliance with the requirements of this chapter, chapter 90.58 RCW as it relates to the adoption of shoreline master programs or amendments thereto, or chapter 43.21C RCW as it relates to plans, development regulations, or amendments, adopted under RCW 36.70A.040 or chapter 90.58 RCW. Nothing in this subsection authorizes the board to hear petitions alleging noncompliance with RCW 36.70A.5801;

(b) That the twenty-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted;

(c) That the approval of a work plan adopted under RCW 36.70A.735(1)(a) is not in compliance with the requirements of the program established under RCW 36.70A.710;

(d) That regulations adopted under RCW 36.70A.735(1)(b) are not regionally applicable and cannot be adopted, wholly or partially, by another jurisdiction; ((or))

(e) That a department certification under RCW 36.70A.735(1)(c) is erroneous; or

(f) That the department's final decision to approve or reject actions by a city implementing section 3 of this act is clearly erroneous.

(2) A petition may be filed only by: (a) The state, or a county or city that plans under this chapter; (b) a person who has participated orally or in writing before the county or city regarding the matter on which a review is being requested; (c) a person who is certified by the governor within sixty days of filing the request with the board; or (d) a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section "person" means any individual, partnership, corporation, association, state agency, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) To establish participation standing under subsection (2)(b) of this section, a person must show that his or her participation before the county or city was reasonably related to the person's issue as presented to the board.

(5) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, the board shall consider the implications of any such adjustment to the population forecast for the entire state.

The rationale for any adjustment that is adopted by the board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by the board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as the "board adjusted population projection." None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall

continue to be used for state budget and planning purposes.

**NEW SECTION. Sec. 9.** A new section is added to chapter 36.70A RCW to read as follows:

(1) Any city choosing the alternative density requirements in section 4 of this act may apply to the department for, and the department may certify, an extension of the implementation timelines established under section 3(9) of this act.

(2) An extension certified under this section may be applied only to specific areas where a city can demonstrate that water, sewer, stormwater, or fire protection services lack capacity to accommodate the density required in section 3 of this act, and the city has:

(a) Included one or more improvements, as needed, within its capital facilities plan to adequately increase capacity; or

(b) Identified which special district is responsible for providing the necessary infrastructure if the infrastructure is provided by a special purpose district.

(3) An extension granted under this section remains in effect until the earliest of:

(a) The infrastructure is improved to accommodate the capacity;

(b) The city's deadline to complete its next periodic comprehensive plan update under RCW 36.70A.130; or

(c) The city's deadline to complete its implementation progress report to the department as required under RCW 36.70A.130(9).

(4) A city that has received an extension under this section may reapply for any needed extension with its next periodic comprehensive plan update under RCW 36.70A.130 or its implementation progress report to the department under RCW 36.70A.130(9). The application for an additional extension must include a list of infrastructure improvements necessary to meet the capacity required in section 3 of this act. Such additional extension must only be to address infrastructure deficiency that a city is not reasonably able to address within the first extension.

(5) The department may establish by rule any standards or procedures necessary to implement this section.

(6) The department must provide the legislature with a list of projects identified in a city's capital facilities plan that were the basis for the extension under this section, including planning level estimates. Additionally, the city must contact special purpose districts to identify additional projects associated with extensions under this section.

(7) A city granted an extension for a specific area must allow development as provided under section 3 of this act if the developer commits to providing the necessary water, sewer, or stormwater infrastructure.

(8) No city shall approve a building permit for housing required by section 3 or 4 of this act unless the city or other water provider has sufficient water rights to supply water to serve the building.

**Sec. 10.** RCW 43.21C.495 and 2022 c 246 s 3 are each amended to read as follows:

(1) Adoption of ordinances, development regulations and amendments to such regulations, and other nonproject actions taken by a city to implement: The actions specified in section 2, chapter 246, Laws of 2022 unless the adoption of such ordinances, development regulations and amendments to such regulations, or other nonproject actions has a probable significant adverse impact on fish habitat; and the increased residential building capacity actions identified in RCW 36.70A.600(1), with the exception of the action specified in RCW 36.70A.600(1)(f), are not subject to administrative or judicial appeals under this chapter.

(2) Amendments to development regulations and other nonproject actions taken by a city to implement the requirements under section 3 of this act pursuant to section 6(3)(b) of this act are not subject to administrative or judicial appeals under this chapter.

**Sec. 11.** RCW 43.21C.450 and 2012 1st sp.s. c 1 s 307 are each amended to read as follows:

The following nonproject actions are categorically exempt from the requirements of this chapter:

(1) Amendments to development regulations that are required to ensure consistency with an adopted comprehensive plan pursuant to RCW 36.70A.040, where the comprehensive plan was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;

(2) Amendments to development regulations that are required to ensure consistency with a shoreline master program approved pursuant to RCW 90.58.090, where the shoreline master program was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;

(3) Amendments to development regulations that, upon implementation of a project action, will provide increased environmental protection, limited to the following:

(a) Increased protections for critical areas, such as enhanced buffers or setbacks;

(b) Increased vegetation retention or decreased impervious surface areas in shoreline jurisdiction; and

(c) Increased vegetation retention or decreased impervious surface areas in critical areas;

(4) Amendments to technical codes adopted by a county, city, or town to ensure consistency with minimum standards contained in state law, including the following:

SUBSTITUTE HOUSE BILL NO. 1589 was read the second time.

Representative Doglio moved the adoption of the striking amendment (340):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that the state's gas and electrical companies face transformational change brought on by new technology, emerging opportunities for customers, and state clean energy laws. Chapter 19.405 RCW, the Washington clean energy transformation act, and chapter 70A.65 RCW, the Washington climate commitment act, mean these companies must find innovative and creative solutions to equitably serve their customers, provide clean energy, reduce emissions, and keep rates fair, just, reasonable, and sufficient.

(2) Gas companies with over 500,000 customers that are also electrical companies, or combination utilities, play an important role in providing affordable and reliable heating and other energy services, and in leading the implementation of state climate policies. As the state transitions

to cleaner sources of energy, combination utilities are an important partner in helping their customers make smart energy choices, and actively supporting the replacement of fossil fuel-based space and water heating equipment and other fossil fuel-based equipment with high-efficiency nonemitting equipment. Programs to accelerate the adoption of efficient, nonemitting appliances have the potential to allow combination utilities to optimize the use of energy infrastructure, improve the management of energy loads, better manage the integration of variable renewable energy resources, reduce greenhouse gas emissions from the buildings sector, mitigate the environmental impacts of utility operations and power purchases, and improve health outcomes for occupants. Legislative clarity is important for utilities to offer programs and services, including incentives, in the decarbonization of homes and buildings for their customers.

(3) In order to meet the statewide greenhouse gas limits in the energy sectors of the economy, more resources must be directed toward achieving decarbonization of residential and commercial heating loads and other loads that are served with fossil fuels, while continuing to protect customers, especially low-income customers and vulnerable communities. The legislature finds that regulatory innovation may be needed to remove barriers that combination utilities may face to meet the state's public policy objectives and expectations. The enactment of chapter 188, Laws of 2021 (Engrossed Substitute Senate Bill No. 5295) began that regulatory transition from traditional cost-of-service regulation, with investor-owned gas and electrical companies using forward-looking multiyear rate plans and taking steps toward performance-based regulation. These steps are intended to provide certainty and stability to both customers and to investor-owned gas and electrical companies, aligning public policy objectives with investments, safety, and reliability.

(4) The legislature finds that as Washington transitions to 100 percent clean electricity and as the state implements the Washington climate commitment act, switching from fossil fuel-based heating equipment and other fossil fuel-based appliances to high-efficiency nonemitting equipment will reduce climate impacts and fuel price risks for customers in the long term. This new paradigm requires a thoughtful transition to decarbonize the energy system to ensure that customers are protected, are not subject to sudden price shocks, and continue to receive needed energy services. This transition will require careful and integrated planning across utilities and with customers as well as new regulatory tools.

(5) It is the intent of the legislature to require combination utilities to decarbonize their systems by: (a) Prioritizing efficient and cost-effective measures to transition customers off of the direct use of fossil fuels at the lowest reasonable cost to customers; (b) investing in the energy supply, storage, delivery, and demand-side resources that will be needed to serve any increase in electrical demand

affordably and reliably; (c) maintaining safety and reliability as the gas system undergoes transformational changes; (d) integrating zero-carbon and carbon-neutral fuels to serve high heat and industrial loads where electrification may not be technically feasible; (e) managing peak demand of the electric system; and (f) ensuring an equitable distribution of benefits to, and reduction of burdens for, overburdened communities that have historically been underserved by utility energy efficiency programs, and may be disproportionately impacted by rising fuel and equipment costs or experience high energy burden.

(6) It is the intent of the legislature to support this transition by adopting requirements for combination utilities to conduct integrated system planning to develop specific actions supporting gas system decarbonization and electrification.

**Sec. 2.** RCW 80.28.010 and 2011 c 214 s 11 are each amended to read as follows:

(1) All charges made, demanded, or received by any gas company, electrical company, wastewater company, or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient. Reasonable charges necessary to cover the cost of administering the collection of voluntary donations for the purposes of supporting the development and implementation of evergreen community management plans and ordinances under RCW 80.28.300 must be deemed as prudent and necessary for the operation of a utility.

(2)(a) Every gas company, electrical company, wastewater company, and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(b) No large gas company that serves more than 500,000 retail natural gas customers in the state of Washington on June 30, 2023, may furnish or supply gas service, instrumentalities, and facilities to any commercial or residential location that did not receive gas service or did not file applications for gas service as of June 30, 2023.

(c) The prohibition in (b) of this subsection does not apply to facilities engaged in one or more manufacturing processes described by North American industry classification system codes beginning with 31, 32, or 33.

(d) The prohibition in (b) of this subsection does not apply to the following facilities until January 1, 2040:

(i) Facilities with building occupancies classified as institutional I-2 (medical care facilities) or I-3 (correctional facilities) pursuant to the international building code, that are required by federal or state regulation to have redundant emergency backup power generation systems; and

(ii) Facilities owned or operated by the United States department of defense that utilize reciprocating internal combustion

engine generators that support energy resilience, energy security, and energy efficiency initiatives.

(3) All rules and regulations issued by any gas company, electrical company, wastewater company, or water company, affecting or pertaining to the sale or distribution of its product or service, must be just and reasonable.

(4) Utility service for residential space heating shall not be terminated between November 15<sup>th</sup> through March 15<sup>th</sup> if the customer:

(a) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

(b) Provides self-certification of household income for the prior twelve months to a grantee of the department of commerce, which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(e) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15<sup>th</sup> and to pay for continued utility service. If the past due bill is not paid by the following October 15<sup>th</sup>, the customer is not eligible for protections under this chapter until the past due bill is paid. The plan may not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15<sup>th</sup> through March 15<sup>th</sup>. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(f) Agrees to pay the moneys owed even if he or she moves.

(5) The utility shall:

(a) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(b) Assist the customer in fulfilling the requirements under this section;

(c) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(d) Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this subsection. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(6) A payment plan implemented under this section is consistent with RCW 80.28.080.

(7) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(8) Every gas company, electrical company, wastewater company, and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product, or provision of its services, as will be efficient and safe to its employees and the public.

(9) An agreement between the customer and the utility, whether oral or written, does not waive the protections afforded under this chapter.

(10) In establishing rates or charges for water service, water companies as defined in RCW 80.04.010 may consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

**Sec. 3.** RCW 80.28.110 and 2021 c 65 s 97 are each amended to read as follows:

((Every)) Except for a large gas company pursuant to RCW 80.28.010(2)(b), every gas company, electrical company, wastewater company, or water company, engaged in the sale and distribution of gas, electricity or water or the provision of wastewater company

services, shall, upon reasonable notice, furnish to all persons and corporations who may apply therefor and be reasonably entitled thereto, suitable facilities for furnishing and furnish all available gas, electricity, wastewater company services, and water as demanded, except that a water company may not furnish water contrary to the provisions of water system plans approved under chapter 43.20 or 70A.100 RCW and wastewater companies may not provide services contrary to the approved general sewer plan.

#### NEW SECTION.

#### Sec. 5.

(1) The legislature finds that utilities are subject to a range of reporting and planning requirements as part of the clean energy transition. To reduce regulatory barriers, achieve equitable and transparent outcomes, and integrate planning requirements, the commission may consolidate planning requirements into a single integrated system plan that is approved by the commission.

(a) By September 1, 2023, the commission shall initiate a process to consolidate planning requirements and to waive any commission rules necessary to facilitate an integrated system plan.

(b) The commission shall issue a notice and request for comment and shall hold a public comment hearing.

(c) In its order approving the consolidation of planning requirements, the commission shall include a compliance checklist and shall provide any additional guidance that is necessary to ensure that the integrated system plan meets the minimum

requirements of all relevant statutes and rules.

(2) Subject to approval by the commission pursuant to subsection (1) of this section, by January 1, 2026, and every four years thereafter, a combination utility shall file an integrated system plan demonstrating how the combination utility plans to:

(a) Achieve its obligations under chapters 19.280, 19.405, 19.285, and 70A.65 RCW, RCW 80.28.380, and existing pipeline safety and replacement plans;

(b) Achieve gas utility and electric utility emissions reductions equal to their proportional share of emissions reductions required under RCW 70A.45.020;

(c) Maximize investments of revenues generated from consoling allowances pursuant to chapter 70A.65 RCW in programs that incentivize a transition to electric heat pumps and other electric appliances, conservation and efficiency services, and other programs that aid in the transition from the direct use of fossil fuels; and

(d) Comply with any other obligations under applicable rules, regulations, or laws.

(3) In addition, an integrated system plan filed pursuant to this section must:

(a) Include an emissions reduction target;

(b) Present and evaluate a range of resource portfolios and proposed programs to advance clean energy and gas decarbonization measures for customers that align with achieving the gas utility's proportional share of emissions reductions required under RCW 70A.45.020. At a minimum, the range of resource portfolios presented and evaluated by a combination utility must include:

(i) A portfolio of resources that uses cost-effective alternative energy resources to the maximum practicable extent, which may include leak reductions approved by the commission, and that meets the identified emissions reduction targets;

(ii) Other portfolios requested by stakeholders;

(iii) Other portfolios at the combination utility's discretion; and

(iv) Other portfolios as directed by the commission;

(c) Include programs targeted to low-income customers, vulnerable populations, and overburdened communities;

(d) Include outreach plans for engagement with all customers, but prioritizing low-income customers, vulnerable populations, and overburdened communities to develop programs to support those customers in every phase of the programs in the combination utility's integrated system plan, including through incentives offered to multifamily buildings occupied in full or in part by low-income households;

(e) Prioritize investments that benefit, and reduce burdens to, low-income customers, vulnerable populations, and overburdened communities;

(f) Prioritize investments in energy efficiency, demand response, and energy conservation measures, which must achieve at least:

(i) Two percent of electric load annually with conservation and energy efficiency

resources, unless the commission finds that a higher target is cost-effective; and

(ii) Annual demand response equal to or greater than 10 percent of winter and summer peak electric demand, unless the commission finds that a higher target is cost-effective;

(g) Set forth specific actions that the combination utility will take to reduce greenhouse gas emissions to meet the emissions reduction target;

(h) Quantify projected cumulative greenhouse gas emissions reductions for each emissions reduction period resulting from each portfolio presented in the integrated system plan;

(i) Propose program budgets resulting from each portfolio presented in the integrated system plan;

(j) Quantify the cost of implementing each portfolio presented in the integrated system plan;

(k) Project annual greenhouse gas emissions reductions that would result if each portfolio presented in the integrated system plan were extended through 2050;

(l) Describe the effects of the specific actions and investments of each portfolio presented in the integrated system plan on the safety, reliability, and resilience of the combination utility's energy service;

(m) Identify potential changes to depreciation schedules or other actions to align the combination utility's cost recovery with state laws, including reducing greenhouse gas emissions, minimizing costs, and minimizing risks to the combination utility and its customers;

(n) Explain the combination utility's analysis of the costs and benefits of an array of alternatives, including the costs of greenhouse gas emissions in the cost-benefit calculations;

(o) Describe the monitoring and verification methodology to be used in reporting; and

(p) Include any other information required by the commission.

(4) The commission must approve, reject, or approve with conditions the integrated system plan within 12 months of receiving the final plan. Once approved, a combination utility may include an integrated system plan in a proposal for a multiyear rate plan.

(a) In determining whether to approve the plan, the commission must evaluate whether the plan is in the public interest. This evaluation includes, but is not limited to, a consideration of:

(i) The equitable distribution of energy benefits and reduction of burdens to vulnerable populations and highly impacted communities;

(ii) Long-term and short-term public health, economic, and environmental benefits and the reduction of costs and risks; and

(iii) Energy security and resiliency.

(b) In evaluating whether a proposed integrated system plan is in the public interest, the commission shall take into account the following factors:

(i) Whether the specific actions in the integrated system plan achieve reductions in greenhouse gas emissions for each emissions reduction period;

(ii) Whether the integrated system plan demonstrates progress toward meeting the emissions reduction targets;

(iii) Whether investments in the integrated system plan prioritize serving low-income customers, vulnerable populations, and overburdened communities;

(iv) Whether the integrated system plan and the proposed actions in the plan are cost-effective and how the integrated system plan is likely to result in a reasonable cost to customers, where cost-effectiveness is defined in subsection (5) of this section;

(v) Whether the integrated system plan maintains system reliability and reduces long-term costs and risks to customers; and

(vi) Whether the integrated system plan will lead to new construction career opportunities and prioritizes a transition of natural gas and electricity utility workers to perform work on construction and maintenance of new and existing renewable energy infrastructure.

(5) The commission shall establish by rule a cost-effectiveness test for emissions reduction measures taken by combination utilities to comply with state clean energy and climate policies.

(a) The cost-effectiveness test must be used for the purpose of determining cost-effectiveness of decarbonization measures taken, at the portfolio level, by a combination utility under this chapter, and for any other purpose determined by the commission by rule.

(b) In evaluating the cost-effectiveness of gas decarbonization measures within the integrated system plan, a combination utility shall apply a risk reduction premium that shall account for: (i) The most recent allowance ceiling price approved by the department of ecology pursuant to the climate commitment act, chapter 70A.65 RCW; or (ii) a forward price index for allowance prices approved by the department of ecology. For the purpose of this chapter, the risk reduction premium is necessary to ensure that a combination utility is making appropriate long-term investments to mitigate against the allowance and fuel price risks to customers of the combination utility.

(c) The commission may approve, or amend and approve, an integrated system plan that exceeds the cost-effectiveness test and risk reduction premium requirements identified in this subsection only if it finds that the plan is in the public interest, costs to customers are reasonable, the plan includes mitigation of rate increases for low-income customers, and the benefits of the plan, including the costs of greenhouse gas emissions, exceed the costs.

(6) The commission shall determine the appropriate, cost-effective cost recovery mechanisms for a combination utility to meet its integrated system plan including, but not limited to:

(a) The majority of total capacity and energy necessary to meet the requirements of chapter 19.405 RCW to be supplied from resources owned and operated by the combination utility or an affiliate of the combination utility;

(b) A performance incentive mechanism;

(c) A return on generation assets and generation under contract based on the combination utility's authorized return on equity;

(d) A higher rate of return on certain electric assets including, but not limited to, microgrids, electric vehicle charging infrastructure, advanced metering infrastructure, new substations or distribution lines, and transmission upgrades; and

(e) A return on power purchase agreements that is no less than the authorized cost of debt and no greater than the authorized rate of return of the combination company, multiplied by the operating expense incurred by the combination utility under the power purchase agreement.

**NEW SECTION. Sec. 6.** (1) A combination utility must include the following in calculating its emissions baseline and projected cumulative emissions for an emissions reduction period, consistent with chapter 173-441 WAC:

(a) Methane leaked from the transportation and delivery of gas from the gas distribution and service pipelines from the city gate to customer end use;

(b) Greenhouse gas emissions resulting from the combustion of gas by customers not otherwise subject to federal greenhouse gas emissions reporting and excluding all transport customers; and

(c) Emissions of methane resulting from leakage from delivery of gas to other gas companies.

(2) In calculating an emissions reduction target, a combination utility must show its emissions baseline and projected cumulative greenhouse gas emissions for the applicable emissions reduction period separately and must show that the total emissions reductions are projected to make progress toward the achievement of the emissions reduction targets identified in the applicable integrated system plan. The final calculation must be presented on a carbon dioxide equivalent basis.

(3) All emissions are metric tons of carbon dioxide equivalent as reported to the federal environmental protection agency pursuant to 40 C.F.R. 98, either subpart W (methane) or subpart NN (carbon dioxide), or successor reporting requirements.

**NEW SECTION. Sec. 7.** (1) In any multiyear rate plan filed by a combination utility pursuant to RCW 80.28.425, the commission must adopt depreciation schedules for any gas plant in service as of the effective date of the depreciation schedules of the multiyear rate plan such that the incremental depreciation for each year of such a multiyear rate plan resulting from the depreciation is equal to one percent of the gas revenue requirement for the preceding year.

(2) After the approval of an integrated system plan, the combination utility may propose a merger of the rate bases supporting gas and electric operations of the combination utility into a single energy rate base and the adoption of rates for electric and gas service that support the

recovery of such a merged energy rate base. The commission may approve the merger of electric and gas rate bases if the commission finds that the proposal will result in a net benefit to customers of the combination utility.

(3) For a combination utility that has merged gas and electricity rate bases, the combination utility must monetize benefits from any applicable federal and state tax incentives for the benefit of customers. These benefits must be separately accounted for and amortized on a schedule designed to mitigate the rate impacts to customers after the rate bases are combined. These credits may not be used for any other purpose.

**NEW SECTION. Sec. 8.** (1) For any project in a decarbonization or targeted electrification plan of a combination utility that is part of a competitive solicitation and with a cost of more than \$10,000,000, the combination utility must certify to the commission that any work associated with such a project will be constructed by a prime contractor and its subcontractors in a way that includes community workforce agreements or project labor agreements and the payment of area standard prevailing wages and apprenticeship utilization requirements, provided the following apply:

(a) The combination utility and the prime contractor and all of its subcontractors, regardless of tier, have the absolute right to select any qualified and responsible bidder for the award of contracts on a specified project without reference to the existence or nonexistence of any agreements between such a bidder and any party to such a project labor agreement, and only when such a bidder is willing, ready, and able to become a party to, signs a letter of assent, and complies with such an agreement or agreements, should it be designated the successful bidder; and

(b) It is understood that this is a self-contained, stand-alone agreement, and that by virtue of having become bound to such an agreement or agreements, neither the prime contractor nor the subcontractors are obligated to sign any other local, area, or national agreement.

(2) Nothing in this section supersedes RCW 19.28.091 or 19.28.261 or chapter 49.17 RCW, without regard to project cost.

**NEW SECTION. Sec. 9.** Electrical companies, municipal electric utilities, public utility districts, irrigation districts, cooperatives, and mutual corporations providing retail electric service are encouraged to:

(1) Work with large gas companies providing gas service within their service areas to identify opportunities for electrification and the provision of energy peaking service by the large gas company;

(2) Account for the costs of greenhouse gas emissions, set total energy savings and greenhouse gas emissions reduction goals, and develop and implement electrification programs in collaboration with large gas companies providing gas service in service areas; and

(3) Include an electrification plan or transportation electrification program as part of collaboration with large gas companies.

NEW SECTION. **Sec. 10.** This chapter may be known and cited as the Washington decarbonization act for large combination utilities.

NEW SECTION. **Sec. 11.** Sections 4 through 10 of this act constitute a new chapter in Title 80 RCW.

NEW SECTION. **Sec. 12.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 13.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Where consistent with tribal justice system rules and practices, and upon agreement with individual tribal courts or justice systems, the state should support the provision of indigenous-informed, culturally appropriate legal support for indigenous survivors of domestic violence in tribal court domestic violence protection proceedings. To this end, and subject to appropriations for this purpose, the office of civil legal aid shall coordinate with the Indian policy advisory council at the department of social and health services and representatives of tribal justice systems to develop a plan and implementation schedule to provide indigenous-informed, culturally appropriate legal support for survivors in tribal court domestic violence protection proceedings. The office of civil legal aid shall submit the plan along with fiscal projections for its implementation to the appropriate legislative committees by December 1, 2024.

### Part III. Civil Proceedings

**Sec. 301.** RCW 7.105.155 and 2022 c 268 s 10 are each amended to read as follows:

When service is to be completed under this chapter by a law enforcement officer:

(1) The clerk of the court shall have a copy of any order issued under this chapter, the confidential information form, as well as the petition for a protection order and any supporting materials, electronically forwarded on or before the next judicial day to the law enforcement agency in the county or municipality where the respondent resides, as specified in the order, for service upon the respondent. If the respondent has moved from that county or municipality and personal service is not required, the law enforcement agency specified in the order may serve the order;

(2) Service of an order issued under this chapter must take precedence over the service of other documents by law enforcement unless they are of a similar emergency nature;

(3) Where personal service is required, the first attempt at service must occur within 24 hours of receiving the order from the court (~~whenever practicable, but not more than five days after receiving the order~~) unless an emergency situation renders the service infeasible. If the first attempt is not successful, no fewer than two additional attempts should be made to serve the order, particularly for respondents who present heightened risk of lethality or other risk of physical harm to the petitioner or petitioner's family or household members. All attempts at service must be documented on a proof of service form and submitted to the court in a timely manner;

(4) If service cannot be completed within 10 calendar days, the law enforcement officer shall notify the petitioner. The petitioner shall provide information sufficient to permit notification. Law enforcement shall continue to attempt to complete service unless otherwise directed by the court. In the event that the petitioner does not provide a service address for the respondent or there is evidence that the respondent is evading service, the law enforcement officer shall use law enforcement databases to assist in locating the respondent;

(5) If the respondent is in a protected person's presence at the time of contact for service, the law enforcement officer should take reasonable steps to separate the parties when possible prior to completing the service or inquiring about or collecting firearms. When the order requires the respondent to vacate the parties' shared residence, law enforcement shall take reasonable steps to ensure that the respondent has left the premises and is on notice that (~~his or her~~) the respondent's return is a violation of the terms of the order. The law enforcement officer shall provide the respondent with copies of all forms with the exception of the confidential information form completed by the protected party and the proof of service form;

(6) Any law enforcement officer who serves a protection order on a respondent with the knowledge that the respondent requires special assistance due to a disability, brain injury, or impairment shall make a reasonable effort to accommodate the needs of the respondent to the extent practicable without compromise to the safety of the petitioner;

(7) Proof of service must be submitted to the court on the proof of service form. The form must include the date and time of service and each document that was served in order for the service to be complete, along with any details such as conduct at the time of service, threats, or avoidance of service, as well as statements regarding possession of firearms, including any denials of ownership despite positive purchase history, active concealed pistol license, or sworn statements in the petition that allege the respondent's access to, or possession of, firearms; or

(8) If attempts at service were not successful, the proof of service form or the form letter showing that the order was not served, and stating the reason it was not served, must be returned to the court by the next judicial day following the last unsuccessful attempt at service. Each attempt at service must be noted and reflected in computer aided dispatch records, with the date, time, address, and reason service was not completed.

**Sec. 302.** RCW 7.105.255 and 2022 c 268 s 15 are each amended to read as follows:

(1) To help ensure familiarity with the unique nature of protection order proceedings, and an understanding of trauma-informed practices and best practices in the use of new technologies for remote hearings, judicial officers, including persons who serve as judicial officers pro tempore, should receive evidence-based training on procedural justice, trauma-informed practices, gender-based violence dynamics, coercive control, elder abuse, juvenile sex offending, teen dating violence, domestic violence homicide prevention, and requirements and best practices for the surrender of weapons before presiding over protection order hearings. Trainings should be provided on an ongoing basis as best practices, research on trauma, and legislation continue to evolve. As a method of continuous training, court commissioners, including pro tempore commissioners, shall be notified by the presiding judge or court administrator upon revision of any decision made under this chapter.

(2) The administrative office of the courts shall develop training for judicial officers on the topics listed in subsection (1) of this section, which must be provided free of charge to judicial officers.

**Sec. 303.** RCW 7.105.310 and 2022 c 268 s 17 and 2022 c 231 s 9 are each reenacted and amended to read as follows:

(1) In issuing any type of protection order, other than an ex parte temporary antiharassment protection order as limited by subsection (2) of this section, and other than an extreme risk protection order, the

court shall have broad discretion to grant such relief as the court deems proper, including an order that provides relief as follows:

(a) Restrain the respondent from committing any of the following acts against the petitioner and other persons protected by the order: Domestic violence; nonconsensual sexual conduct or nonconsensual sexual penetration; sexual abuse; stalking; acts of abandonment, abuse, neglect, or financial exploitation against a vulnerable adult; and unlawful harassment;

(b) Restrain the respondent from making any attempts to have contact, including nonphysical contact, with the petitioner or the petitioner's family or household members who are minors or other members of the petitioner's household, either directly, indirectly, or through third parties regardless of whether those third parties know of the order;

(c) Exclude the respondent from the residence that the parties share;

(d) Exclude the respondent from the residence, workplace, or school of the petitioner; or from the day care or school of a minor child;

(e) Restrain the respondent from knowingly coming within, or knowingly remaining within, a specified distance from a specified location including, but not limited to, a residence, school, day care, workplace, the protected party's person, and the protected party's vehicle. The specified distance shall presumptively be at least 1,000 feet, unless the court for good cause finds that a shorter specified distance is appropriate;

(f) If the parties have children in common, make residential provisions with regard to their minor children on the same basis as is provided in chapter 26.09 RCW. However, parenting plans as specified in chapter 26.09 RCW must not be required under this chapter. The court may not delay or defer relief under this chapter on the grounds that the parties could seek a parenting plan or modification to a parenting plan in a different action. A protection order must not be denied on the grounds that the parties have an existing parenting plan in effect. A protection order may suspend the respondent's contact with the parties' children under an existing parenting plan, subject to further orders in a family law proceeding;

(g) Order the respondent to participate in a state-certified domestic violence perpetrator treatment program approved under RCW 43.20A.735 or a state-certified sex offender treatment program approved under RCW 18.155.070;

(h) Order the respondent to obtain a mental health or chemical dependency evaluation. If the court determines that a mental health evaluation is necessary, the court shall clearly document the reason for this determination and provide a specific question or questions to be answered by the mental health professional. The court shall consider the ability of the respondent to pay for an evaluation. Minors are presumed to be unable to pay. The parent or legal guardian is responsible for costs unless the

parent or legal guardian demonstrates inability to pay;

(i) In cases where the petitioner and the respondent are students who attend the same public or private elementary, middle, or high school, the court, when issuing a protection order and providing relief, shall consider, among the other facts of the case, the severity of the act, any continuing physical danger, emotional distress, or educational disruption to the petitioner, and the financial difficulty and educational disruption that would be caused by a transfer of the respondent to another school. The court may order that the respondent not attend the public or private elementary, middle, or high school attended by the petitioner. If a minor respondent is prohibited attendance at the minor's assigned public school, the school district must provide the student comparable educational services in another setting. In such a case, the district shall provide transportation at no cost to the respondent if the respondent's parent or legal guardian is unable to pay for transportation. The district shall put in place any needed supports to ensure successful transition to the new school environment. The court shall send notice of the restriction on attending the same school as the petitioner to the public or private school the respondent will attend and to the school the petitioner attends;

(j) Require the respondent to pay the administrative court costs and service fees, as established by the county or municipality incurring the expense, and to reimburse the petitioner for costs incurred in bringing the action, including reasonable attorneys' fees or limited license legal technician fees when such fees are incurred by a person licensed and practicing in accordance with state supreme court admission and practice rule 28, the limited practice rule for limited license legal technicians. Reasonable attorneys' fees or limited licensed legal technical fees are mandatory under subsection (4) of this section. Minors are presumed to be unable to pay. The parent or legal guardian is responsible for costs unless the parent or legal guardian demonstrates inability to pay;

(k) Restrain the respondent from harassing, following, monitoring, keeping under physical or electronic surveillance, cyber harassment as defined in RCW 9A.90.120, and using telephonic, audiovisual, or other electronic means to monitor the actions, location, or communication of the petitioner or the petitioner's family or household members who are minors or other members of the petitioner's household. For the purposes of this subsection, "communication" includes both "wire communication" and "electronic communication" as defined in RCW 9.73.260;

(l) Other than for respondents who are minors, require the respondent to submit to electronic monitoring, including electronic monitoring with victim notification technology. The order must specify who shall provide the electronic monitoring services and the terms under which the monitoring must be performed. The order also may include a requirement that the respondent

pay the costs of the monitoring. The court shall consider the ability of the respondent to pay for electronic monitoring;

(m) Consider the provisions of RCW 9.41.800, and order the respondent to surrender, and prohibit the respondent from accessing, having in ~~((his or her))~~ the respondent's custody or control, possessing, purchasing, attempting to purchase or receive, or receiving, all firearms, dangerous weapons, and any concealed pistol license, as required in RCW 9.41.800;

(n) Order possession and use of essential personal effects. The court shall list the essential personal effects with sufficient specificity to make it clear which property is included. Personal effects may include pets. The court may order that a petitioner be granted the exclusive custody or control of any pet owned, possessed, leased, kept, or held by the petitioner, respondent, or minor child residing with either the petitioner or respondent, and may prohibit the respondent from interfering with the petitioner's efforts to obtain the pet. The court may also prohibit the respondent from knowingly coming within, or knowingly remaining within, a specified distance of specified locations where the pet is regularly found;

(o) Order use of a vehicle;

(p) Enter an order restricting the respondent from engaging in abusive litigation as set forth in chapter 26.51 RCW or in frivolous filings against the petitioner, making harassing or libelous communications about the petitioner to third parties, or making false reports to investigative agencies. A petitioner may request this relief in the petition or by separate motion. A petitioner may request this relief by separate motion at any time within five years of the date the protection order is entered even if the order has since expired. A stand-alone motion for an order restricting abusive litigation may be brought by a party who meets the requirements of chapter 26.51 RCW regardless of whether the party has previously sought a protection order under this chapter, provided the motion is made within five years of the date the order that made a finding of domestic violence was entered. In cases where a finding of domestic violence was entered pursuant to an order under chapter 26.09, 26.26, or 26.26A RCW, a motion for an order restricting abusive litigation may be brought under the family law case or as a stand-alone action filed under this chapter, when it is not reasonable or practical to file under the family law case;

(q) Restrain the respondent from committing acts of abandonment, abuse, neglect, or financial exploitation against a vulnerable adult;

(r) Require an accounting by the respondent of the disposition of the vulnerable adult's income or other resources;

(s) Restrain the transfer of either the respondent's or vulnerable adult's property, or both, for a specified period not exceeding 90 days;

(t) Order financial relief and restrain the transfer of jointly owned assets;

(u) Restrain the respondent from possessing or distributing intimate images, as defined in RCW 9A.86.010, depicting the petitioner including, but not limited to, requiring the respondent to: Take down and delete all intimate images and recordings of the petitioner in the respondent's possession or control; and cease any and all disclosure of those intimate images. The court may also inform the respondent that it would be appropriate to ask third parties in possession or control of the intimate images of this protection order to take down and delete the intimate images so that the order may not inadvertently be violated; or

(v) Order other relief as it deems necessary for the protection of the petitioner and other family or household members who are minors or vulnerable adults for whom the petitioner has sought protection, including orders or directives to a law enforcement officer, as allowed under this chapter.

(2) In an antiharassment protection order proceeding, the court may grant the relief specified in subsection (1)(c), (f), and (t) of this section only as part of a full antiharassment protection order.

(3) The court in granting a temporary antiharassment protection order or a civil antiharassment protection order shall not prohibit the respondent from exercising constitutionally protected free speech. Nothing in this section prohibits the petitioner from utilizing other civil or criminal remedies to restrain conduct or communications not otherwise constitutionally protected.

(4)(a) Except as provided in (b) of this subsection, in issuing a domestic violence, sexual assault, or stalking protection order on behalf of a prevailing petitioner, the court must order the respondent to pay reasonable attorneys' fees or limited license legal technician fees when such fees are incurred by a person licensed and practicing in accordance with state supreme court admission and practice rule 28, the limited practice rule for limited license legal technicians.

(b) If the court finds by a preponderance of the evidence that an order to pay reasonable attorneys' fees or limited license legal technician fees would be manifestly unjust or that the respondent is currently unable to pay the fees and is unlikely to be able to pay the fees in the future, the court may set the fees at a lower amount, enter into a payment plan with the respondent, or decline to order payment of the fees.

(5) The court shall not take any of the following actions in issuing a protection order.

(a) The court may not order the petitioner to obtain services including, but not limited to, drug testing, victim support services, a mental health assessment, or a psychological evaluation.

(b) The court shall not issue a full protection order to any party except upon notice to the respondent and the opportunity for a hearing pursuant to a petition or counter-petition filed and served by the party seeking relief in accordance with this chapter. Except as provided in RCW

7.105.210, the court shall not issue a temporary protection order to any party unless the party has filed a petition or counter-petition for a protection order seeking relief in accordance with this chapter.

(c) Under no circumstances shall the court deny the petitioner the type of protection order sought in the petition on the grounds that the court finds that a different type of protection order would have a less severe impact on the respondent.

~~((45))~~(6) The order shall specify the date the order expires, if any. For permanent orders, the court shall set the date to expire 99 years from the issuance date. The order shall also state whether the court issued the protection order following personal service, service by electronic means, service by mail, or service by publication, and whether the court has approved service by mail or publication of an order issued under this section.

**Sec. 304.** RCW 7.105.450 and 2022 c 268 s 21 are each amended to read as follows:

(1)(a) Whenever a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order is granted under this chapter, or an order is granted under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or there is a valid foreign protection order as defined in RCW 26.52.020, or there is a Canadian domestic violence protection order as defined in RCW 26.55.010, and the respondent or person to be restrained knows of the order, a violation of any of the following provisions of the order is a gross misdemeanor, except as provided in subsections (4) and (5) of this section:

(i) The restraint provisions prohibiting acts or threats of violence against, or stalking of, a protected party, or the restraint provisions prohibiting contact with a protected party;

(ii) A provision excluding the person from a residence, workplace, school, or day care;

(iii) A provision prohibiting the person from knowingly coming within, or knowingly remaining within, a specified distance of a location, a protected party's person, or a protected party's vehicle;

(iv) A provision prohibiting interfering with the protected party's efforts to remove a pet owned, possessed, leased, kept, or held by the petitioner, the respondent, or a minor child residing with either the petitioner or the respondent; ~~((6#))~~

(v) A provision requiring the respondent to submit to electronic monitoring; or

(vi) A provision of a foreign protection order or a Canadian domestic violence protection order specifically indicating that a violation will be a crime.

(b) Upon conviction, and in addition to any other penalties provided by law, the court:

(i) May require that the respondent submit to electronic monitoring. The court shall specify who must provide the electronic monitoring services and the terms

under which the monitoring must be performed. The order also may include a requirement that the respondent pay the costs of the monitoring. The court shall consider the ability of the convicted person to pay for electronic monitoring; and

(ii) Shall impose a fine of \$15, in addition to any penalty or fine imposed, for a violation of a domestic violence protection order issued under this chapter. Revenue from the \$15 fine must be remitted monthly to the state treasury for deposit in the domestic violence prevention account.

(2) A law enforcement officer shall arrest without a warrant and take into custody a person whom the law enforcement officer has probable cause to believe has violated a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order, or an order issued under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010, that restrains the person or excludes the person from a residence, workplace, school, or day care, or prohibits the person from knowingly coming within, or knowingly remaining within, a specified distance of a location, a protected party's person, or a protected party's vehicle, if the person restrained knows of the order. Presence of the order in the law enforcement computer-based criminal intelligence information system is not the only means of establishing knowledge of the order.

(3) A violation of a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order, or an order issued under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010, shall also constitute contempt of court, and is subject to the penalties prescribed by law.

(4) Any assault that is a violation of a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order, or an order issued under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010, and that does not amount to assault in the first or second degree under RCW 9A.36.011 or 9A.36.021 is a class C felony, and any conduct in violation of such an order that is reckless and creates a substantial risk of death or serious physical injury to another person is a class C felony.

(5) A violation of a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order, or a court order issued under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99,

26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010, is a class C felony if the offender has at least two previous convictions for violating the provisions of a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order, or an order issued under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010. The previous convictions may involve the same victim or other victims specifically protected by the orders the offender violated.

(6) (a) A defendant arrested for violating a domestic violence protection order, sexual assault protection order, stalking protection order, or vulnerable adult protection order, or an order granted under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010, is required to appear in person before a magistrate within one judicial day after the arrest. At the time of the appearance, the court shall determine the necessity of imposing a no-contact order or other conditions of pretrial release.

(b) A defendant who is charged by citation, complaint, or information with violating any protection order identified in (a) of this subsection and not arrested shall appear in court for arraignment in person as soon as practicable, but in no event later than 14 days after the next day on which court is in session following the issuance of the citation or the filing of the complaint or information.

(7) Upon the filing of an affidavit by the petitioner or any law enforcement officer alleging that the respondent has violated a domestic violence protection order, a sexual assault protection order, a stalking protection order, or a vulnerable adult protection order, or an order granted under chapter 9A.40, 9A.44, 9A.46, 9A.88, 9.94A, 10.99, 26.09, 26.26A, or 26.26B RCW, or a valid foreign protection order as defined in RCW 26.52.020, or a Canadian domestic violence protection order as defined in RCW 26.55.010, the court may issue an order to the respondent, requiring the respondent to appear and show cause within 14 days as to why the respondent should not be found in contempt of court and punished accordingly. The hearing may be held in the court of any county or municipality in which the petitioner or respondent temporarily or permanently resides at the time of the alleged violation.

(8) Appearances required under this section are mandatory and cannot be waived.

**Sec. 305.** RCW 7.105.500 and 2022 c 268 s 23 are each amended to read as follows:

This section applies to modification or termination of domestic violence protection orders, sexual assault protection orders, stalking protection orders, and antiharassment protection orders.

(1) Upon a motion with notice to all parties and after a hearing, the court may modify the terms of an existing protection order or terminate an existing order.

(2) A respondent's motion to modify or terminate an existing protection order must include a declaration setting forth facts supporting the requested order for modification or termination. The nonmoving parties to the proceeding may file opposing declarations. All motions to modify or terminate shall be based on the written materials and evidence submitted to the court. The court shall set a hearing only if the court finds that adequate cause is established. If the court finds that the respondent established adequate cause, the court shall set a date for hearing the respondent's motion, which must be at least 14 days from the date the court finds adequate cause.

(3) Upon the motion of a respondent, the court may not modify or terminate an existing protection order unless the respondent proves by a preponderance of the evidence that there has been a substantial change in circumstances such that the respondent will not resume, engage in, or attempt to engage in, the following acts against the petitioner or those persons protected by the protection order if the order is terminated or modified:

(a) Acts of domestic violence, in cases involving domestic violence protection orders;

(b) Physical or nonphysical contact, in cases involving sexual assault protection orders;

(c) Acts of stalking, in cases involving stalking protection orders; or

(d) Acts of unlawful harassment, in cases involving antiharassment protection orders.

The petitioner bears no burden of proving that ~~((he or she))~~ the petitioner has a current reasonable fear of harm by the respondent.

(4) In determining whether there has been a substantial change in circumstances, the court may consider the following unweighted factors, and no inference is to be drawn from the order in which the factors are listed:

(a) Whether the respondent has committed or threatened sexual assault, domestic violence, stalking, or other harmful acts against the petitioner or any other person since the protection order was entered;

(b) Whether the respondent has violated the terms of the protection order and the time that has passed since the entry of the order;

(c) Whether the respondent has exhibited suicidal ideation or attempts since the protection order was entered;

(d) Whether the respondent has been convicted of criminal activity since the protection order was entered;

(e) Whether the respondent has either acknowledged responsibility for acts of sexual assault, domestic violence, stalking, or behavior that resulted in the entry of

the protection order, or successfully completed state-certified perpetrator treatment or counseling since the protection order was entered;

(f) Whether the respondent has a continuing involvement with drug or alcohol abuse, if such abuse was a factor in the protection order;

(g) Whether the petitioner consents to terminating the protection order, provided that consent is given voluntarily and knowingly; or

(h) Other factors relating to a substantial change in circumstances.

(5) In determining whether there has been a substantial change in circumstances, the court may not base its determination on the fact that time has passed without a violation of the order.

(6) Regardless of whether there is a substantial change in circumstances, the court may decline to terminate a protection order if it finds that the acts of domestic violence, sexual assault, stalking, unlawful harassment, and other harmful acts that resulted in the issuance of the protection order were of such severity that the order should not be terminated.

(7) A respondent may file a motion to modify or terminate an order no more than once in every 12-month period that the order is in effect, starting from the date of the order and continuing through any renewal period.

(8) If a person who is protected by a protection order has a child or adopts a child after a protection order has been issued, but before the protection order has expired, the petitioner may seek to include the new child in the order of protection on an ex parte basis if the child is already in the physical custody of the petitioner. If the restrained person is the legal or biological parent of the child, a hearing must be set and notice given to the restrained person prior to final modification of the full protection order.

(9) ~~((A court may))~~ (a) (i) Except as provided in (a) (ii) of this subsection, a court must require the respondent to pay the petitioner for costs incurred in responding to a motion to modify or terminate a domestic violence, sexual assault, or stalking protection order, including reasonable attorneys' fees.

(ii) If the court finds by a preponderance of the evidence that an order to pay costs would be manifestly unjust or that the respondent is currently unable to pay the costs and is unlikely to be able to pay the costs in the future, the court may set the costs at a lower amount, enter into a payment plan with the respondent, or decline to order payment of the costs.

(b) A court may require the respondent to pay the petitioner for costs incurred in responding to a motion to modify or terminate any other type of protection order, including reasonable attorneys' fees.

NEW SECTION. Sec. 306. A new section is added to chapter 7.105 RCW to read as follows:

(1) Because of the potential for error in protection order proceedings and the danger

associated with firearm access in domestic violence situations, in any proceeding in which the court enters a temporary protection order that includes a temporary order to surrender and prohibit weapons, and after the hearing the court denies the petition for a full protection order, the order to surrender and prohibit weapons must remain in effect until the period for a petitioner to file a motion for reconsideration or revision has passed. If a motion for reconsideration or revision is filed, the order to surrender and prohibit weapons must remain in effect until the motion for reconsideration or revision is resolved.

(2) The court must notify the petitioner verbally and provide the petitioner with written information at the hearing in which the court denies the petition for a full protection order explaining the procedures and timelines for filing a motion for reconsideration or a motion for revision. The information must also include contact information for civil legal aid organizations that may assist the petitioner with a motion for reconsideration or a motion for revision.

(3) Subsection (1) of this section does not apply if allowing the order to surrender and prohibit weapons to remain in effect would be manifestly unjust including, but not limited to, situations where the court finds the temporary protection order was entirely without merit, the petitioner was engaged in abusive use of litigation, or the petitioner was exerting coercive control, as defined in RCW 7.105.010, over the respondent.

#### Part IV. Domestic Violence Protections

**Sec. 401.** RCW 10.99.033 and 2019 c 367 s 2 are each amended to read as follows:

(1) All training relating to the handling of domestic violence complaints by law enforcement officers must stress enforcement of criminal laws in domestic situations, availability of community resources, and protection of the victim. Law enforcement agencies and community organizations with expertise in the issue of domestic violence shall cooperate in all aspects of such training.

(2) The criminal justice training commission shall implement by July 28, 2019, a course of instruction for the training of law enforcement officers in Washington in the handling of domestic violence complaints. The basic law enforcement curriculum of the criminal justice training commission must include at least twenty hours of basic training instruction on the law enforcement response to domestic violence. The course of instruction, the learning and performance objectives, and the standards for the training must be developed by the commission and focus on enforcing the criminal laws, safety of the victim, and holding the perpetrator accountable for the violence. The curriculum must include training on the extent and prevalence of domestic violence, the importance of criminal justice intervention, techniques for responding to incidents that minimize

the likelihood of officer injury and that promote victim safety, trauma-informed investigation and interviewing skills, evidence gathering and report writing, assistance to and services for victims and children, domestic violence homicide prevention, the intersection of firearms and domestic violence, best practices for serving and enforcing protection orders, best practices for implementation and enforcement of orders to surrender and prohibit weapons and extreme risk protection orders, the impacts that trauma may have on domestic violence victims, understanding the risks of traumatic brain injury posed by domestic violence, verification and enforcement of court orders, liability, and any additional provisions that are necessary to carry out the intention of this subsection.

(3) The criminal justice training commission shall develop and update annually an in-service training program to familiarize law enforcement officers with domestic violence laws. The program must include techniques for handling incidents of domestic violence that minimize the likelihood of injury to the officer and that promote the safety of all parties. The program must also include training on domestic violence homicide prevention, the intersection of firearms and domestic violence, best practices for serving and enforcing protection orders, and assistance to and services for victims and children. The commission shall make the training program available to all law enforcement agencies in the state.

(4) Development of the training in subsections (2) and (3) of this section must be conducted in conjunction with agencies having a primary responsibility for serving victims of domestic violence with emergency shelter and other services, and representatives to the statewide organization providing training and education to these organizations and to the general public.

**Sec. 402.** RCW 10.99.040 and 2021 c 215 s 122 are each amended to read as follows:

(1) Because of the serious nature of domestic violence, the court in domestic violence actions:

(a) Shall not dismiss any charge or delay disposition because of concurrent dissolution or other civil proceedings;

(b) Shall not require proof that either party is seeking a dissolution of marriage prior to instigation of criminal proceedings;

(c) Shall waive any requirement that the victim's location be disclosed to any person, other than the attorney of a criminal defendant, upon a showing that there is a possibility of further violence: PROVIDED, That the court may order a criminal defense attorney not to disclose to his or her client the victim's location; and

(d) Shall identify by any reasonable means on docket sheets those criminal actions arising from acts of domestic violence; and

(e) Shall not deny issuance of a no-contact order based on the existence of an

applicable civil protection order preventing the defendant from contacting the victim.

(2)(a) Because of the likelihood of repeated violence directed at those who have been victims of domestic violence in the past, when any person charged with or arrested for a crime involving domestic violence is released from custody before arraignment or trial on bail or personal recognizance, the court authorizing the release may prohibit that person from having any contact with the victim. The jurisdiction authorizing the release shall determine whether that person should be prohibited from having any contact with the victim. If there is no outstanding restraining or protective order prohibiting that person from having contact with the victim, the court authorizing release may issue, by telephone, a no-contact order prohibiting the person charged or arrested from having contact with the victim or from knowingly coming within, or knowingly remaining within, a specified distance of a location.

(b) In issuing the order, the court shall consider the provisions of RCW 9.41.800, and shall order the defendant to surrender, and prohibit the person from possessing, all firearms, dangerous weapons, and any concealed pistol license as required in RCW 9.41.800.

(c) The no-contact order shall also be issued in writing as soon as possible, and shall state that it may be extended as provided in subsection (3) of this section. By January 1, 2011, the administrative office of the courts shall develop a pattern form for all no-contact orders issued under this chapter. A no-contact order issued under this chapter must substantially comply with the pattern form developed by the administrative office of the courts.

(3)(a) At the time of arraignment the court shall determine whether a no-contact order shall be issued or extended. So long as the court finds probable cause, the court may issue or extend a no-contact order even if the defendant fails to appear at arraignment. The no-contact order shall terminate if the defendant is acquitted or the charges are dismissed.

(b) In issuing the order, the court shall consider all information documented in the incident report concerning the person's possession of and access to firearms and whether law enforcement took temporary custody of firearms at the time of the arrest. The court may as a condition of release prohibit the defendant from possessing or accessing firearms and order the defendant to immediately surrender all firearms and any concealed pistol license to a law enforcement agency upon release.

(c) If a no-contact order is issued or extended, the court may also include in the conditions of release a requirement that the defendant submit to electronic monitoring as defined in RCW 9.94A.030. If electronic monitoring is ordered, the court shall specify who shall provide the monitoring services, and the terms under which the monitoring shall be performed. Upon conviction, the court may require as a condition of the sentence that the defendant (~~reimburse the providing agency for~~) pay

the costs of the electronic monitoring. If a defendant enters into a deferred prosecution or stipulated order of continuance, the applicable order or agreement may require the defendant pay the costs of the electronic monitoring.

(4)(a) Willful violation of a court order issued under subsection (2), (3), or (7) of this section is punishable under RCW 7.105.450.

(b) The written order releasing the person charged or arrested shall contain the court's directives and shall bear the legend: "Violation of this order is a criminal offense under chapter 7.105 RCW and will subject a violator to arrest; any assault, drive-by shooting, or reckless endangerment that is a violation of this order is a felony. You can be arrested even if any person protected by the order invites or allows you to violate the order's prohibitions. You have the sole responsibility to avoid or refrain from violating the order's provisions. Only the court can change the order."

(c) A certified copy of the order shall be provided to the victim.

(5) If a no-contact order has been issued prior to charging, that order shall expire at arraignment or within seventy-two hours if charges are not filed.

(6) Whenever a no-contact order is issued, modified, or terminated under subsection (2) or (3) of this section, the clerk of the court shall forward a copy of the order on or before the next judicial day to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order the law enforcement agency shall enter the order for one year or until the expiration date specified on the order into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. Entry into the computer-based criminal intelligence information system constitutes notice to all law enforcement agencies of the existence of the order. The order is fully enforceable in any jurisdiction in the state. Upon receipt of notice that an order has been terminated under subsection (3) of this section, the law enforcement agency shall remove the order from the computer-based criminal intelligence information system.

(7) All courts shall develop policies and procedures by January 1, 2011, to grant victims a process to modify or rescind a no-contact order issued under this chapter. The administrative office of the courts shall develop a model policy to assist the courts in implementing the requirements of this subsection.

## **Part V. Firearms and Dangerous Weapons**

**Sec. 501.** RCW 9.41.340 and 2020 c 29 s 5 are each amended to read as follows:

(1)(a) Each law enforcement agency shall develop a notification protocol that (~~allows~~):

(i) Allows a family or household member or intimate partner to use an incident or case number to request to be notified when a law enforcement agency returns a privately

owned firearm to the individual from whom it was obtained or to an authorized representative of that person; and

(ii) Requires, once the portal created under section 804 of this act is available, immediate law enforcement entry in a portal created and maintained by the Washington association of sheriffs and police chiefs with the intended purpose to provide timely and accurate information to the statewide automated protected person notification system created under RCW 36.28A.410 when a law enforcement agency returns a privately owned firearm to any respondent identified in a no-contact order, restraining order, or protection order.

~~((a))~~ (b)(i) Notification may be made via telephone, email, text message, or another method that allows notification to be provided without unnecessary delay.

~~((b))~~ (ii) If a law enforcement agency is in possession of more than one privately owned firearm from ~~((a single person))~~ an individual, notification relating to the return of one firearm shall be considered notification for all privately owned firearms for that person.

(2) A law enforcement agency shall not provide notification to any party other than ~~((a family or household member or intimate partner who has an incident or case number and who has requested to be notified pursuant to this section or))~~ another criminal justice agency or as authorized or required under subsection (1) of this section.

(3) The information provided by a family or household member or intimate partner pursuant to chapter 130, Laws of 2015, including the existence of the request for notification, is not subject to public disclosure pursuant to chapter 42.56 RCW.

(4) An appointed or elected official, public employee, or public agency as defined in RCW 4.24.470, or combination of units of local government and its employees, as provided in RCW 36.28A.010, are immune from civil liability for damages for any release of information or the failure to release information related to this section, so long as the release or failure was without gross negligence.

(5) An individual who knowingly makes a request for notification under this section based on false information may be held liable under RCW 9A.76.175.

**Sec. 502.** RCW 9.41.345 and 2020 c 29 s 6 are each amended to read as follows:

(1) Before a law enforcement agency returns a privately owned firearm, the law enforcement agency must:

(a) Confirm that the individual to whom the firearm will be returned is the individual from whom the firearm was obtained or an authorized representative of that person;

(b) Confirm that the individual to whom the firearm will be returned is eligible to possess a firearm pursuant to RCW 9.41.040;

(c) Ensure that the firearm is not otherwise required to be held in custody or otherwise prohibited from being released; ~~((and))~~

(d) Ensure that twenty-four hours have elapsed from the time the firearm was obtained by law enforcement, unless the firearm was seized in connection with a domestic violence call pursuant to RCW 10.99.030, in which case the law enforcement agency must ensure that five business days have elapsed from the time the firearm was obtained;

(e) If a family or household member or intimate partner has requested notification, provide notice to the family or household member or intimate partner who has requested notification within one business day of verifying that the requirements in (a) through (c) of this subsection have been met; and

(f) Once the portal created under section 804 of this act is available, immediately enter in the portal created and maintained by the Washington association of sheriffs and police chiefs with the intended purpose to provide timely and accurate information to the statewide automated protected person notification system created under RCW 36.28A.410, when any respondent identified in a no-contact order, restraining order, or protection order has met the requirements in (a) through (c) of this subsection. Law enforcement must provide the respondent's name, date of birth, protective order number, and date the respondent is eligible to have the respondent's firearms returned.

(2) (a) Once the requirements in subsections (1) and (3) of this section have been met, a law enforcement agency must release a firearm to the individual from whom it was obtained or an authorized representative of that person upon request without unnecessary delay.

(b) (i) If a firearm cannot be returned because it is required to be held in custody or is otherwise prohibited from being released, a law enforcement agency must provide written notice to the individual from whom it was obtained within five business days of the individual requesting return of ~~((his or her))~~ the firearm and specify the reason the firearm must be held in custody.

(ii) Notification may be made via email, text message, mail service, or personal service. For methods other than personal service, service shall be considered complete once the notification is sent.

~~(3) If ((a family or household member or intimate partner has requested to be notified pursuant to RCW 9.41.340)) notification is required under subsections (1)(e) or (f) of this section, a law enforcement agency must~~ ~~((+))~~

~~(a) Provide notice to the family or household member or intimate partner within one business day of verifying that the requirements in subsection (1) of this section have been met; and~~

~~(b) Hold) hold~~ the firearm in custody for seventy-two hours from the time notification has been provided or information has been entered.

(4) (a) A law enforcement agency may not return a concealed pistol license that has been surrendered to, or impounded by, the law enforcement agency for any reason to the licensee until the law enforcement agency determines the licensee is eligible to

possess a firearm under state and federal law and meets the other eligibility requirements for a concealed pistol license under RCW 9.41.070.

(b) A law enforcement agency must release a concealed pistol license to the licensee without unnecessary delay, and in no case longer than five business days, after the law enforcement agency determines the requirements of (a) of this subsection have been met.

(5) The provisions of chapter 130, Laws of 2015 and subsection (4) of this section shall not apply to circumstances where a law enforcement officer has momentarily obtained a firearm or concealed pistol license from an individual and would otherwise immediately return the firearm or concealed pistol license to the individual during the same interaction.

**Sec. 503.** RCW 9.41.801 and 2022 c 268 s 30 are each amended to read as follows:

(1) Because of the heightened risk of lethality to petitioners when respondents to protection orders become aware of court involvement and continue to have access to firearms, and the frequency of noncompliance with court orders prohibiting possession of firearms, law enforcement and judicial processes must emphasize swift and certain compliance with court orders prohibiting access, possession, and ownership of all firearms.

(2) A law enforcement officer serving a protection order, no-contact order, or restraining order that includes an order to surrender all firearms, dangerous weapons, and a concealed pistol license under RCW 9.41.800 shall inform the respondent that the order is effective upon service and the respondent must immediately surrender all firearms and dangerous weapons in the respondent's custody, control, or possession and any concealed pistol license issued under RCW 9.41.070, and conduct any search permitted by law for such firearms, dangerous weapons, and concealed pistol license. The law enforcement officer shall take possession of all firearms, dangerous weapons, and any concealed pistol license belonging to the respondent that are surrendered, in plain sight, or discovered pursuant to a lawful search. If the order is entered in open court and the respondent appears in person, the respondent shall be provided a copy and further service is not required. If the respondent refuses to receive a copy, an agent of the court may indicate on the record that the respondent refused to receive a copy of the order. If the respondent appears remotely for the hearing, or leaves the hearing before a final ruling is issued or order signed, and the court believes the respondent has sufficient notice such that additional service is not necessary, the order must recite that the respondent appeared before the court, has actual notice of the order, the necessity for further service is waived, and proof of service of the order is not necessary. The court shall enter the service and receipt into the record. A copy of the order and service shall be transmitted immediately to law enforcement. The

respondent must immediately surrender all firearms, dangerous weapons, and any concealed pistol license in a safe manner to the control of the local law enforcement agency on the day of the hearing at which the respondent was present in person or remotely. Alternatively, if personal service by a law enforcement officer is not possible, and the respondent did not appear in person or remotely at the hearing, the respondent shall surrender the firearms in a safe manner to the control of the local law enforcement agency within 24 hours of being served with the order by alternate service.

(3) At the time of surrender, a law enforcement officer taking possession of firearms, dangerous weapons, and any concealed pistol license shall issue a receipt identifying all firearms, dangerous weapons, and any concealed pistol license that have been surrendered and provide a copy of the receipt to the respondent. The law enforcement agency shall file the original receipt with the court within 24 hours after service of the order and retain a copy of the receipt, electronically whenever electronic filing is available.

(4) Upon the sworn statement or testimony of the petitioner or of any law enforcement officer alleging that the respondent has failed to comply with the surrender of firearms or dangerous weapons as required by an order issued under RCW 9.41.800 or 10.99.100, the court shall determine whether probable cause exists to believe that the respondent has failed to surrender all firearms and dangerous weapons in their possession, custody, or control. If probable cause exists that a crime occurred, the court shall issue a warrant describing the firearms or dangerous weapons and authorizing a search of the locations where the firearms and dangerous weapons are reasonably believed to be and the seizure of all firearms and dangerous weapons discovered pursuant to such search.

(5) If a person other than the respondent claims title to any firearms or dangerous weapons surrendered pursuant to this section, and the person is determined by the law enforcement agency to be the lawful owner of the firearm or dangerous weapon, the firearm or dangerous weapon shall be returned to the lawful owner, provided that:

(a) The firearm or dangerous weapon is removed from the respondent's access, custody, control, or possession and the lawful owner agrees by written document signed under penalty of perjury to store the firearm or dangerous weapon in a manner such that the respondent does not have access to or control of the firearm or dangerous weapon;

(b) The firearm or dangerous weapon is not otherwise unlawfully possessed by the owner; and

(c) The requirements of RCW 9.41.345 are met.

(6) Courts shall develop procedures to verify timely and complete compliance with orders to surrender and prohibit weapons under RCW 9.41.800 or 10.99.100, including compliance review hearings to be held as soon as possible upon receipt from law enforcement of proof of service. A compliance review hearing is not required if

the court can otherwise enter findings on the record or enter written findings that the proof of surrender or declaration of nonsurrender attested to by the person subject to the order, along with verification from law enforcement and any other relevant evidence, makes a sufficient showing that the person has timely and completely surrendered all firearms and dangerous weapons in the person's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070, to a law enforcement agency. If the court does not have a sufficient record before it on which to make such a finding, the court must set a review hearing to occur as soon as possible at which the respondent must be present and provide proof of compliance with the court's order. Courts shall make available forms that petitioners may complete and submit to the court in response to a respondent's declaration of whether the respondent has surrendered weapons.

(7)(a) If a court finds at the compliance review hearing, or any other hearing where compliance with the order to surrender and prohibit weapons is addressed, that there is probable cause to believe the respondent was aware of and failed to fully comply with the order, failed to appear at the compliance review hearing, or violated the order after the court entered findings of compliance, pursuant to its authority under chapter 7.21 RCW, the court may issue an arrest warrant and initiate a contempt proceeding to impose remedial sanctions on its own motion, or upon the motion of the prosecutor, city attorney, or the petitioner's counsel, and issue an order requiring the respondent to appear, provide proof of compliance with the order, and show cause why the respondent should not be held in contempt of court.

(b) If the respondent is not present in court at the compliance review hearing or if the court issues an order to appear and show cause after a compliance review hearing, the clerk of the court shall electronically transmit a copy of the order to show cause to the law enforcement agency where the respondent resides for personal service or service in the manner provided in the civil rules of superior court or applicable statute. Law enforcement shall also serve a copy of the order to show cause on the petitioner, either electronically or in person, at no cost.

(c) The order to show cause served upon the respondent shall state the date, time, and location of the hearing and shall include a warning that the respondent may be held in contempt of court if the respondent fails to promptly comply with the terms of the order to surrender and prohibit weapons and a warning that an arrest warrant could be issued if the respondent fails to appear on the date and time provided in the order.

(d)(i) At the show cause hearing, the respondent must be present and provide proof of compliance with the underlying court order to surrender and prohibit weapons and demonstrate why the relief requested should not be granted.

(ii) The court shall take judicial notice of the receipt filed with the court by the law enforcement agency pursuant to subsection (3) of this section. The court

shall also provide sufficient notice to the law enforcement agency of the hearing. Upon receiving notice pursuant to this subsection, a law enforcement agency must:

(A) Provide the court with a complete list of firearms and other dangerous weapons surrendered by the respondent or otherwise belonging to the respondent that are in the possession of the law enforcement agency; and

(B) Provide the court with verification that any concealed pistol license issued to the respondent has been surrendered and the agency with authority to revoke the license has been notified.

(iii) If the law enforcement agency has a reasonable suspicion that the respondent is not in full compliance with the terms of the order, the law enforcement agency must submit the basis for its belief to the court, and may do so through the filing of a declaration.

(e) If the court finds the respondent in contempt, the court may impose remedial sanctions designed to ensure swift compliance with the order to surrender and prohibit weapons.

(f) The court may order a respondent found in contempt of the order to surrender and prohibit weapons to pay for any losses incurred by a party in connection with the contempt proceeding, including reasonable attorneys' fees, service fees, and other costs. The costs of the proceeding shall not be borne by the petitioner.

(8)(a) To help ensure that accurate and comprehensive information about firearms compliance is provided to judicial officers, a representative from either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may appear and be heard or submit written information at any hearing that concerns compliance with an order to surrender and prohibit weapons issued in connection with another type of protection order.

(b) Either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may designate an advocate or a staff person from their office who is not an attorney to appear on behalf of their office. Such appearance does not constitute the unauthorized practice of law.

(9)(a) An order to surrender and prohibit weapons issued pursuant to RCW 9.41.800 must state that the act of voluntarily surrendering firearms or weapons, or providing testimony relating to the surrender of firearms or weapons, pursuant to such an order, may not be used against the respondent in any criminal prosecution under this chapter, chapter 7.105 RCW, or RCW 9A.56.310.

(b) To provide relevant information to the court to determine compliance with the order, the court may allow the prosecuting attorney or city attorney to question the respondent regarding compliance.

(10) All law enforcement agencies must have policies and procedures to provide for the acceptance, storage, and return of firearms, dangerous weapons, and concealed pistol licenses that a court requires must be surrendered under RCW 9.41.800. A law enforcement agency holding any firearm or

concealed pistol license that has been surrendered under RCW 9.41.800 shall comply with the provisions of RCW 9.41.340 and 9.41.345 before the return of the firearm or concealed pistol license to the owner or individual from whom it was obtained.

(11) The administrative office of the courts shall create a statewide pattern form to assist the courts in ensuring timely and complete compliance in a consistent manner with orders issued under this chapter. The administrative office of the courts shall report annually on the number of orders issued under this chapter by each court, the degree of compliance, and the number of firearms obtained, and may make recommendations regarding additional procedures to enhance compliance and victim safety.

**Sec. 504.** RCW 9.41.804 and 2014 c 111 s 5 are each amended to read as follows:

(A) (1) Except as provided in subsection (2) of this section, a party ordered to surrender firearms, dangerous weapons, and ((his or her)) the party's concealed pistol license under RCW 9.41.800 must file with the clerk of the court a proof of surrender and receipt form or a declaration of nonsurrender form within five judicial days of the entry of the order.

(2) A person ordered to surrender firearms or dangerous weapons under RCW 10.99.100 must file with the clerk of the court a proof of surrender and receipt form or a declaration of nonsurrender form before the defendant is released from any term of confinement, or, if the defendant is not sentenced to a term of confinement, before the conclusion of the hearing regarding the entry of the order.

**Sec. 505.** RCW 7.105.340 and 2022 c 268 s 19 are each amended to read as follows:

(1) Upon the issuance of any extreme risk protection order under this chapter, including a temporary extreme risk protection order, the court shall:

(a) Order the respondent to surrender to the local law enforcement agency all firearms in the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070; and

(b) Other than for ex parte temporary protection orders, direct law enforcement to revoke any concealed pistol license issued to the respondent.

(2) The law enforcement officer serving any extreme risk protection order under this chapter, including a temporary extreme risk protection order, shall request that the respondent immediately surrender all firearms in ((his or her)) the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070, and conduct any search permitted by law for such firearms. The law enforcement officer shall take possession of all firearms belonging to the respondent that are surrendered, in plain sight, or discovered pursuant to a lawful search. If the order is entered in open court and the respondent appears in person, the respondent must be provided a copy and further service

is not required. If the respondent refuses to accept a copy, an agent of the court may indicate on the record that the respondent refused to accept a copy of the order. If the respondent appears remotely for the hearing, or leaves the hearing before a final ruling is issued or order signed, and the court believes the respondent has sufficient notice such that additional service is not necessary, the order must recite that the respondent appeared before the court, has actual notice of the order, the necessity for further service is waived, and proof of service of the order is not necessary. The court shall enter the service and receipt into the record. A copy of the order and service must be transmitted immediately to law enforcement. The respondent must immediately surrender all firearms and any concealed pistol license, not previously surrendered, in a safe manner to the control of the local law enforcement agency on the day of the hearing at which the respondent was present in person or remotely. If the respondent is in custody, arrangements to recover the firearms must be made prior to release. Alternatively, if personal service by a law enforcement officer is not possible, and the respondent did not appear in person or remotely at the hearing, the respondent shall surrender the firearms in a safe manner to the control of the local law enforcement agency within 24 hours of being served with the order by alternate service.

(3) At the time of surrender, a law enforcement officer taking possession of a firearm or concealed pistol license shall issue a receipt identifying all firearms that have been surrendered and provide a copy of the receipt to the respondent. Within 72 hours after service of the order, the officer serving the order shall file the original receipt with the court and shall ensure that ((his or her)) the officer's law enforcement agency retains a copy of the receipt.

(4) Upon the sworn statement or testimony of the petitioner or of any law enforcement officer alleging that the respondent has failed to comply with the surrender of firearms as required by an order issued under this chapter, the court shall determine whether probable cause exists to believe that the respondent has failed to surrender all firearms in ((his or her)) the respondent's possession, custody, or control. If probable cause for a violation of the order exists, the court shall issue a warrant describing the firearms and authorizing a search of the locations where the firearms are reasonably believed to be and the seizure of any firearms discovered pursuant to such search.

(5) If a person other than the respondent claims title to any firearms surrendered pursuant to this section, and that person is determined by the law enforcement agency to be the lawful owner of the firearm, the firearm must be returned to that person, provided that:

(a) The firearm is removed from the respondent's custody, control, or possession, and the lawful owner provides written verification to the court regarding how the lawful owner will safely store the

firearm in a manner such that the respondent does not have access to, or control of, the firearm for the duration of the order;

(b) The court advises the lawful owner of the penalty for failure to do so; and

(c) The firearm is not otherwise unlawfully possessed by the owner.

(6) Upon the issuance of a one-year extreme risk protection order, the court shall order a new compliance review hearing date and require the respondent to appear not later than three judicial days from the issuance of the order. The court shall require a showing that the respondent has surrendered any firearms in the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070 to a law enforcement agency. The compliance review hearing is not required upon a satisfactory showing on which the court can otherwise enter findings on the record that the respondent has timely and completely surrendered all firearms in the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070 to a law enforcement agency, and is in compliance with the order. If the court does not have a sufficient record before it on which to make such a finding, the court must set a review hearing to occur as soon as possible, at which the respondent must be present and provide proof of compliance with the court's order.

(7)(a) If a court finds at the compliance review hearing, or any other hearing where compliance with the order is addressed, that there is probable cause to believe the respondent was aware of, and failed to fully comply with, the order, failed to appear at the compliance review hearing, or violated the order after the court entered findings of compliance, pursuant to its authority under chapter 7.21 RCW, the court may initiate a contempt proceeding on its own motion, or upon the motion of the prosecutor, city attorney, or the petitioner's counsel, to impose remedial sanctions, and issue an order requiring the respondent to appear, provide proof of compliance with the order, and show cause why the respondent should not be held in contempt of court.

(b) If the respondent is not present in court at the compliance review hearing or if the court issues an order to appear and show cause after a compliance review hearing, the clerk of the court shall electronically transmit a copy of the order to show cause to the law enforcement agency where the respondent resides for personal service or service in the manner provided in the civil rules of superior court or applicable statute.

(c) The order to show cause served upon the respondent shall state the date, time, and location of the hearing, and shall include a warning that the respondent may be held in contempt of court if the respondent fails to promptly comply with the terms of the extreme risk protection order and a warning that an arrest warrant could be issued if the respondent fails to appear on the date and time provided in the order to show cause.

(d)(i) At the show cause hearing, the respondent must be present and provide proof of compliance with the extreme risk protection order and demonstrate why the relief requested should not be granted.

(ii) The court shall take judicial notice of the receipt filed with the court by the law enforcement agency pursuant to subsection (3) of this section. The court shall also provide sufficient notice to the law enforcement agency of the hearing. Upon receiving notice pursuant to this subsection, a law enforcement agency must:

(A) Provide the court with a complete list of firearms surrendered by the respondent or otherwise belonging to the respondent that are in the possession of the law enforcement agency; and

(B) Provide the court with verification that any concealed pistol license issued to the respondent has been surrendered and that a law enforcement agency with authority to revoke the license has been notified.

(iii) If the law enforcement agency has a reasonable suspicion that the respondent is not in full compliance with the terms of the order, the law enforcement agency must submit the basis for its belief to the court, and may do so through the filing of an affidavit.

(e) If the court finds the respondent in contempt, the court may impose remedial sanctions designed to ensure swift compliance with the order to surrender and prohibit weapons.

(f) The court may order a respondent found in contempt of the order to pay for any losses incurred by a party in connection with the contempt proceeding, including reasonable attorneys' fees, service fees, and other costs. The costs of the proceeding must not be borne by the petitioner.

(8)(a) To help ensure that accurate and comprehensive information about firearms compliance is provided to judicial officers, a representative from either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may appear and be heard or submit written information at any hearing that concerns compliance with an extreme risk protection order.

(b) Either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may designate an advocate or a staff person from their office who is not an attorney to appear on behalf of their office. Such appearance does not constitute the unauthorized practice of law.

(9)(a) An extreme risk protection order must state that the act of voluntarily surrendering firearms, or providing testimony relating to the surrender of firearms, pursuant to such an order, may not be used against the respondent in any criminal prosecution under this chapter, chapter 9.41 RCW, or RCW 9A.56.310.

(b) To provide relevant information to the court to determine compliance with the order, the court may allow the prosecuting attorney or city attorney to question the respondent regarding compliance.

(10) All law enforcement agencies must develop and implement policies and procedures regarding the acceptance,

storage, and return of firearms required to be surrendered under this chapter. Any surrendered firearms must be handled and stored properly to prevent damage or degradation in appearance or function, and the condition of the surrendered firearms documented, including by digital photograph. A law enforcement agency holding any surrendered firearm or concealed pistol license shall comply with the provisions of RCW 9.41.340 and 9.41.345 before the return of the firearm or concealed pistol license to the owner or individual from whom it was obtained.

**Sec. 506.** RCW 10.21.050 and 2018 c 276 s 5 are each amended to read as follows:

The judicial officer in any felony, misdemeanor, or gross misdemeanor case must, in determining whether there are conditions of release that will reasonably assure the safety of any other person and the community, take into account the available information concerning:

(1) The nature and circumstances of the offense charged, including whether the offense is a crime of violence;

(2) The weight of the evidence against the defendant; and

(3) The history and characteristics of the defendant, including:

(a) The ~~((person's))~~ defendant's character, physical and mental condition, family ties, employment, financial resources, length of residence in the community, community ties, past conduct, history relating to drug or alcohol abuse, criminal history, and record concerning appearance at court proceedings;

**"NEW SECTION. Sec. 1.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Ecosystem service credit" means a predetermined and standardized unit that represents a measurable ecosystem service provided in the context of a payment for an ecosystem service project.

(2) "Ecosystem service marketplace" has the same meaning as "ecosystem services market" as defined in RCW 76.09.020.

(3) "Ecosystem service project broker" means an entity that facilitates the process of matching ecosystem service providers and purchasers of ecosystem service project credits. An ecosystem service project broker may sell or procure credits on their clients' behalf and provide financing and marketing expertise. Ecosystem service project brokers may also act as ecosystem service project developers.

(4) "Ecosystem service project developer" means an entity that sources and initiates ecosystem service projects on behalf of the ecosystem service provider including, but not limited to, by working with ecosystem service project standards and verification bodies, bearing financial risks of projects, and working with a network of distributors and retailers to deliver auditable ecosystem service project credits to a marketplace. An ecosystem service project developer may also act as an ecosystem service project broker.

(5) (a) "Ecosystem services" has the same meaning as defined in RCW 76.09.020.

(b) Examples of ecosystem services include, but are not limited to, carbon sequestration and storage projects that are consistent with the policies outlined in RCW 70A.45.090, air and water filtration, climate stabilization, and disturbance mitigation.

(6) "Payment for ecosystem service project" means a transaction within an ecosystem service marketplace that transfers financial incentives to ecosystem service providers that are conditional on the provision of the service. Project types include, but are not limited to, carbon offset projects.

**NEW SECTION. Sec. 2.** (1) The department is authorized to enter into contracts for payment for ecosystem service projects on public lands, consistent with this chapter and other relevant laws, on terms and conditions acceptable to the department, after approval by the board of natural resources, only for the purpose of generating additional revenue by providing ecosystem services. Any ecosystem service project on state lands or state forestlands:

(a) Must be limited, except as provided in section 3 of this act, to:

(i) Afforestation;

(ii) Reforestation;

(iii) Silvicultural treatments, such as commercial or precommercial thinning operations, that does not increase rotation lengths or reduce final harvest volumes;

(iv) Forest restoration investments that increase overall harvest volume;

(d) May not be inconsistent with ongoing forest health planning efforts and investments such as expenditures from the wildfire response, forest restoration, and community resilience account created in RCW 76.04.511;

(e) Must result in an increase in revenue to beneficiaries as compared to expected revenue that may exist in absence of the underlying ecosystem service project; and

(f) May not limit or impair the exercise of tribal treaty and reserved rights, existing tribal access to lands managed by the department, or preexisting agreements between tribes and the department.

(2) The contract term under this section may represent the sale or lease of ecosystem service credits and may not last for a period of longer than 125 years. Proceeds from contracts for ecosystem services must be deposited into the appropriate account in the state treasury.

(3) The authority of the department to enter into a contract that results in payments for ecosystem service projects under subsection (1) of this section is conditional on any specific project being consistent with the department's management of the underlying public land for agriculture or commercial timber harvest and ensure the department meets its fiduciary responsibility to the state's trust beneficiaries. Any ecosystem service project, or the sum of all ecosystem service projects, other than the projects authorized under section 3 of this act, may not prevent the department from managing state lands and state forestlands for sustained yield as required by RCW 79.10.310.

(4) The department may:

(a) Directly offer for sale ecosystem service credits, consistent with this section, with established compliance ecosystem service marketplaces or verifiable

and established voluntary ecosystem service marketplace;

(b) Enter into contracts with ecosystem service project developers or brokers, through public auction or by direct negotiation, to bring ecosystem service credits to market. Contracts for ecosystem services are subject to approval by, and the rules adopted by, the board.

(5) Notice of intent to contract by negotiation must be published on the department's website. The notice must be published within the 90 days preceding commencement of negotiations.

(6) The department is authorized to conduct any additional advertising that it determines to be in the best interest of the state.

(7) The department may enter into contracts or agreements with third-party ecosystem service project developers or brokers for purposes that include, but are not limited to, determining the feasibility of entering into a contract for a payment for an ecosystem service project, establishing a payment for an ecosystem service project with an ecosystem service marketplace, and marketing and selling credits on an established ecosystem service marketplace.

(8) The department must provide a report to the board upon execution of a contract for a payment for an ecosystem service project that includes the term of the contract and projected revenues.

(9) (a) Before entering into the sale of ecosystem service credits under this section, the board must find that the conditions of this section are satisfied and approve contract terms and a minimum payment for ecosystem services that is valid for a period of 180 days, or a longer period as may be established by resolution.

(b) Where the board has set a minimum payment for ecosystem service credits, the department may set the final payment for ecosystem service credits, which must be based on current market prices. The board may reestablish the minimum payment at any time.

**NEW SECTION. Sec. 3.** (1) Except as otherwise provided in this section, the department is authorized to enter into contracts for payment for ecosystem service projects on no more than 10,000 operable acres of state lands or state forestlands, inclusive of any credits required for buffer pools or other contingencies. Projects under this section are not limited to the project types identified in section 2(1)(a) of this act; however, these projects, as a condition of contract, must have a determinate harvest schedule if projects are on forested state lands or state forestlands. The authority provided in this section is conditional on the department replacing any timber volume and timber value on lands subject to the underlying ecosystem service project, during the term of the project, that may be constrained by the terms of the project.

(2) (a) To replace foregone timber volume and value under this section, the department must, prior to the finalization of a contract under this section:

(i) Create a full inventory of the land included in the project and any standing timber on the proposed underlying land;

(ii) Complete an estimation of timber volume that is eligible for harvest under the existing management plan for the underlying land;

(iii) Complete a valuation of any timber resources on the underlying land that would be available for harvest in absence of any ecosystem services contracts, including a timeline for an anticipated harvest schedule;

(iv) Prepare a plan for the replacement of any timber volume and timber value on lands subject to the underlying ecosystem service project and have the plan approved by the board. The plan must include a timeline that includes benchmarks for volume and value replacement that is aligned with how the land would be managed in absence of the ecosystem service project.

(b) (i) If the department fails to meet any replacement timeline benchmarks established in the plan, it must report this failure to the board, the office of financial management, and the legislature. The report of failure must be accompanied with a new timeline to correct the failure prior to the next timeline benchmark in the underlying plan.

(ii) If the department fails to remedy the failure by the next timeline benchmark, then the department will be provided adequate funding to the natural resources real property replacement account created in RCW 79.17.210, from the natural climate solutions account created in RCW 70A.65.270, to replace the foregone volume and value for the affected lands, as established in (a) of this subsection.

(3) Any replacement trust lands purchased under this section must be placed back into the same trust status classification as the lands included in the ecosystem service projects authorized under this section.

(4) If purchasing lands under this section, the department must prioritize the purchase of lands at risk of conversion to another use with the intent of managing those lands for productivity in terms of volume and value.

(5) The authority granted in this section expires on December 31, 2033; however, contracts entered into under this section may have an execution date that extends past the expiration date for the underlying authority.

(6) (a) Within five years of the initiation of a contract under this section, the department must report to the legislature, consistent with RCW 43.01.036, the outcomes of any ecosystem service projects entered into under this section. This includes, but is not limited to:

(i) Impacts to direct, indirect, and induced jobs, impacts to local economies, impacts to log supply, and any impacts to local tax revenue;

(ii) Impacts to revenues to beneficiaries;

(iii) Barriers to market participation;

(iv) Assessment of carbon sequestration on the lands enrolled in the ecosystem service project, including foregone

opportunities for new forest rotations and storage in forest products.

(b) The department must issue reports under this subsection every five years through the life of the underlying ecosystem service project.

**NEW SECTION. Sec. 4.** (1) By December 1, 2024, the department must submit a report to the office of financial management and the legislature, consistent with RCW 43.01.036, that includes information on payment for ecosystem service projects entered into or committed to by the department, including type of projects, number of acres involved, and projected revenues. The report must also include any challenges or barriers encountered by the department in the process of attempting to implement carbon offset or payment for ecosystem service projects and recommendations to address those challenges and barriers, including the operability of the carbon offset rules adopted under RCW 70A.65.170.

(2) This section expires June 30, 2025.

(1) Any moneys derived from the lease of state forestlands or from the sale of valuable materials, oils, gases, coal,

Payments made under this subsection are to be paid, distributed, and prorated, except as otherwise provided in this section, to the various funds in the same manner as general taxes are paid and distributed during the year of payment. However, in order to test county flexibility in distributing state forestland revenue, a county may in its discretion pay, distribute, and prorate payments made under this subsection of moneys derived from state forestlands acquired by exchange between July 28, 2019, and June 30, 2020, for lands acquired through RCW 79.22.040, within the same county, in the same manner as general taxes are paid and distributed during the year of payment for the former state forestlands that were subject to the exchange.

(iii) Any balance remaining, paid to a county with a population of less than ~~((sixteen thousand))~~ 16,000, must first be applied to the reduction of any indebtedness existing in the current expense fund of the county during the year of payment.

(iv) With regard to moneys remaining under this subsection (1)(a), within seven working days of receipt of these moneys, the department shall certify to the state treasurer the amounts to be distributed to the counties. (i) Fifty percent shall be placed in the forest development account.

(ii) Fifty percent shall be prorated and distributed to the state general fund, to be dedicated for the benefit of the public schools, to the county in which the land is located or, for counties participating in a land pool created under RCW 79.22.140, to

The portion to be distributed to the state general fund shall be based on the regular school levy rate under RCW 84.52.065 (1) and (2) and the levy rate for any school district enrichment levies. With regard to the portion to be distributed to the counties, the department shall certify to the state treasurer the amounts to be distributed within seven working days of receipt of the money. The state treasurer shall distribute funds to the counties four times per month, with no more than ~~((ten))~~ 10 days between each payment date. (1) Except as provided in RCW 79.22.060, all land, acquired or designated by the department as state forestland, shall be forever reserved from sale, but the valuable materials thereon may be sold or the land may be leased in the same manner and for the same purposes as is authorized for state lands if the department finds such sale or lease to be in the best interests of the state and approves the terms and conditions thereof.

(2) Ecosystem services may be sold only if consistent with the conditions in chapter 79.--- RCW (the new chapter created in section 11 of this act) and may not be sold if chapter 79.--- RCW (the new chapter created in section 11 of this act) does not appear in codified statute.

(3) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

**Sec. 8.** RCW 79.105.150 and 2022 c 157 s 19 are each amended to read as follows:

(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands ~~((and))~~ from the sale of valuable material from state-owned aquatic lands, and from the sale of ecosystem services under chapter 79.--- RCW (the new chapter created in section 11 of this act), shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public

The aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, hatcheries, the Puget Sound toxic sampling program and steelhead mortality research at the department of fish and wildlife, the knotweed program at the department of agriculture, actions at the University of Washington for reducing ocean acidification, which may include the creation of a center on ocean acidification, the Puget SoundCorps program, and support of the marine resource advisory council and the Washington coastal marine advisory council. During the 2017-2019 and 2019-2021 fiscal biennia, the legislature may transfer from the aquatic lands enhancement account to the geoduck aquaculture research account for research related to shellfish aquaculture. During the 2015-2017 fiscal biennium, the legislature may transfer moneys from the aquatic lands enhancement account to the marine resources stewardship trust account.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of urban forestry management plans and ordinances under RCW 76.15.090, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community designation program created in RCW 76.15.090 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) Any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

**Sec. 9.** RCW 79.15.010 and 2003 c 334 s 331 are each amended to read as follows:

(1) Valuable materials situated upon state lands and state forestlands may be sold separate from the land, when in the judgment of the department, it is for the

best interest of the state so to sell the same. The sale of any ecosystem services is limited to consistency with the conditions in chapter 79.--- RCW (the new chapter created in section 11 of this act) and may not be sold if chapter 79.--- RCW (the new chapter created in section 11 of this act) does not appear in codified statute.

(2) Sales of valuable materials from any university lands require:

(a) The consent of the board of regents of the University of Washington; or

(b) Legislative directive.

(3) When application is made for the purchase of any valuable materials, the department shall appraise the value of the valuable materials if the department determines it is in the best interest of the state to sell. No valuable materials shall be sold for less than the appraised value thereof.

**Sec. 10.** RCW 70A.65.270 and 2021 c 316 s 30 are each amended to read as follows:

(1) The natural climate solutions account is created in the state treasury. All moneys directed to the account from the climate investment account created in RCW 70A.65.250 must be deposited in the account. Moneys in the account may be spent only after appropriation. Moneys in the account are intended to increase the resilience of the state's waters, forests, and other vital ecosystems to the impacts of climate change, conserve working forestlands at risk of conversion, and increase their carbon pollution reduction capacity through sequestration, storage, and overall system integrity. Moneys in the account must be spent in a manner that is consistent with existing and future assessments of climate risks and resilience from the scientific community and expressed concerns of and impacts to overburdened communities.

(2) Moneys in the account may be allocated for the following purposes:

(a) Clean water investments that improve resilience from climate impacts. Funding under this subsection (2)(a) must be used to:

(i) Restore and protect estuaries, fisheries, and marine shoreline habitats and prepare for sea level rise including, but not limited to, making fish passage correction investments such as those identified in the cost-share barrier removal program for small forestland owners created in RCW 76.13.150 and those that are considered by the fish passage barrier removal board created in RCW 77.95.160;

(ii) Increase carbon storage in the ocean or aquatic and coastal ecosystems;

(iii) Increase the ability to remediate and adapt to the impacts of ocean acidification;

(iv) Reduce flood risk and restore natural floodplain ecological function;

(v) Increase the sustainable supply of water and improve aquatic habitat, including groundwater mapping and modeling;

(vi) Improve infrastructure treating stormwater from previously developed areas within an urban growth boundary designated under chapter 36.70A RCW, with a preference

given to projects that use green stormwater infrastructure;

(vii) Either preserve or increase, or both, carbon sequestration and storage benefits in forests, forested wetlands, agricultural soils, tidally influenced agricultural or grazing lands, or freshwater, saltwater, or brackish aquatic lands; or

(viii) Either preserve or establish, or both, carbon sequestration by protecting or planting trees in marine shorelines and freshwater riparian areas sufficient to promote climate resilience, protect cold water fisheries, and achieve water quality standards;

(b) Healthy forest investments to improve resilience from climate impacts. Funding under this subsection (2)(b) must be used for projects and activities that will:

(i) Increase forest and community resilience to wildfire in the face of increased seasonal temperatures and drought;

(ii) Improve forest health and reduce vulnerability to changes in hydrology, insect infestation, and other impacts of climate change; or

(iii) Prevent emissions by preserving natural and working lands from the threat of conversion to development or loss of critical habitat, through actions that include, but are not limited to, the creation of new conservation lands, community forests, or increased support to small forestland owners through assistance programs including, but not limited to, the forest riparian easement program and the family forest fish passage program. It is the intent of the legislature that not less than \$10,000,000 be expended each biennium for the forestry riparian easement program created in chapter 76.13 RCW or for riparian easement projects funded under the agricultural conservation easements program established under RCW 89.08.530, or similar riparian enhancement programs;

(c) Legislative transfers, if necessary, to the natural resources real property replacement account created in RCW 79.17.210 for reimbursement to state land trust beneficiaries for foregone timber volume and value under section 3 of this act.

(3) Moneys in the account may not be used for projects that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from this account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 9.41.090 and 2019 c 3 s 3 are each amended to read as follows:

(1) In addition to the other requirements of this chapter, no dealer may deliver a ((pistol))firearm to the purchaser thereof until:

(a) The purchaser ((produces a valid concealed pistol license and the dealer has recorded the purchaser's name, license number, and issuing agency, such record to be made in triplicate and processed as provided in subsection (6) of this section. For purposes of this subsection (1)(a), a "valid concealed pistol license" does not include a temporary emergency license, and

~~does not include any license issued before July 1, 1996, unless the issuing agency conducted a records search for disqualifying crimes under RCW 9.41.070 at the time of issuance))~~provides proof of completion of a recognized firearm safety training program within the last five years that complies with the requirements in section 2 of this act, or proof that the purchaser is exempt from the training requirement;

(b) The dealer is notified ((in writing by (i) the chief of police or the sheriff of the jurisdiction in which the purchaser resides that the purchaser is eligible to possess a pistol under RCW 9.41.040 and that the application to purchase is approved by the chief of police or sheriff; or (ii) the state))by the Washington state patrol firearms background check program that the purchaser is eligible to possess a firearm under ((RCW 9.41.040, as provided in subsection (3)(b) of this section; or)) state and federal law; and

(c) The requirements ((or))and time periods in RCW 9.41.092 have been satisfied.

(2) ((In addition to the other requirements of this chapter, no dealer may deliver a semiautomatic assault rifle to the purchaser thereof until:

(a) The purchaser provides proof that he or she has completed a recognized firearm safety training program within the last five years that, at a minimum, includes instruction on:

- (i) Basic firearms safety rules;
- (ii) Firearms and children, including secure gun storage and talking to children about gun safety;
- (iii) Firearms and suicide prevention;
- (iv) Secure gun storage to prevent unauthorized access and use;
- (v) Safe handling of firearms; and
- (vi) State and federal firearms laws, including prohibited firearms transfers.

The training must be sponsored by a federal, state, county, or municipal law enforcement agency, a college or university, a nationally recognized organization that customarily offers firearms training, or a firearms training school with instructors certified by a nationally recognized organization that customarily offers firearms training. The proof of training shall be in the form of a certification that states under the penalty of perjury the training included the minimum requirements; and

(b) The dealer is notified in writing by (i) the chief of police or the sheriff of the jurisdiction in which the purchaser resides that the purchaser is eligible to possess a firearm under RCW 9.41.040 and that the application to purchase is approved by the chief of police or sheriff; or (ii) the state that the purchaser is eligible to possess a firearm under RCW 9.41.040, as provided in subsection (3)(b) of this section; or

(c) The requirements or time periods in RCW 9.41.092 have been satisfied.

(3)(a) Except as provided in (b) of this subsection, in)In determining whether the purchaser ((meets the requirements of RCW 9.41.040))is eligible to possess a firearm, the ((chief of police or sheriff, or the designee of either,))Washington state patrol

~~firearms background check program shall check with the ((national crime information center, including the)) national instant criminal background check system, provided for by the Brady handgun violence prevention act (18 U.S.C. Sec. 921 et seq.), the Washington state patrol electronic database, the health care authority electronic database, the administrative office of the courts, LInX-NW, and with other agencies or resources as appropriate, to determine whether the applicant is ineligible under RCW 9.41.040 to possess a firearm.~~

~~((b) The state, through the legislature or initiative process, may enact a statewide firearms background check system equivalent to, or more comprehensive than, the check required by (a) of this subsection to determine that a purchaser is eligible to possess a firearm under RCW 9.41.040. Once a state system is established, a dealer shall use the state system and national instant criminal background check system, provided for by the Brady handgun violence prevention act (18 U.S.C. Sec. 921 et seq.), to make criminal background checks of applicants to purchase firearms.~~

~~(4) In any case under this section where the applicant has an outstanding warrant for his or her arrest from any court of competent jurisdiction for a felony or misdemeanor, the dealer shall hold the delivery of the pistol or semiautomatic assault rifle until the warrant for arrest is served and satisfied by appropriate court appearance. The local jurisdiction for purposes of the sale, or the state pursuant to subsection (3)(b) of this section, shall confirm the existence of outstanding warrants within seventy-two hours after notification of the application to purchase a pistol or semiautomatic assault rifle is received. The local jurisdiction shall also immediately confirm the satisfaction of the warrant on request of the dealer so that the hold may be released if the warrant was for an offense other than an offense making a person ineligible under RCW 9.41.040 to possess a firearm.~~

~~(5) In any case where the chief or sheriff of the local jurisdiction, or the state pursuant to subsection (3)(b) of this section, has reasonable grounds based on the following circumstances: (a) Open criminal charges, (b) pending criminal proceedings, (c) pending commitment proceedings, (d) an outstanding warrant for an offense making a person ineligible under RCW 9.41.040 to possess a firearm, or (e) an arrest for an offense making a person ineligible under RCW 9.41.040 to possess a firearm, if the records of disposition have not yet been reported or entered sufficiently to determine eligibility to purchase a firearm, the local jurisdiction or the state may hold the sale and delivery of the pistol or semiautomatic assault rifle up to thirty days in order to confirm existing records in this state or elsewhere. After thirty days, the hold will be lifted unless an extension of the thirty days is approved by a local district court, superior court, or municipal court for good cause shown. A dealer shall be notified of each hold placed on the sale by local law enforcement or the state and of any application to the court for additional~~

~~hold period to confirm records or confirm the identity of the applicant.~~

~~(6)) (3)(a) At the time of applying for the purchase of a ((pistol or semiautomatic assault rifle)) firearm, the purchaser shall sign ((in triplicate)) and deliver to the dealer an application containing:~~

~~(i) His or her full name, residential address, date and place of birth, race, and gender;~~

~~(ii) The date and hour of the application;~~

~~(iii) The applicant's driver's license number or state identification card number;~~

~~(iv) A description of the ((pistol or semiautomatic assault rifle)) firearm including the make, model, caliber and manufacturer's number if available at the time of applying for the purchase of ((a pistol or semiautomatic assault rifle)) the firearm. If the manufacturer's number is not available at the time of applying for the purchase of a ((pistol or semiautomatic assault rifle)) firearm, the application may be processed, but delivery of the ((pistol or semiautomatic assault rifle)) firearm to the purchaser may not occur unless the manufacturer's number is recorded on the application by the dealer and transmitted to the ((chief of police of the municipality or the sheriff of the county in which the purchaser resides, or the state pursuant to subsection (3)(b) of this section)) Washington state patrol firearms background check program; and~~

~~(v) A statement that the purchaser is eligible to purchase and possess a firearm under state and federal law((? and~~

~~(vi) If purchasing a semiautomatic assault rifle, a statement by the applicant under penalty of perjury that the applicant has completed a recognized firearm safety training program within the last five years, as required by subsection (2) of this section)).~~

~~(b) The ((application)) dealer shall ((contain)) provide the applicant with information that contains two warnings substantially stated as follows:~~

~~(i) CAUTION: Although state and local laws do not differ, federal law and state law on the possession of firearms differ. If you are prohibited by federal law from possessing a firearm, you may be prosecuted in federal court. State permission to purchase a firearm is not a defense to a federal prosecution; and~~

~~(ii) CAUTION: The presence of a firearm in the home has been associated with an increased risk of death to self and others, including an increased risk of suicide, death during domestic violence incidents, and unintentional deaths to children and others.~~

~~The purchaser shall be given a copy of the department of fish and wildlife pamphlet on the legal limits of the use of firearms and firearms safety.~~

~~(c) The dealer shall, by the end of the business day, ((sign and attach his or her address and deliver a copy of the application and such other documentation as required under subsections (1) and (2) of this section to the chief of police of the~~

~~municipality or the sheriff of the county of which the purchaser is a resident, or the state pursuant to subsection (3)(b) of this section)) transmit the information from the application through secure automated firearms e-check (SAFE) to the Washington state patrol firearms background check program. The ((triplicate)) original application shall be retained by the dealer for six years.~~

~~(d) The dealer shall deliver the ((pistol or semiautomatic assault rifle)) firearm to the purchaser ((following)) once the requirements and period of time specified in this chapter ((unless the dealer is notified of an investigative hold under subsection (5) of this section in writing by the chief of police of the municipality, the sheriff of the county, or the state, whichever is applicable, or of the denial of the purchaser's application to purchase and the grounds thereof)) are satisfied. The application shall not be denied unless the purchaser is not eligible to purchase or possess the firearm under state or federal law or has not complied with the requirements of this section.~~

~~((d)) (e) The ((chief of police of the municipality or the sheriff of the county, or the state pursuant to subsection (3)(b) of this section,)) Washington state patrol firearms background check program shall retain or destroy applications to purchase a ((pistol or semiautomatic assault rifle)) firearm in accordance with the requirements of 18 U.S.C. Sec. 922.~~

~~((7) (a) To help offset the administrative costs of implementing this section as it relates to new requirements for semiautomatic assault rifles, the department of licensing may require the dealer to charge each semiautomatic assault rifle purchaser or transferee a fee not to exceed twenty-five dollars, except that the fee may be adjusted at the beginning of each biennium to levels not to exceed the percentage increase in the consumer price index for all urban consumers, CPI-W, or a successor index, for the previous biennium as calculated by the United States department of labor.~~

~~(b) The fee under (a) of this subsection shall be no more than is necessary to fund the following:~~

~~(i) The state for the cost of meeting its obligations under this section;~~

~~(ii) The health care authority, mental health institutions, and other health care facilities for state-mandated costs resulting from the reporting requirements imposed by RCW 9.41.097(1); and~~

~~(iii) Local law enforcement agencies for state-mandated local costs resulting from the requirements set forth under RCW 9.41.090 and this section.~~

~~((8)) (4) A person who knowingly makes a false statement regarding identity or eligibility requirements on the application to purchase a firearm is guilty of false swearing under RCW 9A.72.040.~~

~~((9)) (5) This section does not apply to sales to licensed dealers for resale or to the sale of antique firearms.~~

Sec. 3. RCW 9.41.047 and 2020 c 302 s 60 are each amended to read as follows:

(1)(a) At the time a person is convicted or found not guilty by reason of insanity of an offense making the person ineligible to possess a firearm, or at the time a person is committed by court order under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, or chapter 10.77 RCW for mental health treatment, or at the time that charges are dismissed based on incompetency to stand trial under RCW 10.77.088 and the court makes a finding that the person has a history of one or more violent acts, the convicting or committing court, or court that dismisses charges, shall notify the person, orally and in writing, that the person must immediately surrender any concealed pistol license and that the person may not possess a firearm unless his or her right to do so is restored by a court of record. For purposes of this section a convicting court includes a court in which a person has been found not guilty by reason of insanity.

(b) The court shall forward within three judicial days after conviction, entry of the commitment order, or dismissal of charges, a copy of the person's driver's license or identicard, or comparable information such as their name, address, and date of birth, along with the date of conviction or commitment, or date charges are dismissed, to the department of licensing and to the Washington state patrol firearms background check program. When a person is committed by court order under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, or chapter 10.77 RCW, for mental health treatment, or when a person's charges are dismissed based on incompetency to stand trial under RCW 10.77.088 and the court makes a finding that the person has a history of one or more violent acts, the court also shall forward, within three judicial days after entry of the commitment order, or dismissal of charges, a copy of the person's driver's license, or comparable information, along with the date of commitment or date charges are dismissed, to the national instant criminal background check system index, denied persons file, created by the federal Brady handgun violence prevention act (P.L. 103-159). The petitioning party shall provide the court with the information required. If more than one commitment order is entered under one cause number, only one notification to the department of licensing, the Washington state patrol firearms background check program, and the national instant criminal background check system is required.

(2) Upon receipt of the information provided for by subsection (1) of this section, the department of licensing shall determine if the convicted or committed person, or the person whose charges are dismissed based on incompetency to stand trial, has a concealed pistol license. If the person does have a concealed pistol license, the department of licensing shall immediately notify the license-issuing authority which, upon receipt of such notification, shall immediately revoke the license.

(3)(a) A person who is prohibited from possessing a firearm, by reason of having been involuntarily committed for mental

health treatment under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, chapter 10.77 RCW, or equivalent statutes of another jurisdiction, or by reason of having been detained under RCW 71.05.150 or 71.05.153, or because the person's charges were dismissed based on incompetency to stand trial under RCW 10.77.088 and the court made a finding that the person has a history of one or more violent acts, may, upon discharge, petition the superior court to have his or her right to possess a firearm restored.

(b) The petition must be brought in the superior court that ordered the involuntary commitment or dismissed the charges based on incompetency to stand trial or the superior court of the county in which the petitioner resides.

(c) Except as provided in (d) and (e) of this subsection, the court shall restore the petitioner's right to possess a firearm if the petitioner proves by a preponderance of the evidence that:

(i) The petitioner is no longer required to participate in court-ordered inpatient or outpatient treatment;

(ii) The petitioner has successfully managed the condition related to the commitment or detention or incompetency;

(iii) The petitioner no longer presents a substantial danger to himself or herself, or the public; and

(iv) The symptoms related to the commitment or detention or incompetency are not reasonably likely to recur.

(d) If a preponderance of the evidence in the record supports a finding that the person petitioning the court has engaged in violence and that it is more likely than not that the person will engage in violence after his or her right to possess a firearm is restored, the person shall bear the burden of proving by clear, cogent, and convincing evidence that he or she does not present a substantial danger to the safety of others.

(e) If the petitioner seeks restoration after having been detained under RCW 71.05.150 or 71.05.153, the state shall bear the burden of proof to show, by a preponderance of the evidence, that the petitioner does not meet the restoration criteria in (c) of this subsection.

(f) When a person's right to possess a firearm has been restored under this subsection, the court shall forward, within three judicial days after entry of the restoration order, notification that the person's right to possess a firearm has been restored to the department of licensing and the Washington state patrol criminal records division, with a copy of the person's driver's license or identicard, or comparable identification such as their name, address, and date of birth, and to the health care authority, and the national instant criminal background check system index, denied persons file. In the case of a person whose right to possess a firearm has been suspended for six months as provided in RCW 71.05.182, the department of licensing shall forward notification of the restoration order to the licensing authority, which, upon receipt of such notification, shall immediately lift the

suspension, restoring the person's concealed pistol license.

(4) No person who has been found not guilty by reason of insanity may petition a court for restoration of the right to possess a firearm unless the person meets the requirements for the restoration of the right to possess a firearm under RCW 9.41.040(4).

**Sec. 4.** RCW 9.41.092 and 2019 c 3 s 4 are each amended to read as follows:

The dealer shall retain the transfer record for six years and shall, within seven days, send a copy of the transfer record to the department of licensing.

~~((b) One copy shall within six hours be sent by certified mail to the chief of police of the municipality or the sheriff of the county of which the purchaser is a resident, or the state pursuant to RCW 9.41.090; the duplicate the dealer shall within seven days send to the director of licensing; the triplicate the dealer shall retain for six years.))~~

A dealer may not sell or transfer a firearm to an individual unless the dealer first contacts the Washington state patrol firearms background check program for a background check to determine the eligibility of the purchaser or transferee to possess a firearm under state and federal law and the requirements and time periods

established in RCW 9.41.090 and 9.41.092 have been satisfied. ~~((When an applicant applies for the purchase or transfer of a pistol or semiautomatic assault rifle, a dealer shall comply with all requirements of this chapter that apply to the sale or transfer of a pistol or semiautomatic rifle. The purchase or transfer of a firearm that is not a pistol or semiautomatic assault rifle must be processed in the same manner and under the same requirements of this chapter that apply to the sale or transfer of a pistol, except that the provisions of RCW 9.41.129, and the requirement in RCW 9.41.110(9)(b) concerning transmitting application records to the director of licensing, shall not apply to these transactions.))~~

(2) A dealer shall charge a purchaser or transferee a background check fee in an amount determined by the Washington state patrol and remit the proceeds from the fee to the Washington state patrol on a monthly basis. **Concerning foreclosure protections for homeowners in common interest communities.**

The bill was read the second time.

Strike everything after the enacting clause and insert the following:

**"Sec. 1.** RCW 64.32.200 and 2021 c 222 s 3 are each amended to read as follows:

(1) The declaration may provide for the collection of all sums assessed by the association of apartment owners for the share of the common expenses chargeable to any apartment and the collection may be enforced in any manner provided in the declaration including, but not limited to, (a) ~~((ten))~~ 10 days notice shall be given the delinquent apartment owner to the effect that unless such assessment is paid within ~~((ten))~~ 10 days any or all utility services will be forthwith severed and shall remain severed until such assessment is paid, or (b) collection of such assessment may be made by such lawful method of enforcement, judicial or extra-judicial, as may be provided in the declaration and/or bylaws.

(2) All sums assessed by the association of apartment owners but unpaid for the share of the common expenses chargeable to any apartment shall constitute a lien on such apartment prior to all other liens except only (a) tax liens on the apartment in favor of any assessing unit and/or special district, and (b) all sums unpaid on all mortgages of record. Such lien is not subject to the ban against execution or forced sales of homesteads under RCW 6.13.080 and, subject to the provisions in subsection ~~((+4))~~ (5) of this section, may be foreclosed by suit by the manager or board of directors, acting on behalf of the apartment owners, in like manner as a mortgage of real property. In any such foreclosure the apartment owner shall be required to pay a reasonable rental for the

apartment, if so provided in the bylaws, and the plaintiff in such foreclosures shall be entitled to the appointment of a receiver to collect the same. The manager or board of directors, acting on behalf of the apartment owners, shall have power, unless prohibited by the declaration, to bid on the apartment at foreclosure sale, and to acquire and hold, lease, mortgage, and convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment, the period of redemption shall be eight months after the sale. Suit to recover any judgment for any unpaid common expenses shall be maintainable without foreclosing or waiving the liens securing the same.

(3) Where the mortgagee of a mortgage of record or other purchaser of an apartment obtains possession of the apartment as a result of foreclosure of the mortgage, such possessor, his or her successors and assigns shall not be liable for the share of the common expenses or assessments by the association of apartment owners chargeable to such apartment which became due prior to such possession. Such unpaid share of common expenses of assessments shall be deemed to be common expenses collectible from all of the apartment owners including such possessor, his or her successors and assigns.

(4)(a) When the association, or the manager or board of directors on its behalf, mails to the apartment owner by first-class mail the first notice of delinquency for past due assessments to the apartment address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

~~**Sec. 3.** RCW 64.34.364 and 2021 c 222 s 5 are each amended to read as follows:~~

~~(1) The association has a lien on a unit for any unpaid assessments levied against a unit from the time the assessment is due.~~

~~(2) A lien under this section shall be prior to all other liens and encumbrances on a unit except: (a) Liens and encumbrances recorded before the recording of the declaration; (b) a mortgage on the unit recorded before the date on which the assessment sought to be enforced became delinquent; and (c) liens for real property taxes and other governmental assessments or charges against the unit. A lien under this section is not subject to the provisions of chapter 6.13 RCW.~~

~~(3) Except as provided in subsections (4) and (5) of this section, the lien shall also be prior to the mortgages described in subsection (2)(b) of this section to the extent of assessments for common expenses,~~

excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.34.360(1) which would have become due during the six months immediately preceding the date of a sheriff's sale in an action for judicial foreclosure by either the association or a mortgagee, the date of a trustee's sale in a nonjudicial foreclosure by a mortgagee, or the date of recording of the declaration of forfeiture in a proceeding by the vendor under a real estate contract.

(4) The priority of the association's lien against units encumbered by a mortgage held by an eligible mortgagee or by a mortgagee which has given the association a written request for a notice of delinquent assessments shall be reduced by up to three months if and to the extent that the lien priority under subsection (3) of this section includes delinquencies which relate to a period after such holder becomes an eligible mortgagee or has given such notice and before the association gives the holder a written notice of the delinquency. This subsection does not affect the priority of mechanics' or material suppliers' liens, or the priority of liens for other assessments made by the association.

(5) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided by subsection (9) of this section, the association shall not be entitled to the lien priority provided for under subsection (3) of this section.

(6) Unless the declaration otherwise provides, if two or more associations have liens for assessments created at any time on the same real estate, those liens have equal priority.

(7) Recording of the declaration constitutes record notice and perfection of the lien for assessments. While no further recording of any claim of lien for assessment under this section shall be required to perfect the association's lien, the association may record a notice of claim of lien for assessments under this section in the real property records of any county in which the condominium is located. Such recording shall not constitute the written notice of delinquency to a mortgagee referred to in subsection (2) of this section.

(8) A lien for unpaid assessments and the personal liability for payment of assessments is extinguished unless proceedings to enforce the lien or collect the debt are instituted within three years after the amount of the assessments sought to be recovered becomes due.

(9) The lien arising under this section may be enforced judicially by the association or its authorized representative in the manner set forth in chapter 61.12 RCW. The lien arising under this section may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration (a) contains a grant of the condominium in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments,

(b) contains a power of sale, (c) provides in its terms that the units are not used principally for agricultural or farming purposes, and (d) provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative shall have the power, unless prohibited by the declaration, to purchase the unit at the foreclosure sale and to acquire, hold, lease, mortgage, or convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption shall be eight months. Nothing in this section shall prohibit an association from taking a deed in lieu of foreclosure.

(10) From the time of commencement of an action by the association to foreclose a lien for nonpayment of delinquent assessments against a unit that is not occupied by the owner thereof, the association shall be entitled to the appointment of a receiver to collect from the lessee thereof the rent for the unit as and when due. If the rental is not paid, the receiver may obtain possession of the unit, refurbish it for rental up to a reasonable standard for rental units in this type of condominium, rent the unit or permit its rental to others, and apply the rents first to the cost of the receivership and attorneys' fees thereof, then to the cost of refurbishing the unit, then to applicable charges, then to costs, fees, and charges of the foreclosure action, and then to the payment of the delinquent assessments. Only a receiver may take possession and collect rents under this subsection, and a receiver shall not be appointed less than ~~((ninety))~~ 90 days after the delinquency. The exercise by the association of the foregoing rights shall not affect the priority of preexisting liens on the unit.

(11) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure shall not be liable for assessments or installments thereof that became due prior to such right of possession. Such unpaid assessments shall be deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(12) In addition to constituting a lien on the unit, each assessment shall be the joint and several obligation of the owner or owners of the unit to which the same are assessed as of the time the assessment is due. In a voluntary conveyance, the grantee of a unit shall be jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee therefor. Suit to recover a personal judgment for any delinquent assessment shall be maintainable in any court of competent

jurisdiction without foreclosing or waiving the lien securing such sums.

(13) The association may from time to time establish reasonable late charges and a rate of interest to be charged on all subsequent delinquent assessments or installments thereof. In the absence of another established nonusurious rate, delinquent assessments shall bear interest from the date of delinquency at the maximum rate permitted under RCW 19.52.020 on the date on which the assessments became delinquent.

(14) The association shall be entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in suit being commenced or prosecuted to judgment. In addition, the association shall be entitled to recover costs and reasonable attorneys' fees if it prevails on appeal and in the enforcement of a judgment.

(15) The association upon written request shall furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments against that unit. The statement shall be furnished within fifteen days after receipt of the request and is binding on the association, the board of directors, and every unit owner, unless and to the extent known by the recipient to be false.

(16) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(17)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS FROM THE UNIT OWNERS' ASSOCIATION TO WHICH YOUR HOME BELONGS. (8) A lien for unpaid assessments and the personal liability for payment of assessments is extinguished unless proceedings to enforce the lien or collect the debt are instituted within three years after the amount of the assessments sought to be recovered becomes due.

(9) The lien arising under this section may be enforced judicially by the association or its authorized representative in the manner set forth in chapter 61.12 RCW. The lien arising under this section may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration (a) contains a grant of the condominium in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, (b) contains a power of sale, (c) provides in its terms that the units are not used principally for agricultural or farming purposes, and (d) provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The

association or its authorized representative shall have the power, unless prohibited by the declaration, to purchase the unit at the foreclosure sale and to acquire, hold, lease, mortgage, or convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption shall be eight months. Nothing in this section shall prohibit an association from taking a deed in lieu of foreclosure.

(10) From the time of commencement of an action by the association to foreclose a lien for nonpayment of delinquent assessments against a unit that is not occupied by the owner thereof, the association shall be entitled to the appointment of a receiver to collect from the lessee thereof the rent for the unit as and when due. If the rental is not paid, the receiver may obtain possession of the unit, refurbish it for rental up to a reasonable standard for rental units in this type of condominium, rent the unit or permit its rental to others, and apply the rents first to the cost of the receivership and attorneys' fees thereof, then to the cost of refurbishing the unit, then to applicable charges, then to costs, fees, and charges of the foreclosure action, and then to the payment of the delinquent assessments. Only a receiver may take possession and collect rents under this subsection, and a receiver shall not be appointed less than ~~((ninety))~~ 90 days after the delinquency. The exercise by the association of the foregoing rights shall not affect the priority of preexisting liens on the unit.

(11) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure shall not be liable for assessments or installments thereof that became due prior to such right of possession. Such unpaid assessments shall be deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(12) In addition to constituting a lien on the unit, each assessment shall be the joint and several obligation of the owner or owners of the unit to which the same are assessed as of the time the assessment is due. In a voluntary conveyance, the grantee of a unit shall be jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee therefor. Suit to recover a personal judgment for any delinquent assessment shall be maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(13) The association may from time to time establish reasonable late charges and a rate of interest to be charged on all subsequent delinquent assessments or installments thereof. In the absence of

another established nonusurious rate, delinquent assessments shall bear interest from the date of delinquency at the maximum rate permitted under RCW 19.52.020 on the date on which the assessments became delinquent.

(14) The association shall be entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in suit being commenced or prosecuted to judgment. In addition, the association shall be entitled to recover costs and reasonable attorneys' fees if it prevails on appeal and in the enforcement of a judgment.

(15) The association upon written request shall furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments against that unit. The statement shall be furnished within fifteen days after receipt of the request and is binding on the association, the board of directors, and every unit owner, unless and to the extent known by the recipient to be false.

(16) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(17)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS**

(i) Three months or more of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account; or

**Sec. 7.** RCW 64.90.485 and 2021 c 222 s 1 are each amended to read as follows:

(1) The association has a statutory lien on each unit for any unpaid assessment against the unit from the time such assessment is due.

(2) A lien under this section has priority over all other liens and encumbrances on a unit except:

(a) Liens and encumbrances recorded before the recordation of the declaration and, in a cooperative, liens and encumbrances that the association creates, assumes, or takes subject to;

(b) Except as otherwise provided in subsection (3) of this section, a security interest on the unit recorded before the date on which the unpaid assessment became due or, in a cooperative, a security interest encumbering only the unit owner's interest and perfected before the date on which the unpaid assessment became due; and

(c) Liens for real estate taxes and other state or local governmental assessments or charges against the unit or cooperative.

(3)(a) A lien under this section also has priority over the security interests described in subsection (2)(b) of this section to the extent of an amount equal to the following:

(i) The common expense assessments, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.90.480(1), along with any specially allocated assessments that are properly assessable against the unit under such periodic budget, which would have become due in the absence of acceleration during the six months immediately preceding the institution of proceedings to foreclose either the association's lien or a security interest described in subsection (2)(b) of this section;

(ii) The association's actual costs and reasonable attorneys' fees incurred in foreclosing its lien but incurred after the giving of the notice described in (a)(iii) of this subsection; provided, however, that the costs and reasonable attorneys' fees that will have priority under this subsection (3)(a)(ii) shall not exceed (~~two thousand dollars~~) \$2,000 or an amount equal to the amounts described in (a)(i) of this subsection, whichever is less;

(iii) The amounts described in (a)(ii) of this subsection shall be prior only to the security interest of the holder of a security interest on the unit recorded before the date on which the unpaid assessment became due and only if the association has given that holder not less than (~~sixty~~) 60 days' prior written notice that the owner of the unit is in default in payment of an assessment. The notice shall contain:

(A) Name of the borrower;

(B) Recording date of the trust deed or mortgage;

(C) Recording information;

(D) Name of condominium, unit owner, and unit designation stated in the declaration or applicable supplemental declaration;

(E) Amount of unpaid assessment; and

(F) A statement that failure to, within (~~sixty~~) 60 days of the written notice,

submit the association payment of six months of assessments as described in (a)(i) of this subsection will result in the priority of the amounts described in (a)(ii) of this subsection; and

(iv) Upon payment of the amounts described in (a)(i) and (ii) of this subsection by the holder of a security interest, the association's lien described in this subsection (3)(a) shall thereafter be fully subordinated to the lien of such holder's security interest on the unit.

(b) For the purposes of this subsection:

(i) "Institution of proceedings" means either:

(A) The date of recording of a notice of trustee's sale by a deed of trust beneficiary;

(B) The date of commencement, pursuant to applicable court rules, of an action for judicial foreclosure either by the association or by the holder of a recorded security interest; or

(C) The date of recording of a notice of intention to forfeit in a real estate contract forfeiture proceeding by the vendor under a real estate contract.

(ii) "Capital improvements" does not include making, in the ordinary course of management, repairs to common elements or replacements of the common elements with substantially similar items, subject to: (A) Availability of materials and products, (B) prevailing law, or (C) sound engineering and construction standards then prevailing.

(c) The adoption of a periodic budget that purports to allocate to a unit any fines, late charges, interest, attorneys' fees and costs incurred for services unrelated to the foreclosure of the association's lien, other collection charges, or specially allocated assessments assessed under RCW 64.90.480 (6) or (7) does not cause any such items to be included in the priority amount affecting such unit.

(4) Subsections (2) and (3) of this section do not affect the priority of mechanics' or material suppliers' liens to the extent that law of this state other than chapter 277, Laws of 2018 gives priority to such liens, or the priority of liens for other assessments made by the association.

(5) A lien under this section is not subject to chapter 6.13 RCW.

(6) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided under subsection (13) of this section, the association is not entitled to the lien priority provided for under subsection (3) of this section, and is subject to the limitations on deficiency judgments as provided in chapter 61.24 RCW.

(7) Unless the declaration provides otherwise, if two or more associations have liens for assessments created at any time on the same property, those liens have equal priority as to each other, and any foreclosure of one such lien shall not affect the lien of the other.

(8) Recording of the declaration constitutes record notice and perfection of the statutory lien created under this section. Further notice or recordation of any claim of lien for assessment under this

section is not required, but is not prohibited.

(9) A lien for unpaid assessments and the personal liability for payment of those assessments are extinguished unless proceedings to enforce the lien or collect the debt are instituted within six years after the full amount of the assessments sought to be recovered becomes due.

(10) This section does not prohibit actions against unit owners to recover sums for which subsection (1) of this section creates a lien or prohibit an association from taking a deed in lieu of foreclosure.

(11) The association upon written request must furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments or the priority amount against that unit, or both. The statement must be furnished within ~~((fifteen))~~ 15 days after receipt of the request and is binding on the association, the board, and every unit owner unless, and to the extent, known by the recipient to be false. The liability of a recipient who reasonably relies upon the statement must not exceed the amount set forth in any statement furnished pursuant to this section or RCW 64.90.640(1)(b).

(12) In a cooperative, upon nonpayment of an assessment on a unit, the unit owner may be evicted in the same manner as provided by law in the case of an unlawful holdover by a commercial tenant, and the lien may be foreclosed as provided under this section.

(13) The association's lien may be foreclosed in accordance with (a) and (b) of this subsection.

(a) In a common interest community other than a cooperative, the association's lien may be foreclosed judicially in accordance with chapter 61.12 RCW, subject to any rights of redemption under chapter 6.23 RCW.

(b) The lien may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration: Contains a grant of the common interest community in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, contains a power of sale, provides in its terms that the units are not used principally for agricultural purposes, and provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative may purchase the unit at the foreclosure sale and acquire, hold, lease, mortgage, or convey the unit. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption is eight months.

(c) In a cooperative in which the unit owners' interests in the units are real estate, the association's lien must be foreclosed in like manner as a mortgage on real estate or by power of sale under (b) of this subsection.

(d) In a cooperative in which the unit owners' interests in the units are personal property, the association's lien must be

foreclosed in like manner as a security interest under chapter 62A.9A RCW.

(14) If the unit owner's interest in a unit in a cooperative is real estate, the following requirements apply:

(a) The association, upon nonpayment of assessments and compliance with this subsection, may sell that unit at a public sale or by private negotiation, and at any time and place. The association must give to the unit owner and any lessee of the unit owner reasonable notice in a record of the time, date, and place of any public sale or, if a private sale is intended, of the intention of entering into a contract to sell and of the time and date after which a private conveyance may be made. Such notice must also be sent to any other person that has a recorded interest in the unit that would be cut off by the sale, but only if the recorded interest was on record seven weeks before the date specified in the notice as the date of any public sale or seven weeks before the date specified in the notice as the date after which a private sale may be made. The notices required under this subsection may be sent to any address reasonable in the circumstances. A sale may not be held until five weeks after the sending of the notice. The association may buy at any public sale and, if the sale is conducted by a fiduciary or other person not related to the association, at a private sale.

(b) Unless otherwise agreed to or as stated in this section, the unit owner is liable for any deficiency in a foreclosure sale.

(c) The proceeds of a foreclosure sale must be applied in the following order:

- (i) The reasonable expenses of sale;
- (ii) The reasonable expenses of securing possession before sale; the reasonable expenses of holding, maintaining, and preparing the unit for sale, including payment of taxes and other governmental charges and premiums on insurance; and, to the extent provided for by agreement between the association and the unit owner, reasonable attorneys' fees, costs, and other legal expenses incurred by the association;
- (iii) Satisfaction of the association's lien;
- (iv) Satisfaction in the order of priority of any subordinate claim of record; and
- (v) Remittance of any excess to the unit owner.

(d) A good-faith purchaser for value acquires the unit free of the association's debt that gave rise to the lien under which the foreclosure sale occurred and any subordinate interest, even though the association or other person conducting the sale failed to comply with this section. The person conducting the sale must execute a conveyance to the purchaser sufficient to convey the unit and stating that it is executed by the person after a foreclosure of the association's lien by power of sale and that the person was empowered to make the sale. Signature and title or authority of the person signing the conveyance as grantor and a recital of the facts of nonpayment of the assessment and of the giving of the notices required under this

subsection are sufficient proof of the facts recited and of the authority to sign. Further proof of authority is not required even though the association is named as grantee in the conveyance.

(e) At any time before the association has conveyed a unit in a cooperative or entered into a contract for its conveyance under the power of sale, the unit owners or the holder of any subordinate security interest may cure the unit owner's default and prevent sale or other conveyance by tendering the performance due under the security agreement, including any amounts due because of exercise of a right to accelerate, plus the reasonable expenses of proceeding to foreclosure incurred to the time of tender, including reasonable attorneys' fees and costs of the creditor.

(15) In an action by an association to collect assessments or to foreclose a lien on a unit under this section, the court may appoint a receiver to collect all sums alleged to be due and owing to a unit owner before commencement or during pendency of the action. The receivership is governed under chapter 7.60 RCW. During pendency of the action, the court may order the receiver to pay sums held by the receiver to the association for any assessments against the unit. The exercise of rights under this subsection by the association does not affect the priority of preexisting liens on the unit.

(16) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure is not liable for assessments or installments of assessments that became due prior to such right of possession. Such unpaid assessments are deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior unit owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(17) In addition to constituting a lien on the unit, each assessment is the joint and several obligation of the unit owner of the unit to which the same are assessed as of the time the assessment is due. A unit owner may not exempt himself or herself from liability for assessments. In a voluntary conveyance other than by foreclosure, the grantee of a unit is jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee. Suit to recover a personal judgment for any delinquent assessment is maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(18) The association may from time to time establish reasonable late charges and a rate of interest to be charged, not to exceed the maximum rate calculated under RCW 19.52.020, on all subsequent delinquent assessments or installments of assessments. If the association does not establish such a rate, delinquent assessments bear interest

from the date of delinquency at the maximum rate calculated under RCW 19.52.020 on the date on which the assessments became delinquent.

(19) The association is entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in a suit being commenced or prosecuted to judgment. The prevailing party is also entitled to recover costs and reasonable attorneys' fees in such suits, including any appeals, if it prevails on appeal and in the enforcement of a judgment.

(20) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(21)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS FROM THE UNIT OWNERS ASSOCIATION TO WHICH YOUR HOME BELONGS.**

~~**Sec. 8.** RCW 64.90.485 and 2021 c 222 s 2 are each amended to read as follows:~~

~~(1) The association has a statutory lien on each unit for any unpaid assessment against the unit from the time such assessment is due.~~

~~(2) A lien under this section has priority over all other liens and encumbrances on a unit except:~~

~~(a) Liens and encumbrances recorded before the recordation of the declaration and, in a cooperative, liens and encumbrances that the association creates, assumes, or takes subject to;~~

~~(b) Except as otherwise provided in subsection (3) of this section, a security interest on the unit recorded before the date on which the unpaid assessment became due or, in a cooperative, a security interest encumbering only the unit owner's interest and perfected before the date on which the unpaid assessment became due; and~~

~~(c) Liens for real estate taxes and other state or local governmental assessments or charges against the unit or cooperative.~~

~~(3)(a) A lien under this section also has priority over the security interests described in subsection (2)(b) of this section to the extent of an amount equal to the following:~~

~~(i) The common expense assessments, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.90.480(1), along with any specially allocated assessments that are properly assessable against the unit under such periodic budget, which would have become due in the absence of acceleration during the six months immediately preceding the institution of proceedings to foreclose either the association's lien or a security interest described in subsection (2)(b) of this section;~~

~~(ii) The association's actual costs and reasonable attorneys' fees incurred in~~

foreclosing its lien but incurred after the giving of the notice described in (a)(iii) of this subsection; provided, however, that the costs and reasonable attorneys' fees that will have priority under this subsection (3)(a)(ii) shall not exceed (~~two thousand dollars~~) \$2,000 or an amount equal to the amounts described in (a)(i) of this subsection, whichever is less;

(iii) The amounts described in (a)(ii) of this subsection shall be prior only to the security interest of the holder of a security interest on the unit recorded before the date on which the unpaid assessment became due and only if the association has given that holder not less than (~~sixty~~) 60 days' prior written notice that the owner of the unit is in default in payment of an assessment. The notice shall contain:

(A) Name of the borrower;

(B) Recording date of the trust deed or mortgage;

(C) Recording information;

(D) Name of condominium, unit owner, and unit designation stated in the declaration or applicable supplemental declaration;

(E) Amount of unpaid assessment; and

(F) A statement that failure to, within (~~sixty~~) 60 days of the written notice, submit the association payment of six months of assessments as described in (a)(i) of this subsection will result in the priority of the amounts described in (a)(ii) of this subsection; and

(iv) Upon payment of the amounts described in (a)(i) and (ii) of this subsection by the holder of a security interest, the association's lien described in this subsection (3)(a) shall thereafter be fully subordinated to the lien of such holder's security interest on the unit.

(b) For the purposes of this subsection:

(i) "Institution of proceedings" means either:

(A) The date of recording of a notice of trustee's sale by a deed of trust beneficiary;

(B) The date of commencement, pursuant to applicable court rules, of an action for judicial foreclosure either by the association or by the holder of a recorded security interest; or

(C) The date of recording of a notice of intention to forfeit in a real estate contract forfeiture proceeding by the vendor under a real estate contract.

(ii) "Capital improvements" does not include making, in the ordinary course of management, repairs to common elements or replacements of the common elements with substantially similar items, subject to: (A) Availability of materials and products, (B) prevailing law, or (C) sound engineering and construction standards then prevailing.

(c) The adoption of a periodic budget that purports to allocate to a unit any fines, late charges, interest, attorneys' fees and costs incurred for services unrelated to the foreclosure of the association's lien, other collection charges, or specially allocated assessments assessed under RCW 64.90.480 (6) or (7) does not cause any such items to be included in the priority amount affecting such unit.

(4) Subsections (2) and (3) of this section do not affect the priority of mechanics' or material suppliers' liens to the extent that law of this state other than chapter 277, Laws of 2018 gives priority to such liens, or the priority of liens for other assessments made by the association.

(5) A lien under this section is not subject to chapter 6.13 RCW.

(6) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided under subsection (13) of this section, the association is not entitled to the lien priority provided for under subsection (3) of this section, and is subject to the limitations on deficiency judgments as provided in chapter 61.24 RCW.

(7) Unless the declaration provides otherwise, if two or more associations have liens for assessments created at any time on the same property, those liens have equal priority as to each other, and any foreclosure of one such lien shall not affect the lien of the other.

(8) Recording of the declaration constitutes record notice and perfection of the statutory lien created under this section. Further notice or recordation of any claim of lien for assessment under this section is not required, but is not prohibited.

(9) A lien for unpaid assessments and the personal liability for payment of those assessments are extinguished unless proceedings to enforce the lien or collect the debt are instituted within six years after the full amount of the assessments sought to be recovered becomes due.

(10) This section does not prohibit actions against unit owners to recover sums for which subsection (1) of this section creates a lien or prohibit an association from taking a deed in lieu of foreclosure.

(11) The association upon written request must furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments or the priority amount against that unit, or both. The statement must be furnished within (~~fifteen~~) 15 days after receipt of the request and is binding on the association, the board, and every unit owner unless, and to the extent, known by the recipient to be false. The liability of a recipient who reasonably relies upon the statement must not exceed the amount set forth in any statement furnished pursuant to this section or RCW 64.90.640(1)(b).

(12) In a cooperative, upon nonpayment of an assessment on a unit, the unit owner may be evicted in the same manner as provided by law in the case of an unlawful holdover by a commercial tenant, and the lien may be foreclosed as provided under this section.

(13) The association's lien may be foreclosed in accordance with (a) and (b) of this subsection.

(a) In a common interest community other than a cooperative, the association's lien may be foreclosed judicially in accordance with chapter 61.12 RCW, subject to any rights of redemption under chapter 6.23 RCW.

(b) The lien may be enforced nonjudicially in the manner set forth in

chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration: Contains a grant of the common interest community in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, contains a power of sale, provides in its terms that the units are not used principally for agricultural purposes, and provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative may purchase the unit at the foreclosure sale and acquire, hold, lease, mortgage, or convey the unit. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption is eight months.

(c) In a cooperative in which the unit owners' interests in the units are real estate, the association's lien must be foreclosed in like manner as a mortgage on real estate or by power of sale under (b) of this subsection.

(d) In a cooperative in which the unit owners' interests in the units are personal property, the association's lien must be foreclosed in like manner as a security interest under chapter 62A.9A RCW.

(14) If the unit owner's interest in a unit in a cooperative is real estate, the following requirements apply:

(a) The association, upon nonpayment of assessments and compliance with this subsection, may sell that unit at a public sale or by private negotiation, and at any time and place. The association must give to the unit owner and any lessee of the unit owner reasonable notice in a record of the time, date, and place of any public sale or, if a private sale is intended, of the intention of entering into a contract to sell and of the time and date after which a private conveyance may be made. Such notice must also be sent to any other person that has a recorded interest in the unit that would be cut off by the sale, but only if the recorded interest was on record seven weeks before the date specified in the notice as the date of any public sale or seven weeks before the date specified in the notice as the date after which a private sale may be made. The notices required under this subsection may be sent to any address reasonable in the circumstances. A sale may not be held until five weeks after the sending of the notice. The association may buy at any public sale and, if the sale is conducted by a fiduciary or other person not related to the association, at a private sale.

(b) Unless otherwise agreed to or as stated in this section, the unit owner is liable for any deficiency in a foreclosure sale.

(c) The proceeds of a foreclosure sale must be applied in the following order:

(i) The reasonable expenses of sale;

(ii) The reasonable expenses of securing possession before sale; the reasonable expenses of holding, maintaining, and preparing the unit for sale, including payment of taxes and other governmental charges and premiums on insurance; and, to

the extent provided for by agreement between the association and the unit owner, reasonable attorneys' fees, costs, and other legal expenses incurred by the association;

(iii) Satisfaction of the association's lien;

(iv) Satisfaction in the order of priority of any subordinate claim of record; and

(v) Remittance of any excess to the unit owner.

(d) A good-faith purchaser for value acquires the unit free of the association's debt that gave rise to the lien under which the foreclosure sale occurred and any subordinate interest, even though the association or other person conducting the sale failed to comply with this section. The person conducting the sale must execute a conveyance to the purchaser sufficient to convey the unit and stating that it is executed by the person after a foreclosure of the association's lien by power of sale and that the person was empowered to make the sale. Signature and title or authority of the person signing the conveyance as grantor and a recital of the facts of nonpayment of the assessment and of the giving of the notices required under this subsection are sufficient proof of the facts recited and of the authority to sign. Further proof of authority is not required even though the association is named as grantee in the conveyance.

(e) At any time before the association has conveyed a unit in a cooperative or entered into a contract for its conveyance under the power of sale, the unit owners or the holder of any subordinate security interest may cure the unit owner's default and prevent sale or other conveyance by tendering the performance due under the security agreement, including any amounts due because of exercise of a right to accelerate, plus the reasonable expenses of proceeding to foreclosure incurred to the time of tender, including reasonable attorneys' fees and costs of the creditor.

(15) In an action by an association to collect assessments or to foreclose a lien on a unit under this section, the court may appoint a receiver to collect all sums alleged to be due and owing to a unit owner before commencement or during pendency of the action. The receivership is governed under chapter 7.60 RCW. During pendency of the action, the court may order the receiver to pay sums held by the receiver to the association for any assessments against the unit. The exercise of rights under this subsection by the association does not affect the priority of preexisting liens on the unit.

(16) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure is not liable for assessments or installments of assessments that became due prior to such right of possession. Such unpaid assessments are deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior unit owner of personal liability for assessments

accruing against the unit prior to the date of such sale as provided in this subsection.

(17) In addition to constituting a lien on the unit, each assessment is the joint and several obligation of the unit owner of the unit to which the same are assessed as of the time the assessment is due. A unit owner may not exempt himself or herself from liability for assessments. In a voluntary conveyance other than by foreclosure, the grantee of a unit is jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee. Suit to recover a personal judgment for any delinquent assessment is maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(18) The association may from time to time establish reasonable late charges and a rate of interest to be charged, not to exceed the maximum rate calculated under RCW 19.52.020, on all subsequent delinquent assessments or installments of assessments. If the association does not establish such a rate, delinquent assessments bear interest from the date of delinquency at the maximum rate calculated under RCW 19.52.020 on the date on which the assessments became delinquent.

(19) The association is entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in a suit being commenced or prosecuted to judgment. The prevailing party is also entitled to recover costs and reasonable attorneys' fees in such suits, including any appeals, if it prevails on appeal and in the enforcement of a judgment.

(20) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(21)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS FROM THE UNIT OWNERS ASSOCIATION TO WHICH YOUR HOME BELONGS. (c) Mailing the first preforeclosure notice pursuant to (a) of this subsection does not satisfy the requirement in subsection (22)(b) of this section to mail a second preforeclosure notice at or after the date that assessments have become past due for at least 90 days. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice is mailed.

(22) An association may not commence an action to foreclose a lien on a unit under this section unless:

(a) The unit owner, at the time the action is commenced, owes at least a sum equal to the greater of:

(i) Three months or more of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account; or

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds and declares that:

(1) Washington state, through its extensive purchasing power, can reduce embodied carbon in the built environment, improve human and environmental health, grow economic competitiveness, and promote high labor standards in manufacturing by incorporating climate and other types of pollution impacts and the quality of working conditions into the procurement process.

(2) Washington state is home to multiple world-class manufacturers that are investing heavily in reducing the carbon intensity of their products and that provide family-wage jobs that are the foundation for a fair and robust economy. Washington's procurement practices should encourage manufacturers and

others to meet high environmental and labor standards and reduce their environmental footprint.

(3) The private sector is increasingly demanding low carbon building materials that support good jobs in manufacturing. This market demand has rapidly accelerated innovation and led to increased production of low carbon building materials. As one of the largest consumers of building materials, Washington state has an opportunity to leverage its purchasing power to do even more to send a clear signal to the market of the growing demand for low carbon building materials.

(4) With its low carbon electric grid and highly skilled workforce, Washington state is well-positioned to capture the growing demand for low carbon building materials and create and sustain a new generation of good, high-wage clean manufacturing jobs.

(5) Washington has demonstrated a deep commitment to ensuring that the transition to a low carbon economy is fair and creates family-wage jobs. Both the clean energy transformation act and the climate commitment act tie public investments in infrastructure to reducing greenhouse gas emissions. Integrating manufacturing working conditions into the procurement process reaffirms and is consistent with the state's commitment to a fair transition.

(6) A robust state and domestic supply of low carbon materials is critical for building a fair economy and meeting the needs of the low carbon transition, including securing the clean energy supply chain.

(7) Environmental product declarations are the best available tool for reporting product-specific environmental impacts using a life-cycle assessment and informing the procurement of low carbon building materials. Environmental product declarations cannot be used to compare products across different product categories or different functional units.

(8) The buy clean and buy fair policies established in this act are critical to reduce embodied carbon in the built environment, a goal identified by the Washington state 2021 energy strategy to meet the state's greenhouse gas emission limits, governor Inslee's Executive Order 20-01 on state efficiency and environmental performance, and the Pacific coast collaborative's pathbreaking low carbon construction task force.

(9) Reducing embodied carbon in the built environment requires a holistic, comprehensive approach that includes designing buildings with a lower-embodied carbon footprint and making lower carbon products. Policies like the buy clean and buy fair policies established in this act are an important tool for increasing the manufacture of lower carbon products.

(10) The 2021-2023 biennium budgets made critical progress on the buy clean and buy fair policies in this act by funding the creation of a publicly accessible database to facilitate reporting and promote transparency on building materials purchased for state-funded infrastructure projects and two large buy clean and buy fair pilot projects. This ongoing work to create a

database to facilitate reporting of environmental impacts and labor conditions from pilot projects has provided a strong foundation to inform future work on buy clean and buy fair policies.

(11) Providing financial assistance to small manufacturers to support the production of environmental product declarations will help small manufacturers offset costs they might incur when pursuing state contracting as a result of the requirements of this act.

NEW SECTION. **Sec. 2.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Actual production facilities" means the final manufacturing facility and the facilities at which production processes occur that contribute to 70 percent or more of the product's cradle-to-gate global warming potential, as reflected in the environmental product declaration.

(16) "Working conditions" means the average number of employees by employment type: Full time, part time, and temporary.

**NEW SECTION. Sec. 3.** (1)(a) Beginning July 1, 2024, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project larger than 100,000 gross square feet submit the following data for each covered product used before substantial completion:

- (i) Product quantity;
- (ii) A current environmental product declaration;
- (iii) Health product declaration, if any, completed for the product;
- (iv) Manufacturer name and location, including state or province and country;
- (v) Supplier code of conduct, if any; and
- (vi) Office of minority and women-owned business enterprises certification, if any.

(b) Beginning July 1, 2026, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project submit the data required by (a) of this subsection for each covered product used before substantial completion.

(c) The selected firm for a contract for a covered project shall provide the data required by this subsection for at least 90 percent of the cost of each of the covered products used in the project.

(2) The selected firm for a contract for a covered project is required to collect and submit from product suppliers the information required in subsection (1)(a) (ii) through (vi) of this section. The selected firm is not required to verify the information received from product suppliers.

(3)(a) Beginning July 1, 2024, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project larger than 100,000 gross square feet to ask their suppliers to report for each covered product used before substantial completion:

(i) Names and locations, including state or province and country, of the actual production facilities; and

(ii) Working conditions at the actual production facilities for all employees, full-time employees, part-time employees, and temporary employees. In cases in which the supplier does not have this information, the selected firm for a contract for a covered project must ask suppliers to provide a report on steps taken to reasonably obtain the data and provide suppliers' self-reports to the awarding authority.

(6) An awarding authority must include the information and reporting requirements in this section in a specification for bids for a covered project.

(7) Subject to funds appropriated for this specific purpose, the department may provide financial assistance to small businesses, as defined in RCW 19.85.020, to help offset the costs to the small business of producing an environmental product declaration required under this section. Such financial assistance supports the production of environmental product declarations and achievement of reductions of embodied carbon in the built environment while ensuring that small manufacturers are not put at a competitive disadvantage in state contracting as a result of the requirements of this chapter.

(8) Compliance with the requirements in this section may not be used as a basis for a waiver from apprenticeship utilization requirements in any other statute, rule, regulation, or law.

**NEW SECTION. Sec. 4.** By July 1, 2024, and to the extent practicable, specifications for a bid or proposal for a project contract by an awarding authority may only include performance-based specifications for concrete used as a structural material. Awarding authorities

may continue to use prescriptive specifications on structural elements to support special designs and emerging technology implementation.

**NEW SECTION. Sec. 5.** (1) The department must continue to develop and maintain the publicly accessible database funded by the 2021-2023 omnibus operating appropriations act and created by the department in conjunction with the University of Washington college of built environments for selected firms for contracts for covered projects to submit the data required in section 3 of this act to the department and to promote transparency.

### POINT OF ORDER

Representative Stonier requested a scope and object ruling on amendment (468) to SUBSTITUTE HOUSE BILL NO. 1240.

### SPEAKER'S RULING

"The title of the bill is an act relating to establishing firearms-related safety measures to increase public safety by prohibiting the manufacture, importation, distribution, selling, and offering for sale of assault weapons, and by providing limited exemptions applicable to armed forces branches and law enforcement agencies and for purposes of sale or transfer outside the state, and to inheritors.

Amendment (468) creates a new exemption to the bill by authorizing the distribution, offer for sale, or sale of an assault weapon, within 90 days of the effective date of this section, by a licensed dealer, for the purpose of liquidating the dealer's existing inventory of assault weapons consisting of either assault weapons in the dealer's possession, custody, or control prior to the effective date, or assault weapons ordered or purchased by the dealer prior to the effective date.

The Speaker therefore finds and rules that the amendment is outside the scope of the bill as defined by its title.

The point of order is well taken."

## RESOLUTION

**HOUSE RESOLUTION NO. 2023-4625**, by Representatives Wilcox and Lekanoff

WHEREAS, Billy Frank Jr. was born March 9, 1931, to Willie Sr. and Angeline Frank. Frank Jr., a member of the Nisqually Tribe, grew up on six acres along the banks of the Nisqually River in Thurston County. Known as Frank's Landing, the property was purchased by Willie Frank after development of the Fort Lewis Army Base in 1917 drove the Nisqually people from their reservation; and

WHEREAS, Frank's formal education ended after he completed the ninth grade in Olympia, after which he worked in construction by day and fishing by night; and

WHEREAS, In 1952, at age 21, Frank fulfilled a dream to join the Marines, proudly serving in the Marine Corps for two years as an expert marksman; and

WHEREAS, Frank's father, Willie, and his predecessors, lived in a time of abundance, with strong salmon runs and plentiful clams, oysters, geoducks, wild berries, and camas roots. Frank was raised in the tradition of his ancestors, with stories of the land, the river, the salmon runs, and the art of preserving fish; and

WHEREAS, Binding promises made by the United States acknowledged, through treaties, the rights of tribes to take fish "at all usual and accustomed stations," and "in common with the citizens of the territory" of Washington; and

WHEREAS, These treaty rights were increasingly eroded during Frank's lifetime through commercial and recreational fishing by nontribal actors, and aggressive and unjust state and local policing of tribal fishing. Combined with expansive growth, construction, property development, and pollution further depleted the plentiful salmon and other natural resources which had traditionally sustained tribal people in Washington; and

WHEREAS, Frank began what became a lifetime of advocacy, leadership, and statesmanship in 1945, when he protested his arrest at age 14 by two game wardens, simply for fishing on the Nisqually River near his family's property. He would spend his lifetime challenging the state and nation to live up to its ideals; and

WHEREAS, By the mid 1960's Frank's Landing was a focal point for the assertion of treaty rights and tribal sovereignty. Over the next decade, Washington State would raid, arrest, and campaign against the fishing rights of Pacific Northwest tribes; and

WHEREAS, Throughout the 1960s and 1970s, Frank led historic "fish-ins," demonstrations, and acts of civil resistance with other tribal and nontribal leaders, insisting on the treaty rights guaranteed more than a century before. In attempting to defend his treaty rights Frank was arrested numerous times; and

WHEREAS, Growing public awareness of the unjust infringement upon tribal treaty fishing rights in Washington ultimately resulted in the historic litigation and decision issued in *United States v. Washington*, in which the Honorable George Boldt recognized tribal treaty fishing rights as the supreme law of the land; and

WHEREAS, Following the Boldt decision, Frank's leadership, humility, and dedication to consensus-building cut through initial, blatant disregard of the decision by state and local authorities and

citizens and the resulting hardship and anger that caused among the tribes; and

WHEREAS, Billy Frank Jr. resisted bitterness and confronted injustice in ways that built strength by bringing diverse groups of people with conflicting interests together; and

WHEREAS, At a time when he possessed the power to impose outcomes favoring one group at the expense of others, he remained steadfast in the fair and impartial defense of the rights of all landowners and natural resources businesses along the Nisqually River, earning the lasting goodwill of landowners in the Nisqually basin; and

WHEREAS, For more than 30 years, Frank served as Chairman of the Northwest Indian Fisheries Commission, created in 1975 to support the natural resource management activities of the 20 treaty Indian tribes in western Washington; and

WHEREAS, In March 2011, in honor of Frank's 80th birthday, the Billy Frank Jr. Salmon Forever Fund was established by Salmon Defense, "to honor and create permanence and action to the vision and work of Billy Frank Jr.;" and

WHEREAS, Over his lifetime Frank was honored with countless additional awards for his decades-long fight for justice and environmental preservation, including: The Common Cause Award for Human Rights Efforts, the Albert Schweitzer Prize for Humanitarianism, the American Indian Distinguished Service Award, the Wallace Stegner Award, the Washington State Environmental Excellence Award, and the 2015 Washington State Medal of Merit. In 2015, President Barack Obama named Frank Jr. posthumously as a recipient of the Presidential Medal of Freedom, the nation's highest official civilian honor; and

WHEREAS, Billy Frank Jr. died May 5, 2014, at the age of 83. Today, Chairman of the Nisqually Tribe Willie Frank III and his wife, Peggen, continue the work of both father and grandfather. A good life growing up at Frank's Landing instilled the dignity and respect that informed the principles and guidelines of their leadership. His family once said, "being with Billy is like floating on a steady, easy river. Billy's life is turbulent, but Billy is not. He's the happiest person I know. He's completely at peace with himself;" and

WHEREAS, In memory of what would have been Frank's 92nd birthday, we honor his vision to "tell your story, tell the truth, and stay the course" in the pursuit of community resilience and environmental stewardship. We reflect on the man known as an architect of consensus solutions. A man who brought previously contentious interest groups together, through genuine respect and endeavoring to heal wounds, and find resolution for the good of all people;

NOW, THEREFORE, BE IT RESOLVED, By the Washington State House of Representatives, That we reflect in gratitude on Billy Frank Jr., the man who taught us that no victory can last until the opposing sides can come together in agreement; and

BE IT FURTHER RESOLVED, That copies of this resolution be forwarded to the family of Billy Frank Jr.

HOUSE RESOLUTION NO. 4625 was adopted.

There being no objection, the House advanced to the third order of business.

**Sec. 4.** RCW 23B.10.020 and 2009 c 189 s 31 are each amended to read as follows:

Separate voting by additional voting groups is required on a plan of share exchange under the circumstances described in RCW 23B.11.035.

(7) Approval by the shareholders of the surviving corporation on a plan of merger is not required if:

(i) The offeror has irrevocably accepted those shares for payment; and

(ii) Either: (A) In the case of shares represented by certificates, the offeror, or the offeror's designated depository or other agent, has physically received the certificates representing those shares; or (B) in the case of shares without certificates, those shares have been transferred into the account of the offeror or its designated depository or other agent, or an agent's message relating to those shares has been received by the offeror or its designated depository or other agent.

**NEW SECTION. Sec. 6.** A new section is added to chapter 23B.11 RCW to read as follows:

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(b) "Parent constituent corporation" means the parent corporation that merges with or into the subsidiary constituent corporation in the merger.

(c) "Subsidiary constituent corporation" means the subsidiary corporation with or into which the parent constituent corporation merges in the merger.

(2) Unless the articles of incorporation provide otherwise, a parent constituent corporation may merge with or into a single indirect wholly owned subsidiary of the parent constituent corporation without the approval of the plan of merger by the

shareholders of the parent constituent corporation if:

(a) The plan expressly permits or requires the merger to be effected under this subsection;

(b) The holding company and the constituent corporations to the merger are each organized under this title;

(c) At all times from its incorporation until consummation of a merger under this section, the holding company was a direct wholly owned subsidiary of the parent constituent corporation;

(d) Immediately before consummation of a merger under this section, the subsidiary constituent corporation is a direct wholly owned subsidiary of the holding company and an indirect wholly owned subsidiary of the parent constituent corporation;

(e) The parent constituent corporation and the subsidiary constituent corporation are the only constituent entities to the merger;

(f) Immediately after the merger becomes effective, the surviving corporation of the merger becomes or remains a direct wholly owned subsidiary of the holding company;

(g) Each share or fraction of a share of the parent constituent corporation outstanding immediately before the merger becomes effective is converted in the merger into a share or equal fraction of a share of the holding company having the same designations and relative preferences, rights, and limitations as the share or fraction of a share of the parent constituent corporation being converted in the merger;

(h) The articles of incorporation and bylaws of the holding company immediately after the merger becomes effective contain provisions identical to the articles of incorporation and bylaws of the parent constituent corporation immediately before the merger becomes effective, other than any provisions regarding the incorporator or incorporators, the corporate name, the registered office and agent, the initial board of directors and the initial subscribers for shares, and the provisions contained in any amendment to the articles of incorporation of the parent constituent corporation that were necessary to effect an exchange, reclassification, or cancellation of shares if the exchange, reclassification, or cancellation has become effective;

(i) The articles of incorporation and bylaws of the surviving corporation immediately after the merger becomes effective contain provisions by specific reference to this subsection requiring that any corporate action by or involving the surviving corporation, other than the election or removal of directors of the surviving corporation, must be approved by the shareholders of the holding company, or any successor by merger, by the same vote as is required by this title or under the articles of incorporation or bylaws of the parent constituent corporation immediately before the merger becomes effective, if that corporate action would have required the approval of the shareholders of the parent constituent corporation under this title or under the articles of incorporation or bylaws of the parent constituent corporation

immediately before the merger becomes effective;

(j) The directors of the parent constituent corporation immediately before the merger becomes effective become or remain the directors of the holding company immediately after the merger becomes effective; and

(k) The shareholders of the parent constituent corporation will not recognize gain or loss for United States federal income tax purposes as a result of the merger, as determined by the board of directors of the parent constituent corporation.

(3) The holding company must, promptly after the effective date of a merger effected under subsection (2) of this section, notify each person who was a shareholder of the parent constituent corporation as of the date the board of directors approves the merger that the merger has become effective. The notice must contain or be accompanied by a copy of the plan of merger or a summary of the material terms and conditions of the merger and the consideration to be received by those shareholders.

(4) To the extent restrictions under chapter 23B.19 RCW applied to the parent constituent corporation or any of its shareholders at the effective time of the merger, those restrictions apply to the holding company and its shareholders immediately after the merger becomes effective as though the holding company were the parent constituent corporation, and all shares of stock of the holding company acquired in the merger will, for the purposes of chapter 23B.19 RCW, be deemed to have been acquired at the time that the corresponding shares of stock of the parent constituent corporation were acquired. No shareholder who, immediately before the merger becomes effective, was not an acquiring person of the parent constituent corporation under chapter 23B.19 RCW will, solely by reason of the merger, become an acquiring person of the holding company under chapter 23B.19 RCW.

(5) To the extent a shareholder of the parent constituent corporation immediately before the merger was eligible to commence a proceeding in the right of the parent constituent corporation in accordance with RCW 23B.07.400, nothing in this section is deemed to limit or extinguish that eligibility.

(6) Except as provided in subsections (2), (3), (4), and (5) of this section, a merger between a parent constituent corporation and a subsidiary constituent corporation is governed by the provisions of this chapter applicable to mergers generally."

**SB 5065** Prime Sponsor, Senator Short: Encouraging public school instruction in awareness of bone marrow donation. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature recognizes that it has previously found that every three minutes an American child or adult is diagnosed with a potentially fatal blood disease. For many of these individuals, bone marrow transplantation is the only chance for survival. The legislature finds that 70 percent of patients do not have a fully matched donor in their family and rely on a registry to find an unrelated donor. The legislature further finds that 40 to 71 percent of individuals with diverse heritage never find a bone marrow match. The ultimate key to survivability lies in increasing the number of bone marrow donors across all ethnicities, which will increase the potential for a suitable match.

(2) It is the intent of the legislature to continue to increase awareness of bone marrow donation by encouraging school districts, charter schools, and state-tribal compact schools to offer instruction on this topic to high school students in at least one health class necessary for graduation. The legislature also intends for this instruction to be optional for elementary and middle school students.

NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.210 RCW to read as follows:

(1) Each school district, charter school, and state-tribal education compact school that serves students in any of grades nine through 12 is encouraged to offer instruction in awareness of bone marrow donation to students as provided in this section. Beginning with the 2023-24 school year, instruction in awareness of bone marrow donation may be included in at least one health class necessary for graduation.

(2)(a) Instruction in awareness of bone marrow donation under this section must be an instructional program provided by the national marrow donor program or other relevant nationally recognized organization.

(b) The office of the superintendent of public instruction must post on its website

a link to the instructional program described in this subsection (2).

(3) Each school district, charter school, and state-tribal education compact school that serves students in any of grades kindergarten through eight may offer instruction in awareness of bone marrow donation to students. The instruction described in subsection (2) of this section may be adapted to be age appropriate.

(4) School districts, charter schools, and state-tribal education compact schools may offer the instruction in awareness of bone marrow donation directly or arrange for the instruction to be provided by available community-based providers. Referred to Committee on Rules for second reading

March 9, 2023

**SSB 5072** Prime Sponsor, Early Learning & K-12 Education: Advancing equity in programs for highly capable students. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that, for highly capable students, access to accelerated learning and enhanced instruction is access to a basic education. The legislature has directed school districts to prioritize equitable identification of low-income students for participation in highly capable programs and services. The research literature strongly supports using universal screening and multiple criteria to equitably identify students for highly capable programs. There are multiple approaches to implementing universal screening and the use of multiple criteria. The legislature intends all school districts to use best practices and does not intend to prescribe a single method.

(2) The legislature further intends to allocate state funding for the highly capable program based on five percent of each school district's student population. The legislature does not intend to limit highly capable services to five percent of the student population. School districts may identify and serve more than five percent of their students for highly capable programs and services.

**Sec. 2.** RCW 28A.185.020 and 2017 3rd sp.s. c 13 s 412 are each amended to read as follows:

~~((1) The legislature finds that, for highly capable students, access to accelerated learning and enhanced instruction is access to a basic education.~~

~~There are multiple definitions of highly capable, from intellectual to academic to artistic. The research literature strongly supports using multiple criteria to identify highly capable students, and therefore, the legislature does not intend to prescribe a single method. Instead, the legislature intends to allocate funding based on 5.0 percent of each school district's population and authorize school districts to identify through the use of multiple, objective criteria those students most highly capable and eligible to receive accelerated learning and enhanced instruction in the program offered by the district.)) District practices for identifying ((the most)) highly capable students must prioritize equitable identification of low-income students. Access to accelerated learning and enhanced instruction through the program for highly capable students does not constitute an individual entitlement for any particular student.~~

~~((2) Supplementary funds provided by the state for the program for highly capable students under RCW 28A.150.260 shall be categorical funding to provide services to highly capable students as determined by a school district under RCW 28A.185.030.))~~

**NEW SECTION. Sec. 3.** A new section is added to chapter 28A.185 RCW to read as follows:

(1) Other basic education funding can be used alongside categorical funding to identify students and provide programs and services for highly capable students.

(2) Each school district must conduct universal screenings in accordance with RCW 28A.185.030 to find students who may qualify for potential highly capable program placement.

**Sec. 4.** RCW 28A.185.030 and 2009 c 380 s 4 are each amended to read as follows:

~~((Local school))~~ (1) School districts may establish and operate, either separately or jointly, programs for highly capable students. Such authority shall include the right to employ and pay special instructors and to operate such programs jointly with a public institution of higher education. ~~((Local school))~~

(2) School districts ~~((which))~~ that establish and operate programs for highly capable students shall adopt identification procedures and provide educational opportunities as follows:

~~((1))~~ (a) In accordance with rules adopted by the superintendent of public instruction, school districts shall implement procedures for ~~((nomination))~~ referral, screening, assessment ~~((and selection))~~, identification, and placement of ~~((their most))~~ highly capable students. ~~((Nominations shall be based upon data from))~~

(i) Referrals must be available for all grade levels not being universally screened, and may be submitted by teachers, other staff, parents, students, and members of the community.

(ii) Each school district must select a grade level to implement universal screening

procedures for each student. Universal screening must occur once in or before second grade, and again in or before sixth grade. The purpose of universal screening is to include students who traditionally are not referred for highly capable programs and services. Students discovered during universal screening may need further assessment to determine whether the student is eligible for placement in a program for highly capable students. Districts must consider at least two student data points during universal screening, which may include previously administered standardized, classroom-based, performance, cognitive, or achievement assessments, or research-based behavior ratings scales. There is no requirement to administer a new assessment for the purpose of universal screening, however districts may do so if they desire.

((iii)) Assessments ~~((shall))~~ for highly capable program services must be based upon a review of each student's capability as shown by multiple criteria intended to reveal, from a wide variety of sources and data, each student's unique needs and capabilities. Any screenings or additional assessments must be conducted within the school day and at the school the student attends, except that school districts, on a case-by-case basis and with the consent of the parent or guardian, may offer a student screenings or additional assessment opportunities during the summer, outside of school hours, or at an alternative site.

~~((Selection))~~ (iv) Identification and placement decisions shall be made by a ~~((broadly based committee of professionals,))~~ multidisciplinary selection committee after consideration of the results of the ~~((multiple criteria assessment))~~ universal screening, any further assessment, and any available district data. Students identified pursuant to procedures outlined in this section must be provided, to the extent feasible, an educational opportunity that takes into account each student's unique needs and capabilities, and the limits of the resources and program options available to the district, including those options that can be developed or provided using funds allocated by the superintendent of public instruction for this specific purpose.

(b) In addition to the criteria listed in (a) of this subsection, district practices for identifying highly capable students must seek to expand access to accelerated learning and enhanced instruction at elementary and secondary schools and advance equitable enrollment practices so that all students, especially students from historically underrepresented and low-income groups, who are ready to engage in more rigorous coursework can benefit from accelerated learning and enhanced instruction.

~~((2))~~ (3) When a student, who is a child of a military family in transition, has been assessed or enrolled as highly capable by a sending school, the receiving school shall initially honor placement of the student into a like program.

(a) The receiving school shall determine whether the district's program is a like

program when compared to the sending school's program; and

(b) The receiving school may conduct subsequent assessments to determine appropriate placement and continued enrollment in the program.

~~((3) Students selected pursuant to procedures outlined in this section shall be provided, to the extent feasible, an educational opportunity which takes into account each student's unique needs and capabilities and the limits of the resources and program options available to the district, including those options which can be developed or provided by using funds allocated by the superintendent of public instruction for that purpose.))~~

(4) ~~((The))~~ For a student who is a child of a military family in transition, the definitions in Article II of RCW 28A.705.010 apply to subsection ((2-)) (3) of this section.

**Sec. 5.** RCW 28A.185.050 and 2002 c 234 s 1 are each amended to read as follows:

(1) In order to ensure that school districts are meeting the requirements of an approved program for highly capable students, the superintendent of public instruction shall monitor highly capable programs at least once every five years. Monitoring shall begin during the 2002-03 school year.

(2) Any program review and monitoring under this section may be conducted concurrently with other program reviews and monitoring conducted by the office of the superintendent of public instruction. In its review, the office shall monitor program components that include but need not be limited to the process used by the district to identify and reach out to highly capable students with diverse talents and from diverse backgrounds, assessment data ~~((and))~~, other indicators to determine how well the district is meeting the academic needs of highly capable students, and district expenditures used to enrich or expand opportunities for these students.

(3) Beginning June 30, 2003, and every five years thereafter, the office of the superintendent of public instruction shall submit a report to the education committees of the house of representatives and the senate that provides the following:

(a) A brief description of the various instructional programs offered to highly capable students; and

(b) Relevant data to the programs for highly capable students collected under RCW 28A.300.042.

(4) Beginning November 1, 2023, and annually thereafter, the superintendent of public instruction must make data publicly available that includes a comparison of the race, ethnicity, and low-income status of highly capable students compared to the same demographic groups in the general student population of each school district. Reporting must also include comparisons for students who are English language learners, have an individualized education program, have a 504 plan, are covered by provisions of the McKinney-Vento homeless assistance act, or are highly mobile.

(5) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

**Sec. 6.** RCW 28A.300.042 and 2016 c 72 s 501 are each amended to read as follows:

(1) ~~((Beginning with the 2017-18 school year, and using the phase in provided in subsection (2) of this section, the))~~ The superintendent of public instruction must collect and school districts must submit all student-level data using the United States department of education 2007 race and ethnicity reporting guidelines, including the subracial and subethnic categories within those guidelines, with the following modifications:

(a) Further disaggregation of the Black category to differentiate students of African origin and students native to the United States with African ancestors;

(b) Further disaggregation of countries of origin for Asian students;

(c) Further disaggregation of the White category to include subethnic categories for Eastern European nationalities that have significant populations in Washington; and

(d) For students who report as multiracial, collection of their racial and ethnic combination of categories.

(2) Beginning with the 2017-18 school year, school districts shall collect student-level data as provided in subsection (1) of this section for all newly enrolled students, including transfer students. When the students enroll in a different school within the district, school districts shall resurvey the newly enrolled students for whom subracial and subethnic categories were not previously collected. School districts may resurvey other students.

(3) All student data-related reports required of the superintendent of public instruction in this title must be disaggregated by at least the following subgroups of students: White, Black, Hispanic, American Indian/Alaskan Native, Asian, Pacific Islander/Hawaiian Native, low income, highly capable, transitional bilingual, migrant, special education, and students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794).

(i) Number of days a student is suspended or expelled, to be counted in half or full days; and

(j) Any other categories added at a future date by the data governance group.

(5) All student data-related reports required of the superintendent of public instruction regarding student suspensions and expulsions as required in RCW 28A.300.046 are subject to cross-tabulation at a minimum by the following:

(a) School and district;

(b) Race, low income, highly capable, special education, transitional bilingual, migrant, foster care, homeless, students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794), and categories to be added in the future;

Prime Sponsor, Early Learning & K-12 Education: Ensuring elementary school students receive sufficient daily recess. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature recognizes that recess is an essential part of the day for elementary school students. Young students learn through play, and recess supports the mental, physical, and emotional health of students and positively impacts their learning and behavior. Given the state's youth mental health and physical inactivity crisis, as well as learning loss due to the COVID-19 pandemic, recess is vital to support student well-being and academic success.

(2) The legislature also acknowledges that the amount of time spent on recess varies throughout the state; therefore, youth do not have equitable access to opportunities for physical activity, self-directed play, and time outdoors. The legislature intends to set a minimum requirement for daily recess to ensure that all students have equal access to recess, but school districts are encouraged to exceed this requirement.

(3) Further, the legislature intends to clarify that recess should not be withheld as a disciplinary or punitive action during the school day, and that recess should not be withheld to compel students to complete academic work. The legislature believes that these clarifications and other policies will help make elementary school recess safe, inclusive, and high quality for all students.

NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.230 RCW to read as follows:

(1)(a) Beginning with the 2024-25 school year, public schools, for each school day that exceeds five hours in duration, must provide a minimum of 30 minutes of daily recess within the school day for all

students in grades kindergarten through five and students in grade six that attend an elementary school.

(b) The office of the superintendent of public instruction may waive the requirement in (a) of this subsection during the 2024-25 school year for public schools demonstrating that they are unable to comply with the requirement.

(c) Public schools may provide additional recess before or after the school day, but that time may not be used to meet the requirements of this subsection (1).

(d) Time spent changing to and from clothes for outdoor play should not be used to meet the requirements of this subsection (1).

(2)(a) Recess must be supervised and student directed and must aim to be safe, inclusive, and high quality as described in the model policy and procedure referenced in section 3 of this act. It may include organized games, but public schools should avoid including, or permitting the student use of, computers, tablets, or phones during recess.

(b) Recess should be held outside whenever possible. If recess is held indoors, public schools should use an appropriate space that promotes physical activity.

(3) The daily recess required under this section may not be used to meet the physical education requirements under RCW 28A.230.040.

(4) For the purposes of this section, "public schools" has the same meaning as in RCW 28A.150.010.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28A.210 RCW to read as follows:

(1)(a) By April 1, 2024, the Washington state school directors' association, with the assistance of the office of the superintendent of public instruction, must review and update a model policy and procedure regarding nutrition, health, and physical education.

(b) The model policy and procedure must:

(i) Aim to make elementary school recess safe, inclusive, and high quality for all students;

(ii) Encourage physical activity breaks for middle and high school students;

(iii) Align with the requirements in section 2 of this act;

(iv) Encourage elementary school recess to be scheduled before lunch, whenever possible, to reduce food waste, maximize nutrition, and allow students to be active before eating;

(v) Discourage withholding recess as a disciplinary or punitive action except when a student's participation in recess poses an immediate threat to the safety of the student or others, and create a process to find and deploy alternatives to the withholding of recess;

(vi) Discourage the withholding of recess to have a student complete academic work;

(vii) Prohibit the use of physical activity during the school day as punishment, such as having students run laps or do push-ups as a punitive action; and

(viii) Align with corporal punishment requirements established in WAC 392-400-825.

(2) By the beginning of the 2024-25 school year, school districts must adopt or amend if necessary policies and procedures that, at a minimum, incorporate all the elements described in subsection (1) of this section."

Prime Sponsor, Health & Long Term Care: Reviewing the state's essential health benefits. Reported by Committee on Health Care & Wellness

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The office of the insurance commissioner, in consultation with relevant interested persons and entities, shall review Washington's benchmark plan establishing the state's essential health benefits to determine whether to request approval from the centers for medicare and medicaid services under 45 C.F.R. Sec. 156.111 to modify the state's essential health benefits benchmark plan.

(2) As part of its review, the office shall determine the potential impacts on individual and small group health plan design, actuarial values, and premium rates if coverage for each of the following was included as an essential health benefit:

(a) Donor human milk as provided in RCW 48.43.815 and directed by RCW 48.43.715;

(b) Hearing instruments and associated services as described in section 1, chapter . . . (House Bill No. 1222), Laws of 2023 and directed by RCW 48.43.715;

(c) Fertility services;

(d) Biomarker testing;

(e) Contralateral prophylactic mastectomies;

(f) Treatment for pediatric acute-onset neuropsychiatric syndrome and pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections; and

(g) Magnetic resonance imaging for breast cancer screening.

(3) By December 31, 2023, the office shall report the results of the review to the relevant committees of the legislature, including any findings related to modifying the state's essential health benefits.

Sec. 2. RCW 48.43.715 and 2022 c 236 s 2 are each amended to read as follows:

(1) ~~((The))~~Until the effective date of an updated essential health benefits benchmark plan submitted under section 1 of this act, the commissioner, in consultation with the board and the health care authority, shall, by rule, select the largest small group plan in the state by enrollment as the benchmark plan for the individual and small group market for purposes of establishing the essential health benefits in Washington state.

(2) If the essential health benefits benchmark plan for the individual and small group market does not include all of the ~~((ten))~~10 essential health benefits categories, the commissioner, in consultation with the board and the health care authority, shall, by rule, supplement the benchmark plan benefits as needed.

(3) All individual and small group health plans must cover the ~~((ten))~~10 essential health benefits categories, other than a health plan offered through the federal basic health program, a grandfathered health plan, or medicaid. Such a health plan may not be offered in the state unless the commissioner finds that it is substantially equal to the benchmark plan. When making this determination, the commissioner:

(a) Must ensure that the plan covers the ~~((ten))~~10 essential health benefits categories;

(b) May consider whether the health plan has a benefit design that would create a risk of biased selection based on health status and whether the health plan contains meaningful scope and level of benefits in each of the ten essential health benefits categories;

(c) Notwithstanding (a) and (b) of this subsection, for benefit years beginning January 1, 2015, must establish by rule the review and approval requirements and procedures for pediatric oral services when offered in stand-alone dental plans in the nongrandfathered individual and small group markets outside of the exchange; and

(d) Must allow health carriers to also offer pediatric oral services within the health benefit plan in the nongrandfathered individual and small group markets outside of the exchange.

(4) Beginning December 15, 2012, and every year thereafter, the commissioner shall submit to the legislature a list of state-mandated health benefits, the enforcement of which will result in federally imposed costs to the state related to the plans sold through the exchange because the benefits are not included in the essential health benefits designated under federal law. The list must include the anticipated costs to the state of each state-mandated health benefit on the list and any statutory changes needed if funds are not appropriated to defray the state costs for the listed mandate. The commissioner may enforce a mandate on the list for the entire market only if funds are appropriated in an omnibus appropriations act specifically to pay the state portion of the identified costs.

(5) ~~((Upon authorization by the legislature to modify the state's essential~~

~~health benefits benchmark plan under 45 C.F.R. Sec. 156.111, the))~~The commissioner shall include coverage for donor human milk as provided in RCW 48.43.815 and hearing instruments and associated services as described in section 1, chapter . . . (House Bill No. 1222), Laws of 2023, in ~~((the updated plan))~~any update of the state's essential health benefits benchmark plan submitted to the centers for medicare and medicaid services under section 1 of this act.

### POINT OF ORDER

Representative Paul requested a scope and object ruling on amendment (490) to SUBSTITUTE HOUSE BILL NO. 1431.

"The title of the bill is an act relating to clarifying that meals furnished to tenants of senior living communities as part of their rental agreement are not subject to sales and use tax.

The bill exempts food, drink, or meals provided by a senior living community from retail sales and use tax.

Amendment (490) provides a business and occupation tax exemption for food, drink, or meals provided by a senior living community.

The point of order is well taken."

SSB 5396 Prime Sponsor, Health & Long Term Care: Concerning cost sharing for diagnostic and supplemental breast examinations. Reported by Committee on Health Care & Wellness

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) In 1989 the legislature enacted Substitute House Bill No. 1074 requiring disability insurers, group disability insurers, health care service contractors, health maintenance organizations, and plans offered to public employees that provide benefits for hospital or medical care to provide benefits for screening and diagnostic mammography services.

(2) In 2010 the United States congress enacted the patient protection and affordable care act, which required coverage of certain preventative care services including screening mammograms with no cost sharing.

(3) In 2013 the Washington state office of the insurance commissioner adopted rules establishing the essential health benefits benchmark plan, which listed diagnostic and screening mammogram services as state benefit requirements under preventative and wellness services.

(4) In 2018 the legislature enacted Senate Bill No. 5912 which directed the office of the insurance commissioner to clarify that the existing mandates for mammography included coverage for tomosynthesis, also known as three-dimensional mammography, under the same terms and conditions allowed for mammography.

(5) The legislature intends to establish that the requirements for coverage of mammography services predated the affordable care act and are already included in the state's essential health benefits benchmark plan. Furthermore, the legislature intends to prohibit cost sharing for certain types of breast examinations.

**NEW SECTION. Sec. 2.** A new section is added to chapter 48.43 RCW to read as follows:

(1) Except as provided in subsection (2) of this section, for nongrandfathered health plans issued or renewed on or after January 1, 2024, that include coverage of supplemental breast examinations and diagnostic breast examinations, health carriers may not impose cost sharing for such examinations.

(2) For a health plan that provides coverage of supplemental breast examinations and diagnostic breast examinations and is offered as a qualifying health plan for a health savings account, the health carrier shall establish the plan's cost sharing for the coverage of the services described in this section at the minimum level necessary to preserve the enrollee's ability to claim tax exempt contributions from their health savings account under internal revenue service laws and regulations.

(3) For purposes of this section:

(a) "Diagnostic breast examination" means a medically necessary and appropriate examination of the breast, including an examination using diagnostic mammography, digital breast tomosynthesis, also called three dimensional mammography, breast magnetic resonance imaging, or breast ultrasound, that is used to evaluate an abnormality:

(i) Seen or suspected from a screening examination for breast cancer; or

(ii) Detected by another means of examination.

(b) "Supplemental breast examination" means a medically necessary and appropriate examination of the breast, including an examination using breast magnetic resonance imaging or breast ultrasound, that is: (i) Used to screen for breast cancer when there is no abnormality seen or suspected; and

(ii) Based on personal or family medical history, or additional factors that may increase the individual's risk of breast cancer.

**Sec. 3.** RCW 48.20.393 and 1994 sp.s. c 9 s 728 are each amended to read as follows:

Each disability insurance policy issued or renewed after January 1, 1990, that provides coverage for hospital or medical expenses shall provide coverage for screening or diagnostic mammography services, provided that such services are delivered upon the recommendation of the patient's physician or advanced registered nurse practitioner as authorized by the nursing care quality assurance commission pursuant to chapter 18.79 RCW or physician assistant pursuant to chapter 18.71A RCW.

This section shall not be construed to prevent the application of standard policy provisions, other than the cost-sharing prohibition provided in section 1 of this act, that are applicable to other benefits ((such as deductible or copayment provisions)). This section does not limit the authority of an insurer to negotiate rates and contract with specific providers for the delivery of mammography services. This section shall not apply to medicare supplement policies or supplemental contracts covering a specified disease or other limited benefits.

**Sec. 4.** RCW 48.21.225 and 1994 sp.s. c 9 s 731 are each amended to read as follows:

Each group disability insurance policy issued or renewed after January 1, 1990, that provides coverage for hospital or medical expenses shall provide coverage for screening or diagnostic mammography services, provided that such services are delivered upon the recommendation of the patient's physician or advanced registered nurse practitioner as authorized by the nursing care quality assurance commission pursuant to chapter 18.79 RCW or physician assistant pursuant to chapter 18.71A RCW.

This section shall not be construed to prevent the application of standard policy provisions, other than the cost-sharing prohibition provided in section 1 of this act, that are applicable to other benefits ((such as deductible or copayment provisions)). This section does not limit the authority of an insurer to negotiate rates and contract with specific providers for the delivery of mammography services. This section shall not apply to medicare supplement policies or supplemental contracts covering a specified disease or other limited benefits.

**Sec. 5.** RCW 48.44.325 and 1994 sp.s. c 9 s 734 are each amended to read as follows:

Each health care service contract issued or renewed after January 1, 1990, that provides benefits for hospital or medical care shall provide benefits for screening or diagnostic mammography services, provided that such services are delivered upon the recommendation of the patient's physician or advanced registered nurse practitioner as authorized by the nursing care quality assurance commission pursuant to chapter 18.79 RCW or physician assistant pursuant to chapter 18.71A RCW.

This section shall not be construed to prevent the application of standard contract provisions, other than the cost-sharing

prohibition provided in section 1 of this act, that are applicable to other benefits ((such as deductible or copayment provisions)). This section does not limit the authority of a contractor to negotiate rates and contract with specific providers for the delivery of mammography services. This section shall not apply to medicare supplement policies or supplemental contracts covering a specified disease or other limited benefits.

**Sec. 6.** RCW 48.46.275 and 1994 sp.s. c 9 s 735 are each amended to read as follows:

Each health maintenance agreement issued or renewed after January 1, 1990, that provides benefits for hospital or medical care shall provide benefits for screening or diagnostic mammography services, provided that such services are delivered upon the recommendation of the patient's physician or advanced registered nurse practitioner as authorized by the nursing care quality assurance commission pursuant to chapter 18.79 RCW or physician assistant pursuant to chapter 18.71A RCW.

All services must be provided by the health maintenance organization or rendered upon referral by the health maintenance organization. This section shall not be construed to prevent the application of standard agreement provisions, other than the cost-sharing prohibition provided in section 1 of this act, that are applicable to other benefits ((such as deductible or copayment provisions)). This section does not limit the authority of a health maintenance organization to negotiate rates and contract with specific providers for the delivery of mammography services. This section shall not apply to medicare supplement policies or supplemental contracts covering a specified disease or other limited benefits."

28A.245.010 must stipulate that any approved state and local equivalency courses offered by the host school district must be honored as equivalency courses by all school districts participating in the skill center.

(2) The list of approved local and state equivalency courses of the host school district must be provided by the host district to participating districts on an annual basis by September 1st.

(3) Students served at any core, branch, or satellite skill center campus must have access to academic credit for any approved local or state equivalency courses offered at those sites and in accordance with transcription requirements in RCW 28A.230.097.

**Sec. 2.** RCW 28A.230.097 and 2019 c 221 s 2 are each amended to read as follows:

(1) Each high school or school district board of directors shall adopt course equivalencies for career and technical high school courses offered to students in high schools and skill centers. A career and technical course equivalency may be for whole or partial credit. Each school district board of directors shall develop a course equivalency approval procedure. Boards of directors must approve AP computer science courses as equivalent to high school mathematics or science, and must denote on a student's transcript that AP computer science qualifies as a math-based quantitative course for students who take the course in their senior year.

(2) ~~(Until September 1, 2021, a school)~~ School district boards of directors must, at a minimum, grant academic course equivalency for at least one statewide equivalency high school career and technical course from the list of courses approved by the superintendent of public instruction under RCW 28A.700.070.

(3)(a) If the list of courses is revised after the 2015-16 school year, the school district board of directors must grant academic course equivalency based on the revised list beginning with the school year immediately following the revision.

(b) Each high school or school district board of directors may additionally adopt local course equivalencies for career and technical education courses that are not on the list of courses approved by the superintendent of public instruction under RCW 28A.700.070 as local equivalency courses in support of RCW 28A.700.070.

(c) Approved local or state equivalency courses at any core, branch, or satellite skill center must be offered for academic credit to all students participating in courses at those sites.

(4) On and after September 1, 2021, any statewide equivalency course offered by a school district or accessed at a skill center must be offered for academic credit.

(5) Career and technical courses determined to be equivalent to academic core courses, in full or in part, by the high school or school district shall be accepted as meeting core requirements, including graduation requirements, if the courses are recorded on the student's transcript using the equivalent academic high school

department designation and title. Full or partial credit shall be recorded as appropriate. The high school or school district shall also issue and keep record of course completion certificates that demonstrate that the career and technical courses were successfully completed as needed for industry certification, college credit, or preapprenticeship, as applicable. The certificate shall be part of the student's high school and beyond plan. The office of the superintendent of public instruction shall develop and make available electronic samples of certificates of course completion.

(6) Prior to course scheduling or course registration for the next school term, each public school that serves students in any of grades nine through 12 must provide all students and their parents or legal guardians with information about the opportunities for meeting credit-based graduation requirements through equivalency courses, including those available within the school district or at a skill center.

**Sec. 3.** RCW 28A.300.236 and 2018 c 177 s 303 are each amended to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction must create methodologies for implementing equivalency crediting on a broader scale across the state and facilitate its implementation including, but not limited to, the following:

(a) Implementing statewide career and technical education course equivalency frameworks authorized under RCW 28A.700.070 and 28A.230.097 for high schools and skill centers ~~((in science, technology, engineering, and mathematics))~~. This may include development of additional equivalency course frameworks in core subject areas, course performance assessments, and development and delivery of professional development for districts and skill centers implementing the career and technical education frameworks; ~~((and))~~

(b) Providing competitive grant funds to school districts to increase the integration and rigor of academic instruction in career and technical education equivalency courses. The grant funds must be used to support teams of general education and career and technical education teachers to convene and design course performance assessments, deepen the understanding of integrating academic and career and technical education in student instruction, and develop professional learning modules for school districts to plan implementation of equivalency crediting; and

(c) Conducting a review of implementation requirements of RCW 28A.230.097 and providing technical assistance to districts to ensure state course equivalencies are being consistently offered for academic credit for students at high schools and skill centers.

(2) Beginning in the 2017-18 school year, school districts shall annually report to the office of the superintendent of public instruction the following information:

(a) The annual number of students participating in state-approved equivalency courses; and

(2) The office of the superintendent of public instruction shall provide professional development, technical assistance, and guidance for school districts to develop career and technical course equivalencies that also qualify as advanced placement courses.

(3) The superintendent of public instruction, in consultation with one or more technical working groups convened for this purpose, shall develop and, after an opportunity for public comment, approve curriculum frameworks for a selected list of career and technical courses that may be offered by high schools or skill centers whose academic standards content is considered equivalent in full or in part to the academic courses that meet high school graduation requirements. These courses may include equivalency to English language arts, mathematics, science, social studies, arts, world languages, or health and physical education. The content of the courses must be aligned with the most current Washington K-12 learning standards in English language arts, mathematics, science, arts, world languages, health and physical education, social studies, and

required industry standards. The first list of courses under this subsection must be developed and approved before the 2015-16 school year. Thereafter, the superintendent of public instruction may periodically update or revise the list of courses using the process in this subsection.

(4) Subject to funds appropriated for this purpose, the superintendent of public instruction shall allocate grant funds to school districts to increase the integration and rigor of academic instruction in career and technical courses. Grant recipients are encouraged to use grant funds to support teams of academic and technical teachers. The superintendent of public instruction may require that grant recipients provide matching resources using federal Carl Perkins funds or other fund sources.

(5) Subject to funds appropriated for this purpose, the superintendent of public instruction shall convene a technical working group to develop a course equivalency crosswalk for technology-based competitive student activities that complies with the equivalency and content requirements established in subsection (3) of this section. This technical working group shall include educators from school districts or educational service districts that have experience with technology-based competitive student activities. The superintendent of public instruction shall develop and approve course equivalencies to include in the updated list established in subsection (3) of this section based on the work of the technical working group."

"**Sec. 1.** RCW 19.150.060 and 2016 sp.s. c 6 s 1 are each amended to read as follows:

(1) If a notice has been sent, as required by RCW 19.150.040, and the total sum due has not been paid as of the date specified in the preliminary lien notice, the lien proposed by this notice attaches as of that date and the owner may deny an occupant access to the space, enter the space, inventory the goods therein, and remove any property found therein to a place of safe keeping. The owner must provide the occupant a notice of final lien sale or final notice of disposition by personal service, verified mail, or email to the occupant's last known address and alternative address or email address. If the owner sends notice required under this section to the occupant's last known email address and does not receive a reply or receipt of delivery, the owner must send a second notice to the occupant's last known postal address by verified mail. The notice required under this section must state all of the following:

(a) That the occupant's right to use the storage space has terminated and that the occupant no longer has access to the stored property.

(b) That the stored property is subject to a lien, and the amount of the lien accrued and to accrue prior to the date required to be specified in (c) of this subsection.

(c) That all the property, other than personal papers and personal photographs, may be sold to satisfy the lien after a specified date which is not less than ((fourteen))14 days from the last date of sending of the final lien sale notice, or a minimum of ((forty-two))42 days after the

date when any part of the rent or other charges due from the occupants remain unpaid, whichever is later, unless the amount of the lien is paid. The owner is not required to sell the personal property within a maximum number of days of when the rent or other charges first became due. If the total value of property in the storage space is less than three hundred dollars, the owner may, instead of sale, dispose of the property in any reasonable manner, subject to the restrictions of RCW 19.150.080(4). After the sale or other disposition pursuant to this section has been completed, the owner shall provide an accounting of the disposition of the proceeds of the sale or other disposition to the occupant at the occupant's last known address and at the alternative address.

(d) That any stored vehicles, watercraft, trailers, recreational vehicles, or campers may be towed or removed from the self-service storage facility in lieu of sale pursuant to RCW 19.150.160.

(e) That any excess proceeds of the sale or other disposition under RCW 19.150.080(2) over the lien amount and reasonable costs of sale will be retained by the owner and may be reclaimed by the occupant, or claimed by another person, at any time for a period of six months from the sale and that thereafter the proceeds will be turned over to the state as abandoned property as provided in chapter 63.30 RCW ((~~63.29.165~~)).

(f) That any personal papers and personal photographs will be retained by the owner and may be reclaimed by the occupant at any time for a period of six months from the sale or other disposition of property and that thereafter the owner may dispose of the personal papers and photographs in a reasonable manner, subject to the restrictions of RCW 19.150.080(3).

(g) That the occupant has no right to repurchase any property sold at the lien sale.

(2) The owner may not send by email the notice required under this section to the occupant's last known address or alternative address unless:

(a) The occupant expressly agrees to notice by email;

(b) The rental agreement executed by the occupant specifies in bold type that notices will be given to the occupant by email;

(c) The owner provides the occupant with the email address from which notices will be sent and directs the occupant to modify his or her email settings to allow email from that address to avoid any filtration systems; and

(d) The owner notifies the occupant of any change in the email address from which notices will be sent prior to the address change.

**Sec. 2.** RCW 19.150.080 and 2007 c 113 s 5 are each amended to read as follows:

(1) After the expiration of the time given in the final notice of lien sale pursuant to RCW 19.150.060, the property, other than personal papers and personal photographs, may be sold or disposed of in a reasonable manner as provided in this section.

(2)(a) If the property has a value of ~~((three hundred dollars))~~ \$300 or more, the sale shall be conducted in a commercially reasonable manner, and, after applying the proceeds to costs of the sale and then to the amount of the lien, the owner shall retain any excess proceeds of the sale on the occupant's behalf. The occupant, or any other person having a court order or other judicial process against the property, may claim the excess proceeds, or a portion thereof sufficient to satisfy the particular claim, at any time within six months of the date of sale.

(b) If the property has a value of less than ~~((three hundred dollars))~~ \$300, the property may be disposed of in a reasonable manner.

(3) Personal papers and personal photographs that are not reclaimed by the occupant within six months of a sale under subsection (2)(a) of this section or other disposition under subsection (2)(b) of this section may be disposed of in a reasonable manner.

(4) No employee or owner, or family member of an employee or owner, may acquire, directly or indirectly, the property sold pursuant to subsection (2)(a) of this section or disposed of pursuant to subsection (2)(b) of this section, or personal papers and personal photographs disposed of under subsection (3) of this section.

(5) The owner is entitled to retain any interest earned on the excess proceeds until the excess proceeds are claimed by another person or are turned over to the state as abandoned property pursuant to chapter 63.30 RCW ~~((63.29.165))~~.

**Sec. 3.** RCW 19.240.080 and 2004 c 168 s 9 are each amended to read as follows:

An issuer is not required to honor a gift certificate presumed abandoned under chapter 63.30 RCW ~~((63.29.110))~~ if it is reported ~~((7))~~ and delivered to the department of revenue in the dissolution of a business association.

(1) Gift certificates issued on or after July 1, 2004; and

(2) Those gift certificates presumed abandoned on or after July 1, 2004, and not reported as provided in chapter 63.30 RCW ~~((63.29.170(4)))~~.

**Sec. 5.** RCW 35.90.020 and 2020 c 139 s 59 are each amended to read as follows:

(1) Except as otherwise provided in subsection (7) of this section, a city that requires a general business license of any person that engages in business activities within that city must partner with the department to have such license issued, and renewed if the city requires renewal, through the business licensing service in accordance with chapter 19.02 RCW.

(a) Except as otherwise provided in subsection (3) of this section, the

department must phase in the issuance and renewal of general business licenses of cities that required a general business license as of July 1, 2017, and are not already partnering with the department, as follows:

(i) Between January 1, 2018, and December 31, 2021, the department must partner with at least six cities per year;

(ii) Between January 1, 2022, and December 31, 2027, the department must partner with the remaining cities; or

(iii) Between July 1, 2017 and December 31, 2022, the department must partner with all cities requiring a general business license if specific funding for the purposes of this subsection (1)(a)(iii) is appropriated in the omnibus appropriations act.

(b) A city that imposes a general business license requirement and does not partner with the department as of January 1, 2018, may continue to issue and renew its general business licenses until the city partners with the department as provided in subsection (4) of this section.

(2)(a) A city that did not require a general business license as of July 1, 2017, but imposes a new general business license requirement after that date must advise the department in writing of its intent to do so at least ~~((ninety))~~ 90 days before the requirement takes effect.

(b) If a city subject to (a) of this subsection (2) imposes a new general business license requirement after July 1, 2017, the department, in its sole discretion, may adjust resources to partner with the imposing city as of the date that the new general business licensing requirement takes effect. If the department cannot reallocate resources, the city may issue and renew its general business license until the department is able to partner with the city.

(3) The department may delay assuming the duties of issuing and renewing general business licenses beyond the dates provided in subsection (1)(a) of this section if:

(a) Insufficient funds are appropriated for this specific purpose;

(b) The department cannot ensure the business licensing system is adequately prepared to handle all general business licenses due to unforeseen circumstances;

(c) The department determines that a delay is necessary to ensure that the transition to mandatory department issuance and renewal of general business licenses is as seamless as possible; or

(d) The department receives a written notice from a city within ~~((sixty))~~ 60 days of the date that the city appears on the department's biennial partnership plan, which includes an explanation of the fiscal or technical challenges causing the city to delay joining the system. A delay under this subsection (3)(d) may be for no more than three years.

(4)(a) In consultation with affected cities and in accordance with the priorities established in subsection (5) of this section, the department must establish a biennial plan for partnering with cities to assume the issuance and renewal of general business licenses as required by this

section. The plan must identify the cities that the department will partner with and the dates targeted for the department to assume the duties of issuing and renewing general business licenses.

(b) By January 1, 2018, and January 1st of each even-numbered year thereafter until the department has partnered with all cities that currently impose a general business license requirement and that have not declined to partner with the department under subsection (7) of this section, the department must submit the partnering plan required in (a) of this subsection (4) to the governor; legislative fiscal committees; house local government committee; senate financial institutions, economic development and trade committee; senate local government committee; affected cities; association of Washington cities; association of Washington business; national federation of independent business; and Washington retail association.

(7)(a) Except as provided in (b) of this subsection, a city may decline to partner with the department for the issuance and renewal of a general business license as provided in subsection (1) of this section if the city participates in the online local business license and tax filing portal known as "FileLocal" as of July 1, 2020.

(b) A city that receives at least ~~((one million nine hundred fifty thousand dollars))~~ \$1,950,000 in fiscal year 2020 for temporary streamlined sales tax mitigation under the 2019 omnibus appropriations act, section 722, chapter 415, Laws of 2019, may decline to partner with the department for the issuance and renewal of a general business license as provided in subsection (1) of this section if the city participates in FileLocal as of July 1, 2021.

(c) For the purposes of this subsection (7), a city is considered to be a FileLocal participant as of the date that a business may access FileLocal for purposes of applying for or renewing that city's general business license and reporting and paying that city's local business and occupation taxes. A city that ceases participation in FileLocal after July 1, 2020, or July 1, 2021, in the case of a city eligible for the extension under (b) of this subsection, must partner with the department for the issuance and renewal of its general business license as provided in subsection (1) of this section.

**Sec. 6.** RCW 59.18.312 and 2011 c 132 s 17 are each amended to read as follows:

(1) A landlord shall, upon the execution of a writ of restitution by the sheriff, enter and take possession of any property of the tenant found on the premises. The landlord may store the property in any reasonably secure place, including the premises, and sell or dispose of the property as provided under subsection (3) of this section. The landlord must store the property if the tenant serves a written request to do so on the landlord or the landlord's representative by any of the methods described in RCW 59.18.365 no later than three days after service of the writ. A landlord may elect to store the property without such a request unless the tenant or the tenant's representative objects to the storage of the property. If the tenant or the tenant's representative objects to the storage of the property or the landlord elects not to store the property because the tenant has not served a written request on the landlord to do so, the property shall be deposited upon the nearest public property and may not be stored by the landlord. If the landlord knows that the tenant is a person with a disability as defined in RCW 49.60.040 (as amended by chapter 317, Laws of 2007) and the disability impairs or prevents the tenant or the tenant's representative from making a written request for storage, it must be presumed that the tenant has requested the storage of the property as provided in this section unless the tenant objects in writing.

(2) Property stored under this section shall be returned to the tenant after the tenant has paid the actual or reasonable drayage and storage costs, whichever is less, or until it is sold or disposed of by the landlord in accordance with subsection (3) of this section.

(3) Prior to the sale of property stored pursuant to this section with a cumulative value of over ~~((two hundred fifty dollars))~~ \$250, the landlord shall notify the tenant

of the pending sale. After ((~~thirty~~))30 days from the date the notice of the sale is mailed or personally delivered to the tenant's last known address, the landlord may sell the property, including personal papers, family pictures, and keepsakes, and dispose of any property not sold.

If the property that is being stored has a cumulative value of ((~~two hundred fifty dollars~~))\$250 or less, then the landlord may sell or dispose of the property in the manner provided in this section, except for personal papers, family pictures, and keepsakes. Prior to the sale or disposal of property stored pursuant to this section with a cumulative value of ((~~two hundred fifty dollars~~))\$250 or less, the landlord shall notify the tenant of the pending sale or disposal. The notice shall either be mailed to the tenant's last known address or personally delivered to the tenant. After seven days from the date the notice is mailed or delivered to the tenant, the landlord may sell or dispose of the property.

The landlord may apply any income derived from the sale of the tenant's property against moneys due the landlord for drayage and storage of the property. The amount of sale proceeds that the landlord may apply towards such costs may not exceed the actual or reasonable costs for drayage and storage of the property, whichever is less. Any excess income derived from the sale of such property shall be held by the landlord for the benefit of the tenant for a period of one year from the date of the sale. If no claim is made or action commenced by the tenant for the recovery of the excess income prior to the expiration of that period of time, then the balance shall be treated as abandoned property and deposited by the landlord with the department of revenue pursuant to chapter ((~~63.29~~))63.30 RCW.

(4) Nothing in this section shall be construed as creating a right of distress for rent.

(5) When serving a tenant with a writ of restitution pursuant to RCW 59.12.100 and 59.18.410, the sheriff shall provide written notice to the tenant that: (a) Upon execution of the writ, the landlord must store the tenant's property only if the tenant serves a written request on the landlord to do so no later than three days after service of the writ; (b) the notice to the landlord requesting storage may be served by personally delivering or mailing a copy of the request to the landlord at the address identified in, or by facsimile to the facsimile number listed on, the form described under subsection (6) of this section; (c) if the tenant has not made such a written request to the landlord, the landlord may elect to either store the tenant's property or place the tenant's property on the nearest public property unless the tenant objects; (d) if the property is stored, it may not be returned to the tenant unless the tenant pays the actual or reasonable costs of drayage and storage, whichever is less, within ((~~thirty~~))30 days; (e) if the tenant or the tenant's representative objects to storage of the property, it will not be stored but will be placed on the nearest public

property; and (f) the landlord may sell or otherwise dispose of the property as provided in subsection (3) of this section if the landlord provides written notice to the tenant first.

(6) When serving a tenant with a writ of restitution under subsection (5) of this section, the sheriff shall also serve the tenant with a form provided by the landlord that can be used to request the landlord to store the tenant's property, which must be substantially in the following form:

At the end of the period for which the rent has been paid pursuant to this subsection, the tenancy ends;

(v) A statement that failure to remove the tenant's property before the tenancy is terminated or ends as provided in (a)(iv) of this subsection will allow the landlord to enter the dwelling unit and take possession of any property found on the premises, store it in a reasonably secure place, and charge the actual or reasonable costs, whichever is less, of drayage and storage of the property, and after service of a second notice sell or dispose of the property as provided in subsection (3) of this section; and

(c) Within (~~(fourteen)~~) 14 days after the removal of the property by the tenant representative, the landlord shall refund any unearned rent and shall give a full and specific statement of the basis for retaining any deposit together with the payment of any refund due the deceased tenant under the terms and conditions of the rental agreement to the tenant representative; and

(d) Any tenant representative who removes property from the tenant's dwelling unit or the premises must, at the time of removal, provide to the landlord an inventory of the removed property and signed acknowledgment that he or she has only been given

possession and not ownership of the property.

(2) A landlord shall send a second written notice before selling or disposing of a deceased tenant's property.

(b) If the landlord places the property in storage pursuant to subsection (1)(a) of this section, the landlord shall mail a second written notice, unless a written notice under (a) of this subsection has already been provided, to any known personal representative, known designated person, emergency contact identified by the tenant on the rental application, known person reasonably believed to be a successor of the tenant as defined in RCW 11.62.005, and to the deceased tenant at the dwelling unit. The second notice must state that the landlord may sell or dispose of the property on or after a specified date that is at least (~~(forty-five)~~) 45 days after the second notice is mailed if a tenant representative does not claim and remove the property in accordance with this subsection.

(c) The landlord shall turn over possession of the tenant's property to a tenant representative if a written request is made within the applicable time periods after the second notice is mailed, provided the tenant representative: (i) Pays the actual or reasonable costs, whichever is less, of drayage and storage of the property, if applicable; and (ii) gives the landlord an inventory of the property and signs an acknowledgment that he or she has only been given possession and not ownership of the property.

(d) Within (~~(fourteen)~~) 14 days after the removal of the property by the tenant representative, the landlord shall refund any unearned rent and shall give a full and specific statement of the basis for retaining any deposit together with the payment of any refund due the deceased tenant under the terms and conditions of the rental agreement to the tenant representative.

(3)(a) If a tenant representative has not contacted the landlord or removed the deceased tenant's property within the

(iii) The landlord may apply any income derived from the sale of the property pursuant to this section against any costs of sale and moneys due the landlord, including actual or reasonable costs, whichever is less, of drayage and storage of the deceased tenant's property. Any excess income derived from the sale of such property under this section must be held by the landlord for a period of one year from the date of sale, and if no claim is made for recovery of the excess income before the expiration of that one-year period, the balance must be treated as abandoned property and deposited by the landlord with the department of revenue pursuant to chapter ~~((63.29))~~ 63.30 RCW.

(b) Personal papers and personal photographs that are not claimed by a tenant representative within ~~((ninety))~~ 90 days after a sale or other disposition of the deceased tenant's other property shall be either destroyed or held for the benefit of any successor of the deceased tenant as defined in RCW 11.62.005.

(c) No landlord or employee of a landlord, or his or her family members, may acquire, directly or indirectly, the property sold pursuant to (a)(i) of this subsection or disposed of pursuant to (a) (ii) of this subsection.

The amount of credit claimed for a reporting period may not exceed the tax otherwise due under this chapter for that reporting period. No person may claim more than \$1,000,000 of credit in any calendar year, including credit carried over from a previous calendar year. No refunds may be granted for any unused credits.

In addition, the department must provide written notice to any person who has claimed tax credits in excess of the limitation in this subsection. individual may claim a credit under this section for any year in a disallowance period under Title 26 U.S.C. Sec. 32(k)(1) of the internal revenue code or for any year for which the individual is ineligible to claim the credit in Title 26 U.S.C. Sec. 32 of the internal revenue code by reason of Title 26 U.S.C. Sec. 32(k)(2) of the internal revenue code.

(b) The department shall protect the privacy and confidentiality of personal data of refund recipients in accordance with chapter 82.32 RCW.

(c) The department shall, in conjunction with other agencies or organizations, design and implement a public information campaign to inform potentially eligible persons of the existence of, and requirements for, the credit provided in this section.

(d) The department must work with the internal revenue service to administer the credit on an automatic basis as soon as practicable.

(5) Receipt of the refund under this section may not be used in eligibility determinations for any state income support programs or in making public charge determinations.

(6) The department may adopt rules necessary to implement this section. This includes establishing a date by which applications will be accepted, with the aim of accepting applications as soon as possible.

(7) The department must review the application and determine eligibility for the working families' tax credit based on information provided by the applicant and through audit and other administrative records, including, when it deems it necessary, verification through internal revenue service data.

(8) If, upon review of internal revenue service data or other information obtained by the department, it appears that an individual received a refund that the individual was not entitled to, or received a larger refund than the individual was entitled to, the department may assess against the individual the overpaid amount. The department may also assess such overpaid amount against the individual's spouse if the refund in question was based on both spouses filing a joint federal income tax return for the year for which the refund was claimed.

(a) Interest as provided under RCW 82.32.050 applies to assessments authorized under this subsection (8) starting six months after the date the department issued the assessment until the amount due under this subsection (8) is paid in full to the department. Except as otherwise provided in this subsection, penalties may not be assessed on amounts due under this subsection.

(b) If an amount due under this subsection is not paid in full by the date due, or the department issues a warrant for the collection of amounts due under this subsection, the department may assess the applicable penalties under RCW 82.32.090. Penalties under this subsection (8)(b) may not be made due until six months after the department's issuance of the assessment.

(c) If the department finds by clear, cogent, and convincing evidence that an individual knowingly submitted, caused to be submitted, or consented to the submission of, a fraudulent claim for refund under this section, the department must assess a penalty of 50 percent of the overpaid amount. This penalty is in addition to any other applicable penalties assessed in accordance with (b) of this subsection (8).

(9) If, within the period allowed for refunds under RCW 82.32.060, the department finds that an individual received a lesser refund than the individual was entitled to, the department must remit the additional amount due under this section to the individual.

(10) Interest does not apply to refunds provided under this section.

(11) Chapter 82.32 RCW applies to the administration of this section.

**Sec. 11.** RCW 82.14.070 and 2003 c 168 s 202 are each amended to read as follows:

(1) It is the intent of this chapter that any local sales and use tax adopted pursuant to this chapter be identical to the state sales and use tax, unless otherwise prohibited by federal law, and with other local sales and use taxes adopted pursuant to this chapter.

(2) It is further the intent of this chapter that the local sales and use tax shall be imposed upon an individual taxable event simultaneously with the imposition of the state sales or use tax upon the same taxable event. The rule making powers of the state department of revenue contained in RCW 82.08.060 and 82.32.300 shall be applicable to this chapter. The department shall, as soon as practicable, and with the assistance of the appropriate associations of county prosecutors and city attorneys, draft a model resolution and ordinance.

(3) Except as otherwise provided by law, all state sales and use tax exemptions, credits, and deductions apply in an identical manner to local sales and use taxes adopted pursuant to this chapter or other provision of law.

**Sec. 12.** RCW 82.32.045 and 2022 c 295 s 2 are each amended to read as follows:

(1) Except as otherwise provided in this chapter and subsection (6) of this section, payments of the taxes imposed under chapters 82.04, 82.08, 82.12, 82.14, ~~((and))~~ 82.16, and 82.27 RCW, along with reports and returns on forms prescribed by the department, are due monthly within ~~((twenty-five))~~ 25 days after the end of the month in which the taxable activities occur.

(2) The department of revenue may relieve any taxpayer or class of taxpayers from the obligation of remitting monthly and may require the return to cover other longer reporting periods, but in no event may returns be filed for a period greater than one year. Except as provided in subsection (3) of this section, for these taxpayers, tax payments are due on or before the last day of the month next succeeding the end of the period covered by the return.

(3) For annual filers, tax payments, along with reports and returns on forms

prescribed by the department, are due on or before April 15th of the year immediately following the end of the period covered by the return.

(4) The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

(5) Notwithstanding subsections (1) and (2) of this section, the department may relieve any person of the requirement to file returns if the following conditions are met:

(a) The person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than \$125,000 per year;

(b) The person's gross income of the business from all activities taxable under chapter 82.16 RCW is less than (~~twenty-four thousand dollars~~) \$24,000 per year; and

(c) The person is not required to collect or pay to the department of revenue any other tax or fee which the department is authorized to collect.

(6)(a) Taxes imposed under chapter 82.08 or 82.12 RCW on taxable events that occur beginning January 1, 2019, through June 30, 2019, and payable by a consumer directly to the department are due, on returns prescribed by the department, by July 25, 2019.

(b) This subsection (6) does not apply to the reporting and payment of taxes imposed under chapters 82.08 and 82.12 RCW:

(i) On the retail sale or use of motor vehicles, vessels, or aircraft; or

(ii) By consumers who are engaged in business, unless the department has relieved the consumer of the requirement to file returns pursuant to subsection (5) of this section.

**Sec. 13.** RCW 82.32.105 and 2017 c 323 s 106 are each amended to read as follows:

(1) If the department finds that the payment by a taxpayer of a tax less than that properly due or the failure of a taxpayer to pay any tax by the due date was the result of circumstances beyond the control of the taxpayer, the department must waive or cancel any penalties imposed under this chapter with respect to such tax.

(2) The department must waive or cancel the penalty imposed under RCW 82.32.090(1) when the circumstances under which the delinquency occurred do not qualify for waiver or cancellation under subsection (1) of this section if:

(a) The taxpayer requests the waiver for a tax return required to be filed under RCW 54.28.040, 82.32.045, 82.14B.061, 82.23B.020, (~~82-27-060,~~) 82.29A.050, or 84.33.086; and

(b) The taxpayer has timely filed and remitted payment on all tax returns due for that tax program for a period of (~~twenty-four~~) 24 months immediately preceding the period covered by the return for which the waiver is being requested.

(3) The department must waive or cancel interest imposed under this chapter if:

(a) The failure to timely pay the tax was the direct result of written instructions given the taxpayer by the department; or

(b) The extension of a due date for payment of an assessment of deficiency was not at the request of the taxpayer and was for the sole convenience of the department.

(4) The department must adopt rules for the waiver or cancellation of penalties and interest imposed by this chapter.

**Sec. 14.** RCW 82.60.020 and 2010 1st sp.s. c 16 s 2 are each amended to read as follows:

(5)(a) "Initiation of construction" (~~has the same meaning as in RCW 82.63.010~~) means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for:

(i) Construction of the qualified building, if the underlying ownership of the building vests exclusively with the person receiving the economic benefit of the deferral;

(ii) Construction of the qualified building, if the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.025; or

(iii) Tenant improvements for a qualified building, if the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.025.

(b) "Initiation of construction" does not include soil testing, site clearing and grading, site preparation, or any other related activities that are initiated before the issuance of a building permit for the construction of the foundation of the building.

(c) If the investment project is a phased project, "initiation of construction" applies separately to each phase.

(6) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning,

(9) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for manufacturing or research and development activities, including plant offices and warehouses or other facilities for the storage of raw material or finished goods if such facilities are an essential or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development. If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral must be determined by apportionment of the costs of construction under rules adopted by the department.

(10) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The term "entire tax year" means a full-time position that is filled for a period of ~~((twelve))~~<sup>12</sup> consecutive months. (13) "Recipient" means a person receiving a tax deferral under this chapter.

(14) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun, but only when such activities are intended to ultimately result in the production of a new, different, or useful substance or article of tangible personal property for sale. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed ~~((one million dollars))~~<sup>(\$1,000,000)</sup>.

**Sec. 15.** RCW 82.60.049 and 2010 1st sp.s. c 16 s 7 are each amended to read as follows:

(1) For the purposes of this section:

(a) "Eligible area" also means a designated community empowerment zone approved under RCW 43.31C.020.

(b) "Eligible investment project" also means an investment project in an eligible area as defined in this section.

(2) ~~((In addition to the provisions of RCW 82.60.040, the))~~<sup>Until July 1, 2020, the</sup> department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW, on each eligible investment project that is located in an eligible area, if the applicant establishes that at the time the project is operationally complete:

(a) The applicant will hire at least one qualified employment position for each ~~((seven hundred fifty thousand dollars))~~<sup>(\$750,000)</sup> of investment for which a deferral is requested; and

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.

(3) All other provisions and eligibility requirements of this chapter apply to applicants eligible under this section.

(4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the requirements for qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

**Sec. 16.** RCW 82.60.060 and 2010 1st sp.s. c 16 s 8 are each amended to read as follows:

(1) ~~((The))~~ In the event the eligible investment project ceases to meet the requirements of this chapter, the recipient must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the investment project has been operationally completed. The first payment ~~((will be))~~ is due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

Repayment Year	% of Deferred Tax Repaid
1	10%
2	15%
3	20%
4	25%
5	30%

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes ~~((will))~~ may not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

**Sec. 17.** RCW 82.60.070 and 2017 c 135 s 36 are each amended to read as follows:

(1)(a) Each recipient of a deferral of taxes granted under this chapter must file a complete annual tax performance report with the department under RCW 82.32.534. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.025, the lessee must file a complete annual tax performance report, and the applicant is not required to file a complete annual tax performance report.

(b) The department must use the information reported on the annual tax performance report required by this section to study the tax deferral program authorized under this chapter. The department must report to the legislature by December 1, 2018. The report must measure the effect of the program on job creation, the number of jobs created for residents of eligible areas, company growth, and such other factors as the department selects.

(2) Except as provided in RCW 82.60.063, if, on the basis of a tax performance report under RCW 82.32.534 or other information, the department finds that an investment project is not eligible for tax deferral under this chapter, the amount of deferred taxes outstanding for the project, according to the repayment schedule in RCW 82.60.060, is immediately due. For purposes of this subsection (2), the repayment schedule in RCW 82.60.060 is ~~((totted))~~ suspended during

the period of time that a taxpayer is receiving relief from repayment of deferred taxes under RCW 82.60.063.

(3) A recipient who must repay deferred taxes under subsection (2) of this section because the department has found that an investment project is not eligible for tax deferral under this chapter is no longer required to file annual tax performance reports under RCW 82.32.534 beginning on the date an investment project is used for nonqualifying purposes.

(4) Notwithstanding any other provision of this section or RCW 82.32.534, deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under RCW 82.08.02565; and

(b) Machinery and equipment which at the time of first use would have qualified for exemption under RCW 82.12.02565.

**Sec. 18.** RCW 82.70.900 and 2015 3rd sp.s. c 44 s 416 are each amended to read as follows:

(2)(a) Except as provided in (b) of this subsection, the credit allowed under this section is limited to an amount equal to:

(i) Seventy-five percent of the approved contribution made by a person to a program; or

(ii) Fifty percent of the approved contribution made by a person to the main street trust fund.

(b) Beginning with contributions made in calendar year 2021, an additional credit is allowed equal to 25 percent of the approved contribution made by a person to the main street trust fund.

(3) The department may not approve credit with respect to a program in a city or town with a population of ~~((one hundred ninety thousand))~~ 190,000 persons or more at the time of designation under RCW 43.360.030.

(4) The department must keep a running total of all credits approved under this chapter for each calendar year. The department may not approve any credits under this section that would cause the total amount of approved credits statewide to exceed \$5,000,000 in any calendar year.

(5)(a)(i) The total credits allowed under this chapter for contributions made to each program may not exceed \$160,000 in a calendar year.

(ii) Between 8:00 a.m., Pacific standard time, on the second Monday in January and 8:00 a.m., Pacific daylight time, on April 1st of the same calendar year, the department must evenly allocate the amount of statewide credits allowed under subsection (4) of this section based on the

total number of programs and the main street trust fund as of January 1st in the same calendar year. The department may not approve contributions for a program or the main street trust fund that would cause the total amount of approved credits for a program or the main street trust fund to exceed the allocated amount.

(b) The total credits allowed under this chapter for a person may not exceed ~~((two hundred fifty thousand dollars))~~ \$250,000 in a calendar year.

(6) Except as provided in subsection (8) of this section, the credit may be claimed against any tax due under chapters 82.04 and 82.16 RCW only in the calendar year immediately following the calendar year in which the credit was approved by the department and the contribution was made to the program or the main street trust fund. Credits may not be carried over to subsequent years. No refunds may be granted for credits under this chapter.

(7) The total amount of the credit claimed in any calendar year by a person may not exceed the lesser amount of:

(a) The approved credit; or

(b) Seventy-five percent of the amount of the contribution that is made by the person to a program and 75 percent of the amount of the contribution that is made by the person to the main street trust fund, in the prior calendar year.

(8) Any credits provided in accordance with this chapter for approved contributions made in calendar year 2020 may be carried over for an additional two years and must be used by December 31, 2023.

(9) No credit is allowed or may be claimed under this section on or after January 1, 2032.

**Sec. 20.** RCW 82.90.080 and 2022 c 161 s 8 are each amended to read as follows:

A lessor or owner of an eligible investment project is not eligible for a deferral under this chapter unless:

(1) The underlying ownership of the qualified solar canopy vests exclusively in the same person; or

(2)(a) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(b) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual tax performance report required under RCW ~~((82-63-020(2)))~~ 82.32.534; and

(c) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the eligible investment project and the lessee.

**Sec. 21.** RCW 84.52.120 and 1995 c 99 s 1 are each amended to read as follows:

A metropolitan park district with a population of ~~((one hundred fifty thousand))~~ 150,000 or more may submit a ballot proposition to voters of the district authorizing the protection of the district's tax levy from prorationing under RCW

84.52.010~~((+2))~~(3)(b) by imposing all or any portion of the district's ~~((twenty-five))~~ 25 cent per ~~((thousand dollars))~~ \$1,000 of assessed valuation tax levy outside of the ~~((five dollar and ninety cent))~~ \$5.90 per ~~((thousand dollar))~~ \$1,000 of assessed valuation limitation established under RCW 84.52.043(2), if those taxes otherwise would be prorated under RCW 84.52.010~~((+2)(e-))~~(3)(b)(iv), for taxes imposed in any year on or before the first day of January six years after the ballot proposition is approved. A simple majority vote of voters voting on the proposition is required for approval.

**Sec. 22.** RCW 84.52.816 and 2015 c 170 s 3 are each amended to read as follows:

A flood control zone district in a county with a population of ~~((seven hundred seventy-five thousand))~~ 775,000 or more, or a county within the Chehalis river basin, that is coextensive with a county may protect the levy under RCW 86.15.160 from prorationing under RCW 84.52.010(3)(b)~~((+iii))~~(iii) by imposing up to a total of ~~((twenty-five))~~ 25 cents per ~~((thousand dollars))~~ \$1,000 of assessed value of the tax levy authorized under RCW 86.15.160 outside of the ~~((five dollars and ninety cents))~~ \$5.90 per ~~((thousand dollars))~~ \$1,000 of assessed value limitation under RCW 84.52.043(2), if those taxes otherwise would be prorated under RCW 84.52.010(3)(b)~~((+iii))~~(iii).

**Sec. 23.** RCW 88.02.620 and 2021 c 150 s 1 are each amended to read as follows:

(1) A vessel owner who is a nonresident person must obtain a nonresident vessel permit on or before the ~~((sixty-first))~~ 61st day of use in Washington state if the vessel:

(a) Is currently registered or numbered under the laws of the state or ~~((county feountry))~~ country of principal operation, has been issued a valid number under federal law, or has a valid United States customs service cruising license issued under 19 C.F.R. Sec. 4.94; and

(b) Has been brought into Washington state for not more than six months in any continuous ~~((twelve))~~ 12-month period, and is used:

(i) For personal use; or

(ii) For the purposes of chartering a vessel with a captain or crew, as long as individual charters are for at least three or more consecutive days in duration. The permit also applies for the purposes of necessary transit to or from the start or end point of such a charter, but that transit time is not counted toward the duration of the charter.

(2) In addition to the requirements in subsection (1) of this section, a nonresident vessel owner that is not a natural person, or a nonresident vessel owner who is a natural person who intends to charter the vessel with a captain or crew as provided in subsection (1)(b)(ii) of this section, may only obtain a nonresident vessel permit if:

(3) A nonresident vessel permit:

(a) May be obtained from the department, county auditor or other agent, or subagent appointed by the director;

**Sec. 24.** RCW 88.26.020 and 2013 c 291 s 41 are each amended to read as follows:

(1) Any private moorage facility operator may take reasonable measures, including the use of chains, ropes, and locks, or removal from the water, to secure vessels within the private moorage facility so that the vessels are in the possession and control of the operator and cannot be removed from the facility. These procedures may be used if an owner mooring or storing a vessel at the facility fails, after being notified that charges are owing and of the owner's right to commence legal proceedings to contest that such charges are owing, to pay charges owed or to commence legal proceedings. Notification shall be by two separate letters, one sent by first-class mail and one sent by registered mail to the owner and any lienholder of record at the last known address. In the case of a transient vessel, or where no address was furnished by the

owner, the operator need not give notice prior to securing the vessel. At the time of securing the vessel, an operator shall attach to the vessel a readily visible notice. The notice shall be of a reasonable size and shall contain the following information:

(a) The date and time the notice was attached;

(b) A statement that if the account is not paid in full within ~~((ninety))~~ 90 days from the time the notice is attached the vessel may be sold at public auction to satisfy the charges; and

(c) The address and telephone number where additional information may be obtained concerning release of the vessel.

After a vessel is secured, the operator shall make a reasonable effort to notify the owner and any lienholder of record by registered mail in order to give the owner the information contained in the notice.

(2) A private moorage facility operator, at his or her discretion, may move moored vessels ashore for storage within properties under the operator's control or for storage with a private person under their control as bailees of the private moorage facility, if the vessel is, in the opinion of the operator, a nuisance, in danger of sinking or creating other damage, or is owing charges. The costs of any such procedure shall be paid by the vessel's owner.

(3) If a vessel is secured under subsection (1) of this section or moved ashore under subsection (2) of this section, the owner who is obligated to the private operator for charges may regain possession of the vessel by:

(a) Making arrangements satisfactory with the operator for the immediate removal of the vessel from the facility or for authorized moorage; and

(b) Making payment to the operator of all charges, or by posting with the operator a sufficient cash bond or other acceptable security, to be held in trust by the operator pending written agreement of the parties with respect to payment by the vessel owner of the amount owing, or pending resolution of the matter of the charges in a civil action in a court of competent jurisdiction. After entry of judgment, including any appeals, in a court of competent jurisdiction, or after the parties reach agreement with respect to payment, the trust shall terminate and the operator shall receive so much of the bond or other security as agreed, or as is necessary, to satisfy any judgment, costs, and interest as may be awarded to the operator. The balance shall be refunded immediately to the owner at the last known address.

(4) If a vessel has been secured by the operator under subsection (1) of this section and is not released to the owner under the bonding provisions of this section within ~~((ninety))~~ 90 days after notifying or attempting to notify the owner under subsection (1) of this section, the vessel is conclusively presumed to have been abandoned by the owner.

(5) If a vessel moored or stored at a private moorage facility is abandoned, the operator may authorize the public sale of the vessel by authorized personnel,

consistent with this section, to the highest and best bidder for cash as follows:

(a) Before the vessel is sold, the vessel owner and any lienholder of record shall be given at least ~~((twenty))~~ 20 days' notice of the sale in the manner set forth in subsection (1) of this section if the name and address of the owner is known. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of charges owed with respect to the vessel. The notice of sale shall be published at least once, more than ~~((ten))~~ 10 but not more than ~~((twenty))~~ 20 days before the sale, in a newspaper of general circulation in the county in which the facility is located. This notice shall include the name of the vessel, if any, the last known owner and address, and a reasonable description of the vessel to be sold. The operator may bid all or part of its charges at the sale and may become a purchaser at the sale.

(b) Before the vessel is sold, any person seeking to redeem an impounded vessel under this section may commence a lawsuit in the superior court for the county in which the vessel was impounded to contest the validity of the impoundment or the amount of charges owing. This lawsuit must be commenced within ~~((sixty))~~ 60 days of the date the notification was provided under subsection (1) of this section, or the right to a hearing is deemed waived and the owner is liable for any charges owing the operator. In the event of litigation, the prevailing party is entitled to reasonable attorneys' fees and costs.

(c) The proceeds of a sale under this section shall be applied first to the payment of any liens superior to the claim for charges, then to payment of the charges, then to satisfy any other liens on the vessel in the order of their priority. The balance, if any, shall be paid to the owner. If the owner cannot in the exercise of due diligence be located by the operator within one year of the date of the sale, the excess funds from the sale shall revert to the department of revenue under chapter ~~((63-29))~~ 63.30 RCW. If the sale is for a sum less than the applicable charges, the operator is entitled to assert a claim for deficiency, however, the deficiency judgment shall not exceed the moorage fees owed for the previous six-month period.

(d) In the event no one purchases the vessel at a sale, or a vessel is not removed from the premises or other arrangements are not made within ~~((ten))~~ 10 days of sale, title to the vessel will revert to the operator.

(e) Either a minimum bid may be established or a letter of credit may be required from the buyer, or both, to discourage the future abandonment of the vessel.

(6) The rights granted to a private moorage facility operator under this section are in addition to any other legal rights an operator may have to hold and sell a vessel and in no manner does this section alter those rights, or affect the priority of other liens on a vessel.

Notwithstanding any other law, if the offender is convicted under this section for unlawful possession of a firearm in the first or second degree and for the felony crimes of theft of a firearm or possession of a stolen firearm, or both, then the offender shall serve consecutive sentences for each of the felony crimes of conviction listed in this subsection.

Prime Sponsor, Business, Financial Services, Gaming & Trade: Concerning employee ownership. Reported by Committee on Innovation, Community & Economic Development, & Veterans

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that:

Employee ownership in companies provides numerous benefits to both businesses and workers across all industries. Research from the national center for employee ownership found that one such structure, employee stock ownership plans, had better workforce

retention, benefits and retirement security, and firm performance than nonemployee stock ownership plans companies in the same industry. In addition, the Rutgers school of management and labor relations found that employee-owned companies outperformed nonemployee-owned companies in job retention, pay, and workplace health safety throughout the COVID-19 pandemic. At their core, employee ownership structures allow employees to gain ownership stake in a business, increasing their personal wealth without the risks related to starting or purchasing their own company.

States throughout the nation have moved to provide support for employee ownership structures. The Colorado employee ownership office has operated since 2019 to create a network of technical support and service providers considering employee ownership structures. Recently, both California and Massachusetts passed legislation to establish their own dedicated employee ownership support programs. Other states, such as Iowa, provide tax benefits and upfront costs to businesses interested in employee ownership.

Further, the federal government has recognized the benefit broad-based employee ownership structures provide to communities. The American rescue plan act included \$10,000,000,000 for the state small business credit initiative. Through that act congress also directed the treasury department to allow state small business credit initiative funding to be used for transitions to employee ownership, when state small business credit initiative funding has not been historically available for business transactions.

The legislature desires to provide a dedicated program to educate businesses on employee ownership, assist both owners and workers in navigating available resources, reduce barriers to transitioning to employee-owned structures, and provide tax support for businesses that transition to an employee ownership structure.

Therefore, it is the intent of the legislature to encourage the growth of employee ownership structures through this expanding employee ownership act.

NEW SECTION. **Sec. 2.** A new section is added to chapter 43.330 RCW to read as follows:

(1) The Washington employee ownership program is created to support the efforts of businesses considering a sale to an employee ownership structure. The Washington employee ownership program must be administered by the department and overseen by the Washington employee ownership commission established in section 3 of this act.

(2)(a) In implementing the Washington employee ownership program, the director must:

(i) Create a network of technical support and service providers for businesses considering employee ownership structures;

(ii) Work with state agencies whose regulations and programs affect employee-owned businesses, and businesses with the potential to become employee owned, to enhance opportunities and reduce barriers;

(iii) Partner with relevant private, nonprofit, and public organizations including, but not limited to, professional and trade associations, financial institutions, unions, small business development centers, economic and workforce development organizations, and nonprofit entities to promote employee ownership benefits and succession models;

(iv) Develop and make available materials regarding employee ownership benefits and succession models;

(v) Provide a referral service to help qualified business owners find appropriate legal, financial, and technical employee ownership resources and services;

(vi) Work with the department of financial institutions and appropriate state, private, and nonprofit entities to shape and implement guidance on lending to broad-based employee ownership vehicles;

(vii) Create an inventory of employee-owned businesses in the state including employee stock ownership plans, worker cooperatives, and employee ownership trusts; and

(viii) Subject to the successful award of federal funding for this purpose, establish a revolving loan program to assist existing small businesses to finance a transition to employee ownership.

(b) Loans offered by the revolving loan program must be used to help facilitate the purchase of an interest in an employee stock ownership plan or worker-owned cooperative from the owner or owners of a qualified business, provided that:

(i) The transaction results in the employee stock ownership plan or worker cooperative holding a majority interest in the business, on a fully diluted basis; and

(ii) If used to assist in the purchase of an interest in an employee stock ownership plan, the employee stock ownership plan: (A) Has appointed an independent trustee; or (B) has, as a trustee, person, or entity, completed education on best practices for employee stock ownership plans.

(c) Loans financing the sale of an interest to a worker cooperative shall be extended based on repayment ability and shall not require a personal or entity guarantee. In meeting the requirement in (b) of this subsection, lending guidelines must be established for worker cooperatives not based on any personal or entity guarantees provided by the member owners or the selling business owner. These guidelines may include but are not limited to cash flow-based underwriting, character-based lending, and reliance on business assets.

(d) In order to support the revolving loan program, the director or the director's designee must apply for federal funding opportunities that:

(i) Support capitalization of state revolving loan programs; and

(ii) Support businesses that seek to transition to employee ownership.

(e) Amounts from the repayment of loans offered by the revolving loan program must be deposited in the employee ownership revolving loan program account established in section 6 of this act.

(3) The director or the director's designee may contract with consultants,

agents, or advisors necessary to further the purposes of this section.

(4) By December 1st each year, the department must submit a report to the appropriate committees of the legislature on program activities and the number of employee-owned businesses and employee-owned trusts in the state, including recommendations for improvement and barriers for businesses considering employee ownership structures in Washington state. The first report must include rules and guidelines for the administration of the program, as established by the Washington employee ownership commission.

(5) For the purposes of this section:

(a) "Employee-owned business" means:

(i) An employee cooperative established under chapter 23.78, 23.86, 23.100, or 24.06 RCW that has at least 50 percent of its board of directors consisting of, and elected by, its employees; or

(ii) An entity owned in whole or in part by employee stock ownership plans as defined in 26 U.S.C. Sec. 4975(e)(7).

(b) "Qualified business" means a person subject to tax under Title 82 RCW, including but not limited to a C corporation, S corporation, limited liability company, partnership, limited liability partnership, sole proprietorship, or other similar pass-through entity, that is not owned in whole or in part by an employee ownership trust, that does not have an employee stock ownership plan, or that is not, in whole or in part, a worker-owned cooperative.

(6) Program support shall only be made available to businesses headquartered in Washington state. For the purposes of this section, "headquartered in Washington state" means that Washington state is its principal place of business or the state where it is incorporated.

(7) The director shall adopt rules as necessary to implement this section.

**NEW SECTION. Sec. 3.** A new section is added to chapter 43.330 RCW to read as follows:

(1) The Washington employee ownership commission is hereby created to exercise the powers in developing and supervising the program created in section 2 of this act.

(2) The commission shall consist of:

(a) One member from each of the two major caucuses of the house of representatives to be appointed by the speaker of the house and one member from each of the two major caucuses of the senate to be appointed by the president of the senate. The initial term shall be two years; and

(b) The following members appointed by the governor:

(i) Five members who represent the private sector or professional organizations as follows:

(A) One representative of a worker cooperative business. The initial term shall be four years;

(B) One representative of an employee stock ownership plan business. The initial term shall be four years;

(C) One representative from a statewide business association. The initial term shall be two years;

(D) One economic development expert, from the private sector, with employee ownership knowledge and experience. The initial term shall be four years; and

(E) One representative from a financial institution with expertise in assisting businesses transitioning into an employee ownership structure. The initial term shall be two years; and

(ii) Two members who represent the public sector as follows:

(A) One economic development expert, from the public sector. The initial term shall be four years; and

(B) One representative from the department of commerce, who will chair the first meeting prior to the election of the chair. The initial term shall be four years.

(3) After the initial term of appointment, all members shall serve terms of four years and shall hold office until successors are appointed.

(4) The commission shall be led by a chair selected and voted on by members of the commission. The chair shall serve a one-year term but may serve more than one term if selected to do so by members of the commission.

(5) The commission shall develop, in consultation with the director, rules and guidelines to administer the program. Rules and guidelines for the administration of the program must be included in the first report to the legislature required in section 2 of this act.

(6) Before making any appointments to the commission, the governor must seek nominations from recognized organizations that represent the entities or interests identified in this section. The governor must select appointees to represent private sector industries from a list of three nominations provided by the trade associations representing the industry, unless no names are put forth by the trade associations.

(7) The commission shall conduct market research for the purposes of, or to support, a future application to the federal government for a program to assist in the purchase of an interest in an employee stock ownership plan qualifying under section 401 of the internal revenue code, worker cooperative, or related broad-based employee ownership vehicle.

(8) For purposes of this section, a "professional organization" includes an entity whose members are engaged in a particular lawful vocation, occupation, or field of activity of a specialized nature including, but not limited to, associations, boards, educational institutions, and nonprofit organizations.

**NEW SECTION. Sec. 4.** (1) This section is the tax preference performance statement for the tax preference contained in section 5, chapter . . . , Laws of 2023 (section 5 of this act). This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(2) The legislature categorizes this tax preference as one intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(3) It is the legislature's specific public policy objective to encourage business owners to create an employee stock ownership plan or employee ownership trust, or to convert to a worker-owned cooperative, that allows the company to share ownership with their employees without requiring employees to invest their own money.

(4) If a review finds that the number of businesses in this state offering employee stock ownership plans, employee ownership trusts, or ones that have converted to a worker-owned cooperative, has increased because of the tax credit under this act, then the legislature intends for the legislative auditor to recommend extending the expiration date of the tax preference.

(5) In order to obtain the data necessary to perform the review in subsection (4) of this section, the joint legislative audit and review committee may access and use any relevant data collected by the state.

**NEW SECTION. Sec. 5.** A new section is added to chapter 82.04 RCW to read as follows:

(1) Beginning July 1, 2024, in computing the tax imposed under this chapter, a credit is allowed for costs related to converting a qualifying business to a worker-owned cooperative, employee ownership trust, or an employee stock ownership plan, as provided in this section.

(2) The credit is equal to:

(a) Up to 50 percent of the conversion costs, not to exceed \$25,000, incurred by a qualified business for converting the qualified business to a worker-owned cooperative or an employee ownership trust; or

(b) Up to 50 percent of the conversion costs, not to exceed \$100,000, incurred by a qualified business for converting the qualified business to an employee stock ownership plan.

(3)(a) Credit under this section is earned, and claimed against taxes due under this chapter, for the tax reporting period in which the conversion to a worker-owned cooperative, employee ownership trust, or an employee stock ownership plan is complete, or subsequent tax reporting periods as provided in (c) of this subsection.

(b) The credit must not exceed the tax otherwise due under this chapter for the tax reporting period.

(c) Unused credit may be carried over and used in subsequent tax reporting periods, except that no credit may be claimed more than 12 months from the end of the tax reporting period in which the credit was earned.

(d) No refunds may be granted for credits under this section.

(4)(a) The total amount of credits authorized under this section may not exceed an annual statewide limit of \$2,000,000.

(b) Credits must be authorized on a first-in-time basis.

(c) No credit may be earned, during any calendar year, on or after the last day of

the calendar month immediately following the month the department has determined that \$2,000,000 in credit has been earned.

(5) (a) The department may require persons claiming a credit under this section to provide appropriate documentation, in a manner as determined by the department, for the purposes of determining eligibility under this section.

(b) Every person claiming a credit under this section must preserve, for a period of five years, any documentation to substantiate the amount of credit claimed.

(6) For the purposes of this section:

(a) "Conversion costs" means professional services, including accounting, legal, and business advisory services, as detailed in the guidelines issued by the department, for: (i) A feasibility study or other preliminary assessments regarding a transition of a business to an employee stock ownership plan, a worker-owned cooperative, or an employee ownership trust; or (ii) the transition of a business to an employee stock ownership plan, a worker-owned cooperative, or an employee ownership trust.

(b) "Employee ownership trust" means an indirect form of employee ownership in which a trust holds a controlling stake in a qualified business and benefits all employees on an equal basis.

(c) "Employee stock ownership plan" has the same meaning as set forth in 26 U.S.C. Sec. 4975(e)(7), as of the effective date of this section.

(d) "Qualified business" means a person subject to tax under this chapter, including but not limited to a C corporation, S corporation, limited liability company, partnership, limited liability partnership, sole proprietorship, or other similar pass-through entity, that is not owned in whole or in part by an employee ownership trust, that does not have an employee stock ownership plan, or that is not, in whole or in part, a worker-owned cooperative, and that is approved by the department for the tax credit in this section.

(e) "Worker-owned cooperative" has the same meaning as set forth in 26 U.S.C. Sec. 1042(c)(2), as of the effective date of this section, or such subsequent dates as may be provided by rule by the department, consistent with the purposes of this section.

(7) Credits allowed under this section can be earned for tax reporting periods starting on or before June 30, 2029. No credits can be claimed on returns filed for tax periods starting on or after July 1, 2030.

(8) This section expires July 1, 2030.

**NEW SECTION. Sec. 6.** A new section is added to chapter 43.330 RCW to read as follows:

The employee ownership revolving loan program account is created in the custody of the state treasury. All transfers and appropriations by the legislature, repayments of loans, private contributions, and all other sources must be deposited into the account. Expenditures from the account may be used only for the purposes of the

Washington employee ownership program created in section 2 of this act. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

**NEW SECTION. Sec. 7.** Sections 4 and 5 of this act take effect July 1, 2024.

**NEW SECTION. Sec. 8.** This act may be known and cited as the expanding employee ownership act."

"NEW SECTION. **Sec. 1.** A new section is added to chapter 59.18 RCW to read as follows:

In any forcible or unlawful detainer proceeding before the court:

(1) Hearings may be conducted in person or remotely in order to enhance access for all parties. At the court's discretion, parties, witnesses, and others authorized by this chapter to participate in forcible or unlawful detainer proceedings may attend a hearing pursuant to this chapter, in person or remotely, including by telephone, video, or other electronic means where possible. The court shall grant any request for a remote appearance unless the court finds good cause to require in-person attendance or attendance through a specific means. Courts shall require assurances of the identity of persons who appear by telephone, video, or other electronic means. Courts may not charge fees for remote appearances. Courts shall provide instructions for remote access either on the official court website or in writing directly to the party requesting to appear remotely, or both.

(2) Any party must be permitted to make an emergency application by phone or video conference and file such documents by email, fax, or other means that can be performed remotely.

**Sec. 2.** RCW 59.18.410 and 2021 c 115 s 17 are each amended to read as follows:

(1) If at trial the verdict of the jury or, if the case is tried without a jury, the finding of the court is in favor of the landlord and against the tenant, judgment shall be entered for the restitution of the premises; and if the proceeding is for unlawful detainer after neglect or failure to perform any condition or covenant of a lease or agreement under which the property is held, or after default in the payment of rent, the judgment shall also declare the forfeiture of the lease, agreement, or tenancy. The jury, or the court, if the proceedings are tried without a jury, shall also assess the damages arising out of the tenancy occasioned to the landlord by any forcible entry, or by any forcible or unlawful detainer, alleged in the complaint and proved at trial, and, if the alleged unlawful detainer is based on default in the payment of rent, find the amount of any rent due, and the judgment shall be rendered against the tenant liable for the forcible entry, forcible detainer, or unlawful detainer for the amount of damages thus assessed, for the rent, if any, found due, and late fees if such fees are due under the lease and do not exceed (~~seventy-five dollars~~)\$75 in total. The court may award

statutory costs. The court may also award reasonable attorneys' fees as provided in RCW 59.18.290.

(2) When the tenant is liable for unlawful detainer after a default in the payment of rent, execution upon the judgment shall not occur until the expiration of five court days after the entry of the judgment. Before entry of a judgment or until five court days have expired after entry of the judgment, unless the tenant provides a pledge of financial assistance letter from a governmental or nonprofit entity, in which case the tenant has until the date of eviction, the tenant or any subtenant, or any mortgagee of the term, or other party interested in the continuance of the tenancy, may pay into court or to the landlord the amount of the rent due, any court costs incurred at the time of payment, late fees if such fees are due under the lease and do not exceed (~~seventy-five dollars~~)\$75 in total, and attorneys' fees if awarded, in which event any judgment entered shall be satisfied and the tenant restored to his or her tenancy. If the tenant seeks to restore his or her tenancy after entry of a judgment, the tenant may tender the amount stated within the judgment as long as that amount does not exceed the amount authorized under subsection (1) of this section. If a tenant seeks to restore his or her tenancy and pay the amount set forth in this subsection with funds acquired through an emergency rental assistance program provided by a governmental or nonprofit entity, the tenant shall provide a copy of the pledge of emergency rental assistance provided from the appropriate governmental or nonprofit entity and have an opportunity to exercise such rights under this subsection, which may include a stay of judgment and provision by the landlord of documentation necessary for processing the assistance. The landlord shall accept any pledge of emergency rental assistance funds provided to the tenant from a governmental or nonprofit entity before the expiration of any pay or vacate notice for nonpayment of rent for the full amount of the rent owing under the rental agreement. The landlord shall accept any written pledge of emergency rental assistance funds provided to the tenant from a governmental or nonprofit entity after the expiration of the pay or vacate notice if the pledge will contribute to the total payment of both the amount of rent due, including any current rent, and other amounts if required under this subsection. The landlord shall suspend any court action for (~~seven~~)14 court days after providing necessary payment information to the nonprofit or governmental entity to allow for payment of the emergency rental assistance funds. By accepting such pledge of emergency rental assistance, the landlord is not required to enter into any additional conditions not related to the provision of necessary payment information and documentation. If a judgment has been satisfied, the landlord shall file a satisfaction of judgment with the court. A tenant seeking to exercise rights under this subsection shall pay an additional (~~fifty dollars~~)\$50 for each time the tenant was reinstated after judgment pursuant to this

subsection within the previous (~~twelve~~)12 months prior to payment. If payment of the amount specified in this subsection is not made within five court days after the entry of the judgment, the judgment may be enforced for its full amount and for the possession of the premises.

(3) (a) Following the entry of a judgment in favor of the landlord and against the tenant for the restitution of the premises and forfeiture of the tenancy due to nonpayment of rent, the court, at the time of the show cause hearing or trial, or upon subsequent motion of the tenant but before the execution of the writ of restitution, may stay the writ of restitution upon good cause and on such terms that the court deems fair and just for both parties. In making this decision, the court shall consider evidence of the following factors:

- (i) The tenant's willful or intentional default or intentional failure to pay rent;
- (ii) Whether nonpayment of the rent was caused by exigent circumstances that were beyond the tenant's control and that are not likely to recur;
- (iii) The tenant's ability to timely pay the judgment;
- (iv) The tenant's payment history;
- (v) Whether the tenant is otherwise in substantial compliance with the rental agreement;
- (vi) Hardship on the tenant if evicted; and
- (vii) Conduct related to other notices served within the last six months.

(b) The burden of proof for such relief under this subsection (3) shall be on the tenant. If the tenant seeks relief pursuant to this subsection (3) at the time of the show cause hearing, the court shall hear the matter at the time of the show cause hearing or as expeditiously as possible so as to avoid unnecessary delay or hardship on the parties.

(c) In any order issued pursuant to this subsection (3):

(i) The court shall not stay the writ of restitution more than (~~ninety~~)90 days from the date of order, but may order repayment of the judgment balance within such time. If the payment plan is to exceed (~~thirty~~)30 days, the total cumulative payments for each (~~thirty-day~~)30-day period following the order shall be no less than one month of the tenant's share of the rent, and the total amount of the judgment and all additional rent that is due shall be paid within (~~ninety~~)90 days.

(ii) Within any payment plan ordered by the court, the court shall require the tenant to pay to the landlord or to the court one month's rent within five court days of issuance of the order. If the date of the order is on or before the (~~fifteenth~~)15th of the month, the tenant shall remain current with ongoing rental payments as they become due for the duration of the payment plan; if the date of the order is after the (~~fifteenth~~)15th of the month, the tenant shall have the option to apportion the following month's rental payment within the payment plan, but monthly rental payments thereafter shall be paid according to the rental agreement.

(iii) The sheriff may serve the writ of restitution upon the tenant before the expiration of the five court days of issuance of the order; however, the sheriff shall not execute the writ of restitution until after expiration of the five court days in order for payment to be made of one month's rent as required by (c)(ii) of this subsection. In the event payment is made as provided in (c)(ii) of this subsection for one month's rent, the court shall stay the writ of restitution ex parte without prior notice to the landlord upon the tenant filing and presenting a motion to stay with a declaration of proof of payment demonstrating full compliance with the required payment of one month's rent. Any order staying the writ of restitution under this subsection (3)(c)(iii) shall require the tenant to serve a copy of the order on the landlord by personal delivery, first-class mail, facsimile, or email if agreed to by the parties.

(A) If the tenant has satisfied (c)(ii) of this subsection by paying one month's rent within five court days, but defaults on a subsequent payment required by the court pursuant to this subsection (3)(c), the landlord may enforce the writ of restitution after serving a notice of default in accordance with RCW 59.12.040 informing the tenant that he or she has defaulted on rent due under the lease agreement or payment plan entered by the court. Upon service of the notice of default, the tenant shall have three calendar days from the date of service to vacate the premises before the sheriff may execute the writ of restitution.

(B) If the landlord serves the notice of default described under this subsection (3)(c)(iii), an additional day is not included in calculating the time before the sheriff may execute the writ of restitution. The notice of default must be in substantially the following form:

(iv) If a tenant seeks to satisfy a condition of this subsection (3)(c) by relying on an emergency rental assistance program provided by a government or nonprofit entity and provides an offer of proof, the court shall stay the writ of restitution as necessary to afford the tenant an equal opportunity to comply.

(v) The court shall extend the writ of restitution as necessary to enforce the order issued pursuant to this subsection (3)(c) in the event of default.

(d) A tenant who has been served with three or more notices to pay or vacate for failure to pay rent as set forth in RCW 59.12.040 within twelve months prior to the notice to pay or vacate upon which the proceeding is based may not seek relief under this subsection (3), unless the court determines any of the notices served were invalid or did not otherwise comply with the requirements of this chapter.

(e)(i) In any application seeking relief pursuant to this subsection (3) by either the tenant or landlord, the court shall issue a finding as to whether the tenant is low-income, limited resourced, or experiencing hardship to determine if the parties would be eligible for disbursement through the landlord mitigation program account established within RCW 43.31.605(1) ~~((e))~~ (b). In making this finding, the court may include an inquiry regarding the tenant's income relative to area median income, household composition, any extenuating circumstances, or other factors, and may rely on written declarations or oral testimony by the parties at the hearing.

(ii) After a finding that the tenant is low-income, limited resourced, or experiencing hardship, the court may issue an order: (A) Finding that the landlord is eligible to receive on behalf of the tenant and may apply for reimbursement from the landlord mitigation program; and (B) directing the clerk to remit, without further order of the court, any future payments made by the tenant in order to reimburse the department of commerce pursuant to RCW 43.31.605(1) ~~((e))~~ (b) (iii). In accordance with RCW 43.31.605(1) ~~((e))~~ (b), such an order must be accompanied by a copy of the order staying the writ of restitution. Nothing in this subsection (3)(e) shall be deemed to obligate the department of commerce to provide assistance in claim reimbursement through the landlord mitigation program if there are not sufficient funds.

(iii) If the department of commerce fails to disburse payment to the landlord for the judgment pursuant to this subsection (3)(e) within ~~((thirty))~~ 30 days from submission of the application, the landlord may renew an application for a writ of restitution pursuant to RCW 59.18.370 and for other rent owed by the tenant since the time of entry of the prior judgment. In such event, the tenant may exercise rights afforded under this section.

(iv) Upon payment by the department of commerce to the landlord for the remaining or total amount of the judgment, as applicable, the judgment is satisfied and the landlord shall file a satisfaction of judgment with the court.

(v) Nothing in this subsection (3)(e) prohibits the landlord from otherwise applying for reimbursement for an unpaid judgment pursuant to RCW 43.31.605(1) ~~((e))~~ (b) after the tenant defaults on a payment plan ordered pursuant to (c) of this subsection.

~~((vi) ((For the period extending one year beyond the expiration of the eviction moratorium, if))~~ If a tenant demonstrates an ability to pay in order to reinstate the tenancy by means of disbursement through the landlord mitigation program account established within RCW 43.31.605(1) ~~((e))~~ (b):

(A) Any restrictions imposed under (d) of this subsection do not apply in determining if a tenant is eligible for reinstatement under this subsection (3); and

(B) Reimbursement on behalf of the tenant to the landlord under RCW 43.31.605(1) ~~((e))~~ (b) may include up to three months of prospective rent to stabilize the tenancy as determined by the court.

(4) If a tenant seeks to stay a writ of restitution issued pursuant to this chapter, the court may issue an ex parte stay of the writ of restitution provided the tenant or tenant's attorney submits a declaration indicating good faith efforts were made to notify the other party or, if no efforts were made, why notice could not be provided prior to the application for an ex parte stay, and describing the immediate or irreparable harm that may result if an immediate stay is not granted. The court shall require service of the order and motion to stay the writ of restitution by personal delivery, mail, facsimile, or other means most likely to afford all parties notice of the court date.

(5) In all other cases the judgment may be enforced immediately. If a writ of restitution shall have been executed prior to judgment no further writ or execution for the premises shall be required.

(6) This section also applies if the writ of restitution is issued pursuant to a final judgment entered after a show cause hearing conducted in accordance with RCW 59.18.380.

(ii) A board of directors formed under this subsection must have an equal number of members representing each city or town participating in the public facilities district. If there are unfilled board member positions after each city or town has appointed an equal number of board members, the members so appointed must appoint a number of additional board members necessary to fill any remaining positions. For a board formed under this subsection to submit a proposition to the voters under RCW 82.14.048, a majority of the members representing or appointed by each legislative authority participating in the public facilities district must agree to submit the proposition to the voters (~~however, the board may not submit a proposition to the voters prior to January 1, 2011~~).

(5) A public facilities district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically

subsection, to acquire, construct, own, remodel, maintain, equip, reequip, repair, finance, and operate one or more recreational facilities other than a ski area;

(iii) Possesses all of the powers with respect to recreational facilities other than a ski area that all public facilities districts possess with respect to regional centers.

(d) A public facilities district created under RCW 35.57.010(1)(f) is authorized, in lieu of the authority granted under (a) of this subsection, to acquire, construct, own, remodel, maintain, equip, reequip, repair, finance, and operate regional aquatics and sports facilities, including the purchase, acquisition, construction, repairing, remodeling, and operation of community pools within the district. Additionally, a public facilities district created under RCW 35.57.010(1)(f) may provide funding for transportation improvements directly associated with facilitating motor vehicle and pedestrian access to regional aquatics and sports facilities, which includes funding for new construction, reconstruction, expansion, and maintenance of pedestrian trails, city streets, county roads, and state highways. However, the transportation improvements must be aligned with applicable state, regional, or local transportation plans.

(2) A public facilities district may enter into contracts with any city or town for the purpose of exercising any powers of a community renewal agency under chapter 35.81 RCW.

(3) A public facilities district may impose charges and fees for the use of its facilities, and may accept and expend or use gifts, grants, and donations for the purpose of a regional center.

(7) A city or town in conjunction with any special agency, authority, or other district established by a county or any other governmental agency is authorized to use the supplemental alternative public works contracting procedures set forth in chapter 39.10 RCW in connection with the design, construction, reconstruction, remodel, or alteration of any regional

center funded in whole or in part by a public facilities district.

(8) Any provision required to be submitted for voter approval under this section((7)) may not be submitted for voter approval prior to January 1, 2011.

**Sec. 3.** RCW 82.14.048 and 2012 c 4 s 6 are each amended to read as follows:

(1) The following definitions apply throughout this section unless the context clearly requires otherwise.

(a) "Distressed public facilities district" means a public facilities district that has defaulted on bond anticipation notes or bonds in excess of forty million dollars on or before April 1, 2012; and

(b) "Anchor jurisdiction" means a city that has entered into an agreement to form a public facilities district under RCW 35.57.010(1)(c) that constitutes a distressed public facilities district under this chapter and in which the largest asset of such public facilities district is located.

(2)(a) The governing board of a public facilities district under chapter 36.100 or 35.57 RCW may submit an authorizing proposition to the voters of the district, and if the proposition is approved by a majority of persons voting, impose a sales and use tax in accordance with the terms of this chapter.

(b) In addition to the tax authorized pursuant to (a) of this subsection and in addition to any other authority conferred by law, the legislative authority of an anchor jurisdiction may impose a sales and use tax within the geographical boundaries of the anchor jurisdiction in accordance with the terms of this chapter without submitting an authorizing proposition to the voters of the anchor jurisdiction or the distressed public facilities district.

(3) The tax authorized in this section is in addition to any other taxes authorized by law and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the public facilities district. The rate of tax may not exceed two-tenths of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax. A public facilities district formed under RCW 35.57.010(1)(e) may not impose the tax authorized under this section at a rate that exceeds two-tenths of one percent minus the rate of the highest tax authorized by this section that is imposed by any other public facilities district within its boundaries. A public facilities district formed under RCW 35.57.010(1)(f) may impose the tax authorized under this section at a rate of not more than two-tenths of one percent regardless of the tax imposed under this section by any other public facilities district within its boundaries. An anchor jurisdiction may impose the tax authorized by subsection (2)(b) of this section at a rate not to exceed two-tenths of one percent, regardless of whether any other public facilities district (including a distressed public facilities district) within its boundaries imposes the tax

authorized by this section or the rate of such tax imposed by the public facilities district. If a public facilities district formed under RCW 35.57.010(1)(e) has imposed a tax under this section and issued or incurred obligations pledging that tax, so long as those obligations are outstanding no other public facilities district within its boundaries may thereafter impose a tax under this section at a rate that would reduce the rate of the tax that was pledged to the repayment of those obligations. A public facilities district that imposes a tax under this section is responsible for the payment of any costs incurred for the purpose of administering the provisions of this section, RCW 35.57.010(1)(e), and 35.57.020(1)(b), including any administrative costs associated with the imposition of the tax under this section incurred by either the department of revenue or local government, or both.

(4)(a) Moneys received by a public facilities district from any tax imposed by the public facilities district under the authority of this section must be used for the purpose of providing funds for the costs associated with the financing, refinancing, design, acquisition, construction, equipping, operating, maintaining, remodeling, repairing, and reequipping of its public facilities, and for transportation improvements directly associated with facilitating motor vehicle and pedestrian access to its public facilities to the extent allowed in RCW 35.57.020(1)(d).

(b) Moneys received by an anchor jurisdiction from any tax imposed by the anchor jurisdiction under the authority of this section must be used for the purpose of providing funds for the costs associated with the financing, refinancing, design, acquisition, construction, equipping, operating, maintaining, remodeling, repairing, and reequipping of the public facilities of the distressed public facilities district, and for all litigation, investigation, and related costs and expenses incurred by the anchor jurisdiction toward resolving matters related to the defaults of the distressed public facilities district. To the extent the distressed public facilities district owes money to an anchor jurisdiction, the anchor jurisdiction may apply money from the sales tax imposed under this section to any such obligations. Any sales tax imposed by an anchor jurisdiction under this section must terminate no later than thirty years after it is first imposed."

(d) Witnesses must be allowed fees and mileage each way to and from any inquiry, investigation, hearing, or proceeding at the rate authorized by RCW 34.05.446. Fees need not be paid in advance of appearance of witnesses to testify or to produce books, records, or other legal evidence.

(e) In case of disobedience of any person to comply with the order of the board or a subpoena issued by the board, or any of its members, or administrative law judges, or on the refusal of a witness to testify to any matter regarding which he or she may be lawfully interrogated, the judge of the superior court of the county in which the person resides, on application of any member of the board or administrative law judge, compels obedience by contempt proceedings, as in the case of disobedience of the requirements of a subpoena issued from said court or a refusal to testify therein.

(3) Upon receipt of notice of the suspension or cancellation of a license, the licensee must forthwith deliver up the license to the board. Where the license has been suspended only, the board must return the license to the licensee at the expiration or termination of the period of suspension. The board must notify all other licensees in the county where the subject licensee has its premises of the suspension or cancellation of the license; and no other licensee or employee of another licensee may allow or cause any cannabis, cannabis concentrates, useable cannabis, or cannabis-infused products to be delivered to or for any person at the premises of the subject licensee.

(4) Every license issued under this chapter is subject to all conditions and restrictions imposed by this chapter or by rules adopted by the board to implement and enforce this chapter. All conditions and restrictions imposed by the board in the issuance of an individual license must be listed on the face of the individual license along with the trade name, address, and expiration date.

(5) Every licensee must post and keep posted its license, or licenses, in a conspicuous place on the premises.

(6) No licensee may employ any person under the age of (~~twenty-one~~)21 years.

(7)(a) Before the board issues a new or renewed license to an applicant it must give notice of the application to the chief executive officer of the incorporated city or town, if the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns, or to the tribal government if the application is for a license within Indian country, or to the port authority if the application for a license is located on property owned by a port authority.

(b) The incorporated city or town through the official or employee selected by it, the county legislative authority or the official or employee selected by it, the tribal government, or port authority has the right to file with the board within twenty days after the date of transmittal of the notice for applications, or at least thirty days prior to the expiration date for renewals, written objections against the applicant or against the premises for which the new or renewed license is asked. The board may extend the time period for submitting written objections upon request from the authority notified by the board.

(c) The written objections must include a statement of all facts upon which the objections are based, and in case written objections are filed, the city or town or county legislative authority may request, and the board may in its discretion hold, a hearing subject to the applicable provisions of Title 34 RCW. If the board makes an initial decision to deny a license or renewal based on the written objections of an incorporated city or town or county legislative authority, the applicant may request a hearing subject to the applicable provisions of Title 34 RCW. If a hearing is held at the request of the applicant, board

representatives must present and defend the board's initial decision to deny a license or renewal.

(d) Upon the granting of a license under this title the board must send written notification to the chief executive officer of the incorporated city or town in which the license is granted, or to the county legislative authority if the license is granted outside the boundaries of incorporated cities or towns.

(8) (a) Except as provided in (b) through (e) of this subsection, the board may not issue a license for any premises within ~~((one thousand))~~ 1,000 feet of the perimeter of the grounds of any elementary or secondary school, playground, recreation center or facility, child care center, public park, public transit center, or library, or any game arcade admission to which is not restricted to persons aged ~~((twenty-one))~~ 21 years or older.

(b) A city, county, or town may permit the licensing of premises within ~~((one thousand))~~ 1,000 feet but not less than ~~((one hundred))~~ 100 feet of the facilities described in (a) of this subsection, except elementary schools, secondary schools, and playgrounds, by enacting an ordinance authorizing such distance reduction, provided that such distance reduction will not negatively impact the jurisdiction's civil regulatory enforcement, criminal law enforcement interests, public safety, or public health.

(c) A city, county, or town may permit the licensing of research premises allowed under RCW 69.50.372 within ~~((one thousand))~~ 1,000 feet but not less than ~~((one hundred))~~ 100 feet of the facilities described in (a) of this subsection by enacting an ordinance authorizing such distance reduction, provided that the ordinance will not negatively impact the jurisdiction's civil regulatory enforcement, criminal law enforcement, public safety, or public health.

(d) The board may license premises located in compliance with the distance requirements set in an ordinance adopted under (b) or (c) of this subsection. Before issuing or renewing a research license for premises within ~~((one thousand))~~ 1,000 feet but not less than ~~((one hundred))~~ 100 feet of an elementary school, secondary school, or playground in compliance with an ordinance passed pursuant to (c) of this subsection, the board must ensure that the facility:

(i) Meets a security standard exceeding that which applies to cannabis producer, processor, or retailer licensees;

(ii) Is inaccessible to the public and no part of the operation of the facility is in view of the general public; and

(iii) Bears no advertising or signage indicating that it is a cannabis research facility.

(e) The board must issue a certificate of compliance if the premises met the requirements under (a), (b), (c), or (d) of this subsection on the date of the application. The certificate allows the licensee to operate the business at the proposed location notwithstanding a later occurring, otherwise disqualifying factor.

(f) The board may not issue a license for any premises within Indian country, as defined in 18 U.S.C. Sec. 1151, including any fee patent lands within the exterior boundaries of a reservation, without the consent of the federally recognized tribe associated with the reservation or Indian country.

(9) A city, town, or county may adopt an ordinance prohibiting a cannabis producer or cannabis processor from operating or locating a business within areas zoned primarily for residential use or rural use with a minimum lot size of five acres or smaller.

(10) In determining whether to grant or deny a license or renewal of any license, the board must give substantial weight to objections from an incorporated city or town or county legislative authority based upon chronic illegal activity associated with the applicant's operations of the premises proposed to be licensed or the applicant's operation of any other licensed premises, or the conduct of the applicant's patrons inside or outside the licensed premises. "Chronic illegal activity" means (a) a pervasive pattern of activity that threatens the public health, safety, and welfare of the city, town, or county including, but not limited to, open container violations, assaults, disturbances, disorderly conduct, or other criminal law violations, or as documented in crime statistics, police reports, emergency medical response data, calls for service, field data, or similar records of a law enforcement agency for the city, town, county, or any other municipal corporation or any state agency; or (b) an unreasonably high number of citations for violations of RCW 46.61.502 associated with the applicant's or licensee's operation of any licensed premises as indicated by the reported statements given to law enforcement upon arrest.

(11) The board may not issue a cannabis retail license for any premises not currently licensed if:

(a) The board receives a written objection from the legislative authority of an incorporated city or town, or county legislative authority, relating to the physical location of the proposed premises;

(b) The objection to the location from the incorporated city or town, or county legislative authority, is received by the board within 20 days of the board notifying the incorporated city or town, or county legislative authority, of the proposed cannabis retail location; and

(c) The objection to the issuance of a cannabis retail license at the specified location is based on a preexisting local ordinance limiting outlet density in a specific geographic area. For purposes of this subsection (11), a preexisting local ordinance is an ordinance enacted and in effect before the date the applicant submits an application for a cannabis retail license to the board identifying the premises proposed to be licensed. No objection related to the physical location of a proposed premises may be made by a local government under this subsection (11) based on a local ordinance enacted after the date the applicant submits an application for a

cannabis retail license to the board identifying the premises proposed to be licensed.

(12) After January 1, 2024, all cannabis licensees are encouraged but are not required to submit a social equity plan to the board. Upon confirmation by the board that a cannabis licensee who is not a social equity applicant, and who does not hold a social equity license issued under RCW 69.50.335, has submitted a social equity plan, the board must within 30 days reimburse such a licensee an amount equal to the cost of the licensee's annual cannabis license renewal fee. The license renewal fee reimbursement authorized under this subsection is subject to the following limitations:

(a) The board may provide reimbursement one time only to any licensed entity; and

(b) Any licensed entity holding more than one cannabis license is eligible for reimbursement of the license renewal fee on only one license.

**Sec. 3.** RCW 69.50.335 and 2022 c 16 s 60 are each amended to read as follows:

(d) In addition to the cannabis retailer licenses that may be issued under (a) of this subsection, beginning January 1, 2024, and until July 1, 2032, the board may issue up to 52 cannabis retailer licenses for the social equity program.

(e)(i) At the time of licensure, all licenses issued under the social equity

program under this section may be located in any city, town, or county in the state that allows cannabis retail, cannabis production, or cannabis processing business activities, as applicable, at the proposed location, regardless of:

(B) The maximum number of retail cannabis licenses established by the board for each county under RCW 69.50.345.

(ii) The board must adopt rules establishing a threshold of the number of licenses created by this section that can be located in each county.

(b) Persons holding an existing cannabis retailer license or title certificate for a cannabis retailer business in a local jurisdiction subject to a ban or moratorium on cannabis retail businesses may apply for a license under this section.

(3)(a) In determining the priority for issuance of a license among applicants, the board ((may prioritize applicants based on the extent to which the application addresses the components of the social equity plan))must select a third-party contractor to identify and score social equity applicants, using a scoring rubric developed by the board. The board must rely on the score provided by the third-party contractor in issuing licenses.

(b) The board may deny any application submitted under this subsection if ((the)):

(ii) The board determines the application does not otherwise meet licensing requirements.

(4) The board ((may))must adopt rules to implement this section. ((Rules may include strategies for receiving))Prior to adopting any rule implementing this section, the

board must consider advice on the social equity program from individuals the program is intended to benefit. Rules may also require that licenses awarded under this section only be transferred to or (~~sold only to~~) assumed by individuals or groups of individuals who comply with the requirements for initial licensure as a social equity applicant (~~(with a social equity plan under this section)~~) for a period of at least five years from the date of initial licensure.

(5) The annual fee for issuance, reissuance, or renewal for any license under this section must be (~~equal to the fee established in RCW 69.50.325~~) waived through July 1, 2032.

After January 1, 2017, any reconsideration of the maximum number of retail outlets needed to meet the medical needs of qualifying patients must consider information contained in the medical cannabis authorization database established in RCW 69.51A.230.

(b) (i) In making the determination under (a) of this subsection, the board must consider written input from an incorporated city or town, or county legislative authority when evaluating concerns related to outlet density.

(8) In consultation with the department of agriculture and the department, establishing classes of cannabis, cannabis concentrates, useable cannabis, and cannabis infused products according to grade, condition, cannabinoid profile, THC concentration, CBD concentration, or other qualitative measurements deemed appropriate by the board;

(9) Establishing reasonable time, place, and manner restrictions and requirements regarding advertising of cannabis, cannabis

concentrates, useable cannabis, and cannabis-infused products that are not inconsistent with the provisions of this chapter, taking into consideration:

(a) Federal laws relating to cannabis that are applicable within Washington state;

(b) Minimizing exposure of people under twenty-one years of age to the advertising;

(c) The inclusion of medically and scientifically accurate information about the health and safety risks posed by cannabis use in the advertising; and

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** INTENT. The legislature finds that:

(1) It is in the public interest of the citizens of Washington to encourage the recovery and reuse of materials, such as metals, that replace the output of mining and other extractive industries.

(2) Without a dedicated battery stewardship program, battery user confusion regarding proper disposal options will continue to persist.

(3) Ensuring the proper handling, recycling, and end-of-life management of used batteries prevents the release of toxic materials into the environment and removes materials from the waste stream that, if mishandled, may present safety concerns to workers, such as by igniting fires at solid waste handling facilities. For this reason, batteries should not be placed into commingled recycling containers or disposed of via traditional garbage collection containers.

(4) Jurisdictions around the world have successfully implemented battery stewardship laws that have helped address the challenges posed by the end-of-life management of batteries. Because it is difficult for customers to differentiate between types and chemistries of batteries, it is the best practice for battery stewardship programs to collect all battery types and chemistries. Furthermore, it is appropriate for larger batteries used in emerging market sectors such as electric vehicles, solar power arrays, and data centers, to be managed to ensure environmentally positive outcomes similar to those achieved by a battery stewardship program, both because of the potential economic value of large batteries used for these purposes and the anticipated profusion of these larger batteries as these market sectors mature.

(ii) A manner consistent with the battery management hierarchy, including how each proposed facility used for the final disposition of batteries will recycle or otherwise manage batteries;

(n) Details how the program will achieve a recycling efficiency rate, calculated consistent with section 10 of this act, of at least 60 percent for rechargeable batteries and at least 70 percent for primary batteries; and

(o) Proposes goals for increasing public awareness of the program, including subgoals applicable to public awareness of the program in vulnerable populations and overburdened communities identified by the department under chapter 70A.02 RCW, and describes how the public education and outreach components of the program under section 9 of this act will be implemented.

(2) If required by the department, a battery stewardship organization must submit a new plan to the department for approval:

(a) If there are significant changes to the methods of collection, transport, or end-of-life management of covered batteries under section 8 of this act that are not covered by the plan. The department may, by rule, identify the types of significant changes that require a new plan to be submitted to the department for approval. For purposes of this subsection, adding or removing a processor or transporter under the plan is not considered a significant change that requires a plan resubmittal;

(b) To address the novel inclusion of medium format batteries or large format batteries as covered batteries under the plan; and

(c) No less than every five years.

(3) If required by the department, a battery stewardship organization must provide plan amendments to the department for approval:

(a) When proposing changes to the performance goals under section 6 of this act based on the up-to-date experience of the program;

(b) When there is a change to the method of financing plan implementation under section 7 of this act. This does not include changes to the fees or fee structure established in the plan; or

(c) When adding or removing a processor or transporter, as part of a quarterly update submitted to the department.

(4) As part of a quarterly update, a battery stewardship organization must notify the department after a producer begins or ceases to participate in a battery stewardship organization. The quarterly update submitted to the department must also include a current list of the producers and brands participating in the plan.

(5) No earlier than five years after the initial approval of a plan, the department may require a battery stewardship organization to submit a revised plan, which

may include improvements to the collection site network or increased expenditures dedicated to education and outreach if the approved plan has not met the performance goals under section 6 of this act.

**NEW SECTION. Sec. 6. STEWARDSHIP PROGRAM COMPONENTS—PERFORMANCE GOALS.** (1) Each battery stewardship plan must include performance goals that measure, on an annual basis, the achievements of the program. Performance goals must take into consideration technical feasibility and economic practicality in achieving continuous, meaningful progress in improving:

(a) The rate of battery collection for recycling in Washington;

(b) The recycling efficiency of the program; and

(c) Public awareness of the program.

(2) The performance goals established in each battery stewardship plan must include, but are not limited to:

(a) Target collection rates;

(b) Target recycling efficiency rates of at least 60 percent for rechargeable batteries and at least 70 percent for primary batteries; and

(c) Goals for public awareness, convenience, and accessibility that meet or exceed the minimum requirements established in section 8 of this act.

**NEW SECTION. Sec. 7. STEWARDSHIP PROGRAM COMPONENTS—FUNDING.** (1) Each battery stewardship organization must ensure adequate funding is available to fully implement approved battery stewardship plans, including the implementation of aspects of the plan addressing:

(a) Battery collection, transporting, and processing;

(b) Education and outreach;

(c) Program evaluation; and

(d) Payment of the administrative fees to the department under section 11 of this act.

(2) A battery stewardship organization implementing a battery stewardship plan on behalf of producers must develop, and continually improve over the years of program implementation, a system to collect charges from participating producers to cover the costs of plan implementation in an environmentally sound and socially just manner that encourages the use of design attributes that reduce the environmental impacts of covered batteries, such as through the use of eco-modulated fees. Examples of fee structures that meet the requirements of this subsection include using eco-modulated fees to:

(a) Encourage designs intended to facilitate reuse and recycling;

(b) Encourage the use of recycled content;

(c) Discourage the use of problematic materials that increase system costs of managing covered batteries; and

(d) Encourage other design attributes that reduce the environmental impacts of covered batteries.

(3) (a) Each battery stewardship organization is responsible for all costs of

participating covered battery collection, transportation, processing, education, administration, agency reimbursement, recycling, and end-of-life management in accordance with the battery management hierarchy and environmentally sound management practices.

(b) Each battery stewardship organization must meet the collection goals as specified in section 5 of this act.

(c) A battery stewardship organization is not authorized to reduce or cease collection, education and outreach, or other activities implemented under an approved plan based on achievement of program performance goals.

(4) (a) A battery stewardship organization must reimburse local governments for demonstrable costs, as defined by rules adopted by the department, incurred as a result of a local government facility or solid waste handling facility serving as a collection site for a program including, but not limited to, associated labor costs and other costs associated with accessibility and collection site standards such as storage.

(b) A battery stewardship organization shall at a minimum provide collection sites with appropriate containers for covered batteries subject to its program, training, signage, safety guidance, and educational materials, at no cost to the collection sites.

(c) A battery stewardship organization must include in its battery stewardship plan a template of the service agreement and any other forms, contracts, or other documents for use in distribution of reimbursements. The service agreement template must be developed with local government input. The entities seeking or receiving reimbursement from the battery stewardship organization are not required to use the template agreement included in the program plan and are not limited to the terms of the template agreement included in the program plan.

**NEW SECTION. Sec. 8. STEWARDSHIP PROGRAM COMPONENTS—COLLECTION AND MANAGEMENT REQUIREMENTS.** (1) Battery stewardship organizations implementing a battery stewardship plan must provide for the collection of all covered batteries, including all chemistries and brands of covered batteries, on a free, continuous, convenient, visible, and accessible basis to any person, business, government agency, or nonprofit organization. Except as provided in subsection (2)(b) of this section, each battery stewardship plan must allow any person, business, government agency, or nonprofit organization to discard each chemistry and brand of covered battery at each collection site that counts towards the satisfaction of the collection site criteria in subsection (3) of this section.

(2) (a) For each collection site utilized by the program, each battery stewardship organization must provide suitable collection containers for covered batteries that are segregated from other solid waste or make mutually agreeable alternative arrangements for the collection of batteries at the site. The location of collection

containers at each collection site used by the program must be within view of a responsible person and must be accompanied by signage made available to the collection site by the battery stewardship organization that informs customers regarding the end-of-life management options for batteries provided by the collection site under this chapter. Each collection site must adhere to the operations manual and other safety information provided to the collection site by the battery stewardship organization.

(b) Medium format batteries may only be collected at household hazardous waste collection sites or other sites that are staffed by persons who are certified to handle and ship hazardous materials under federal regulations adopted by the United States department of transportation pipeline and hazardous materials safety administration.

(c)(i) Damaged and defective batteries are intended to be collected at collection sites staffed by persons trained to handle and ship those batteries.

(ii) Each battery stewardship organization must provide for collection of damaged and defective batteries in each county of the state, either through collection sites or collection events with qualified staff as specified in (c)(i) of this subsection. Collection events should be provided periodically throughout the year where practicable, but must be provided at least once per year at a minimum, in each county in which there are not permanent collection sites providing for the collection of damaged and defective batteries.

(iii) As used in this subsection, "damaged and defective batteries" means batteries that have been damaged or identified by the manufacturer as being defective for safety reasons, that have the potential of producing a dangerous evolution of heat, fire, or short circuit, as referred to in 49 C.F.R. Sec. 173.185(f) as of January 1, 2023, or as updated by the department by rule to maintain consistency with federal standards.

(3)(a) Each battery stewardship organization implementing a battery stewardship plan shall ensure statewide collection opportunities for all covered batteries. Battery stewardship organizations shall coordinate activities with other program operators, including covered battery collection and recycle programs and electronic waste recyclers, with regard to the proper management or recycling of collected covered batteries, for purposes of providing the efficient delivery of services and avoiding unnecessary duplication of effort and expense. Statewide collection opportunities must be determined by geographic information modeling that considers permanent collection sites. A program may rely, in part, on collection events to supplement the permanent collection services required in (a) and (b) of this subsection. However, only permanent collection services specified in (a) and (b) of this subsection qualify towards the satisfaction of the requirements of this subsection.

(b) For portable batteries, each battery stewardship organization must provide statewide collection opportunities that include, but are not limited to, the provision of:

(i) At least one permanent collection site for portable batteries within a 15 mile radius for at least 95 percent of Washington residents;

(ii) The establishment of collection sites that are accessible and convenient to overburdened communities identified by the department under chapter 70A.02 RCW, in an amount that is roughly proportional to the number and population of overburdened communities identified by the department under chapter 70A.02 RCW relative to the population or size of the state as a whole;

(iii) At least one permanent collection site for portable batteries in addition to those required in (b)(i) of this subsection for every 30,000 residents of each urban area in this state. For the purposes of compliance with this subsection (3)(b)(iii), a battery stewardship organization and the department may rely upon new or updated designations of urban locations by the United States census bureau that are determined by the department to be similar to the definition of urban areas in section 2 of this act;

(iv) Collection opportunities for portable batteries at special locations where batteries are often spent and replaced, such as supervised locations at parks with stores and campgrounds; and

(v) Service to areas without a permanent collection site, including service to island and geographically isolated communities without a permanent collection site.

(c) For medium format batteries, a battery stewardship organization must provide statewide collection opportunities that include, but are not limited to, the provision of:

(i) At least 25 permanent collection sites in Washington;

(ii) Reasonable geographic dispersion of collection sites throughout the state;

(iii) A collection site in each county of at least 200,000 persons, as determined by the most recent population estimate of the office of financial management;

(iv) The establishment of collection sites that are accessible to public transit and that are convenient to overburdened communities identified by the department under chapter 70A.02 RCW; and

(v) Service to areas without a permanent collection site, including service to island and geographically isolated communities. A battery stewardship organization must ensure that there is a collection site or annual collection event in each county of the state. Collection events should be provided periodically throughout the year where practicable, but must be provided at least once per year at a minimum in each county in which there are not permanent collection sites providing for the collection of damaged and defective batteries.

(4)(a) Battery stewardship programs must use existing public and private waste collection services and facilities, including battery collection sites that are established through other battery collection

services, transporters, consolidators, processors, and retailers, where cost-effective, mutually agreeable, and otherwise practicable.

(b) (i) Battery stewardship programs must use as a collection site for covered batteries any retailer, wholesaler, municipality, solid waste management facility, or other entity that meets the criteria for collection sites in the approved plan, upon the submission of a request by the entity to the battery stewardship organization to serve as a collection site.

(ii) Battery stewardship programs must use as a site for a collection event for covered batteries any retailer, wholesaler, municipality, solid waste management facility, or other entity that meets the criteria for collection events in the approved plan, upon the submission of a request by the entity to the battery stewardship organization to serve as a site for a collection event. An agreement between a battery stewardship organization and the entity requesting to hold a collection event must be established at least 60 days prior to any collection of covered batteries under a stewardship program. All costs associated with collection events initiated by an entity other than a battery stewardship organization are the sole responsibility of the entity unless otherwise agreed upon by a battery stewardship organization. A collection event under this subsection (4) (b) (ii) must allow any person to discard each chemistry and brand of covered battery at the collection event.

(c) An entity that operates a temporary collection event for a stewardship program may retain collected materials if the collected materials are collected, transported, and processed at the expense of the entity and in a manner that meet the standards established for the battery stewardship organization in the plan approved by the department, including processing of collected materials at a facility approved under the battery stewardship organization plan. An entity that retains collected materials must report, to the battery stewardship organization, information necessary for the battery stewardship organization to fulfill its reporting obligations under section 10 of this act. A battery stewardship organization may count materials collected by an entity under this subsection (4) (c) towards the achievement of performance requirements established in section 6 of this act.

(d) A local government facility may collect batteries through a collection site or temporary collection event that is not a collection site or event under the program implemented by a battery stewardship organization. A local government facility that collects covered batteries under this subsection must collect each chemistry and brand of covered battery at its collection site or sites, and must collect, transport, and process collected materials in a manner that meets the standards established for the battery stewardship organization in the plan approved by the department. A local government facility that collects materials

at a collection site or temporary collection event operating outside of a battery stewardship program must report, to a battery stewardship organization, information necessary for the battery stewardship organization to fulfill its reporting obligations under section 10 of this act. A battery stewardship organization may count materials collected by a local government facility under this subsection (4) (d) towards the achievement of performance requirements established in section 6 of this act.

(e) A battery stewardship organization may suspend or terminate a collection site or service that does not adhere to the collection site criteria in the approved plan and that poses an immediate health and safety concern.

(5) (a) Stewardship programs are not required to provide for the collection of battery-containing products.

(b) Stewardship programs are not required to provide for the collection of batteries that:

(i) Are not easily removable from the product other than by the manufacturer; and

(ii) Remain contained in a battery-containing product at the time of delivery to a collection site.

(c) Stewardship programs are required to provide for the collection of loose batteries.

(d) Stewardship programs are not required to provide for the collection of batteries still contained in covered electronic products under chapter 70A.500 RCW.

(6) Batteries collected by the program must be managed consistent with the battery management hierarchy. Lower priority end-of-life battery management options on the battery management hierarchy may be used by a program only when a battery stewardship organization documents to the department that all higher priority battery management options on the battery management hierarchy are not technologically feasible or economically practical.

**NEW SECTION. Sec. 9. STEWARDSHIP PROGRAM COMPONENTS—EDUCATION AND OUTREACH REQUIREMENTS.** (1) Each battery stewardship organization must carry out promotional activities in support of plan implementation including, but not limited to, the development:

(a) And maintenance of a website;

(b) And distribution of periodic press releases and articles;

(c) And placement of advertisements for use on social media or other relevant media platforms;

(d) Of promotional materials about the program and the restriction on the disposal of covered batteries in section 15 of this act to be used by retailers, government agencies, and nonprofit organizations;

(e) And distribution of collection site safety training procedures that are in compliance with state law to collection sites to help ensure proper management of covered batteries at collection sites; and

(f) And implementation of outreach and educational resources targeted to overburdened communities and vulnerable

populations identified by the department under chapter 70A.02 RCW that are conceptually, linguistically, and culturally accurate for the communities served and reach the state's diverse ethnic populations, including through meaningful consultation with communities that bear disproportionately higher levels of adverse environmental and social justice impacts.

(2) Each battery stewardship organization must provide:

(a) Consumer-focused educational promotional materials to each collection site used by the program and accessible by customers of retailers that sell covered batteries or battery-containing products; and

(b) Safety information related to covered battery collection activities to the operator of each collection site, including appropriate protocols to reduce risks of spills or fires and response protocols in the event of a spill or fire.

(3) (a) Each battery stewardship organization must provide educational materials to the operator of each collection site for the management of recalled batteries, which are not intended to be part of collection as provided under section 8 of this act, to help facilitate transportation and processing of recalled batteries.

(b) A battery stewardship organization may seek reimbursement from the producer of the recalled battery for expenses incurred in the collection, transportation, or processing of those batteries.

(4) Upon request by a retailer, the battery stewardship organization must provide the retailer educational materials describing collection opportunities for batteries.

(5) If multiple battery stewardship organizations are implementing plans approved by the department, the battery stewardship organizations must coordinate in carrying out their education and outreach responsibilities under this section and must include in their annual reports to the department under section 10 of this act a summary of their coordinated education and outreach efforts.

(6) During the first year of program implementation and every five years thereafter, each battery stewardship organization must carry out a survey of public awareness regarding the requirements of the program established under this chapter, including the provisions of section 15 of this act. Each battery stewardship organization must share the results of the public awareness surveys with the department.

**NEW SECTION. Sec. 10. REPORTING REQUIREMENTS.** (1) By June 1, 2028, and each June 1st thereafter, each battery stewardship organization must submit an annual report to the department covering the preceding calendar year of battery stewardship plan implementation. The report must include:

(a) An independent financial assessment of a program implemented by the battery stewardship organization, including a breakdown of the program's expenses, such as

collection, recycling, education, and overhead, when required by the department;

(b) A summary financial statement documenting the financing of a battery stewardship organization's program and an analysis of program costs and expenditures, including an analysis of the program's expenses, such as collection, transportation, recycling, education, and administrative overhead. The summary financial statement must be sufficiently detailed to provide transparency that funds collected from producers as a result of their activities in Washington are spent on program implementation in Washington. Battery stewardship organizations implementing similar battery stewardship programs in multiple states may submit a financial statement including all covered states, as long as the statement breaks out financial information pertinent to Washington;

(c) The weight, by chemistry, of covered batteries collected under the program;

(d) The weight of materials recycled from covered batteries collected under the program, in total, and by method of battery recycling;

(e) A calculation of the recycling efficiency rates, as measured consistent with subsection (2) of this section;

(f) For each facility used for the final disposition of batteries, a description of how the facility recycled or otherwise disposed of batteries and battery components;

(g) The weight and chemistry of batteries sent to each facility used for the final disposition of batteries. The information in this subsection (1)(g) may be approximated for program operations in Washington based on extrapolations of national or regional data for programs in operation in multiple states;

(h) The collection rate achieved under the program, including a description of how this collection rate was calculated;

(i) The estimated aggregate sales, by weight and chemistry, of batteries and batteries contained in or with battery-containing products sold in Washington by participating producers for each of the previous three calendar years;

(j) A description of the manner in which the collected batteries were managed and recycled, including a discussion of best available technologies and the recycling efficiency rate;

(k) A description of education and outreach efforts supporting plan implementation including, but not limited to, a summary of education and outreach provided to consumers, collection sites, manufacturers, distributors, and retailers by the program operator for the purpose of promoting the collection and recycling of covered batteries, a description of how that education and outreach met the requirements of section 9 of this act, samples of education and outreach materials, a summary of coordinated education and outreach efforts with any other battery stewardship organizations implementing a plan approved by the department, and a summary of any changes made during the previous calendar year to education and outreach activities;

(l) A list of all collection sites and accompanying latitude and longitude data and an address for each listed site, and an up-to-date map indicating the location of all collection sites used to implement the program, with links to appropriate websites where there are existing websites associated with a site;

(m) A description of methods used to collect, transport, and recycle covered batteries by the battery stewardship organization;

(n) A summary on progress made towards the program performance goals established under section 6 of this act, and an explanation of why performance goals were not met, if applicable; and

(o) An evaluation of the effectiveness of education and outreach activities.

(2) The weight of batteries or recovered resources from those batteries must only be counted once and may not be counted by more than one battery stewardship organization.

(3) In addition to the requirements of subsection (1) of this section, with respect to each facility used in the processing or disposition of batteries collected under the program, the battery stewardship organization must report:

(a) Whether the facility is located domestically, in an organization for economic cooperation and development country, or in a country that meets organization for economic cooperation and development operating standards; and

(b) What facilities processed the batteries, including a summary of any violations of environmental or labor laws and regulations over the previous three years at each facility.

(4) If a battery stewardship organization has disposed of covered batteries through energy recovery, incineration, or landfilling during the preceding calendar year of program implementation, the annual report must specify the steps that the battery stewardship organization will take to make the recycling of covered batteries cost-effective, where possible, or to otherwise increase battery recycling rates achieved by the battery stewardship organization.

(5) A producer or battery stewardship organization that submits information or records to the department under this chapter may request that the information or records be made available only for the confidential use of the department, the director of the department, or the appropriate division of the department. The director of the department must consider the request and if this action is not detrimental to the public interest and is otherwise in accordance with the policies and purposes of chapter 43.21A RCW, the director must grant the request for the information to remain confidential as authorized in RCW 43.21A.160.

**NEW SECTION. Sec. 11. FEE AND DEPARTMENT OF ECOLOGY ROLE.** (1) The department must adopt rules as necessary for the purpose of implementing, administering, and enforcing this chapter. The department must by rule establish fees, to be paid annually by a battery stewardship

organization, that are adequate to cover the department's full costs of implementing, administering, and enforcing this chapter and allocates costs between battery stewardship organizations, if applicable. If the department adopts rules that require producers of certain large format batteries or other battery categories addressed in sections 16 and 17 of this act to participate in a battery stewardship organization regulated by the department, the department may establish fees to be paid annually by a battery stewardship organization that are adequate to cover the department's full costs of implementing, administering, and enforcing the requirements of this chapter applicable to those batteries. All fees must be based on costs related to implementing, administering, and enforcing this chapter, not to exceed expenses incurred by the department for these activities.

(2) The responsibilities of the department in implementing, administering, and enforcing this chapter include, but are not limited to:

(a) Reviewing submitted stewardship plans and plan amendments and making determinations as to whether to approve the plan or plan amendment;

(i) The department must provide a letter of approval for the plan or plan amendment if it provides for the establishment of a stewardship program that meets the requirements of sections 3 through 9 of this act;

(ii) If a plan or plan amendment is rejected, the department must provide the reasons for rejecting the plan to the battery stewardship organization. The battery stewardship organization must submit a new plan within 60 days after receipt of the letter of disapproval; and

(iii) When a plan or an amendment to an approved plan is submitted under this section, the department shall make the proposed plan or amendment available for public review and comment for at least 30 days;

(b) Reviewing annual reports submitted under section 10 of this act within 90 days of submission to ensure compliance with that section;

(c)(i) Maintaining a website that lists producers and their brands that are participating in an approved plan, and that makes available to the public each plan, plan amendment, and annual report received by the department under this chapter;

(ii) Upon the date the first plan is approved, the department must post on its website a list of producers and their brands for which the department has approved a plan. The department must update the list of producers and brands participating under an approved program plan based on information provided to the department from battery stewardship organizations; and

(d) Providing technical assistance to producers and retailers related to the requirements of this chapter and issuing orders or imposing civil penalties authorized under section 12 of this act where the technical assistance efforts do not lead to compliance by a producer or retailer.

(3) Beginning January 1, 2032, and every five years thereafter, after consultation with battery stewardship organizations, the department may by rule increase the minimum recycling efficiency rates established in section 6 of this act based on the most economically and technically feasible processes and methodology available.

**NEW SECTION. Sec. 12. PENALTIES AND CIVIL ACTION PROVISIONS.** (1)(a) A battery stewardship organization implementing an approved plan may bring a civil action or actions to recover costs, damages, and fees, as specified in this section, from a producer who sells or otherwise makes available in Washington covered batteries, battery-containing products, or large format batteries not included in an approved plan in violation of the requirements of this chapter. An action under this section may be brought against one or more defendants. An action may only be brought against a defendant producer when the stewardship program incurs costs in Washington, including reasonable incremental administrative and program promotional costs, in excess of \$1,000 to collect, transport, and recycle or otherwise dispose of the covered batteries, battery-containing products, or large format batteries of a nonparticipating producer.

(b) A battery stewardship organization may bring a civil action against a producer of a recalled battery to recover costs associated with handling a recalled battery.

(c) A battery stewardship organization implementing an approved stewardship plan may bring a civil action against another battery stewardship organization that under performs on its battery collection obligations under this chapter by failing to collect and provide for the end-of-life management of batteries in an amount roughly equivalent to costs imposed on the plaintiff battery stewardship organization by virtue of the failures of the defendants, plus legal fees and expenses.

(d) The remedies provided in this subsection are in addition to the enforcement authority of the department and do not limit and are not limited by a decision by the department to impose a civil penalty or issue an order under subsection (2) of this section. The department is not required to audit, participate in, or provide assistance to a battery stewardship organization pursuing a civil action authorized under this subsection.

(2)(a) The department may administratively impose a civil penalty on a person who violates this chapter in an amount of up to \$1,000 per violation per day.

(b) The department may administratively impose a civil penalty of up to \$10,000 per violation per day on a person for repeated violations of this chapter or failure to comply with an order issued under (c) of this subsection.

(c) Whenever on the basis of any information the department determines that a person has violated or is in violation of this chapter, the department may issue an order requiring compliance. A person who

fails to take corrective action as specified in a compliance order is liable for a civil penalty as provided in (b) of this subsection, without receiving a written warning prescribed in (e) of this subsection.

(d) A person who is issued an order or incurs a penalty under this section may appeal the order or penalty to the pollution control hearings board established by chapter 43.21B RCW.

(e) Prior to imposing penalties under this section, the department must provide a producer, retailer, or battery stewardship organization with a written warning for the first violation by the producer, retailer, or battery stewardship organization of the requirements of this chapter. The written warning must inform a producer, retailer, or battery stewardship organization that it must participate in an approved plan or otherwise come into compliance with the requirements of this chapter within 30 days of the notice. A producer, retailer, or battery stewardship organization that violates a provision of this chapter after the initial written warning may be assessed a penalty as provided in this subsection.

(3) Penalties levied under subsection (2) of this section must be deposited in the model toxics control operating account created in RCW 70A.305.180.

(4) No penalty may be assessed on an individual or resident for the improper disposal of covered batteries as described in section 15 of this act in a noncommercial or residential setting.

**NEW SECTION. Sec. 13. RESPONSIBLE BATTERY MANAGEMENT ACCOUNT.** The responsible battery management account is created in the custody of the state treasurer. All receipts from fees paid under this chapter must be deposited in the account. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Moneys in the account may be used solely by the department for administering, implementing, and enforcing the requirements of this chapter. Funds in the account may not be diverted for any purpose or activity other than those specified in this section.

**NEW SECTION. Sec. 14. MARKING REQUIREMENTS FOR BATTERIES.** (1) Beginning January 1, 2028, a producer or retailer may only sell, distribute, or offer for sale in or into Washington a large format battery, covered battery, or battery-containing product that contains a battery that is designed or intended to be easily removable from the product, if the battery is:

(a) Marked with an identification of the producer of the battery, unless the battery is less than one-half inch in diameter or does not contain a surface whose length exceeds one-half inch; and

(b) Beginning January 1, 2030, marked with proper labeling to ensure proper collection and recycling, by identifying the chemistry of the battery and including an

indication that the battery should not be disposed of as household waste.

(2) A producer shall certify to its customers, or to the retailer if the retailer is not the customer, that the requirements of this section have been met, as provided in section 4 of this act.

(3) The department may amend, by rule, the requirements of subsection (1) of this section to maintain consistency with the labeling requirements or voluntary standards for batteries established in federal law.

**NEW SECTION. Sec. 15. GENERAL BATTERY DISPOSAL AND COLLECTION REQUIREMENTS.** Effective July 1, 2027, for portable batteries and July 1, 2029, for medium format batteries, or the first date on which an approved plan begins to be implemented under this chapter by a battery stewardship organization, whichever comes first:

(1) All persons must dispose of unwanted covered batteries through one of the following disposal options:

(a) Disposal using the collection sites established by or included in the programs created by this chapter;

(b) For covered batteries generated by persons that are regulated generators of covered batteries under federal or state hazardous or solid waste laws, disposal in a manner consistent with the requirements of those laws; or

(c) Disposal using local government collection facilities that collect batteries consistent with section 8(4)(d) of this act.

(2)(a) A fee may not be charged at the time unwanted covered batteries are delivered or collected for management.

(b) All covered batteries may only be collected, transported, and processed in a manner that meets the standards established for a battery stewardship organization in a plan approved by the department, unless the batteries are being managed as described in subsection (1)(b) of this section.

(3) A person may not place covered batteries in waste containers for disposal at incinerators, waste to energy facilities, or landfills.

(4) A person may not place covered batteries in or on a container for mixed recyclables unless there is a separate location or compartment for the covered battery that complies with local government collection standards or guidelines.

(5) An owner or operator of a solid waste facility may not be found in violation of this section if the facility has posted in a conspicuous location a sign stating that covered batteries must be managed through collection sites established by a battery stewardship organization and are not accepted for disposal.

(6) A solid waste collector may not be found in violation of this section for a covered battery placed in a disposal container by the generator of the covered battery.

**NEW SECTION. Sec. 16. DEPARTMENT ASSESSMENT OF LARGE FORMAT BATTERIES, MEDICAL DEVICES, LEAD ACID BATTERIES, AND BATTERY-CONTAINING PRODUCTS AND THEIR BATTERIES.** (1) By July 1, 2027, the

department must complete an assessment of the opportunities and challenges associated with the end-of-life management of batteries that are not covered batteries, including:

(a) Large format batteries;

(b) Lead acid batteries that are greater than 11 pounds or are subject to the provisions of RCW 70A.205.505 through 70A.205.530;

(c) Batteries contained in medical devices, as specified in Title 21 U.S.C. Sec. 360c as it existed as of the effective date of this section; and

(d) Batteries not intended or designed to be easily removed by a customer that are contained in battery-containing products, including medical devices, and in electronic products that are not covered electronic products managed under an approved plan implemented under chapter 70A.500 RCW.

(2) The department must consult with the department of commerce and interested stakeholders in completing the assessment, including consultation with overburdened communities and vulnerable populations identified by the department under chapter 70A.02 RCW. The assessment must identify any needed adjustments to the stewardship program requirements established in this chapter that are necessary to maximize public health, safety, and environmental benefits, such as battery reuse.

(3) The assessment must consider:

(a) The different categories and uses of batteries and battery-containing products listed in subsection (1) of this section;

(b) The current economic value and reuse or recycling potential of large format batteries or large format battery components and a summary of studies examining the environmental and equity implications of displacing demand for new rare earth materials, critical materials, and other conflict materials through the reuse and recycling of batteries;

(c) The current methods by which unwanted batteries and battery-containing products listed in subsection (1) of this section are managed in Washington and nearby states and provinces;

(d) Challenges posed by the potential collection, management, and transport of batteries and battery-containing products listed in subsection (1) of this section, including challenges associated with removing batteries that were not intended or designed to be easily removable from products, other than by the manufacturer; and

(e) Which criteria of this chapter should apply to batteries and battery-containing products listed in subsection (1) of this section in a manner that is identical or analogous to the requirements applicable to covered batteries.

(4) By October 1, 2027, the department must submit a report to the appropriate committees of the legislature containing the findings of the assessment required in this section.

**NEW SECTION. Sec. 17. DEPARTMENT OF ECOLOGY RULE MAKING TO REQUIRE THE ESTABLISHMENT OF STEWARDSHIP PROGRAM PARTICIPATION REQUIREMENTS FOR LARGE FORMAT**

BATTERIES, MEDICAL DEVICES, LEAD ACID BATTERIES, AND BATTERY-CONTAINING PRODUCTS AND THEIR BATTERIES. (1) By January 1, 2030, the department may, but is not required to, adopt rules that require producers of batteries and battery-containing products assessed in section 16 of this act to participate in a stewardship program that achieves environmentally positive outcomes similar to those achieved by a battery stewardship program for medium format and portable batteries. As part of this rule, the department may apply some or all of the provisions of section 15 of this act to these batteries and battery-containing products. Nothing in this subsection restricts the department from adopting or updating rules after January 1, 2030, provided that the department has adopted rules under this section prior to January 1, 2030.

(2) Any rules adopted by the department under this section must require producers of batteries and battery-containing products assessed in section 16 of this act to participate in a stewardship program by no earlier than July 1, 2031.

(3) In adopting rules, the department must consider the results of the assessment required under section 16 of this act and involve the expertise of the department's recycling development center created in chapter 70A.240 RCW.

(4) The department must delay or exclude categories of batteries or battery-containing products, including categories of large format batteries and batteries that are excluded from the definition of a covered battery in section 2 of this act, based on the results of the assessment required under section 16 of this act, from stewardship program requirements, if the department determines that stewardship program requirements are infeasible for a category of batteries or battery-containing products because:

(a) An existing industry or other battery management system exists for the battery or battery-containing product category covered by the assessment in section 16 of this act that currently attains a rate of collection that exceeds 95 percent of the number of that category of batteries sold in Washington each year, and the existing battery management system processes the batteries using environmentally sound management practices; or

(b) A delay or exclusion from program participation requirements is necessary to protect human health or the environment.

(5) The department must exclude from any rules adopted by the department under this section any large format batteries contained in or originating from electric vehicles if, by July 1, 2030, electric vehicle batteries are managed under state law in a manner that achieves similar outcomes to the program created in this chapter.

(6) In addition to the exemptions established in subsections (4) and (5) of this section, the department may exclude producers from some or all of the stewardship program requirements under the rules adopted by the department, based on other factors determined by the department.

NEW SECTION. **Sec. 18.** DEPARTMENT OF ECOLOGY RECOMMENDATIONS FOR MANAGEMENT OF ELECTRIC VEHICLE BATTERIES. (1) By November 30, 2023, the department of ecology must submit a report to the appropriate committees of the legislature on preliminary policy recommendations for the collection and management of electric vehicle batteries. By April 30, 2024, the department of ecology must report to the appropriate committees of the legislature on final policy recommendations for the collection and management of electric vehicle batteries.

(2) In developing the recommendations under subsection (1) of this section, the department of ecology must:

(a) Solicit input from representatives of automotive wrecking and salvage yards, solid waste collection and processing companies, local governments, environmental organizations, electric vehicle manufacturers, and any other interested parties; and

(b) Examine best practices in other states and jurisdictions.

NEW SECTION. **Sec. 19.** ANTITRUST. Producers or battery stewardship organizations acting on behalf of producers that prepare, submit, and implement a battery stewardship program plan pursuant to this chapter and who are thereby subject to regulation by the department are granted immunity from state laws relating to antitrust, restraint of trade, unfair trade practices, and other regulation of trade and commerce, for the limited purpose of planning, reporting, and operating a battery stewardship program, including:

(1) The creation, implementation, or management of a battery stewardship organization and any battery stewardship plan regardless of whether it is submitted, denied, or approved;

(2) The determination of the cost and structure of a battery stewardship plan; and

(3) The types or quantities of batteries being recycled or otherwise managed pursuant to this chapter.

NEW SECTION. **Sec. 20.** AUTHORITY OF THE UTILITIES AND TRANSPORTATION COMMISSION. Nothing in this chapter changes or limits the authority of the Washington utilities and transportation commission to regulate collection of solid waste, including curbside collection of residential recyclable materials, nor does this chapter change or limit the authority of a city or town to provide the service itself or by contract under RCW 81.77.020.

**"NEW SECTION. Sec. 1.** The legislature intends to use funds from the climate commitment act to promote the production and use of sustainable aviation fuels, thereby growing the clean energy sector, addressing greenhouse gas emissions, and creating family wage manufacturing jobs in Washington. Sustainable aviation fuels represent the most significant near and midterm opportunity for aviation to reduce its greenhouse gas emissions. The use of sustainable aviation fuels will also improve air quality for airport workers and communities surrounding airports. While many efforts are underway to advance the use of sustainable aviation fuels, this act is intended to assist and accelerate those efforts.
